Subpart E—Certification of Payments

§ 114.41 Certification of payments.

Except with respect of payments under sections 10 and 14 of the Act, payments to an applicant will be made only on the basis of a complete application satisfying conditions for payment under the Act and this part, and will be restricted in amount to the cost of providing minimum school facilities for unhoused children. With respect to such payments:

(a) The Federal share of the cost of a project which will be certified for payment, within the maximum otherwise payable under the Act (except as provided in section 8 thereof), will not exceed the cost of constructing minimum school facilities in the local educational agency nor the cost of constructing minimum school facilities for the estimated number of children who will be in the membership of the schools of such applicant at the close of the second year following the increase period under consideration and who will otherwise be unhoused; and

(b) Nothing in this part shall be deemed to bar an applicant, with the approval of the State educational agency, from using for an approved project, in addition to payments under this part, money otherwise obtained to provide a higher quality, larger, or better equipped school facility. The applicant will be required to show in such cases that the added cost is being met other than from payments under this part.

(20 U.S.C. 634, 638, 644(g))

(c) Payments to an eligible applicant whose maximum entitlement for a fiscal year includes pupils eligible for payment under section 5(a)(1), (2) or (3) of the Act as residing with a parent either residing on or employed on a low-rent housing property, as defined in the Act, will be made only after all other applications under subparagraphs (2) and (3) of section 5(a) have been approved for that fiscal year. The applications with entitlements computable on account of pupils eligible under these categories will be listed in a separate priority order in accordance with the priority index of the application as initially processed.

(20 U.S.C. 633)

§ 114.42 Certification of payments under section 14.

Payments to an applicant under section 14 of the Act will be made only on the basis of a complete application satisfying conditions for payment under the Act and this part, and will be restricted in amount to the cost of providing minimum school facilities for unhoused children; however:

(a) With respect to payments under section 14(a) of the Act, except for applications with respect to which the Commissioner has under § 114.35 waived the substantial percentage requirement, the Federal share of the cost of a project which will be certified for payment will not exceed the difference between (1) the cost of constructing minimum school facilities in the school district of the applicant for the estimated number of children who will be in membership in the schools of such applicant at the close of the second year following the close of the increase period under consideration and who will otherwise be without such facilities, and (2) the amount which the Commissioner determines to be practicably available to the applicant from other sources, including local sources (for example, unused bonding capacity), and State and other Federal sources (for example, payments by the United States under any other provisions of the Act or any other law). Such payments will be made upon such terms and in such amounts, subject to the provisions of section 14(a) of the Act and this part, as the Commissioner deems to be in the public interest.

(b) With respect to payments under section 14(b) of the Act, except for applications with respect to which the Commissioner has under § 114.36 waived the substantial percentage requirement, the Federal share of the cost of a project which will be certified for payment will not exceed that portion of the cost of constructing minimum school facilities in the school district of the applicant which the Commissioner determines (1) is attributable to children who reside on Indian lands and who will be in membership in the schools of such applicant at the close of the second year following the close of the increase period under consideration and who will otherwise be unhoused, and (2) has not been, and is not to be recovered by the applicant from other sources, including payments by the United States under any other provisions of the Act, or any other law.

(c) With respect to payments under section 14(c) of the Act, except for applications with respect to which the Commissioner has under § 114.37 waived the substantial percentage requirement, the Federal share of the cost of a project when certified for payment will not exceed the difference between (1) that portion of the cost of constructing minimum school facilities in the school district of the applicant that the Commissioner determines is attributable to children who are inadequately housed by minimum school facilities and who will be in membership in the schools of such applicant at the close of the second year following the close of the increase period under consideration and who will otherwise be without such facilities, and (2) the amount which the Commissioner determines to be practicably available to the applicant from other sources, including local sources (for example, unused bonding capacity), State and other Federal

V 40168
APR 8 75
XUM

sources (for example, payments by the United States under any other provisions of the Act or any other law). Such payments may be made upon such terms and in such amounts, subject to the provisions of section 14(c) of the Act and this part, as the Commissioner may consider to be in the public interest, less the amount of financial resources which the Commissioner determines to be practicably available to the applicant from local, State or other Federal sources.

(20 U.S.C. 644(c))

§ 114.43 Payments.

(a) *Basis of payments.* The initial payment, except under section 10 of the Act, will be 10 percent of the approved estimated Federal share of the project cost. Payment of the remainder of the estimated Federal share shall not exceed the cost of the project.

(b) *Excess cost contracts.* No construction contract exceeding the estimated cost as shown in the project application shall be entered into without prior approval of the Commissioner.

(20 U.S.C. 634, 636, 637, 644(f), 1232(c); FMC 74-7)

Subpart F—General Provisions With Regard to Construction of Minimum School Facilities

§ 114.51 Works of art.

The cost of works of art (as defined in Part 100 of the General Provisions for Office of Education Programs (45 CFR Part 100)) when included in an approved construction project financed in whole or in part with Federal funds under the Act, shall not exceed 1 percent of the Federal share of the total cost of the project, exclusive of the cost of movable equipment. Nothing contained in this part, however, shall be deemed to bar an applicant, with approval of the State educational agency, from including works of art in excess of 1 percent of such Federal share with the use of nonfederal money.

(20 U.S.C. 645(10)(B))

§ 114.53 Excellence of architecture and design of minimum school facilities.

Local educational agencies shall give due consideration to excellence of architecture and design when constructing minimum school facilities under the Act. The applicant shall furnish an appropriate assurance to this effect and any other evidence that such consideration has been given as may be required by the Commissioner.

(20 U.S.C. 645(10)(A))

§ 114.55 Applicability of General Provisions Regulations.

(a) Provisions contained in Parts 100 and 100a of the regulations entitled "General Provisions for Office of Education Programs" are applicable to programs conducted under the Act, with the following exceptions:

(1) Section 100a.26b (Criteria for review of applications);

(2) Section 100a.161 (Title to site);

(3) Subpart I, §§ 100a.209–.220 (Property management requirements);

(4) Section 100a.233 (Sale of real and personal property); and

(5) Section 100a.235 (Other program income).

(b) It should be noted that certain of the provisions in such regulations are not, by their own terms, pertinent to activities which may be conducted pursuant to the Act, such as:

(1) Section 100a.19 (Cooperative arrangements);

(2) Section 100a.43 (Application for Federal assistance (nonconstruction projects));

(3) Section 100a.45 (Application for Federal assistance (short form));

(4) Section 100a.62 (Payments methods for nonconstruction projects);

(5) Section 100a.82 (Institutions of higher education);

(6) Section 100a.83 (Nonprofit organizations);

(7) Subpart H, §§ 100a.90–94 (Matching and cost sharing);

(8) Section 100a.122 (Loan guarantees);

(9) Section 100a.234 (Royalties); and

(10) Section 100a.258 (Leasing facilities).

§ 114.58 Procurement of school facilities.

(a) All procurement of school facilities under the Act, including initial equipment, shall be made in accordance with Subpart I of Part 100a of the General Provisions for Office of Education Programs (45 CFR Part 100a, Subpart I).

(b) Plans and specifications, as appropriate, of school facilities provided under sections 9, 10, and 14 of the Act must, in advance of progressing to the next development stage, be approved by the Commissioner from the viewpoint of educational adequacy.

(c) Bid and contract documents shall be submitted to the Commissioner for his approval in accordance with such procedures as he may prescribe.

(d) Equipment procured with payments under the Act must be approved by the Commissioner before invitations for bids or requests for proposals as to the acquisition of such equipment are issued. In order to obtain such approval, a list of all equipment to be procured (indicating estimated quantities, costs and specifications) must be provided to the Commissioner for his prior approval.

(e) When total funds required for the low equipment bid or proposal received are in excess of the approved equipment budget, additional funds needed to make the award must be provided by:

(1) Adjusting the approved estimate of other budget items (if surplus funds can be identified) for transfer to the equipment budget item;

(2) The applicant providing all the necessary additional funds from sources other than the Act; or

(3) Increasing the Federal contribution to the project if entitlement is available.

A written proposal must be submitted to the appropriate O. E. Regional Program Officer for review and recommendation for decision regarding how such additional funds are to be provided. If method (i) is proposed, those approved project budget items in which there are surplus funds available for transfer must be identified. If method (ii) is proposed a written certification signed by the applicant's authorized representative must be furnished, stating that the cost of the bid overrun will be financed with applicant funds. Regardless of how the cost of the bid overrun is financed, it will be necessary to obtain prior approval in order that a revised project budget may be issued amending the approved equipment budget estimate.

(f) Substantial changes in lists of equipment previously approved to be procured must be approved in advance.

(g) A list of equipment procured with payments under the Act and the cost thereof must be furnished by the applicant and certified as having been received before final payment will be made.

(20 U.S.C. 636, 637)

Subpart G—Sections 9 and 10

§ 114.61 Conditions for assistance under section 10.

The Commissioner may make arrangements for constructing or otherwise providing minimum school facilities under section 10 of the Act under one or more of the following conditions:

(a) No tax revenues of the State or any political subdivision thereof may be expended for constructing or for otherwise providing school facilities on Federal property which is leased to the local educational agency which will operate the school for pupils residing on Federal property; or

(b) The assurances and certifications described in § 114.65 have been provided; or

(c) Other conditions, as specified in section 10 of the Act, exist.

(20 U.S.C. 640 (a), (b))

§ 114.62 Requests for section 10 school construction.

(a) In order to be approved by the Commissioner, the request for school facilities under section 10 of the Act must be (1) made by the official in control of the Federal property on which the facilities are to be located; (2) addressed to the Commissioner, Attention: Director, Division of School Assistance in Federally Affected Areas; and (3) submitted through the State educational agency for its review and recommendations.

(b) After reviewing the request and making recommendations relative to it, the State educational agency shall transmit a copy of such recommendations and the original copy of the request to the Commissioner including, when applicable, the legal citations which prohibit State or local funds from being expended for capital improvements on Federal property. Two copies of such materials must also be transmitted to the appropriate Regional O.E. Program Officer. The original request as submitted through the State educational agency will be regarded by the Commissioner as the official request.

(c) The request for school facilities to be constructed or otherwise provided under section 10 of the Act shall contain the following data:

(1) Name of the agency which will operate the school program;

(2) Assurance that an adequate site will be made available for location of the proposed facility. This site shall be subject to final review and recommendation for approval or disapproval by the appropriate Regional O.E. Program Officer after consultation with the State educational agency and the Regional Engineer, ROFEC. (A site permit including the metes and bounds description of the approved site must be received by the Commissioner before any planning activity will be authorized.)

(3) Assurance that funds under section 10 of the Act will not be used for any off-site construction.

(4) Assurance that the request will be coordinated with officials of the appropriate local educational agency when the facilities to be constructed or otherwise provided are not to be operated by a Federal agency;

(5) Pupil data, including:

(i) Number of pupils, by grade, who reside on and now attend school on the Federal property; and

(ii) Estimated number of pupils, by grade, who will reside on and attend school on the Federal property by the end of the fiscal year following the fiscal year in which the application is filed;

(6) The following data relating to family housing:

(i) Number of occupied family housing units now located on the Federal property;

(ii) Number of unoccupied family housing units now located on the Federal property;

(iii) Number of housing units to be completed on the Federal property (for which construction funds have been authorized in the current Department of Defense appropriation); and

(iv) Number of trailer or other temporary housing units. (Such units must be reported separately); and

(7) Narrative supporting statement, as may be appropriate.

(20 U.S.C. 640)

§ 114.63 Property management: Sections 9 and 10.

(a) School facilities, including initial equipment, provided by the Commissioner through direct Federal construction under sections 9 and 10 of the Act on land made available to the Commissioner for this purpose by a local educational agency or by a Federal agency shall be managed in accordance with FMC 74-7. Attachment N and this part.

(b) A site permit authorizing the use of land must be issued to the Commissioner by the Federal agency in control of the Federal property or by the local educational agency prior to the constructing or otherwise providing school facilities thereon by the Commissioner under the provisions of sections 9 and 10 of the Act. Such permit must contain:

(1) A metes and bounds description of the land to be used for the facility;

(2) Assurance of the right, if necessary, to connect to the base utility system as extended to the site boundary, or to connect with public utility systems, if necessary; and

(3) Assurance of adequate police and fire protection and construction and maintenance of roads.

(c) The Commissioner may issue to the appropriate Federal agency or local educational agency a use permit granting such agency the right to use and occupy, for school purposes, federally owned school facilities constructed under section 9 or 10 of the Act for which the Commissioner is accountable.

(1) Such use permits granted to a Federal agency must include assurances that such agency will:

(i) Conduct in such facilities an educational program for children residing on the Federal installation, comparable to that afforded children in comparable local school systems under the laws of the State;

(ii) Pay all charges for utilities and services furnished to the property;

(iii) Use the property during the term of the permit subject to such rules and regulations prescribed by the officer in charge of the installation as are consistent with the purposes for which the property is permitted;

(iv) Maintain and keep the property in good repair and operating condition on the present site, subject to reasonable instructions of the Commissioner, and immediately upon the termination of the permit as therein provided (will deliver possession of the same) to the Commissioner in as good condition and state of repair as the property is in when delivered to the agency, reasonable wear and tear and loss or damage caused by war excepted. (Repairs to or reconstruction of the property requiring expenditures in excess of $15,000.000 shall be upon plans approved by the Commissioner);

(v) Permit the Commissioner, or his authorized representatives, at any reasonable time to enter upon and inspect the property;

(vi) Submit current inventories, at the Commissioner's request, of the equipment, furnishings and appurtenances located in the facilities or on the site;

(vii) Assume responsibility, without obligation to the Commissioner, to do all things necessary and proper on its part under the applicable laws and regulations in order to settle or deny (as may be appropriate under the circumstances) liability for all claims, if any, made against the United States of America or any of its agents for damages on account of the injury to or death of any person or the damages to or destruction of any property connected with, or arising out of, the agency's use of the permitted premises;

(viii) Not assign or transfer its rights or interest under this permit, or transfer possession of, or remove, or dispose of the property or any part thereof, including any and all movable school equipment provided under section 10 of the Act (or, if applicable, under section 6 of Pub. L. 81-874) without the Commissioner's written consent; and

(ix) Assure that the operation of school facilities which may be located on the property shall be conducted without discrimination on the basis of race, color, sex, or national origin.

(2) Such use permits granted to a local educational agency shall include assurances that such agency will:

(i) Conduct in such facilities an educational program for children residing on the Federal installation, as a part of the agency's school system in accordance with the laws of the State;

(ii) Pay all charges for utilities and services furnished to the property. Payment shall be made directly to the producing or supplying company or to the Federal agency for the utilities and services produced or supplied by each, respectively;

(iii) Use the property during the term of the permit subject to such reasonable rules and regulations relative to ingress, egress, security, and non-school use as may be prescribed by the head of the Federal agency, or the officer in charge of the installation, with the approval of the Commissioner;

(iv) Maintain and keep the property in good repair and operating condition on the present site, subject to reasonable instructions of the Commissioner and, immediately upon the termination of the permit as therein provided, shall return the property to the Commissioner in as good condition and state of repair as the property is in when delivered to the agency, reasonable wear and tear and loss or damage caused by war excepted. (Repairs to or reconstruction of the property requiring expenditures in excess of $15,000.00 require prior plans approved by the Commissioner);

(v) Procure and maintain insurance for the repair and reconstruction of the facilities due to damages occasioned by risks (such as fire and the elements) to which the property may be exposed and such additional insurance as the Commissioner may require. Further, such local educational agency must provide assurance that it will promptly deliver proof of such coverage to the Commissioner, and shall give due notice to the proper insurance companies and to the Commissioner of any loss or damage to the property;

(vi) Remit to the United States any payment received by it pursuant to insurance provided which may be in excess of the cost of such repairs;

(vii) Permit the Commissioner, or his authorized representatives, at any reasonable time, to enter upon and inspect the property, and submit at the Commissioner's request current inventories of the equipment, furnishings, and appurtenances located in the facilities or on the site;

(viii) Save the United States and the Commissioner harmless from any liability or claim arising from the agency's possession, use, maintenance, and operation of the property or the fulfillment of its obligation hereunder and if the agency is insured against tort liability

V 40168 APR 8 75 XUM

with respect to other school facilities which it owns and operates, it shall carry similar insurance with respect to the property herein described;

(ix) Not assign or transfer its rights or interest under the permit, transfer possession of, or remove, or dispose of the property or any part thereof, or create or permit to be created a lien or charge upon or claim against the property or any part thereof, including any and all movable school equipment provided under sections 9 and 10 of the Act without the Commissioner's written consent;

(x) Assure that operation of school facilities which may be located on the property shall be conducted without discrimination on the basis of race, color, sex or national origin; and

(xi) In the case of a local educational agency whose permit includes living quarters for teachers and other local educational agency employees which were constructed under provisions of section 10 (former sections 204 and 310) of the Act and for which rental or other such fees are charged, the local educational agency must assure the Commissioner that it will submit, through the State educational agency, a revenue and expenditure report in such form as the Commissioner may require within 30 days after the end of each of the first three quarters of each year. The agency must also assure the Commissioner that, at the end of the last quarter on June 30, it will submit through the State educational agency a final revenue and expenditure report and an audit thereof.

(3) Use permits may be subject to revocation by the Commissioner for any of the following reasons:

(i) Failure of the agency to operate the property in accordance with the terms and conditions of the permit or the arrangements between the Commissioner and the agency under section 6 of Pub. L. 81–874;

(ii) Determination by the Commissioner that other arrangements will better serve the interests of the United States or the children involved;

(iii) Termination of the permit for the use of the land granted to the Commissioner by the controlling Federal agency; or

(iv) Termination of the authority and responsibility of the Commissioner to provide school facilities and make arrangements for free public education for children who reside on Federal establishments under the Act and Pub. L. 81–874, or subsequent laws of the United States.

(20 U.S.C. 639, 640(a) FMC 74–7))

§ 114.64 Disposal of federally owned temporary school facilities provided under section 9.

(a) The Commissioner may transfer to the local educational agency title to temporary school facilities constructed under section 9 (former sections 203 and 309) of the Act if:

(1) The local educational agency to which the facilities were provided makes a written request to the Commissioner for transfer of the facilities;

(2) Such agency gives assurance of a continuing need for the temporary school facilities for school purposes;

(3) Such agency certifies that it has title to the site on which they are located, or a leasehold interest in such site for a period of time equivalent to the usable life of the facilities; and

(4) The State educational agency certifies that the use of such facilities is not inconsistent with overall State plans.

(b) The Commissioner may, as appropriate, declare temporary school facilities surplus to the needs of the local educational agency and may dispose of the facilities under procedures established by the Surplus Property Utilization Division, DHEW.

(20 U.S.C. 639)

§ 114.65 Transfer of title of federally owned school facilities provided under section 10 to local educational agencies.

The Commissioner will transfer to a local educational agency all the right, title, and interest of the United States in and to any facilities provided under section 10 of the Act if the following conditions have been met:

(a) The local educational agency of the school district in which the federally owned school facility is located makes written request to the Commissioner for transfer of the facility;

(b) Such agency does the following: (1) Certifies that the school facilities are located within the boundaries of its school district; (2) shows that there is a need on a continuing basis for use of the school facilities by the school district for public educational purposes; and (3) gives assurance that the facilities will be used as long as needed to house the children living on Federal property for whom they were constructed, and beyond that time will continue to use such facilities for public educational purposes for any remaining usable life of the facilities;

(c) Such agency certifies that it has acquired or will acquire title to the site, or a leasehold interest in the site, or right to use and occupy the facilities located on the site for a period of time equivalent to the remaining usable life of the school facilities. Evidence of title to the site, leasehold, or other interest in the site must be presented before title to the federally owned facilities will be granted;

(d) Such agency gives assurance that the educational program provided in such transferred facilities will be conducted without discrimination on the basis of race, color, sex, or national origin;

(e) The State educational agency certifies that, under State law, such local agency is legally authorized to spend State or local funds to construct, repair, maintain, and operate school facilities for public educational purposes on land leased to it from the Federal Government; and

(f) Such State agency certifies that the use of such facilities by such local agency is not inconsistent with overall State plans for providing school facilities in the State.

The Commissioner will consider a request for the transfer to a local educational agency of school equipment provided under section 10 of the Act (or under section 6 of Pub. L. 81–874) in certain circumstances even if the school facilities in which the equipment is located are not to be transferred. Requests for the transfer of such equipment shall include information described in paragraphs (a), (b), (d), (e), and (f) of this section.

(20 U.S.C. 640(b))

4.2 Disposal or transfer of ownership of federally owned school facilities.

Part 1—Introduction

SECTION 1.1 *Scope of guidelines.*

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to Federal assistance under sections 1 through 15 of Public Law 81–815 (School Construction in Areas Affected by Federal Activities). The guidelines are not requirements. Where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 631; 113 Cong. Rec. 5936, 5935 (daily ed. May 23, 1967); *United States v. Jefferson County Board of Education*, 372 F. 2d 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline, in the parentheses following the guideline. For example, if the legal authority for the guideline is section 5 of the Act (20 U.S.C. 635), and the guideline affects section 114.31 of the regulation (45 CFR 114.31), the following will be placed on the line immediately following the guideline: (20 U.S.C. 635; 45 CFR 114.31). If no particular section of the regulation is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

(c) These guidelines rescind all bulletins, memoranda, and announcements previously issued by the Division of School Assistance in Federally Affected Areas.

SECTION 1.2 *Applicable statutes and regulations.*

The program of assistance for school construction in federally affected areas is to be carried out in accordance with applicable Federal statutes and regulations. Pertinent provisions include Pub. L. 81–815 (20 U.S.C. 631–645), the General Education Provisions Act (20 U.S.C. 1221 et seq.), the regulations for Pub. L. 81–815 (45 CFR Part 114), the General Provisions for Office of Education Programs (45 CFR Parts 100 and 100a) except as specified in 45 CFR 114.66 and Federal Management Circular 74–7.

(20 U.S.C. 631–645, 1221 et seq.; 45 CFR Parts 100, 114; FMC 74–7)

Part 2—Applications of Local Educational Agencies

SECTION 2.1 *Purpose of the Act.*

Congress, in recognition of the impact which certain Federal activities may have on school construction needs, has declared it to be the purpose of the Act to provide assistance for construction of urgently needed minimum school facilities in certain areas affected by Federal activities.

(20 U.S.C. 631)

SECTION 2.2 *Categories of Federal impact.*

The following categories of Federal impact for the purpose of making Federal payments to local educational agencies are discussed in these guidelines:

(a) Section 5(a)(1): increase in numbers of children who reside on Federal property;

(20 U.S.C. 635(a)(1))

(b) Section 5(a)(2): increase in numbers of children who reside with a parent employed on Federal property situated in whole or in part in the same State as a school district or within a reasonable commuting distance of such district, or have a parent on active duty in the Uniformed Services;

(20 U.S.C. 635(a)(2))

(c) Section 5(a)(3): increase in numbers of children whose membership results from activities of the United States carried on either directly or through a contractor;

(20 U.S.C. 635(a)(3))

(d) Sections 14 (a) and (b): membership residing on Indian lands and which has not formed or will not form the basis for payment under other provisions of the Act; and

(20 U.S.C. 644 (a), (b))

(e) Section 14(c): inadequately housed children in financially distressed school districts where Federal property constitutes a substantial part of the school district.

(20 U.S.C. 644(c))

SECTION 2.3 *Who may apply.*

Applications may be filed by a local educational agency as defined in section 15(11) of the Act and § 114.1(m) of the Regulations.

(20 U.S.C. 645(11); 45 CFR 114.1(m))

SECTION 2.4 *How to apply.*

Application forms, instructions, advice, and assistance may be obtained from each State educational agency. All questions pertaining to the preparation and filing of preapplications, applications, and requests for materials should be directed to the State Representative for School Assistance, who will respond or may forward the inquiries, where appropriate, to the Commissioner of Education.

(20 U.S.C. 636; 45 CFR 114.1 (l), (k))

SECTION 2.5 *When to apply.*

Cutoff dates for filing preapplications and applications will, as appropriate, be established by the Commissioner and published in the FEDERAL REGISTER. Copies of these periodic announcements of the cutoff dates appearing in the FEDERAL REGISTER will be provided to the State Representatives for School Assistance. Such State Representatives may be contacted for up-to-date information on current cutoff dates.

(20 U.S.C. 633, 636, 644; 45 CFR 114.1(k), 114.2)

SECTION 2.6 *Processing procedures.*

Upon receipt by the Commissioner of a preapplication for assistance:

(a) The preapplication will be tentatively reviewed on the basis of data available, and if the preapplication appears to be eligible, a tentative entitlement and priority index will be computed, the applicant will be notified of the tentative determination. All preapplications will be listed in priority rank order accordingly on a list to be maintained by the Commissioner on a nationwide basis.

(b) Upon verification of the applicant's data as shown on the preapplication, a firm maximum entitlement and priority index will be determined for each eligible applicant, the application will be listed in priority rank order, and the applicant will be informed of the basis of such action; if ineligible, the applicant will be informed as to the reasons therefor.

(c) When monies are available to reach the priority of the preapplication, funds will be reserved tentatively on the basis of the best information available at the time and the applicant will be advised to file a complete application for review and approval pursuant to 45 CFR Part 100a, Subpart B.

(20 U.S.C. 633, 636, 644, 645(7); 45 CFR 114.1 (l), (k), (s), 114.5, 114.6)

SECTION 2.7 *Instructions relating to construction of approved and funded projects.*

(a) *General.* (1) The Office of Facilities Engineering and Property Management Agency of the Department of Health, Education, and Welfare (hereinafter referred to as OFEPM) and the Regional Office of Facilities Engineering and Property Management (hereinafter referred to as ROFEPM) will provide, upon request, technical supervision and services to applicants in connection with the construction of school facilities. When appropriate, OE Program Officers (SAFA), in cooperation with representative of ROFEPM, will assist with the planning of approved projects, including examination of preliminary and final project plans and specifications, periodic inspection of construction progress and determination of the propriety of making partial payments of the estimated Federal share of the cost as construction progresses. Supervision of these technical services will be performed by the Regional Engineer, ROFEPM.

(2) The Regional Engineer, ROFEPM, may assist in preconstruction and construction activities to assure conformity with the requirements of the Act. Approval of all proposed preconstruction documents (as described in § 114.58 of the regulations), may be obtained directly from the Regional Engineer. His assistance prior to the preparation of these and similar documents will be provided upon request. In this connection, he may suggest a preliminary conference with the project architect and others if that seems desirable. The Regional Engineer will provide sufficient copies of all forms which may be used to prepare the contract documents required for the project and will aid in the review of bids received and other technical details.

(3) Special assistance may also be provided to eligible applicants under the provisions of section 14 of the Act by SAFA Program Officers.

(20 U.S.C. 636, 637, 644)

(b) *Minimum standards of construction.* Plans and specifications for a project must comply with such Federal, State, and local laws, ordinances and regulations pertaining to standards of construction and safety requirements, as may be applicable.

(16 Comp. Gen. 948 (1937))

(c) *Preparation of plans and specifications.* Upon receipt of the notice of approval of the complete application, work may be commenced on preparing plans and specifications which conform to the project description as shown in the complete application, or with such revisions as may be necessary. After all necessary State approvals have been obtained, such plans and specifications must be forwarded for the approval of the Commissioner as required by § 114.58 of the regulations. Such documents may be forwarded as follows: One copy of the final plans and specifications to the Regional Engineer (ROFEPM) and one copy to the appropriate Regional OE Program Officer (SAFA).

(20 U.S.C. 636(b)(1)(A), 637(a); 45 CFR 114.58)

(1) *Review by Regional OE Program Officer.* The Regional OE Program Officer will review the final plans and specifications for conformity with the project description as approved by the Commissioner and recommend approval or disapproval action.

(2) *Review by Regional Engineer, ROFEPM.* The Regional Engineer will review the final plans and specifications for structural adequacy, and may suggest structural changes or revisions. A notice of approval will advise the date on which advertising for bids may begin. A notice of disapproval will state the reasons for such action.

(20 U.S.C. 633, 636(b), 637(a); 45 CFR 114.58)

SECTION 2.8 *Instructions relating to purchasing non-expendable property (initial equipment) acquired with Federal funds under sections 5, 8, 9, and 14 of the Act.*

The procurement of initial equipment with Federal funds under sections 5, 8, 9, and 14 of the Act must be made in accordance with 45 CFR Part 100a, Subpart I. Such procurement must be approved in advance by the OE Regional Program Officer (SAFA) in accordance with the regulations at 45 CFR 114.58.

A copy of the pertinent documents must be forwarded to and reviewed and recommended for approval by the Regional OE Program Officer before payment may be made as described in the regulations at 45 CFR 114.43.

(20 U.S.C. 636, 644; 45 CFR 114.43, 114.58)

V 40168
APR 8 75
XUM

Part 3—Requests of Federal Agencies for School Facilities under Section 10 of the Act

SECTION 3.1 *Application procedures.*

Requests for school construction to be performed under section 10 of the Act may be made in letter form by the official in control of the Federal property on which the facilities are to be located, in accordance with procedures described in regulations 45 CFR 114.58, 114.61, 114.62, and 114.63.

(20 U.S.C. 640(b); 45 CFR 114.58, 114.61, 114.62, 114.63)

SECTION 3.2 *Processing procedures.*

Upon receipt by the Commissioner of the request:

(a) The request will be reviewed on the basis of data available, and if the request for assistance appears to be approvable a tentative cost estimate, priority grouping, and priority index will be computed and assigned. If the request is determined not to be approvable, the Federal agency will be so informed.

(b) Upon verification of data submitted as the basis of the request, the Commissioner may determine that a project should be approved. The project will be assigned a priority index within a priority group and the Regional Engineer, ROFEPM will be requested to estimate the cost of the project to be approved.

(c) When monies are available to reach the priority of the project and funds are approved for direct Federal construction, the appropriate parties will be so notified.

(20 U.S.C. 640; 45 CFR 114.4, 114.5, 114.6, 114.61, 114.62)

SECTION 3.3 *Actions relating to construction of approved and funded section 10 projects.*

(a) The Commissioner will consider recommendations of local and State education authorities, the Regional OE Program Officer, representatives of ROFEPM, and the Federal agency making the application. Educational consultants, if appropriate, may also be engaged by the Commissioner for the purpose of assisting in developing educational specifications and otherwise assisting in developing the project.

(b) The Regional OE Program Officer will:

(1) Verify the data submitted as the basis of the application and make recommendations to the Division of SAFA on the need for the requested school facilities;

(2) Review the proposed school site for educational adequacy. Request the Federal agency controlling the property to prepare the metes and bounds description, including a plot plan, to be forwarded to the Division of SAFA in compliance with § 114.63(b) of the regulations;

(3) Review design sketches and preliminary plans and outline specifications for educational adequacy and recommend to the Division of SAFA approval or disapproval of these documents and the reasons therefor;

(4) Review the final plans and specifications for educational adequacy and conformance with the approved project description and the approved preliminary plans and specifications and notify the Regional Engineer, ROFEPM, of approval or disapproval by the Commissioner of such documents; and

(5) Review all requests for initial minimum equipment submitted pursuant to § 114.58(d) and notify the OE Regional Contracting Officer and the Regional Engineer, ROFEPM, of approval or disapproval by the Commissioner. A list of initial equipment will be provided to the Regional Contracting Officer who will supervise its acquisition.

(20 U.S.C. 1221c(c)(2)(C); 20 U.S.C. 640(a)(b))

(c) The Regional Engineer ROFEPM will:

(1) Furnish the Division of SAFA with an estimate of the cost of the project to be constructed, and revisions of such estimate as may be appropriate;

(2) Negotiate architectural contracts for preparation of plans and specifications, after the estimated cost of constructing the project has been approved by the Division of SAFA;

(3) Request necessary State and local agency approvals of final plans and specifications;

(4) Secure permits for access and right of entry to project site;

(5) Monitor the execution of a contract for the construction of school facilities after approval of final plans and specifications; and

(6) Submit a final project summary stating all project costs including initial (movable) school equipment costs.

(d) The Division of SAFA will:

(1) Assist in the development of and approve the final project description;

(2) Approve the project funding and disburse funds in the appropriate manner to initiate the project;

(3) Review and approve sketches and preliminary plans and specifications; and

(4) Prepare use permits for acceptance by the operating agency upon completion of the project.

(20 U.S.C. 640(a), (b); 45 CFR 114.61, 114.62, 114.63, 114.65)

Part 4—Property Management of Facilities Constructed Under Section 10 and Certain Facilities Constructed Under Section 9 of the Act

SECTION 4.1 *Agencies may be granted use permits.*

The Federal agency or local educational agency to which use of the completed school facilities is granted, must maintain such school facilities, including equipment, in good conditions in accordance with § 114.63(c)(1)(iv) and (c)(2)(iv). The Commissioner may request periodic reports to be submitted in order to assure that the facilities and equipment are properly cared for and maintained.

(20 U.S.C. 639, 640; 45 CFR 114.63)

SECTION 4.2 *Disposal or transfer of ownership of federally owned school facilities.*

The Commissioner, upon receipt of a written request from a local educational agency in which school facilities have been provided under section 9 or 10 of the Act, may make arrangements to transfer ownership of such agency in accordance with § 114.65 of the regulations.

(20 U.S.C. 639, 640(b); 45 CFR 114.64, 114.65)

PART 115—ASSISTANCE FOR LOCAL EDUCATIONAL AGENCIES IN AREAS AFFECTED BY FEDERAL ACTIVITIES AND ARRANGEMENTS FOR EDUCATION OF CHILDREN WHERE LOCAL EDUCATIONAL AGENCIES CANNOT PROVIDE SUITABLE FREE PUBLIC EDUCATION

Subpart A—Scope and Definitions

Sec.
115.1 Scope.
115.3 Definitions.

Subpart B—Applications

115.10 Applications.
115.11 Final date for filing applications.
115.12 Applications under sections 2, 3, and 4 received after deadline not considered for payment.
115.13 Notification to applicants.
115.14 Assurances and parental participation with respect to Indian children for applications under section 3.
115.16 Civil Rights.

Subpart C—Payment

115.20 Changes in boundaries, classification, and governing authority of applicants.
115.21 Payment under section 3 when percentage eligibility requirement is not met.
115.22 Election under section 4(c).
115.23 Payments under section 4(a).
115.24 Reduction of financial assistance under sections 2, 3, and 4 due to insufficient appropriations.
115.25 Adjustment in entitlement for reductions in State aid.
115.26 Failure or refusal of a local educational agency to educate children living on Federal property.
115.27 Further adjustments to entitlements.

Subpart D—Generally Comparable Local Educational Agencies; Local Contribution Rate

115.30 Determination of generally comparable local educational agencies.
115.31 Computation of local contribution rate.
115.32 Increase in or special local contribution rate.

Subpart E—Records and Reports Required by the Commissioner

115.40 Records and reports required of applicants.
115.41 Final reports by applicants under sections 2, 3, and 4.
115.42 Retention of records.
115.43 Reports from other Federal agencies.

Subpart F—Arrangements Under Section 6 of the Act

115.50 Arrangements under section 6(a).
115.51 Arrangements under section 6(b).
115.52 Arrangements under section 6(c).
115.53 Proposal for arrangements under section 6.
115.54 Determinations by the Commissioner pursuant to section 6.
115.55 Notice of Commissioner's action.
115.56 Arrangements under section 402(a).
115.57 Expenditures.
115.58 Reports.
115.59 Termination of arrangements.

AUTHORITY: Pub. L. 81-874, as amended, 64 Stat. 1100 (20 U.S.C. 236-244), unless otherwise noted.

Subpart A—Scope and Definitions

§ 115.1 Scope.

The regulations in this part govern the provision of financial assistant and the making of arrangements under the Act with regard to local educational agencies in areas affected by Federal activities.

(20 U.S.C. 242(b))

§ 115.3 Definitions.

As used in this part:

(a) "Act" means Titles I (except section 7 thereof) and IV of Pub. L. 874, 81st Congress (64 Stat. 1100 (20 U.S.C. 236-244)), as amended.

(b) "Applicant" means any local educational agency which files an application for financial assistance under sections 2, 3, or 4 of the Act and the regulations in this part, but does not include departments or agencies proposing arrangements under section 6 of the Act.

(20 U.S.C. 240(a))

(c) "Application" means Form RSF-1, "Application for Financial Assistance for Current Expenditures for Public Schools in Areas Affected by Federal Activities" properly completed and executed, including amendments thereto, and, to the extent indicated by the applicant, any document or documents in support thereof, filed by or on behalf of an applicant requesting financial assistance under the Act and these regulations.

(20 U.S.C. 240(a), 242(b))

(d) "Arrangements" means an agreement entered into between the Commissioner and a local educational agency or a Federal department or agency for the provision of free public education under section 6 of the Act.

(20 U.S.C. 241(a))

(e) "Average daily attendance of federally connected pupils" in each pertinent category of federally connected children (sections 3(a), 3(b), and 4(a)) means the number determined in accordance with section 403(10) of the Act in the manner described in this paragraph. At the option of the applicant, a second membership count may be made as set forth in paragraph (f) of this section.

(1) At some specific date not earlier than the fourth day of the legal school session of the regular school year and prior to the cutoff date for filing Form RSF-1, a membership count of all pupils claimed in the various federally connected categories must be made either by (i) conducting a parent-pupil survey to determine the parent's employment or active duty assignment in the uniformed services and the child's residence on Federal property or by (ii) obtaining certifications from the various employers and the appropriate housing officials as to the employment of the parents of the children claimed or residence of such children on the specific date involved. A membership count of all pupils must be made as of this specific date, which is to constitute the official membership report of the applicant local educational agency for that date.

(2) The percentage of pupils in each of the federally connected categories is determined by dividing the membership count in each such category by the total membership of all pupils receiving free public education on the date of the count.

(3) The average daily attendance (hereinafter referred to as ADA) of federally connected pupils shall then be obtained in one of the following ways:

(i) For the purposes of the application Form RSF-1, each of the percentages obtained in paragraph (e)(2) shall be multiplied by the ADA to the date of the count of the total membership (as reported in the official membership and ADA report of the applicant district for such reporting period); or

(ii) For the purposes of the final report (Form RSF-3), each of the percentages obtained in paragraph (e)(2) shall be multiplied by the total ADA for the period July 1 to the following June 30. Such total ADA shall include ADA based upon free public education provided in summer school as determined in accordance with State law.

(20 U.S.C. 238(a), (b), 239(a), 244(10))

(f) "Average daily attendance of federally connected pupils when determined by two counts of all pupils" means the number determined in the manner described in this paragraph.

(1) First count of membership of each category of federally connected children must be made as described in paragraph (e) of this section. At the option of the applicant, a second count of membership may be made at a later date during the last quarter of the regular school year and uniformly for the entire local educational agency.

(2) A membership count of all pupils, made as of the same dates as the counts of federally connected children, will constitute the official membership report of the applicant school district for those dates.

(3) The percentage of pupils in each of the federally connected categories shall be determined as provided in paragraph (e) of this section.

(4) The two percentages obtained by the two counts for each category of federally connected pupils shall be added and the sum divided by two to compute an average percentage for that category.

(5) The percentage so obtained shall be multiplied by the total ADA for the period July 1 to the following June 30. Such total ADA shall include ADA based upon free public education provided in summer school as determined in accordance with State law.

(20 U.S.C. 238(a), (b), 239(a), 244(10))

(g) "Entitlement" means the amount of assistance which an applicant would receive under the formula prescribed under sections 2, 3, or 4 of the Act if the appropriations for a fiscal year were adequate to pay all claims.

(20 U.S.C. 240(a), (b), (c))

(h) "Federal property" is used in this part as defined in the Act at 20 U.S.C. 244(1). For the purpose of this definition:

(1) All property of the United States which was transferred to the United States Postal Service and which was, prior to such transfer, treated as Federal property for the purposes of the Act, shall continue to be treated as Federal property for such purpose for two years beyond the end of the fiscal year in which such transfer occurred.

(20 U.S.C. 244(1); Pub. L. 92-277 (April 24, 1972), 86 Stat. 124)

(2) Federal ships which are owned by the United States and whose home ports are located on Federal property are Federal property.

(20 U.S.C. 244(1))

(i) "Financial assistance" means the payment made to an applicant school district under section 5(b) of the Act by the Department of the Treasury upon authorization of the Commissioner.

(20 U.S.C. 240(b))

(j) "Parent-pupil survey" means a questionnaire provided by the applicant and which is to be filled out by a parent in order to substantiate residence or employment on Federal property. Such survey must include:

(1) Pupil-enrollment information (this information may also be obtained from school records) including:

(i) Name of pupil;

(ii) Date of birth; and

(iii) Name of public school, grade, and teacher.

(2) Pupil-residence and parent-employment information, including:

(i) Address of pupil residence (including the name of the Federal facility if such residence is on Federal property); and

(ii) Name (as it appears on employer's payroll record) of parent (mother, father, legal guardian or other person standing in loco parentis) who is employed on Federal property and with whom such pupil resides, unless the parent is a member of the uniformed services on active duty;

(iii) Name and address of Federal property on which the parent is employed unless the parent is a member of the uniformed services on active duty;

(iv) If the parent is a member of the uniformed services on active duty, the name, the rank, serial number, and branch of service of such parent;

(v) If the parent is a civilian employed on a Federal vessel, the name of vessel, hull number, and name of controlling agency must be obtained;

(vi) The signature of the parent supplying the information and the date of such signature must be obtained; and

(vii) The name and address of the employer (unless parent is a member of the uniformed services on active duty).

(3) Only in unusual circumstances may partially completed survey forms or survey forms which are signed by a person other than parent or person standing in loco parentis be accepted on membership survey forms. In such instances the survey form must show why the parent did not sign, and when, how, and from whom the residence and employment information was obtained.

(20 U.S.C. 240(a)(1))

(k) "Prorated entitlement" means the amount of financial assistance which an applicant will receive under the adjustment formula prescribed in the Act (including any other pertinent modifications or amendments), if the appropriations for a fiscal year are inadequate to pay all claims under sections 2, 3, 4, or 6 of the Act.

(20 U.S.C. 240(c))

(l) "Revenues derived from local sources" include the following:

(1) Tax funds derived from real estate;

(l) Such tax funds derived from real estate include:

V 40 168
APR 8 75

(a) Locally received funds which are derived from local taxation of real property;

(b) Tax funds which are received on account of Wherry-Spence housing projects (12 U.S.C. 1702, et seq.) located on private property; and

(c) All local real property tax funds which are received from either the county or the State, serving as a collecting agency, and which are returned to the local educational agency for expenditure by that agency;

(ii) Such tax funds derived from real estate do not include:

(a) Any payments under this Act or the Johnson-O'Malley Act (25 U.S.C. 452);

(b) Tax payments which are received on account of Wherry-Spence housing projects located on federally owned property; or

(c) Local real property tax funds which are received by the State and distributed to local educational agencies on a per-pupil or formula basis; or

(2) Taxes or receipts which are received from the county, and any other local tax or miscellaneous receipts.

(20 U.S.C. 238(d)(2); H. Rept. No. 22–87, 81st Cong., 2d Sess., (June 30, 1950), 12–15)

(m) "State aid" with respect to free public education means any contribution, no repayment of which is expected, made by a State to or on behalf of a local educational agency within the State for the support of free public elementary and secondary education. Such assistance does not include payments by a State to or on behalf of a local educational agency which are made as a result of a "major disaster" as such term is used in section 7 of Pub. L. 81–874.

(20 U.S.C. 240(d)(1))

(n) "Uniformed services" means the Army, Navy, Air Force, Marine Corps, Coast Guard, Environmental Science Services Administration, and Public Health Service.

(20 U.S.C. 238(a) and (b), 80 U.S.C. 1121, 82 U.S.C. 1314)

(o) "Working on Federal property" means employed on Federal property, as defined in the Act and the regulations in this part. Such term includes the following:

(1) A person who is employed (whether a regular employee or self-employed) either part time or full time in lumbering, farming, or grazing operations which are carried out entirely or partly on Federal property if, during such period, he spends a greater part of his working time on the Federal property than on the non-Federal property;

(2) A person who lives on Indian lands which are Federal property, as defined in the Act and these regulations, and who is not regularly employed on non-Federal property; and

(3) A portion, to be determined by the Commissioner, of the persons working on commingled Federal and non-Federal properties other than those covered by paragraph (o)(1) of this section.

(20 U.S.C. 238(a) and (b), 244(1); H.R. No. 703, 83d Cong., 1st Sess., (July 3, 1953), 26, H.R. 1592, 85th Cong., 2d Sess., (March 19, 1958), 51)

CROSS REFERENCE: Certain other pertinent definitions may be found in the "General Provisions for Office of Education Programs" § 100.1 (45 CFR 100.1)

Subpart B—Applications

§ 115.10 Applications.

Any local educational agency seeking financial assistance under sections 2, 3, or 4 of the Act shall, as a condition of entitlement, file with the Commissioner of Education an application for financial assistance. Such application shall be transmitted through the appropriate State educational agency, on Form RSF–1 (entitled "Application for School Assistance in Federally Affected Areas (Title I of Pub. L. 874)") and shall show the basis for entitlement under the Act and regulations. Copies of all application forms may be obtained from that State educational agency which serves the applicant local educational agency.

(20 U.S.C. 240(a))

§ 115.11 Final date for filing applications.

(a) Except as otherwise provided in this section, the final date for filing an application for financial assistance under sections 2, 3, or 4 of the Act shall be January 31st of the fiscal year for which such assistance is sought; except that, whenever such a final date falls on a Saturday, Sunday, or other Federal holiday, the final date for filing an application shall be the next succeeding business day. Each application must be received by the Commissioner on or before the final filing date, after transmittal through and certification by the State educational agency. The applicant is responsible for obtaining the certification of the State educational agency and for securing a timely transmittal of the application to the Commissioner. In order to give the State educational agency time in which it may process the application, the applicant should file its application with the State educational agency by January 2 of the fiscal year for which assistance is sought.

(b) With respect to an applicant whose eligibility for financial assistance under the Act is established during the fiscal year by initiation or reactivation of an activity of the United States, or by the acquisition of Federal property, the filing date shall be extended 60 days beyond the date of such initiation, reactivation, or acquisition.

(c) With respect to an applicant whose eligibility for financial assistance is established pursuant to an amendment to the Act which is enacted during the fiscal year for which assistance is sought, the filing date shall be extended 60 days beyond the effective date of such amendment.

(d) With respect to a local educational agency which, during the fiscal year for which assistance is sought, acquired administrative control and direction of free public education in all or any portion of an area of a previously existing local educational agency (under the circumstances described in § 115.20(b)), the filing date of an application under section 3 and 4 of the Act shall be extended to the extent necessary to allow 60 days beyond the effective date of such change in district organization.

(e) Where an application is filed directly with the Commissioner on or before the applicable filing date and a copy is filed with the State educational agency on or before the applicable filing date, then the application will, for good cause shown, be considered to be timely filed if, within fifteen days after the applicable filing date, the applicant obtains and files with the Commissioner the approval, verification, and certification of the application by the State educational agency.

(f) A timely filed application may be amended to apply for additional or alternative financial assistance based upon (1) the initiation or reactivation of a Federal activity, (2) the acquisition of property by the United States after the application was initially filed, (3) an amendment to the Act after the application was filed, or (4) a determination of the Commissioner first communicated to the applicant that property is or is not "Federal property" under section 403(1) of the Act. Such amendment must be filed within 60 days of such occurrence or communication and no later than on or before the 30th day of September following the fiscal year for which payment is requested.

(g) A timely filed application may be amended to apply for additional or alternative financial assistance under sections 3(c)(4), 3(d), 3(e), or section 4(d) of the Act if such an amendment is (1) filed no later than September 30 of the fiscal year following that for which asistance is sought and (2) accompanied by a detailed narrative giving the basis of the claim and a justification of the requested entitlement.

(20 U.S.C. 240(a))

§ 115.12 Applications under sections 2, 3, and 4 received after deadline not considered for payment.

Applications under sections 2, 3, and 4 of the Act which are received by the Commissioner after the applicable filing date prescribed by § 115.11 will not be approved.

(20 U.S.C. 240(a))

§ 115.13 Notification to applicants.

Each applicant will be notified of the results of the review of its application under one or more of the sections or subsections of the Act, and the estimated amount of the payment, if any, to be made.

(20 U.S.C. 240)

§ 115.14 Assurances and parental participation with respect to Indian children for applications under section 3.

(a) Each application for payment under section 3(a) or section 3(b) of the Act which is based upon children who reside on or reside with a parent employed on Indian lands (as included within the definition of Federal property under section 403(1)(A) of the Act) shall set forth adequate assurance that Indian children will participate on an equitable basis in the school program of the applicant local educational agency.

(Pub. L. 92–318, section 411(a); (20 U.S.C. 240(a)(2)))

(b) Each application based upon children as described in paragraph (a) of this section shall:

(1) Set forth such policies and procedures as will ensure that programs and projects assisted under the application have been planned and developed, and will be operated in consultation with, and with the involvement of parents of, the children to be served by such programs and projects. Applicants must submit a brief statement describing such policies and procedures with each application;

(2) Be submitted with assurance that such parents have had an opportunity to present their views with respect to the application; and

(3) Set forth policies and procedures for adequate dissemination of program plans and evaluations to such parents and the public. Applicants must submit a brief statement describing such policies and procedures with each application.

(c) It shall be the responsibility of the applicant local educational agency to provide to the parents of such children:

(1) Opportunity to make recommendations to the local educational agency concerning the needs of the Indian children;

(2) Opportunity to consult with the local educational agency concerning the ways in which such parents can assist their children in realizing the benefits to be derived from the educational program of the local educational agency; and

(3) Opportunity to present their views to the appropriate school personnel concerning the educational program and parental participation.

(20 U.S.C. 1231d; Pub. L. 92–318, section 411(a))

§ 115.16 Civil rights.

(a) Federal financial assistance is subject to the regulations in Part 80 of this title, issued by the Secretary of Health, Education, and Welfare and approved by the President to effectuate the provisions of Title VI of the Civil Rights Act of 1964. (Pub. L. 88–352)

(42 U.S.C. 2000d)

(b) Federal financial assistance is also subject to the provisions of Title IX of the Education Amendments of 1972 (prohibition of sex discrimination), and any regulations issued thereunder.

(Pub. L. 92–318, Title IX)

Subpart C—Payment

§ 115.20 Changes in boundaries, classification, and governing authority of applicants.

(a) If the applicant is a party to any merger, consolidation, annexation, deconsolidation, or other similar action which may affect its boundaries, identity, governing authority, classification, or control, it shall notify the Commissioner as soon as practicable of the effective date of that action, the extent and character thereof, and the legal authority under which the action was or is to be effected. Such notification must include the following information:

(1) The effective date of change in boundaries or organization, for all purposes, including administrative and fiscal;

(2) Identification by name, district, number, and address of all former agencies involved and of the application number for each applicant involved in the change;

(3) A statement describing the specific type of change, with a citation of the section or sections of the State law under which the change was accomplished;

(4) The legal name of the resulting successor agency (even if the name and legal classification of the applicant agency are retained after a change);

(5) A statement as to whether assets and liabilities of the former agency or agencies have been transferred to the successor agency, or whether a settlement agreement has been made and, if so, the effective date of such action;

(6) A statement as to whether a new board of education has or will assume control and management of the successor agency and, if so, the effective date thereof; and

(7) The name and address of the authorized representative for purposes of the Act, who shall be duly designated by the governing body of the successor agency. Evidence of such official designation must be submitted in the form of a copy of the resolution duly recorded in the minutes of the proceedings of the governing body.

(b) A local educational agency shall not be entitled to any payment on the basis of an application under section 3 or 4 of the Act (except as provided in paragraph (c) of this section) if (1) the change in the organization of such local educational agency is effective within the fiscal year covered by the application and occurs prior to the close of the regular school term of such year and (2) such local educational agency thereby ceases to be a legally constituted local educational agency. However, except as provided in § 115.21(c), a local educational agency which assumes administrative control and direction of free public education in all or a portion of the area of such previously existing applicant, may (if it is not already an applicant under the section involved or if it files an application in accordance with § 115.11(d)) have its entitlement under section 3(c)(2) or 4(a)(1) of the Act for the entire fiscal year determined on either of the following bases, which ever is more favorable to it:

(1) On the basis of the entire area under its jurisdiction on the last day of such year; or

(2) On the basis only of the area acquired by the local educational agency from the previously existing local educational agency, except that the latter basis may only be used (i) for an application under section 3 of the Act for which a favorable finding has been made (or would have been made in due course but for the change in district organization) on the basis of the estimates required under section 3(c)(2) of the Act with respect to the previously existing agency, and (ii) for an application under section 4 of the Act for which such a favorable finding has been made (or would have been made in due course but for the change in district organization) under section 4(a)(1).

(c) Any payment made to a local educational agency prior to the date on which the first sentence of paragraph (b) of this section became applicable to it must be repaid to the United States except to the extent that (1) it is accounted for by the adjustments made in the entitlements of any successor applicant local educational agency pursuant to either paragraph (b) of this section or paragraph (c) of § 115.21 and (2) any balance remaining thereafter is found by the Commissioner not to be in excess of the amount to which the preexisting local educational agency would have become entitled on the basis of the number of federally connected children who were (i) not covered by any other application and (ii) to whom free public education was provided by the previously existing local educational agency or by any successor non-applicant local educational agency.

(20 U.S.C. 237(c), 244(6)(A))

§ 115.21 Payment under section 3 when percentage eligibility requirement is not met.

(a) Pursuant to the exception provision of section 3(c)(2)(B) of the Act, an applicant will not be required to meet the 3 percent eligibility requirement of that section if in either of the two years preceding the year of application the applicant met such percentage requirement and was entitled to a payment under section 3 of the Act. However, in the second year following the year in which the applicant last met the percentage requirement and was entitled to a payment, the payment under section 3 of the Act shall be reduced by 50 percent.

(20 U.S.C. 238(c)(2)(B))

(b) If an applicant local educational agency was not in existence in either one or both of the two fiscal years preceding that for which application is made, that agency may nevertheless receive the benefit of the provisions of paragraph (a) of this section if that agency is (i) composed only of territory which was formerly included in a predecessor agency which met (or predecessor agencies all of which met) the percentage eligibility requirement contained in section 3(c)(2)(B) of the Act and (ii) such predecessor agency or agencies received a net payment under section 3 of the

V 40168
APR 8 75

Act for the fiscal year two years prior to that for which application is made.

(20 U.S.C. 238)

(c) If any local educational agency which had timely filed an application under section 3 of the Act and was entitled to payment by virtue of paragraph (a) or (b) of this section ceases to be a legally constituted local educational agency as a result of a district reorganization which is effective prior to the close of the regular school term within the fiscal year covered by the application (thereby becoming subject to the provisions of § 115.20(b)), a successor local educational agency which: (1) Files an application in accordance with § 115.11(d) (unless already an applicant under section 3) and (2) assumes administrative control and direction of free public education in all or a portion of the area of such previously existing applicant prior to the close of the regular school term of such previously existing applicant, shall be entitled to have its application processed on the basis of the: (i) area acquired from the previously existing local educational agency, and (ii) rights of that agency, without regard to the 3 percent requirement, subject to appropriate adjustment on account of payments made to such previously existing local educational agency.

(20 U.S.C. 238, 244(6)(A))

(d) A reduction in the number of children resulting from a decrease in, or cessation of, Federal activities or a failure of such activities to occur, to whom sections 3(a) or 3(b) of the Act applies and for whom a local educational agency made preparations to provide free public education during a fiscal year, shall be deemed to be substantial when such reduction in number equals that of the qualifying percentage as provided for in section 3(c)(2)(B) of the Act and at least ten in ADA.

(20 U.S.C. 238(e))

§ 115.22 Election under section 4(c).

Pursuant to section 4(c) of the Act, a local educational agency may elect to count for eligibility and payment under section 4(a) of the Act the entire increase in the number of children who are (a) in average daily attendance at its schools during the fiscal year and (b) otherwise eligible to be counted under section 3 of the Act. Such an election may be made only if an application under section 4 is timely filed on Form RSF-1 in accordance with § 115.11. Such an election is not subject to change after, and shall become final upon, the date of final payment for the fiscal year involved.

(20 U.S.C. 239(c))

§ 115.23 Payments under section 4(a).

(a) Payment under section 4(a) is intended to compensate a local educational agency for sudden and substantial increases in pupils whose attendance in school during the current school year is a direct result of Federal activities. Such payment may be made only when the Commissioner determines that (1) although the applicant has made a reasonable tax effort, the education of such increased number of children places a substantial and continuing financial burden on the applicant and (2) the applicant cannot secure from other sources funds which are adequate to provide for these children a level of education equivalent to that maintained in generally comparable school districts in the same State.

(20 U.S.C. 239(a))

(b) In the first fiscal year following payment under section 4(a), a payment not to exceed 50 percent of the entitlement in such preceding year under section 4(a) will be made, subject to the availability of funds. Such payment may not include any entitlement due to those increases in section 3(a) or 3(b) of such preceding year for which payment was made.

(20 U.S.C. 239(a))

(c) No payments will be made pursuant to section 4(a) of the Act unless (1) the increase in ADA of federally connected pupils in the current year over the ADA of such children in the preceding year is at least equal to 5 percent of non-Federal ADA in the preceding year, and (2) the increase in the current total ADA over the preceding year's total ADA is at least 5 percent of the preceding year's total ADA.

(20 U.S.C. 239(a)(1))

(d) No payments will be made pursuant to section 4(a) of the Act unless the parents of the pupils entering the schools of the local educational agency for the first time during the current school year enter the area of that agency to accept employment because of Federal activities on or after February 1 of the preceding year. An increase in activities of the United States for the purpose of section 4(a) of the Act may be found to have occurred in circumstances which include the following:

(1) Activities resulting from Federal contracts in the current fiscal year when the number of employees engaged in such Federal activity increased over the preceding fiscal year; and

(2) Activities where production resulting from Federal contracts changed so as to require employees with new skills for such production, and therefore new in-migrant employees resulted.

(e) Activities of those persons who were not employed by the United States or by a contractor of the United States shall not be considered to be a direct result of activities of the United States for the purposes of section 4(a).

(20 U.S.C. 239(a)(1); 83-703, House Report No. 703, July 3, 1953, 12)

§ 115.24 Reduction of financial assistance under sections 2, 3, and 4 due to insufficient appropriations.

Except as otherwise provided by law and in § 115.27 of this part," if the funds appropriated for a fiscal year are not sufficient to pay in full the total amounts which all applicants whose applications have been considered for payment pursuant to this part are entitled to receive under sections 2, 3, and 4 of the Act or any subsection thereof for such fiscal year, the Commissioner will reduce the amounts which he certifies under section 5(b) of the Act for such fiscal year for payment to each such applicant by the percentage by which the funds so appropriated are less than the total necessary to pay such applicants the full amount which they are entitled to receive under the Act.

(20 U.S.C. 240(b), (c))

§ 115.25 Adjustment in entitlement for reductions in State aid.

(a) The amount which each local educational agency in a State is otherwise entitled to receive under section 2, 3, or 4 of the Act for any fiscal year shall be reduced in the same proportion (if any) that the State has reduced for that year its aggregate expenditures (from non-Federal sources) per pupil for current expenditure purposes for free public education below the level of such expenditures in the second preceding fiscal year. The Commissioner may waive or reduce this reduction whenever in his judgment exceptional circumstances exist which would make its application inequitable and would defeat the purposes of the Act. In order to determine whether such adjustment is appropriate, it will be necessary for each State to report data each year which will enable the Commissioner to compare the per pupil expenditures in the current and in the second preceding fiscal year. Each State shall report, in writing, in accordance with the requirements of this section:

(1) *General.* Data must be prepared and reported on the same basis for each of the two years being compared. The basis on which the computations were made and such other explanations as appear pertinent shall be included. Financial data shall be reported on a cash basis. Pupil data shall be reported on an average daily attendance basis;

(2) *Per pupil costs.* The per pupil cost for each of the two years must be included, as well as the total State aid expenditure and that the total number of pupils used as a basis for computing the per pupil cost;

(3) *State aid.* Only State aid paid to local districts with respect to free public elementary and secondary education during the period July 1 through June 30 may be included in the data submitted, regardless of the fiscal year which may be utilized by the applicant for other purposes:

(i) Such data shall be prepared in accordance with the following:

(a) Whenever practicable, such data should include only State funds paid for current operating expenses;

(b) The total amount of State aid payments shall be included if such funds were paid for capital outlay and other purposes but were not specifically earmarked for such purposes;

(c) Local funds raised by a local educational agency or a county and all Federal funds received by the State regardless of the purpose for which received shall also be included;

(d) Shared-revenue payments made to the States and redistributed to local educational agencies are considered to be Federal funds;

(ii) Such data shall exclude the following:

(a) The amount of State aid earned by an applicant local educational agency in one year to be paid the following year; and

(b) State aid payments earmarked for capital outlay purposes.

(4) *Pupil data.* The State may adopt whatever measures are appropriate to convert pupil data to average daily attendance providing that the conversion is made on the same basis for each year being compared.

(20 U.S.C. 240(d)(1))

(b) Any changes in State law, policies, or procedures which may affect the operation of section 5(d)-(2) of the Act must be reported by the State to the Commissioner in accordance with paragraph (c) of this section.

(20 U.S.C. 240)

(c) The data and information which is required to be reported in accordance with § 115.25 (a) and (b) shall be sent to the Commissioner in two reports: An initial report and a final report for each year. The initial report shall be submitted by February 1 of each year. Data in the initial report for the second preceding year and data in the final report should be final data based on actual amounts expended and pupils in attendance. However, data for the current school year may consist of estimates. The final report shall be submitted by September 30 of each year. If adjustments in current year data may be required after this date, the State must so indicate in transmitting the final report.

(20 U.S.C. 240)

§ 115.26 Failure or refusal of a local educational agency to educate children living on Federal property.

If, for any fiscal year for which section 6(f) of the Act is effective, no tax revenues of a State or of a political subdivision of a State may be expended for the free public education of children who reside on Federal property within the State, or if no tax revenues of a State are allocated for the free public education of such children, then that property shall not be considered to be Federal property for the purpose of computing entitlements under sections 3 and 4 of the Act of local educational agencies within that State with respect to children living off that property with parents who are employed thereon. Furthermore, deductions shall be made from the entitlements of certain local educational agencies in the circumstances and manner described in the second sentence of section 6(f) of the Act.

(20 U.S.C. 241(f))

§ 115.27 Further adjustments to entitlements.

(a) All payments under the Act and this part shall be subject to the following provisions in accordance with their terms in addition to those contained in § 115.24 of this part:

(1) The guarantee of 100 percentum of entitlement as provided under subsection 3(f) of the Act, applicable for fiscal year 1975 only;

(2) The "hold harmless" provision of section 305(b)(2)(A) of Public Law 93-380; and

(3) The "hold harmless" provision of section 305(b)(2)(B) of Public Law 93-380.

(b) For the purpose of computing the decrease in the number of children as provided for in section 305(b)(2)(B) of Pub. L. 93-380 and referred to in paragraph (a)(3) of this section, such decrease shall be determined in the following manner:

(1) For the fiscal year ending June 30, 1974, that part of the section 3 ADA of the applicant for such fiscal year as determined under § 115.3 (e) or (f) of this Part attributable to military installations affected by a decrease in, or cessation of, Federal activities announced after April 16, 1973, shall be subtracted from such part of the section 3 ADA as so determined for the fiscal year ending June 30, 1973;

(2) For the fiscal year ending June 30, 1975, that part of the section 3 ADA of the applicant for such fiscal year as determined under § 115.3 (e) or (f) of this part attributable to military installations affected by a decrease in, or cessation of, Federal activities announced after April 16, 1973, shall be subtracted from such part of the section 3 ADA as so determined for such applicant for the fiscal year ending June 30, 1974; and

(3) For the period beginning July 1, 1973, and ending June 30, 1975, that part of the section 3 ADA of the applicant for fiscal year 1975 as determined under § 115.3 (e) or (f) of this part attributable to military installations affected by a decrease in, or cessation of Federal activities announced after April 16, 1973, shall be subtracted from that part of the section 3 ADA as so determined for such applicant for the fiscal year ending June 30, 1973.

(20 U.S.C. 238(f), 88 Stat. 522, 533, 534.)

Subpart D—Generally Comparable Local Educational Agencies; Local Contribution Rate

§ 115.30 Determination of generally comparable local educational agencies.

(a) In the case of a local educational agency in a State (other than Puerto Rico, Guam, American Samoa, the Virgin Islands, or any State in which a substantial portion of the land is an unorganized territory for which a State agency is the local educational agency or any State in which there is only one local educational agency) the Commissioner will, after consultation with the State educational agency and the applicant, determine those local educational agencies which, in his judgment, are generally comparable to the applicant. For this purpose, the Commissioner will, based upon the recommendation of the State educational agency, classify all local educational agencies in such State into groups of agencies generally comparable to one another. In recommending to the Commissioner the classification of all local educational agencies in the State into generally comparable groups, the State educational agency shall initially establish proposed groups based upon legal classifications or justify the use of another factor as the principal factor. Unless the State educational agency can establish to the satisfaction of the Commissioner that the consideration of additional factors will not result in greater comparability, division into further groups will be required. For the purposes of such further division, consideration shall be given to grade level, size as measured by total ADA, geographical size, density of population, industralization, current revenues, aggregate value of property, percent of pupils transported, and any other relevant factors. In making its recommendations in that regard to the Commissioner, the State educational agency will furnish such information as he may require, including information justifying the factors used and financial and attendance data necessary for the computation of per pupil expenditure and local contribution rate. On the basis of the recommendation by the State educational agency, the data furnished and other information which the Commissioner may obtain, and applying the above criteria, he will determine whether all local educational agencies in the State shall be classified into generally comparable groups and, if so, will determine such groups. The pupil, financial, and other data specified above for the establishment of group rates for a fiscal year are to be submitted to the Commissioner by the State educational agency by September 1 of the fiscal year for which such rates will be applicable. These data must include the following:

(1) Number of local educational agencies in the State and in each proposed group;

(2) Total ADA for (i) all local educational agencies in the State and (ii) all local educational agencies in each proposed group;

(3) Total revenue receipts from local sources for current expenditures for (i) all local educational agencies in the State and (ii) all local educational agencies in each proposed group;

(4) Total revenue receipts from all sources (excluding monies received under Titles I, II, and III of the Elementary and Secondary Education Act of 1965) for current expense purposes for (i) all local educational agencies in the State and (ii) all local educational agencies in each proposed group;

(5) Total current expenditures (excluding expenditures from funds granted under Titles I, II, and III of the Elemen-

V 40168
APR 8 75
XUM

tary and Secondary Education Act of 1965) for (i) all local educational agencies in the State and (ii) all local educational agencies in each proposed group;

(6) Total current expenditures from local source revenues for (i) all educational agencies in the State and (ii) all local educational agencies in each proposed group;

(7) Average local contribution rate for the State and for each proposed group (paragraph (a)(5) of this section divided by paragraph (a)(2) of this section);

(8) Average current expenditure per pupil for the State and for each proposed group (paragraph (a)(5) of this section divided by paragraph (a)(2) of this section);

(9) Total number, the actual ADA, and the total allowable current expenditures for the second preceding fiscal year of children enrolled in grades 13 and 14 of all local educational agencies of States which offer these grades as free public education; and

(10) Estimated current fiscal year per pupil cost for the State (in those States in which an applicant requests an entitlement under section 3(c)(4) or 4 of the Act). The actual per pupil costs shall be submitted by the applicant to the Commissioner at such time as they become available for each group.

(20 U.S.C. 238(d), 255(5))

(b) In a State for which group classifications of generally comparable school districts cannot, in the judgment of the Commissioner, be appropriately established pursuant to paragraph (a) of this section,

(1) An applicant may submit to the Commissioner in its application the names of districts (approximately five in number) in the State which it deems generally comparable to the local educational agency of the applicant (together with all other pertinent data requested in the application by the Commissioner);

(2) The selection by the applicant of such local educational agencies shall be based upon the criteria set forth in paragraphs (a)(1) through (a)(10) of this section and shall be submitted through the State educational agency for review and comment. The Commissioner's determination will be based upon such criteria and any other relevant factors. The financial, attendance, and other data of the selected local educational agencies must be sufficient to justify the selection of such local educational agencies as generally comparable and to determine the per pupil expenditures and the local contribution rates in such agencies. On the basis of the data furnished by the applicant, or information otherwise obtained, and applying the above criteria, the Commissioner will select those local educational agencies which he determines to be generally comparable to the applicant. Such data must be submitted to the Commissioner by the State educational agency for each local educational agency deemed to be generally comparable by September 1 of the fiscal year for which application is made. Data must include the following:

(i) Comparable local educational agency data for the second preceding fiscal year compiled by the State educational agency for use by applicants in completing the comparable district table in the application for the year of application;

(ii) ADA and the current expenditures for the second preceding fiscal year of children under twenty-one years of age who are enrolled in grades 13 and 14 for all local educational agencies in States that offer these grades as free public education; and

(iii) The estimated percent of change in per pupil cost for all local educational agencies in the State, in the aggregate, for the current fiscal year from the second preceding fiscal year, for each State wherein an applicant requests an entitlement under section 3(c)(4) or section 4. Since comparable district data are submitted for the second year preceding, the estimated percent of increase factor for adjusting the per pupil cost to the current year will suffice for all purposes prior to the final payment. However, the State shall submit actual data to the Commissioner for the purpose of computing final payments (except those final payments made pursuant to section 238(c)(4) and 239 of the Act).

(20 U.S.C. 238(d), 244(5))

(c) The State agency shall not distribute group rate data or comparable district data to applicants for inclusion in applications prior to the receipt of notice that such data have been approved by the Commissioner unless such data are clearly indicated as not yet having been so approved.

(20 U.S.C. 238(d), 244(5))

§ 115.31 Computation of local contribution rate.

The local contribution rate for an applicant for any fiscal year, except as otherwise specified in section 3(d) of the Act, will be computed by the Commissioner in the following manner: He shall divide (a) the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which he is making a computation, which the local educational agencies determined pursuant to § 115.30 to be generally comparable to that of the applicant, made from revenues derived from local sources by (b) the aggregate number of children in average daily attendance to whom such agencies provided free public education during such second preceding fiscal year. The local contribution rate shall be an amount equal to the quotient so obtained.

(20 U.S.C. 238(d))

§ 115.32 Increase in or special local contribution rate.

Notwithstanding the provision in § 115.31, if the current expenditures in the local educational agencies which the Commissioner determined to be generally comparable to that of the applicant, in his judgment, are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain a level of education equivalent to that maintained in such other local educational agencies, then the Commissioner will increase the local contribution rate for such an applicant by the amount he determines will compensate the applicant for the increase in current expenditures necessitated by such unusual geographical factors.

(20 U.S.C. 238(d))

Subpart E—Records and Reports Required by the Commissioner

§ 115.40 Records and reports required of applicants.

(a) Each applicant shall maintain adequate written records to substantiate the Federal connection of pupils forming the basis for claim for financial assistance under sections 3 or 4 of the Act and shall make its records available to the Commissioner upon request for the purpose of examination or audit.

(b) Each applicant shall submit such reports and information as the Commissioner may reasonably require to determine the amount which the applicant may be paid under sections 2, 3, or 4 of the Act.

(20 U.S.C. 237, 238, 239, 240(a))

§ 115.41 Final reports by applicants under sections 2, 3, and 4.

(a) *Submission of final reports.* Each applicant shall for each fiscal year submit through the State educational agency on Form RSF-3 a final report to enable the Commissioner to determine the amount to which the applicant is entitled under the Act. Copies of this form may be obtained from the appropriate State educational agency. Such final reports must be received by the Commissioner on or before the 30th day of September following the fiscal year for which payment is requested; except that, whenever that date falls on a Saturday, Sunday, or Federal holiday, the final date for filing such final reports shall be the next succeeding business day. No certification of payment will be made after the applicable date for filing the final report for any fiscal year until the final report for that fiscal year has been received. Until all such reports for each year for which an applicant has received a payment have been received in proper form, no further payment to such applicant will be made under the Act for any subsequent year, unless the Commissioner is satisfied from other information that the payments already made for the year for which a final report is lacking do not exceed the net amount due that applicant out of the appropriations for that year.

(b) *Failure to submit final report when appropriations are insufficient.* In addition to the limitation in paragraph (a) of this section for any year for which the Commissioner is required to reduce the amounts which he certifies for payment because the funds appropriated are insufficient to pay in full the total amounts to which all applicants are entitled, unless the final report has been received by the Commissioner on or before the applicable date for filing that final report, an applicant will not be entitled to any further payment out of funds available for that fiscal year. However, an applicant which has not received its regular initial payment for that year will have its application processed for that regular initial payment if a final report is received by the Commissioner within 30 days after the applicable date for filing that final report.

(c) *Excessive entitlement.* The Commissioner may, for a fiscal year for which no final report has been received, disallow any portion of the estimated entitlement which he may determine to be excessive on the basis of such information as is available. On the basis of all available information and whether or not such a report has been submitted after the applicable date for filing a final report following the close of the fiscal year, if an applicant is found to have received funds in excess of its entitlement or prorated portion of its entitlement for that fiscal year, that excess will be deducted in computing amounts subsequently certified for payment to the applicant for the current or subsequent fiscal year. Where no such payments are due, the applicant will be required to refund such excess to the United States through the Commissioner.

(d) *Information submitted after deadline date.* No effect will be given to any report or information filed by the applicant after the applicable date for filing a final report to increase the amount computable on the basis of information filed on such date, except that, where clarifying information has been solicited in writing by the Commissioner for the purpose of processing applications and final reports, such information may be given effect if received in writing by the Commissioner.

(20 U.S.C. 240(a))

§ 115.42 Retention of records.

Local educational agencies receiving Federal payments under the Act are required to keep all records supporting the application until the completion of the administrative reviews which are regularly conducted by Federal agencies, or for three years following the fiscal year to which the application relates, whichever is earlier. The records involved which have been questioned should be further maintained until necessary adjustments have been made and the adjustments have been reviewed and cleared by the Federal agencies making such reviews.

(20 U.S.C. 240(a), 1232c(a))

§ 115.43 Reports from other Federal agencies.

Because of the requirements of section 2 and other provisions of the Act, the Commissioner requires information with respect to certain payments made by other Federal departments and agencies for the same general purposes. Pursuant to the provisions of section 402(b) of the Act, other Federal departments and agencies which made expenditures (directly or otherwise) for, or in aid or supplementation of elementary and secondary education with respect to which an application has been filed with the Commissioner, will be requested to file reports of commitments and expenditures for such purposes.

(20 U.S.C. 243(b))

Subpart F—Arrangements Under Section 6 of the Act

§ 115.50 Arrangements under section 6(a).

(a) Children who reside on Federal property shall be educated whenever possible in schools operated and controlled by local educational agencies (in accordance with State laws and standards).

(b) Insufficient funding under section 3 of the Act does not provide adequate justification for the making of arrangements under section 6(a) of the Act.

(c) In appropriate instances, when arrangements are made under section 6(a) of the Act, the provisions of section 6(f) shall be applied.

(d) To the extent practicable, the Commissioner will limit such payments to that of the per pupil cost provided for children in comparable communities in the State. In order to establish such cost, the agency or department proposing the arrangements must submit the per pupil cost data for the following agencies:

(1) The local educational agency in which all or part of the Federal property where the children reside and for which a proposal is being submitted is located, or, if the Federal property is not located within a local educational agency, one of the local educational agencies contiguous to such Federal property;

(2) The local educational agency in which the capital city of the State is located; and

(3) From one to three additional local educational agencies thought to be generally comparable to that of the schools affected by the proposal.

(20 U.S.C. 241(a); House Report No. 81-2287, June 20, 1950, 22-23)

§ 115.51 Arrangements under section 6(b).

(a) When the Commissioner makes arrangements under section 6(a) of the Act, he will under appropriate circumstances also make arrangements for those children for whose education he is authorized to make provisions under section 6(b) of the Act.

(b) Where a parent residing on the Federal property is transferred and the family moves from housing on Federal property to housing in an area adjacent to the Federal property, the dependent children will be permitted, as determined by the Commissioner, to continue in attendance at the section 6 school for the remainder of the fiscal year provided that they continue to reside in such adjacent area. Where a parent is assigned to a Federal property on which there is a section 6 school and is assigned family housing on Federal property which the operating Federal agency certifies will be available for occupancy and will be occupied within ninety (90) days from the official reporting date of such parent, the dependent children may be permitted to attend the section 6 school while residing in an area adjacent to such Federal property for the portion of the ninety-day period as required by such residence.

(50 U.S.C. 241(b))

§ 115.52 Arrangements under section 6(c).

(a) When the Commissioner makes arrangements under section 6(a) of the Act, he will under appropriate circumstances also make arrangements in connection therewith for those children for whose education he is authorized to make provision under section 6(c) of the Act.

(b) Children may be permitted to attend the section 6 schools under the provisions of section 6(c) upon submission of a proper proposal approved by the Commissioner. Such children may include only:

(1) Children of a parent employed by the United States in Puerto Rico under the following conditions:

(i) The employing Federal agency has a policy of transfer or reassignment of personnel who occupy the same or similar grade, position, or classification of the parent and the parent is subject to such policy;

(ii) Such agency normally makes reassignments or transfers of such employees to places where English is the language of instruction in the school normally attended by children of Federal employees;

(2) Children of a federally employed parent if:

(i) Such parent, with his family, has been stationed in an area in which English is the language of instruction in the schools generally attended by the children of such employees;

(ii) Such parent has been assigned to a location where the family is not authorized by the employing agency to go; and

(iii) Either of the following conditions exists:

(*a*) Such parent's home of record is Puerto Rico; or

(*b*) The home of such parent or such parent's spouse was Puerto Rico prior to their marriage; and

(3) Children of a parent who is employed as a supervisor, administrator or instructional personnel in a facility for which arrangements are made pursuant to section 6 of the Act, if both of the following conditions exist:

(i) Such parent was hired in a country in which English is the primary language; and

(ii) The family of such parent migrated to Puerto Rico from an area in which English is the language of instruction in schools generally attended by children of such employees.

(20 U.S.C. 241(c); Sen. Rept. No. 311, 89th Cong., 1st Sess., June 9, 1965, 2; H. Rept. No. 703, July 3, 1953, 83d Cong., 1st Sess., 24, 28, 67)

V 40168 APR 8 75 XUM

§ 115.53 Proposal for arrangements under section 6.

(a) Any local educational agency, or the Federal department or agency administering the Federal property on which part or all of such section 6 children reside, which believes that the Commissioner should exercise his authority under section 6 of the Act to make arrangements to provide free public education for children who reside on Federal property or in other appropriate areas, and which is willing to enter into or assist in entering into such arrangements, should file a proposal with the Commissioner, on or before April 30 preceding the fiscal year for which such arrangements would be made.

(b) Such proposal shall be in the form prescribed by the Commissioner and bear the endorsement of either the State and local educational agencies or of the appropriate officials of the Federal department or agency administering the property or properties on which the children reside, as appropriate. Such proposal shall include the following:

(1) The reasons why the Commissioner should make a determination to enter into such arrangements;

(2) The estimated number of children to be educated;

(3) Financial and educational details necessary for the Commissioner to make the determinations and arrangements required under section 6 of the Act; and

(4) The name of the local educational agency or Federal department or agency which would provide such free public education.

(20 U.S.C. 241(d))

§ 115.54 Determinations by the Commissioner pursuant to section 6.

If under section 6 of the Act the Commissioner determines that he is required to make such arrangements to provide free public education for part or all of the children on whose behalf the request is made or if, acting upon information otherwise received, he makes a determination to provide free public education for children who reside on Federal property or adjacent areas, such arrangements shall be made with a local educational agency or with the Federal department or agency administering the Federal property on which part or all of the children reside who will be provided education pursuant to the arrangements.

(20 U.S.C. 241, 243(a))

§ 115.55 Notice of Commissioner's action.

The Commissioner, after his review of the proposal, will notify the responsible Federal official or the local educational agency of his action respecting the arrangements to be made and the amount of Federal funds approved for the year's operating budget. Upon receipt of such notice the agency may take appropriate action to carry out the arrangements but should not incur any binding financial obligation prior to notification that the necessary funds have been appropriated and are available. In those cases where the education is to be provided by a local educational agency, the Commissioner will enter into an agreement with the agency which will specify the terms and conditions on which the education is to be provided and the basis on which the Federal payment will be made. The Commissioner will prepare the agreement and send it to the local educational agency for signature.

(20 U.S.C. 241(d))

§ 115.56 Arrangements under section 402(a).

(a) The Commissioner will, pursuant to proper agreement with the applicant local educational agency and a Federal department or agency, arrange with such Federal department or agency for the utilization of services and facilities and the transfer of funds for the cost thereof in the following circumstances:

(1) The local educational agency is an applicant under section 3 of the Act, and is legally or otherwise unable to provide to children residing on Federal property the particular educational services and facilities regularly furnished its other children; or

(2) The Federal agency or department cannot legally accept compensation to provide such services and facilities.

(b) The total amount of funds transferred to cover the cost of such services and facilities will be deducted from the section 3 entitlement of the local educational agency.

(20 U.S.C. 243(a))

§ 115.57 Expenditures.

In making such arrangements, the Commissioner shall not make payments for (a) expenditures made prior to his determination that he is required to make such arrangements; or (b) expenditures made subsequent thereto unless such expenditures are within the definition of "current expenditures" in section 403(5) of the Act or are within the general terms of the arrangements; or (c) expenditures in excess of the actual or reasonable per pupil expenditure of providing free public education in the applicable State.

(20 U.S.C. 241)

§ 115.58 Reports.

The local educational agency or the Federal department or agency with which such arrangements are made shall make such reports to the Commissioner from time to time as he may require to perform his functions under the Act.

(20 U.S.C. 241(d), 243(b))

§ 115.59 Termination of arrangements.

Arrangements under section 6 of the Act shall be limited to provide free public education for not more than one school year. If the Commissioner determines that the local educational agency or the Federal department or agency with which arrangements have been made has substantially deviated from the terms of the arrangements, he will so notify the local educational agency or the Federal department or agency concerned. If the local educational agency or the Federal department or agency does not within a reasonable time comply with the terms of the arrangements, the Commissioner may terminate such arrangements without further notice.

FEDERAL ENERGY ADMINISTRATION AND GENERAL SERVICES ADMINISTRATION

VOLUNTARY AGREEMENT AND PROGRAM RELATING TO THE INTERNATIONAL ENERGY PROGRAM

Approval by the Administrator of General Services and the Attorney General

The Federal Energy Administration has received the approval of the Administrator of General Services and the Attorney General of the Voluntary Agreement and Program Relating to the International Energy Program. Approval by these officials is required pursuant to section 708 of the Defense Production Act and Executive Orders 10480, 11725, and 11790. Set forth below are the text of the Agreement, the letter of the Administrator of FEA to the Administrator of General Services recommending approval, dated March 28, 1975, approving the Agreement of the Administrator of General Services to the Administrator of FEA, dated March 28, 1975, approving the Agreement (Appendix B), and the letter of the Attorney General to the Administrator of General Services, dated March 28, 1975, approving the Agreement (Appendix C).

DAVID G. WILSON,
Acting General Counsel,
Federal Energy Administration.

LESLIE W. BRAY, JR.,
Director, Office of Preparedness,
General Services Administration.

APRIL 2, 1975.

VOLUNTARY AGREEMENT AND PROGRAM RELATING TO THE INTERNATIONAL ENERGY PROGRAM

1. NEED FOR AN AGREEMENT

The oil embargo of 1973 and the marked increase in world oil prices which occurred almost simultaneously severely disrupted the economies of most importing nations and strained their political, strategic, and economic relationships. Inadequate cooperation among the industrialized countries resulted in unilateral efforts on the part of many to obtain supplies of oil. The United States Government and certain other members of the Organization for Economic Cooperation and Development (OECD), based on the need demonstrated by that experience, have undertaken to achieve a coordinated approach to decrease their dependence on foreign oil, and to reduce the strategic and economic vulnerability which such dependence can cause. The United States Government and such other governments have decided that their best interests lie in taking steps, such as developing an effective international oil allocation plan, to minimize the effects of a supply interruption and to assure that the exigencies of extreme shortage do not unduly disrupt national economies or the world petroleum market.

In this connection, the President of the United States has determined that, with respect to this country's national security and defense programs and the related programs of certain other members of the OECD, should any substantial reduction in world petroleum supplies occur, it would directly impair United States defense mobilization efforts. In addition, failure to ensure that the remaining supplies were allocated rationally and fairly among the major consuming nations would have an adverse impact on U.S. national security and defense mobilization efforts. In view of the foregoing, the President has determined that the United States must be prepared to cooperate with other nations in the distribution of available supplies on a rational and equitable basis, in order to utilize them with maximum efficiency during any future supply interruption, thus minimizing the impact of any interruption on the economy and security of the United States.

As part of a policy to reduce their dependence on foreign oil and to obtain the greatest utility of supplies during an oil emergency, the United States and certain other OECD members have signed an Agreement on an International Energy Program (IEP), pursuant to which an International Energy Agency (IEA) has been established as an autonomous institution within the OECD. It is a premise of the IEP Agreement that consultation and cooperation between oil companies and the IEA is essential to the effective functioning of the IEP, and thus to the solution of economic, strategic and national security problems facing oil importing nations.

Accordingly, the President of the United States has requested that this Voluntary Agreement and Program be entered into and that the participating oil companies undertake the actions contemplated hereby in order to further the objectives of the IEP and to implement the related policies and procedures of the IEA, on the grounds that such participation and action would be in the public interest as contributing to the national defense of the United States.

2. WHAT THIS AGREEMENT DOES

This is a Voluntary Agreement and Program under section 708 of the Defense Production Act of 1950, as amended (64 Stat. 818). It provides immunity from the antitrust laws and the Federal Trade Commission Act with respect to acts or omissions to act by participants, and such of its affiliates as it may have designated in accordance with section 9, in order to implement the objectives of the IEP. This Voluntary Agreement and Program contemplates that such acts by the participants will include (i) the membership of participants in standing groups, working parties, advisory bodies or other bodies established at the request of the IEA or the U.S. Government for the purpose of implementing the IEP, (ii) consultations, planning, and individual and joint actions which participants may take to implement the international allocation of petroleum pursuant to the IEP, and (iii) the furnishing by participants of data and information, and consultations and planning in respect thereof, in accordance with the IEP, all as included within the scope of sections 5 and 6 of this Agreement. This Agreement does not contemplate acts which affect the production, refining, transportation, or the marketing of petroleum within the United States except such acts which are reasonably in accordance with the provisions of the IEP or principles/plans approved pursuant to section 6 of this Agreement.

Any acts pursuant to this Agreement remain subject to all applicable United States laws and regulations (other than the antitrust laws and the Federal Trade Commission Act), including but not limited to regulations pursuant to the Emergency Petroleum Act or any successor statute.

3. DEFINITIONS FOR PURPOSES OF THIS AGREEMENT

(a) "Oil Companies" means international companies, national companies, integrated and non-integrated companies, and other entities which play a significant role in the petroleum industry.

(b) "Administrator" means the Administrator of the Federal Energy Administration.

(c) "Petroleum" means—
(A) Crude oil
(B) Natural gas liquids and other liquids produced in association with crude oil or natural gas
(C) Refined petroleum products, including but not limited to gasoline, kerosene, distillates, residual fuel oil, refined lubricating oil, and liquefied petroleum gases
(D) Blending agents and additives used in conjunction with crude oil and refined petroleum products.

(d) "United States" when used in the geographical sense means the several states, the District of Columbia, Puerto Rico, and the territories and possessions of the United States. In addition, the term shall include those areas which are not a part of the United States but which are under the jurisdiction of the United States for the exploration and production of petroleum and other petroleum-related activities.

(e) "International Energy Agency" (IEA) means the International Energy Agency established by Decision of the Council of the OECD, dated November 15, 1974.

(f) "International Energy Program" (IEP) means the program established pursuant to the Agreement on an International Energy Program signed at Paris on November 18, 1974, and adopted by the Decision of the Governing Board of the International Energy Agency on the same date, as it may be amended in accordance with its terms.

4. INTERNATIONAL ENERGY PROGRAM (IEP)

This Agreement facilitates implementation of the pertinent provisions of the Agreement Establishing an International Energy Program. The text of the IEP Agreement is attached hereto as an appendix.

It is understood that the U.S. Government does not view this Agreement and Program as in any way affecting the rights and obligations of the United States as a party to the IEP.

5. MEETINGS AND CONSULTATION

(a) Upon the invitation of the IEA and with the approval of the Administrator and the Attorney General, any participant herein may accept membership in any advisory body, working party, or other group established at the request of or by the IEA. In addition, subject to the approval of the Attorney General, any participant to this Agreement may accept membership in any advisory body, working party or other group established by the Administrator or the Secretary of State with respect to the IEP provided that any such group shall be chaired by a full time employee of the U.S. Government who shall control the agendas for all meetings of such group. The Administrator shall give notice to the Chairman of the Federal Trade Commission of each participant's membership in any group pursuant to this subsection.

(b) Each participant to this Agreement may as a member of a group established as provided in subsection 5(a) advise and consult with the IEA or the U.S. Government or with other members of such group, at meetings held in accordance with subsection 5(c), with respect to any aspect of the IEP, including the development and recommendation to the IEA of emergency measures and programs and plans subsidiary thereto to be implemented pursuant to section 6. Each participant may individually advise and consult with the IEA or the U.S. Government with respect to all such matters. Each participant may furnish and exchange information and data, including confidential and proprietary information or data, in order to implement the IEP or principles/plans approved pursuant to section 6 provided that confidential or proprietary information and data may be exchanged among the participants, and with other persons and agencies or provided by the participants to the IEA, only in accordance with the procedures set out in subsections 5(b) (1) and (2) below. Any confidential or proprietary information or data furnished or exchanged pursuant to this section shall be retained and provided to the Administrator and at his request to the Attorney General.

(1) In order to implement the IEP or principles/plans approved pursuant to section 6, and except as provided in subsection 5(b)(2), confidential or proprietary information or data may be exchanged with, or provided to participants, the IEA, or such other persons or agencies as are designed by the IEA, only if the Administrator, after consultation with the Secretary of State and with the concurrence of the Attorney General who shall consult with the Chairman of the Federal Trade Commission, has approved in writing the exchange or provision of such types of information or data. Confidential or proprietary information or data provided or exchanged pursuant to this subsection shall be aggregated or otherwise compiled by the Administrator or the IEA to prevent, to the extent possible, the identification of individual company data or information before being disclosed to or exchanged with the participants or any other person or entity unless the Administrator, after consultation with the Secretary of State and with the concurrence of the Attorney General, has determined that such exchange or disclosure is necessary to develop, prepare, or test emergency allocation measures.

(2) Upon notification by the Administrator to the participants of the activation of emergency measures as provided in subsection 6(a), the participants may, in addition to information provided pursuant to the procedures in subsection 5(b)(1), provide to the IEA and to each other and to persons or agencies as may be designated by the IEA or the Administrator (which designation may be by class), such types of confidential or proprietary information as are reasonably required to implement principles/plans approved pursuant to subsections 6(c) and 6(d), and participants may consult with and advise the IEA, among themselves and with such other persons and agencies concerning such information and data. The participants shall notify the Administrator and the Attorney General of the types of information and data exchanged or provided pursuant to this subsection and shall at the request of the Administrator and the Attorney General provide such information to them. The Administrator, after consultation with the Secretary of State and the Attorney General, may at any time prospectively prescribe terms and conditions for the continued exchange or provision of information or data pursuant to this subsection 5(b)(2).

(c) Any meetings of any group in which participants' membership has been approved pursuant to subsection 5(a), shall be open to a representative of the Administrator, the Secretary of State and the Attorney General severally and to any United States Government employee designated by the Administrator, but the presence of such representatives shall not be essential to the conduct of a meeting. Full and complete notes or minutes of each meeting shall be prepared, by the government representative or his designee or, in the absence of a government representative and any designee, by the participants, or a person designated by the participants, and shall be provided promptly to the Administrator and the Attorney General. The Attorney General shall upon request make such notes or minutes available to the Chairman of the Federal Trade Commission.

(1) Prior to notification by the Administrator to the participants of the activation of emergency measures as provided in subsection 6(a), notice of all meetings pursuant to this subsection 5(c), including time, place, expected participants and agenda, shall be provided by or on behalf of participants attending such meeting at least 72 hours in advance to the Administrator, the Attorney General and the Chairman of the Federal Trade Commission.

(2) Subsequent to notification by the Administrator to the participants of the activation of emergency measures as provided in subsection 6(a), the provisions of section 5(c)(1) shall be complied with to the extent practicable, provided, however, that where time does not permit, any group may have meetings without compliance with the notice provisions of such subsection so long as actual notice is given to the Administrator of such meeting by telephone or other appropriate means. For any such emergency meeting the participants shall provide in writing as soon as practicable to the Administrator and the Attorney General, the time, place, participants or expected participants, and agenda.

(d) Any advisory body, working part, or other group established by the Administrator or the Secretary of State with respect to the IEP which is an advisory committee, as defined by the Federal Advisory Committee Act, shall be subject to all the provisions of that Act.

6. EMERGENCY ALLOCATION

(a) Upon notification to the Administrator by the Secretary of State that emergency measures established in the IEP have been activated in accordance with the terms of the IEP, the Administrator shall notify the participants to this Agreement. Thereafter, any participant acting alone, with other participants, or with other persons or agencies, may take such actions as may be necessary or appropriate to implement emergency allocation principles/plans approved pursuant to the provisions of subsections 6(c) and 6(d). Such actions may include, among others, one or more of the following:

(1) Arrangements between or among the participants, or with other persons and agencies, for the most effective use, without regard to ownership, of terminal and storage facilities, tankers, pipeline capacities, and other transportation facilities so as to minimize duplications, multiple loadings and discharging, split cargoes, long hauling, cross hauling, and back hauling, and idle time in port.

(2) Arrangements among the participants for the purchase, loan, sale, or exchange of petroleum by and among themselves, or with other persons or agencies.

(3) Alterations in the rate of production of petroleum. Such alterations may be accomplished by any one or more appropriate methods including the following: increasing or decreasing drilling for or production of oil; adjusting or establishing transportation facilities and crude throughput facilities, including adjustments in the throughput, quality specifications or yields or conversion of equipment now installed for the manufacture of any one particular petroleum product to the manufacture of another petroleum product; the processing of selected crude oils or the exchange of components between various refineries; processing agreements; or exchange of refinery capacity.

(b) After notification to the participants by the Administrator that the Secretary of State has notified him that emergency measures pursuant to the IEP are no longer in force, no further action shall be initiated pursuant to this section and action previously initiated shall be completed as promptly as possible, and not later than 90 days after notification, provided that upon specific application the Administrator, which the concurrence of the Attorney General and after consultation with the Chairman of the Federal Trade Commission may approve extensions of such 90 day period.

(c)(1) Prior to the activation of emergency measures pursuant to the IEP, the participants may develop emergency principles/plans elaborating and applying the allocation principles and measures established by the Governing Board of the IEA. Such principles/plans should be in such detail as is practicable, taking into account the uncertainties as to possible contingencies which may develop. Principles/plans may be modified from time to time and in particular may be made more detailed as planning continues. The participants will promptly submit to the Administrator, the Attorney General, and the Chairman of the Federal Trade Commission any such emergency allocation principles/plans or modifications in such principles/plans. Such principles/plans shall be subject to the approval of the Administrator and the Attorney General, after consultation by the Attorney General with the Chairman of the Federal Trade Commission. No action will be taken under such principles/plans prior to notification by the Administrator to the participants as provided in section 6(a).

(2) If the Administrator or the Attorney General has not disapproved any such principles/plans on or before the expiration of a 30-day period after receipt of the principles/plans, such principles/plans shall be deemed to have been approved. The Administrator or the Attorney General may reject any principles/plans prepared and submitted to him and may, at any time, if in his judgment such action is necessary, terminate, in whole or in part, any principles/plans which he has approved, and he may suggest modifications in any principles/plans submitted or approved which, unless accepted by the participants, will terminate the principles/plans. Such termination or modification shall take place only after consultation with the Secretary of State.

(3) The joint development, joint formulation, or joint approval by the participants of any principles/plans as described in this subsection 6(c) shall take place only at meetings of groups in which membership by the participants has been approved pursuant to section 5 and which are conducted in accordance with the provisions of that section.

(d) After the activation of emergency measures, any principles/plans submitted to the Administrator shall be deemed to have been approved if the Administrator or the Attorney General has not given notice of disapproval to the participants on or before the expiration of a 10-day period after receipt of the plan, provided that the Administrator, with the approval of the Attorney General, may reduce such 10-day period.

(e) After activation of emergency measures, and until notification to the participants by the Administrator that emergency measures are no longer in force, any participant may initiate individual or joint action in implementation of principles/plans approved pursuant to subsections 6(c) and 6(d). Each participant taking any joint or agreed action or agreeing to take any action pursuant to this subsection shall notify the Administrator and the Attorney General within 72 hours (or longer period as may be determined by the Administrator) after the end of the week in which such action is taken or agreed upon, whichever first occurs.

V 40168
APR 8 75

(1) Such notification shall identify how such action is in implementation of approved principles/plans, the companies involved in such action, the quantities of petroleum involved, and such other detail as the Administrator may require. It shall also identify a responsible person or persons who shall be prepared to answer inquiries by the Administrator or the Attorney General concerning the action agreed upon or taken.

(2) The Administrator or the Attorney General may disapprove such action or such agreement on or before the expiration of a 10-day period after receipt of notice of the action or agreement if, after consultation with the Secretary of State, he determines that such action or agreement is not in implementation of principles/plans previously approved by the Administrator and the Attorney General.

(3) Any action taken prior to notice of disapproval by the Administrator or the Attorney General shall be entitled to the immunity provided in this Agreement.

Where action has been disapproved and appropriate corrective action has not been taken, the Administrator may, after consultation with the Attorney General and the Secretary of State, require the withdrawal of the participant from the Agreement or from any principles/plan approved under this Agreement. Such withdrawal shall not affect any power of the Administrator to otherwise compel corrective action.

7. AGREEMENT OF PARTICIPANTS

The participants severally agree that they shall endeavor in good faith to take such measures as may be necessary or appropriate, taking into account such limitations as may be imposed by circumstances such as lack of petroleum resources or facilities, governmental restrictions or requirements, and economic or other detriment, to develop and implement principles/plans contemplated by this Agreement.

The failure of the Administrator or other government official or the IEA to take action required of them shall not affect the immunity provided in this Agreement.

8. RECORDS

Each participant shall maintain, for a period of five years, full and complete records of all its actions related to this Agreement including but not limited to (i) all intracorporate documents related to any meeting held pursuant to section 5 or any action proposed or carried out pursuant to section 6 of this Agreement and (ii) any specific records and indices which the Administrator or the Attorney General may require to be maintained. All such records shall be made available upon written request to the Administrator and to the Attorney General. Each participant shall also make such reports with respect to any action related to this Agreement as may be required by the Administrator or the Attorney General.

9. PROCEDURE FOR BECOMING A PARTICIPANT

(a) After approval of this Agreement by the appropriate official (the Administrator of General Services), as provided in section 708 of the Defense Production Act of 1950, as amended, and after a request for participation in it has been approved by the Attorney General and has been made of an oil company, together with such of its affiliates as it may have previously designated, by the appropriate official (the Administrator of General Services) upon a finding by such official that such participation is in the public interest as contributing to the national defense, such oil company may become a participant in this Agreement by advising the Administrator of General Services and the Administrator in writing of acceptance of such request. Ten days prior notice of any request for participation shall be given to the Chairman of the Federal Trade Commission. Notice of such requests and their acceptance shall be published in the FEDERAL REGISTER. Such requests will be effective for the purpose of granting immunity from the antitrust laws and the Federal Trade Commission Act, as amended, only with respect to such acts by such companies (and designated affiliates) as are within the scope of sections 5 and 6 of this Agreement.

(b) Any oil company which desires to become a participant may ask that it be so requested. If a finding is made, as required by section 708 of the Defense Production Act, that such participation is in the public interest as contributing to the national defense, such company will be requested to participate subject to the procedures set forth in subsection 9(a).

(c) Any participant which desires to designate additional affiliates may do so subject to the procedures set forth in subsection 9(a).

10. EFFECTIVE DATE AND DURATION

This Agreement shall become effective upon the date of its approval by the appropriate official (the Administrator of General Services) as provided in section 708 of the Defense Production Act of 1950, as amended. It shall cease to be effective at the termination of section 708 of the Defense Production Act, as amended, or unless other legislative authority is provided which permits continuation of the Agreement. However, the Agreement may be terminated at any time by the Administrator, after consultation with the Secretary of State, upon notice by letter, telegram, or publication in the FEDERAL REGISTER. In no event, however, shall this Agreement continue beyond June 30, 1985.

11. WITHDRAWAL FROM AGREEMENT

Any participant may withdraw from this Agreement upon at least 30 days notice to the Administrator subject to the fulfillment of obligations incurred under this Agreement prior to the date of such notice, except that when emergency measures have been undertaken in accordance with section 6 of the Agreement or the Administrator determines that such actions may be imminently required, he may postpone the effective date of withdrawal for up to 60 days. The Administrator, after consultation with the Attorney General and the Secretary of State, may be giving not less than 10 days written notice to any participant require the withdrawal of that participant from this agreement.

Dated: March 28, 1975.

Approved.

ARTHUR F. SAMPSON,
Administrator,
General Services Administration.

APPENDIX A

LETTER OF THE ADMINISTRATOR OF FEA TO THE ADMINISTRATOR OF GENERAL SERVICES

MARCH 6, 1975.

Enclosed is a Voluntary Agreement and Program which we are recommending to you for your approval pursuant to section 708(a) of the Defense Production Act and section 501 of Executive Order 10480. This Agreement and Program is designed to permit oil company participation in the activities of the International Energy Program, especially as it relates to the planning for and carrying out of the international allocation of petroleum during emergencies.

The Agreement was developed primarily by the Federal Energy Administration and the Department of State. It is modeled after the voluntary agreements and plans of action of the Foreign Petroleum Supply Committee, with appropriate modifications for application to the International Energy Program. It incorporates both a voluntary agreement and a plan of action (section 6). The Agreement is the result of two rounds of comment by expected participants, the public, and interested government agencies, especially the Department of Justice and the Federal Trade Commission. An earlier draft was discussed at a public meeting, February 20, at the Department of State.

Messrs. Kolb and Curcio of your office have also reviewed earlier drafts and have raised important questions concerning procedures and implementation. These questions have been reviewed by the Office of Legal Counsel of the Department of Justice and we understand that the Office of Legal Counsel believes the Agreement conforms with the requirements of law and is sufficient to provide immunity. The Agreement embodies a suggested clarification by the Office of Legal Counsel with respect to the Federal Advisory Committee Act.

As you know, the State Department and we are particularly anxious that this Agreement be rapidly approved and companies invited to participate in order that planning under the International Energy Program may go forward. To this end, it is hoped that you will be able to approve the Agreement and consult with the Attorney General and the Federal Trade Commission, as required by statute, at the earliest possible time.

APPENDIX B

LETTER OF THE ADMINISTRATOR OF GENERAL SERVICES TO THE ADMINISTRATOR OF FEA

MARCH 28, 1975.

Pursuant to section 708 of the Defense Production Act of 1950, as amended, and in accordance with authority delegated to me by Executive Orders 10480 and 11725, I have this date approved the Voluntary Agreement and Program which you, as sponsor, had proposed in order to allow certain oil companies to consult and cooperate in furtherance of United States objectives as a participant in the International Energy Program.

In approving the Voluntary Agreement and Program, I find it to be in the public interest as contributing to the national defense. As required by law, I have consulted with the Chairman, Federal Trade Commission and have obtained the Attorney General's approval of the Agreement and of the participation of certain oil companies as proposed by you.

I enclose the approved Agreement, together with copies of letters from the Attorney General and the delegate of the Chairman, Federal Trade Commission, indicating respectively their approval and acknowledgment of consultation in respect to the Agreement and your proposed participants.

With regard to affiliates of the parent participants, I will rely upon you to carry out procedures, as outlined by the Attorney General to assure participation by only those affiliates reasonably necessary to operations under the Agreement, in order that I may make any necessary withdrawals or requests for participation.

With respect to the proposals on protocols referred to in the Federal Trade Commission letter, I intend to study the need for general procedures governing the approval and use of future voluntary agreements in order to assure standards necessary to the proper exercise of my responsibilities as the single official of the Government delegated the authority granted by subsection 708(b) for the purpose of carrying out the objectives of Title I of the Defense Production Act. This in no way should limit you in proceeding with the present Voluntary Agreement or in consulting as proposed by the Federal Trade Commission with respect to possible protocol arrangements or other suggestions.

I am simultaneously with this letter making formal requests to the responsible officials for participation by the companies and designated affiliates listed in the attachment to the Attorney General's letter.

Immunity from prosecution under the antitrust laws and the Federal Trade Commission Act of the United States will be accorded each company upon its written acceptance of my request, provided the company's acts relative to participation are in accordance with the terms set forth in the Voluntary Agreement and Program.

APPENDIX C

LETTER OF THE ATTORNEY GENERAL TO THE ADMINISTRATOR OF GENERAL SERVICES

MARCH 28, 1975.

This is in response to your letter of March 11, 1975 requesting my consultation and approval of a proposed Voluntary Agreement and Program under section 708 of the Defense Production Act of 1950, as amended, 50 U.S.C. App. 2158. The document you enclose, which was forwarded to you for approval by the sponsoring agency, the Federal Energy Administration, would allow certain U.S. oil companies to consult and cooperate with an International Energy Agency (IEA) established pursuant to an Agreement on an International Energy Program to which the United States is a party along with other members of the Organization for Economic Cooperation and Development.

Section 708 of the Defense Production Act, as amended, would provide immunity from the antitrust laws and the Federal Trade Commission Act with respect to acts or omissions to act by participants in the Voluntary Agreement, and their designated affiliates, which are undertaken pursuant to the terms of the Agreement in order to implement the International Energy Program (IEP). Such acts, as limited and defined by sections 5 and 6 of the Agreement, would include membership in standing groups, working parties and advisory committees established by the IEA, if the participant is requested to join such groups by that agency; furnishing of data and information, and consultation and planning in respect thereof in accordance with the IEP; consultation and planning to formulate and develop principles/plans to implement the international allocation of petroleum pursuant to the IEP; and action taken in implementation of approved principles/plans if notified by the Administrator of the Federal Energy Administration that emergency measures established in the IEP have been activated in accordance with the terms of the IEP.

The Agreement also provides for membership in, and similar activities by, ancillary industry groups established by the U.S. Government. I should note in passing, however, that unlike those formed by the IEA, operations of these groups, if established by the State Department, would be governed by the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (1973 Supp.). If established by the Federal Energy Administration, they would also be subject to the special provisions of section 17 of the Federal Energy Administration Act of 1974, 15 U.S.C.A. 776.

In reviewing the Voluntary Agreement and Program, I must consider whether any adverse effects it may entail for the competitive free enterprise system outweigh the benefits it may provide to the national defense. As you are aware, Justice Department and Federal Trade Commission staffs participated actively in the many interagency consultations involved in the process of drafting this Agreement. As a result, the document incorporates procedures to ensure all practicable antitrust safeguards consistent with the fact that the principal industry bodies contemplated would be formed by and would work under an international agency, not an agency of the United States Government. I conclude, therefore, that in relation to the defense benefits offered, the possibility of adverse effects to competition from actions by oil companies under the Agreement would be minimized by rigorous application of these safeguards. Accordingly, I hereby give my approval to the proposed Voluntary Agreement and Program.

In studying the proposed Agreement I have also considered whether it is in compliance with the terms of the Defense Production Act. This question is two-fold: first, whether the Agreement will tend to "further the objectives of [the Defense Production] Act" and therefore qualify as a voluntary agreement providing for exemption from the antitrust laws and the Federal Trade Commission Act pursuant to section 708 of the Act; and second, whether the procedures proposed to approve the Agreement and to request actions by the participants comport with the requirements of section 708.

On the first point, the objectives of the Act, which are set out in section 2, as amended (50 U.S.C. App. § 2082), include "the development of preparedness programs" "in order to provide for the national defense and security." The IEP is conceived of as a means to reduce the vulnerability of this nation and its allies to a reduction in the general availability of foreign oil by minimizing the effects of a supply interruption. Such a plan clearly seems to fall within the scope of a "preparedness program," and because the plan is aimed at insuring adequate supplies of a commodity essential for the national defense of the United States and its allies, it is of course a program providing for the national defense and security. I conclude, therefore, that the Agreement, by furthering that international plan, furthers the objectives of the Act and would qualify as a voluntary agreement under section 708 of the Act.

The second question relates to the procedures by which the Agreement will be approved and the actions pursuant to it will be requested. Section 708(a) of the Act authorizes the President to consult with representatives of private companies "with a view to encouraging the making by such persons with the approval by the President of voluntary agreements and programs * * *" In turn, section 708(b) grants antitrust exemption with respect to any act or omission to act by the parties to the agreement "if requested by the President pursuant to a voluntary agreement or program approved under subsection (a) and found by the President to be in the public interest as contributing to the national defense * * *" In practice, however, the voluntary agreements made in the past, and the proposed Agreement, have uniformly been drafted by the sponsoring government agency, perhaps amended after consultation with industry representatives, and finally presented to the President's delegate for approval. And, in earlier voluntary agreements the only statutory request to act made by the President's delegate was the request to particular members of industry to become participants in the agreement, each act pursuant to the agreement being considered as having been requested by the request to participate therein.

This has always been the way that the Act has been interpreted and administered by the Executive Branch. Moreover, the Small Business Mobilization Law, 56 Stat. 357 (1942), which had a similar voluntary agreement provision on which section 708 is based, was interpreted by the Executive Branch in a like manner. Congress has apparently assented to this administrative interpretation. In the face of the large number of DPA voluntary agreements drafted and carried forward in this manner, Congress has amended section 708 a number of times since 1950 without indicating any changes in the procedures to be used for future agreements. I would conclude therefore that the procedures for adoption of the proposed Agreement and those contemplated for requesting actions thereunder are within the requirements of section 708 so as to confer exemption from the effects of the antitrust laws and the Federal Trade Commission Act with respect to actions under the Agreement.

The foregoing review would appear to answer the request in your letter of March 11, 1975 for my views as to whether your approval of the proposed Agreement and Program obviates any need on your part for further approvals or requests with respect to subsequent action which may be undertaken in implementation of the Agreement. In specific response, I would advise that once you have given statutory approval to the agreement, you need only address to each industry member presently or in the future proposed as a participant a single request to enter the Agreements and participate in it in accordance with its terms. This is not to say that your responsibility necessarily ends there; since section 708(d) authorizes you to withdraw any request or finding you have made, you will of course wish to continue to monitor operations under the Agreement, particularly from the viewpoint of your priority and allocation responsibilities under the Defense Production Act and as set forth in Executive Order 10480.

In your letter of March 11, 1975 and a later letter of March 19, 1975 you have forwarded for my approval lists of members of the industry, with designated affiliates, which you have received from the Federal Energy Administration and to whom it is proposed that you address requests to enter the Agreement and participate thereunder. This is in compliance with section 708(c) of the Act, which requires that the President's delegate consult with the Attorney General and with the Chairman of the Federal Trade Commission not less than 10 days before making any request or finding and that he obtain the approval of the Attorney General to any request before making the request.

Section 9 of the proposed Agreement outlines procedures for an oil company to become a participant. It notes that a request for participation is to be made to a company, "together with such of its affiliates as it may have previously designated . . .". In compliance with this, companies to be requested to participate in the Agreement have already furnished lists of designated affiliates. Review of these lists, a few of them quite voluminous, has given us some concern. It may be that in haste to effectuate the Agreement and get the IEA industry bodies organized some misapprehension has arisen among some of the oil companies contacted as to what affiliates should be designated.

I do not believe that the opportunity for antitrust immunity should extend, so far as a participating company is concerned, to virtually every worldwide affiliate it effectively controls. In effect, this approach was followed in the past with respect to operations under the Foreign Petroleum Supply Voluntary Agreement. In contrast, I believe that immunity should be much more limited and controlled. I am prepared to approve requests to act covering only such affiliated companies of a parent as to which there are substantial grounds to believe its participation is reasonably necessary to operations under the Agreement as presently foreseen. Holding these views, I think it incumbent upon the sponsoring agency to screen the lists of designated affiliates forwarded to it so as to be able to assure the General Services Administration and the Attorney Gen-

V 40168
APR 8 75

eral in forwarding these lists for a request to act that each affiliate so listed meets the criterion set forth above. The sponsoring agency should also ascertain and transmit information on the percentage of stock ownership or degree of effective control a company holds over each designated affiliate so as to provide assurance that the parent is in a position to speak for its affiliate.

I am loathe to withhold approval of the oil companies and their affiliates until such a screening process has been completed. I am well aware that there is pressing need for full activation of the IEP. This requires speedy completion of U.S. legal requirements and early organization of the industry working bodies to assist in implementing the program. At the same time, however, my responsibility will not permit me to issue an unconditional approval for the participation of all affiliates of these companies at this time.

I have concluded that the best resolution of this problem is to provide approval of the proposed requests with respect to the parent companies. With respect to their designated affiliates, however, I am approving the requests for a period of thirty days from the date of this letter. The Federal Energy Administration, after reinvestigation of each such designated affiliate, is to furnish me with respect to each such affiliate (1) written assurance that to the best of FEA's information and belief, there are substantial grounds to believe the affiliate's participation is reasonably necessary to operations under the Agreement as presently foreseen, and (2) information on ownership or control of the affiliate by the parent company. We have already begun staff consultations with the Federal Energy Administration to effectuate this.

Acceptance of your request to act will convey the full antitrust immunity to the parent. It will further provide full antitrust immunity to all designated affiliates for a period of thirty days. Following provision of the required information by the Federal Energy Administration, I will advise you promptly which affiliates will then be approved by me.

In accordance with the foregoing, I am approving unconditionally consultation and cooperation with IEA by the companies whose names are underscored on the attached list. I am giving approval to consultation and cooperation by the other firms on the list for a period of thirty days.

I am mindful that in the thirty-day period following the date of this letter some time will be consumed in fulfilling the remaining legal requirements under the Act, in action by the IEA to select companies for its working groups, and in organizing those groups. Thus, it is highly unlikely that in this period any actions will be understaken by the designated affiliates as to which the question of antitrust immunity would yet arise.

Daily List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 70—SPECIAL NUCLEAR MATERIAL

Organization and Procedural Changes

Correction

In FR Doc. 75–8104 appearing at page 14085 of the issue for Friday, March 28, 1975, in the first column on page 14086 the paragraphs numbered (1) through (4) which precede paragraph (a) of § 70.11 should be removed and made part of footnote 10 to that section, the footnote to read as follows:

[10] The Administration facilities identified in section 202 are:

(1) Demonstration Liquid Metal Fast Breeder reactors when operated as part of the power generation facilities of an electric utility system, or when operated in any other manner for the purpose of demonstrating the suitability for commercial application of such a reactor.

(2) Other demonstration nuclear reactors, except those in existence on January 19, 1975, when operated as part of the power generation facilities of an electric utility system, or when operated in any other manner for the purpose of demonstrating the suitability for commercial application of such a reactor.

(3) Facilities used primarily for the receipt and storage of high-level radioactive wastes resulting from licensed activities.

(4) Retrievable Surface Storage Facilities and other facilities authorized for the express purpose of subsequent long-term storage of high-level radioactive waste generated by the Administration, which are not used for, or are part of, research and development activities.

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 213—OIL IMPORT REGULATIONS

Amendments To Conform Oil Import Regulations to Presidential Proclamation

On March 4, 1975, the President issued Proclamation No. 4355 (40 FR 10437, March 6, 1975) amending Proclamation No. 3279, as amended, which establishes the Mandatory Oil Import Program. The purpose of the new Proclamation is to make certain adjustments in the Program, retroactive to February 1, 1975, as are necessary to and consistent with the national security, taking into account the economic welfare of the United States and Puerto Rico, and the special hardships faced by refiners located in United States territories and foreign trade zones. On March 13, 1975, the Federal Energy Administration (FEA), which administers the Mandatory Oil Import Program, issued a notice proposing amendments to Part 213 of its regulations in order to conform the Oil Import Regulations to the amended Proclamation (40 FR 12287, March 18, 1975). This notice also contained proposed amendments to Part 212 (Mandatory Petroleum Price Regulations) relating to the pricing of residual fuel oil and the disproportionate allocation of costs to domestically refined gasoline, as well as further proposed amendments to Part 213 relating to the imposition of relatively higher fees for imported gasoline than for other imported products. However, on March 24, 1975, FEA issued a further notice extending the comment period and rescheduling the hearing for those proposed amendments unrelated to the implementation of Proclamation No. 4355 (40 FR 13524, March 27, 1975). In view of the extension provided with respect to Part 212 and the corresponding amendment to Part 213, FEA hereby amends only its oil import regulations in Part 213 of Chapter II, Title 10 of the Code of Federal Regulations, in order to conform to Proclamation No. 4355 and to implement the modifications in the Oil Import Program as of February 1, 1975. Further amendment of these regulations may result if, after the extended period for comment and the rescheduled hearing, FEA adopts its proposal relating to the imposition of a higher fee on imported gasoline.

Under the amended Proclamation, increases in supplemental import license fees scheduled to take effect in March and April, pursuant to Proclamation No. 4241 amending Proclamation No. 3279 (40 FR 3965) have been deferred for two months. Increases to $2.00 per barrel on March 1 and $3.00 per barrel on April 1, will take effect on May 1 and June 1, respectively. The supplemental fee of $1.00 per barrel, and the increases in fees originally imposed pursuant to Proclamation No. 4210 (38 FR 9645), which became effective on February 1 pursuant to Proclamation No. 4341, will remain in place. With respect to the reductions in the supplemental fee, which the Administrator of FEA was authorized to make on most petroleum products except crude oil, a corresponding deferral was made, thus leaving the product fee at $0.00 for March and April.

Proclamation No. 4341 provided that the net amount of tariffs paid may be credited, on a monthly basis, against the amount of fees paid. However, in view of the fact that the amount of tariffs paid by importers with fee-exempt allocations is likely to exceed the amount paid in fees, until the two-month suspension expires, Proclamation 4355 provides for a six-month period during which excess tariff payments may be used to reduce fees subsequently paid.

Proclamation 4355 also authorizes the Administrator to determine at what point crude oil, unfinished oils, and finished products shipped into United States territories and foreign trade zones shall become subject to import license fees and supplemental fees. The purpose of this provision is to remedy the hardships that could result to refiners located in territories and foreign trade zones on account of shipments into such locations not becoming subject to license fees at the same time as imports into United States customs territory.

Finally, the Proclamation also provides that the fees and supplemental fees imposed with respect to imports into Puerto Rico, or imports into Districts I–V which are shipped to Puerto Rico, with or without further processing, shall be reduced by the amount of any excise tax or other levy imposed by the Government of Puerto Rico on such imports as are not shipped to Districts I–V. The Proclamation further provides that any such levy shall accord affected importers the same reductions and refunds as are authorized with respect to payment of fees and supplemental fees. The purpose of this provision is to permit the government of Puerto Rico to collect and retain, with respect to imports into Puerto Rico, the equivalent of a fair and reasonable proportion of the import fees provided by Proclamation No. 3279, as amended. This is necessary since Puerto Rico would not benefit from the tax relief and other measures which will benefit other citizens.

In its March 13 notice, FEA proposed to amend § 213.25 of its regulations dealing with allocations and fee-paid licenses for imports of crude oil, unfinished oils, and finished products in order to implement the foregoing changes to the Mandatory Oil Import Program. Several comments were received, and additional oral presentations were made at the hearing. As a result of the opinions expressed, and of further examination of the proposal by FEA staff, FEA has changed certain portions of the proposed amendments to more nearly accomplish the purposes of the Proclamation.

In accordance with Proclamation No. 4355, FEA proposed that § 213.25(d)(1)(i) be amended to provide that imports of crude oil, natural gas products, unfinished oils, and all other finished products (except ethane, propane, butanes, and asphalt) entered into United States customs territory on or after February 1, 1975, shall be subject to a supplemental fee per barrel of $1.00, rising to $2.00 on imports entered on or after May 1, 1975, and to $3.00 on imports entered on or after June 1, 1975. Imports other than

V40169 APR 9 75 XUM

(1) ethane, propane, butanes, and asphalt, (2) crude oil, as defined for purposes of the Old Oil Allocation Program, which is imported for refining, and (3) products refined in a refinery outside of the customs territory as to which crude oil runs to stills would qualify a refiner to receive entitlements under the Old Oil Allocation Program, would not be subject to a supplemental license fee for imports entered during the months of February, March, and April 1975. No adverse comments were received on this proposal, and it has been adopted as proposed. However, since no final decision has yet been made on the proposed disproportionate allocation of costs to domestically refined gasoline, as well as on the corresponding increase in fees on imported gasoline, supplemental fees for May and June are still set at the same levels as those previously scheduled to take effect in March and April respectively, that is, $0.60/bbl. for imports entered in May and $1.20 for imports entered in the month of June and thereafter.

In this connection, FEA also proposed to amend § 213.35(d)(1)(i) to substitute the term "entered" for references to "entered for consumption or withdrawn from warehouse for consumption." The purpose of this proposal was to conform the language of the regulations more closely to that in Proclamation No. 3279, as amended, which is less restrictive, and provides for the payment of supplemental license fees "entered into the Customs territory of the United States." FEA received several comments supporting this proposed amendment, but evincing uncertainty, in light of a statement made in the preamble to the proposal, as to when the supplemental fee would become effective. FRA had stated, at 40 FR 12219, that

> Use of the former language has led to confusion concerning the date on which such fees were payable, since it implied that completion of formal customs procedures was necessary, and since different ports took longer or shorter times to complete such procedures. *However, FEA assesses the fee as of the time merchandise is released from customs custody, regardless of whether it was released by formal entry or for immediate delivery prior to such entry.* (emph. supp.)

Comments pointed out that the cited language suggests applicability of the supplemental fee at the time when merchandise is "released from customs custody" rather than when it physically enters the customs territory, and that this was more restrictive than the Proclamation. In adopting the amendment as proposed, FEA wishes to make the clarification that physical entry is not required by the Proclamation. For purposes of assessing the supplemental fee, the date of entry is deemed to be the date on which an acceptable entry for consumption (CF 7501) is filed, the date on which an acceptable withdrawal from warehouse from consumption is filed (CF 7505), or the date of release from customs custody for immediately delivery, whichever occurs first.

Under amended § 213.35, payment of supplemental fees for licenses issued upon prepayment by the applicant would be at the rate applicable June 1, 1975 ($3.00 per barrel for crude oil, $1.20 per barrel for products) provided that imports entered into United States customs territory against such licenses during the period February 1, 1975, through May 31, 1975, would be subject to the refund of the difference between the amount of fee applicable at the time the imports are entered and the amount previously paid.

In the case of overpayments made on the basis of the $2.00 fee, which took effect on March 1, but was suspended by Proclamation No. 4355, the Director will issue refunds as soon as practicable.

FEA also proposed to amend § 213.35, in accordance with Proclamation No. 4355, so that where the net duty paid during a month exceeds the fee and supplemental fee imposed, the excess duty may be used to reduce such fees payable during the subsequent six months. Some importers commented that the six month period was not long enough in cases where imports are made against fee-exempt licenses, and recommended that the Proclamation be amended to provide for prompt refunds from the entire fund of fees collected. However, such a scheme would be unworkable without an appropriation from Congress, and FEA has therefore adopted the amendment as proposed.

In addition, FEA proposed that in accordance with Proclamation No. 4355, § 213.35 be amended to provide that fees and supplemental fees imposed with respect to imports into Puerto Rico, and imports into Districts I–V which are shipped into Puerto Rico with or without further processing, be reduced by the amount of any excise tax or other levy imposed by the Government of Puerto Rico on such imports as are not shipped to Districts I–V. The Government has since imposed a tax, effective February 1, 1975. As proposed, the amendments provided that importers holding licenses issued by prepayment would receive applicable refunds, and that importers pursuant to bond would be required to pay a reduced amount of fees. FEA received no adverse comments with respect to this proposal, and is adopting it with certain amplification of the treatment of shipments to Districts I–V from Puerto Rico, and with the addition of a provision dealing with the sale in Puerto Rico of petroleum imported into Puerto Rico.

Finally, FEA proposed that § 213.35 be amended to authorize refiners located in American Samoa, Guam, the Virgin Islands or a foreign trade zone to elect a procedure for determining at what point crude oil and unfinished oils shipped into those locations would become subject to the supplemental fee. As proposed, the amendment provided that such refiners could choose to have fees assessed on the date that unlading of the feedstocks commenced, or at the time that finished products or unfinished oils derived from the feedstocks are imported into United States customs territory. In the latter case, the applicable fees were those in effect at the time of importation. Elections under this provision had to be made no later than fifteen (15) days after publication in the FEDERAL REGISTER of amended § 213.35. Elections once made were irrevocable, and failure to elect would result in assessment of the fee at the time that finished products or unfinished oils were imported into U.S. customs territory.

FEA received numerous comments on this proposal, and as a consequence it has been substantially revised. It was pointed out that domestic refiners are able to maintain crude stocks in bond for drawing down as needed. This enables them to defer fee on crude imports until their inventory is released from bond, ready for processing into products that will, if sold within an average 45 days from the release, provide the money with which to pay the fee. Foreign trade zone and territorial refiners could only have elected to incur the fee when unlading of the feedstocks commenced, irrespective of when such stocks would actually be processed. Thus unlike refiners within the customs territory, a refinery in a foreign trade zone would have to carry the cost of the fees on crude during the time between unlading and processing.

In order to give refiners located in United States territories or foreign trade zones more equitable treatment, FEA has changed the option in question to provide that supplemental fees can, if this option is chosen, be assessed on crude oil or unfinished oil as feedstocks run to stills in the refiner's refinery during each month, less any shipments from the refinery for consumption outside United States customs territory.

Furthermore, some concern was expressed with respect to the irrevocability of the election. Should these regulations change in the future, that provision will be taken into consideration so as to avoid any hardship.

In consideration of the foregoing, Part 213, Chapter II of Title 10 of the Code of Federal Regulations, is hereby amended, effective February 1, 1975.

Issued in Washington, D.C., April 3, 1975.

DAVID G. WILSON,
Acting General Counsel,
Federal Energy Administration.

Section 213.35 is amended by adding a new paragraph (a)(9); (d) (1) and (4) of; by revising (e)(2)(i), by deleting the word "and" from (e)(2)(iv), by changing the period to a semicolon in (e)(2)(v) and adding the word "and" after the semicolon, and by adding a new new (e)(2)(vi); and by adding a new paragraph (f) to read as follows:

§ 213.35 Allocation and fee paid licenses for imports of crude oil, unfinished oils, and finished products.

(a) • • •

(9) For purposes of the supplemental fees payable pursuant to paragraph (d) of this section, refiners located in American Samoa, Guam, the Virgin Islands or a foreign trade zone shall elect within fifteen (15) days after publication of this amended § 213.35 to be treated in accordance with either (a)(9)(i) or (ii) of this section. Elections once made may not be changed. Failure to file timely notice of an election will result in treatment in accordance with (a)(9)(ii) of this section.

(i) For refiners electing to be treated under this clause (i), supplemental fees shall be assessed on crude oil or unfinished oil as feedstocks run to stills in the refiner's refinery during each calendar month, less any shipments from the refinery for consumption outside United States customs territory. In those cases where sales are made to the Department of Defense F.O.B. the Virgin Islands or a foreign trade zone, such sales may be deducted from runs to still in determining the liability of the refiner. The Department of Defense is liable for payment of supplemental fees if the material purchased is imported into United States customs territory. No later than ten (10) days after the close of each month, the refiner shall certify to the Director runs to stills of crude oil or unfinished oils and shipments from the refinery for consumption outside United States customs territory during the preceding month. Payment of the supplemental fee shall be made by the refiner by the last day of the month following the month the feedstocks are run to stills. Effective May 1, 1975 and each month thereafter, each refiner must file a bond with a surety on the list of acceptable sureties on Federal bonds, maintained by the Bureau of Government Financial Operations, Department of the Treasury, in a sum not less than the applicable fee multiplied by the total number of barrels processed by the refiner in the last month but one preceding the month for which the bond is posted.

(ii) For refiners electing to be treated under this clause (ii), the supplemental fee shall be assessed on finished products or unfinished oils derived from crude oil or unfinished oils at the time that such finished products or unfinished oils are entered into U.S. customs territory. The applicable supplemental fee shall be the supplemental fee on the feedstock from which such finished products or unfinished oils are derived in accordance with paragraph (d)(1)(i) of this section.

• • • • • •

(d)(1)(i) Except as provided in paragraphs (d)(1)(ii) and (iii) of this section, and except with respect to finished products or unfinished oils as to which a supplemental fee is chargeable on the feedstock from which such finished products or unfinished oils were derived in accordance with (a)(9)(i) of this section, imports of crude oil, natural gas products, unfinished oils and all other finished products (except ethane, propane, butanes, and asphalt) entered into United States customs territory on or after February 1, 1975, shall be subject to a supplemental fee per barrel of $1.00, rising to $2.00 on imports entered on or after May 1, 1975, and to $3.00 on imports entered on or after June 1, 1975, in accordance with § 3(a)(1)(iii) of Proclamation No. 3279, as amended.

(ii) Imports other than (A) ethane, propane, butanes, and asphalt, (B) crude oil as defined for purposes of the Old Oil Allocation Program set forth in § 211.67 of this chapter, which is imported for refining, and (C) products refined in a refinery outside of the customs territory as to which crude oil runs to stills would qualify a refiner to receive entitlements under the Old Oil Allocation Program, shall be subject to a supplemental fee as follows:

(I) for imports entered into the United States customs territory during the months of February, March, and April, 1975, $0.00/bbl.;

(II) for imports entered into the United States customs territory during the month of May, 1975, $0.60/bbl.;

(III) for imports entered into the United States customs territory during the month of June, 1975, and thereafter, $1.20/bbl.

• • • • • •

(4) Payments made pursuant to paragraph (d)(1)(i) of this section for licenses issued upon prepayment shall be at the rate of $3.00 per barrel. Payments made pursuant to paragraph (d)(1)(ii) of this section for licenses issued upon prepayment shall be at the rate of $1.20 per barrel. Imports entered into United States customs territory against such licenses during the period February 1, 1975 through May 30, 1975 shall be subject to refund of the difference between the amount of fee applicable at the time the imports are entered and the amount previously paid.

(e) • • •

(2) • • •

(i) For payment to the importer of record, on a monthly basis, of sums equal to the sums collected by way of duties found payable upon liquidation, by the United States Customs Service, less any applicable duty drawback, *provided that*, said importer certifies the amount of drawback received during that period. Where the duty drawback exceeds the duty paid during that period, the net difference shall be applied to subsequent periods, *provided that* when the duty less drawbacks exceeds the fee imposed, any excess duty may be used to reduce fees payable during the subsequent six months;

• • • • • •

(vi) For payments to the importer of record in accordance with paragraph (f) of this section.

(f)(1) On a monthly basis beginning with the month of February, 1975, the Director shall, in accordance with this paragraph (f), with respect to crude oil, unfinished oils, and finished products imported into Puerto Rico (or imported into Districts I–V and shipped to Puerto Rico with or without further processing) and not shipped to Districts I–V, as crude oil, unfinished oils, or finished products, make reductions in and refunds from fees and supplemental fees by the amount of any excise tax or other levy imposed subsequent to January 31, 1975 and collected by the Government of Puerto Rico on such materials, provided that refunds from or reductions in such excise tax or other levy are authorized in the same manner as are authorized with respect to payments prescribed by paragraphs (c) and (d) of this section.

(2) For the purpose of obtaining refunds or reductions under this paragraph, the importer of record shall furnish the Director for the particular month the following documents: (i) copies of customs entry documents 7501 or 7505, as appropriate, where crude oil, unfinished oils, or finished products were imported into Puerto Rico;

(ii) copies of any bills of lading or other documents filed with the Commonwealth of Puerto Rico relating to shipments of crude oil, unfinished oils, or finished products from Districts I–V to Puerto Rico and from Puerto Rico to Districts I–V; and

(iii) copies of any receipts, for payment to Puerto Rico of a tax or other levy in effect after January 31, 1975 on crude oil, unfinished oils, or finished products not shipped to Districts I–V.

(3) In the case of licenses issued pursuant to a bond, or fee-exempt license, the importer shall pay to the Director, with respect to the following to the extent applicable:

(i) Fees and supplemental fees applicable per barrel on the volumes of crude oil, unfinished oils and finished products imported into Puerto Rico and not shipped into Districts I–V, less the tax or other levy per barrel (up to the amount of the applicable fee and supplemental fees net of any reductions pursuant to paragraph (a)(1) of section 3 of Proclamation No. 3279, as amended) on those volumes paid to Puerto Rico; and

(ii) Fees and supplemental fees applicable per barrel on the volumes of crude oil, unfinished oils and finished products imported into Districts I–V and shipped to Puerto Rico, with or without further processing, less the tax or other levy per barrel on those volumes paid to Puerto Rico; and

(iii) Fees and supplemental fees applicable per barrel on the volumes of crude oil, unfinished oils and finished products imported into Puerto Rico and shipped to Districts I–V, with or without further processing.

(4) In the case of licenses issued pursuant to a valid fee-paid license the importer shall pay to the Director, not later than the last day of the month following the month in which imports were made into Puerto Rico (or into Districts I–V and shipped to Puerto Rico) and shipments from Puerto Rico were made into Districts I–V, the supplemental fee for the month in question in accordance with the provisions of paragraph (f)(3) of this section.

(5) Upon receipt of the documents specified in subparagraph (2) of this paragraph, the Director shall, with respect to licenses issued by prepayment of the fees and supplemental fee prescribed

V40169 APR 9 75 XUM

in paragraphs (c) and (d) of this section, refund to the importer of record such fees on the following crude oil, unfinished oils and finished products: (i) imports into Puerto Rico, plus

(ii) imports into Districts I–V which are shipped to Puerto Rico, less

(iii) shipments to Districts I–V from Puerto Rico.

(6) Crude oil, unfinished oil, and finished products shipped to Puerto Rico from Districts I–V, shall be deemed to be crude oil imported into Districts I–V or to have been processed from such imported crude oil to the extent that the refiner shipping such products has imported into Districts I–V crude oil in equivalent or greater volumes.

(7) The fee and supplemental fee payable pursuant to paragraphs (f) (3) and (4) of this section for the month in question shall be that attributable to the feedstock which was processed or further processed in Puerto Rico. In the event that material which could have been derived from different feedstocks having different fees and supplemental fees is shipped into Districts I–V from Puerto Rico, the material will be deemed, to the extent possible, to have been derived from the feedstock having the lowest fee. Any excess will be deemed to have been derived from the feedstock having the next lowest fee. To the extent that material is shipped from Puerto Rico into Districts I–V in excess of the amount that could have been derived from crude oil or unfinished oils, such shipments will be considered to be transshipments of that material without further processing, and the fee and supplemental fee applicable to that material shall apply.

(8) In the event that an importer of material into Puerto Rico sells crude oil, unfinished oils, or finished products to another person in Puerto Rico, the importer shall ascertain whether the material sold will be shipped into Districts I–V. Where such material will be shipped into Districts I–V, the importer of the materials into Puerto Rico shall be liable for the fees imposed pursuant to paragraphs (f) (3) and (4) of this section on the materials introduced into Puerto Rico and shipped into Districts I–V.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-WA-38]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Terminal Control Area

On January 6, 1975, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (40 FR 1059) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the St. Louis Terminal Control Area (TCA) by redefining certain lateral boundaries and floor altitudes in the vicinity of Webster Groves, Mo.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received in response to the NPRM was from the Air Transport Association (ATA) in which they concurred with the proposal.

In the description of Area C the notice gave only the magnetic bearing of the Maryland Heights VORTAC. Consequently, the Area C description in the rule gives the true bearing.

In consideration of the foregoing, § 71.401(b) (40 FR 640) of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 19, 1975, by amending the description of Areas B and C of the St. Louis, Mo., Group II Terminal Control Area to read as follows:

Area B. That airspace extending upward from 2,000 feet MSL to and including 8,000 feet MSL within a 10-mile radius of the St. Louis International Airport ASR Antenna excluding Area A previously described and the area within and underlying Area C hereinafter described.

Area C. That airspace extending upward from 3,000 feet MSL to and including 8,000 feet MSL within a 15-mile radius of the St. Louis International Airport ASR Antenna, and that area which lies south of the Maryland Heights 102° radial which is contained within the 10-mile radius of the St. Louis International Airport ASR Antenna, excluding Areas A and B previously described, and the area within and underlying Area E hereinafter described.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on April 3, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 8981]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Sir Carpet, Inc. and Bennett Weiner

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.20 Comparative data or merits; § 13.75 Free goods or services; § 13.135 Nature of product or service; § 13.155 Prices: § 13.155–5 Additional charges unmentioned; § 13.155–10 Bait; § 13.155–40 Exaggerated as regular and customary; § 133.155–93 Special or test offers; § 13.155–100 Usual as reduced, special, etc.; § 13.160 Promotional sales plans; § 13.205 Scientific or other relevant facts; § 13.240 Special or limited offers. Subpart—Contracting for sale any evidence of indebtedness prior to specified time: § 13.527 Contracting for sale any evidence of indebtedness prior to specified time. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements: § 13.533–20 Disclosures; § 13.533–40 Furnishing information to media; § 13.533–45 Maintain records; § 13.533–45(a) Advertising substantiation; § 13.533–45(m) Records, sales; § 13.533–55 Refunds, rebates, and/or credits. Subpart—Delaying or withholding corrections, adjustments or action owed: § 13.675 Delaying or withholding corrections, adjustments or action owed. Subpart—Disparaging products, merchandise, services, etc.: § 13.1042 Disparaging products, merchandise, services, etc. Subpart—Failing to maintain records: § 13.1051 Failing to maintain records; § 13.1051–20 Adequate. Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 Comparative data or merits; § 13.1625 Free goods or services; § 13.1685 Nature; § 13.1720 Quantity; § 13.1740 Scientific or other relevant facts; § 13.1743 Size or weight; § 13.1747 Special or limited offers.—Prices: § 13.1778 Additional costs unmentioned; § 13.1779 Bait; § 13.1805 Exaggerated as regular and customary; § 13.1825 Usual as reduced or to be increased.—Promotional sales plans: § 13.1830 Promotional sales plans. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1855 Identity; § 13.1870 Nature; § 13.1882 Prices: § 13.1882–10 Additional costs unmentioned; § 13.1892 Sales contract, right-to-cancel provision; § 13.1895 Scientific or other relevant facts; § 13.1905 Terms and conditions; § 13.1905–50 Sales contract. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.1955 Free goods; § 13.2013 Offers deceptively made and evaded; § 13.2063 Scientific or other relevant facts; § 13.2090 Undertakings in general. Subpart—Securing orders by deception: § 13.2170 Securing orders by deception. Subpart—Using deceptive techniques in advertising: § 13.2275 Using deceptive techniques in advertising.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Sir Carpet, Inc., a Corporation, and Bennett Weiner, Individually and as an Officer of Said Corporation

Order requiring a Takoma Park, Md., carpet retailer and installer, among other things to cease using bait and switch tactics and other deceptive sales practices.

The Order Placing Matter on Docket for Review and Final Order, reads as follows: [1]

An initial decision by the administrative law judge having been issued in this matter on November 13, 1974, containing a provision that would require respondents' contracts to include a statement that they are subject to a cease and desist order of the Federal Trade Commission "for having engaged in bait and switch tactics" and that the consumer can examine a copy of the complaint and order on request:

And the Commission having determined that this initial decision should be placed on its own docket for review *sua sponte* pursuant to § 3.53 of its rules of practice and modified in accordance with its decision in *Wilbanks Carpet Specialists, Inc.*, Docket 8933 (September 24, 1974) [39 F.R. 423471], and *Tri-State Carpets, Inc.*, Docket 8945 (October 15, 1974) [40 F.R. 4412];

Now therefore it is ordered, That the initial decision in this matter be, and it hereby is, placed on the Commission's docket for review; and

It is further ordered, That the said initial decision be, and it hereby is, modified by deleting the portion of the initial decision under the caption "The Black Border Provision" and by striking from paragraph 16 of the order the following sentence: "Also, since we are subject to a cease and desist order of the Federal Trade Commission in Docket No. 8981 for having engaged in bait and switch tactics, you may examine or have a copy of the complaint and order by asking the salesman serving you to provide it;" and

It is further ordered, That, as so modified, the initial decision and order be, and they hereby are, adopted as the decision and order of the Commission.

The order to cease and desist set forth in the initial decision, as modified above, is as follows:

ORDER

It is ordered, That respondents Sir Carpet, Inc., a corporation, its successors and assigns, and its officers, and Bennett Weiner, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, distribution and installation of carpeting and floor coverings, or any other article of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, in any manner, a sales plan, scheme, or device wherein false, misleading, or deceptive statements or representations are made in order to obtain leads or prospects for the sale of carpeting or other merchandise or services.

2. Making representations, directly or indirectly, orally or in writing, purporting to offer merchandise for sale when the purpose of the representation is not to sell the offered merchandise but to obtain leads or prospects for the sale of other merchandise at higher prices.

3. Disparaging in any manner, or discouraging the purchase of any merchandise or services which are advertised or offered for sale.

4. Representing, directly or indirectly, orally or in writing, that any merchandise or services are offered for sale when such offer is not a bona fide offer to sell such merchandise or services.

5. Failing to maintain and produce for inspection and copying for a period of three years following the date of publication of any advertisement, adequate records to document for the entire period during which each advertisement was run and for a period of six weeks after the termination of its publication in press or broadcast media:

a. the cost of publishing each advertisement including the preparation and dissemination thereof;

b. the volume of sales made of the advertised product or service at the advertised price; and

c. a computation of the net profit from the sales of each advertised product or service at the advertised price.

6. Representing, directly or indirectly, orally or in writing, that any price amount is respondents' regular price for any article of merchandise or service unless said amount is the price at which such merchandise or service has been sold or offered for sale by respondents for a reasonably substantial period of time in the recent, regular course of their business and not for the purpose of establishing fictitious higher prices upon which a deceptive comparison or a "free" or similar offer might be based.

7. Representing, directly or indirectly, orally or in writing, that a purchaser of respondents' merchandise or services will receive a "free" vacuum cleaner or any other "free" merchandise, service, prize or award unless all conditions, obligations, or other prerequisites to the receipt and retention of such merchandise, services, gifts, prizes or awards are clearly and conspicuously disclosed at the outset in close conjunction with the word "free" wherever it first appears in each advertisement or offer.

8. Representing, directly or indirectly, orally or in writing, that any merchandise or service is furnished "free" or at no cost to the purchaser of advertised merchandise or services, when, in fact, the cost of such merchandise or service is regularly included in the selling price of the advertised merchandise or service.

9. Representing, directly or indirectly, orally or in writing, that a "free" offer is being made in connection with the introduction of new merchandise or services offered for sale at a specified price unless the respondents expect, in good faith, to discontinue the offer after a limited time and commence selling such merchandise or service, separately, at the same price at which it was sold with a "free" offer.

10. Representing, directly or indirectly, orally or in writing that merchandise or service is being offered "free" with the sale of merchandise or service which is usually sold at a price arrived at through bargaining, rather than at a regular price, or where there may be a regular price, but where other material factors such as quantity, quality, or size are arrived at through bargaining.

11. Representing, directly or indirectly, orally or in writing, that a "free" offer is available in a trade area for more than six (6) months in any twelve (12) month period. At least thirty (30) days shall elapse before another such "free" offer is made in the same trade area. No more than three such "free" offers shall be made in the same area in any twelve (12) month period. In such period, respondents' sale in that area of the product or service in the amount, size or quality promoted with the "free" offer shall not exceed 50 percent of the total volume of its sales of the product or service, in the same amount, size or quality, in the area.

12. Representing, directly or indirectly, orally or in writing, that a product or service is being offered as a "gift", "without charge", "bonus", or by other words or terms which tend to convey the impression to the consuming public that the article of merchandise or service is free, when the use of the term "free" in relation thereto is prohibited by the provisions of this Order.

13. Advertising the price of carpet, either separately or with padding and installation included, for specified areas of coverage without disclosing in immediate conjunction and with equal prominence the square yard price for additional quantities of such carpet with padding and installation needed.

14. Advertising any carpeting or floor covering using a unit of measurement not usually and customarily employed in the retail advertising of carpet or which tends to exaggerate the size or quantity of carpeting or floor covering being offered at the advertised price.

15. Contracting for sale whether in the form of trade acceptance, conditional sales contract, promissory note, or otherwise which shall become binding on the buyer prior to midnight of the third day, excluding Sundays and legal holidays, after the date of execution.

16. Failing to furnish the buyer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution, which is in the same language, e.g., Spanish, as that principally used in the oral sales presentation and which shows the date of the transaction and contains the name and address of the seller, and in immediate proximity to the space reserved in the contract for the signature of the buyer or on the front page of the receipt if a contract is not used and in bold face type of a minimum size of 10 points, a statement in substantially the following form:

You, the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction. See the attached notice of cancellation form for an explanation of this right.

17. Failing to furnish each buyer, at the time he signs the sales contract or otherwise agrees to buy consumer goods or services from the seller, a completed form in duplicate, captioned "Notice of Cancellation", which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten

[1] Copies of the Complaint, Initial Decision, and Order Placing Matter on Docket for Review and Final Order, filed with the original document.

V40169 APR 9 75 XUM

point bold face type the following information and statements in the same language, e.g., Spanish, as that used in the contract:

NOTICE OF CANCELLATION

[Enter date of transaction]

(Date)

You may cancel this transaction, without any penalty or obligation, within three business days from the above date.

If you cancel, any property traded in, any payments made by you under the contract or sale, and any negotiable instrument executed by you will be returned within 10 business days following receipt by the seller of your cancellation notice, and any security interest arising out of the transaction will be cancelled.

If you cancel, you must make available to the seller at your residence, in substantially as good condition as when received, any goods delivered to you under this contract or sale; or you may if you wish, comply with the instructions of the seller regarding the return shipment of the goods at the seller's expense and risk.

If you do make the goods available to the seller and the seller does not pick them up within 20 days of the date of your notice of cancellation, you may retain or dispose of the goods without any further obligation. If you fail to make the goods available to the seller, or if you agree to return the goods to the seller and fail to do so, then you remain liable for performance of all obligations under the contract.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram, to _____, at

[Name of seller]

_____

[Address of seller's place of business]

not later than midnight of _____.

(Date)

I hereby cancel this transaction.

_____

(Date)

_____

(Buyer's signature)

18. Failing, before furnishing copies of the "Notice of Cancellation" to the buyer, to complete both copies by entering the name of the seller, the address of the seller's place of business, the date of the transaction, and the date, not earlier than the third business day following the date of the transaction, by which the buyer may give notice of cancellation.

19. Including in any sales contract or receipt any confession of judgment or any waiver of any of the rights to which the buyer is entitled under this Order including specifically his right to cancel the sale in accordance with the provisions of this Order.

20. Failing to inform each buyer orally, at the time he signs the contract or purchases the goods or services, of his right to cancel.

21. Misrepresenting, directly or indirectly, orally or in writing, the buyer's right to cancel.

22. Failing or refusing to honor any valid notice of cancellation by a buyer and within 10 business days after the receipt of such notice, to (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by the seller; (iii) cancel and return any negotiable instrument executed by the buyer in connection with the contract or sale and take any action necessary or appropriate to terminate promptly any security interest created in the transaction.

23. Negotiating, transferring, selling, or assigning any note or other evidence of indebtedness to a finance company or other third party prior to midnight of the fifth business day following the day the contract was signed or the goods or services were purchased.

24. Failing, within 10 business days of receipt of the buyer's notice of cancellation, to notify him whether the seller intends to repossess or to abandon any shipped or delivered goods.

Provided, however, that nothing contained in this Order shall relieve respondents of any additional obligations respecting contracts required by federal law or the law of the state in which the contract is made. When such obligations are inconsistent, respondents can apply to the Commission for relief from this provision with respect to contracts executed in the state in which such different obligations are required. The Commission, upon showing, shall make such modifications as may be warranted in the premises.

It is further ordered, That respondents shall maintain for at least a one (1) year period, following the effective date of this Order, copies of all advertisements, including newspaper, radio and television advertisements, direct mail and in-store solicitation literature, and any other such promotional material utilized for the purpose of obtaining leads for the sale of carpeting or floor coverings, or utilized in the advertising, promotion or sale of carpeting of floor coverings and other merchandise.

It is further ordered, That respondents, for a period of one (1) year from the effective date of this Order, shall provide each advertising agency utilized by respondents and each newspaper publishing company, television or radio station or other advertising media which is utilized by the respondents to obtain leads for the sale of carpeting or floor coverings and other merchandise, with a copy of the Commission's News Release setting forth the terms of this Order.

It is further ordered, That respondents deliver a copy of this Order to cease and desist to all present and future personnel of respondents engaged in the offering for sale, sale of any product, consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said Order from each such person.

It is further ordered, That respondent corporation shall forthwith distribute a copy of this Order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That the respondent Bennett Weiner, promptly notify the Commission of the discontinuance of his present business or employment and of his affiliations with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the said respondents herein shall within sixty (60) days after service upon them of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this Order.

The Order Placing Matter on Docket for Review and Final Order was issued by the Commission February 6, 1975.

VIRGINIA M. HARDING,
Acting Secretary.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Delegation of Authority

The Securities and Exchange Commission has announced that the Commission's Chief Economist of the Office of Economic Research and in his absence the Assistant Chief Economist have been delegated the authority to certify routine statistical reporting forms to the General Accounting Office as required by the Federal Reports Act, 44 U.S.C. 3512.

Pursuant to the authority set forth in Pub. L. 87-592, 76 Stat. 394-95, 15 U.S.C. 78d-1, 78d-2, the Securities and Exchange Commission hereby adopts § 200.30-12 under Part 200 of Chapter II of Title 17 of the Code of Federal Regulations reading as follows:

§ 200.30-12 Delegation of authority to Chief Economist of Office of Economic Research.

Pursuant to the provisions of Pub. L. 87-592, 76 Stat. 394 (15 U.S.C. 78d-1, 78d-2), the Securities and Exchange Commission hereby delegates, until the Commission orders otherwise, the following function to the Chief Economist of the Office of Economic Research and in his absence the Assistant Chief Economist, to be performed by them or under their direction by such person or persons as may be designated from time to time by the Chairman of the Commission: To certify routine statistical reporting forms for submission to the General Accounting Office as required by the Federal Reports Act.

(Secs. 1, 2, 76 Stat. 394, 395, 15 U.S.C. 78d-1, 78d-2)

The Commission finds that the foregoing action related solely to rules and regulations of agency organization, procedure and practice, and therefore the notice and procedures under 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing action becomes effective on February 4, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

FEBRUARY 4, 1975.

[FR Doc.75-9233 Filed 4-8-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 312—NEW DRUGS FOR INVESTIGATIONAL USE

Adoption of International Clinical Research Standards; Acceptance of Foreign Data

In the FEDERAL REGISTER of September 6, 1973 (38 FR 24220), the Commissioner of Food and Drugs proposed conditions under which results of clinical investigations on drugs generated outside the United States would be acceptable in support of a "Notice of Claimed Investigational Exemption for a New Drug" (IND) or a new drug application (NDA). Interested persons were provided 90 days to submit comments on the proposal. Comments were received from foreign and domestic pharmaceutical industry associations, pharmaceutical manufacturers, a State public health department, a consumers' group, an independent research organization, two physicians, and an attorney. The overwhelming majority of the comments favored the basic principles set forth in the proposal for acceptance of foreign clinical data. In addition, a number of the comments contained specific requests and suggestions for revisions and clarifications.

The regulations pertaining to new drugs for investigational use (21 CFR Part 312) apply to IND's for new drugs that are biological products subject to section 351 of the Public Health Service Act as well as to new drugs subject to section 505 of the Federal Food, Drug, and Cosmetic Act. The proposal did not specifically state that such data could also be used in support of a license application for a biological product. To remove any possible misunderstanding, the final order has been changed to indicate that such is the case.

The comments and the Commissioner's response are summarized as follows:

1. One comment suggested that, in the interest of full disclosure, sponsors and applicants should be encouraged, or even required, to submit to the Food and Drug Administration detailed results of foreign clinical trials even when such data do not satisfy the preconditions established by the Food and Drug Administration and thus cannot be utilized as substitutes for domestic clinical trials. Further, these studies should then be given the weight, if any, to which they are entitled as supplementary information.

The new drug regulations under §§ 312.1 and 314.1 (21 CFR 312.1 and 314.1, formerly 21 CFR 130.3 and 130.4, recodified in the FEDERAL REGISTER of March 29, 1974 (39 FR 11680)), currently require that a "Notice of Claimed Investigational Exemption for a New Drug" (IND) or a new drug application (NDA) contain all known preclinical and clinical data, including any data derived from studies performed outside of the United States. These studies will be given consideration in accordance with the guidelines established.

2. Several comments concerned the case reports to be provided by the investigators and the availability of detailed case records in the investigators' offices and in the hospital. One respondent was concerned that individual patient case reports for non-U.S. studies would not be submitted to the Food and Drug Administration in IND's and NDA's. This, he felt, would deprive Food and Drug Administration medical reviewers of information needed on which to base a recommendation regarding safety and efficacy of the drugs under consideration. It was also contended that the Food and Drug Administration would never be in a position to refuse foreign data if requests for detailed case records were not filled.

The Commissioner believes that this concern was generated by a misinterpretation of a speech given by a Food and Drug Administration official. The speech indicated that one of the reasons for the lack of weight generally given by the Food and Drug Administration to non-U.S. clinical studies is the absence of detailed information such as is provided by firms performing studies in the United States. The proposal of September 1973 stated, among other requirements, that clinical data generated outside of the United States would be acceptable if detailed information is provided.

The Commissioner recognizes, however, that the language in the proposal may not have been entirely clear to persons not involved on a day-to-day basis with IND's, NDA's, and biological product license applications. Therefore, the final order has been expanded to clarify this point. Where the Food and Drug Administration requests verifying records and they are not supplied, the foreign data will not be accepted as primary evidence of safety and effectiveness.

3. Although several responses from foreign pharmaceutical organizations supported the concept and practice of the maintenance of detailed case records by investigators, one U.S. affiliate of a multinational pharmaceutical company stated that many capable, prestigious investigators abroad are not temperamentally attuned to filling out the more elaborate case report forms often devised in the United States to accommodate electronic data processing. The firm asked whether sponsors and applicants would be permitted to transcribe the data from the investigator's case report provided the investigator signed the completed form.

The Commissioner has no objection to this arrangement, and the final order so indicates.

4. In reference to the proposed new section (now § 312.20(b)(1)(iii) under the recent recodification), one comment stated that in most European countries hospital records are regarded as confidential documents, and neither the original nor photocopies are permitted to leave the premises. He asked, therefore, whether information derived from the records, rather than the records themselves, would suffice.

The Commissioner concludes that data derived from hospital records are acceptable except in rare cases where the Food and Drug Administration might deem it necessary to obtain copies of the actual records for detailed review.

5. A comment from a manufacturer related to the provision that the investigator's facilities must be appropriate for the complexity of the studies performed. He asked if a description of the facilities signed by the investigator would be sufficient to establish that these facilities are adequate.

The Commissioner finds that a written description is not required, just as it is not required for U.S. studies. The order in § 312.20(b)(1)(ii) states that the IND sponsor, the NDA applicant or biological product license applicant will verify that the investigator's facilities are adequate. This is the practice in the United States. The policy of the regulations, as emphasized by the proposal, is that where facilities for performing clinical research outside of the United States are similar to those that exist in the United States, the data generated from these studies will be acceptable to the Food and Drug Administration.

6. One comment expressed concern as to how the Food and Drug Administration would verify the qualifications of investigators to perform the clinical studies entrusted to them.

The proposal stated that investigators must be experts qualified by scientific training and experience to evaluate the safety and efficacy of drugs, that such experts are recognized by their peers for the quality of their investigation and the soundness of their conclusions, and that they are usually affiliated with a recognized medical school or independent institution. Moreover, IND sponsors, NDA applicants, and biological product license applicants must verify that the investigators are recognized for their expertise and must submit copies of the investigators' qualifications. This verification will be more easily supported in those countries that are known to have well-developed drug regulatory agencies with high standards for investigators and close monitoring of investigations.

V40169 APR 9 75 XUM

7. Two comments expressed concern that preclinical standards for animal studies are not as stringent abroad as in the United States. As a result, patients abroad will be exposed to investigational drugs that lack the kinds of animal studies required in the United States, and the results of such clinical studies will be submitted to the Food and Drug Administration for approval without the necessary animal studies.

Toxicologic experts differ among themselves as to the requirements needed to achieve a stated objective, as experts do in all fields of science. The preclinical studies performed in other countries must be performed under the requirements of the country in which they are undertaken. The extent to which foreign clinical studies are acceptable in this country depends upon the extent of available information about the drug, both clinical and preclinical. The implication that studies in the United States will be conducted without the usual preclinical studies is incorrect. Where preclinical studies are judged to be inadequate by the Food and Drug Administration and fail to justify starting clinical investigations in this country at whatever phase proposed, the necessary additional preclinical studies will be required before clinical trials can commence.

8. A comment from one manufacturer asked for clarification of a statement in the proposal's preamble that, where a significant new drug is studied both abroad and in the United States and adequate data appear to be available for approval of the drug, international manufacturers are expected to submit the data for review by the Food and Drug Administration at the same time the data are submitted for review in the foreign country. The comment pointed out that U.S. subsidiaries of foreign firms that are independent from control of the foreign parent cannot dictate to the parent company when data should be submitted to the Food and Drug Administration. He suggested, therefore, that the Food and Drug Administration's "demand" be limited to research in which the U.S. subsidiary participates by way of partial or full sponsorship.

As stated in the preamble of the proposal, the primary purposes of the proposed regulation are to promote the public safety by eliminating unnecessary duplication of human research and to expedite the availability to the American public of important new drugs being studied abroad. Firms which develop significant new drugs abroad eventually submit an NDA in order to market them in the United States. Delays in submission of data for an NDA are not in the public interest. The Commissioner does not have the authority to "compel" or "demand" submission of an NDA, but the intent was to emphasize that, for significant new drugs, the Commissioner believes that U.S. pharmaceutical firms have a moral obligation to provide the United States with the accumulated data and submit an NDA in a timely manner so as not to deprive the American people of the benefits that can accrue from such drugs.

9. A number of respondents were concerned with the broad issues of ethical standards, patient consent, and peer review. With regard to ethical standards, two comments were concerned that since, under the proposed regulation, the Declaration of Helsinki would be utilized as the basic doctrine of ethics and investigators would be required to state how their research conformed to its principles, the United States was, quite properly, not attempting to impose its own particular standards on the rest of the world, but was, in fact, attempting to impose the standards of the Declaration of Helsinki. The comments recommended that the regulation state that non-U.S.-generated clinical data will be acceptable if derived from studies conducted under the ethical standards of the Declaration of Helsinki or under accepted local standards. The Commissioner devoted considerable thought and discussion to this particular issue prior to the proposal.

After reconsideration, the Commissioner reaffirms his conclusion at that time, that the Declaration of Helsinki has become a generally recognized acceptable standard for the performance of ethical research. It has been endorsed by many professional societies worldwide, and its principles have been adopted by many investigators throughout the world. The fact that governments have not officially endorsed the Declaration itself is irrelevant inasmuch as the principles embodied in the Declaration of Helsinki are already widely recognized as basic standards for performance of ethical research.

The Commissioner agrees with the comment that non-U.S.-generated clinical data will be acceptable if conducted under accepted local standards as long as the local standards offer greater protection to the individual than do the standards of the Declaration of Helsinki. The final order has been amended accordingly. He cannot accept as primary evidence of the safety and efficacy of a new drug data derived under circumstances meeting a lesser standard. The Commissioner recognizes the need for, and will continually review, the requirements and principles governing research in human subjects and will propose changes as they are appropriate.

10. With respect to committee review, it was noted that the requirement of institutional review goes beyond the principles for clinical research set forth in the Declaration of Helsinki. Comment was made that many recognized institutions do not have review committees and it is unlikely that they would form such committees merely to satisfy United States requirements. One comment stated that, if established, such committees would be likely to perform their duties in a perfunctory manner. As a solution to the problem of the absence of any existing committees in some areas, two respondents suggested that, where such review committees do not exist, the Food and Drug Administration accept the data generated from the investigations, provided that they meet all other requirements. Two other respondents suggested that pharmaceutical manufacturers be permitted to set up their own committees of independent experts with members chosen by professional societies. Another comment suggested the committees be selected by local branches of appropriate medical societies.

The Commissioner has reconsidered the issue of peer review in great detail, and has concluded that he should not require institutional review in all cases. The regulations of the Food and Drug Administration require clinical studies on institutionalized subjects conducted within the United States to be reviewed and approved by an institutional review committee. The purposes of such review are both scientific and ethical: It should assure that the study is well designed to obtain valid results, that the potential benefits to the subject or the importance of the knowledge to be gained outweigh the risks involved, that the rights and welfare of the subjects will be adequately protected throughout the study, and that informed consent will be obtained by methods that are adequate and appropriate. Moreover, a local institutional review committee is best able to make these determinations, because it possesses a more intimate knowledge of the investigator, the facilities, the subject population, and the community standards of ethics and morality. For these reasons, the Commissioner reaffirms his belief, and Agency policy, that institutional review is desirable in all cases.

The Commissioner recognizes, however, that the practice of institutional review is not universally followed. Much important clinical research is conducted throughout the world, legally and ethically in the countries where the research is occurring, without such institutional review. An absolute requirement of peer review by the United States will not by itself create effective institutional review overnight in these countries; it would, however, compel the Food and Drug Administration to reject data generated in this research and ignore the results obtained. This can only produce one of the two results, i.e., either the research will not be repeated, in which case the United States will be deprived of the benefit of such research, or it will be repeated, in which case new ethical and medical problems arise, including the acceptability of conducting research when the results are already known. This dilemma suggests that an absolute requirement of institutional review would, at least in the near future, be unenforceable and contrary to the interests of the public.

Therefore, the Commissioner has modified § 312.20(b)(1)(vi) to provide an optional arrangement: either institutional review or evidence that the study conformed with the laws, regulations, and scientific and ethical standards of clinical research of the country in which the research was conducted. Conformity with

local standards shall include a description of these local standards as well as a description as to how they were met in this study. For example, if a country requires that animal toxicity studies be conducted and made available to the investigator before the commencement of human research, this requirement shall be stated and then evidence shall be submitted showing that such animal studies were in fact done and the results considered by the investigator.

In modifying these requirements, the Commissioner stresses that the Food and Drug Administration in no way will condone the exploitation of institutionalized subjects in other nations. If experience under this order indicates such exploitation (in contrast with the ethical and appropriately safeguarded involvement of such individuals where, for example, the research directly relates to the cause of their institutionalization), the Agency will revise these regulations accordingly.

The Commissioner believes that involvement of manufacturers in the formation and financing of review committees could lead to lack of objectivity in selection of committee members and possibly in evaluations of individual protocols. It would be preferable, as one comment suggested, that such committees be formed by local branches of medical societies. For guidance in the organization and operation of review committees, the Commissioner recommends the procedures contained in the Department of Health, Education, and Welfare regulations published in the FEDERAL REGISTER of March 13, 1975 (40 FR 11854), under 45 CFR Part 46 "Protection of Human Subjects." The Food and Drug Administration final order has been revised to include a reference to Part 46 of Title 45 of the Code of Federal Regulations. Where the Department regulations require a review committee to have broad representation, however, the Food and Drug Administration order only recommends such broad representation wherever practical.

The Commissioner understands the concern that review committees, formed for satisfying Food and Drug Administration standards, may perform in a perfunctory manner. He believes, however, that as individuals gain experience in peer review of research protocols, they will become more aware of the problems in, and the need for, protecting human subjects, and their deliberations will indeed result in better protection for the subjects. The Food and Drug Administration will evaluate the performance of review committees as studies are submitted in support of IND's, NDA's and biologic product licenses. The Food and Drug Administration will also explore with foreign regulatory agencies the possibility of obtaining information on the performance of institutional review committees in other countries. Future modifications of this order may be made in light of those evaluations and information, or as part of the general revision of investigational drug regulations.

11. One comment suggested that, for clinical research conducted in the United Kingdom, the requirement of committee review be deemed satisfied by action of the Committee on Safety of Medicines, which must give permission prior to the performance of early clinical trials in man.

The Commissioner has the greatest respect for the expertise of the members of the Committee on Safety of Medicines. Review by this Committee is, however, similar to the review of investigational drug studies by the Food and Drug Administration, which the Food and Drug Administration itself does not regard as sufficient alone for patient protection. As noted earlier, local institutional review involves persons who have more intimate knowledge of the investigator, the investigational facilities, the subject population and the community standards of ethics and morality. Thus, the Commissioner believes that either a local review committee or a showing of the study conformed to ethical and scientific standards in the United Kingdom is required. The fact that a study has been approved by a prestigious body such as the Committee on Safety of Medicines may of course be given as additional information, and would be pertinent to the showing of conformity with the laws, regulations, and medical and ethical standards of the United Kingdom.

12. Several comments stated that in the United States, committee review is required only for studies conducted on institutionalized subjects or patients and that the Food and Drug Administration, in requiring review for all clinical studies conducted outside the United States, is in fact imposing more stringent requirements.

The proposal was not intended to imply that review was required for studies performed outside of an institution, unless the investigator was affiliated with an institution which accepted responsibility for review of the study. The final order has been modified to clarify when evidence of institutional review is required.

13. A comment was received requesting clarification as to whether a committee review is required for phase I studies (21 CFR 312.1(a), Form FD–1571 item 10.a) in noninstitutionalized volunteers, since such studies are frequently performed abroad in clinical pharmacology units on the premises of a pharmaceutical firm.

Since these units are not considered institutions, committee review is not required, although such review is always desirable whether or not required. Some United States firms have established internal review committees for this purpose.

The Commissioner, in response to this and other similar comments, has clarified in the final order that committee review is not a requirement for studies involving noninstitutionalized subjects.

14. One comment referred to Article III 3c. of the Declaration of Helsinki, which states that, for nontherapeutic clinical research, consent of the subject ordinarily should be obtained in writing. The respondent was concerned because the usual practice in Europe is to obtain consent for such studies orally rather than in writing.

The Commissioner agrees with the Declaration that, for nontherapeutic research, consent ordinarily should be obtained in writing. The Declaration leaves it to the discretion of the investigator whether consent for therapeutic research will be obtained orally or in writing. The primary purpose of consent provisions, of course, is that consent be truly informed. The Commissioner reiterates that for nontherapeutic research, where the subject does not receive any direct salutary gain, consent ordinarily should be obtained in writing.

15. One comment inquired whether bioavailability studies conducted abroad on certified antibiotics pursuant to the provisions of the proposal would be acceptable commencing 60 days after publication of the final order.

The Commissioner finds that antibiotic bioavailability studies conducted abroad and complying with this section will be acceptable in the United States. However, details of the protocol and the reference standard need to be submitted to and preferably discussed with the Food and Drug Administration prior to performing the study due to the complexities of establishing bioavailability.

16. A comment from a State public health department expressed concern that there is no mechanism by which a foreign investigator can receive an investigational new drug from the United States unless there is a domestic sponsor for an IND.

This comment reflects a misunderstanding of the requirements for exporting an investigational drug. Foreign investigators or foreign manufacturers may receive investigational drugs shipped from the United States on completing and filing the appropriate "Notice of Claimed Investigational Exemption for a New Drug." There is no requirement for a United States sponsor or agent. In lieu of filing an IND, an alternative procedure is provided under § 312.1, in the proviso appearing at the end of paragraph (a)(2) of that section.

17. A comment objected to the acceptance of foreign studies for the purposes stated in the proposal and suggested there were more effective and less dangerous ways of eliminating unnecessary research. The respondent suggested the following ways to accomplish the purpose: (a) to make public all data from new drug experiments, (b) to require that thorough animal tests be conducted before exposing a drug to humans, (c) to deny permission for the testing of duplicative and unnecessary drugs in humans, and to determine through specialists what diseases need new therapeutic entities and testing priorities. The comment further stated that while European data of high quality and total verifiability should be used for Food and Drug Administration decisions, there is, in fact, little way to determine which tests are of bona fide high quality, and the Food and Drug Administration is obligating itself to accept virtually all European data submitted to it.

V40169 APR 9 75 XUM

The proposed alternatives are not helpful to the Food and Drug Administration in resolving the need for defining acceptable conditions under which foreign studies may be utilized in the United States to support the safety and efficacy of a drug. Regarding suggestion (a), to the extent that the law permits, the Food and Drug Administration has set forth conditions for release of data in new drug application and biological product license application files in its regulations published in the FEDERAL REGISTER of December 24, 1974 (39 FR 46602), to implement the Freedom of Information Act. In reply to suggestion (b), Food and Drug Administration requirements for animal testing of drugs prior to their introduction for clinical trial have been compatible with scientific standards over the years. They are continually scrutinized. The Health Research Group, which filed this comment, has also submitted to the Food and Drug Administration a petition proposing changes in preclinical tests. The availability of this petition for comment was the subject of a notice published in the FEDERAL REGISTER on April 17, 1974 (39 FR 13797). Concerning suggestion (c), the Food and Drug Administration has no authority to prohibit testing of drugs so long as they are tested in accordance with the Federal Food, Drug, and Cosmetic Act and the regulations thereunder. Furthermore, the Food and Drug Administration does not have the authority, nor does it desire such, to establish priorities in the nation's efforts to eradicate disease and relieve discomforts of mankind. Significant changes in directions of national goals should be made via the legislative process, with opportunity for participation of all segments of society.

The Commissioner, having carefully considered all the comments, concludes that it is in the public interest to adopt the proposed regulation with revisions necessary to clarify certain provisions of the final order.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 505, 507, 701, 52 Stat. 1040–1042, 1052–1053, 1055–1056, as amended, 59 Stat. 463 as amended; 21 U.S.C. 321, 355, 357, 371) and to the provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner (21 CFR 2.120), Part 312 is amended by adding a new Subpart C, to consist at this time of § 312.20, to read as follows:

Subpart C—International Research

§ 312.20 Clinical data generated outside the United States and not subject to a "Notice of Claimed Investigational Exemption for a New Drug."

(a) The Food and Drug Administration's access to data produced by drug studies performed outside of the United States and not covered by a "Notice of Claimed Investigational Exemption for a New Drug" (IND) has been limited largely to review of published literature. The Commissioner of Food and Drugs has concluded that it is in the interest of the public health, whenever possible, to have access to and to consider detailed information resulting from those studies performed abroad which are well-conceived, well-controlled, performed by qualified experts, and conducted in accordance with ethical principles acceptable to the world community.

(b) Such studies may be utilized to support clinical investigations in the United States and in support of the safety and effectiveness of a new drug in a new drug application (NDA) or biological product license application provided all the following conditions are met:

(1) For each investigator's studies, the IND sponsor, NDA applicant or biological product license applicant verifies that:

(i) The investigator is well qualified by scientific training and experience to conduct investigational studies of the subject drug and he is affiliated with a recognized medical school or with an independent institution recognized for its excellence or is otherwise appropriately qualified. Documentation of the investigator's qualifications shall be submitted.

(ii) The investigator has adequate facilities appropriate for the complexity of the studies performed.

(iii) The investigator maintains detailed case records and will complete the sponsor's case report forms or provide the sponsor with the data from his records so that the forms can be completed. He shall also make available to the sponsor any additional background data from such records, including hospital or other institutional records, should such background data be requested by the Food and Drug Administration.

(iv) The investigator has conducted the studies in conformance with the "Declaration of Helsinki" or the laws and regulations of the country in which the research is conducted, whichever represents the greater protection of the individual. If the standards of the country are used, differences from those of the "Declaration of Helsinki," which reads as follows, shall be stated in detail.

DECLARATION OF HELSINKI RECOMMENDATIONS GUIDING DOCTORS IN CLINICAL RESEARCH

I. BASIC PRINCIPLES

1. Clinical research must conform to the moral and scientific principles that justify medical research and should be based on laboratory and animal experiments or other scientifically established facts.

2. Clinical research should be conducted only by scientifically qualified persons and under the supervision of a qualified medical man.

3. Clinical research cannot legitimately be carried out unless the importance of the objective is in proportion to the inherent risk to the subject.

4. Every clinical research project should be preceded by careful assessment of inherent risks in comparison to foreseeable benefits to the subject or to others.

5. Special caution should be exercised by the doctor in performing clinical research in which the personality of the subject is liable to be altered by drugs or experimental procedure.

II. CLINICAL RESEARCH COMBINED WITH PROFESSIONAL CARE

1. In the treatment of the sick person, the doctor must be free to use a new therapeutic measure, if in his judgment it offers hope of saving life, reestablishing health, or alleviating suffering. If at all possible, consistent with patient psychology, the doctor should obtain the patient's freely given consent after the patient has been given a full explanation. In case of legal incapacity, consent should also be procured from the legal guardian; in case of physical incapacity the permission of the legal guardian replaces that of the patient.

2. The doctor can combine clinical research with professional care, the objective being the acquisition of new medical knowledge, only to the extent that clinical research is justified by its therapeutic value for the patient.

III. NONTHERAPEUTIC CLINICAL RESEARCH

1. In the purely scientific application of clinical research carried out on a human being, it is the duty of the doctor to remain the protector of the life and health of that person on whom clinical research is being carried out.

2. The nature, the purpose and the risk of clinical research must be explained to the subject by the doctor.

3a. Clinical research on a human being cannot be undertaken without his free consent after he has been informed; if he is legally incompetent, the consent of the legal guardian should be procured.

3b. The subject of clinical research should be in such a mental, physical and legal state as to be able to exercise fully his power of choice.

3c. Consent should, as a rule, be obtained in writing. However, the responsibility for clinical research always remains with the research worker; it never falls on the subject even after consent is obtained.

4a. The investigator must respect the right of each individual to safeguard his personal integrity, especially if the subject is in a dependent relationship to the investigator.

4b. At any time during the course of clinical research the subject or his guardian should be free to withdraw permission for research to be continued. The investigator or the investigating team should discontinue the research if in his or their judgment, it may, if continued, be harmful to the individual.

(v) An explanation as to how the research conformed to the principles of the declaration is provided, e.g., for nontherapeutic clinical research it should be clear that the nature, purpose and risk of the research was explained to the subject and his consent was obtained.

(vi) If the investigator's study was conducted on institutionalized subjects, or was conducted on noninstitutionalized subjects through an institution which assumed responsibility for the study, either the study has been reviewed for scientific and ethical considerations and approved by a review committee prior to initiation of the study, or the study has been conducted in conformance with the laws, regulations, and scientific and ethical standards of clinical research of the country in which the research was conducted. A review committee, as used in this paragraph, means a committee composed of individuals who are scientists and, where practicable, individuals who are otherwise qualified; in this regard, the addition of other health professionals or laymen to the committee is not required but is desirable. The investigator may not vote on any aspect of the review of his protocol by a review committee. Documentation of review and approval by a review committee shall be submitted and shall include the names and qualifications of the members of the committee. (Procedures for the organization and operation of institutional review committees are contained in the Department of Health, Education, and Welfare regulations on "Protection of Human Rights," 45 CFR Part 46.) Where review and approval by a review committee have not occurred prior to initiation of the study, the IND sponsor, NDA applicant or biological product license applicant shall describe how the study conformed to the laws, regulations and scientific and ethical standards of clinical research in the country in which the research was conducted (e.g., whether any review mechanism is required by law and whether the study met such review, whether the investigator and facilities meet the scientific standards in the country, whether the investigator was fully informed of the results of animal toxicity and prior human safety studies, and whether patient consent procedures were required and were followed).

(2) The IND sponsor, NDA applicant or biological product license applicant submits a detailed summary of the preclinical and clinical data and a description of the components, composition, and manufacturing procedures as described in Form FD–1571, items 1, 2, 3, 4, and 5 (§ 312.1(a)(2)), to give significance to the preclinical and clinical data submitted and to permit comparison with data obtained from other studies on the drug.

(c) Data from studies performed abroad and conducted in accordance with the requirements of this section may be utilized without duplication of the studies in the United States, as appropriate. For example, data from phase 1 studies may permit beginning phase 2 studies in the United States; data from phase 2 may permit initiation of later and more extensive phase 2 studies in the United States; phase 2 studies may on occasion be unnecessary in the United States, depending upon the magnitude and quality of the studies and the drug under investigation; data from phase 3 studies may be utilized to supplement phase 3 studies performed in the United States. (For definition of phases 1, 2, 3, see Form FD–1571, item 10 (§ 312.1(a)(2).) When studies from abroad have been performed prior to initiation of United States studies under an IND, the sponsor shall arrange a meeting with the appropriate division, Office of Scientific Evalution, Bureau of Drugs, or with the appropriate division, Bureau of Biologics, following the division's review of the data, to determine what additional studies will be required in the United States. If studies have been essentially completed in the United States and abroad and the data from the latter are to be incorporated as part of an NDA submission, or biological product license application, they should be included at the time of submission of the NDA, or biological product license application, if possible, but may be submitted as an amendment at any time.

(d) Studies conducted abroad commencing June 9, 1975 will not be accepted in support of new drug applications or biological product license applications unless they comply with this section or a waiver is granted by the Food and Drug Administration for good cause shown. Studies conducted abroad and already completed or commencing prior to June 9, 1975 will not be accepted in support of new drug applications or biological product license applications unless they comply with the requirements of paragraphs (b) (1) (i) through (v) and (2) of this section or a waiver is granted by the Food and Drug Administration for good cause shown.

Effective date; This order shall be effective May 9, 1975.

(Secs. 201, 505, 507, 701, 52 Stat. 1040–1042, 1052–1053, 1055–1056, as amended, 59 Stat. 463 as amended; 21 U.S.C. 321, 355, 357, 371. Sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262.)

Dated: March 18, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc. 75-9187 Filed 4-8-75;8:45 am]

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

REIMBURSEMENT FOR RAILROAD WORK AND RAILROAD-HIGHWAY PROJECTS

Miscellaneous Amendments to Chapter

Federal-aid to highways directives of longstanding set forth policies and procedures relating to railroad-highway projects and reimbursement for railroad work. The directives have been revised for inclusion in the Federal-Aid Highway Program Manual. Inasmuch as portions of the Manual addition impose obligations on States which must be complied with to obtain Federal assistance, these portions are hereby published.

This regulation converts Policy and Procedures Memorandum (PPM) 21–10 and portions of PPM 30–3 to Part 646, Subpart B, Chapter I of Title 23 of the Code of Federal Regulations. This regulation also converts portions of PPM 30–3 to Part 140, Subpart I, Chapter I of Title 23 of the Code of Federal Regulations.

In addition to converting the subject PPM's, this regulation incorporates the related provisions of regulations previously issued in Part 1 of Title 23 of the Code of Federal Regulations, which regulations can now be revoked.

Since the matters affected relate to grants, benefits or contracts within the purview of 5 U.S.C. 553(a)(2), general notice of proposed rulemaking is not required.

This regulation will be effective on the date of issuance.

Issued on March 28, 1975.

J. R. COUPAL, JR.,
Acting Deputy Administrator, Federal Highway Administration.

Subchapter A—General Management and Administration

PART 1—GENERAL

Section 1.25 *Railway-highway crossing projects* is hereby revoked. The provisions of this section have been codified in Part 646, Subpart B of this title.

Subchapter B—Payment Procedures

PART 140—REIMBURSEMENT

Subpart I—Reimbursement for Railroad Work

Sec.
140.900 Purpose.
140.902 Applicability.
140.904 Reimbursement basis.
140.906 Labor costs.
140.908 Materials and supplies.
140.910 Equipment.
140.912 Transportation.
140.914 Credits for improvements.
140.916 Protection.
140.918 Maintenance and extended construction.
140.920 Lump sum payments.
140.922 Billings.

Appendix A—Rates for Labor Surcharges.

AUTHORITY: 23 U.S.C. 315; 49 CFR 1.48.

Subpart I—Reimbursement for Railroad Work

§ 140.900 Purpose.

The purpose of this subpart is to prescribe policies and procedures on reimbursement to the States for railroad work done on projects undertaken pursuant to the provisions of 23 CFR, Part 646, Subpart B.

§ 140.902 Applicability.

This subpart, and all references hereinafter made to "projects," applies to Federal-aid projects involving railroad facilities, including projects for the elimination of hazards of railroad-highway crossings, and other projects which use railroad properties or which involve adjustments required by highway construction to either railroad facilities or facilities that are jointly owned or used by railroad and utility companies.

§ 140.904 Reimbursement basis.

(a) *General.* On projects involving the elimination of hazards of railroad-highway crossings, and on other projects where a railroad company is not obligated to move or to change its facilities at its own expense, reimbursement will be made for the costs incurred in making changes to railroad facilities, required in connection with a Federal-aid highway project, as hereinafter provided.

(b) *Eligibility.* To be eligible, the costs must be:

(1) For work which is included in an approved program,

(2) Incurred subsequent to the date of authorization by the Federal Highway Administration (FHWA),

(3) Incurred in accordance with the provisions of 23 CFR, Part 646, Subpart B, and

V40169 APR 9 75 XUM

(4) Properly attributable to the project.

§ 140.906 Labor costs.

(a) *General.* (1) Salaries and wages, at actual or average rates, and related expenses paid by a company to individuals, for the time they are working on the project, are reimbursable when supported by adequate records. This shall include labor costs associated with preliminary engineering, construction engineering, right-of-way, and force account construction.

(2) Salaries and expenses paid to individuals who are normally part of the overhead organization of the company may be reimbursed for the time they are working directly on the project, such as for accounting and bill preparation, when supported by adequate records and when the work performed by such individuals is essential to the project and could not have been accomplished as economically by employees outside the overhead organization.

(3) Amounts paid to engineers, architects and others for services directly related to projects may be reimbursed.

(b) *Labor surcharges.* (1) Labor surcharges include workmen's compensation insurance, public liability and property damage insurance, and such fringe benefits as the company has established for the benefit of its employees. The cost of labor surcharges will be reimbursed either at actual cost to the company or at the rates established by agreement between FHWA and the Association of American Railroads (AAR). (See Appendix A for rates.)

(2) Where the company is a self insurer there may be reimbursement either at rates shown in Appendix A, or at experience rates properly developed from actual costs, not to exceed the rates of a regular insurance company for the class of employment covered.

§ 140.908 Materials and supplies.

(a) *Procurement.* Materials and supplies, if available, are to be furnished from company stock, except they may be obtained from other sources near the project site when available at less cost. Where not available from company stock, they may be purchased either under competitive bids or existing continuing contracts, under which the lowest available prices are developed. Minor quantities and proprietary products are excluded from these requirements. The company shall not be required to change its existing standards for materials used in permanent changes to its facilities.

(b) *Costs.* (1) Materials and supplies furnished from company stock shall be billed at current stock price of such new or used material at time of issue.

(2) Materials and supplies not furnished from company stock shall be billed at actual costs to the company delivered to the point of entry on the railroad company's line nearest the source of procurement.

(3) A reasonable cost of plant inspection and testing may be included in the costs of materials and supplies where such expense has been incurred. The computation of actual costs of materials and supplies shall include the deduction of all offered discounts, rebates and allowances.

(c) *Materials recovered.* (1) Materials recovered from temporary use and accepted for reuse by the company shall be credited to the project at prices charged to the job, less a consideration for loss in service life at 10 percent for rails, angle bars, tie plates and metal turnout materials and 15 percent for all other materials. Materials recovered from the permanent facility of the company that are accepted by the company for return to stock shall be credited to the project at current stock prices of such used material.

(2) Materials recovered and not accepted for reuse by the company, if determined to have a net sale value, shall be sold by the State or railroad following an opportunity for State inspection and appropriate solicitation for bids, to the highest bidder; or if the company practices a system of periodic disposal by sale, credit to the project shall be at the going prices supported by the records of the company. Where applicable, credit for materials recovered from the permanent facility in length or quantities in excess of that being placed should be reduced to reflect any increased cost of railroad operation resulting from the adjustment.

(d) *Removal costs.* Federal participation in the costs of removing, salvaging, transporting, and handling recovered materials will be limited to the value of materials recovered, except where FHWA approves additional measures for restoration of affected areas as required by the physical construction or by reason of safety or aesthetics.

(e) *Handling costs.* The actual and direct costs of handling and loading out of materials and supplies at and from company stores or material yards and of unloading and handling of recovered materials accepted by the company at its stores or material yards, are reimbursable. At the option of the company, 5 percent of the amounts billed for the materials and supplies which are issued from company stores and material yards will be reimbursable in lieu of actual costs.

(f) *Credit losses.* On projects where a company actually suffers loss by application of credits, the company shall have the opportunity of submitting a detailed statement of such loss as a basis for further adjustment.

§ 140.910 Equipment.

(a) *Company owned equipment.* Cost of company owned equipment may be reimbursed for the average or actual cost of operation, light and running repairs, and depreciation. At the option of the company, reimbursement for equipment cost may be made at the rates and under the conditions set forth in circulars issued by the General Managers Associations of Chicago and New York. Reimbursement for company owned vehicles may be made at average or actual costs or at rates of recorded use per mile established by agreement between FHWA and AAR. (See Appendix A.)

(b) *Other equipment.* Where company owned equipment is not available, reimbursement will be limited to the amount of rental paid (1) to the lowest qualified bidder, (2) under existing continuing contracts at reasonable cost, or (3) as an exception, by negotiation where (1) and (2) are impractical due to project location or schedule.

§ 140.912 Transportation.

(a) *Employees.* The company's cost of necessary employee transportation and subsistence directly attributable to the project, which is consistent with overall policy of the company, is reimbursable.

(b) *Materials, supplies and equipment.* The most economical movement of materials, supplies and equipment to the project and necessary return to storage, including the associated costs of loading and unloading equipment, is reimbursable. Transportation by a railroad company over its own lines in a revenue train is reimbursable at rates which do not exceed ten mills a ton-mile or the published tariff rate, whichever is the lesser. No charge will be made for transportation by work train other than the operating expenses of the work train. When it is more practicable or more economical to move equipment on its own wheels, reimbursement may be made at a rate of twenty cents a car-mile haul for heavy construction equipment such as pile drivers or locomotive cranes; and six cents a car-mile haul for other equipment.

§ 140.914 Credits for improvements.

(a) Credit shall be made to the project for additions or improvements which provide for higher quality or increased service capability of the operating facility and which are provided solely for the benefit of the company.

(b) Where buildings and other depreciable structures of a company which are integral to operation of rail traffic must be replaced, credit shall be made to the project as set forth in 23 CFR 646.216(c)(2).

(c) No credit is required for additions or improvements which are:

(1) Necessitated by the requirements of the highway project.

(2) Replacements which, although not identical, are of equivalent standard.

(3) Replacements of devices or materials no longer regularly manufactured and the next highest grade or size is used.

(4) Required by governmental and appropriate regulatory commission requirements.

§ 140.916 Protection.

The cost of essential protective services which, in the opinion of a railroad company, are required to ensure safety to railroad operations during certain periods of the construction of a project, is reimbursable provided an item for such services is incorporated in the State-railroad agreement or in a work order issued by the State and approved by FHWA.

§ 140.918 Maintenance and extended construction.

The cost of maintenance and extended construction is reimbursable to the extent provided for in 23 CFR 646.216(f)(4), and where included in the State-Railroad Agreement or otherwise approved by the State and FHWA.

§ 140.920 Lump sum payments.

Where approved by FHWA, pursuant to 23 CFR 646.216(d)(3), reimbursement may be made as a lump sum payment, in lieu of actual costs.

§ 140.922 Billings.

(a) The company shall provide one final and complete billing of all incurred costs, or of the agreed-to lump sum, at the earliest practicable date. The final billing to FHWA shall include a State certification that the work is complete, acceptable and in accordance with the terms of the agreement.

(b) All company cost records and accounts relating to the project are subject to audit by representatives of the State and/or the Federal Government for a period of three years from the date final payment has been received by the company.

(c) A railroad company must advise the State promptly of any outstanding obligation of the State's contractor for services furnished by the company such as protective services.

APPENDIX A—RATES FOR LABOR SURCHARGES

I. Labor surcharges established by agreement between Federal Highway Administration and Association of American Railroads.

The cost of vacation pay or allowances earned by all classes of railroad employees is reimbursable at the rate of 6.75 percent, applied to total salaries and wages paid and claimed.

The cost of paid holidays of railroad employees is reimbursable at the rate of 2.80 percent, applied only to total salaries and wages paid and claimed for the non-operating group of railroad employees.

The cost of Workmen's Compensation Self-Insurance is reimbursable at the rate of 3 percent, applied to total salaries and wages paid and claimed, inclusive of vacation pay and allowance. The cost of Public Liability and Property Damages Self-Insurance is reimbursable at the rate of 1 percent, applied to total salaries and wages paid and claimed inclusive of vacation pay and allowances.

The cost of payroll taxes paid by a railroad for regular retirement benefits (including Medicare) and unemployment insurance is reimbursable at the full legal rate on compensation of employees up to stated monthly limits, including cost of vacation pay or allowances and holiday pay. As an alternative, at the election of the railroad, a rate of ¼ percent less than the full legal rate may be applied to total salaries and wages paid and claimed, including cost of vacation pay or allowances and holiday pay.

Following are the rates and limitations determined under applicable legislation, together with the alternate lesser rates:

Calendar year	Monthly limitation		Full legal rate		Combined rate less ¼ percent
	Retirement	Unemployment insurance	Retirement	Unemployment insurance	
			Percent	Percent	
1968	$550	$400	7.95	4	11.70
1967	550	400	8.65	4	12.40
1968	650	400	8.90	4	12.65
1969–70	650	400	9.55	4	13.30
1971	650	400	9.95	4	13.70
1972	750	400	9.95	4	13.70
1973:					
January through September	900	400	10.00	4	14.25
October through December	900	400	15.85	4	19.10
1974–75	1,100	400	15.85	4	19.10

In addition, payroll taxes for supplementary annuities are reimbursable at rates fixed by statute and by the Railroad Retirement Board. These rates, applicable to total manhours for which compensation is paid, including vacation and holiday allowances, are as follows:

Period	Tax per manhour (cents)
Nov. 1, 1966 to Mar. 31, 1970	2
Apr. 1, 1970 to June 30, 1970	6
July 1, 1970 to Dec. 31, 1970	7
Jan. 1, 1971 to June 30, 1972	6
July 1, 1972 to Dec. 31, 1974	7½
July 1, 1975 until changed	8½

At the election of the railroad, a rate representive of the cost of health and welfare benefits, not in excess of 5 percent of the cost of total salaries and wages paid and claimed, will be reimbursed.

II. Automotive Rates Established by Agreement Between Federal Highway Administration and Association of American Railroads:

	Cents per mile—	
	Auto	Truck
Through calendar year 1974	7	10
Calendar year 1975 and later	12	15

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

Subpart B—Railroad-Highway Projects

Sec.
646.200 Purpose and applicability.
646.202 Authority.
646.204 Definitions.
646.206 Types of projects.
646.208 Funding.
646.210 Classification of projects and railroad share of the cost.
646.212 Federal share.
646.214 Design.
646.216 General procedures.
646.218 Simplified procedure for accelerating grade crossing improvements.
646.220 Alternate Federal-State procedure.

AUTHORITY: 23 U.S.C. 315; 49 CFR 1.48.

Subpart B—Railroad-Highway Projects

§ 646.200 Purpose and applicability.

(a) The purpose of this subpart is to prescribe policies and procedures for advancing Federal-aid projects involving railroad facilities.

(b) This subpart, and all references hereinafter made to "projects," applies to Federal-aid projects involving railroad facilities, including projects for the elimination of hazards of railroad-highway crossings, and other projects which use railroad properties or which involve adjustments required by highway construction to either railroad facilities or facilities that are jointly owned or used by railroad and utility companies.

(c) Additional instructions for projects involving the elimination of hazards of railroad-highway grade crossings pursuant to 23 U.S.C. 405 and Section 203 of the Highway Safety Act of 1973 are set forth in 23 CFR, Part 655, Subpart E.

(d) Procedures on reimbursement for projects undertaken pursuant to this subpart are set forth in 23 CFR, Part 140, Subpart I.

(e) Procedures on insurance required of contractors working on or about railroad right-of-way are set forth in 23 CFR, Part 646, Subpart A.

(f) Audit requirements for work undertaken pursuant to this subpart which is not accomplished under competitive bidding procedures are set forth in 23 CFR, Part 170.

§ 646.202 Authority.

This subpart is issued under authority of 23 U.S.C. 109(e), 120(d), 130, 315, and 405, Section 203 of the Highway Safety Act of 1973, and 49 CFR 1.48.

§ 646.204 Definitions.

For the purposes of this subpart, the following definitions apply:

(a) "Railroad" shall mean all rail carriers, publicly-owned, private, and common carriers, including line haul freight and passenger railroads, switching and terminal railroads and passenger carrying railroads such as rapid transit, commuter and street railroads.

(b) "Utility" shall mean the lines and facilities for producing, transmitting or distributing communications, power, electricity, light, heat, gas, oil, water, steam, sewer and similar commodities.

(c) "Company" shall mean any railroad or utility company including any wholly owned or controlled subsidiary thereof.

(d) "'G' funds" signify those Federal-aid highway funds which, pursuant to 23 U.S.C. 120(d), may be used for projects for the elimination of hazards of railroad-highway crossings not to exceed 10 percent of Federal-aid funds apportioned in accordance with 23 U.S.C. 104.

V40169 APR 9 75 XUM

(e) "Preliminary Engineering" shall mean the work necessary to produce construction plans, specifications, and estimates to the degree of completeness required for undertaking construction thereunder, including locating, surveying, designing and related work.

(f) "Construction" shall mean the actual physical construction to improve or eliminate a railroad-highway grade crossing or accomplish other railroad involved work.

(g) "A diagnostic team" means a group of knowledgeable representatives of the parties of interest in a railroad-highway crossing or a group of crossings.

(h) "Main line railroad track" means a track of a principal line of a railroad, including extensions through yards, upon which trains are operated by timetable or train order or both, or the use of which is governed by block signals or by centralized traffic control.

(i) "Passive Warning Devices" means those types of traffic control devices, including signs, markings and other devices, located at or in advance of grade crossings to indicate the presence of a crossing but which do not change aspect upon the approach or presence of a train.

(j) "Active Warning Devices" means those traffic control devices activated by the approach or presence of a train, such as flashing light signals, automatic gates and similar devices, as well as manually operated devices and crossing watchmen, all of which display to motorists positive warning of the approach or presence of a train.

§ 646.206 Types of projects.

(a) Projects for the elimination of hazards, to both vehicles and pedestrians, of railroad-highway crossings may include but are not limited to:

(1) Grade crossing elimination;

(2) Reconstruction of existing grade separations; and

(3) Grade crossing improvements.

(b) Other railroad-highway projects are those which use railroad properties or involve adjustments to railroad facilities required by highway construction but do not involve the elimination of hazards of railroad-highway crossings. Also included are adjustments to facilities that are jointly owned or used by railroad and utility companies.

§ 646.208 Funding.

(a) Federal-aid funding for projects which involve the elimination of hazards of railroad-highway crossings may, at the option of the State, be provided through one of the following alternative methods, within the qualifications prescribed for each:

(1) "G" funding, as provided by 23 U.S.C. 120(d) and 130;

(2) regular pro rata sharing as provided by 23 U.S.C. 120(a) and 120(c); and

(3) funding authorized by 23 U.S.C. 405 and Section 203 of the Highway Safety Act of 1973.

(b) The adjustment of railroad facilities which does not involve the elimination of hazards of railroad-highway crossings may be funded through regular pro rata sharing, as provided by 23 U.S.C. 120 (a) and (c).

§ 646.210 Classification of projects and railroad share of the cost.

(a) State laws requiring railroads to share in the cost of work for the elimination of hazards at railroad-highway crossings shall not apply to Federal-aid projects.

(b) Pursuant to 23 U.S.C. 130(b), and 49 CFR 1.48:

(1) Projects for grade crossing improvements are deemed to be of no ascertainable net benefit to the railroads and there shall be no required railroad share of the costs.

(2) Projects for the reconstruction of existing grade separations are deemed to generally be of no ascertainable net benefit to the railroads and there shall be no required railroad share of the costs, unless the railroad has a specific contractual obligation with the State or its political subdivision to share in the costs.

(3) On projects for the elimination of existing grade crossings at which active warning devices are in place or ordered to be installed by a State regulatory agency, the railroad share of the project costs shall be 5 percent.

(4) On projects for the elimination of existing grade crossings at which active warning devices are not in place and have not been ordered installed by a State regulatory agency, or on projects which do not eliminate an existing crossing, there shall be no required railroad share of the project cost.

(c) The required railroad share of the cost under § 646.210(b)(3) shall be based on the costs for preliminary engineering, right-of-way and construction within the limits described below:

(1) Where a grade crossing is eliminated by grade separation, the structure and approaches required to transition to a theoretical highway profile which would have been constructed if there were no railroad present, for the number of lanes on the existing highway and in accordance with the current design standards of the State highway agency.

(2) Where another facility, such as a highway or waterway, requiring a bridge structure is located within the limits of a grade separation project, the estimated cost of a theoretical structure and approaches as described in § 646.210(c)(1) to eliminate the railroad-highway grade crossing without considering the presence of the waterway or other highway.

(3) Where a grade crossing is eliminated by railroad or highway relocation, the actual cost of the relocation project, or the estimated cost of a structure and approaches as described in § 646.210(c)(1), whichever is less.

(d) Railroads may voluntarily contribute a greater share of project costs than is required. Also, other parties may voluntarily assume the railroad's share.

§ 646.212 Federal share.

(a) *General.* (1) Federal funds are not eligible to participate in costs incurred solely for the benefit of the railroad.

(2) At grade separations Federal funds are eligible to participate in costs to provide space for more tracks than are in place when the railroad establishes to the satisfaction of the State highway agency and FHWA that it has a definite demand and plans for installation of the additional tracks within a reasonable time.

(3) The Federal share of the cost of a grade separation project shall be based on the cost to provide horizontal and/or vertical clearances used by the railroad in its normal practice, subject to limitations as agreed to periodically by FHWA and the Joint American Association of State Highway and Transportation Officials (AASHTO)—Association of American Railroads (AAR) Committee, or as required by a State regulatory agency.

(b) *"G" Funds.* (1) The Federal share of the cost of a "G" funded project may be up to 100 percent of the cost of preliminary engineering and construction and 70 percent of the cost of right-of-way and property damage, except that the Federal share shall be reduced by the amount of any required railroad share of the cost.

(2) Projects for the elimination of hazards of railroad-highway crossings, either by crossing elimination, improvement, or the reconstruction of existing grade separations, as described in § 646.206(a) are eligible for "G" funding subject to the following limitations:

(i) For a new or reconstructed grade separation, the entire structure or structures and necessary highway and railroad approaches to accommodate both vehicular and pedestrian traffic.

(ii) Where another facility, such as a highway or waterway requiring a bridge structure, is located within the limits of a grade separation project, the estimated cost and limits of work for a theoretical structure and necessary approaches as in § 646.212(b)(2)(i) without considering the presence of the waterway or other highway.

(iii) For railroad or highway relocation the actual cost of the relocation project or the estimated cost of a theoretical structure and necessary approaches to eliminate the grade crossing(s) as in § 646.212(b)(2)(i), whichever is less.

(iv) Grade crossing improvements in the vicinity of the crossing and related work, including construction or reconstruction of the approaches as necessary to provide an acceptable transition to existing or improved highway gradients and alignments, and advance warning devices.

§ 646.214 Design.

(a) *General.* (1) Facilities that are the responsibility of the railroad for maintenance and operation shall conform to the specifications and design standards used by the railroad in its normal practice, subject to approval by the State highway agency and FHWA.

V 40169
APR 9 75
XUM

(2) Facilities that are the responsibility of the highway agency for maintenance and operation shall conform to the specifications and design standards and guides used by the highway agency in its normal practice, subject to approval by FHWA.

(b) *Grade crossing improvements.* (1) All traffic control devices proposed shall comply with the latest edition of the Manual on Uniform Traffic Control Devices for Streets and Highways supplemented to the extent applicable by State standards and the current AAR Bulletin on Recommended Practices for Railroad-Highway Grade Crossing Warning Systems.

(2) Pursuant to 23 U.S.C. 109(e), where a railroad-highway grade crossing is located within the limits of or near the terminus of a Federal-aid highway project for construction of a new highway or improvement of the existing roadway, the crossing shall not be opened for unrestricted use by traffic or the pro- for unrestricted use by traffic or the project accepted by FHWA until adequate warning devices for the crossing are installed and functioning properly.

(3) (i) "Adequate warning devices", under § 646.214(b) (2) or on any project where Federal-aid funds participate in the installation of the devices are to include automatic gates with flashing light signals when one or more of the following conditions exist:

(A) Multiple main line railroad tracks.

(B) Multiple tracks at or in the vicinity of the crossing which may be occupied by a train or locomotive so as to obscure the movement of another train approaching the crossing.

(C) High speed train operation combined with limited sight distance at either single or multiple track crossings.

(D) A combination of high speeds and moderately high volumes of highway and railroad traffic.

(E) Either a high volume of vehicular traffic, high number of train movements, substantial numbers of schoolbuses or trucks carrying hazardous materials, unusually restricted sight distance, continuing accident occurrences, or any combination of these conditions.

(F) A diagnostic team recommends them.

(ii) In individual cases where a diagnostic team justifies that gates are not appropriate, FHWA may find that the above requirements are not applicable.

(4) For crossings where the requirements of § 646.214(b) (3) are not applicable, the type of warning device to be installed, whether the determination is made by a State regulatory agency, State highway agency, and/or the railroad, is subject to the approval of FHWA.

(c) *Grade crossing elimination.* All crossings of railroads and highways at grade shall be eliminated where there is full control of access on the highway (a freeway) regardless of the volume of railroad or highway traffic.

§ 646.216 General procedures.

(a) *General.* Unless specifically modified herein, applicable Federal-aid procedures govern projects undertaken pursuant to this subpart.

(b) *Preliminary engineering and engineering services.* (1) As mutually agreed to by the State highway agency and railroad, and subject to the provisions of § 646.216(b) (2), preliminary engineering work on railroad-highway projects may be accomplished by one of the following methods:

(i) The State or railroad's engineering forces;

(ii) An engineering consultant selected by the State after consultation with the railroad, and with the State administering the contract; or

(iii) An engineering consultant selected by the railroad, with the approval of the State and with the railroad administering the contract.

(2) Where a railroad is not adequately staffed, Federal-aid funds may participate in the amounts paid to engineering consultants and others for required services, provided such amounts are not based on a percentage of the cost of construction, either under contracts for individual projects or under existing written continuing contracts where such work is regularly performed for the railroad in its own work under such contracts at reasonable costs.

(c) *Rights-of-way.* (1) Acquisition of right-of-way by a State highway agency on behalf of a railroad or acquisition of nonoperating real property from a railroad shall be in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) and applicable FHWA right-of-way procedures in 23 CFR, Chapter I, Subchapter H. On projects for the elimination of hazards of railroad-highway crossings by the relocation of railroads, acquisition of replacement right-of-way by a railroad shall be in accordance with 42 U.S.C. 4601 et seq.

(2) Where buildings and other depreciable structures of the railroad (such as signal towers, passenger stations, depots, and other buildings and equipment housings) which are integral to operation of railroad traffic are wholly or partly affected by a highway project, the costs of work necessary to functionally restore such facilities are eligible for participation. However, when replacement of such facilities is necessary, credits shall be made to the cost of the project for:

(i) Accrued depreciation, which is that amount based on the ratio between the period of actual length of service and total life expectancy applied to the original cost.

(ii) Additions or improvements which provide higher quality or increased service capability of the facility and which are provided solely for the benefit of the railroad.

(iii) Actual salvage value of the material recovered from the facility being replaced. Total credits to a project shall not be required in excess of the replacement cost of the facility.

(3) Where Federal funds participate in the cost of replacement right-of-way, there will be no charge to the project for the railroad's existing right-of-way being transferred to the State highway agency except when the value of the right-of-way being taken exceeds the value of the replacement right-of-way.

(d) *State-railroad agreements.* (1) Where construction of a Federal-aid project requires use of railroad properties or adjustments to railroad facilities, there shall be an agreement in writing between the State highway agency and the railroad company.

(2) The written agreement between the State and the railroad shall, as a minimum include the following, where applicable:

(i) The provisions of this subpart and of 23 CFR, Part 140, Subpart I, incorporated by reference.

(ii) A detailed statement of the work to be performed by each party.

(iii) Method of payment (either actual cost or lump sum),

(iv) For projects which are not for the elimination of hazards of railroad-highway crossings, the extent to which the railroad is obligated to move or adjust its facilities at its own expense,

(v) The railroad's share of the project cost,

(vi) An itemized estimate of the cost of the work to be performed by the railroad,

(vii) Method to be used for performing the work, either by railroad forces or by contract,

(viii) Maintenance responsibility,

(ix) Form, duration, and amounts of any needed insurance,

(x) Appropriate reference to or identification of plans and specifications,

(xi) Statements defining the conditions under which the railroad will provide or require protective services during performance of the work, the type of protective services and the method of reimbursement to the railroad, and

(xii) Provisions regarding inspection of any recovered materials.

(3) On work to be performed by the railroad with its own forces and where the State highway agency and railroad agree, subject to approval by FHWA, an agreement providing for a lump sum payment in lieu of later determination of actual costs may be used for any of the following:

(i) Installation or improvement of grade crossing warning devices and/or grade crossing surfaces, regardless of cost, or

(ii) Any other eligible work where the estimated cost to the State of the proposed railroad work does not exceed $10,000 or

(iii) Where FHWA finds that the circumstances are such that this method of developing costs would be in the best interest of the public.

(4) Where the lump sum method of payment is used, periodic reviews and analyses of the railroad's methods and cost data used to develop lump sum estimates will be made.

(5) Master agreements between a State and a railroad on an areawide or statewide basis may be used. These agreements would contain the specifications, regulations, and provisions required in

V 40 69
APR 9 75

conjunction with work performed on all projects. Supporting data for each project or group of projects must, when combined with the master agreement by reference, satisfy the provisions of § 646.216 (d) (2).

(6) Official orders issued by regulatory agencies will be accepted in lieu of State-railroad agreements only where, together with supplementary written understandings between the State and the railroad, they include the items required by § 646.216(d) (2).

(7) In extraordinary cases where FHWA finds that the circumstances are such that requiring such agreement or order would not be in the best interest of the public, projects may be approved for construction with the aid of Federal funds, provided satisfactory commitments have been made with respect to construction, maintenance and the railroad share of project costs.

(e) *Authorizations.* (1) The costs of preliminary engineering, right-of-way acquisition, and construction incurred after the date each phase of the work is included in an approved program and authorized by FHWA are eligible for Federal-aid participation. Preliminary engineering and right-of-way acquisition costs which are otherwise eligible, but incurred by a railroad prior to authorization by FHWA, although not reimbursable, may be included as part of the railroad share of project cost where such a share is required.

(2) Prior to issuance of authorization by FHWA either to advertise the physical construction for bids or to proceed with force account construction for railroad work or for other construction affected by railroad work, the following must be accomplished:

(i) The plans, specifications and estimates must be approved by FHWA.

(ii) A proposed agreement between the State and railroad must be found satisfactory by FHWA. Before Federal funds may be used to reimburse the State for railroad costs, the executed agreement must be approved by FHWA.

(iii) Adequate provision must be made for any needed easements, right-of-way, temporary crossings for construction purposes or other property interests.

(iv) The pertinent portions of the State-railroad agreement applicable to any protective services required during performance of the work must be included in the project specifications and special provisions for any construction contract.

(3) In unusual cases, pending compliance with § 646.216(e) (2) (ii), (iii) and (iv), authorization may be given by FHWA to advertise for bids for highway construction under conditions where a railroad grants a right-of-entry to its property as necessary to prosecute the physical construction.

(f) *Construction.* (1) Construction may be accomplished by:

(i) Railroad force account,

(ii) Contracting with the lowest qualified bidder based on appropriate solicitation,

(iii) Existing continuing contracts at reasonable costs, or

(iv) Contract without competitive bidding, for minor work, at reasonable costs.

(2) Reimbursement will not be made for any increased costs due to changes in plans:

(i) For the convenience of the contractor, or

(ii) Not approved by the State and FHWA.

(3) The State and FHWA shall be afforded a reasonable opportunity to inspect materials recovered by the railroad prior to disposal by sale or scrap. This requirement will be satisfied by the railroad giving written notice, or oral notice with prompt written confirmation, to the State of the time and place where the materials will be available for inspection. The giving of notice is the responsibility of the railroad, and it may be held accountable for full value of materials disposed of without notice.

(4) In addition to normal construction costs, the following construction costs are eligible for participation with Federal-aid funds when approved by the State and FHWA:

(i) The cost of maintaining temporary facilities of a railroad company required by and during the highway construction to the extent that such costs exceed the documented normal cost of maintaining the permanent facilities.

(ii) The cost of stage or extended construction involving grade corrections and/or slope stabilization for permanent tracks of a railroad which are required to be relocated on new grade by the highway construction. Stage or extended construction will be approved by FHWA only when documentation submitted by the State establishes the proposed method of construction to be the only practical method and that the cost of the extended construction within the period specified is estimated to be less than the cost of any practicable alternate procedure.

(iii) The cost of restoring the company's service by adustments of existing facilities away from the project site, in lieu of and not to exceed the cost of replacing, adjusting or relocating facilities at the project site.

(iv) The cost of an addition or improvement to an existing railroad facility which is required by the highway construction.

§ 646.218 Simplified procedure for accelerating grade crossing improvements.

(a) The procedure set forth in this section is encouraged for use in simplifying and accelerating the processing of single or multiple grade crossing improvements.

(b) Eligible preliminary engineering costs may include those incurred in selecting crossings to be improved, determining the type of improvement for each crossing, estimating the cost and preparing the required agreement.

(c) The written agreement between a State and a railroad shall contain as a minimum:

(1) Identification of each crossing location.

(2) Description of improvement and estimate of cost for each crossing location.

(3) Estimated schedule for completion of work at each location.

(d) Following programming, authorization and approval of the agreement under Section 646.218(c), FHWA may authorize construction, including acquisition of warning device materials, with the condition that work at any particular location will not be undertaken until the proposed or executed State-railroad agreement under § 646.216(d)(2) is found satisfactory by FHWA and the final plans, specifications, and estimates are approved and with the condition that only material actually incorporated into the project will be eligible for Federal participation.

(e) Work programmed and authorized under this simplified procedure should include only that which can reasonably be expected to reach the construction stage within one year and be completed within two years after the initial authorization date.

§ 646.220 Alternate Federal-State procedure.

(a) On other than Interstate projects, an alternate procedure may be used, at the election of the State, for processing certain types of railroad-highway work. Under this procedure, the State highway agency will act in the relative position of FHWA for reviewing and approving projects.

(b) The scope of the State's approval authority under the alternate procedure includes all actions necessary to advance and complete the following types of railroad-highway work:

(1) All types of grade crossing improvements under § 646.206(a)(3).

(2) Minor adjustments to railroad facilities under § 646.206(b).

(c) The following types of work are to be reviewed and approved in the normal manner, as prescribed elsewhere in this subpart.

(1) All projects under § 646.206(a)(1) and (2).

(2) Major adjustments to railroad facilities under § 646.206(b).

(d) Any State wishing to adopt the alternate procedure may file a formal application for approval by FHWA. The application must include the following:

(1) The State's written policies and procedures for administering and processing Federal-aid railroad-highway work, which make adequate provisions with respect to all of the following:

(i) Compliance with the provisions of Title 23, U.S.C., Title 23 CFR, and other applicable Federal laws and Executive Orders.

(ii) Compliance with this subpart and 23 CFR, Part 140, Subpart I and 23 CFR, Part 170.

(iii) For grade crossing safety improvements, compliance with the requirements of 23 CFR, Part 655, Subpart E.

(2) A statement signed by the Chief Administrative Officer of the State highway agency certifying that:

(i) The work will be done in accordance with the applicable provisions of the State's policies and procedures submitted under § 646.220(d)(1), and

(ii) Reimbursement will be requested in only those costs properly attributable to the highway construction and eligible for Federal fund participation.

(e) When FHWA has approved the alternate procedure, it may authorize the State to proceed in accordance with the State's certification, subject to the following conditions:

(1) The work has been programmed.

(2) The State submits in writing a request for such authorization which shall include a list of the improvements or adjustments to be processed under the alternate procedure, along with the best available estimate of cost.

(f) The FHWA Regional Administrator may suspend approval of the certified procedure, where FHWA reviews disclose noncompliance with the certification. Federal-aid funds will not be eligible to participate in costs that do not qualify under § 646.220(d)(1).

[FR Doc.75-9261 Filed 4-8-75;8:45 am]

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 670—THE CHEMICAL, PETROLEUM, AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064), as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 637 (40 FR 5830 and corrected in 40 FR 6839), the Secretary of Labor appointed and convened Industry Committee No. 125-B for the Chemical, Petroleum, and Related Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 125-B are hereby published, revising §§ 670.1 and 670.2 of Part 670, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6 (a) and (b) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

1. As revised, §§ 670.1 and 670.2 read as follows:

§ 670.1 Definition.

The Chemical, Petroleum, and Related Products Industry in Puerto Rico is defined as follows:

(a) The manufacture or packaging of chemicals, drugs, medicines, toilet preparations, cosmetics, and related products; the mining or other extraction or processing of any mineral used in the production of the foregoing; and the mining or other extraction of petroleum, coal or natural gases and the manufacture of products therefrom: *Provided, however,* That the industry shall not include any activity included in the food and kindred products industry; the stone, clay and glass products and nonmetallic mining industry; and the metal, machinery, transportation equipment, and allied products industry, as defined in the wage orders for those industries, and any activities performed in the capacity of a public utility.

(b) The products of this industry include, among others: Primary plastic materials such as sheets, rods, tubes, filaments, granules, powders, and liquids; soap and glycerin; cleaning and polishing preparations; paints, varnishes, colors, dyes, inks, putty, and fillers; industrial alcohol, wood distillation and naval stores; fertilizers, vegetable and animal oils and fats; candles; glue and gelatin; compressed and liquified gases; insecticides and fungicides; salt, explosives, fireworks and pyrotechnics; coke and coke-oven by-products; paving mixtures and blocks containing asphalt, creosote, or tar; fuel briquettes; roofing felts and coatings; and asphalt tile and linoleum.

§ 670.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under sections 6(a) and 6(b) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1966 coverage classification.* (i) The minimum rate for this classification is $2.10 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rate specified in section 6(a)(1) now applies, namely, $2.30 an hour after December 31, 1975, (section 6(c)(5)).

(ii) This classification is defined as all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classification.* (i) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(ii) This classification is defined as all activities in the industry to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, as amended; 29 U.S.C. 205, 206, 208).

Signed at Washington, D.C. this 2nd day of April 1975.

WARREN D. LANDIS,
Acting Administrator, Wage and Hour Division, U.S. Department of Labor.

[FR Doc.75-9242 Filed 4-8-75;8:45 am]

PART 726—THE CONSTRUCTION INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064), as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 637 (40 FR 5830 and corrected in 40 FR 6839), the Secretary of Labor appointed and convened Industry Committee No. 125-A for the Construction Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 125-A are hereby published, revising section 726.2 of Part 726, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6(c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, § 726.2 reads as follows:

§ 726.2 Wage rates.

Wages at the rate of not less than $1.80 an hour shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees who in any workweek is engaged in commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as

V40169APR975 XUM

those terms are defined in section 3 of the Act. Unless otherwise provided, this wage rate is increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; (29 U.S.C. 205, 206, 208)).

Signed at Washington, D.C., this 2nd day of April 1975.

WARREN D. LANDIS,
Acting Administrator, Wage and Hour Division, U.S. Department of Labor.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

LIBERALIZATION OF PENSION PROVISIONS

On page 6088 of the FEDERAL REGISTER of February 13, 1975, there was published a notice of proposed regulatory development to amend Part 3, Title 38, Code of Federal Regulations, to implement provisions of Pub. L. 93-527 (88 Stat. 1702) which increased rate of pension payable to veterans, widows and widowers, and children and rates of dependency and indemnity compensation payable to parents, increased income limitations and liberalized other provisions.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These VA Regulations are effective January 1, 1975.

Approved: April 3, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

1. In § 3.1, paragraphs (d), (m)(1) and (q) are revised to read as follows:

§ 3.1 Definitions.

* * * * * *

(d) "Veteran" means a person who served in the active military, naval, or air service and who was discharged or released under conditions other than dishonorable.

(1) For compensation and dependency and indemnity compensation the term "veteran" includes a person who died in active service and whose death was not due to willful misconduct.

(2) For death pension the term "veteran" includes a person who died in active service under conditions which preclude payment of service-connected death benefits, provided such person had completed at least 2 years honorable military, naval or air service, as certified by the Secretary concerned. (See § 3.3(c)(1)) (38 U.S.C. 541; Pub. L. 93-527, 88 Stat. 1702.)

* * * * * *

(m) "In line of duty" means an injury or disease incurred or aggravated during a period of active military, naval, or air service unless such injury or disease was the result of the veteran's own willful misconduct. A service department finding that injury, disease or death occurred in line of duty will be binding on the Veterans Administration unless it is patently inconsistent with the requirements of laws administered by the Veterans Administration. Requirements as to line of duty are not met if at the time the injury was suffered or disease contracted the veteran was:

(1) Avoiding duty by desertion, or was absent without leave which materially interfered with the performance of military duty.

* * * * * *

(q) "Notice" means written notice sent to a claimant or payee at his or her latest address of record.

* * * * * *

2. In § 3.3, paragraphs (a) and (d)(3) are revised to read as follows:

§ 3.3 Pension.

(a) *Pension.* This term means a monthly payment made by the Veterans Administration to a veteran because of service, age, or non-service-connected disability, or to a widow or widower or child of a veteran because of the non-service-connected death of the veteran. Except as provided in paragraph (d)(3) of this section, pension is not payable unless the veteran was discharged under conditions other than dishonorable from the period of service on which the claim is based. (38 U.S.C. 101(2), (15)) (See § 3.252 as to annual income limitations for disability and death pension.)

* * * * * *

(d) *Death pension.* * * *

(3) *Mexican border period and later war periods.* Basic entitlement exists for the widow, widower or child of a deceased veteran if the veteran's service meets the requirements of paragraph (c)(1) or (2) of this section or the veteran was, at the time of death, receiving or entitled to receive compensation or retirement pay for service-connected disability based on wartime service. Basic entitlement also exists under the provisions of this subparagraph, effective January 1, 1975, for the widow, widower or child of a deceased veteran, as defined in § 3.1(d)(2) whose service meets the requirements of paragraph (c)(1) of this section. (38 U.S.C. 541, 542; Pub. L. 93-527, 88 Stat. 1702)

3. In § 3.13, paragraph (b) is revised to read as follows:

§ 3.13 Discharge to change status.

* * * * * *

(b) The entire period of service under the circumstances stated in paragraph (a) of this section constitutes one period of service and entitlement will be determined by the character of the final termination of active service except that, for death pension purposes, § 3.3(d)(3) is controlling as to basic entitlement when the conditions prescribed therein are met.

4. Section 3.15 is revised to read as follows:

§ 3.15 Computation of service.

For non-service-connected or service-connected benefits, active service is countable exclusive of time spent on an industrial, agricultural, or indefinite furlough, time lost on absence without leave (without pay), under arrest (without acquittal), in desertion, while undergoing sentence of court-martial or a period following release from active duty under the circumstances outlined in § 3.9. In claims based on Spanish-American War service, leave authorized under General Order No. 130, War Department, is included.

5. Section 3.20 is revised to read as follows:

§ 3.20 Widow's or widower's benefit for month of veteran's death.

Where the veteran died on or after December 1, 1962, the rate of death pension, death compensation or dependency and indemnity compensation otherwise payable for the widow or widower for the month in which the death occurred shall be not less than the amount of pension or compensation which would have been payable to or for the veteran for that month but for his or her death. (38 U.S.C. 3110)

6. In § 3.54, paragraph (b), the introductory portion of paragraph (c) preceding subparagraph (1), and paragraphs (d) and (e) are revised to read as follows:

§ 3.54 Marriage dates.

* * * * * *

(b) *Compensation.* Death compensation may be paid to a widow or widower who, with respect to date of marriage, could have qualified as a widow or widower for death compensation under any law administered by the Veterans Administration in effect on December 31, 1957, or who was married to the veteran:

(1) Before the expiration of 15 years after termination of the period of service in which the injury or disease which caused the veteran's death was incurred or aggravated, or

(2) One year or more, or

(3) For any period of time if a child was born of the marriage, or was born to them before the marriage. (38 U.S.C. 302)

(c) *Dependency and indemnity compensation.* Dependency and indemnity compensation may be paid to the widow or widower of a veteran who died on or after January 1, 1957, who was married to the veteran:

* * * * * *

(d) *"Child born".* The term "child born of the marriage" means a birth on or after the date of the marriage on which the widow's or widower's entitlement is predicated. The term "born to them before the marriage" means a birth prior to the date of such marriage. Either term includes a fetus advanced to the point of gestation required to constitute a birth under the law of the jurisdiction in which the fetus was delivered.

(e) *More than one marriage to veteran.* For periods commencing on or after January 1, 1958, where a widow or widower has been married legally to a veteran more than once, the date of the original marriage will be used in determining whether the statutory requirement as to date of marriage has been met. (38 U.S.C. 103(b))

7. Section 3.55 is revised to read as follows:

§ 3.55 Terminated marital relationships.

(a) Remarriage of a widow or widower or marriage of a child shall not bar the furnishing of benefits to such widow or widower, or to or on account of such child, if the marriage

(1) was void, or

(2) has been annulled by a court having basic authority to render annulment decrees, unless it is determined by the Veterans' Administration that the annulment was obtained through fraud by either party or by collusion.

(b) On and after January 1, 1971, remarriage of a widow or widower shall not bar the furnishing of benefits to such widow or widower if the marriage

(1) has been terminated by death, or

(2) has been dissolved by a court with basic authority to render divorce decrees unless the Veterans Administration determines that the divorce was secured through fraud by the widow or widower or by collusion.

(c) On and after January 1, 1971, the fact that a widow or widower has lived with another person and has held herself (himself) out openly to the public as the wife or husband of such other person shall not bar the furnishing of benefits to her (him) after she (he) terminates the relationship.

(d) On and after January 1, 1971, the fact that benefits to a widow or widower may previously have been barred because her (his) conduct or a relationship into which she (he) had entered had raised an inference or presumption that she (he) had remarried or had been determined to be open and notorious adulterous cohabitation, or similar conduct, shall not bar the furnishing of benefits to such widow or widower after she (he) terminates the conduct or relationship.

(e) On and after January 1, 1975, marriage of a child shall not bar the furnishing of benefits to or for such child if the marriage

(1) has been terminated by death, or

(2) has been dissolved by a court with basic authority to render divorce decrees unless the Veterans Administration determines that the divorce was secured through fraud by either party or by collusion. (38 U.S.C. 103(d), (e); Pub. L. 93-527, 88 Stat. 1702)

8. In § 3.250, paragraphs (a)(2) and (c) are revised to read as follows:

§ 3.250 Dependency of parents; compensation.

(a) *Income.* * * *

(2) *Excess income.* Where the income exceeds the monthly amounts stated in paragraph (a)(1) of this section dependency will be determined on the facts in the individual case under the principles outlined in paragraph (b) of this section. In such cases, dependency will not be held to exist if it is reasonable that some part of the corpus of the claimant's estate be consumed for his or her maintenance.

* * * * * *

(c) *Inception of dependency.* The fact that the veteran has made habitual contributions to the father or mother, or both, is not conclusive evidence that dependency existed but will be considered in connection with all other evidence. In death claims, it is not material whether dependency arose prior or subsequent to the veteran's death (38 U.S.C. 102(a)), (see § 3.1000(d)(3) as to accrued.)

* * * * * *

9. In § 3.251, paragraph (a)(1) is revised to read as follows:

§ 3.251 Income of parents; dependency and indemnity compensation.

(a) *Annual income limitation.* (1) Dependency and indemnity compensation is not payable to a parent whose annual income exceeds the following limitations:

(i) $2,600 ($3,000 effective January 1, 1975), one parent alone;

(ii) $2,600 ($3,000 effective January 1, 1975), separately, two parents not living together;

(iii) $3,800 ($4,200 effective January 1, 1975), combined income, two parents living together or remarried parent living with spouse.

(iv) Where there is only one parent, and the parent has remarried and is living with his or her spouse, dependency and indemnity compensation will be paid under either the formula in 38 U.S.C. 415(b)(1) or the formula in 38 U.S.C. 415(d), whichever will provide the greater monthly rate of dependency and indemnity compensation. The total combined annual income of the parent and spouse will be counted. (38 U.S.C. 415; Pub. L. 93-527, 88 Stat. 1702)

* * * * * *

10. In § 3.252, paragraphs (a), (b), (d) and (e) are revised to read as follows:

§ 3.252 Annual income; pension; Mexican border period and later war periods.

(a) *Annual income limitation; protected pension.* Where the right to pension under laws in effect on June 30, 1960, is protected under § 3.956, pension is not payable to an unmarried veteran or to a widow or widower without a child or to or on account of a child, whose annual income exceeds $2,600; or to a married veteran or a veteran with a child or to a widow or widower with a child whose annual income exceeds $3,900.

(b) *Annual income and net worth limitation; Pub. L. 86-211.* Pension is not payable to an unmarried veteran, or to a widow or widower without a child, whose annual income exceeds $3,000, or to or on account of a child whose annual income (excluding earned income of a child-claimant) exceeds $2,400; or to a married veteran or a veteran with a child, or to a widow or widower with a child, whose annual income exceeds $4,200; or to a veteran, widow or widower or child if it is reasonable that some part of the claimant's estate be consumed for his or her maintenance. Where a veteran and spouse are living together, the separate income of the spouse will be considered as the veteran's income as provided in § 3.262(b).

(38 U.S.C. 521, 541, 542 and 543)

* * * * * *

(d) *Veteran with a spouse.* For the purpose of determining eligibility under paragraph (b) of this section the pension rates provided by 38 U.S.C. 521(c) may be authorized for a married veteran if he or she is living with or, if estranged, is reasonably contributing to the support of his or her spouse. The determination of "reasonable" contribution will be based on all the circumstances in the case, considering the income and estate of the veteran and the separate income and estate of the spouse. Apportionment of the veteran's pension under § 3.451 meets the requirement of reasonable contribution.

(e) *Widow or widower with a child—*(1) *Child.* The term "child" means a child as defined in § 3.57. Where a posthumous child is involved, the widow will not be considered a widow with a child prior to the date of birth of the child.

(2) *Veteran's child not in widow's or widower's custody.* Where the veteran was survived by a widow or widower and by a child, the income increments for a widow or widower and child are applicable even though the child is not the child of the widow or widower and not in his or her custody.

(3) *Income of child.* The separate income received by a child or children, regardless of custody, will not be considered in computing the widow's or widower's income. Where the separate income of the child is turned over to the widow or widower, only so much of the money as is left after deducting any expenses for maintenance of the child will be considered the widow's or widower's income.

(4) *Alternative rate.* Whenever the monthly pension rate payable to the widow or widower under the formula in 38 U.S.C. 541(c) is less than the rate payable for one child under section 542 if the widow or widower were not entitled, the

V40169 APR 9 75 XUM

widow or widower will be paid the child's rate.

(38 U.S.C. 541(c), 542)

11. Section 3.257 is revised to read as follows:

§ 3.257 Children; no widow or widower entitled.

Where pension is not payable to a widow or widower because his or her annual income exceeds the statutory limitation or because of his or her net worth, payments will be made to or for the child or children as if there were no widow or widower.

12. In § 3.260, paragraph (e) is revised to read as follows:

§ 3.260 Computation of income.

• • • • • •

(e) *Proportionate income limitations; spouse.* In determining whether proportionate computation is applicable to a claim under Public Law 86–211 (73 Stat. 432), the total income for the calendar year of entitlement of both veteran and that of the spouse available for use of the veteran will be considered. If a proportionate income limitation is then applicable, it will be applied to both the veteran's and the spouse's income. The spouse's income will not be included, however, where his or her total income for the calendar year does not exceed $1,200.

• • • • • •

13. In § 3.400, paragraph (u) is revised to read as follows:

§ 3.400 General.

• • • • • •

(u) *Void, annulled or terminated marriage of a child (38 U.S.C. 3010 (a), (k), (l); Pub. L. 93–527, 88 Stat. 1702; § 3.55)* (1) *Void.* Date the parties ceased to cohabit or date of receipt of claim, whichever is later.

(2) *Annulled.* Date the decree of annulment became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(3) *Death.* Date of death if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(4) *Divorce.* Date the decree became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5404; AA–8331]

ALASKA

Exclusion of Lands from Chugach National Forest

By virtue of the authority vested in the President by the Act of June 4, 1897, 16 U.S.C. 473 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

The following described tract of land in Alaska, occupied as a homesite, is hereby excluded from the Chugach National Forest and restored to the public domain, subject to valid existing rights, for purchase as a homesite under section 10 of the Act of May 14, 1898 (30 Stat. 413), as amended by the Act of May 26, 1934, 43 U.S.C. 687a (1970):

CHUGACH NATIONAL FOREST

U.S. SURVEY 3306

Latitude 60°30'10" N., Longitude 149°48'-00" W., Lot 22 (Slaughter Creek Homesite Group).

Containing 1.50 acres.

Dated: April 3, 1975.

JACK O. HORTON,
Assistant Secretary of the Interior.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 293 (Sub-No. 3)]

PART 1126—SUBMISSION OF COST DATA TO JUSTIFY REIMBURSEMENT FOR DIRECTED SERVICE

Implementation of Pub. L. 93–236, section 601(e), Regional Rail Reorganization Act of 1973: submission of cost data to justify reimbursement.

On July 17, 1974, the Commission served a notice of proposed rulemaking (39 FR 26172) under the subject docket in order to promulgate a form and procedures as required of the Commission in section 601(e) of the Regional Rail Reorganization Act of 1973 (RRRA), which section constitutes an amendment of the Interstate Commerce Act by the addition of subparagraph (b) to the present section 1(16). This new provision, hereafter referred to as section 1(16)(b), authorized the Commission to respond to those cessations of service by a carrier by railroad which it finds to constitute an emergency situation by directing another railroad (the directed carrier) to temporarily provide for the handling, routing, and movement of traffic over the lines of the carrier no longer able to perform that service (the other carrier).

The Commission may invoke this emergency authority only when a cessation of service occurs under one or more of three specified circumstances (the cash position of the carrier makes continued operations impossible, a court has ordered that service be discontinued, or service has been abandoned without a certificate from the Commission) and only after making certain findings as to the effect of such a direction on public commerce and on the directed carrier.

Section 1(16)(b) also provides for the reimbursement of the directed carrier or carriers by the Federal Government in the amount by which the cost, as referred to in subparagraph (e), of handling, routing and moving the traffic of the other carrier over that carrier's lines exceeds the direct revenues therefrom. To provide an expedited and uniform method for obtaining reimbursement, Congress required the Commission to promulgate a form on which the directed carrier would concurrently record the cost and revenues of the directed operation and which would then be submitted by the directed carrier to the Commission for audit. The Commission is then authorized to certify to the Secretary of the Treasury the amount of the payment to be made to the directed carrier, which payment shall be made from funds authorized to be appropriated under section 1(16)(b).

The form proposed in the notice of proposed rulemaking served July 17, 1974, as modified, and accompanying procedures have been promulgated and are adopted in furtherance of this Congressional directive. All comments submitted with respect to the proposal were given due consideration.

As a result of comments received various changes were made, several of which follow:

1. Subsidies provided by state, regional, or local authorities to the directed carriers are to be treated and recorded as revenues, but such revenues are to be excluded from the base upon which profit is determined.

2. Expenditures for deferred maintenance and/or rehabilitation of track, facilities and equipment of the other carrier, only insofar as essential to safety or to maintain such property at its level of repair at commencement of the directed service can be made without prior Commission approval. All other maintenance and capital expenditures require the prior approval of the Commission.

3. Monies initially borrowed for the conduct of directed operations are limited to the amount of loss suffered by the other carrier in the 60 day period in the year prior to directed service comparable to the period of directed operation. Commission approval is required for any other borrowings if reimbursement is to be sought for the interest on such additional borrowings.

These rules are issued under the authority of Part I of the Interstate Commerce Act (49 U.S.C. 1, et seq.) and the Administrative Procedure Act (5 U.S.C. 553 and 559).

Effective date. This part becomes effective on March 21, 1975.

Issued in Washington, D.C., on the 14th day of March, 1975.

[SEAL] ROBERT L. OSWALD,
Secretary.

Accordingly, Title 49 of the Code of Federal Regulations is amended by adding a new Part 1126, reading as follows:

PART 1126—SUBMISSION OF COST DATA TO JUSTIFY REIMBURSEMENT FOR DIRECTED SERVICE

Sec.
1126.1 Scope of rules in this part.
1126.2 Cost form and certification.

AUTHORITY: Sec. 601(e), Pub. L. 93–236, 87 Stat. 1021 (49 U.S.C. 1(16)).

§ 1126.1 Scope of rules in this part.

The rules in this part govern the procedures for the submission of costs and revenues to be followed by carriers subject to Part I of the Interstate Commerce Act which are directed to perform service over the lines of other carriers in accordance with orders of the Commission under and pursuant to the provisions of section 1(16)(b) of said act. The report and order of the Commission in Ex Parte No. 293 (Sub-No. 3), *Implementation of Public Law 93–236, Regional Rail Reorganization Act of 1973—Submission of Cost Data to Justify Reimbursement*, served on March 21, 1975, appearing at ---- I.C.C. -----, should be used by directed carriers for guidance in the preparation of the cost form. This report and its appendix set forth the Commission's policy as to just what costs and revenues, incurred in or attributable to the conduct or directed operations, are allowable for purposes of inclusion in the cost form. Only such allowable costs and revenues will be considered by the Commission in its computation of payments due to the directed carrier under the provisions of section 1(16)(b) of the Interstate Commerce Act.

§ 1126.2 Cost form and certification.

The expenses and revenues incurred in the conduct of directed service shall be recorded in accordance with the cost form and its instructions as they appear below:

INSTRUCTIONS TO COST FORM

1. Enter in column (2) the expenses directly assignable to the directed traffic moved. This includes wages, rentals and other expenses paid or incurred by the applicant and chargeable only to the directed traffic.

2. Enter in column (3) the portion of common expenses allocable to the directed traffic. Common expenses means those expenses paid or incurred for the movement of the directed traffic which are common or jointly incurred for the movement of other traffic. All expenses should be assigned direct wherever possible. Expenses not directly assignable should be apportioned on the basis of the factor suggested in column (5) or if necessary, on the basis of a more readily available and equitable factor, if such use is justified to the Commission. The relationship of the carriers' own revenues and the directed traffic revenues is an acceptable apportionment factor in cases where there are no other available apportionment factors.

3. Enter in colum (4) the total of columns (2) and (3).

4. The cost of rehabilitation of the line necessary to permit operation should be shown in the maintenance of way accounts. Expenditures for substantial improvements shall require authorization by the Commission.

5. Expenses included in lines 13, 23, 38, 42, 47, and 53 should be identified on a separate sheet.

COST FORM

See footnotes on next page.

[1] Railroads having electrified systems should use electric locomotive unit-miles.
[2] Assign train accumulation and terminal expenses direct to carrier's own traffic and directed traffic. Apportion common expenses on the basis of direct assignments of accounts 302 and 401.
[3] Profit is based on 6 percent of total revenues (line 75). A profit from actual operations above 6 percent of total revenues may be retained by the directed carrier and no amount for profit will be paid by the Federal Government. Should a profit of less than 6 percent be earned, the difference between 6 percent and that percent will be paid.
[4] Total expenses in line 71 divided by the total days of the directed operation. Multiply these expenses by a factor of 15 (days) to represent the lag between cash receipts and cash payments.
[5] The amount borrowed should not exceed the permissible limits established in the ex parte 295 (sub-No. 3) report, unless specifically approved by the commission.
[6] Apply the average prime rate (per annum) in effect at New York City to line 81, or the prime rate (per annum) in effect at New York City on the date of the loan agreement to line 82, whichever is greater. However, the interest allowed on amounts actually borrowed shall not exceed the amount of interest charged on the loan, if less than the applicable prime rate.
[7] If line 77 is larger than line 84, enter 0.

ATTENTION

Knowing and willful misstatements or omissions of material facts constitute federal criminal violations punishable by up to five years imprisonment and fines of up to $10,000 for each offense. (See 18 U.S.C. 1001, 1003, 287.)

Each person by whom this document is signed certifies that the representations appearing herein and in the appendices attached hereto (including any accompanying schedules and statements) are, to the best of his knowledge and belief, true, correct, and complete, based upon all the information required to be included therein, of which he has any knowledge.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 6—IMPORT QUOTAS AND FEES

Subpart—Section 22 Import Quotas

PRICE DETERMINATION FOR CERTAIN CHEESE

The subpart, section 22 Import Quotas, is amended to change the price, determined by the Secretary of Agriculture in accordance with headnote 3(a)(v) of Part 3 of the Appendix to the Tariff Schedules of the United States, which is used as a basis for establishing import restrictions under section 22 on certain cheese. The change from 84 to 86 cents per pound is required since one of the factors used in determining such price (the Commodity Credit Corporation purchase price for Cheddar Cheese under the milk price support program) has been increased.

The subpart, section 22 Import Quotas, of Part 6, Subtitle A of Title 7, is amended as follows:

1. Section 6.16, under the heading "Price Determination for Certain Quotas", is revised to read as follows:

§ 6.16 Price determination.

The price referred to in items 950.10B through 950.10E of Part 3 of the Appendix to the Tariff Schedules, determined by the Secretary of Agriculture in accordance with headnote 3(a)(v) of said Part 3, is 86 cents per pound. This price shall continue in effect until changed by amendment of this section.

2. Group V of Appendix 1 to 7 CFR Part 6, under the heading "Licensing Regulations", is amended by changing the description appearing immediately below "Group V" to read as follows:

Cheese described below; if shipped otherwise than in pursuance to a purchase, or if having a purchase price [1] under 86 cents per pound.	

The foregoing amendment shall be effective April 9, 1975. In accordance with headnote 3(a)(v) of Part 3 of the Appendix to the Tariff Schedules of the United States, the change in price effected by this amendment would not make the import restrictions contained in items 950.10B through 950.10E of Part 3 of the Appendix to the Tariff Schedules of the United States applicable to cheese having a purchase price of 84 or more cents per pound if such cheese had been exported to the United States on a through bill of lading or had been placed in bonded warehouse on or before the date of publication in the FEDERAL REGISTER of this amendment. Since the action taken herewith involves foreign affairs functions of the United States, this amendment falls within the foreign affairs exception to the notice and effective date provisions of 5 U.S.C. 553.

(Sec. 3, 62 Stat. 1248, as amended, 7 U.S.C. 624; Part 3 of the Appendix to the Tariff Schedules of the United States, 19 U.S.C. 1202)

Issued at Washington, D.C., this 4th day of April 1975.

EARL L. BUTZ,
Secretary.

[FR Doc.75-9268 Filed 4-8-75;8:45 am]

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—FOOD STAMP PROGRAM

[Amdt. No. 53]

PART 270—GENERAL INFORMATION AND DEFINITIONS

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Outreach Program

On February 20, 1975, there was published in the FEDERAL REGISTER (40 FR 7455), a notice of proposed rulemaking to revise Food Stamp Program Regulations, 7 CFR Parts 270 and 271. The proposed amendment would delete the current definition of outreach and require State agencies to take effective outreach action, using a full-time State Outreach Coordinator.

There were 60 comments received on the proposed amendment, including eight from State agencies. Forty-three were in favor and 17 were opposed. Favorable commentators representing social service organizations, the general public, State agencies and a city government advocated a full-time State Outreach Coordinator. Many felt that the outreach regulations should be in stronger language. Several of the social service organizations want to participate in the State's outreach efforts. Five State agencies opposed the proposed regulations. Opposed citizens objected to the added expense; some that all low-income families are aware of the Food Stamp Program.

The language of the regulations finally adopted reflects provisions incorporated into a stipulation agreed to by the parties specifying actions to be taken by the defendants which will be considered to be in compliance with the Court's order in the case of *Bennett v. Butz*, USDC, D. Minnesota. In that case, the Court found deficiencies in State and Federal outreach efforts. It was agreed that the provisions contained in the stipulation would be effectuated unless comments submitted pursuant to the notice of proposed rulemaking referred to above necessitated a different course of action on the part of the Department.

Accordingly, Parts 270 and 271 of Chapter II, Title 7, Code of Federal Regulations are amended as follows:

§ 270.2 [Amended]

1. In § 270.2, paragraph (nn) is deleted and reserved.

2. In § 271.1, paragraph (k) is revised to read as follows:

§ 271.1 General terms and conditions for State Agencies.

* * * * *

(k) *Outreach.* Each State agency shall initiate and monitor effective, comprehensive ongoing efforts performed cooperatively with other public and private agencies, religious, business and civic groups, retail trade associations, unions, community organizations, news media, and other groups, organizations and associations to inform low-income households eligible to receive food stamps of the availability and benefits of the program and to insure the participation of eligible households which wish to participate by providing such households with reasonable and convenient access to the program. Such efforts, which are (hereinafter referred to as "outreach") shall be carried out in conformity with FNS regulations and instructions governing outreach and with the State agency outreach plan approved by FNS, and shall take into consideration the special needs of, among others, the elderly, the disabled, migrants, persons residing in rural areas, and ethnic groups. Each State agency shall designate one person to serve full-time as State Outreach Coordinator with responsibility to initiate, coordinate, monitor and evaluate ongoing

V40169 APR 9 75 XUM

food stamp outreach action and shall provide such coordinator with clerical and support staff necessary for effective implementation of the outreach program. Each State agency shall provide project area outreach coordinators in accordance with FNS outreach instructions.

• • • • •

(78 Stat. 703, as amended; 7 U.S.C. 2011–2026)

Effective date. This amendment shall become effective April 4, 1975.

(Catalog of Federal Domestic Assistance Programs No. 10.551, National Archives Reference Services)

Dated: April 4, 1975.

JOHN M. DAMGARD,
Deputy Assistant Secretary.

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Gypsy Moth and Browntail Moth

LIST OF HAZARDOUS MOBILE HOME PARKS AND RECREATIONAL SITES

This document amends the regulation listing gypsy moth hazardous mobile home parks and recreational sites for purposes of the Federal Gypsy Moth and Browntail Moth Quarantine by designating as hazardous certain mobile home parks in counties not previously listed as follows: one mobile home park in Hampshire County, Massachusetts; and all mobile home parks in Albany, Chenango, Clinton, Delaware, Essex, Franklin, Hamilton, Montgomery, Otsego, Rensselaer, Schoharie, Warren, and Washington Counties in New York; and Centre, Clinton, Cumberland, Juniata, Lycoming, Mifflin, Perry, Snyder, Union, and York in Pennsylvania. This document further amends the regulation by listing additional parks in the following previously listed counties: Bristol, Essex, Hampden, and Worcester in Massachusetts; and Providence in Rhode Island; and by adding all mobile home parks not previously listed in Broome, Columbia, Fulton, Greene, Madison, Oneida, Saratoga, and Schenectady Counties in New York. This document also amends the regulation by deleting parks in the following counties: Barnstable, Berkshire, Bristol, Middlesex, Norfolk, and Worcester in Massachusetts; and Kent and Washington in Rhode Island.

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.45–2 of the Gypsy Moth and Browntail Moth Quarantine regulations, 7 CFR 301.45–2, as amended, the supplemental regulation designating hazardous mobile home parks and recreational sites, 7 CFR 301.-45–2c, is hereby amended by adding thereto, deleting therefrom, and correcting certain listings. Section 301.45–2c is revised and reads as follows:

§ 301.45–2c List of hazardous mobile home parks and recreational sites.

The mobile home parks and recreational sites listed below are hereby designated as gypsy moth hazardous mobile home parks and recreational sites within the meaning of the provisions of this subpart; and are hereby divided into hazardous mobile home parks and sites as indicated below.

(a) *Hazardous recreational sites.* None

(b) *Hazardous mobile home parks.*

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 37 FR 28464, 28477, as amended; 37 FR 19141, 7 CFR 301.45–2, 38 FR 8659)

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that in the above-listed mobile home parks gypsy moth has been found or there is reason to believe that gypsy moth is present, or there is a risk of infestation of the gypsy moth because of the proximity to infestation of the gypsy moth. Therefore, the listed mobile home parks are hereby designated as hazardous.

To the extent that these amendments relieve certain restrictions heretofore imposed, they should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved. To the extent that these amendments impose restrictions they are necessary in order to prevent the spread of the gypsy moth and should be made effective promptly to accomplish their purpose in the public interest. Also, it does not appear that additional information would be made available to the Department of public participation in rulemaking proceedings on the amendment. Accordingly, it is found, under the administrative procedure provisions of 5 U.S.C. 553, that notice of rulemaking and other public procedure with respect to these amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. These amendments shall become effective April 9, 1975.

V40169 APR 9 75 XUM

Done at Washington, D.C., the 2nd day of April 1975.

T. G. DARLING,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

[FR Doc.75-9088 Filed 4-8-75;8:45 am]

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Subpart—Giant African Snail

TERMINATION OF NOTICE OF EXISTENCE OF HAZARDOUS SITUATION AND REGULATIONS RELATED THERETO

The notice of existence of hazardous situation and regulations related thereto with respect to the giant African snail in 7 CFR 331.3, are hereby terminated effective April 13, 1975. However, such provisions shall be deemed to continue in full force and effect for the purpose of sustaining any action or other proceeding with respect to any right that accrued, liability that was incurred, or violation that occurred prior to said date.

Statement of considerations. The giant African snail was introduced into Florida in September 1969. A Federal-State cooperative eradication program has been in existence since November 1969. The infestation was confined to small urban areas in Broward and Dade Counties in Florida. Federal emergency regulations restricting the interstate movement of certain products and articles from regulated areas and a parallel Florida State quarantine were promulgated in 1971 to prevent the artificial spread of the snail to uninfested areas. Control measures were continued for 1 year following the last snail find, and detection surveys have been continued to the present. No giant African snails have been detected in Florida since April 13, 1973. Eradication is considered complete when no snails have been found for 2 years.

Accordingly, the giant African snail notice of existence of hazardous situation and regulations related thereto are terminated.

(Sec. 105, 71 Stat. 32, sec. 106, 71 Stat. 33, sec. 107, 71 Stat. 34 (7 U.S.C. 150dd, 150ee, 150ff); 37 FR 28464, 28477, as amended; 38 FR 19141)

This action relieves restrictions and it does not appear that public participation in rulemaking procedures concerning this action would make additional relevant information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public participation with respect to this action is impracticable and unnecessary, and good cause is found for making this action effective less than 30 days after publication hereof in the FEDERAL REGISTER.

Effective Date. This action shall become effective April 13, 1975.

Done at Washington, D.C., this 1st day of April 1975.

T. G. DARLING,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER I—DETERMINATION OF PRICES

[Docket No. SH-326; Amdt. 1]

PART 873—SUGARCANE; FLORIDA

Fair and Reasonable Prices for 1974 Crop

Pursuant to the provisions of section 301(c)(2) of the Sugar Act of 1948, as amended, Part 873 (39 FR 41826) is amended by revising paragraph (d) of § 873.32, adding paragraph (r) to § 873.32, and adding § 873.36.

1. In § 873.32 paragraph (d) is revised and (r) added to read as follows:

§ 873.32 Definitions.

* * * * *

(d) "Net sugarcane" means the gross weight of sugarcane delivered by a producer to a processor minus a deduction equal to the average percentage weight of trash delivered with all sugarcane to each mill operated by a processor. If the mill receives both hand-cut and machine-cut cane, the average percentage weight of trash delivered with cane harvested by hand shall be computed separately from that harvested by machine and the applicable trash deduction applied to the gross weight of cane harvested by each method. However, if a producer, on whose farm there was sugarcane remaining to be harvested on January 15, 1975, requested the processor in writing prior to that date to compute his net sugarcane on the basis of the trash determinations obtained from tests made on the producer's sugarcane, the net sugarcane delivered by the producer shall be determined accordingly. Separate determinations shall be made on machine-cut and hand-cut cane. The results of trash determinations made on sugarcane of a producer making such request shall be excluded in computing the average percentage weight of trash delivered with all other sugarcane to each mill.

* * * * *

(r) "Advance sales" means advance hedging operations and includes the purchases and sales of sugar which was not actually processed by the processor, or by the processor members of a cooperative sales organization.

2. Section 873.36 is added and reads as follows:

§ 873.36 Other related specifications.

(a) If the processor furnishes labor, materials, or services used in harvesting, loading or transporting the producer's sugarcane from the field to the delivery point(s) on the farm, the charge made for such labor, materials, or services may be as agreed upon between the two parties if the producer has the option of performing such operations himself or by contract with a third party. If contractual arrangements between the processor and producer preclude the producer from performing such operations himself or by contract with a third party, the charge made by the processor shall be limited to the actual direct costs of labor, materials, or services plus applicable overhead expenses which are properly apportionable under generally accepted accounting principles: Provided, that the charge for overhead shall not exceed 10 percent of the actual direct costs of labor, materials or services.

(b) The price for sugarcane established by this part is applicable to sugarcane loaded on carts or trucks at the delivery point(s) on the farm, or if sugarcane is transported by railroad, loaded in railroad cars at the railroad siding nearest the farm, and the processor is required to bear the cost of transporting sugarcane (gross weight) from such points to the mill. If sugarcane is transported a distance of more than 14.9 miles to the mill by railroad or other common carrier, the producer may be required to bear the additional cost of transporting such sugarcane (based upon published tariffs). If the processor transports, in his own conveyance, or arranges for the transportation of sugarcane with other than a common carrier, he may charge the producer 5 cents per ton for each mile such sugarcane is transported in excess of 14.9 miles, or if the producer transports sugarcane to the mill by other than railroad or other common carrier the processor shall pay the producer 5 cents per ton for each mile such sugarcane is transported, but not in excess of 14.9 miles.

(c) Deductions for frozen sugarcane, fiber content determinations and deductions, definitions of delivery schedules and similar specifications employed in connection with the purchase of 1974-crop sugarcane shall be substantially in accordance with the general practices in Florida and as agreed upon between the producer and the processor.

(d) Nothing in paragraph (c) of this section shall be construed as prohibiting modification of customs and practices which may be necessary because of unusual circumstances, any such modification to be reported in writing by the processor to the State office.

(e) In the event a general freeze causes abnormally low recoveries of raw sugar by a processor in relation to the sucrose test of the sugarcane, payment for such sugarcane may be made as agreed upon between the producer and the processor subject to the written approval of the State office upon a determination by the State committee that the payment is fair and reasonable.

(f) The processor shall submit to the State office for approval (1) a statement setting for the weighted average price of raw sugar upon which settlements with producers are based; (2) a statement setting forth the gross proceeds and the handling and delivery expenses deducted in arriving at the weighted average net sales price of blackstrap molasses; and (3) if subject to the limitation set forth in paragraph (a) of this section, a statement setting forth for each producer the direct costs of labor, materials, and services, plus applicable overhead expenses, used in harvesting, loading, or transporting the producer's sugarcane from the field to the farm delivery point.

STATEMENT OF BASES AND CONSIDERATIONS

The original regulation provided that net sugarcane delivered by each producer for the crop would be determined by deducting from the weight of gross sugarcane in his deliveries, the weight of trash in his sugarcane rather than the trash representing the factory average of the total sugarcane delivered by all producers.

Subsequent to the issuance of the regulation, representatives of all processors met with Department personnel to explain the difficulties they would encounter if the change in the procedure for determining trash for all producers were to be implemented well into the harvest season. Each problem area was thoroughly considered and deemed to have merit. The Department still feels that the more efficient producers should not be penalized through the use of factory averages and that processor payments should represent as far as possible the actual quantity of net sugarcane delivered by the producers. Accordingly, all producers, who had cane remaining to be harvested on their farms on January 15, 1975, were given actual notice by the Department prior to that date of their option to request that their net cane for the entire crop be determined on the basis of their individual trash tests. Otherwise, the use of factory averages, as in prior crops, will be followed in determining the net weight of producers' sugarcane.

Section 873.32(b)(2) of this regulation provides that processors who have made "advance sales" of a portion of their 1974-crop sugar may offer producers the opportunity to have payment for their sugarcane based on the season's average price of sugar calculated without taking into account the results of such advance sales. This amendment adds a definition "advance sales" to the regulations to make it clear that the only type of "advance sales" intended to be covered by § 873.32(b)(2) are sales of sugar not actually processed by the processor, i.e., the option applies only to trading in futures contracts, as opposed to trading in the actual sugar processed by the processor.

The original regulation did not include § 873.36, which in previous regulations covered charges made by processors for harvesting, loading and transporting producers' sugarcane. The operations of one of the processors were being investigated by the Department's Office of Investigation at the time the original regulation was issued. After a very thorough analysis of the investigation report, representatives of the Department met with the interested parties on December 12, 1974, and presented its findings. Based on the results of the investigation the Department made an initial determination that the processor in question had complied with Departmental regulations covering the years included in the report. It is felt that the independent growers at whose request the investigation was made are being treated fairly. Therefore, Section 873.36 is made a part of this regulation without any changes in the provisions that were in effect for the 1973 crop.

Recently the Glades Association of Independent Sugarcane Growers appealed to the Department requesting reconsideration of its initial determination. This request has been granted and a hearing is scheduled for April 30, 1975. If relief is granted under the appeal in the final determination made by the Department, consideration will be given to including clarifying language in an amendment to this regulation.

Accordingly, I hereby find and conclude that the foregoing regulation will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

Effective date. This amendment shall become effective April 9, 1975 and is applicable to the 1974 crop of Florida sugarcane.

Signed at Washington, D.C. on April 3, 1975.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 345, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Mar. 28–Apr. 3, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel Oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulations 345 (40 FR 13509). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), and (ii) of § 907.645 (Navel Orange Regulation 345) (40 FR 13509) are hereby amended to read as follows:

§ 907.645 Navel Orange Regulation 345.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 1,360,000 cartons

(ii) District 2: 240,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 3, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-9184 Filed 4-8-75;8:45 am]

[Lemon Reg. 685, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may

V40169 APR 9 75 XUM

be shipped to fresh market during the weekly regulation period Mar. 30–Apr. 5, 1975. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreements Act of 1937, as amended, and Marketing Order No. 910.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 685 (40 FR 14295). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* Paragraph (b) (1) of § 910.685 (Lemon Regulation 685 (40 FR 14295) is hereby amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period March 30, 1975 through April 5, 1975, is hereby fixed at 265,000 cartons."

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 3, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVII—RURAL ELECTRIFICATION ADMINISTRATION, DEPARTMENT OF AGRICULTURE

PART 1701—PUBLIC INFORMATION

Procedures for obtaining Rural Electrification Administration records under the Freedom of Information Act are hereby amended in accordance with the regulations of the Department of Agriculture issued pursuant to the Act, 7 CFR Part 1, Subpart A (40 FR 7341). The Department's regulations as implemented by the regulations in this part, govern the availability of records of the Rural Electrification Administration to the public.

Advance notice of rulemaking is not required for this amendment by 5 U.S.C. 553, since it deals with agency organization and procedures.

In consideration of the above, Part 1701 of 7 CFR is revised to read as follows:

Sec.
1701.1 Public inspection and copying.
1701.2 Indexes.
1701.3 Requests for records.
1701.4 Appeals.
Appendix A.

AUTHORITY: (5 U.S.C. 301, 552; 7 CFR 1.1–1.16)

§ 1701.1 Public inspection and copying.

(a) 5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying.

(b) The Rural Electrification Administration issues from time to time REA Bulletins which implement the procedures set forth in Part 1700 and the loan and security instruments which provide for and secure REA loans. Appendix A to this Part identifies and briefly describes each such Bulletin currently in effect. REA also issues REA Bulletins which furnish technical information to assist in the design, construction, operation, and maintenance of borrower's systems. As REA Bulletins are issued, copies are mailed to all borrower's concerned and to others participating in the REA program who may be affected. REA will make all REA Bulletins available for public inspection and copying. REA Bulletins identified in Appendix A to this Part also set forth or identify related forms available for utilization by REA borrowers and others. Such forms, including forms of basic loan and security agreements, will also be made available for public inspection and copying.

(c) REA will make available for public inspection and copying its administrative staff manuals and instructions to staff affecting any member of the public except those exempt from disclosure pursuant to the provisions of 5 U.S.C. 552(b).

(d) Members of the public may request access to such materials maintained by REA at the Office of the Director, Information Services Division, Room 4038, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, between the hours of 8:30 a.m. and 4:30 p.m. Copies of such materials may be obtained in person or by mail.

§ 1701.2 Indexes.

5 U.S.C. 552(a)(2) requires that each agency publish or otherwise make available a current index of all materials required to be made available for public inspection and copying. REA will maintain and publish current indexes and quarterly supplements thereto, providing identifying information for all REA Bulletins and for staff manuals and instructions made available pursuant to § 1701.1. Copies will be available upon request in person or by mail to the Office of the Director, Information Services Division, Room 4038, South Building, U.S. Dpeartment of Agriculture, Washington, D.C. 20250.

§ 1701.3 Requests for records.

Requests for records under 5 U.S.C. 552(a)(3) shall be made in accordance with 7 CFR 1.3(a) and addressed to Office of the Director, Information Service Division, Rural Electrification Administration, Room 4038, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. A request shall describe the records sought as set forth in 7 CFR 1.3(b). Requests may be submitted in person or by mail. The Director, Information Services Division is hereby delegated to make determinations regarding such requests in accordance with 7 CFR 1.4(c).

§ 1701.4 Appeals.

Any person whose request under § 1701.3 is denied shall have the right to appeal such denial. This appeal shall be submitted in accordance with 7 CFR 13(e) and addressed to the Administrator, Rural Electrification Administration, Room 4053, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

APPENDIX A

A current list and summary description of REA Bulletins issued to implement the procedure set forth in Part 1700 and the loan and security instruments which provide for and secure REA loans.

REA bulletin No.	Date of last issuance	Description
		Joint Rural Electrification and Telephone Program Bulletins
1-3:300-2	October 1973	Rural Electrification Act of 1936 with amendments to May 11, 1973, providing the statutory basis for the rural electrification and telephone loan programs of REA and the Rural Telephone Bank.
1-4:300-3	January 1962	REA guidelines for participation by REA electrification borrowers in rural telephone program.
2-1:301-1	August 1969	REA policy concerning relationships with its borrowers including objectives, requirements and assistance provided.
3-1:302-1	July 1955	Guidelines for the participation of the REA staff in proceedings before and discussions with regulatory bodies and officials.
3-2:303-1	February 1962	The policy and recommendations of REA regarding State and local legislation affecting REA programs.
5-1:305-1	March 1954	Policy and procedure for the joint use of REA borrowers' facilities by other electric and telephone systems.
	June 1959	Supplement providing a new joint use agreement form and instructions for its use.
	June 1961	Supplement requesting borrowers to report on experience with joint use.
	February 1972	Supplement advising adherence to National Electrical Safety Code.
6-1:306-1	July 1969	The REA system for classifying and issuing REA bulletins to its borrowers and their agents.
9-1:309-1	June 1969	Guidelines for REA participation with borrowers and their associations in community development activities.
20-1:321-1	May 1954	The requirements of REA on the selection of a trustee where deeds of trust secure loans.
20-5:320-2	May 1972	Policy and procedure on the repayment of loan principal and interest extended under sec. 12 of the Rural Electrification Act and the Disaster Relief Act of 1970.
20-7:320-10	June 1957	The requirements and procedure of REA with respect to interest and principal payments on REA loans under secs. 4 and 201 of the Rural Electrification Act.
20-9:320-12	December 1969	Policy and procedure for the computation of interest on REA loans and loan account statements sent to borrowers.
20-10:320-8	October 1964	The policy and procedure of REA regarding notes and basis date agreements pertaining to sec. 4 and sec. 201 loans.
20-11:320-17	April 1962	REA policy and procedure with respect to the Government's mortgage lien on motor vehicles owned by borrowers.
20-15:320-15	July 1970	The policy and procedure of REA concerning equal employment opportunity in construction financed by REA loans.
20-19:320-19	June 1974	The policy and procedure of REA to assure nondiscrimination among beneficiaries of REA programs.
20-21:320-21	May 1974	REA policy and procedure concerning the implementation of the National Environmental Policy Act as it relates to the REA program.
40-1:340-2	March 1969	REA requirements for borrowers' payments of loans funds to their architects, engineers, contractors, and suppliers.
40-2:340-5	August 1973	Insurance requirements of REA for borrowers' contractors, engineers, and architects, including bond requirements for borrowers' contractors.
43-9:344-3	July 1955	REA requirements with respect to the "Buy American" provision of the Rural Electrification Act.
44-2:345-1	January 1968	REA specifications for wood poles, stubs and anchor logs, and for preservative treatment of these materials to be purchased by REA electric and telephone borrowers.
	September 1968	Supplement announcing acceptance of 6.5 foot pole stubs for mounting buried plant terminal housings.
	October 1969	Supplement revising specification for treatment of poles, stubs and anchor logs with salt types preservatives.
44-3:345-4	January 1972	REA specifications for wood crossarms, solid and laminated transmission timbers, and pole keys to be purchased by REA electric and telephone borrowers.
	February 1975	Supplement to correct a drafting error in crossarm specifications.
44-4:345-9	November 1970	REA standards and procedures for the inspection of wood poles, stubs and anchor logs, wood crossarms, construction lumber and pole keys and the preservatives and preservative treatment to be used in REA-financed construction.
44-5:345-2	July 1974	Inspection agencies authorized by REA for inspection of timber products and of their preservative treatment for installation on REA borrowers' electric or telephone systems.
44-7:345-3	April 1971	REA procedure for establishing standards, standard specifications, drawings, materials and equipment for use in the electric and telephone programs.
81-4:381-6	August 1962	REA requirements for payments to contractors for materials delivered but which cannot be incorporated into the electric or telephone projects for an extended period (60 days or more).
81-7:381-11	November 1958	REA procedures for handling changes or corrections in contract construction where the cost is to be borne by the REA borrower.
81-8:381-13	June 1959	Procedures for the use of bidders on REA-financed construction in submitting their qualifications.
86-5:387-2	June 1973	REA requirements and procedure concerning the use of contract form 257 by borrowers in the construction of headquarters facilities of electric and telephone borrowers.
100-1:400-2	April 1960	The requirements of REA for the selection of an attorney by an REA borrower.
100-5:400-3	June 1962	The policy of REA concerning agreements for the operation and management of electric and telephone systems owned by REA borrowers.
102-1:402-3	March 1964	REA policy and recommendations on electric and telephone cooperative borrowers' capital credits and related consumer benefits.
	December 1973	Supplement advising that U.S. Treasury Department form 1099 need not be prepared.
	August 1974	New app. B providing alternatives concerning patronage capital in power supply cooperatives.
105-9:408-4	June 1960	Procedure for the purchase and redemption by borrowers of 2 percent Treasury bonds—REA Series.
	May 1966	Supplement instructing owners of REA 2 percent Treasury bonds to provide U.S. Treasury with their employer identification number.
	December 1972	Supplement informing REA borrowers to request redemption of REA 2 percent Treasury bonds not less than 30 days before maturity.
	July 1974	Supplement informing REA borrowers of a change to book-entry form for the REA series 2 percent bonds.
107-1:407-1	January 1970	Policy and recommendations of REA concerning the purchase and use of data processing equipment by REA borrowers.
	July 1972	Supplement stressing proper planning and competent staff for changeover to new data processing system.
	March 1973	Supplement suggesting borrowers have adequate computer backup to assure continued processing should disaster strike.
100-2:400-3	May 1964	REA policy with respect to labor relations activities of borrowers.

V40169APR975XUM

REA bulletin No.	Date of last issuance	Description
114-2:414-1	April 1973	The policy of REA with respect to minimum insurance and fidelity coverage for REA borrowers.
	August 1973	Supplement clarifying REA reporting requirements in the case of accidents.
	May 1974	Supplement concerning notification to bonding company of dishonest acts of officers or employees of a borrower.
	January 1975	Supplement providing changes in REA insurance requirements consistent with the Flood Disaster Protection Act of 1973.
168-7:447 3	July 1963	The policy and recommendations of REA with respect to borrowers' safety programs and their implementation.
180-6:460-2	April 1971	The policy of REA concerning the selection of depositories for funds of borrowers.
185-1:465-1	January 1972	REA policy and requirements regarding audits of the accounts and records of REA borrowers including the selection of independent certified public accountants to perform such audits.
185-2:465-2	November 1972	The policy and procedure of REA with respect to appropriate working papers to support the audit of REA borrowers' accounting records.
		Rural Electrification Program Bulletins
1-5	May 1965	Sets forth REA policy and procedure for the preparation and submission by electric borrowers of annual estimates of loan requirements.
1-7	August 1969	The policy and recommendations of REA with respect to the general funds of electric borrowers as to appropriate levels in relationship to REA approval of loans and loan fund advances.
3-3	February 1962	REA policy and guidance to borrowers concerning protection of the territorial integrity of their service areas.
	December 1963	Supplement concerning the reporting to Congress of the territorial disputes of electric borrowers.
20-2	February 1971	REA policy and requirements for loans under sec. 4 of the Rural Electrification Act.
	July 1974	Supplement to modify REA requirements for loan applications covering a 1-year loan program.
	November 1974	Supplement to clarify the requirements for the 1st and 2d year portions of certain 2-year loan applications.
20-3	July 1956	REA procedure for electric borrowers in obtaining adequate rights-of-way and submission of title evidence.
	March 1960	Supplement clarifying title insurance requirements for substation and switching station sites.
	April 1966	Supplement amending REA requirements concerning title insurance.
20-6	May 1969	REA policy on loans for electric generation and transmission facilities.
20-8	July 1963	Requirements and procedure concerning the purchase of real estate by electric borrowers with REA loan funds or borrowers' general funds.
20-14	February 1971	The policy of REA concerning supplemental financing for loans considered under sec. 4 of the Rural Electrification Act.
	July 1972	Supplement announcing increased participation in supplemental financing by non-REA lenders.
20-20	January 1971	REA policy and procedure concerning deferment of principal repayment on REA loans to borrowers investing in supplemental lending institutions.
21-2	July 1965	The policy of REA as it relates to financing service entrance equipment in the electric program.
24-1	March 1969	Policy and procedure on REA loans to electric borrowers under sec. 5 of the Rural Electrification Act.
26-1	May 1971	Procedure for the advance of sec. 4 loan funds and the expenditure of such funds.
	November 1972	Supplement to emphasize that loan fund requisitions not be submitted too far in advance or in amounts greater than immediate needs.
27-1	May 1960	Policy and procedure on REA loans for the acquisition of existing electric facilities by borrowers.
40-4	July 1974	The guidelines of REA on the mapping of systems by electric borrowers.
40-5	January 1970	Policy and procedure on borrowers' arrangements with other organizations for the common use of poles involving distribution and transmission lines.
40-6	August 1970	The requirements of REA concerning construction of distribution, transmission generation and headquarters facilities and the purchase of materials and equipment by electric borrowers.
	March 1973	Supplement concerning contracts for the procurement of materials and equipment and for construction of generation facilities.
	May 1973	Supplement providing for a method of competitive bidding for procurement of equipment or materials or for the construction of generating facilities.
	January 1975	Supplement providing alternate provisions in equipment and material contracts to reflect rising costs.
40-7	October 1973	The National Electrical Safety Code and REA construction requirements with respect thereto.
40-8	May 1973	REA construction specifications, drawings and contract forms for electric distribution, transmission and generation facilities.
	May 1973	REA construction specifications, drawings and contract forms for electric distribution, transmission and generation facilities.
41-1	May 1967	Policy and procedure for electric borrowers' selection of engineers and arrangements for engineering services.
	July 1972	Supplement providing for revision of REA Forms 235, 236, and 237, Engineering Service Contracts.
	November 1972	Supplement providing for revision of REA Form 211, Engineering Service Contract, for the Design and Construction of a Generating Plant.
42-1	August 1969	Policy and procedure for the selection by borrowers of architects for the design of buildings to be constructed with loan funds.
43-5	July 1974	List of materials acceptable to REA for use in the construction of borrowers' electric systems.
43-6	February 1957	REA policy and requirements for the selection of materials and equipment by electric borrowers and their inspection upon delivery.
44-1	January 1973	REA specifications and standards for material and equipment used by electric borrowers.
60-1	August 1965	REA standards for the preparation of circuit diagrams, electrical data sheets and other drawings for the systems of electric borrowers.
60-2	September 1968	REA policy with respect to the electrical capacity of the systems financed with REA loan funds.

REA bulletin No.	Date of last issuance	Description
60-7	June 1960	REA standards concerning service reliability on electric distribution systems of REA borrowers.
60-8	October 1967	REA guidelines to borrowers for long-range electric distribution system planning.
60-9	May 1960	REA standards for economical design of primary lines for rural distribution system.
60-10	December 1967	REA guidelines for electric distribution systems in the preparation, use, and approval of annual construction work plans.
61-2	July 1956	REA specifications for conductors used in the construction of low-voltage circuits, including installation.
61-6	June 1970	Standards for the design of wire crossings of distribution lines over communication lines.
61-10	March 1972	REA specifications for the design and modification of power pole structures less likely to cause electrocution of eagles and other large birds.
	September 1973	Supplement concerning additional remedial measures for the protection of eagles from powerlines.
62-1	September 1972	Specifications and other requirements of REA for the design of transmission lines.
62-3	November 1972	Criteria of REA for the use of narrow profile transmission line structure designs, and general guidelines on the design and construction of such structures.
65-1	July 1970	Guide for the design of electric substations built with REA loan funds.
	March 1972	Supplement concerning short-circuit current strength of power transformers.
	January 1973	Supplement to identify the sizes and ratings of power transformers presently included in the list of materials and to identify useful ANSI guide specifications for power transformers and power circuit breakers.
	February 1973	Supplement providing new and revised information concerning grounding and underground corrosion control at distribution substations.
	March 1973	Supplement identifying the minimum clearance requirements of the National Electrical Safety Code with respect to substation design and construction.
	April 1973	Supplement concerning substation fence grounding.
80-5	July 1955	Specifications and recommended practices in the installation of conductor for rural electric distribution lines.
	March 1972	Supplement concerning vibration characteristics of 6201 aluminum alloy conductor.
80-8	May 1956	Requirements for the construction and operation of electric lines on national forest and land utilization projects lands administered by the U.S. Forest Service.
	January 1964	Supplement stressing importance of borrowers coordinating their plans with local Forest Service authorities at earliest possible date.
80-11	June 1971	REA requirements for progress reports from engineers and architects involved in contract construction of electric borrowers' facilities.
81-6	May 1972	Steps to be followed and the documents required to close out REA financed contract construction of distribution and transmission facilities.
81-9	July 1974	REA guidelines for the preparation of plans and specifications for distribution and transmission facilities to be constructed through the use of REA contract forms 794, 800, and 851.
83-1	October 1958	REA guidelines and requirements for the adequate grounding of primary distribution lines.
	August 1966	Supplement providing revised assembly drawings permitting the use of alternate materials for grounding assemblies.
85-1	February 1958	REA procedure for closing out projects involving contract construction by borrowers of generation facilities.
86-1	May 1972	REA procedures and final documents required to close out contracts for the construction of building (exclusive of generation plants) and architectural services contracts.
86-2	May 1972	REA requirements for the preparation of plans and specifications, bid documents, and bid releases for headquarters' facilities of electric borrowers.
86-3	April 1972	The requirements and recommendations of REA with respect to headquarters facilities for electric borrowers.
100-2	March 1960	The requirements of REA for minutes of meetings of borrowers' boards of directors and the submission of certified copies of the minutes to REA.
100-4	April 1972	The policy of REA with respect to corrective action to be taken by borrowers where problems may endanger the effective operation of their systems and the security of REA loans.
	May 1974	Revision of times interest earned ratio for loan eligibility on a gross-interest basis in conformity with the common REA–CFC electric mortgage.
101-1	September 1955	The policy and recommendations of REA concerning the constitution of the board of directors and technical advisory committee of a power supply cooperative.
101-5	January 1967	Recommended model act bylaws for the use of electric cooperatives in drafting or revising their bylaws.
	May 1971	Supplement providing revised REA Model Act Bylaw provisions.
102-2	July 1971	The policy of REA on the waiver of loan security instruments relating to borrowers' retirements of patronage capital.
102-2	June 1971	REA policy concerning borrowers' investments of general funds in electric plant and the waiver of REA approval of the use of general funds for constructing certain extensions and additions to plant.
105-4	May 1973	REA guidelines for financial management by electric borrowers.
105-5	November 1973	Guidelines for the preparation of long-range financial forecasts by electric distribution borrowers.
	January 1975	Supplement to provide instructions for preparing a financial forecast in those cases where additional revenue is needed to meet minimum TIER and DSC requirements.
105-7	September 1972	Policy and recommendations of REA for its power supply borrowers with respect to the preparation of long-range system and financial plans.
108-1	October 1974	The requirements of REA on the preparation and submission by electric distribution borrowers of financial and statistical reports on their operations.
108-2	January 1971	The requirements of REA on the preparation and submission of operating reports by power-type borrowers and distribution borrowers with generating facilities.
	December 1974	Supplement providing for the revision of REA forms 12a and 12b and instructions for their preparation.
109-4	June 1970	The policy and procedure of REA regarding the selection of a manager by electric borrowers.
111-1	April 1969	The policy and procedure of REA concerning the review and approval of proposed wholesale power purchase contracts of borrowers.
	March 1970	Supplement clarifying requirements for REA review and approval of borrowers' wholesale power contracts.
111-3	August 1969	The policy and procedure of REA on power supply surveys and certifications thereto by the administrator in relation to the approval of loans for generation and transmission facilities.

V40169 APR 9 75 XUM

REA bulletin No.	Date of last issuance	Description
111-4	March 1972	The policy and procedure of REA concerning the power rates charged by REA power supply borrowers.
112-2	April 1971	REA policy and procedure with respect to the electric retail rates of distribution type borrowers.
112-3	September 1958	The policy of REA covering the extension of electric service to rural users by borrowers on an area coverage basis.
112-6	September 1972	The procedure and requirements of REA for obtaining its approval of borrowers' contracts for extending electric service to large power installations.
112-7	May 1961	Instructions for the preparation and use of REA Form 323, Street Lighting System Contract, by electric borrowers.
115-1	December 1972	The policy and procedure of REA concerning the sale of capital assets by electric borrowers.
115-2	November 1972	Policy and recommendations of REA with respect to the merger of its electric distribution borrowers.
115-3	February 1958	The policy and recommendations of REA concerning the relocating, removing or abandoning of borrowers' facilities for the convenience of Federal, State, territorial or other government agencies.
120-1	March 1974	The policy and procedure of REA with respect to the development, approach and use of power requirements studies.
161-5	December 1971	The requirements and guidelines of REA concerning the review of the adequacy of borrowers' operation and maintenance programs.
180-2	June 1972	Requirements of REA with respect to the preservation of records by electric borrowers.
181-1	January 1972	Uniform system of accounts prescribed by REA for use by electric borrowers.
	March 1974	Supplement revising REA uniform system of accounts in connection with interest charged to construction credit.
	October 1974	Supplement revising REA uniform system of accounts in connection with other capital credits and patronage capital allocations.
181-2	May 1963	The standard list of plant retirement units for use in connection with the REA uniform system of accounts prescribed for electric borrowers.
	July 1974	Revisions relating to retirement unit accounts.
181-3	February 1972	Specific accounting instructions and interpretations with respect to the REA uniform system of accounts for particular situations which are unusual in the construction or operation of rural electric systems.
	September 1973	Supplement providing accounting interpretations relating to terminal facilities and contributions made to the nuclear breeder reactor project.
	October 1974	Supplement providing additional accounting interpretations relating to patronage capital.
182-1	January 1965	The guidelines of REA to electric borrowers on establishing and enforcing internal controls in the financial operations of the system.
183-1	November 1969	The policy and procedure of REA pertaining to depreciation rates of electric plant and amortization of the cost of land and clearing rights-of-way for systems of electric borrowers.
184-2	August 1973	The guidelines of REA pertaining to work orders in accounting for fixed capital changes in the plant of electric borrowers.
	March 1974	Supplement providing revised accounting procedures for recording contributions in aid of construction.
	February 1975	Supplement providing suggested work order procedures changed to conform with construction assembly drawings and specifications.
184-3	September 1961	Guidelines of REA for electric borrowers in establishing and maintaining a continuing property record system.
	December 1968	Supplement deleting section related to clearing land and rights-of-way.
		Rural Telephone Program Bulletins
300-5	August 1969	REA policy and requirements with respect to the general funds of REA telephone borrowers.
300-7	May 1965	REA policy with respect to expanding and improving services to subscribers of telephone borrowers including guidelines for the development and execution of a member service program.
300-8	August 1965	The policy of REA with respect to the financial participation by telephone borrowers in community antenna television system services and facilities.
320-1	February 1962	The guidelines of REA for operating a subscriber owned rural telephone cooperative to obtain modern telephone service in rural areas through participation in the REA loan program.
320-3	January 1959	The policy and procedure of REA concerning availability of REA loans to rural telephone borrowers for working capital.
320-4	June 1962	REA policies and procedures concerning applications for REA loans to improve and extend rural telephone service.
320-5	May 1972	The policy and procedure of REA concerning the headquarters buildings of telephone borrowers and the basis for REA loans covering such facilities.
320-9	March 1965	REA policy concerning the types of organizations and capital structures eligible for REA telephone loans.
320-13	February 1960	REA policy concerning loans to finance switched (service station) facilities.
320-14	May 1971	The requirements and procedures of REA on loans to existing borrowers for telephone system improvements and extensions.
321-2	May 1969	The policy of REA with respect to loan security requirements for REA telephone program loans.
322-1	May 1971	The policy and procedure of REA with respect to surveys of subscriber service requirements in connection with a telephone loan application.
322-2	April 1967	REA policy covering the provision of telephone service to rural users on an area coverage basis.
323-1	October 1954	REA requirements concerning certification of nonduplication of facilities in the use of loans funds where there is no State authority to issue a certificate of convenience and necessity.
324-1	October 1960	REA policy concerning the refinancing of outstanding indebtedness of telephone borrowers.
325-1	November 1960	The policy of REA regarding loan applications for facilities to provide telephone service to subscribers located outside rural areas.
326-1	May 1969	The policy and requirements of REA with respect to the acquisition of telephone facilities and systems by REA borrowers using Government loan funds.
327-1	June 1972	The requirements of REA for the advance of loan funds to rural telephone borrowers.
	December 1973	Revision of app. D to clarify the manner in which loan advances will be made when both REA and Rural Telephone Bank loans are involved.
340-1	August 1963	The requirements of REA covering telephone borrowers' final payments to contractors, engineers and architects from loan funds.
340-3	February 1972	The requirements and recommendations of REA for the design and construction of central office and interconnection facilities of REA borrowers.
340-4	November 1962	Guidelines of REA for use of REA Form 812, "Work Schedule and Progress Report" in checking the progress of work during the course of construction.
341-1	December 1971	The requirements and procedure of REA for telephone borrowers in closing out an engineering service contract.

REA bulletin No.	Date of last issuance	Description
345-2	January 1968	REA procedures for the use of REA form 588 to certify stake replacements during construction of rural telephone facilities.
342-3	January 1972	The policy and procedure of REA concerning the selection of consulting telephone engineers by telephone loan applicants and borrowers, and the procedure to be followed in securing engineering services.
342-1	July 1967	REA policy concerning the selection of architects by telephone borrowers, and the procedure to be followed in securing architectural services.
344-1	January 1958	The procedures required by REA for telephone borrowers in purchasing materials and equipment with REA loan funds for the construction of telephone facilities.
	April 1967	Supplement superseding REA procedures in this bulletin relating to the purchase of voice frequency repeaters, trunk and subscriber carrier, point-to-point radio, and mobile and fixed radio-telephone equipment by procedures in REA Bulletin 345-2.
	January 1975	Supplement providing REA guidelines for the purchase of common control switching equipment by borrowers.
344-2	January 1975	List of the materials acceptable to REA for use in the construction of borrowers telephone systems.
	January 1975	Supplement providing guidelines for the procurement and use of foreign timber products by REA borrowers with loan funds.
345-5	September 1958	The policy of REA on responsibilities of borrowers and their engineers and contractors with respect to proper inspection of materials and equipment and the replacement of defective and nonstandard items.
345-6	June 1973	Specifications of REA for splicing plastic-jacketed cables used on telephone systems of borrowers.
	January 1975	Revisions reducing the quantity of conductor and loading coils to be placed in buried plant housings.
345-7	July 1966	Specification of REA for joining thermoplastic sheathed, thermoplastic insulated cables to lead-sheathed, paper-insulated cables used on telephone systems of REA borrowers.
345-9	July 1966	Specifications of REA for joining paper or pulp insulated lead-sheathed cables to paper or pulp insulated lead-sheathed cables on telephone systems of REA borrowers.
345-13	July 1971	Specification of REA on telephone cable, for aerial and underground duct application.
345-14	July 1971	Specifications of REA for telephone cables for direct burial by telephone borrowers.
345-16	September 1963	Specifications of REA for reinforced heavy duty point type transposition brackets on borrowers' telephone systems.
345-18	March 1973	Specifications of REA for plastic-insulated, plastic-jacketed station wire on borrowers' telephone systems.
345-19	March 1966	Specifications of REA for figure 8 one pair distribution wire on borrowers' telephone systems.
345-20	July 1966	Specifications of REA for figure 8 multipair distribution wire on borrowers' telephone systems.
345-21	February 1966	Specifications of REA for polyethylene raw material on borrowers' telephone systems.
	February 1973	Revised pages providing an alternate method of determining carbon black dispersal.
345-22	August 1971	Specification of REA for 66 MH voice frequency loading coils on telephone borrowers' systems.
345-29	October 1973	Specification of REA for building-out capacitors on borrowers' telephone systems.
345-24	September 1962	Specification of REA for spindle-threaded steel communication insular pins and associated plastic bushings on borrowers' telephone systems.
345-25	December 1962	Specification of REA for dead-end clevis assembly for use with open wire conductors on borrowers' telephone systems.
345-26	September 1974	Specifications of REA for galvanized steel buried plant terminal housings for telephone borrowers' systems.
345-27	February 1974	Specification of REA for D66/H88 junction impedance compensators for telephone borrowers' systems.
345-28	January 1969	Specification of REA for seven wire galvanized steel strand for telephone borrowers' systems.
	September 1964	Partial revision to include an additional type of steel acceptable for use in the production of wires for the completed strand.
345-30	January 1972	Specification of REA for ringing generator equipment for the telephone systems of REA borrowers.
345-31	February 1968	Specification of REA for polyethylene-insulated bridle wire for the telephone systems of REA borrowers.
345-36	November 1966	Specification of REA for parallel conductor drop wire on the telephone systems of REA borrowers.
345-38	November 1963	Specification of REA for wood crossarm braces for the telephone systems of REA borrowers.
345-39	January 1975	Specifications of REA for telephone station protectors on the systems of REA borrowers.
345-42	March 1972	Specification of REA for low-loss buried distribution wire for telephone systems of REA borrowers.
345-44	March 1964	Specification of REA for figure 8 drop wire for telephone systems of REA borrowers.
345-48	December 1964	REA policy concerning the experimental use of telephone materials and equipment prior to their consideration for listing on the REA approved list of materials.
345-46	July 1966	Specification of REA for change to support figure 8 distribution wire for the telephone systems of REA borrowers.
345-47	April 1966	Specification of REA for seven wire aluminum-clad steel strand for the telephone systems of REA borrowers.
345-50	April 1973	Specification of REA for trunk carrier multiplex equipment for telephone systems of REA borrowers.
345-51	April 1967	Specification of REA for crystalline propylene ethylene copolymer raw materials used in materials incorporated in the telephone systems of REA borrowers.
345-52	March 1968	The specification of REA covering approved methods of making telephone station installations including payastations.
	January 1970	Partial revision to modify specification to provide protection in case of power contact with an aerial drop wire.
345-53	March 1971	Specification of REA for encapsulation, splice closure, and presu reblocks in plastic-insulated, plastic-jacketed cable.
345-54	December 1971	Specification of REA for telephone cable splicing connectors used on borrowers' telephone systems.
	August 1972	Revised pages to include requirement that mechanical splicing connectors be used only on conductors where stripping of conductor insulation is not required.
345-55	December 1973	Specification of REA for central office loop extenders and loop extender voice frequency repeater combinations.
345-56	August 1972	Specifications of REA for station carrier equipment installed on borrowers' telephone systems.

V 40 169 APR 9 75 XUM

REA bulletin No.	Date of last issuance	Description
345-67	June 1969	Specification of REA for microwave radio equipment installed on borrowers' telephone systems.
345-68	July 1969	Specification of REA for flexible and semirigid polyvinyl chloride raw material used on telephone systems of borrowers.
345-59	March 1971	Specification of REA for inside wiring cable used on borrowers' telephone systems.
345-60	October 1969	Specification of REA for coaxial drop cable for ETV and other wide band applications used on borrowers' systems.
345-61	March 1971	Specification of REA for switchboard cable used on borrowers' telephone systems.
345-63	November 1970	The standards of REA acceptance tests and measurements of telephone plant installed on borrowers' telephone systems.
345-64	April 1972	Specification of REA for ringers used on borrowers' telephone systems.
345-65	October 1972	Specifications of REA for cable shield bonding connectors installed on borrowers' telephone systems.
345-66	October 1972	Specifications of REA for equipment installed on borrowers' telephone systems.
345-67	December 1972	Specifications of REA for filled telephone cables installed on borrowers' telephone systems.
	July 1974	Partial revision to allow a reduction of thickness of certain size cables where there will be no adverse effect.
345-68	April 1973	Specifications of REA for two—electrode gas tube protectors on borrowers' telephone systems.
	January 1975	Addendum to require manufacturers to conduct tests to assure initial breakdown of gas tubes does not occur at a significantly higher voltage than the rated breakdown voltage.
345-69	April 1973	Specifications of REA for two—wire voice frequency repeater equipment on borrowers' telephone systems.
345-70	August 1974	Specification of REA for filled buried wire on telephone borrowers' systems.
345-71	August 1974	Specification of REA for three—electrode gas tube protectors on telephone borrowers' systems.
	January 1975	Revision to require manufacturers to conduct tests to assure that the initial breakdown of gas tubes does not occur at a significantly higher voltage than the rated breakdown voltage.
350-1	January 1972	Requirements for the use by telephone borrowers of REA Form 567, Checklist for Review of an Area Coverage Design.
350-2	May 1967	Information on preparation of an area coverage design.
350-1	July 1956	Information for telephone borrowers in obtaining adequate title to real estate and rights-of-way authorizations for telephone systems.
	April 1966	Supplement amending REA's requirements concerning policies of title insurance.
350-3	July 1963	Information on report of borrowers' engineer to the telephone borrower and REA on the progress of engineering and construction activities.
351-1	May 1964	Procedure for processing bid tabulations for the contract construction of telephone outside plant facilities using REA Form 511, Telephone System Construction Contract.
351-2	April 1974	Information regarding telephone system construction contract (labor and materials), REA form 511.
351-4	October 1963	Procedure for preparation of close-out documents in connection with telephone construction contract (labor and materials), REA form 511.
351-7	June 1967	REA policy concerning methods of constructing telephone borrowers' initia system outside plant facilities.
351-8	September 1963	Requirements and procedures pertaining to contract construction of telephone borrower's initial system outside plant facilities.
351-9	August 1963	Procedures for preparation of amendments to contracts for construction or installation of telephone borrowers' facilities with loan funds or borrowers' equity funds.
351-10	October 1961	Procedures for entering into subcontracts under contracts involving construction or installation of telephone borrowers' facilities.
352-1	February 1968	Requirements and procedures of REA pertaining to force account construction of telephone borrowers' initial systems.
352-2	May 1963	Policy and procedures of REA pertaining to system improvements and extensions to be financed with REA loan funds where the initial telephone construction has been completed.
	November 1964	Supplement providing instructions for requesting advance of funds for equipment and facilities used for construction.
	February 1972	Supplement announcing the revision of REA Form 743, Certificate of Contractor and Indemnity Agreement (Line Extension).
	July 1974	Revision reflecting revised REA requirements on bidding and contractors' performance bonds for system improvements and extensions.
352-3	November 1963	Policy and procedures of REA regarding the preparation of final inventory documents for force account construction of all or a portion of a borrower's initial system.
	September 1965	Supplement providing that REA need no longer be furnished Buy American Certificates.
	July 1969	Supplement announcing changes in REA requirements relating to close-out documents and final inspection of telephone construction.
353-1	May 1967	Guidelines of REA for borrowers and their engineers concerning the required information for preparing plans and specifications for telephone system outside plant facilities.
	June 1971	Supplement announcing changes in REA requirements concerning plans and specifications for outside plant.
	January 1974	Supplement providing for payment to the contractor for certain wire and cable materials when such materials are delivered to the site of the project.
	August 1974	Revision to REA telephone construction contracts relating to restrictions on the use of zinc coated steel sheets, and the shortage of wood pole stubs and the substitution of concrete posts.
353-4	November 1974	Requirements and procedures of REA for postloan engineering design data on construction proposed by borrowers.
354-1	March 1968	The procedure of REA in requesting quotations and executing contracts for furnishing central office equipment to telephone borrowers.
354-3	October 1968	Procedure of REA for the close-out of telephone central office equipment contracts.
	July 1967	Revision of app. I to reflect changes in the Central Office Dial Equipment Specifications.
	April 1968	Addition of app. VI to incorporate the procedure for acceptance tests on ANI equipment.
354-3	August 1973	The procedure of REA for the use of central office equipment contracts and specifications for telephone borrowers.
355-1	December 1968	Requirements and procedures of REA on loan applications to provide two-way radio telephone service for telephone borrowers.

REA bulletin No.	Date of last issuance	Description
385-2	February 1969	Procedures required by REA of telephone borrowers in urchasing special electronic equipment with REA loan funds.
385-3	April 1964	The procedure of REA for use by telephone borrowers in closing out special equipment contracts, REA forms 397 and 398.
385-4	December 1971	Special equipment contracts and specifications approved by REA for the use of telephone borrowers.
385-5	April 1966	The policy of REA concerning its financing of telephone borrowers' procurement of radio equipment for subscriber service.
387-1	December 1961	Requirements and procedures of REA pertaining to the preparation of plans and specifications for construction of telephone borrowers' buildings.
387-3	March 1961	Procedure established by REA for preparation of final documents required to close out construction of buildings by telephone borrowers.
387-5	April 1961	Requirements and procedures of REA pertaining to contract construction of buildings by telephone borrowers.
388-1	May 1957	Procedures established by REA for preparing an inventory and appraisal of existing telephone plant to be retained as part of rebuilt systems proposed by borrowers for REA financing.
400-4	December 1965	REA policy concerning payment of legal fees from loan and equity funds to attorneys of telephone borrowers.
	May 1974	Partial revision increasing the maximum hourly legal fees which can be paid from loan or equity funds by REA telephone borrowers.
400-5	January 1964	REA policy with respect to conditions that may endanger the operations and financial stability of telephone borrowers and the security of REA loans.
402-1	December 1962	REA mortgage restrictions on dividends and other distribution of capital by telephone borrowers.
	February 1972	Supplement excusing borrowers with specifiedsecurity instruments from certain requirements relating to the payment of dividends.
402-2	November 1960	The policies of REA under which the capital distribution provisions of loan security instruments may be waived for telephone borrowers.
403-3	October 1959	The requirements of REA concerning minutes of meetings of telephone borrowers' directors, stockholders, or members.
404-1	July 1962	Requirements of REA concerning its approval of the connecting company and special service contracts and leases of telephone borrowers.
405-1	July 1962	Guidelines of REA concerning financial planning by telephone borrowers including planning for reimbursements from loan funds of their general funds used for extensions and additions to plant.
408-1	November 1970	Requirements of REA concerning the preparation of financial and statistical reports by telephone borrowers on their operations and their submission to REA.
	April 1972	Supplement providing borrowers with additional information on the preparation of Form 479, Financial and Statistical Report for Telephone Borrowers for the period ending June 30.
	December 1972	Changes in REA Bulletin 408-1 to conform it to revised Bulletin 461-1.
409-1	May 1972	The policies and recommendations of REA concerning the selection of a manager by telephone borrowers.
411-1	June 1961	The guidelines of REA for telephone borrowers in adopting and securing REA approval for agreements to furnish extended area service (EAS).
415-1	August 1960	Requirements of REA with respect to the sale, lease or transfer of property by telephone borrowers.
	June 1966	Supplement announcing revision of procedure for partial releases of the Government's lien.
440-1	March 1962	REA policy on providing assistance to telephone borrowers with respect to technical operations and maintenance of their systems.
447-1	October 1958	REA policy and recommendations to telephone borrowers concerning safety practices in the construction and operation of their systems.
461-1	February 1972	The requirements of REA with respect to the accounting systems of telephone borrowers.
462-1	January 1965	Guidelines of REA for telephone borrowers in establishing and evaluating the effectiveness of their internal controls in the operation of their systems.
463-1	April 1967	Policy and recommendations of REA on depreciation rates applicable to the telephone plant of REA borrowers.
464-1	February 1959	The policy and recommendations of REA on the accounting treatment for damages received by telephone borrowers from delays in the completion of contract construction.
464-2	June 1965	The requirements and recommendations of REA concerning the accounting for and reporting on large investments in special communications facilities by telephone borrowers.

Dated: March 28, 1975.

DAVID A. HAMIL,
Administrator.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Parts 1301, 1308]

SCHEDULE II THROUGH V CONTROLLED SUBSTANCES

Storage and Security; Extension of Comment Period

Due to an omission of page five of the above notice which was published at 40 FR 14083–90, March 28, 1975, the comment period is being extended.[1]

All interested persons are invited to submit their comments and objections in writing regarding this proposal. These comments or objections should state with particularity the issues concerning which the person desires to be heard. A person may object or comment on the proposals relating to any one or more of the abovementioned substances without filing comments or objections regarding the others. Comments and objections should be submitted in quintuplicate to the Office of the Administrative Law Judge, Attention: Hearing Clerk, Drug Enforcement Administration, Department of Justice, 1405 Eye Street, NW, Washington, D.C. 20537, and must be received by May 15, 1975. If a person believes that one or more issues raised by him warrant a full adversary-type hearing, he should so state and summarize the reasons for his belief.

In the event that comments or objections to this proposal raise one or more issues which the Administrator finds, in his sole discretion, warrants a full adversary-type hearing, the Administrator shall order a public hearing in the FEDERAL REGISTER summarizing the issues to be heard and setting the time for the hearing which shall be after June 9, 1975.

Dated: April 4, 1975.

JOHN R. BARTELS, JR.,
Administrator,
Drug Enforcement Administration.

SCHEDULE III THROUGH V CONTROLLED SUBSTANCES

Storage and Security

Correction

In FR Doc. 75-8051 appearing at page 14089 of the issue for Friday, March 28, 1975, a portion of subparagraph (4) of § 1301.72(b) was omitted. The complete § 1301.72(b)(4) reads as follows:

(4) A cage, located within a building on the premises, meeting the following specifications:

(i) Having walls constructed of #10 gauge steel fabric or heavier mounted on a minimum of one and one-half inch steel posts, set in concrete whenever possible (depending on facility construction) no greater than ten feet apart with horizontal one and one-half inch reinforcements every sixty inches.

(ii) Having a mesh construction with openings of not more than two and one-half inches.

(iii) Having a ceiling constructed of the same material, alternatively, a cage shall be erected which reaches and is securely attached to the structural ceiling of the building. A lighter gauge mesh can be used for the ceilings of large enclosed areas if walls are at least 14 feet in height.

(iv) Cage doors shall be self-closing, self-locking #10 gauge steel fabric on a substantial metal frame in a metal door flange. Doors for other types of enclosures shall provide equivalent protection commensurate with the type of construction. Hinges, where mounted on the outside shall be sealed, welded or otherwise constructed to inhibit removal. Locking devices for all enclosures shall be either of the multiple-position combination type or key lock type and:

(a) Will be substantially constructed to resist picking, drilling, hard blows and cutting with instruments such as bolt cutters.

(b) In the case of key locks, will require key control which limits access to a limited number of employees or;

(c) In the case of combination locks, the combination will be limited to a minimum number of employees and can be changed upon termination of employment of an employee.

(v) Is equipped with an alarm system which upon any type of unauthorized entry, into either the building or storage area containing the Schedule III through V substances, shall transmit a signal directly to a central station protection agency or a local or state police agency that has a legal duty to respond; or to a 24 hour control station operated by the registrant; or to such other source of protection as the Administrator may approve.

[29 CFR Part 4]

LABOR STANDARDS FOR FEDERAL SERVICE CONTRACTS

Miscellaneous Amendments

The Administration of the Service Contract Act of 1965, as amended, has disclosed certain problems with the procurement process. These problems have been under study by an interagency working group. As a result of this study, a number of revisions to Part 4 are hereby proposed.

The "successor" provisions of the Act require, *inter alia*, that where the Government awards a "successor" contract for work previously under contract, the employer under the successor contract must pay his employees not less than the wages and fringe benefits of his predecessor where those wages and fringe benefits were reflected in a collective bargaining agreement. It has been concluded that the "successor" obligations should apply only where substantially the same services will be performed at the same place as the previous contract. Contracts performed in different localities will be treated as new procurements, under section 2(a) of the Act.

Problems arising from the timing of collective bargaining agreements which create the "successorship" obligation; and from the timing of requests for hearings to determine whether such agreements are substantially at variance with wages prevailing in the locality of the place of performance have been arising frequently. In order not to delay the procurement process, a cut-off date is proposed. This action will avoid serious disruption of the Government's business and disruption of collective bargaining.

Where the place of performance is unknown at the time bids are solicited, a problem arises as to the locality to be used for wage determination purposes. In these cases, the wage and fringe benefit determinations should reflect rates applicable to the ultimate place of contract performance. Accordingly, the regulations are being amended to conform to such procedures.

The national labor policy clearly favors the process of collective bargaining. A prospective bidder who has a collective bargaining agreement should be allowed to bid solely on the basis of that agreement under section 2(a) of the Act. This would alleviate the necessity for a

contractor to establish one set of rates for commercial business and another set for Government business.

Various provisions of Part 4 are proposed to be amended to effectuate these revisions.

Written data, views, or arguments concerning these amendments may be submitted to the Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20210, on or before May 12, 1975.

Part 4 of Subtitle A of Title 29 of the Code of Federal Regulations is proposed to be amended as follows:

1. Section 4.1c is revised to read as follows:

§ 4.1c Payment of minimum compensation based on collectively bargained wage rates and fringe benefits applicable to employment under predecessor contract.

(a) Section 4(c) of the Service Contract Act of 1965 as amended provides special minimum wage and fringe benefit requirements applicable to every contractor and subcontractor under a contract which succeeds a contract subject to the Act and under which substantially the same service as under the predecessor contract are furnished at the same location. Section 4(c) provides that no such contractor or subcontractor shall pay any employee employed on the contract work less than the wages and fringe benefits provided for in a collective bargaining agreement as a result of arms-length negotiations, to which such services employees would have been entitled if they were employed under the predecessor contract, including accrued wages and fringe benefits and any prospective increases in such collective bargaining agreement. If, however, the Secretary finds after a hearing in accordance with the regulations set forth in § 4.10 of this part that in any of the foregoing circumstances such wages and fringe benefits are substantially at variance with those which prevail for services of a character similar in the locality, the payment obligations of such contractor or subcontractor with respect thereto shall not apply in such circumstances.

(b) Pursuant to section 4(b) of the Act, the application of section 4(c) is made subject to the following variation in the circumstances and under the conditions described: The wage rates and fringe benefits provided for in any collective bargaining agreement applicable to the performance of work under the predecessor contract which is consummated during the period of performance of such contract shall not be effective for purposes of the successor contract under the provisions of section 4(c) of the Act or under any wage determination implementing such section issued pursuant to section 2(a) of the Act, if—

(i) in the case of a successor contract for which bids have been invited by formal advertising, notice of the negotiation of such collective bargaining agreement in the form of a wage determination is received by the contracting agency less than 10 days before the date set for opening of bids, or if—

(ii) in the case of a successor contract to be entered into pursuant to negotiations, such notice of the negotiation of such collective bargaining agreement in the form of a wage determination is received by the agency less than 10 days before award of the contract, and if under either (i) or (ii) above the contracting agency finds that there is not reasonable time still available to notify bidders or to incorporate the newly bargained wage rates and fringe benefits in the successor contract, as the case may be.

2. Section 4.3 is revised to read as follows:

§ 4.3 Register of wage determinations.

(a) The minimum monetary wages and fringe benefits for service employees which the Act requires to be specified in contracts and bid specifications subject to section 2(a) thereof will be set forth in wage determinations issued by the Administrator as an orderly series constituting a register of such minimum wages and fringe benefits. The register shall include, as soon as administratively feasible, wage determinations applicable to all contracts subject to section 2(a) of the Act, and will include in any event, for the localities in which services under such contracts are to be performed, wage determinations applicable to all contracts entered into during the following years under which more than the stated number of service employee are to be employed: (1) Fiscal year ending June 30, 1973—25; (2) ending June 30, 1974—20; (3) ending June 30, 1975—15; (4) ending June 30, 1976—10; (5) ending June 30, 1977, and for each fiscal year thereafter—5.

* * * * *

(c) Wage determinations issued for solicitations or negotiations for any contract where the place of performance is unknown shall contain minimum monetary wages and fringe benefits for each of the geographical locations where the work may be performed.

(d) Wage determinations included in the register will be available for public inspection during business hours at the Office of Special Wage Standards in the Employment Standards Administration, U.S. Department of Labor, and copies will be made available on request at regional offices of the Administration.

3. Section 4.4 is revised to read as follows:

§ 4.4 Notice of intention to make a service contract.

(a) (1) Not less than 30 days prior to any invitation for bids, request for proposals, or commencement of negotiations for any contract exceeding $2,500 which may be subject to the Act, the contracting agency shall file with the Office of Special Wage Standards, Employment Standards Administration, Department of Labor, its notice of intention to make a service contract. Such notice shall be submitted on Standard Form 98, Notice of Intention to Make a Service Contract, which shall be completed in accordance with the instructions provided and shall be supplemented by the information required under paragraphs (b) and (c) of this section. Supplies of Standard Form 98 are available in all GSA supply depots under stock number 7540–926–8972.

(2) Where the place of performance of a contract exceeding $2,500 for services subject to the Act is unknown at the time of solicitation, the solicitation need not initially contain a wage determination. The contracting agency shall upon identification of firms participating in the procurement, in response to an initial solicitation, file with the Office of Special Wage Standards, Employment Standards Administration, Department of Labor, its notice of intention to make a service contract. In addition to the requirements contained in paragraph (a)(1) of this section, such submission shall identify each location where the work may be performed as indicated by participating firms. Subsequent amendments to the solicitation setting forth the wage determinations and any necessary change in the date and time for submission of final bids shall be made upon receipt of wage determinations or notification that no wage determinations are applicable to the proposed contract.

(b) The contracting agency shall file with its Notice of Intention to Make a Service Contract (SF–98) a statement in writing containing the following information concerning the service employees expected by the agency to be employed by the contractor and any subcontractors in performing the contract:

(1) The number of such employees of all classes, or a statement indicating whether such number will or will not exceed the number for which a wage determination is mandatory under the provisions of § 4.3(a); and

(2) A listing of those classes of service employees expected to be employed under the contract which, if employed by the agency, would be subject to the wage provisions of 5 U.S.C. 5341, together with a specification of the rates of wages and fringe benefits that would be paid by the Government to employees of each such class if such statute were applicable to them. (Under section 2(a)(5) of the Act and § 4.6 of this part the inclusion of such a statement in the service contract is also required.)

(c) If the services to be furnished under the proposed contract will be substantially the same as services being furnished at the same location by an incumbent contractor whose contract the proposed contract will succeed, and if such incumbent contractor is furnishing such services through the use of service employees whose wage rates and fringe benefits are the subject of one or more collective bargaining agreements, the contracting agency shall file with its Notice of Intention to Make a Service Contract (SF–98) a copy of each such collective bargaining agreement together with any related documents

V40169 APR 9 75 XUM

specifying the wage rates and fringe benefits currently or prospectively payable under such agreement. If such services are being furnished at more than one location and the collectively bargained wage rates and fringe benefits are different for different locations or do not apply for one or more locations, the agency shall identify the locations to which such agreements have application. In the event that the agency has reason to believe that any such collective bargaining agreement was not entered into as a result of arms-length negotiations, a full statement of the facts so indicating shall be transmitted with the copy of such agreement. If the agency has information indicating that any such collectively bargained wage rates and fringe benefits are substantially at variance with those prevailing for services of a similar character in the locality, the agency shall so advise the Office of Special Wage Standards and, if it believes a hearing thereon pursuant to section 4(c) of the Act is warranted, shall file its request for such hearing pursuant to § 4.10 of this part.

(d) Any Standard Form 98 submitted by a contracting agency without the information required under paragraphs (b) and (c) of this section will be returned to the agency for further action.

(e) If exceptional circumstances prevent the filing of the notice of intention and supplemental information required by this section on a date at least 30 days prior to any invitation for bids, request for proposals, or commencement of negotiations for a proposed contract subject to section 2(a) of the Act, the notice shall be submitted to the Office of Special Wage Standards as soon as practicable with a detailed explanation of the special circumstances which prevented timely submission.

4. Section 4.5 is revised to read as follows:

§ 4.5 Contract specification of determined minimum wages and fringe benefits.

(a) Any contract agreed upon in excess of $2500 shall contain an attachment specifying the minimum wages and fringe benefits for service employees to be employed thereunder and a proviso which shall allow any prospective bidder to bid who has a bona fide collective bargaining agreement to be governed by the provisions of the collective bargaining agreement in lieu of the minimum wage and fringe benefits, as determined in any applicable currently effective wage determination made and included in the register as provided in § 4.3, including any expressed in any document referred to in paragraph (a) (1) and (2) of this section:

(1) Any communication from the office of Special Wage Standards, Employment Standards Administration, Department of Labor, responsive to the notice required by § 4.4; or

(2) Any revision of the register by a wage determination issued prior to the award of the contract or contracts which specifies minimum wage rates or fringe benefits for classes of service employees whose wages or fringe benefits were not previously covered by wage determinations in the register, or which changes previously determined minimum wage rates and fringe benefits for service employees employed on covered contracts in the locality. However, revisions received by the Federal agency later than 10 days before the opening of bids, in the case of contracts entered into pursuant to competitive bidding procedures, shall not be effective if the Federal agency finds that there is not a reasonable time still available to notify bidders of the revision. In situations under section 4(c) of the Act, the provisions in § 4.1c(b) apply.

• • • • •

5. Section 4.6 is revised to read as follows:

§ 4.6 Labor standards clauses for Federal service contracts exceeding $2500.

The clauses set forth in the following paragraphs shall be included in every contract (and any bid specification therefor) entered into by the United States or the District of Columbia, in excess of $2500, the principal purpose of which is to furnish services through the use of service employees:

(a) Service Contract Act of 1965: This contract, to the extent that it is of the character to which the Service Contract Act of 1965 (79 Stat. 1034, 41 U.S.C. 351) applies, is subject to the following provisions and to all other applicable provisions of the Act and regulations of the Secretary of Labor thereunder (this Part 4).

(b) (1) Each service employee employed in the performance of this contract by the contractor or any subcontractor shall be paid not less than the minimum monetary wage and shall be furnished fringe benefits in accordance with the wages and fringe benefits determined by the Secretary of Labor or his authorized representative, as specified in any attachment to this contract or in lieu thereof of the wage rates and fringe benefits contained in a bona fide collective bargaining agreement applicable to the service employees employed by the contractor or any subcontractor in the performance of the contract.

(2) If there is such an attachment, any class of service employees which is neither listed therein, nor covered by a bona fide collective bargaining agreement, but which is to be employed under this contract, shall be classified by the contractor so as to provide a reasonable relationship between such classifications and those listed in the attachment or in the bona fide collective bargaining agreement, whichever is applicable, and shall be paid such monetary wages and furnished such fringe benefits as are determined by agreement of the interested parties, who shall be deemed to be the contracting agency, the contractor, and the employees who will perform on the contract or their representatives. If the interested parties do not agree on a classification or reclassification which is, in fact, conformable, the contracting officer shall submit the question, together with his recommendation, to the Office of Special Wage Standards, ESA, of the Department of Labor for final determination. Failure to pay such employees the compensation agreed upon by the interested parties or finally determined by the Administrator or his authorized representative shall be a violation of this contract. No employee engaged in performing work on this contract shall in any event be paid less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended.

(3) If, as authorized pursuant to section 4(d) of the Service Contract Act of 1965 as amended, the term of this contract is more than 1 year, in the absence of a bona fide collective bargaining agreement governing the wage rates and fringe benefits, the minimum monetary wages and fringe benefits required to be paid or furnished thereunder to service employees shall be subject to adjustment after 1 year and not less often than once every 2 years, pursuant to wage determinations to be issued by the Employment Standards Administration of the Department of Labor as provided in such Act.

(c) In the absence of a bona fide collective bargaining agreement governing the wage rates and fringe benefits, the contractor or subcontractor may discharge the obligation to furnish fringe benefits specified in the attachment or determined conformably thereto by furnishing any equivalent combinations of fringe benefits, or by making equivalent or differential payments in cash in accordance with the applicable rules set forth in Subparts B and C of this part, and not otherwise.

(d) (1) In the absence of a minimum wage attachment for this contract or a bona fide collective bargaining agreement governing the wage rates and fringe benefits, neither the contractor nor any subcontractor under this contract shall pay any of his employees performing work under the contract (regardless of whether they are service employees) less than the minimum wage specified by section 6(a)(1) of the Fair Labor Standards Act of 1938. Nothing in this provision shall relieve the contractor or any subcontractor of any other obligation under law or contract for the payment of a higher wage to any employee.

(2) If this contract succeeds a contract, subject to the Service Contract Act of 1965 as amended, under which substantially the same services were furnished in the same locality and service employees were paid wages and fringe benefits provided for in a collective bargaining agreement, then in the absence of a minimum wage attachment for this contract neither the contractor nor any subcontractor under this contract shall pay any service employee performing any of the contract work less than the wages and

fringe benefits, provided for in such collective bargaining agreements, to which such employee would be entitled if employed under the predecessor contract, including accrued wages and fringe benefits and any prospective increases in wages and fringe benefits provided for under such agreement. No contractor or subcontractor under this contract may be relieved of the foregoing obligation unless the Secretary of Labor or his authorized representative determines that the collective bargaining agreement applicable to service employees employed under the predecessor contract was not entered into as a result of arms-length negotiations (see § 4.1c(b)), or finds, after a hearing as provided in Labor Department regulations, 29 CFR 4.10 that the wages and fringe benefits provided for in such agreement are substantially at variance with those which prevail for services of a character similar in the locality.

(e) The contractor and any subcontractor under this contract shall notify each service employee commencing work on this contract of the minimum monetary wage and fringe benefits required to be paid pursuant to this contract, or shall post a notice of such wages and benefits in a prominent and accessible place at the worksite, using such poster as may be provided by the Department of Labor. This provision does not apply where the wage rates and fringe benefits are governed by a bona fide collective-bargaining agreement.

• • • • • •

6. Section 4.10 is revised by adding a new paragraph (b)(5) reading as follows:

§ 4.10 Provisions for hearing.

• • • • •

(b) Prerequisites for hearing.

• • • • •

(5) Pursuant to section 4(b) of the Act, requests for a hearing shall not be considered unless received:

(i) for advertised contracts, prior to ten days before the opening of bids;

(ii) for negotiated contracts, prior to ten days before award of the contract;

(iii) for contracts with provisions for extending the initial term by option, prior to the commencement of the follow-up option period. This has been found to be a reasonable limitation on the timing of such requests which is necessary and proper in the public interest.

• • • • •

(Sec. 4, 79 Stat. 1035, as amended by 86 Stat. 789; 41 U.S.C. 353; Secretary of Labor's Order No. 13-71, 36 FR 8755.)

Signed at Washington, D.C., this 4th day of April, 1975.

WARREN D. LANDIS,
Acting Administrator,
Wage and Hour Division.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 27]

FROZEN CONCENTRATE FOR LEMONADE AND COLORED LEMONADE

Standards of Identity

The Commissioner of Food and Drugs is issuing a proposal to amend the standards of identity for frozen concentrate for lemonade (21 CFR 27.101) and frozen concentrate for colored lemonade (21 CFR 27.102) to (a) remove the proportionality limitations for certain sweeteners; (b) provide for the "safe and suitable" nutritive carbohydrate sweeteners set out simply as a class rather than the present limiting "recipe" listing; and (c) adopt a requirement for label declaration of optional ingredients. All interested persons are invited to comment on the proposal by May 9, 1975.

A. The Corn Refiners Association (CRA), 1001 Connecticut Ave., NW, Washington, DC 20036, filed a petition to amend the subject standards. The changes proposed by CRA would delete the 33⅓ percent limitation on the use of certain sweeteners and increase the number of sweeteners permitted. The present standards restrict the use of corn sweetners to no more than 33⅓ percent of the total sweetening ingredients used. This proposed amendment would permit manufacturers of frozen concentrates for lemonade and colored lemonade to use sweeteners without being restricted to the present proportional limitations. CRA asserts that recent technological innovations have made a wide range of corn sweeteners available, ranging from bland sweeteners to sweeteners having identical chemical, physical, and organoleptic characteristics as those exhibited by sweeteners such as sucrose or invert sugar. The petitioner states that within the last year sucrose and its products, due to short supply, have greatly increased in price. Therefore, giving the manufacturer complete freedom of choice to provide the most economic high quality products would be in the interest of consumers.

The petitioner adds, in support of his proposal, that:

1. The standards proposed for amendment as they concern optional sweeteners are inconsistent with the more recently promulgated (albeit stayed) standards for lemonade (21 CFR 27.99) and colored lemonade (21 CFR 27.100).

2. The present standards are inconsistent with the FAO/WHO Codex Alimentarius Commission standards that allow different sweeteners to be freely admixed.

3. It would be consistent to amend the frozen concentrate for lemonade standards in view of the Commissioner's comment in the FEDERAL REGISTER of August 28, 1974 (39 FR 31304), concerning fruit jellies (21 CFR 29.2) and fruit jams (21 CFR 29.3), "that it will promote honesty and fair dealing in the interest of consumers to remove the 25-percent limitation on the use of corn sirups."

The petition is submitted by the CRA is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, and may be inspected by the public during regular working hours, Monday through Friday.

B. The Commissioner proposes, at this time on his own initiative, that the standards be further amended so that:

1. The specific "recipe" listing of permitted sweeteners be deleted and provision made for the use of "safe and suitable" optional ingredients in this class. The provision for the use of safe and suitable ingredients, as defined in § 10.1 (d) (21 CFR 10.1(d)), published in the FEDERAL REGISTER of May 15, 1974 (39 FR 17304), is considered by the Commissioner to be in the interest of consumers. It will permit manufacturers to adopt new advances in food technology to meet consumer demands, without requiring manufacturers to petition to amend the standards each time a safe ingredient is found to be suitable for use and without reducing the protection of the consumer.

2. All optional ingredients used shall be declared. This proposal recognizes the consumers' desire to have available the listing of ingredients on the labels of their foods. It is also in keeping with the general agreement among industry, consumers, and the Food and Drug Administration that there should be no difference in labeling ingredients in standardized and nonstandardized foods.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended, 70 Stat. 919, 72 Stat. 948, 21 U.S.C. 341, 371) and in accordance with authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 27 by revising §§ 27.101 and 27.102, incorporating the CRA's proposal, to read as follows:

§ 27.101 Frozen concentrate for lemonade; identity; label statement of optional ingredients.

(a) Frozen concentrate for lemonade is the frozen food prepared from one or both of the lemon juice ingredients specified in paragraph (b) of this section together with one or any mixture of safe and suitable nutritive carbohydrate sweeteners. The product contains not less than 48.0 percent by weight of soluble solids taken as the sucrose value determined by refractometer and corrected for acidity as given in "Refractometric Determination of Soluble Solids in Citrus Juices," by Stevens and Baier, Industrial and Engineering Chemistry, Analytical Edition, volume 11, page 447 (1939). When the product is diluted according to directions for making lemonade which shall appear on the label, the acidity of

V40169 APR 9 75 XUM

the lemonade, calculated as anhydrous citric acid, shall be not less than 0.70 gram per 100 milliliters, and the soluble solids, measured as described for the concentrate, shall be not less than 10.5 percent by weight.

(b) The lemon juice ingredients referred to in paragraph (a) of this section are:

(1) Lemon juice or frozen lemon juice or a mixture of these.

(2) Concentrated lemon juice or frozen concentrated lemon juice or a mixture of these.

For the purposes of this section, lemon juice is the undiluted juice expressed from mature lemons of an acid variety; and concentrated lemon juice is lemon juice from which part of the water has been removed. In the preparation of the lemon juice ingredients, the lemon oil content may be adjusted by the addition of lemon oil or concentrated lemon oil in accordance with good manufacturing practice, and the lemon pulp in the juice as expressed may be left in the juice or may be separated. Lemon pulp that has been separated, which may have been preserved by freezing, may be added in preparing frozen concentrate for lemonade, provided that the amount of pulp added does not raise the proportion of pulp in the finished food to a level in excess of that which would be present by using lemon juice ingredients from which pulp has not been separated. The lemon juice ingredients may be treated by heat, either before or after the other ingredients are added, to reduce the enzymatic activity and the number of viable microorganisms.

(c) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

§ 27.102 Frozen concentrate for colored lemonade; identity; label statement of optional ingredients.

(a) Frozen concentrate for colored lemonade conforms to the definition and standard of identity prescribed for frozen concentrate for lemonade by § 27.101, except that it is colored with a safe and suitable fruit juice, vegetable juice, or any such juice in concentrated form, or with any other color additive ingredient suitable for use in food, including artificial coloring, used in conformity with regulations established pursuant to section 706 of the Federal Food, Drug, and Cosmetic Act.

(b) The name of the food is "Frozen concentrate for _____ lemonade," the blank being filled in with the word describing the color: for example, "Frozen concentrate for pink lemonade."

(c) Each of the optional ingredients specified in paragraph (a) of this section shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

Interested persons may, on or before May 9, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 1, 1975.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

Office of Education

[45 CFR Part 156]

ASSISTANCE TO STATES FOR STATE EQUALIZATION PLANS

Notice of Proposed Rulemaking

Pursuant to the authority contained in section 842, Part D, Title VIII of the Education Amendments of 1974 (20 U.S.C. 246), Pub. L. 93-380 (enacted August 21, 1974), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45 of the Code of Federal Regulations by adding a new Part 156 to read as set forth below.

1. *Program purpose.* Section 842, Part D, Title VIII of Pub. L. 93-380 authorizes funds to provide planning monies to States desiring to plan for equalization of State and local school finance programs. Such plans must be consistent with the provisions of the Fourteenth Amendment, and have as their primary purpose achievement of equality of opportunity for all children enrolled in schools in the State's local educational agencies.

2. *Statutory procedural requirements.* To assist States in developing such plans, the Commissioner has developed the guidelines proposed below generally defining the possible methods of attaining the principles which must be common to all State plans. A copy of the proposed guidelines is being transmitted to the Speaker of the House of Representatives and the President of the Senate in accordance with section 842(a)(2) of the Act.

3. *Definitions.* Under section 156.3 definitions are proposed for "Administration", "Development", and "State Plan".

4. *Eligible Applicant.* Under section 156.4 of the proposed rule, the State educational agency will be considered the eligible applicant unless the State law provides that another State agency or instrumentality may apply.

5. *Application for Reimbursement.* Section 156.5 sets forth the proposed basic conditions applying to an application for reimbursement for purposes of the Act. These include: (a) plan eligibility requirements, (b) submission requirements, (c) allowable reimbursement schedules, (d) rejection of guidelines requirements, and (e) State government coordination requirements. More particularly, a State plan must meet the statutory requirements of purpose and must be in accord with the guidelines in proposed Part B, unless the latter are specifically rejected for good reasons set forth in the submission. Proposed as well as adopted plans will be considered for reimbursement.

6. *Entitlement.* Section 156.6 would establish a procedure for calculating State entitlements and for calculating ratable reductions in State entitlements when appropriated funds are insufficient to pay full entitlement.

7. *State Plan Requirements.* Section 156.7 sets forth a cut-off date of July 1, 1977 for State plan submission and limits each State to one plan for reimbursement under the provisions of the Act.

8. *Review and Disposition of Applications.* Section 156.8 describes the proposed Commissioner's review procedures and the applicant's appeal procedures.

9. *Equity Guidelines.* Sections 156.10 through 156.17 establish 10 criteria under 7 headings which are proposed as the guidelines for defining the principles contained in the law. These criteria address the subjects of (a) program adequacy, (b) cost variations, (c) program comprehensiveness, (d) equalization of financial ability, (e) tax support, (f) educational and financial decisions, and (g) plan evaluation. Though a State plan may reject any of these guidelines, the underlying principles stated in the law may not be rejected.

10. *Citations of Legal Authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a) a citation of the regulations has been placed in parentheses on the line following the text of the section. On occasion, a citation appears at the end of a sub-division that appears in that section above the citation. When the citation appears only at the end of the section, it applies to the entire section.

11. *Opportunity for Public Comment.* Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulations to Program Officer, U.S. Office of Education, Room 3010 Regional Office Building 3, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: Thomas L. Johns.

Comments received in response to this notice will be available for public inspection at the above office on week days from 8:30 a.m. to 4 p.m. All relevant materials received on or before June 9, 1975 will be considered.

Dated: March 28, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: April 4, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

PART 156—ASSISTANCE TO STATES FOR STATE EQUALIZATION PLANS

AUTHORITY: Sec. 842, Part D, Title VIII, Education Amendments of 1974 (20 U.S.C. 246), Pub. L. 93-380.

Subpart A—General

§ 156.1 Purpose and scope.

The purpose of the regulations in this part is to implement the provisions of section 842 of the Education Amendments of 1974 which provides for reimbursement for the development or administration of a State plan for a program of financial assistance to local educational agencies which is consistent with standards which may be required by the fourteenth amendment to the Constitution, and the primary purpose of which is to achieve equality of educational opportunity for all children in attendance at the schools of the local educational agencies of the State.

(20 U.S.C. 246)

§ 156.2 Applicability of General Provisions Regulations.

Assistance provided under this part is subject to applicable provisions contained in Subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters), except for the following:

(a) § 100a.16 (Project Description);

(b) § 100a.19 (Cooperative Agreements);

(c) § 100a.26 (Review of Applications); and

(d) § 100a.27 (Disposition of Applications).

(20 U.S.C. 246)

§ 156.3 Definitions.

As used in this part:

(a) "Act" means the Education Amendments of 1974, Pub. L. 93-380.

(b) "Administration" means any action deemed necessary to implement a State Plan, but does not mean any action taken after such implementation in the normal course of operating the State program of financial assistance to local educational agencies in conjunction with such plan. Implementation may include action necessary to the installation of the plan such as: (1) the design and installation of data systems required for the implementation of the plan, (2) the gathering, processing, and analysis of such data, (3) inservice training, (4) obtaining advice and comment regarding plan implementation, and (5) evaluation of the plan.

(c) "Development" means any action which is deemed necessary to formulate a State program of financial assistance to local educational agencies. Development may include such actions as: (1) planning and designing such studies, (2) carrying out such studies, and (3) dissemination and public hearings and generally those activities associated with plan adoption.

(d) "State plan" means a plan submitted by a State pursuant to section 842 of Pub. L. 93-380 and the regulations in this part in order to establish eligibility to receive Federal reimbursement for the development or administration of such plan. The State plan shall be a detailed description of the State's policies, program, and operating procedures relating to the State's program of financial assistance to local educational agencies in that State. The plan may be, but is not limited to those policies, programs, and operating procedures which have been enacted into law.

(20 U.S.C. 246)

§ 156.4 Eligible applicants.

(a) An application under this part shall be submitted by the State educational agency or such other agency or instrumentality of the State designated or created under State law as the eligible applicant for the purposes of Section 842 of the Act.

(b) The State plan and any amendment thereto shall include as an attachment of certificate by the State's Attorney General, or other official designated in accordance with State law to advise the State on legal matters, to the effect that the agency or instrumentality submitting the application for reimbursement under this part is the agency or instrumentality which has the authority under State law to submit the State plan for the purposes of section 842 of the Act.

(c) Prior to the submission to the Commissioner of any State plan as part of an application under this part, the State agency shall afford the Governor of such State an opportunity to comment on the relationship of such State plan to comprehensive and other State plans and programs. The Governor shall be afforded a period of not less than 45 days in which to make such comments, or, if the Governor makes no comments, a statement to that effect shall be attached to such plan when the same is submitted to the Commissioner.

(20 U.S.C. 246(a)(1); OMB Circular No. A-95)

§ 156.5 Application for reimbursement.

(a) Application for reimbursement under this part shall be made in accordance with the applicable provisions of subparts B and C of part 100a of this chapter.

(20 U.S.C. 246)

(b) Applications for reimbursement under this part and section 842 of the Act for costs incurred or to be incurred in the development or administration of the State plan shall be submitted to the Commissioner. Applications for reimbursement may be submitted for plans developed prior to or subsequent to the effective date of section 842 of the Act or for a plan the State proposes to develop. If reimbursement is desired for a plan which has been developed, then the plan as developed shall be submitted to the Commissioner. If reimbursement is desired for a plan the State proposes to develop, then the State shall submit a proposal to develop a plan. The proposal shall set forth the goals, objectives, and scope of the plan to be developed and describe how such plan will address the major questions of school finance equity as considered in this part and section 842 of the Act.

(20 U.S.C. 246; Cong. Record, daily edition, May 20, 1974, S. 8505)

(c) An application for reimbursement must be submitted no later than 90 days following submission of the plan or the proposal to develop a plan.

(d) An application for reimbursement shall set forth a detailed account of costs incurred or a schedule of reimbursements for costs to be incurred. In the latter case, reimbursements shall not be made more often than monthly).

(20 U.S.C. 246)

(e) If a State plan rejects, or is intended to reject, any of the guidelines developed pursuant to section 842(a)(3) of the Act and as set forth in subpart B of this part, then the applicant shall set forth the reasons for each rejection. Such statements in support thereof shall justify any rejection of these guidelines on a substantive basis and shall give detailed reasons therefor.

(20 U.S.C. 246(b); Sen. Report No. 93-763, at p. 104 (1974))

(f) An application for reimbursement shall describe the manner in which the applicant coordinated and involved, or proposes to coordinate and involve, appropriate State agencies or branches of State government in the development or administration of the plan.

(20 U.S.C. 246)

§ 156.6 Entitlement.

(a) The entitlement of each State shall be determined on the basis of a straight-line formula such that the entitlement of the most populous State shall be $1,000,000, the entitlement of the least populous State shall be $100,000, and the entitlement of each other State shall fall between these amounts based on the ratio of that State's population to the population of the Nation as a whole.

(b) In the event that the funds appropriated for this section are insufficient to meet the entitlement as calculated above, then the above procedure shall be used to recalculate the entitlements with the exception that the entitlement of the most populous State shall be reduced and the entitlement of each other State shall be recalculated based on this revised limit. Subject to the provisions of section 842(c)(1) of

V40169 APR 9 75 XUM

the Act, the entitlement of the most populous State shall be reduced to a level so that the sum of the recalculated entitlements for all States equals the appropriated amount.

(20 U.S.C. 246(c)(1))

§ 156.7 State plan requirements.

(a) A State plan shall be submitted to the Commissioner not later than July 1, 1977, to be eligible for cost reimbursement under section 842.

(b) Only one plan may be submitted by a State for reimbursement under the provisions of this Act.

(20 U.S.C. 246(a)(1))

§ 156.8 Review and disposition of applications.

(a) Upon receipt of an application for reimbursement under this part, the Commissioner will review such application for conformity with the regulations and guidelines set forth under this part and the provisions of section 842 of the Act. In reviewing any such application, the Commissioner shall have the discretion to obtain the review of a panel of experts. The Commissioner may also consult with the applicant at any time concerning the sufficiency of the application.

(b) After reviewing the application, the Commissioner will determine whether the applicant may be reimbursed and if so, the costs allowable for such reimbursement, and will notify the applicant in writing of such determination.

(c) If an adverse determination as to the application is made by the Commissioner, the applicant may request a meeting with the Commissioner within 30 days of notice of such determination to discuss the application.

(20 U.S.C. 246)

Subpart B—Equity Guidelines

§ 156.10 Eligibility of plans.

The Commissioner will, in determining the eligibility of plans for reimbursement submitted under the provisions of section 842 of the Act, apply the guidelines set forth in § 156.11–17. While a State plan may reject any of these guidelines, a State plan cannot in substantial part reject the principles set forth in section 842(a)(3) of the Act.

(20 U.S.C. 246; Sen. Rpt. No. 93–763 at p. 103 (1974))

§ 156.11 Adequate educational programs.

The financial assistance plan shall be designed to ensure the provision of adequate educational programs, supportive services, and facilities for every pupil in the State.

(20 U.S.C. 246)

§ 156.12 Cost variations.

In determining the relative financial need of local educational agencies, the financial assistance plan,

(a) shall be designed to identify those pupils with varying and greater educational needs and take these needs into account in amounts provided and expended for appropriate educational programs, supportive services, and facilities; and

(b) shall take into account any variations among such local agencies in the costs of providing equivalent educational programs, supportive services, and facilities which might be associated with such factors as sparsity or density of population, cost of resources and socio-economic characteristics of the population of the local educational agencies.

(20 U.S.C. 246)

§ 156.13 Comprehensiveness of program.

The financial assistance plan shall be designed to include all necessary and required program, supportive service, and facility costs when appropriate such as: (1) costs for the regular educational programs, special education programs, vocational education programs, educationally disadvantaged pupil programs, and bilingual education programs; (2) costs of guidance and counseling, and transportation; and (3) costs for capital outlay and debt service.

(20 U.S.C. 246)

§ 156.14 Equalizing financial ability.

The financial assistance plan shall be designed to ensure that the quality of the educational programs, supportive services, and facilities provided to a pupil within that State is not the result of the wealth of the local educational agency in which the pupil attends school. If the financial assistance plan is designed to share the educational costs between the State and its local educational agencies,

(a) the plan shall justify and set forth an equitable measure of the relative financial abilities of local educational agencies; and

(b) the plan shall provide assurances that the State and local educational agencies will apply procedures which will ensure uniformity in the masurement of wealth against which taxes for education are levied.

(20 U.S.C. 246)

§ 156.15 Tax support.

The financial assistance plan shall be financed by a tax system which is equitably based on the relative ability of taxpayers to pay taxes.

(20 U.S.C. 246)

§ 156.16 Educational and financial decisions.

The financial assistance plan shall be designed so as not to discourage citizen interest and participation in the educational decision-making process and to encourage such interest and participation to the extent possible.

(20 U.S.C. 246)

§ 156.17 Evaluation.

The financial assistance plan shall be designed to provide systems and procedures for evaluating the degree to which the plan is achieving its stated objectives including, but not limited to, such objectives as equality of educational opportunity and taxpayer equity.

(20 U.S.C. 246)

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-GL-15]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to alter a transition area in the State of Minnesota.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before May 9, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

By military regulation military training operations are now confined to controlled airspace. Therefore, areas presently used cannot be made available for military use until controlled airspace is designated in these areas. One of these areas is northeast of Bemidji, Minnesota. It is proposed to designate controlled airspace with a 1200-foot floor by adding this area to the present area designated under the State of Minnesota.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (40 FR 441), the following transition area is amended to read:

MINNESOTA

That airspace extending upward from 1200 feet above the surface within the boundary of the State of Minnesota south of parallel 46°30' and that area bounded on the north by the Canadian boundary, on the east by Victor Airway 161, on the south by Victor Airway 430, on the west by Victor Airway 82 excluding the portion which overlies the Bemidji, Baudette, International Falls and Grand Rapids, Minnesota transition areas.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on March 19, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[FR Doc.75-9161 Filed 4-8-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75GL-13]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at West Union, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before May 9, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Alexander Salamon Airport, West Union, Ohio. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at West Union, Ohio.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (40 FR 441), the following transition area is added:

WEST UNION, OHIO

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Alexander Salamon Airport (Latitude 38°51'06" N., Longitude 83°34'00" W.); and within 3 miles either side of the 049° bearing from the airport extending from the 6-mile radius to 8 miles northeast of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on March 18, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[FR Doc.75-9160 Filed 4-8-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-WA-3]

VOR FEDERAL AIRWAYS

Proposed Establishment

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate two VOR Federal Airways as follows:

1. From International Falls, Minn., to the Dryden, Ontario, Canada, NDB.

2. From International Falls, Minn., to the Atikokan, Ontario, Canada, NDB.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill. 60018. All communications received on or before May 9, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Canadian Ministry of Transport plans to provide for IFR operations at the Fort Frances, Ontario, Municipal Airport which is located approximately 5 miles north of the International Falls, Minn., VORTAC. The proposed airways would provide numbered route identifiers for the United States portion of the airways which would be used by flights operating from Fort Frances or International Falls to Dryden or Atikokan.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 3, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-9159 Filed 4-8-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-RM-9]

VOR FEDERAL AIRWAY

Proposed Revocation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke VOR Federal Airway No. 148 between Denver, Colo., and Kiowa, Colo.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colo. 80207. All communications received on or before May 9, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would revoke V-148 between Denver, Colo., and Kiowa, Colo. Traffic surveys disclosed this route segment is rarely requested or utilized, therefore, there is no longer a need for this portion of V-148. Revocation of this airway segment would also reduce chart clutter.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 3, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 584]

[No. 75-303]

SAVINGS AND LOAN HOLDING COMPANIES

Proposed Amendment Relating to Transactions With Affiliates

APRIL 2, 1975.

The following summary of the amendment proposed by this resolution is included for the reader's convenience and is subject to the full description in the preamble and the specific provisions in the regulations.

1. *Present Regulation*—None.

2. *Proposed Regulation*—Will prohibit insured institutions from authorizing or permitting the opening or increasing of accounts therein in any office where securities of an affiliate are sold or offered for sale.

3. *Reasons for Proposed Change*—To avoid confusion of insured savings account transactions with transactions relating to investment in securities of an insured institution's affiliate.

The Federal Home Loan Bank Board considers it desirable to propose an amendment to § 584.3(a) of the regulations for Savings and Loan Holding Companies (12 CFR 584.3(a)) for the purpose of preventing confusion of transactions relating to investment in an insured institution with transactions relating to investment in securities of an uninsured affiliate of such an institution. Present regulations do not prohibit an insured institution from authorizing or permitting the opening or increasing of accounts in such institution in offices where securities of an affiliate are sold or offered for sale, although savings account transactions under such circumstances could result in confusion by potential savers of such transactions with transactions relating to investment in such an affiliate.

Under the proposal, § 584.3(a) would be revised to redesignate as paragraph 7 the present paragraph 6 thereof and add thereto a new paragraph 6 prohibiting an insured institution from authorizing or permitting the opening or increasing of accounts in such institution in any office where securities of an affiliate of such institution are sold or offered for sale.

Accordingly, the Board hereby proposes to amend § 584.3(a) to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552, by May 12, 1975, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

Section 584.3 is amended by revising the introductory text, by redesignating present paragraph (a) (6) as (a) (7), and by adding a new (a) (6) as follows:

§ 584.3 Transactions with affiliates.

(a) *Prohibited transactions.* No subsidiary insured institution of a savings and loan holding company shall:

* * * * *

(6) authorize or permit the opening or increasing of accounts in such institution in any office where securities of an affiliate are sold or offered for sale; or

* * * * *

(Sec. 408, 48 Stat. 1256, as amended; Sec. 408, 48 Stat. 1261, as added by 73 Stat. 691, as amended; 12 U.S.C. 1725, 1730a. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-11326, File No. S7-510]

CERTAIN MANIPULATIVE PRACTICES IN PUBLIC OFFERINGS

Supplemental Notice of Proposed Rulemaking

The Commission on April 2, 1975 announced for public comment revised proposed Rules 10b–20 and 10b–21 [1] and revised proposed amendments to Rules 17a–3(a)(6) and 17a–3(a)(7) [2] under the Securities Exchange Act of 1934 (the "Act"). Rules 10b–20 and 10b–21 would be adopted pursuant to sections 10(b) and 23(a) [3] of the Act; the amendments to Rules 17a–3(a)(6) and 17a–3(a)(7) would be adopted pursuant to sections 17(a) [4] and 23(a) of the Act. Rules 10b–20 and 10b–21 and the amendments to Rules 17a–3(a)(6) and 17a–3(a)(7) were first proposed in Securities Exchange Act Release No. 10636 (Feb. 11, 1974) and published in the FEDERAL REGISTER at 39 FR 7806 (Feb. 28, 1974).

Rules 10b–20 and 10b–21 relate to certain practices which were brought to the Commission's attention, in part, as a result of an investigation by the Commission's staff. Proposed Rule 10b–20 would prohibit underwriters and dealers participating in a distribution from requiring a purchaser, in order to receive an allocation of securities from the underwriter or dealer, to pay consideration in addition to the amount indicated in the prospectus or to perform any other act such as purchasing an additional security in an unrelated offering (so-called "tie-in" arrangements). Proposed Rule 10b–21 would impose certain limitations on purchases to cover short sales where such short sales were effected prior to the commencement of an offering involving securities of the same class.

A detailed explanation of the purpose and intendment of proposed Rules 10b–20 and 10b–21 may be found in Securities Exchange Act Release No. 10636 (39 FR 7806). Interested persons should refer to that release for a more complete understanding of the practices which the proposed rules address.

After receiving numerous comments on proposed Rules 10b–20 and 10b–21, the Commission has determined to modify the provisions of those proposed rules in several important respects and to republish the proposed rules for comment. The following is a synopsis of the proposed changes.

Proposed Rule 10b–20. Rule 10b–20 is intended to be a comprehensive prohibition against the described fraudulent conduct. As modified, proposed Rule 10b–20 would prohibit any person, directly or indirectly, in connection with a public offering of securities made pursuant to a registration statement under the Securities Act of 1933 or a notification on Form 1–A under such Act,[5] from requiring any purchaser of the offered securities to perform any act other than paying for the securities purchased (with certain exceptions), such as purchasing any other security in an unrelated offering or paying any consideration in addition to that indicated in the applicable prospectus or offering circular.

The Commission realizes that historical investment patterns may exist between a broker-dealer and an investor and that certain investors may desire to purchase all new issues or many new issues offered by an underwriter or broker-dealer. Proposed Rule 10b–20 is not intended to interfere with such relationships; rather, it is aimed at requirements initiated by the underwriter or broker-dealer participating in an offering which are imposed upon a customer as a condition of participation in any particular offering.

[1] 17 CFR 240.10b–20 and 240.10b–21.

[2] 17 CFR 240.17a–3(a)(6) and 240.17a–3(a)(7).

[3] 15 U.S.C. 78j(b) and 78w(a).

[4] 15 U.S.C. 78q(a)

[5] 17 CFR 230.90.

As originally proposed, Rule 10b–20 was applicable to any "offering of securities" so long as the jurisdictional means were utilized. The revised proposal is limited specifically to certain offerings, namely an offering of securities covered by a registration statement filed under the Securities Act of 1933 or an offering of securities covered by a notification on Form 1–A under such Act.

Paragraph (a)(1) of proposed Rule 10b–20 has been modified expressly to permit unit offerings, i.e., offerings of more than one security pursuant to the same registration statement or notification on Form 1–A.

Paragraph (b) has been modified by the addition of a new exemption (contained in paragraph (b)(1) thereof) which specifically exempts requirements which are imposed on purchasers who are underwriters or dealers participating in an offering if such requirements are imposed pursuant to the terms of a written agreement between the issuer and any underwriter, or among underwriters, or among underwriters and dealers, and if the agreement is for the purpose of effecting an underwritten offering and includes terms that are usual and customary to such agreements.

Proposed Rule 10b–21. Proposed Rule 10b–21 is designed to prevent manipulative short selling practices in connection with underwritten public offerings of securities of the same class as outstanding securities. Manipulative opportunities exist in such offerings because the outstanding securities can be sold short prior to the commencement of the offering with the expectation that such selling activity will lower the price of the offered security and enable the short seller to cover at a depressed price.

The coverage of proposed Rule 10b–21 has been modified in several respects. The rule has been limited to underwritten offerings of equity securities for cash covered by a registration statement under the Securities Act of 1933 or notification on Form 1–A under such Act. The first proviso of the rule as originally proposed (which would have prohibited the giving of an indication of interest to purchase a security in certain offerings if a short sale of a security of the same class had been made) has been eliminated. The rule has been redrafted to prohibit only certain covering purchases.

The revised rule would prohibit a covering purchase in connection with a short sale if the short sale was made within a ten-day period before the commencement of an offering covered by a registration statement or a notification on Form 1–A and if the covering purchase would be made from an underwriter or other dealer participating in the distribution.[6] In addition, if the short sale was made within five days before the commencement of the offering, the rule would prohibit covering purchases of securities of the same class as those covered by a registration statement or a notification on Form 1–A within a five day period after the commencement of an offering or before the termination of the offering, whichever is earlier. The applicable prohibition would extend to a short sale of a security of the same class as the offered security and the purchase, within the specified period, of a security convertible into or exchangeable for a security of the same class as the security offered.

The term "completion" of the offering has been deleted from the proposed rule and replaced by a reference to the date of termination of stabilizing and of trading restrictions on underwriters participating in the offering. In addition, the term "effective date" with respect to a registered offering used in the rule as originally proposed has been replaced by the term "commencement" of such registered offering in view of the fact that these dates do not necessarily coincide.

A new paragraph (b), which provides an exemption for certain transactions, has been added to proposed Rule 10b–21. An exemption for short sales of a security would be available for both a market maker who submits bid and ask quotations as to such security in an interdealer quotation system at specified prices on each of at least twelve business days within the thirty calendar days preceding the commencement of the offering, with no more than four business days in succession without a two-way quotation, and market makers who submit both bid and ask quotations in an interdealer quotation system at specified prices on ten consecutive business days preceding commencement of the offering. Any broker-dealer taking advantage of this exemption, however, could not accumulate a short position by the close of any day during the ten-day period preceding the commencement of the offering in excess of two percent of the number of shares proposed as of that day to be publicly offered.

Finally, the revised proposed rule contains a new paragraph (c) which defines the term "arbitrage" for purposes of the rule.

Rule 17a–3. The amendments to Rule 17a–3 (the Commission's broker-dealer recordkeeping rule) would require that broker-dealer memoranda of sale orders for over-the-counter securities be marked as "long" or "short." Rule 10a–1 under the Act currently imposes certain requirements as to "long" and "short" marking for sale orders of exchange-traded securities. The proposed amendment to Rule 17a–3(a)(6) would cover brokerage sales orders and the amendment to Rule 17a–3(a)(7) would cover principal transactions with customers. These proposed amendments to section 17 rules have been changed to delete the requirement as to transactions for a broker-dealer's own account with other broker-dealers.

Commission Action: The Securities and Exchange Commission has determined that, because the revisions to proposed § 240.10b–20 and § 240.10b–21 under Part 240 of Chapter II of Title 17 of the Code of Federal Regulations are significant, those rules should be republished for public comment. The proposed amendments to § 240.17a–3(a)(6) and § 240.17a–3(a)(7) are being republished so that proposed §§ 240.10b–20 and 240.10b–21 may be reconsidered in the context of those companion proposals. This proposed rulemaking is taken pursuant to 15 U.S.C. 78j(b), 78q(a), and 78w(a) and submitted in satisfaction of 5 U.S.C. 553(b). Interested persons should address their written comments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Comments should refer to File No. S7–510 and should be received by the Commission no later than May 2, 1975. All such communications will be available for public inspection.

The text of the proposed rules, proposed amendments, and rules follows:

§ 240.10b–20 Prohibition against certain acts in connection with securities offerings.

(a) It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10(b) of the Act for any underwriter, prospective underwriter, issuer, broker, dealer or other person who has agreed to participate or is participating, directly or indirectly, in an offering of securities covered by a registration statement filed under the Securities Act of 1933 or covered by a notification on Form 1–A under such Act, by the use of any means or instrumentality of interstate commerce, or the mails, or of any facility of any national securities exchange, directly or indirectly (1) to require a purchaser of such security to purchase any other security being or proposed to be offered or sold by any such person, other than a security covered by the same registration statement or notification on Form 1–A, or to make payment of any consideration for such security in addition to that indicated in the registration statement or notification on Form 1–A and offering circular covering the offer and sale of such security, or

[6] In addition to the questions under section 10(b), the Commission has previously announced its view that short sales made prior to the effective date of a pending registration statement covering securities of the same class of the same issuer as those sold short, which short sales are covered with shares obtained in the offering, raise serious questions under section 5 of the Securities Act of 1933 (15 U.S.C. 77e). See Securities Exchange Act Release No. 9824 (Oct. 16, 1972) published in the FEDERAL REGISTER at 37 FR 22706 (Oct. 25, 1972). Therefore, any person intending to purchase securities in any registered offering should be on notice that selling short the same class of securities prior to an announced offering and covering with such offered securities may be subject to the registration requirements of section 5 of the Securities Act, as well as other applicable statutes and rules.

[7] 17 CFR 240.10a–1.

[8] 15 U.S.C. 78q.

V40169 APR 9 75 XUM

(2) to require a purchaser of such security, to perform any act, engage in any conduct, effect any other transaction or refrain from any of the foregoing, other than as indicated in the registration statement or notification on Form 1–A and offering circular.

(b) This rule shall not prohibit (1) normal and customary requirements with respect to such matters as time of payment or maintenance of an account; or requirements pursuant to the terms of written agreement between an issuer and any underwriter or among underwriters and dealers entered into for the purpose of effecting an underwritten offering, or

(2) any transaction or transactions or other conduct if the Commission, upon written request or upon its own motion, exempts such transaction, transactions or conduct either unconditionally or on specified terms and conditions as not constituting a manipulative or deceptive device or contrivance comprehended within the purpose of this rule.

§ 240.10b–21 Prohibition against certain short selling.

(a) It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10(b) of the Act for any person who effects one or more short sales of equity securities of the same class as securities distributed for cash pursuant to a registration statement filed under the Securities Act of 1933 or pursuant to a notification on Form 1–A under such Act, directly or indirectly, (1) to cover such short sale or sales with securities purchased from an underwriter or broker or dealer participating in the distribution, if such short sale or sales took place between the tenth business day before the commencement of such distribution and the commencement of such distribution, or

(2) to cover such short sales with any securities purchased on or before the earlier of (i) the fifth business day after the commencement of such distribution or (ii) the date of termination of the stabilization arrangements and trading restrictions for participants in such distribution, if such short sale or sales took place between the fifth business day before the commencement of such distribution and the commencement of such distribution.

(b) The provisions of this rule shall not apply to (1) any bona fide foreign or domestic arbitrage transaction, or

(2) any broker or dealer which is registered with a national securities exchange as a specialist in the class of securities being distributed or which is registered as an odd-lot dealer with respect to such securities, or which submits both bid and asked quotations as to such securities in an inter-dealer quotation system on ten consecutive business days preceding the commencement of such distribution or on each of at least twelve days within the thirty calendar days prior to commencement of the distribution, with no more than four business days in succession without such a two way quotation: *Provided, however,* That any such broker or dealer who is not a specialist or odd-lot dealer shall not accumulate a short position at the close of any day during the ten business days preceding the commencement of such offering in excess of two percent of the number of shares proposed on such date to be publicly offered.

(c) The term "arbitrage," as used in paragraph (b) of this section, shall mean (1) a purchase or sale of a security in one market together with an offsetting sale or purchase of the same security in a different market at as nearly the same time as practicable, for the purpose of taking advantage of a current difference in prices in the two markets, or

(2) a purchase of a security which is, without restriction other than the payment of money, exchangeable or convertible within 90 calendar days following the date of its purchase into a second security together with an offsetting sale at or about the same time of such second security for the purpose of taking advantage of a current difference in the price of the two securities.

(d) This rule shall not prohibit any transaction or transactions if the Commission, upon written request or upon its own motion, exempts such transaction or transactions either unconditionally or on specified terms and conditions as not constituting a manipulative or deceptive device or contrivance comprehended within the purpose of this rule.

§ 240.17a–3 Records to be made by certain exchange members, brokers and dealers.

(a) • • •

(6) A memorandum of each brokerage order, and of any other instruction, given or received for the purchase or sale of securities, whether executed or unexecuted. Such memorandum shall show the terms and conditions of the order or instructions and of any modification or cancellation thereof, the account for which entered, the time of entry, whether, if a sale, the order is entered "long" or "short," the price at which executed and, to the extent feasible, the time of execution or cancellation. An order shall not be marked "long" unless (A) the security to be delivered after sale is carried in the account for which the sale is to be effected, or (B) the broker-dealer is informed that the seller owns the security ordered to be sold and, as soon as is possible without undue inconvenience or expense, will deliver the security owned to the account for which the sale is to be effected. Orders entered pursuant to the exercise of discretionary power by such member, broker, or dealer, or any employee thereof, shall be so designated. The term "instruction" shall be deemed to include instructions between partners and employees of a member, broker, or dealer. The term "time of entry" shall be deemed to mean the time when such member, broker, or dealer transmits the order or instruction for execution or, if it is not so transmitted, the time when it is received.

(7) A memorandum of each purchase and sale of securities for the account of such member, broker, or dealer showing the price and, to the extent feasible, the time of execution; and, in addition, where such purchase or sale is with a customer other than a broker or dealer, a memorandum of each order received, showing the time of receipt, the terms and conditions of the order, the account in which it was entered and whether, if a sale, such sale was effected "long" or "short." A sale shall not be marked "long" unless (A) the security to be delivered after sale is carried in the account for which the sale is to be effected, or (B) the broker-dealer is informed that the seller owns the security ordered to be sold and, as soon as is possible without undue inconvenience or expense, will deliver the security owned to the account for which the sale is to be effected.

(Sec. 10(b), 48 Stat. 891 (15 U.S.C. 78j(b)); Sec. 17(a), 48 Stat. 897, as amended 48 Stat. 1379, as amended 52 Stat. 1076 (15 U.S.C. 78q(a)); Sec. 23(a), 48 Stat. 901, as amended 49 Stat. 704, 1379 (15 U.S.C. 78w(a)).

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Effective Dates of Awards

The Administrator of Veterans' Affairs proposes regulatory changes to clarify provisions relating to effective dates of awards of pension, compensation and dependency and indemnity compensation.

Section 3010(e) of Title 38, United States Code, provides that an award of dependency and indemnity compensation to a child will be effective the first day of the month in which entitlement arose if a claim is filed within 1 year from that date. When there is a widow or widower entitled to dependency and indemnity compensation a child in the case under age 18 has no entitlement independent of the widow's or widower's entitlement. However, when the child attains age 18 and is attending school or is helpless by reason of physical or mental disability, the child becomes entitled to dependency and indemnity compensation independently of the widow's or widower's entitlement. In such cases payment of dependency and indemnity compensation is awarded the child effective the first day of the month in which age 18 is attained if a claim for the benefit is timely filed.

Section 3,667 of Part 3, Title 38, Code of Federal Regulations, pertaining to benefits payable because of school attendance currently provides that pension, compensation or dependency and

indemnity compensation may be paid from a child's 18th birthday if the child was at that time pursuing an approved course of instruction and a claim is timely filed. Benefits based on a course begun after the child's 18th birthday may be paid from the commencement of the course if a claim is timely filed. In order to conform with 38 U.S.C. 3010(e) it is proposed to amend § 3.667 to provide that dependency and indemnity compensation will be payable from the first day of the month in which the child attains age 18 or commences a course of instruction, whichever is applicable. The provisions for paying pension or compensation from the 18th birthday or commencement of a course are retained. In addition, instructions as to actions to be taken when notice of school attendance is not timely received have been deleted. This nonregulatory material is incorporated in other publications.

Editorial changes, unrelated to the substantive changes in § 3.667, are made in § 3.666 designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, their dependents and beneficiaries.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (271A); Veterans Administration, 810 Vermont Avenue, NW, Washington, DC 20420. All relevant material received before May 9, 1975 will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and, the above room number.

Notice is given that it is proposed to make these changes effective the date of final approval.

1. In § 3.666, paragraphs (a) (2), (b) (1) and (2), (c) and (d) are revised to read as follows:

§ 3.666 Penal institutions.

• • • • • •

(a) *Disability pension.* Payment may be made to the wife, husband, child or children of a veteran disqualified under this section:

• • • • • •

(2) If the annual income of the wife (husband) or child is within the statutory limitations which would be applicable to the payment of death pension.

• • • • • •

(b) *Death pension.* Payment may be made to a child or children where a widow (widower) or child is disqualified under this section:

(1) If widow (widower) is disqualified, to child or children at the rate of death pension payable if there were no such widow or widower; or

(2) If a child is disqualified, to a widow (widower) or other child or children at the rate of death pension payable if there were no such child, and

• • • • • •

(c) *Resumption of pension upon release from incarceration.* Pension will be resumed as of the day of release if notice (which constitutes an informal claim) is received within 1 year following release; otherwise resumption will be effective the date of receipt of such notice. Where an award or increased award was made to any other payee based upon the disqualification of the veteran, widow (widower), or child while in prison, such award will be reduced or discontinued as of date of last payment and pension will be resumed to the released prisoner at a rate which will be the difference, if any, between the total pension payable and the amount which was paid to the other person or persons through the date of last payment and thereafter the full rate.

(d) *Veteran entitled to compensation.* If an imprisoned veteran is entitled to a lesser rate of disability compensation such compensation will be awarded as of the 61st day of imprisonment in lieu of the pension he (she) was receiving provided:

(1) He (she) is single, or

(2) He (she) is married, from the date the veteran requests that the Veterans Administration take such action.

2. In § 3.667, paragraphs (a) and (b) are revised to read as follows:

§ 3.667 School attendance.

(a) *General.* (1) Pension or compensation may be paid from a child's 18th birthday based upon school attendance if the child was at that time pursuing a course of instruction at an approved school and a claim for such benefits is filed within 1 year from the child's 18th birthday.

(2) Pension or compensation based upon a course which was begun after a child's 18th birthday may be paid from the commencement of the course if a claim is filed within 1 year from that date.

(3) An initial award of dependency and indemnity compensation to a child in it's own right may be paid from the first day of the month in which the child attains age 18 if the child was pursuing a course of instruction at an approved school on the 18th birthday and a claim for such benefits is filed within 1 year from the child's 18th birthday.

(38 U.S.C. 3010(e))

(4) An initial award of dependency and indemnity compensation to a child in it's own right based upon a course which was begun after the child's 18th birthday may be paid from the first day of the month in which the course commenced if a claim is filed within 1 year from that date.

(38 U.S.C. 3010(e))

(5) Where a child was receiving dependency and indemnity compensation in it's own right prior to age 18, payments may be continued from the 18th birthday if the child was then attending an approved course of instruction and evidence of such school attendance is received within 1 year from the 18th birthday. Where the child was receiving dependency and indemnity compensation in it's own right prior to age 18 and was not attending school on the 18th birthday but commences an approved course of instruction after the 18th birthday, payments may be resumed from the commencing date of the course if evidence of such school attendance is filed within 1 year from that date.

(b) *Vacation periods.* A child is considered to be in school during a vacation or other holiday period if he or she was attending school at the end of the preceding school term and resumes attendance, either in the same or a different approved school, at the beginning of the next term. If an award has been made covering a vacation period, and the child fails to commence or resume school attendance, benefits will be terminated the date of last payment or the last day of the month preceding the date of failure to pursue the course, whichever is the earlier.

• • • • • •

Approved: April 3, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN, *Deputy Administrator.*

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

NATIONAL ADVISORY COMMITTEE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION

Notice of Establishment

Notice is hereby given that the charter of the National Advisory Committee for Juvenile Justice and Delinquency Prevention has been filed with the Committee on the Judiciary, U.S. Senate; Committee on the Judiciary, U.S. House of Representatives; Committee on Education and Labor, U.S. House of Representatives; Committee Management Secretariat, Office of Management and Budget; and the Library of Congress pursuant to section 9(c) of the Federal Advisory Committee Act (Pub. L. 92–463).

The National Advisory Committee for Juvenile Justice and Delinquency Prevention and two subcommittees were statutorily established by sections 207(a) and 208 (d) and (e) of the Juvenile Justice and Delinquency Prevention Act of 1974 (Pub. L. 93–415). The two subcommittees are: (1) an Advisory Committee for the National Institute for Juvenile Justice and Delinquency Prevention; and (2) an Advisory Committee to the LEAA Administrator on Standards for the Administration of Juvenile Justice. The Advisory Committee and subcommittees will report to and receive support from the Office of Juvenile Justice and Delinquency Prevention, Law Enforcement Assistance Administration (LEAA), U.S. Department of Justice.

The responsibilities of the Advisory Committee will be advisory in nature. In particular the Advisory Committee will: (1) advise the LEAA Administrator in the development of policy, objectives and priorities for all Federal juvenile delinquency programs; (2) advise the LEAA Administrator in the development of reports to the President and Congress which analyze and evaluate Federal juvenile delinquency programs, expenditures made, results achieved, plans developed, and problems encountered in operating and coordinating such programs; (3) advise the LEAA Administrator in the development of an annual comprehensive plan for Federal juvenile delinquency programs, with particular emphasis on the prevention of juvenile delinquency and the development of programs and services which will encourage increased diversion of youth from the juvenile justice system; and (4) advise the Assistant Administrator for the Office of Juvenile Justice and Delinquency Prevention, LEAA, in the development of plans for the implementation of the Juvenile Justice and Delinquency Prevention Act of 1974.

The regular membership of the Advisory Committee shall be appointed by the President from persons who by virtue of their training or experience have special knowledge concerning the prevention and treatment of juvenile delinquency or the administration of juvenile justice, such as juvenile or family court judges, probation, correctional, or law enforcement personnel; and representatives of private voluntary organizations and community-based programs. The President shall designate the Chairman. A majority of the members of the Advisory Committee, including the Chairman, shall not be full-time employees of Federal, state or local governments. At least seven members shall not have attained twenty-six years of age on the date of their appointment.

Members of the Coordinating Council on Juvenile Justice and Delinquency Prevention shall be ex-officio members of the Advisory Committee.

The Advisory Committee will meet at the call of the Chairman, but not less than four times a year, and will remain in existence for the duration of Pub. L. 93–415, or until September 30, 1977.

Notice is also hereby given that Mr. Frederick P. Nader, Acting Assistant Administrator, Juvenile Justice and Delinquency Prevention Operations Task Group, Law Enforcement Assistance Administration, U.S. Department of Justice, Room 742, 633 Indiana Avenue, NW, Washington, D.C. 20531, is designated as the authorized employee of the Federal Government to perform the duties outlined in section 10(e) of the Federal Advisory Committee Act for this Advisory Committee, and that Mr. John M. Greacen, Deputy Director, National Institute for Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, U.S. Department of Justice, 633 Indiana Avenue, NW, Washington, D.C. 20531, is designated as the authorized employee of the Federal Government to perform the duties outlined in section 10(e) of the Federal Advisory Committee Act for the subcommittees of this Advisory Committee.

Notice is hereby given that the first meeting of the National Advisory Committee for Juvenile Justice and Delinquency Prevention will be held on April 25, 1975, at the Ramada Inn, 1900 North Fort Myer Drive, Arlington, Virginia. The meeting will convene at 9:30 a.m., adjourn for lunch at 12 p.m., and resume at 1:30 p.m.

The meeting will be open to the public.

For further information, please contact Mr. Frederick P. Nader, Acting Assistant Administrator, Juvenile Justice and Delinquency Prevention, Law Enforcement Assistance Administration, 633 Indiana Avenue, NW, Washington, D.C. 20531.

RICHARD W. VELDE,
Administrator.

DEPARTMENT OF AGRICULTURE

Forest Service

EUREKA-GRAVE CREEK PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a final environmental statement for Eureka-Grave Creek Planning Unit, Forest Service Report Number USDA–FS–FES (Adm) R1–74–16.

The environmental statement concerns a proposed implementation of a revised multiple use plan for the Eureka-Grave Creek Planning Unit, Fortine Ranger District, Kootenai National Forest, and located in Lincoln County, Montana. The proposal affects approximately 93,585 acres of National Forest lands which have been stratified into eight management situations or units with similar resource implications.

This final environmental statement was filed with CEQ on April 2, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. and Independence Ave., SW
Washington, DC 20250

USDA, Forest Service
Northern Region
Federal Building
Missoula, MT 59801

Supervisor's Office
Kootenai National Forests
418 Mineral Avenue
Libby, MT 59923

USDA, Forest Service
Fortine Ranger District
Murphy Lake Ranger Station
Fortine, MT 59918

A limited number of single copies are available upon request to Forest Supervisor, Floyd J. Marita, Kootenai National Forest, Box AS, Libby, MT 59923.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Dated: April 2, 1975.

Proposed Loan Guarantee

Under the authority of Pub. L. 93–32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320–22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974 (Vol. 39 No. 180, pages 33228–33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $4,600,000 to Tri-County Telephone Company, Incorporated, Ashland, Alabama. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. W. C. Roach, President, Tri-County Telephone Company, Incorporated, Box 368, Ashland, Alabama 36251.

To assure consideration, proposals must be submitted on or before May 9, 1975 to Mr. W. C. Roach. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as the Tri-County Telephone Company, Incorporated and REA deem appropriate. Prospective lenders are advised that financing for this project is available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320–22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 3d day of April 1975.

DAVID A. HAMIL,
Administrator, Rural Electrification Administration.

Soil Conservation Service

CHUQUATONCHEE CREEK WATERSHED, MISS.

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared at this time for the Chuquatonchee Creek Watershed, Chickasaw, Clay, Monroe and Pontotoc Counties, Mississippi.

The environmental assessment of this federal action indicates that the planned action will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the planned action. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement covered by the negative declaration include conservation land treatment supplemented by five floodwater retarding structures and 2.0 miles of outlet channel works below three of these structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
Room 590, Milner Building
Jackson, Mississippi 39205

Single copy requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until April 24, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: March 28, 1975.

JOSEPH W. HAAS,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

CYPRESS CREEK WATERSHED PROJECT, ALA. AND TENN.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Cypress Creek Watershed Project, Alabama and Tennessee, USDA–SCS–EIS–WS–(ADM)–75–2–(D)–AL.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned

V40169APR975XUM

works of improvement include conservation land treatment, supplemented by 19 floodwater retarding structures and 14.4 miles of channel work in a flood plain which is about 76 percent crop and pastureland and 22 percent forested. The channel work will involve about 6.3 miles of bedload removal, about 7.5 miles of clearing and shaping, and 0.6 mile of new channel excavation. The work will be on natural streams with perennial flow except for about 0.4 mile of work which will be on a previously modified perennial channel.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 138 South Gay Street, Auburn, Alabama 36830

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to W. B. Lingle, State Conservationist, Soil Conservation Service, 138 South Gay Street, Auburn, Alabama 36830.

Comments must be received on or before June 1, 1975, in order to be considered in the preparation of the final environmental impact statement.

LONG BRANCH CREEK WATERSHED, OKLA.

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the remaining work in the Long Branch Creek Watershed project, Noble and Payne Counties, Oklahoma.

The environmental assessment of this Federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the action. As a result of these findings, Mr. Hampton Burns, State Conservationist, Soil Conservation Service, USDA Building, Farm Road and Brumley Street, Stillwater, Oklahoma, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining works of improvement include conservation land treatment and three single-purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service,
USDA Building,
Farm Road and Brumley Street,
Stillwater, Oklahoma 74074.

Single copy requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until April 24, 1975.

LOWER TIPPAH RIVER SUBWATERSHED, MISS.

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973, and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Lower Tippah River Subwatershed, Benton, Marshall and Tippah Counties, Mississippi.

The environmental assessment of this federal action indicates that the planned action will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the planned action. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration consist of installation of two floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA,
Room 590, Milner Building.
Jackson, Mississippi 39205.

Requests for copies of the negative declaration should be addressed to the above address.

No administrative action on implementation of the proposal will be taken until April 24, 1975.

ROGUE RIVER WATERSHED PROJECT, MICH.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Rogue River Watershed Project, USDA-SCS-EIS-WE-(ADM)-75-2-(D)-MI.

The environmental impact statement concerns a plan for watershed protection, streambank protection, flood prevention, and improved drainage on agricultural land. The planned works of improvement include 11.6 miles of channel work, 1 pumping station, 1.7 miles of streambank protection, conservation land treatment measures on 10,528 acres, soil surveys on 57,600 acres and 21 miles of flood plain delineation. The channel work involves deepening and widening 10.5 miles of previously modified channel and 1.1 miles of which no channel exists. The channel work and pumping station will provide flood prevention and drainage to 3,324 acres of intensively managed organic soils. Of the 10.5 miles of work proposed on existing channels, 6.8 miles have perennial flow, and the rest have intermitten flow.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service,
1405 South Harrison Road,
East Lansing, Michigan 48823

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Arthur H. Cratty, State Conservationist, Soil Conservation Service, 1405 South Harrison Road, East Lansing, Michigan 48823.

Comments must be received on or before May 27, 1975, in order to be considered in the preparation of the final environmental impact statement.

RUSH CREEK WATERSHED PROJECT, OHIO

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for planned structures numbered III-C, IV-A, IV-C, IV-E, and VII-C in the Rush Creek Watershed Project, Fairfield, Perry, and Hocking Counties, Ohio.

The environmental assessment of this federal action indicates that the given part of this project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with this part of the project. As a result of these findings, Mr. Robert E. Quilliam, State Conservationist, Soil Conservation Service, USDA, 311 Old Federal Building, Columbus, Ohio 43215, has determined that the preparation and review of an environmental impact statement is not needed for the five subject structures.

This project concerns a plan for watershed protection, flood prevention, municipal water supply, reduction of soil erosion, and development of water based recreation. The subject planned works of improvement include five single purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA,
311 Old Federal Building,
Third and State Streets,
Columbus, Ohio 43215

Requests for single copies of the Negative Declaration are available at the above address.

No administrative action on implementation of the proposal will be taken until April 24, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: April 1, 1975.

Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-9247 Filed 4-8-75;8:45 am]

SANDY CREEK WATERSHED PROJECT, TEX.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Sandy Creek Watershed Project, Jasper County, Texas, USDA-SCS-EIS-WS-(ADM)-75-3-(D)-TX.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by six single purpose floodwater retarding structures and 2.9 miles of floodway. The floodway involves clearing of dense underbrush and small trees in the flood plain adjacent to an existing modified channel. The existing channel is a perennial stream. The floodway will be constructed through the urban area of Jasper. The floodwater retarding structures and floodway will provide protection from the 100-year flood event to developed properties within the city of Jasper, Texas, as well as forested and agricultural flood-prone areas.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Edward E. Thomas, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas 76501.

Comments must be received on or before June 2, 1975, in order to be considered in the preparation of the final environmental impact statement.

SECOND BROAD RIVER WATERSHED PROJECT, N.C.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Second Broad River Watershed Project, McDowell, Rutherford, and Cleveland Counties, North Carolina, USDA-SCS-EIS-WS-(ADM)-74-5-(D)-NC.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment, supplemented by 10 floodwater retarding structures, two multi-purpose reservoirs with capacity for flood prevention and recreation. The recreational development and multi-purpose reservoirs will provide 152,000 visitor-days of recreation annually.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA
P.O. Box 27307
Raleigh, North Carolina 27611

Copies of the draft environmental impact statement have been sent for comment to the various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Jesse L. Hicks, State Conservationist, Soil Conservation Service, P.O. Box 27307, Raleigh, North Carolina 27611.

Comments must be received on or before May 27, 1975, in order to be considered in the preparation of the final environmental impact statement.

UPPER BAYOU WATERSHED, OKLA.

Notice of Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for that portion of the Upper Bayou Watershed project described below, in Carter and Love Counties, Oklahoma.

V40169 APR 9 75 XUM

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the action. As a result of these findings, Mr. Hampton Burns, State Conservationist, Soil Conservation Service, USDA Building, Farm Road and Brumley Street, Stillwater, Oklahoma, has determined that the preparation and review of an environmental impact statement is not needed for this action.

The action concerns a plan for watershed protection, flood prevention, municipal water supply, and recreation. The planned works of improvement include conservation land treatment, one multiple-purpose structure with recreation facilities, and 21 single-purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service
USDA Building
Farm Road and Brumley Street
Stillwater, Oklahoma 74074

Requests for single copies of the negative declaration are available at the above address.

No administrative action on implementation of the proposal will be taken until April 24, 1975.

UPPER NEW RIVER WATERSHED PROJECT, S.C.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19450, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Upper New River Watershed Project, Beaufort and Jasper Counties, South Carolina, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-SC.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment supplemented by channel work. The channel work will involve 21 miles of new channel construction and seven miles of enlargement to provide improved water management in a flatland watershed that is nine percent agricultural cropland, six percent grassland, 80 percent forest land and five percent in miscellaneous uses. The seven miles of work proposed on existing streams involve streams with intermittent flow. The balance of channel work is completely new channels where none existed before.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 601 Federal Building, 901 Sumter Street, Columbia, South Carolina 29201

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to G. E. Huey, State Conservationist, Soil Conservation Service, 601 Federal Building, 901 Sumter Street, Columbia, South Carolina 29201.

Comments must be received on or before June 6, 1975, in order to be considered in the preparation of the final environmental impact statement.

[FR Doc.75-9253 Filed 4-8-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON BYRON/BRAIDWOOD STATIONS

Meeting

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Byron/Braidwood Stations will hold a meeting on April 24, 1975 at the O'Hare American Inn, 2157 Touhy Ave., Des Plaines, Illinois. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of Commonwealth Edison Company for permits to construct two nuclear power plants at each of the sites. The Byron site is located in Ogle County about 17 miles from Rockford, Illinois. The Braidwood site is in Will County about 50 miles southwest of Chicago, Illinois.

The agenda for the subject meeting shall be as follows:

Thursday, April 24, 1975, 9 a.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the NRC staff and Commonwealth Edison Company and will hold discussions with these groups pertinent to its review of the application of Commonwealth Edison Company for permits to construct the Byron Station, Units 1 and 2 and Braidwood Station, Units 1 and 2.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and Applicant for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction and operation, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than April 17, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Such comments shall be based upon the Preliminary Safety Analysis Report for these facilities and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555; at the Byron Public Library, Third and Washington Streets, Byron, Illinois 61010; and at the Wilmington Township Public Library, 201 South Kankakee Street, Wilmington, Illinois 60481.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on April 24, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on April 22, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1374) between 8:15 a.m. and 5 p.m., e.d.t.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information, other than plant security information, is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW, Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after April 23, 1975 at the Nuclear Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555 and within approximately nine days at the Byron Public Library, Third and Washington Streets, Byron, Illinois 61010 and the Wilmington Township Public Library, 201 South Kankakee Street, Wilmington, Illinois 60481. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002 (telephone: 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555 after July 24, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: April 3, 1975.

JOHN C. HOYLE,
Acting Advisory Committee, Management Officer.

[FR Doc.75-9169 Filed 4-8-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Perry Nuclear Power Plant, Units 1 and 2, will hold a meeting on April 25, 1975, at the O'Hare American Inn, 2157 Touhy Ave., Des Plaines, Illinois. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of the Cleveland Electric Illuminating Company for a permit to construct this nuclear power plant. The facility will be located on Lake Erie in Lake County, Ohio. The plant is approximately 35 miles northeast of Cleveland and 21 miles southwest of Ashtabula, Ohio.

The agenda for the subject meeting shall be as follows:

Friday, April 25, 1975—9 a.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the NRC Staff and the Cleveland Electric Illuminating Company and will hold discussions with these groups pertinent to its review of the application of the Cleveland Electric Illuminating Company for a permit to construct the Perry Nuclear Power Plant, Units 1 and 2.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and Applicant for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction, and operation, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than April 18, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, Nuclear Regulatory Commission, Washington, D.C., 20555. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room 1717 H Street NW., Washington, D.C. 20555 and at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee between the hours of 10:30 a.m. and 11:30 a.m. on April 25, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been canceled or rescheduled and in regard to the Chairman's ruling on requests for opportunity to present oral statements, and the time alloted, can be obtained by a prepaid telephone call on April 23, 1975 to the Office of the Executive Secretary of the Committee (telephone 202-634-1371) between 8:15 a.m. and 5 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information, other than plant security information, is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW, Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after April 29, 1975 at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555 and within approximately nine days at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

V40169 APR 9 75 XUM

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 after July 28, 1975. Copies may be obtained upon payment of appropriate charges.

JOHN C. HOYLE,
Acting Advisory Committee Management Officer.

Date: April 3, 1975.

[FR Doc.75-9170 Filed 4-8-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON PILGRIM STATION, UNIT 2

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Pilgrim Station, Unit 2, will hold a meeting on April 25, 1975 in the Gateway Ballroom of the Howard Johnson Motor Lodge, 300 Washington Street, Newton, Mass. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of Boston Edison Company, et al., for a permit to construct this nuclear power plant. The facility will be located on the western shore of Cape Cod Bay in the Town of Plymouth. The site is about 4.4 miles east-southeast of the center of the Town of Plymouth, and about 38 miles southeast of Boston, Mass.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Friday, April 25, 1975, 9 a.m. until conclusion of business. The Subcommittee will hear presentations by representatives of the NRC Staff and Boston Edison Company and will hold discussions with these groups pertinent to its review of the application of Boston Edison Company, et al., for a permit to construct the Pilgrim Station, Unit 2.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and Applicant for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction, and operation, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Committee operations, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than April 15, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW, Washington, D.C. 20555 and at the Plymouth Public Library, North Street, Plymouth, Mass.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 9:30 a.m. and 10:30 a.m. on April 25, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on April 24, 1975 to the Office of the Executive Secretary of the Committee (telephone 202-634-1393) between 8:15 a.m. and 5 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H St., NW, Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after April 28, 1975 at the Nuclear Regulatory Commission's Public Document Room 1717 H Street, NW, Washington, D.C. 20555 and within approximately nine days at the Plymouth Public Library, North Street, Plymouth, Mass. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555 after July 25, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: April 3, 1975.

JOHN C. HOYLE,
Acting Advisory Committee Management Officer.

[License No. 06-12458-03E]

BENRUS CORP.

Issuance of Byproduct Material License

Please take notice that the Nuclear Regulatory Commission, has pursuant to § 32.22 of 10 CFR Part 32, issued License No. 06-12458-03E to Benrus Corporation, Benrus Center, Ridgefield, Connecticut 06877, which authorizes the distribution of Model No. 3085 watches to persons exempt from the requirements for a license pursuant to § 30.19 of 10 CFR Part 30.

1. The tritium-filled tubes are designed to illuminate a liquid crystal display which displays time digitally, permitting reading of the time in low ambient light.

2. The byproduct material incorporated in the device is tritium gas in sealed tubes manufactured by Brandhurst, Ltd. (Model RT/20-10/20). The nominal activity contained in each watch is 90 millicuries, but the maximum activity is 108 millicuries.

3. The stainless steel back of each watch case will be stamped with the name of the manufacturer ("Benrus") and the byproduct material ("H") contained in the watch.

A copy of the license and license application containing additional information are available for public inspection at the Commission's Public Document Room at 1717 "H" Street, NW, Washington, D.C.

Dated at Bethesda, Maryland, March 31, 1975.

For the Nuclear Regulatory Commission.

CECIL R. BUCHANAN,
Acting Chief, Materials Branch, Division of Materials and Fuel Cycle Facility Licensing.

[FR Doc.75-9175 Filed 4-8-75;8:45 am]

[Docket No. 50-155]

CONSUMERS POWER COMPANY (BIG ROCK POINT PLANT)

Extension of Time for Submittal of Evaluations for Emergency Core Cooling Systems

In accordance with 10 CFR 50.46(a)(2)(iii), a notice was published in the FEDERAL REGISTER on March 14, 1975 (40 FR 11950), that the Nuclear Regulatory Commission had received and was considering a request dated February 18, 1975, from the Consumers Power Company (the licensee) for an extension of time until July 26, 1975, for the submittal of an evaluation consistent with the requirements of Appendix K to 10 CFR Part 50 Acceptance Criteria for Emergency Core Cooling Systems (ECCS) for the Big Rock Point Nuclear Power Plant (the facility) located in Charlevoix County, Michigan. The notice invited the submission of views and comments by any interested persons on the licensee's request. Comments have not been received.

An extension of time for submittal of the required evaluation has previously been granted from August 5, 1974, until March 31, 1975, by the Commission in its "Determination With Respect to Variance From the Interim Acceptance Criteria and Extension in Submitting Evaluations From The Acceptance Criteria For Emergency Core Cooling Systems (10 CFR 50.46(a)(2)(iii))," dated August 5, 1974, 39 FR 29403 (the August 5, 1974 Determination). The basis for a further extension of time is the unavailability of the necessary evaluation models for the Big Rock Point Plant from the General Electric Company (GE) before June 28, 1975. The Consumers Power Company (CPCo) staff would review and submit the evaluations after receiving the input evaluations from the fuel suppliers on or before July 26, 1975.

Since the original extension of time was granted, substantial modifications and revisions have been required as a result of the NRC's review of the GE evaluation models for current plants. Also the review of the EXXON evaluation made for more recent plants is still in the final stages. The additional time involved in these modifications to the basic vendor evaluation models has delayed the development of appropriate modifications required to provide models and analyses suitable to Big Rock Point which is a plant of older design. GE must prepare a separate blowdown evaluation model which is tailored to the Big Rock Point reactor, which will involve additional time beyond the time estimated for submission of the evaluation models for their newer designs. GE and EXXON must prepare separate fuel heatup transient models following the acceptance of the GE blowdown model.

Based upon the NRC staff's experience and its knowledge of the effort on the part of GE and EXXON to develop adequate evaluation models and analyses for a number of different reactor facilities, the NRC staff believes that the delay by GE and EXXON in completing the necessary evaluation models and submitting the required analyses constitutes good cause for extension of the current March 31, 1975, deadline for the submittal of the information required by 10 CFR 50.46.

The licensee's schedule for completing the necessary analyses and reviews set forth in its request is reasonable. However, a number of subsidiary portions of the evaluation, which make up the required evaluation, are to be completed by GE and EXXON and provided to CPCo before the scheduled submittal of the complete evaluation to the Commission. In order to assure that the Commission is provided relevant information at the earliest possible opportunity, CPCo shall submit to the Commission copies of the various portions of the evaluation as soon as they are received from GE and EXXON.

In connection with the August 5, 1974 Determination, the Commission concluded that there was reasonable assurance that the variance from the requirements of the Commission's Interim Acceptance Criteria (IAC) concerning the schedule for installation of certain equipment, would not adversely affect the health and safety of the public. With respect to the extension of time to file an evaluation of ECCS performance in accordance with 10 CFR 50.46, from August 5, 1974 until March 31, 1975, granted by the August 5, 1974 Determination, the licensee was required to submit a preliminary evaluation which provided a conservative assessment of ECCS performance under the Commission's Acceptance Criteria. Upon submission the licensee was required to operate in conformity with such preliminary evaluation and all limitations previously imposed. A preliminary evaluation was submitted by CPCo on October 31, 1974. In a subsequent letter dated January 3, 1975, the licensee provided a more conservative GE preliminary evaluation which lowered the Maximum Average Planar Linear Heat Generating Rate (MAPLHGR) limits. In this submittal, Technical Specifications were proposed and implemented which bring reactor operation into conformance with the more conservative GE preliminary analysis. The considerations set forth in the August 5, 1974 Determination with respect to the variance from the IAC, are still applicable and provide the bases for continued facility operation. The additional requirements and operating restrictions which will continue for the period of time until the required evaluation is submitted and evaluated by the NRC staff, provide further assurance that the extension granted by this Determination will not adversely affect the health and safety of the public.

In addition, the reactor will be shutdown during a significant portion of the requested extension time to evaluate and to test certain ECCS instruments which are to function in a Loss of Coolant Accident (LOCA) environment. The facility was shutdown by the licensee on January 16, 1975, and will remain shutdown until the end of April 1975 or later. The plant will not resume operations until after such test results and analyses are reviewed by the NRC staff.

Accordingly, based on the foregoing considerations and for good cause shown, the Commission hereby grants an extension of time to the licensee which extends the date for compliance with the requirements of 10 CFR 50.46(a)(2)(ii) to July 26, 1975, provided that the licensee shall submit to the Commission copies of the completed analyses from GE and EXXON immediately upon his receipt of these analyses, and that the results of the ECCS instrument test and analyses presently underway at the facility shall be submitted to and reviewed and approved by the staff prior to startup from the present shutdown.

Dated at Bethesda, Maryland, this 1st day of April 1975.

For the Nuclear Regulatory Commission.

EDSON G. CASE,
Acting Director, Office of Nuclear Reactor Regulation.

[License No. 29-15775-02E]

FIRETEK CORP.

Issuance of Byproduct Material License

Please take notice that the Nuclear Regulatory Commission has, pursuant to § 32.26 of 10 CFR Part 32, issued License No. 29-15775-02E to Firetek Corporation, 541 Lexington Avenue, Clifton, New Jersey 07011 which authorizes the distribution of fire detectors to persons exempt from the requirements for a license pursuant to § 30.20 of 10 CFR 30.

1. The devices are designed to detect incipient fire by responding to the products of combustion produced by thermal decomposition of building materials or contents prior to the appearance of visible smoke, flame, or appreciable heat. The sensitive element of each detector is an ionization chamber in which air flowing into the chamber is made conductive by alpha particles emitted by americium-241.

2. The byproduct material incorporated in each detector is americium in the oxide form contained in foils manufactured by Nuclear Radiation Development, Inc. (Model A001). The maximum activity contained in the unit is 9.5 microcuries.

3. Each exempt unit will have a label identifying the manufacturer, Firetek Corporation, and the byproduct material, americium-241, contained in the unit and recommending that the unit be returned to Firetek Corporation, for disposal.

A copy of the license and license application containing additional information are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C.

Dated at Bethesda, Maryland, March 31, 1975.

HOUSTON LIGHTING & POWER CO. (SOUTH TEXAS PROJECT, UNITS 1 AND 2)

Evidentiary Hearing on Environmental Issues

Take notice, an evidentiary hearing on environmental issues (and issues which are safety related to site suitability) will be held at the Oasis Motel Ballroom, on Highway 35, west of Bay City, Texas. The hearing will commence at 1 p.m., local time, on Tuesday, April 22, 1975.

The public is invited to attend the hearing. Limited appearance statements will be accepted at the commencement of the proceeding. Oral presentations will be limited to five (5) minutes each but written statements without limitation on length may be inserted in the record.

It is so ordered.

Dated at Bethesda, Maryland this 3rd day of April 1975.

ATOMIC SAFETY AND LICENSING BOARD,
ELIZABETH S. BOWERS,
Chairman.

[FR Doc.75-9176 Filed 4-8-75;8:45 am]

[Docket No. 50-133]

PACIFIC GAS AND ELECTRIC CO. (HUMBOLDT BAY POWER PLANT UNIT 3)

For Extension of Time for Submittal of Evaluations for Emergency Core Cooling Systems

In accordance with 10 CFR 50.46(a)(2)(iii), a notice was published in the FEDERAL REGISTER on March 14, 1975 (40 FR 11950), that the Nuclear Regulatory Commission had received and was considering a request dated February 21, 1975, from the Pacific Gas and Electric Company (the licensee) for an extension of time until July 28, 1975, for the submittal of an evaluation consistent with the requirements of Appendix K to 10 CFR Part 50 Acceptance Criteria for Emergency Core Cooling Systems (ECCS) for the Humboldt Bay Power Plant Unit 3 (Humboldt Bay). The notice invited the submission of views and comments by any interested persons on the licensee's request. Comments have not been received.

An extension of time for submittal of the required evaluation has previously been granted from August 6, 1974, until March 31, 1975, by the Commission in its "Determination of Request for Extension of Time for Submittal of Evaluations Required by Acceptance Criteria for Emergency Core Cooling Systems (10 CFR 50.46(a)(2)(iii)), dated August 5, 1974 (39 FR 29034). The basis for a further extension of time is the unavailability of the necessary blowdown evaluation from the NSSS vendor of Humboldt Bay Unit 3 before May 23, 1975, and the fuel heatup evaluation from the fuel suppliers (General Electric and EXXON before June 28, 1975. The Pacific Gas and Electric staff would review and submit the evaluations after receiving the input evaluations from the fuel suppliers on or before July 28, 1975.

Since the original extension of time was granted, substantial modifications and revisions of the evaluation models have been required as a result of NRC's review of the GE models for current plants. Also the review of the EXXON evaluation made for more recent plants is still in the final stages. The additional time involved in these modifications to the basic vendor evaluation models has delayed the development of appropriate modifications required to provide models and analyses suitable to Humboldt Bay which is a plant of older design. General Electric must prepare a separate blowdown evaluation model which is tailored to the Humboldt Bay reactor, which will involve additional time beyond the time estimated for submission of the evaluation models for their newer designs. General Electric and EXXON must prepare separate fuel heatup transient models following the acceptance of the GE blowdown model.

Based upon the NRC staff's experience and its knowledge of the effort on the part of GE and EXXON to develop adequate evaluation models and analyses for a number of different reactor facilities, the NRC staff believes that the delay by GE and EXXON in completing the necessary evaluation models and submitting the required analyses constitutes good cause for extension of the current March 31, 1975, deadline for the submittal of the information required by 10 CFR 50.46.

The licensee's schedule for completing the necessary analyses and reviews set forth in its request is reasonable. However, a number of subsidiary portions of the evaluation, which make up the required evaluation, are to be completed by GE and EXXON and provided to PG&E before the scheduled submittal of the complete evaluation to the Commission. In order to assure that the Commission is provided relevant information at the earliest possible opportunity, PG&E shall submit to the Commission copies of the various portions of the evaluation as soon as they are received by PG&E from GE and EXXON.

The Commission has previously determined that the ECCS system performance would conform to the requirements of the Commission's Interim Acceptance Criteria; these requirements continue to apply to facility operation and provide reasonable assurance that the public health and safety will not be endangered. In addition, the August 5, 1974, Determination granting an extension of time to file an evaluation of ECCS performance in accordance with 10 CFR 50.46 from August 5, 1974, until March 31, 1975, required the licensee to submit a preliminary evaluation which provided a conservative assessment of ECCS performance under the Commission's Acceptance Criteria. Upon submission, the licensee was required to operate in conformity with such preliminary evaluation as well as all limitations previously imposed. The licensee submitted its preliminary analysis on December 11, 1974. The licensee also requested a reduction in authorized power level from 240 MWt to 220 MWt. This change was authorized by license Amendment No. 6 issued on December 24, 1974.

Following our review of the licensee's preliminary evaluation, an Order was issued by the Commission on December 24, 1974, restricting the maximum heat flux for the Humboldt Bay reactor and requiring further analyses of fuel densification phenomenon for the Humboldt Bay reactor fuel.

The required analyses included further evaluation of potential cladding collapse to assure that the effects of densification would not adversely affect the calculated limits on maximum heat flux required to assure conformance with the IAC. The licensee submitted its analyses of fuel densification effects on February 24, 1975. With respect to fuel densification considerations associated with ECCS performance calculations, the analyses presented in the February 24, 1975 submittal adequately assess cladding collapse and, combined with the earlier evaluations discussed in our December 24, 1974, Order, demonstrate that, with the present operating limitations including the additional limitations set forth in our December 24, 1974, Order, the facility will conform to the requirements of the IAC. Other aspects of fuel densification effects covered by the evaluations required by our December 27, 1974, Order, are still under review by the staff. These include consideration of fuel densification effects in assessing operating transients and if required, to establish proper operating limits to protect against the effects of such transients.

The next scheduled refueling outage for the Humboldt Bay reactor is June 1975. Since the facility is to be refueled prior to the scheduled completion of the required evaluation to meet the Commission's Acceptance Criteria for Emergency Core Cooling, the analysis for the Humboldt Bay Power Plant Unit 3 to be submitted by July 28, 1975, will be for the next cycle core and not the core currently operating.

Accordingly, based on the foregoing considerations and for good cause shown, the Commission hereby grants an extension of time to the licensee which extends the date for compliance with the requirements of 10 CFR 50.46(a)(2)(ii) to July 28, 1975, provided that the licensee shall submit to the Commission copies of the complete analyses from GE and EXXON immediately upon his receipt of these analyses.

Dated at Bethesda, Maryland, this 1st day of April, 1975.

For the Nuclear Regulatory Commission.

Cheryl Shawver

I wish to transport interstate two female leopards (*Panthera pardus*) and two female tigers (*Panthera tigris*) for circus work, as we have always done. You have no specific category for this, so I am including what information I think you would want to know.

These animals are at least third generation captive USA born animals, and in *no way* threaten the wildlife population. In fact, my animals will breed in the future and add to the population.

I have been a professional wild animal trainer for nine years now and earn my living in *no other* manner. If you prevent me from traveling interstate with my animals I will be unable to support myself or my animals.

We stay at our home base in California for approximately four months a year. This compound is inspected by the Federal Department of Agriculture twice a year and meets their requirements. The rest of the year we travel all over the USA with the circus, again meeting their requirements.

In the pasts years I have raised over 40 baby lions, tigers and leopards successfully, and cared for hundreds of adults. I am experienced and qualified to own and transport my animals. Demonstrating this is the fact that I am on the Board of Advisors of the Moorpark College Wild Animal program, and my animals and I give demonstrations and lectures there.

I can see no reason why you should not issue this permit for me to be able to continue by line of work with long captive animals that reflect in no manner on the wildlife population.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW, Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before May 9, 1975.

Dated: April 1, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

MARINE MAMMAL PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407).

Applicant:
Jackson Zoological Park, 2918 West Capitol Street, Jackson, Mississippi 39209.
Robert O. Wagner, Director.

OMB NO. 42-R1570

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE
FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

1. APPLICANT: (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested)

Jackson Zoological Park
2918 West Capitol Street
Jackson, Mississippi 39209, USA
Robert O. Wagner, Director

1. APPLICATION FOR (Indicate only one)
☐ IMPORT OR EXPORT LICENSE ☒ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED. To import from West Germany 1 male and 1 female POLAR BEAR, legally caught in Greenland (Denmark), legally and temporarily exported to West Germany for public display and propagation at institution mentioned in Item 5, via the Port of New Orleans, Louisiana, by ocean vessel from West Germany (see Item 12).

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☐ MR. ☐ MRS. ☐ MISS ☐ MS.
HEIGHT: WEIGHT:
DATE OF BIRTH: COLOR HAIR: COLOR EYES:
PHONE NUMBER WHERE EMPLOYED: SOCIAL SECURITY NUMBER:
OCCUPATION:

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION
The Jackson Zoological Park is a municipally operated public zoo, operated entirely by the City of Jackson, Jackson, Misaissippi. Annual public visitation is approximately 400,000.

ANY BUSINESS, AGENCY OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT
NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC. Robert O. Wagner, Director (601) 354-5211
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED: does not apply

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
Import from West Germany to USA via ocean vessel via the Port of New Orleans, Louisiana, to the Jackson Zoological Park, Jackson, Mississippi.

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☒ YES ☐ NO
(If yes, list license or permit number)
Scientific collecting, #4-SC-541-9 RENEWABLE, Effective 1-1-75 to 12-31-77

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☒ YES ☐ NO
(If yes, list jurisdictions and type of documents)
Danish Government Permit attached, the German Government has no restrictions.

9. CERTIFIED CHECK OR MONEY ORDER (if applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: previously submitted

10. DESIRED EFFECTIVE DATE: A. S. A. P.

11. DURATION NEEDED: 3 months

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 C.F.R. 13.12(a)) MUST BE ATTACHED, IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE AND TITLE: Robert O. Wagner Director — DATE: 18 February 1975

3-200 18-74 Robert O. Wagner, Director

DECEMBER 27, 1974.

DIRECTOR,
U.S. Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

DEAR SIR: Please accept this as an application to import a pair of animals as required under the Marine Mammal Act, Title 50, Part 15, Subpart D, as proposed in Volume 39, Number 38, Part 2 of the FEDERAL REGISTER on 25 February 1974. This permit is for the public display of these animals at the Jackson Zoological Park, 2918 West Capitol Street, Jackson, Mississippi 39209. The animals are one male and one female Polar Bear, *Thalarctos maritimus groenlandicus.*

THE NAME AND ADDRESS OF THE APPLICANT:

Jackson Zoological Park, City of Jackson, 2918 West Capitol Street, Jackson, Mississippi 39209, United States of America.

THE NUMBER OF SPECIMENS AND THE COMMON AND SCIENTIFIC NAMES (GENUS AND SPECIES—SUBSPECIES) OF EACH SPECIES OR SUBSPECIES OF FISH OR WILDLIFE PROPOSED TO BE IMPORTED:

One (1) pair—one (1) male and one (1) female Polar Bear, *Thalarctos maritimus groenlandicus.* Presently held in captivity in Europe.

COMPLETE STATEMENT OF THE PURPOSE OF SUCH IMPORTATION:

The pair of Polar Bears for which we seek approval of importation are currently held in captivity by Mr. L. Ruhe in Alfeld, West Germany, where they were transfered from the Copenhagen Zoological Park, Copenhagen, Denmark, which zoo had been holding these animals since their original arrival on the Danish Mainland from Greenland for cosignment to and for the account of Count Knuth at Knuthenborg, Bandolm, Denmark (who originally arranged for the importation of these animals from Greenland).

I am enclosing a copy of a letter from the Ministry for Greenland in Copenhagen, certifying that the Polar Bears were legally captured on 23 May 1973 near Kulusuk, Greenland, and certifying further that the export from Denmark is legal.

Additionally, I enclose copies of statements by Copenhagen Zoo Director, Mr. Arne S. Dyhrberg, dated 9 April 1974 and a certificate issued by Dr. Eric Eriksen, DVM, Royal Veterinary School, Copenhagen dated 20 February 1974—both German and English translations—clarifying and corroborating the exact history and status of these animals.

You are aware that these documents were previously submitted to you upon application for import by the Columbia Zoological Park, Columbia, South Carolina. Further, you are aware that the Director at Columbia Zoological Park withdrew said application, for reasons of insufficient space.

We wish to import these animals in the hope that they will reproduce for us in our present enclosure. We feel our facility is more than adequate and our staff is most anxious to attempt captive propagation of these magnificent specimens.

Because the animals are already long-term captives and are now available to us, and are not now in a potentially reproductive situation, it would appear they are qualified for export to our facility. This would in no way cause a hardship on the extant wild populations of Polar Bears.

FEBRUARY 17, 1975.

Mr. A. EUGENE HESTER,
Special Agent in Charge—Permits, U.S. Department of the Interior, Fish and Wildlife Service, Washington, D.C. 20240.

DEAR MR. HESTER: Enclosed please find the completed condensed application form you requested.

Please note you had previously received the requested check, as well as all necessary information. Apparently, I had failed to discuss the feeding of the bears while in transit. Therefore, I would appreciate you adding this information:

The Polar Bear will be fed an appropriate diet twice daily. Obviously, they will be fed in the crates and any remaining food would of course be flushed out. They will be watered as often as necessary. There will be either a qualified zookeeper to accompany these animals or an especially taught crew member who will be properly instructed in these matters in charge of the bears during their transit.

You must be aware that these animals are the same two animals that were requested by the Columbia Zoological Park which park later withdrew their request. You have available to you a *complete* file on these animals which even includes photographs of the crates to be used.

I trust this is sufficient information for you to proceed with the necessary publication in the FEDERAL REGISTER.

Best regards,

ROBERT O. WAGNER.

IF LIVE FISH OR WILDLIFE ARE INVOLVED, INDICATE A DETAILED DESCRIPTION OF THE TYPE, SIZE AND CONSTRUCTION OF THE CONTAINER, ARRANGEMENTS FOR FEEDING, WATERING, AND OTHERWISE CARING FOR THE FISH OR WILDLIFE IN TRANSIT, AND ARRANGEMENTS FOR CARING FOR THE FISH OR WILDLIFE ON ENTRY INTO THE UNITED STATES:

The pair of Polar Bears in question shall be transported directly by ship to a USA East Coast or Gulf Port area to be selected later, depending upon available steamship service at the time the permit is granted. They will depart to the USA from Hamburg or Bremen, West Germany. They shall be contained in standard shipping crates which measure approximately 151 by 63 by 91 centimeters. The crates shall have barred fronts with vertical sliding doors to the rear. The barred end of the unit shall be equipped with a slot to enable cleaning, feeding, and watering of the animals.

Immediately upon arrival and necessary clearance at port of arrival, the bears shall be transported directly to the Jackson Zoological Park, Jackson, Mississippi by Jackson Zoological Park personnel. We intend to use a heavy duty van-type truck to facilitate this transport. F. J. Zeehandelaar, Inc. of New Rochelle, New York, through whom arrangements for the transaction of these animals will be made, has had considerable experience with sea transportation and the subsequent importation of many exotic species including Polar Bear. However, the importer of record in this case is the Jackson Zoological Park and not F. J. Zeehandelaar, Inc.

THE ADDRESS AND COMPLETE DESCRIPTION OF THE FACILITIES WHERE SUCH FISH OR WILDLIFE WILL BE KEPT:

As previously stated, the pair of Polar Bear will be housed at the Jackson Zoological Park, Jackson, Mississippi 39209, USA. The exhibit is a dry-moated enclosure and is bilevel. The dimensions of the public viewing area are 62 feet by 20 feet and 10 feet by 30 feet for the upper level. This gives the bears a total of 1,540 square feet, in addition to climbing areas, steps, large simulated boulders, etc. The entire enclosure is constructed of gunite and is complete with simulated snow-capped peaks. The moat is 14 feet wide and 18 feet deep. There is a 30 percent incline from the bears display area to where the public will be standing to view the exhibit. The public is further restrained by a 36-inch chain link fence, complete with a guard rail. This fence is situated 44 inches from the outer most wall of the enclosure. The center of the Polar Bear Exhibit is equipped with a bathing pool 18 feet long 7 feet wide and 7 feet deep.

Inside the enclosure and isolated from the public viewing area are three cubbing dens, each of which is 8 feet wide, 15 feet long, and 8 feet high.

A STATEMENT, IF APPLICABLE, OF THE APPLICANT'S QUALIFICATIONS AND PREVIOUS EXPERIENCE IN CARING FOR AND HANDLING CAPTIVE WILDLIFE

The animal collection at the Jackson Zoological Park is under the guidance of the Director, Robert O. Wagner; the Zoo Operations' Supervisor, Don D. Kitchens; and Zookeeper Supervisor, O. C. Dickens. The keeper of the bears at our facility is Sherman Johnson. Dr. James W. Vinson is the part-time Staff Veterinarian. All of these individuals have had extensive experience with exotic wildlife and including Polar Bears. Robert Wagner has been in the Zoological Park Profession for nearly twenty years and has been the Director at the Jackson Zoological Park for more than ten years. Don Kitchens has had nearly fifteen years experience with exotic wildlife, all of which was achieved at the Jackson Zoological Park. O. C. Dickens has a Bachelor of Science Degree and nearly two years of experience at the Jackson Zoological Park. Dr. James W. Vinson is a licensed practicing veterinarian and a graduate of Auburn University, and has many years experience with exotic wildlife. The Keeper, Sherman Johnson, has been working with bears and captive felines for more than fifteen years.

A COPY OF THE CONTRACT OR OTHER ARRANGEMENTS UNDER WHICH SUCH FISH OR WILDLIFE IS TO BE IMPORTED, SHOWING THE NAME AND ADDRESS OF THE SELLER OR CONSIGNOR, DATE OF CONTRACT, CONTRACT PRICE, NUMBER AND WEIGHT (IF AVAILABLE), AND DESCRIPTION OF THE ITEMS

Payment for these animals will be on an exchange basis. The Jackson Zoological Park shall furnish F. J. Zeehandelaar, Inc. several antelope born at the Jackson Zoological Park in exchange for the Polar Bears. The Polar Bears are valued at approximately $11,000.00, the pair, delivered to a USA ocean port. The antelope shall be 1.3 Sitatunga and 3.4 Nilghai or something of similar value. The exchange value of our antelope are not yet finalized and will be determined as soon as a definite date of arrival of the Polar Bears is set.

A CERTIFICATION:

I hereby certify that the foregoing information is complete and accurate, to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a Marine Mammal Permit and that any false statements herein may be subject to the criminal penalties of 18 United States Code 1001.

THE SIGNATURES OF THE APPLICANTS:

Robert O. Wagner, *Director;* Don D. Kitchens, *Zoo Operations Supervisor;* Sherman Johnson, *Keeper in charge;* James W. Vinson, *Doctor of Veterinary Medicine;* O. C. Dickens, *Zookeeper Supervisor.*

PLEASE SEE LIST OF ATTACHMENTS:

(1) Copies of a statement from the Ministry for Greenland certifying the Polar Bears were legally captured (in the Danish language and translated in English).

(2) Health Certificate from Dr. Eric Eriksen, Royal Veterinary and Agriculture University of Copenhagen (written in German and translated into English).

(3) A letter of certification from Arne S. Dyhrberg, Managing Director of the Zoo in Copenhagen, Denmark.

(4) Brochure of the Jackson Zoological Park, Jackson, Mississippi.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW, Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before May 9, 1975.

Dated: April 2, 1975.

LOREN K. PARCHER,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Fish and Wildlife Services,
Washington, D.C. 20240.

Re Additional information pertaining to 18 CFR subpart D 18.31 as required by the Department of the Interior, Marine Mammal Act, February 24, 1974, Volume 39 #38 part 2, FEDERAL REGISTER.

DEAR SIR: 1. One male and one female juvenile polar bear (Thalarctos maritimus) are presently being held in captivity at the Calgary, Alberta, Canada Zoo, for the Louisville, Kentucky Zoo. Upon permit approval by U.S.D.I. these animals will be transported to and housed at the Louisville Zoo for the purpose of propagation, education and public exhibition at a non-profit scientific institution.

The male polar bear was captive born at the Calgary Zoo in November, 1973. The female polar bear was orphaned in the wild as a cub and was rescued by the Canadian Government Wildlife Authorities. This animal was made available to all qualified Canadian Zoos through bid purchase. The Calgary Zoo obtained the animal, and now both of these animals are available via sale agreement to the Louisville Zoo pending permit approval by your agency.

Since the male bear was captive born and the female would have perished had it not been rescued as a cub, we feel that there is no detrimental effect on the wild populations pertaining to our request for receipt of these young bears.

2. One male and one female polar bear (Thalarctos maritimus), approximately sixteen (16) months of age, in apparent good condition, with an estimated body weight presently of 250 lbs. each.

3. Transportation to be implemented by appropriate size rental truck driven by persons experienced with polar bears to accompany animals the entire route from Calgary, Alberta, Canada to Louisville, Kentucky, U.S.A. The animals will be maintained, fed, watered, etc. and checked frequently enroute for proper ventilation and behavioral adjustment. Entry into the U.S.A. anticipated at Customs Port Sweetgrass, Montana.

Artificial environment to be constructed of ¾'' plywood reinforced with angle iron frame and galvanized metal lined for strength. Metal will be rolled to prevent injury. The crate will possess steel frame doors with galvanized nine gauge mesh for proper ventilation. These doors will be vertical, slide in tracks to allow for feeding, watering, feces removal and disinfecting. There will be steel water bowls secured to the floor of the crates to assure fresh clean water at all times. These crates will be custom built per individual bear depending upon the size of the animal at the time of permit approval.

The crates will allow room for animals to eat, lie, stand and move about comfortably. (Veterinary certification enclosed).

4. Does not apply.

5. Does not apply.

6. Animals will be displayed in a public, non-profit zoological institution, located in Louisville, Kentucky. They will be on display at all times with the exception of off-display reasons, such as cubbing, medication of animals, etc. Approximately 400,000 people annually will view this display with appropriate educational labeling. Lectures, tours and scientific observation and analyses to be conducted by Zoo staff and the zoological community, i.e. University of Louisville, University of Kentucky, etc.

7. The Louisville Zoological Garden is a modern, well designed zoological institution

which places special emphasis on animal propagation and attractive naturalistic exhibits. The combined experience of the Director, Assistant Director and General Curator encompasses 40 years. The Director and Assistant Director have previously been assigned at other institutions which have bred many rare and endangered species including polar bears. The institution is strongly supported by the academic community and utilized by the students of the surrounding universities. The Louisville Zoo possesses U.S. Dept. of Agriculture accreditation (#61CB) and the Zoo has never received anything less than an excellent rating with regard to animal maintenance and housing through that department's periodic inspection. I believe that this institution is fully qualified to possess the permit that we seek. We would be happy to have an official of the U.S.D.I. visit our facility for the purpose of inspection at any time.

ROBERT B. BEAN,
Director.

Coast Guard

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items if lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from February 4, 1975 to February 18, 1975 (List No. 6-75). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46 (b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

GAS MASKS, SELF-CONTAINED BREATHING APPARATUS, AND SUPPLIED-AIR RESPIRATORS, FOR MERCHANT VESSELS

Approval No. 160.011/38/0, M-S-A Ammonia Mask, Part No. 84869 having the OVAL Ammonia Canister and the Clearvue Facepiece Assembly, or Part No. 86199 having the All-Vision Facepiece Assembly, or Part No. 86200 having the All-Vision Speaking Diaphragm Assembly which may be used in conjunction with M-S-A Maskfone; Bureau of Mines Approval No. BM-14F-58; dwg. Nos. C-84869, Rev. 2 dated May 22, 1970, and B-86197, Rev. 4 dated December 7, 1970, manufactured by the Mine Safety Appliances Company, 201 North Braddock Avenue, Pittsburgh, Pennsylvania 15208, effective February 4, 1975. (It is an extension of Approval No. 160.011/38/0 dated April 7, 1970.)

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/198/1, Type SS 2801 survival capsule launching system (winch-type); approved as an alternate to a lifeboat davit for a maximum working load of 11,000 lbs. on a single fall; identified by general arrangement drawing SS 3801, revision B dated January 28, 1975, electrical system acceptable in Class I, Group D hazardous locations as defined by 46 CFR 111.80-5, approved for instaNation with Lake Shore, Inc. lifeboat winches either Model LS-111-E (Approval No. 160.015/102/2) or Model LS-111-DS (Approval No. 160.015/107/0) for use on artificial islands, fixed structures, and drilling rigs, both self-propelled semisubmersible and nonself-propelled, manufactured by Whittaker Corporation, 5159 Baltimore Drive, La Mesa, California 92041, effective February 4, 1975. (It supersedes Approval No. 160.032/198/0 dated August 23, 1974 to provide for minor design changes.)

LIFEBOATS

Approval No. 160.035/475/0, 26.25' x 8.85' x 3.6' fibrous glass reinforced plastic (FRP), totally enclosed (covered), motor-propelled lifeboat, without radio cabin or searchlight (Class 1), 44-Person capacity, identified by general arrangement dwg. No. SEL-101 Rev. 6 dated November 19, 1974, 46 CFR 160.035-13 (c) Marking, Weights: Condition "A"—7,500 pounds; Condition "B"—15,697 pounds, manufactured by Watercraft America Inc., P. O. Box 307, Mims, Florida 32754, effective February 13, 1975.

BUOYANT CUSHIONS, KAPOK, OR FIBROUS GLASS

Approval No. 160.048/11/0, group approval for rectangular and trapezoidal kapok buoyant cushions, manufactured in accordance with U.S.C.G. Specification Subpart 160.048 and UL/MD report file No. MQ 80, Type IV PFD, manufactured by Gladding Corporation, Flotation Division, P. O. Box 8277, Station A, Greenville, South Carolina 29604 formerly Style-Crafters, Inc., effective February 14, 1975. (It is an extension of Approval No. 160.048/11/0 dated May 19, 1970 and change of name of manufacturer.)

Approval No. 160.048/117/0, group approval for rectangular and trapezoidal kapok buoyant cushions, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 98, factory location: Ero Industries, Inc., 308 S. William Street, Hazlehurst, Georgia 31539, Type IV PFD, manufactured by Ero Industries, Inc., 1934 N. Washtenaw Avenue, Chicago, Illinois 60647 formerly Ero Manufacturing Company, effective February 14, 1975. (It is an extension of Approval No. 160.048/117/0 dated May 19, 1970 and change of name and address of manufacturer.)

INFLATABLE LIFE RAFTS

Approval No. 160.051/54/0, 6-person inflatable life raft; identified by general arrangement drawing SPC-MM-6002 (Rev. 7) dated June 24, 1974, and drawing list SPC-MM-6, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 13, 1975. (It supersedes Approval No. 160.051/54/0 dated January 16, 1975 to show revised drawing list.)

Approval No. 160.051/55/0, 8-person inflatable life raft; identified by general arrangement drawing SPC-MM-8002(Rev. 10) dated June 18, 1974, and drawing list SPC-MM-8, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975. (It supersedes Approval No. 160.051/55/0 dated January 16, 1975 to show revised drawing list.)

Approval No. 160.051/55/0, 8-person inflatable life raft; identified by general arrangement drawing SPC-LRC-1002 (Rev. 10) dated June 18, 1974, and drawing list SPC-MM-10, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975. (It supersedes Approval No. 160.051/56/0 dated January 16, 1975 to show revised drawing list.)

Approval No. 160.051/57/0, 15-person inflatable life raft; identified by general arrangement drawing SPC-LRC-15002(Rev. 9) dated June 17, 1974, and drawing list SPC-MM-15, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974; manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975. (It supersedes Approval No. 160.051/57/0 dated January 16, 1975 to show revised drawing list.)

Approval No. 160.051/58/0, 20-person inflatable life raft; identified by general arrangement drawing SPC-MM-20002(Rev. 9) dated June 13, 1974, and drawing list SPC-MM-20, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975. (It supersedes Approval No. 160.051/58/0 dated January 16, 1975 to show revised drawing list.)

Approval No. 160.051/59/0, 25-person inflatable life raft with "Ocean Service Equipment"; identified by general arrangement drawing SPC-MM-25002(Rev. 11) dated Jan-

V40169APR975XUM

uary 8, 1975 and drawing list SPC MM 25, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, inflation system requires two(2) aluminum cylinders as shown on Dwg. SPC-LRC-1016, revision 11 dated January 20, 1975, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975.

Approval No. 160.051/60/0, davit-launched inflatable life raft, 20-person capacity, Type 20 MC MK3; identified by drawing RFD-US-1121 (Sheets 1 and 2), revision B dated December 26, 1974 and Specification RFD-US-500, revision No. 3 dated December 27, 1974, single-point suspension raft, packed in a fabric valise, manufactured by B. F. Goodrich, Engineered Systems Company, Union, West Virginia 24983, effective February 13, 1975.

Approval No. 160.051/61/0, 25-person inflatable life raft with "Limited Service Equipment"; identified by general arrangement drawing SPC-MM-25002(Rev. 11) dated January 8, 1975 and drawing list SPC-MM 25, revised February 7, 1975, satisfies temperature-exposure inflation requirements of 46 CFR 160.051-5(e)(11) as revised in Federal Register of March 13, 1974, inflation system can use either steel or aluminum cylinders as shown on Dwg. SPC-LRC-1016, revision 11 dated January 20, 1975, manufactured by Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, effective February 18, 1975.

WORK VESTS, UNICELLULAR PLASTIC FOAM

Approval No. 160.053/31/0, unicellular plastic foam work vest as per military specification MIL-17653, U.S.C.G. Specification Subpart 160.053, drawing No.'s WVO-101, WVO-102, WVO-103 and WVO-104 dated November 20, 1974 and bill of materials dated December 16, 1974, factory location: 1415 N. Water Street, Corpus Christi, Texas, Type V PFD, manufactured by Billy Pugh Company, Inc., P.O. Box 802, Corpus Christi, Texas 78403, effective February 13, 1975.

LAUNCHING DEVICE FOR INFLATABLE LIFE RAFTS

Approval No. 160.063/1/0, Type R-50-B single-armed davit with W-50-H pedestal winch; approved for a maximum working load of 5,000 lbs. by a one-part fall; identified by general arrangement drawing D1-E-267, revision A dated January 21, 1975 and drawing lists (2), revision A dated January 21, 1975, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective February 13, 1975.

MARINE BUOYANT DEVICE

Approval No. 160.064/379/0, child medium, Model No. TDV-4, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975. (It supersedes Approval No. 160.064/379/0 dated February 26, 1973 to show change in name of distributor.)

Approval No. 160.064/380/0, adult, Model No. WDV-5, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975. (It supersedes Approval No. 160.064/380/0 dated February 26, 1973 to show change of name of distributor.)

Approval No. 160.064/381/0, adult, Model No. TDV-6, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975 (It supersedes Approval No. 160.064/381/0 dated February 26, 1973 to show change of name of distributor.)

Approval No. 160.064/382/0, adults, Model No. TDV-7, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975. (It supersedes Approval No. 160.064/382/0 dated February 26, 1973, to show change of name of distributor.)

Approval No. 160.064/382/0, adult, Model No. TDV-8, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 fer Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975. (It supersedes Approval No. 160.064/383/0 dated February 26, 1973 to show change of name of distributor.)

Approval No. 160.064/384/0, adult ladies, Model TLV-5, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist/Thompson, Crivitz, Wisconsin 54114, effective February 14, 1975. (It supersedes Approval No. 160.064/384/0 dated February 26, 1973 to show change of name of distributor.)

Approval No. 160.064/446/0, child medium, Model No. 1, vinyl dipped unicellular plastic foam "Sail 'N' Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 3, Type III PFD, manufactured by Texas Water Crafters, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Hurtsboro Oak Flooring Company, Inc., Hurtsboro, Alabama 36860, effective February 12, 1975. (It supersedes Approval No. 160.064/446/0 dated December 15, 1972 to show change in model No.)

Approval No. 160.064/447/0, adult small, Model No. 2, vinyl dipped unicellular plastic foam "Sail 'N' Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 3, Type III PFD, manufactured by Texas Water Crafters, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Hurtsboro Oak Flooring Company, Inc., Hurtsboro, Alabama 36860, effective February 12, 1975. (It supersedes Approval No. 160.064/447/0 dated December 15, 1972 to show change in model No.)

Approval No. 160.064/448/0, adult medium, Model No. 3, vinyl dipped unicellular plastic foam "Sail 'N' Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 3, Type III PFD, manufactured by Texas Water Crafters, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Hurtsboro Oak Flooring Company, Inc., Hurtsboro, Alabama 36860, effective February 12, 1975. (It supersedes Approval No. 160.064/448/0 dated December 15, 1972 to show change in model No.)

Approval No. 160.064/449/0, adult large, Model No. 4, vinyl dipped unicellular plastic foam "Sail 'N' Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 3, Type III PFD, manufactured by Texas Water Crafters, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Hurtsboro Oak Flooring Company, Inc., Hurtsboro, Alabama 36860, effective February 12, 1975. (It supersedes Approval No. 160.064/449/0 dated December 15, 1972 to show change in model No.)

Approval No. 160.064/450/0, adult X-large, Model No. 5, vinyl dipped unicellular plastic foam "Sail 'N' Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 3, Type III PFD, manufactured by Texas Water Crafters, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Hurtsboro Oak Flooring Company, Inc., Hurtsboro, Alabama 36860, effective February 12, 1975. (It supersedes Approval No. 160.064/450/0 dated December 15, 1972 to show change in model No.)

Approval No. 160.064/623/0, adult, Model No. 4156, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: Ero Industries, Inc., 308 William Street, Hazlehurst, Georgia 31539; Type II PFD, manufactured by Ero Industries, Inc., 1934 N. Washtenaw Avenue, Chicago, Illinois 60647, effective February 11, 1975. (It supersedes Approval No. 160.064/623/0 dated December 30, 1974 to show change in model No.)

Approval No. 160.064/624/0, child medium, Model No.. 4161, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: Ero Industries, Inc., 308 S. William Street, Hazlehurst, Georgia 31539, Type II PFD, manufactured by Ero Industries, Inc., 1934 N. Washtenaw Avenue, Chicago, Illinois 60647, effective February 11, 1975. (It supersedes Approval No. 160.064/624/0 dated December 30, 1974 to show change in model No.)

Approval No. 160.064/625/0, child small, Model No. 4166, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: Ero Industries, Inc., 308 S. William Street, Hazlehurst, Georgia 31539, Type II PFD, manufactured by Ero Industries, Inc., 1934 N. Washtenaw Avenue, Chicago, Illinois 60647, effective February 11, 1975. (It supersedes Approval No. 160.064/625/0 dated December 30, 1974 to show change in model No.)

Approval No. 160.064/676/0, Model No. 8404, vinyl dipped unicellular plastic foam "Ring Buoy", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 178, Type IV PFD, manufactured by American Marine Products, 240 Shore Drive, Hinsdale, Illinois 60521, effective February 11, 1975.

Approval No. 160.064/715/0, child medium, Model No. 8308, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/715/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/716/0, adult, Model No. 8309, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No.

160.064/716/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/717/0, adult, Model No. 8310, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/717/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/718/0, adult, Model No. 8311, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/718/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/719/0, adult, Model No. 8312, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation; 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/719/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/720/0, child small, Model No. 8321, cloth covered unicellular plastic foam "Boating Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/720/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/721/0, child small, Model No. 8322, cloth covered unicellular plastic foam "Boating Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975. (It supersedes Approval No. 160.064/721/0 dated December 5, 1974 to show change in name of device.)

Approval No. 160.064/722/0, child medium, Model No. 8323, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/723/0, adult medium, Model No. 8324, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/724/0, adult large, Model No. 8325, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/725/0, adult X-large, Model 8326, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/726/0, adult SX-large, Model No. 8327, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/735/0, adult medium, Model No. 8344 or 8357, cloth covered unicellular plastic foam "Sportsman's Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/736/0, adult large, Model No. 8345 or 8358, cloth covered unicellular plastic foam "Sportsman's Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/737/0, adult X-large, Model No. 8346 or 8359, cloth covered unicellular plastic foam "Sportsman's Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/738/0, adult SX-large, Model No. 8347 or 8360, cloth covered unicellular plastic foam "Sportsman's Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/740/0, adult large, Model No. 8341, cloth covered unicellular plastic foam "Fishing Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/741/0, adult X-large, Model No. 8342, cloth covered unicellular plastic foam "Fishing Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective January 11, 1975.

Approval No. 160.064/742/0, adult SX-Large, Model No. 8343, cloth covered unicellular plastic foam "Fishing Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/771/0, child medium, Model No. 8350, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/772/0, adult medium, Model No. 8351, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/773/0, adult large, Model No. 8352, vinyl dipped unicellular plastic foam "Water Ski Vest", manucatured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/774/0, adult X-large, Model No. 8353, vinyl dipped unicellular plastic foam "Water Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective February 11, 1975.

Approval No. 160.064/792/0, child medium, Model Junior, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 30, Type III PFD, manufactured by Gladding Corporation, Flotation Division, P.O. Box 8277, Station A, Greenville, South Carolina 29604, effective February 11, 1975.

Approval No. 160.064/793/0, child medium, Model Junior, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 30, Type III PFD, manufactured by Gladding Corporation, Flotation Division, P.O. Box 8277, Station A, Greenville, South Carolina 29604, effective February 11, 1975.

Approval No. 160.064/802/0, child medium, Model No. 6308, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 178, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist Thompson, Crivitz, Wisconsin 54114, effective February 11, 1975.

Approval No. 160.064/803/0, adult, Model No. 6309, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 173, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist Thompson, Crivitz, Wisconsin 54114, effective February 11, 1975.

Approval No. 160.064/804/0, adult, Model No. 6310, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 173, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for Medalist Thompson, Crivitz, Wisconsin 54114, effective February 11, 1975.

Approval No. 160.064/805/0, adult, Model No. 6311, cloth covered unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 173,

Gidley Avenue, Temple City, California 91780, effective February 14, 1975.

Approval No. 160.064/869/0, adult X-large, Model No. 505 cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 110, Type III PFD, manufactured by America's Cup, Inc., So. El Monte, California, 91733 for Vogue Ski Company, 9416 E. Gidley Avenue, Temple City, California 91780, effective February 14, 1975.

DECK COVERINGS FOR MERCHANT VESSELS

Approval No. 164.006/50/0, "Insulite I", perlite aggregate oxychloride cement deck covering, identical to that described in E. H. O'Neill Floors Co. letter dated October 29, 1963, approved for use without insulating material as meeting Class A-60 requirements in a 1-inch thickness, manufactured by E. H. O'Neill Company, Inc., 5515 Belair Road, Baltimore, Maryland 21206, effective February 14, 1975. (It supersedes Approval No. 164.-006/50/0 dated November 4, 1974 to show change in name of product.

Dated: April 1, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

MISSISSIPPI RIVER IN THE VICINITY OF THE PORT OF NEW ORLEANS

Mooring of Barges and Vessel Operations and Control Barge Breakaways; Cancellation of Amendment

Notice is given that paragraph 4c (Standby towboats) and paragraph 4d (Transfers in the fleet) in Special Order 3-74 are made effective on February 12, 1975 by cancelling the amendment to Special Order 3-74 (39 FR 19974; June 5, 1974). The amendment revoked paragraphs 4c and 4d.

The Coast Guard regulates barges on the Mississippi River in the vicinity of New Orleans under Special Order 3-74, published February 19, 1974 (39 FR 6137). Paragraphs 4c and 4d are made effective, thereby making the entire Special Order effective during the spring when the level of the Mississippi River is high.

At 6 p.m. c.s.t., February 12, 1975 paragraphs 4c and 4d of Special Order 3-74 are in effect.

Dated: April 2, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

FEDERAL COMMUNICATIONS COMMISSION

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

RTCM ASSEMBLY

Notice of 1975 annual meeting, Monday, Tuesday, Wednesday, April 28-30, 1975. Business meeting: Monday, April 28, 10:30 a.m., Grand Salon, Hilton Inn, 10330 Natural Bridge Road, St. Louis, Missouri. Commissioner R. E. Lee, FCC, Chairman, RTCM.

AGENDA

1. Introductory remarks.
2. Election of Chairman.
3. Committee reports: (a) Executive Committee; (b) Special Committees.
4. Report of the Executive Secretary.
5. Status report—RTCM organizational developments.
6. Election of Assembly Member applicants.
7. Other business.

SPECIAL COMMITTEE No. 68

"Marine Radiotelephone Operator Education", notice of 5th meeting, Monday, April 28, 1975—7:45 a.m. (Working breakfast meeting), Salon d'Or, West, Hilton Inn, St. Louis, Missouri.

AGENDA

1. Call to order; Chairman's report.
2. Adoption of agenda; Confirmation of Secretary.
3. Discussion on scope and content of "Marine Radio Telephony".
4. Other business.
5. Establishment of next meeting date.

A. Newell Garden, Chairman, SC-68, Raytheon Company, 141 Spring Street, Lexington, Mass. 02173, phone: (617) 862-6600 (Ext. 414).

SPECIAL COMMITTEE No. 66

"Receiver Standards for the Maritime Mobile Service", notice of 30th meeting, Tuesday, April 29, 1975—7:45 a.m. (Working breakfast meeting), Salon d'Or, West, Hilton Inn, St. Louis, Missouri.

AGENDA

1. Call to order; Chairman's report.
2. Adoption of agenda; Appointment of rapporteur.
3. Discussion on scope and content of MF/HF SSB receiver standards.
4. Other business.
5. Establishment of next meeting date.

H. R. Smith, Chairman, SC-66, ITT Mackay Marine, 441 US Highway #1, Elizabeth, New Jersey 07202, phone: (201) 527-0300.

To comply with the advance meeting notice requirements of Pub. L. 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meetings. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend any of the preceding listed meetings should report to the room listed in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for each meeting are available at that meeting. Those desiring more specific information may contact either the designated Chairman or the RTCM Secretariat. (Phone: (202) 632-6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS

Retraction of Notice of Establishment and Notice of Meeting

The Notice of Establishment of Special Committee 130 of the Radio Technical Commission for Aeronautics, as published in the FEDERAL REGISTER of April 2, 1975 (vol. 40, no. 64, p. 14805), is erroneous. The establishment of Special Committee 130 has not been approved by the Federal Communications Commission. Accordingly, the notice of a May 22-23 meeting of Special Committee 130, also published in the FEDERAL REGISTER of April 2, 1975 (p. 14806), is not applicable and is hereby rescinded.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-9180 Filed 4-8-75;8:45 am]

STANDARD BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on May 15, 1975, the standard broadcast applications listed below will be considered as ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on May 14, 1975, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on May 14, 1975. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.571(c) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast applications, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted: April 1, 1975.

Released: April 3, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL ENERGY ADMINISTRATION

MARKET SHARES QUESTIONNAIRES

Proposed Questionnaire

Notice is hereby given that the Federal Energy Administration proposes to issue a monthly questionnaire for the collection of (1) market share information pursuant to the requirements of section 4(c)(2)(A) of Pub. L. 93-159 (Emergency Petroleum Allocation Act of 1973) and (2) additional data as authorized by sections 5 and 13 of Pub. L. 93-275 (Federal Energy Administration Act of 1974).

V40169 APR 9 75 XUM

The proposed monthly questionnaire (Form FEA P314–M–0) will collect information on distillate and residual fuel oil sales to ultimate consumers for January 1975 and succeeding months. Form FEA P314–M–0 is a follow-on questionnaire to Form FEA P308–S–0 which was recently mailed to refiners, importers, and resellers/retailers to collect market share and product distribution information over the period January 1972 through December 1974. There is no category of information on Form FEA P314–M–0 which was not also on Form FEA P308–S–0.

The proposed monthly questionnaire, a copy of which is appended to this notice, has been sent to the General Accounting Office for clearance. Once approved, the proposed monthly questionnaire will be printed and mailed to a sample, selected by the Federal Energy Administration of those retailers of distillate and residual fuel oil, which are required to complete Form FEA P308–S–0. It is anticipated that the proposed monthly questionnaire will be mailed in May 1975 to about 1,500 respondents. Respondent burden is estimated to range from 1 to 100 man-hours with an average burden of 40 man-hours.

Written comments on the proposed monthly questionnaire are invited from all interested persons, organizations, public interest groups, and affected businesses. Comments must be received, in five (5) copies, by April 23, 1975, and should be addressed to: Federal Energy Administration, Executive Communications, Room 3309, Box CM, 12th & Pennsylvania Avenue, NW, Washington, D.C. 20461.

Dated: April 3, 1975.

DAVID G. WILSON,
Acting General Counsel,
Federal Energy Administration.

FEDERAL ENERGY ADMINISTRATION

[FEA P314–M–0]

MONTHLY SURVEY OF DISTILLATE AND RESIDUAL FUEL OIL SALES TO ULTIMATE CONSUMERS

INSTRUCTIONS

PURPOSE

Form FEA–P314–M–0 provides the means to: Enable FEA to comply with the provisions of section 4(c)(2)(A) of Pub. L. 93–159 (Emergency Petroleum Allocation Act of 1973) which requires monthly reporting to Congress on changes in the aggregate shares of independent and other marketers of refined petroleum products.

Collect additional information on these products as authorized by the provisions of sections 5 and 13 of Pub. L. 93–275 (Federal Energy Administration Act of 1974).

I. WHO MUST SUBMIT

All applicable parts of Form FEA–P314–M–0 must be completed by a sample of firms, as selected by the Federal Energy Administration (FEA), which sell distillate and/or residual fuel oil directly to ultimate consumers. If the recipient no longer sells distillate and/or residual fuel oil directly to ultimate consumers, a letter to this effect must be returned with the uncompleted questionnaire to the Federal Energy Administration, Code 3000, Washington, D.C. 20461.

II. TO WHOM

Form FEA–P314–M–0 should be submitted to: Federal Energy Administration, Code 3000, Washington, D.C. 20461.

Additional copies of the reporting form may be obtained from the above address. Indicate the number of copies needed and the address to which they should be sent.

III. WHEN

Form FEA–P 314–M–0 should be submitted no later than the last day of the month following the reporting period (e.g. the report for June must be received by July 31, 1975).

V. DEFINITIONS

"Commission Agent" means an agent who wholesales or retails a refined petroleum product under a commission arrangement. Typically, he does not take title to the product but receives a percentage of the wholesale or retail margin for serving as the agent.

"Control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a firm, whether through the ownership of voting securities, by contract, or otherwise. This definition includes the terms "controlling", "controlled by" and "under common control with."

"Distillate Fuel Oil" means a fuel oil of a petroleum fraction which, when produced in conventional distillation operations, has a boiling range from 10 percent point at 300°F. to 90 percent at 675°F. Included are products known as American Society for Testing and Materials (ASTM) grades No. 1, No. 2, and No. 4 fuel oils and diesel fuels. For purposes of this report, distillate fuel oil is further subdivided into the categories of No. 2 Distillate Fuel Oil, and Other Distillate Fuel Oil.

"Firm" means any association, company, corporation, estate, individual, joint-venture, partnership, or sole proprietorship or any other entity, however organized, including charitable, education, or other eleemosynary institution, and the Federal Government, including corporations, departments, Federal agencies, and other instrumentalities, and State and local governments. For purposes of this report, a firm includes a parent and the consolidated and unconsolidated entities (if any) which it directly or indirectly controls.

"No. 1–D Diesel Fuel" means diesel fuel grade No. 1 as defined in American Society for Testing and Materials (ASTM) D975–71.

"No. 1 Heating Oil" means heating oil grade No. 1 as defined in American Society for Testing and Materials (ASTM) D396–71.

"No. 2–D Diesel Fuel" means fuel grade No. 2, as defined in American Society for Testing and Materials (ASTM) D975–71.

"No. 2 Distillate Fuel Oil" means a petroleum distillate which meets the specifications for No. 2 Heating Oil as defined in ASTM D396–71 and/or the specifications for No. 2–D Diesel Fuel as defined in ASTM D975–71.

"No. 2 Heating Oil" means heating oil grade No. 2, as defined in American Society for Testing and Materials (ASTM) D396–71.

"No. 4–D Diesel Fuel" means diesel fuel grade No. 4 as defined in American Society for Testing and Materials (ASTM) D975–71.

"No. 4 Fuel Oil" means fuel oil grade No. 4 as defined in American Society for Testing and Materials (ASTM) D396–71.

"Other Distillate Fuel Oil" means, for purposes of this report, all distillate fuel oil except No. 2 Distillate Fuel Oil (see definition).

"Parent" means a firm which directly or indirectly controls another entity.

"Refiner" means a firm that owns, operates, or controls the operation of one or more refineries.

"Refiner Company Brand" means a trademark, trade name, service mark, or other identifying symbol, or name owned by a refiner.

"Refinery" means, for purposes of this report, an industrial plant, regardless of capacity, processing crude oil feedstock and manufacturing refined petroleum products, except when such plant is a petrochemical plant or natural gas processing plant.

"Reporting Period" means, for purposes of this report, a calendar month. Monthly reports are required for January 1975 and each subsequent month, or from the time at which the current owners acquired the reporting firm if later than January 1975.

"Reseller" means, for purposes of this report, a firm or that part of such a firm which carries on the trade or business of purchasing distillate fuel oil and/or residual fuel oil and reselling them without substantially changing their form to purchasers other than ultimate consumers.

"Residual Fuel Oil" means, for purposes of this report, the fuel oil commonly known as: (a) No. 5, and No. 6 fuel oils; (b) Bunker C; (c) Navy Special Fuel Oil; (d) Crude Oil when burned directly as a fuel; and all other fuel oils which have a 50 percent boiling point over 700°F in the ASTM D–86 standard distillation test.

"Retailer" means, for purposes of this report, a firm (other than a refiner or reseller) or that part of such a firm which carries on the trade or business of purchasing distillate fuel oil and/or residual fuel oil and reselling them to ultimate consumers without substantially changing their form.

"Sales" means, for purposes of this report, all sales in the United States, including U.S. possessions and U.S. territories, of distillate fuel oil and/or residual fuel oil made by the reporting firm during the reporting period, regardless of whether the material so sold was acquired by manufacture, domestic or foreign purchase exchange, or otherwise. Sales include all transfers of ownership of product, whether for cash or other consideration, except that exchanges are included only to the extent that the amount transferred exceeds the amount received in an exchange. All military sales, including those directed to Post Exchanges, are to be considered as part of sales to ultimate consumers. Exclude intra-firm transfers.

VI. GENERAL INSTRUCTIONS

Review all instructions and definitions carefully before completing the form. If there are any questions, please call (202) 964–6507.

Report all requested data on an aggregated basis covering the sales (for each product) made by all divisions, branches, and other entities such as Commission Agents, under the direct or indirect control of the parent firm filing this report.

On top of all pages, enter, as indicated, the reporting firm's Control Number (obtained from the mailing label on the envelope which contained the questionnaire); the reporting firm's IRS Employer Identification Number (EIN); the reporting firm's name; and the date of this report by month, day and year. The information requested is required for computer processing and must be provided as indicated.

VII. SPECIFIC INSTRUCTIONS

A. *Part I—Identification Data. Item No. 1: Date of Report.* In Item 1, enter the date this report was completed by month, day, and year. For example, October 15, 1975 would be entered as 10–15–75.

Item No. 2: Type of Report. In Item 2, check the applicable box to indicate whether the report is an original or a revision to an earlier report. If an Original Report, enter the month and year of the period covered by the report. If the report is a revision to an earlier submission, indicate the reference date of the initial report by month and year. Provide such a revised report only when data submitted on an earlier report should be corrected or updated based on information which was unknown when the initial report was completed.

Item No. 3: Firm Identification. In Item 3(a), enter the firm's Control Number obtained from the upper left portion of the mailing label on the envelope which contained this questionnaire.

In Item 3(b), enter the reporting firm's IRS Employer Identification Number.

In Item 3(c), enter the reporting firm's name.

In Item 3(d) through 3(g), enter the reporting firm's complete address, including ZIP Code.

In Item 3(h) and 3(i), enter the name and telephone number, including area code, of an official of the reporting firm who can be contacted to answer questions regarding the submitted FEA–P314–M–0.

Complete Item 3(j) as indicated on the face of the form. Ensure correct information is provided in Item 3(a) through 3(g).

B. *Part II—Volume Data.* Enter in Part II, the firms total volume of sales made directly to ultimate consumers during the Reporting Period. Exclude sales to resellers and/or retailers.

Enter the State and State Code in which the sales were made. A list of codes to be used in Column (A) for each State is provided in Appendix A.

Sales volume should be entered in thousands of gallons. Round numbers to the nearest thousand, e.g. enter 6,500 as 7, enter 6,400 as 6.

Only complete the columns (Products) for which you had sales, leave the rest blank.

Exclude from sales, intra-firm transfers and product consumed directly by the reporting firm.

Enter in Column (B) all sales of No. 2 Distillate Fuel Oil (see definition) made to ultimate consumers during the reporting period.

Enter in Column (C) all sales of Other Distillate Fuel Oil (see definition) made to ultimate consumers during the reporting period.

Enter in Column (D) all sales of Residual Fuel Oil (see definition) made to ultimate consumers during the reporting period.

Important Note: Procedure for Providing Additional Information. If additional copies of the chart in Part II are required, they may be obtained by reproducing enough copies from one of the blank charts provided. The total number of attachments of the same Part II item should be annotated on each like page in the box provided.

C. *Part III*—Section VIIE herein provides instructions for completing Part V of FEA P314–M–0. The data in Part V is required to update FEA records. A change need only be submitted once.

If there have been no changes to the information covered in Part V which have not been previously reported to the FEA on this monthly report, check the box following the statement "Not required."

If there has been a change in the information covered in Part V which has not been reported to the FEA on this monthly report, check the box following the statement "Required and is attached." Part V of the form should be completed and attached as indicated in Section VIIE herein.

D. *Part IV—Certification.* Type the name and title of the individual who has signed the certification, and the date of signing, in the spaces provided on the form. The individual who signs and certifies this form must be the Chief Executive Officer of the parent or such other executive officer of the entity as authorized by the Chief Executive Officer to sign for him for this purpose. In the latter case, the reporting firm must file with the addressee office, a letter of authorization signed by the Chief Executive Officer which identifies other officials authorized to certify forms for the firm. A sample format for this letter is available from any FEA regional office.

Title 18, U.S. Code 1001, makes it a crime for any person knowingly and willfully to make to any agency or department of the United States, any false, fictitious, or fraudulent statement as to any matter within its jurisdiction.

E. *Part V—Report Change Information. Item No. 1. Important Note:* The information in Part V constitutes a revision to that data submitted originally on FEA Form P308–S–0 (Historical Survey of Propane, Distillate Fuel Oil, and Residual Fuel Oil Sales to Ultimate Consumers), or on previous submittals of this monthly report (FEA Form P314–M–0). Part V need only be submitted when a revision is required.

Complete Item 1, if required, by providing the information requested on the face of the form. State Codes may be taken from the listing provided as Appendix A.

Note: Procedure for Providing Additional Information. If additional copies of the chart are required, they may be obtained by reproducing enough copies from the blank chart provided. The total number of attachments of the same Part V item should be annotated on each like page in the box provided at the bottom of the page.

Item No. 2. Complete Item 2, if required, by answering the questions relative to your current operations, using the definitions provided in Section V of these instructions.

c. Firm Name _____ d. Report Covers Mo ☐☐ Yr ☐☐

Part IV Report Change Information

Important Note: The information in Part IV constitutes a revision to that data submitted originally on FEA Form P300-S-0 (Historical Survey of Propane, Distillate Fuel Oil, and Residual Fuel Oil Sales to Ultimate Consumers), or on previous submittals of this monthly report (FEA Form P314-M-0). Part IV need only be submitted when a revision is required.

1. If there has been an addition or deletion to the list of consolidated and unconsolidated entities, whose sales are included in the sales of the reporting firm, which has not been previously reported to the FEA on FEA Form P300-S-0 or P314-M-0, provide the information requested below as appropriate.

a. Firms Added:

	Company Name (A)	Address (B)	City (C)	State Code (D)	ZIP Code (E)	EIN (F)
20101						
20102						
20103						

b. Firms Deleted:

	Company Name (A)	EIN (B)
10101		
10102		
10103		

2. If there has been a change in Marketer Status Identification data which has not been previously reported to the FEA on FEA Form P300-S-0 or P314-M-0, provide answers to each of the questions listed below.

20219

a. Are you a refiner or do you control or are you controlled by, under common control with, or affiliated with a refiner (other than by means of a supply contract, an agreement to use a refiner company brand, or a landlord-tenant relationship)? YES ☐ NO ☐ If "YES", give refiner name. _____

b. Do you lease premises that are owned, leased or in any way controlled by a refiner (or a person who controls, is controlled by, or is under common control with such refiner)? YES ☐ NO ☐

c. Do you have an agreement with a refiner (or a person who controls, is controlled by, or is under common control with such refiner) to use a brand name, trademark, trade name, service mark, or other identifying symbol or name owned by such refiner? YES ☐ NO ☐

d. Are you a Commission Agent for a refiner? YES ☐ NO ☐

If additional copies of the above chart(s) have been completed to provide the requested information, enter the number of copies attached. ☐

DEPARTMENT OF STATE

Agency for International Development

AID RESEARCH ADVISORY COMMITTEE

Meeting

Pursuant to Executive Order 11686 and the provisions of section 10(a)(2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the A.I.D. Research Advisory Committee Meeting on May 8-9, 1975, at the Pan American Health Organization Building, 23rd Street and Virginia Avenue, NW, Conference Room "C," to review, appraise and make recommendations to the Administrator, Agency for International Development, concerning proposals for research contracts in the fields of food and nutrition, health and population and selected development problems. The meeting will begin at 9 a.m. and adjourn at 5:30 p.m. each day. This meeting will be open to the public. Dr. Erven J. Long, Associate Assistant Administrator, is designated as the A.I.D. representative at the meeting. It is suggested that those desiring more specific information contact Dr. Erven J. Long, 2201 C Street, NW, Washington, D.C. 20523, or call area code 202-632-3800.

Dated: March 27, 1975.

CURTIS FARRAR,
Acting Assistant Administrator for Technical Assistance.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before April 29, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00408-33-46040. Applicant: University of Oregon Health Sciences Center, 3181 S. W. Sam Jackson Place Road, Portland, Oregon 97201. Article: Electron Microscope, Model Elmiskop 101. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used for the investigation of the basic causes of ocular diseases such as the following: retinitis pigmentosa, macular degenerations, and retinal detachments; diseases of the anterior segment of the eye such as cataract, glaucoma and corneal ulcers. In addition basic underlying mechanisms responsible for the maintenance of normal ocular structure and function are also under investigation, e.g. the molecular basis for active transport of ionic constituents of the aqueous humor by the ciliary processes; the biochemical and ultrastructural basis for vitamin A storage and transport by the pigment epithelium of the retina; analysis of cell surface characteristics of rod and cone outer segments and pigment epithelial cells; factors that facilitate recognition of worn-out photoreceptor and bring about their subsequent phagocytosis and digestion by the pigment epithelial cell; study of intracellular mechanisms that affect cell movements during repair of corneal ulcers or surgical wounds. The article will also be used to aid in the teaching of the course Cell Organization and Function for first year medical students and a course in ultrastructure of the human eye for Ophthalmology residents. Application received by Commissioner of Customs: March 4, 1975.

Docket Number: 75-00409-98-54800. Applicant: University of Cincinnati, Department of Physics, Mail Location #11, Cincinnati, Ohio 45221. Article: Optical Benches and Accessories. Manufacturer: Precision Tool and Instrument Co., Ltd., United Kingdom. Intended use of article: The article is intended to be used for the investigation of the problem of phonons and phonon transport at low temperatures in amorphous insulators by the technique of laser light scattering. Experiments performed are part of the training of graduate students seeking their Ph.D. degree in experimental physics. The course is designed for students to develop the capacity for original thinking and to allow them to complete a research project which contributes significantly to the advancement of physics. Application received by Commissioner of Customs: March 4, 1975.

Docket Number: 75-00411-33-46040. Applicant: Louisiana State University Medical School, 1542 Tulane Avenue, New Orleans, Louisiana 70112. Article: Electron Microscope, Model EM 201 and Accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for ultrastructural studies of cell-virus interactions and the response of the host to virus infection. The materials studied will con-

V40169 APR 9 75 XUM

sist of specimens of normal and virus infected cell cultures embedded in a variety of materials and are subjected to thick and ultra-thin sectioning by ultramicrotomy. Advanced graduate students who have an interest in learning techniques of ultrastructural research will be instructed in the use of the article. Application received by Commissioner of Customs: March 4, 1975.

Docket Number: 75–00412–33–46500. Applicant: Papanicolaou Cancer Research Institute, 1155 N.W. 14th Street, Miami, Florida 33136. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of thin sections and freeze-etch replicas of mammalian lungs. Studies will also be done on pulmonary endothelial cells grown in culture. Research will be conducted to find the subcellular site of the enzyme responsible for the conversion of angiotensin I to angiotensin II (the most potent hypertensive substance known) and the metabolism of bradykinin (a hypotensive substance) which may lead to an understanding of blood pressure homeostasis at the molecular level. In addition, the article is to be used in the instruction of postdoctoral, pre-doctoral and high school students in electron microscopic techniques. Application received by Commissioner of Customs: March 6, 1975.

Docket Number: 75–00413–33–46500. Applicant: Howard University, College of Medicine, Department of Microbiology, 520 W Street, N.W., Washington, D.C. 20059. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in studies of the ontogeny of the fungal spore wall as well as the study of mature spore topography. Experiments will be done to disclose the role of subcellular organelles on the development of spore wall layering. In addition to these studies other studies will be conducted to determine systematic relationships existing between fungi usually placed in a specific taxo but having characteristics which lend themselves to other taxonomic groupings. Application received by Commissioner of Customs: March 6, 1975.

Docket number: 75–00414–33–46500. Applicant: Louisiana State University, School of Medicine in Shreveport, P.O. Box 3932, Shreveport, Louisiana 71130. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological tissues from experimental animals. The principle project involves the study of normal and experimentally altered intracardiac ganglia. The experiment will involve the embeddment and sectioning of heart muscle containing the cardiac ganglia which have been subjected to various histochemical procedures. Findings in normal ganglia will be compared to the findings in experimentally altered tissues to determine (1) the source of the nerve fibers that synapse in these ganglia, and (2) the function of the ganglia in normal and pathologic hearts. Application received by Commissioner of Customs: March 6, 1975.

Docket number: 75–00415–33–66700. Applicant: College of Medicine and Dentistry of NNJ, P.O. Box 101, Piscataway, New Jersey 08854. Article: Weibel Projection Unit for Stereology Anatomisches Institut with Interchangeable Screens. Manufacturer: Anatomisches Institut, Switzerland. Intended use of article: The article is intended to be used for quantitative electron microscopic study of adrenal tissue to determine any possible alterations in cell structures induced by adrenocorticotrophic hormone (ACTH). Application received by Commissioner of Customs: March 6, 1975.

Docket Number: 75–00417–01–46040. Applicant: Stanford University, 820 Quarry Road, Palo Alto, California 94304. Article: Electron Microscope, Model EM 201C. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for the examination of DNA, RNA, proteins, and protein-nucleic acid interactions. The experiments to be conducted and objectives pursued concern isolation of fragments of the genetic DNA of bacterial cells, studying their behavior both in vivo (transformation) and in vitro (expression), seeking the origins of new cellular organelles. These studies encompass interactions with different proteins and fine substructure of these proteins. The article will also be used by undergraduate resident assistants, medical, graduate, and post-graduate students who will make some use of an electron microscope to answer specific scientific questions in connection with their work being carried out in various laboratories in this department. Application received by Commissioner of Customs: March 10, 1975.

Docket number: 75–00418–01–47500. Applicant: University of California, Department of Physiology, California College of Medicine, Irvine, California 92664. Article: High Tensity Monochromator, Used. Manufacturer: Ontario Cancer Institute, Canada. Intended use of article: The article is intended to be used in the investigation of wavelength dependence (or action spectra) for the creation of pyrimidine dimers in solution and/or in DNA and action spectra for monomerization of dimers by PRE or parts thereof. Kinetics of the above reactions will also be investigated. Application received by Commissioner of Customs: March 10, 1975.

Docket number: 75–00419–01–46040. Applicant: Duke University Medical Center, Department of Biochemistry, Durham, North Carolina 27710. Article: Electron Microscope, Model JEM–100C with Side Entry Goniometer. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studying membrane proteins in solution, and, in particular attempting to obtain such proteins in a state as close as possible to the "native" state. These studies involve the visualization of particle shape or mode of aggregation, the interaction of specific compounds with specific membranes and determining. Application received by Commissioner of Customs: March 10, 1975.

National Oceanic and Atmospheric Administration

FISHERY MARKET NEWS REPORTS TO BE ON SUBSCRIPTION BASIS BEGINNING JULY 1, 1975

Notice of Availability

APRIL 4, 1975.

Beginning July 1, 1975, the National Marine Fisheries Service (NMFS) will make the Fishery Market News reports available on a subscription basis. This action is based on a General Accounting Office (GAO) recommendation which cites Title V of the Independent Offices Appropriation Act of 1952 (31 U.S.C. 483a). This Act specifies that the Federal Government should charge for reports prepared for specific audiences, such as persons or companies in a particular industry. This policy was implemented through the Office of Management and Budget (OMB) Circular A–25, dated September 23, 1959. GAO has determined that fishermen, wholesalers, and processors benefit directly from the Fishery Market News reports and, therefore, recommend that they be charged for the report.

Proceeds from subscription sales will be used by NMFS to recover the expenses of printing, distributing, and mailing the reports. Collection of the data will continue to be conducted through the use of appropriated funds.

On January 14, 1975, the Director, National Marine Fisheries Service (NMFS), placed a notice in the FEDERAL REGISTER requesting comments on format and organization of current Market News reports, frequency and timeliness of the reports, coverage of products, accuracy of price and landings data, and other matters. Comments were submitted to the NMFS Regional Directors, who evaluated the comments and provided recommendations to the Director of NMFS. Following is a summary of comments received on the different subjects:

Frequency. Comments were mixed depending on the use to which the report is put; recommended frequency varied from "daily" for most fishermen and fresh fish dealers, to "once a week" for most fish processors and frozen fish dealers.

Format. Comments were favorable, with most respondents indicating that the manner of presentation is acceptable.

Coverage. Most respondents feel the reports have good market coverage. Some respondents indicated a need for a wide variety of additional information but not at the expense of data now reported. Examples of data requested include exvessel prices for certain New England ports; landings and exvessel prices for South Atlantic, Northern California, Oregon, and Alaska ports; wholesale prices of fresh water seafood; wholesale prices of certain products in California, Alaska, British Columbia, and Japan; and additional breakout of imports. Again, these requests were not at the expense of data now being reported.

Accuracy of information. A majority of the respondents said that accuracy of the information is acceptable, although some respondents indicated that an attempt should be made to improve accuracy of wholesale price data reported in the Boston and New York reports. NMFS will continue to improve accuracy where needed.

An overwhelming number of respondents opposed paying for Market News reports. On the other hand, paying for the reports was acceptable to some respondents because of benefits the reports provide.

Based on the comments and other available information, the following subscription plans have been developed:

Reports will be issued from Boston, New York, New Orleans, Terminal Island, and Seattle. Each of these offices will issue reports on Monday, Wednesday, and Friday. In addition to daily information, the Friday report will contain a summary of information for the week. Subscribers will have the choice of taking the "full service" (3 reports per week) or only the weekly summary from any one office. Annual subscriptions rates will be:

Three (3) reports per week, which includes the weekly summary on Friday (full service) $35

One (1) weekly summary issued Friday (which also contains daily information for Friday) $15

Subscription orders will be accepted after publication of this notice in the FEDERAL REGISTER. For orders received before July 1, 1975, the subscription period is July 1, 1975, to June 30, 1976. For orders received after July 1, 1975, the subscription period will be 1 year beginning the first of the month following receipt of the order.

No discounts will be given for multiple copies of a particular report, or for subscriptions to two or more different reports. No rebates will be given for cancellations. As in the past, reports will be sent via surface mail.

With the exception of a limited number of designated recipients of free copies, all users will be required to pay for the report. Designated recipients of free copies will include:

(1) Individuals or firms who are certified by NMFS as contributors to the Market News program will each receive upon request one subscription to a full service (three reports per week which will include the weekly summary in the Friday report) or a weekly summary of his or her choice. A contributor is a legal entity (individual or firm) which contributes data or information to the Market News Program on a regular periodic basis. Each Market News contributor will receive from NMFS a certification notice which can be used as a voucher to obtain either the full service or weekly summary reports.

(2) Depository libraries will receive subscriptions to full service or weekly summaries of their choice if they agree to maintain a historical file for use of the public.

(3) Each State fisheries agency cooperating with NMFS will receive one subscription to a weekly summary of its choice.

(4) Certain Federal and local Government agencies will receive one subscription to a weekly summary of their choice.

(5) Fisheries departments of universities will receive one subscription to a weekly summary of their choice.

(6) Each newspaper, magazine, radio and TV station which agrees to disseminate information from the Market News reports will receive full service or a weekly summary of each report they agree to publicize.

To order Market News reports, send your name, address, report wanted (Boston, New York, New Orleans, Terminal Island and/or Seattle; and type of service desired (full service or weekly summary)), together with a check for the correct amount or a contributor voucher to:

National Technical Information Service

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent application 499,104: Nonswelling Alloy; filed 20 August 1974; PC $3.25/MF $2.25.

Patent application 499,221: X-Ray Laser; filed 21 August 1974; PC $3.25/MF $2.25.

Patent application 499,222: Chemical Isolation of 82SR from Proton-Irradiated Mo Targets; filed 21 August 1974; PC $3.25/MF $2.25.

Patent application 501,020: A New Interrogation, and Detection System; filed 27 August 1974; PC $3.75/MF $2.25.

Patent 3,823,325: X-Ray Laser; filed 23 July 1973; not available NTIS.

Patent 3,827,427: Apparatus for Measuring Radioactivity in the Human Eye; filed 8 January 1973; patented 6 August 1974; not available NTIS.

Patent 3,827,946: Method for the Disposal of Combustible and Dilute Aqueous Wastes; filed 5 June 1972; patented 6 August 1974; Not available NTIS.

Patent 3,829,391: Submarged Arc Crystal Growth Process for Growing Transparent Alkaline Earth Oxide Single Crystals; filed 19 September 1972; patented 13 August 1974; not available NTIS.

Patent 3,830,292: Flow Distribution for Heat Exchangers; filed 1 May 1972; patented 20 August 1974; not available NTIS.

Patent 3,832,426: Syntactic Carbon Foam; filed 19 December 1972; patented 27 August 1974; not available NTIS.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, NATIONAL INSTITUTES OF HEALTH, CHIEF, PATENT BRANCH, BETHESDA, MARYLAND 20014.

Patent application 503,817; Solid Phase Synthesis of Peptides with Carboxyl-terminal Amides; filed 6 September 1974; PC $3.25/MF $2.25.

Patent application 523,334; Process of Preparing 1.3–BIS (2-Chloroethyl)-1-Nitrosoures; filed 13 November 1974; PC $3.25/MF $2.25.

Patent application 529,397; Salt-Induced Chromatography of Biological Macromolecules; filed 4 December 1974; PC $3.25/MF $2.25.

Patent application 532,822; Long-Acting Narcotic Antagonist Salt Complexes; filed 16 December 1974; PC $3.25/MF $2.25.

Patent 3,853,765; Droplet Counter Current Chromatography; filed 2 July 1973; patented 10 December 1974; not available NTIS.

Patent 3,855,795; Heat Engine; filed 30 January 1973; patented 24 December 1974; not available NTIS.

DEPARTMENT OF THE NAVY, ASSISTANT CHIEF FOR PATENTS, OFFICE OF NAVAL RESEARCH, ARLINGTON, VA. 22217.

Patent 3,778,635; Liquid Parametric Optical Mixing Device; filed 8 June 1972; patented 11 December 1973; not available NTIS.

Patent 3,784,235; Tubular Adhesive Joint with Snap Lock; filed 8 October 1971; patented 8 January 1974; not available NTIS.

V40169 APR 9 75 XUM

Patent 3,784,706; Positive Lock Toggle Guard; filed 9 February 1973; patented 8 January 1974; not available NTIS.
Patent 3,784,905; Sonar Image Converter; filed 4 October 1972; patented 8 January 1974; not available NTIS.
Patent 3,784,924; Multi-Input Loop Filter with Independent Bandwidth and Response Characteristics; filed 31 January 1972; patented 8 January 1974; not available NTIS.
Patent 3,785,303; Spherical Module Connectors; filed 14 August 1972; patented 15 January 1974; not available NTIS.
Patent 3,785,605; System for Sensing and Compensating for the Disturbance Forces on a Spacecraft; filed 13 November 1972; patented 15 January 1974; not available NTIS.
Patent 3,786,139; Hydrogen Gas Generating Composition and method for the same; filed 26 April 1972; patented 15 January 1974; not available NTIS.
Patent 3,786,343; Battery Monitor System; filed 19 March 1973; patented 15 January 1974; not available NTIS.
Patent 3,786,363; Voltage-Controlled Low-Pass Filter; filed 5 January 1973; patented 15 January 1974; not available NTIS.
Patent 3,786,446; Underwater Acoustical Detection System; filed 10 May 1968; patented 15 January 1974; not available NTIS.
Patent 3,786,491; Digital Television Character Generator; filed 19 April 1972; patented 15 January 1974; not available NTIS.
Patent 3,786,508; High Speed Angle Gate; filed 9 September 1969; patented 15 January 1974; not available NTIS.
Patent 3,786,553; Method of Assembling Transducer Acoustically Coupled by Silicone Grease; filed 24 November 1972; patented 22 January 1974; not available NTIS.
Patent 3,786,633; Propellant Immobilizer and Resonance Suppression System; filed 25 January 1973; patented 22 January 1974; not available NTIS.
Patent 3,786,698; Restrictive Manipulation Limited Try Mechanism for a Combination Lock; filed 23 June 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,186; Calcium Hydride Gas Generator; filed 2 February 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,234; Method of Producing a Thin Film Laser; filed 18 July 1969; patented 22 January 1974; not available NTIS.
Patent 3,787,279; Shock and Fire Attenuating Fuel Tank; filed 22 May 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,619; Wide Angle Display System; filed 7 June 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,740; Delay Timer; filed 4 October 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,792; Intensity Control for Light-Emitting Diode Display; filed 28 July 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,817; Memory and Logic Module; filed 21 June 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,846; Close-In Ranger System; filed 10 August 1972; patented 22 January 1974; not available NTIS.
Patent 3,787,871; Terminator for Spiral Antenna; filed 3 March 1971; patented 22 January 1974; not available NTIS.
Patent 3,788,226; Pulsed End-Burning T-Burner; filed 28 March 1973; patented 29 January 1974; not available NTIS.
Patent 3,788,227; Jet Ignition Device for a Pyrotechnic Fuze; filed 5 January 1973; patented 29 January 1974; not available NTIS.
Patent 3,788,255; Expendable Submarine Receiving Antenna; filed 26 April 1960; patented 29 January 1974; not available NTIS.
Patent 3,788,262; Recovery Hook Assembly; filed 4 December 1972; patented 29 January 1974; not available NTIS.
Patent 3,788,393; Heat Exchange System; filed 1 May 1972; patented 29 January 1974; not available NTIS.
Patent 3,788,543; Uniform Size Particle Generator; filed 14 September 1972; patented 29 January 1974; not available NTIS.
Patent 3,788,690; Ordnance Handling Device; filed 21 June 1972; patented 29 January 1974; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, Washington, D.C. 20546.

Patent application 521,007: Growth of Gallium Nitride Crystals; filed 5 November 1974, PC $3.25/MF $2.25.
Patent application 527,728: Process for Making Anhydrous Metal Halides; filed 27 November 1974; PC $3.25/MF $2.25.
Patent application 527,790: Turnstile and Flared Cone UHF Antenna; filed 27 November 1974; PC $3.25/MF $2.25.
Patent application 531,575: Real Time Analysis of Veiced Sounds; filed 11 December 1974; PC $3.25/MF $2.25.
Patent 3,847,115: System for Depositing Thin Films; patented 12 November 1974; not available NTIS.
Patent 3,849,875: Hall Effect Magnetometer; patented 26 November 1974; not available NTIS.
Patent 3,851,162: Continuous Fourier Transform Method and Apparatus; patented 26 November 1974; not available NTIS.
Patent 3,851,250: Remote Platform Power Conserving System; patented 26 November 1974; not available NTIS.

Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, ASSISTANT GENERAL COUNSEL FOR PATENTS, WASHINGTON, D.C. 20545.

Patent 3,822,146: Application of Electrically Conductive Coatings to Insulating Tubes of Switching Magnets for Particle Accelerators; filed 5 July 1972; patented 2 July 1974; not available NTIS.
Patent 3,823,350: Protective Carrier for Semiconductor Chips; filed 5 September 1973; patented 9 July 1974; not available NTIS.
Patent 3,823,981: Situ Leaching Solvent Extraction-Process; filed 4 April 1973; patented 16 July 1974; not available NTIS.
Patent 3,824,456: Magnetometer Flowmeter Using Permanent Magnets and Magnetometer Elements Aligned with the Flow; filed 23 February 1973; patented 16 July 1974; not available NTIS.
Patent 3,824,457: Method of Making a Solid-State, Superconducting Electromagnetic Radiation Detector; filed 4 April 1973; patented 16 July 1974; not available NTIS.
Patent 3,824,512: Magnetic Self-Latching Pressure Switch; filed 14 November 1973; patented 16 July 1974; not available NTIS.
Patent 3,825,325: Light Trap; filed 14 February 1973; patented 23 July 1974; not available NTIS.
Patent 3,826,561: Laser Pulse Tailoring Method and Means; filed 3 May 1973; patented 30 July 1974; not available NTIS.
Patent 3,826,921: Monitor for Radiation-Induced Heating; filed 26 April 1973; patented 30 July 1974; not available NTIS.
Patent 3,828,197: Radioactive Waste Storage; filed 17 April 1973; patented 6 August 1974; not available NTIS.
Patent 3,829,313: Brazing Alloy; filed 7 March 1973; patented 13 August 1974; not available NTIS.
Patent 3,832,439: Method for the Suppression of Hydrogen During the Dissolution of Zirconium and Zirconium Alloys; filed 10 January 1973; patented 27 August 1974, not available NTIS.
Patent 3,834,256: Ultrasonically Controlled Thickness Machining; filed 15 August 1973; patented 10 September 1974; not available NTIS.
Patent 3,834,687: Workpiece Support; filed 16 January 1973; patented 10 September 1974; not available NTIS.
Patent 3,835,331: Stable Pulsed Light Source; filed 26 September 1973; patented 10 September 1974; not available NTIS.
Patent 3,836,834: Machine Protection System; filed 13 November 1973; patented 17 September 1974; not available NTIS.

DEPARTMENT OF COMMERCE, Assistant General Counsel for Administration, Washington, D.C. 20230.

Patent application 469,728: Light Scattering Method and Apparatus for the Chemical Characterization of Particulate Matter; filed 13 May 1974; PC $3.25/MF $2.25.
Patent application 476,646: Self-Balancing, D.C.-Substitution Measuring System; filed 5 June 1974; PC $3.25/MF $2.25.
Patent application 493,004: Improved Direct Reading Microwave Refractometer; filed 30 July 1974; PC $3.25/MF $2.25.
Patent application 495,754: Exponential Dilution Flask; filed 8 August 1974; PC $3.25/MF $2.25.
Patent application 499,102: Color Subcarrier Frequency, Comparator; filed 20 August 1974; PC $3.75/MF $2.25.
Patent application 523,951: Mercurous Chloride Prism Polarizers; filed 14 November 1974; PC $3.25/MF $2.25.
Patent application 525,430: Electrolytic Stripping Cell and Method; filed 20 November 1974; PC $3.25/MF $2.25.

Patent application 540,471: Tunnel Diode Pulse Generator; filed 13 January 1975; PC $3.25/MF $2.25.
Patent application 547,075; Radiation Flux Averaging Device of High Efficiency; filed 4 February 1975; PC $3.25/MF $2.25.

DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Arlington, Va. 22217.

Patent 3,793,731: Angle Position Indicator; filed 12 July 1972; patented 26 February 1974; not available NTIS.
Patent 3,793,823: Method of Making Compliant Suspension Cable; filed 26 July 1972; patented 26 February 1974; not available NTIS.
Patent 3,794,079: Combination Strength/Hydraulic Cable; filed 27 August 1971; patented 26 February 1974; not available NTIS.
Patent 3,794,528: Thermomechanical Method of Forming High-Strength Beta-Titanium Alloys; filed 17 August 1972; patented 26 February 1974; not available NTIS.
Patent 3,794,818: Automatic Memory Test and Correction System; filed 3 July 1972; patented 26 February 1974; not available NTIS.
Patent 3,795,213: Diver Operated Propulsion System for an Underwater Vehicle; filed 1 October 1971; patented 5 March 1974; not available NTIS.
Patent 3,795,432: Method for Eliminating Degradation of Crossed-Field-Amplifier Performance; filed 3 February 1972; patented 5 March 1974; not available NTIS.
Patent 3,795,544: Pressure Balanced Fuel Cell System for Underwater Vehicle; filed 30 March 1972; patented 5 March 1974; not available NTIS.
Patent 3,795,759: Buoyant Electrical Cable; filed 5 October 1970; patented 5 March 1974; not available NTIS.
Patent 3,795,772: Synchronization System for Pulse Orthogonal Multiplexing Systems; filed 1 May 1972; patented 5 March 1974; not available NTIS.
Patent 3,795,873: Multichannel Noise Simulator; filed 1 February 1973; patented 5 March 1974; not available NTIS.
Patent 3,795,879: Composite Dispersive Filter; filed 4 April 1973; patented 5 March 1974; not available NTIS.
Patent 3,796,001: Mosquito Trap; filed 27 November 1972; patented 12 March 1974; not available NTIS.
Patent 3,797,018: Means for Enhancing the Target Detection Capability of a Radar Receiver; filed 22 September 1967; patented 12 March 1974; not available NTIS.
Patent 3,797,907: Fresnel Lens Scatter Plate for Data Reduction Holography; filed 18 September 1972; patented 19 March 1974; not available NTIS.
Patent 3,798,312: Process for Preparation of Chlorine Nitrate; filed 24 September 1971; patented 19 March 1974; not available NTIS.
Patent 3,798,454: Device for Counting Accelerations, Measuring Magnitudes Thereof, Recording and Classifying the Same According to Magnitude; filed 25 April 1972; patented 19 March 1974; not available NTIS.
Patent 3,798,647: High Frequency Passive Radio Range Finder, filed 25 May 1972; patented 19 March 1974; not available NTIS.
Patent 3,798,919: Deep Submergence Ambient Pressure Cryogenic Storage Apparatus; filed 24 November 1972; patented 26 March 1974; not available NTIS.
Patent 3,799,812: Transpiration Radiometer; filed 22 August 1972; patented 26 March 1974; not available NTIS.
Patent 3,800,125: Omni-Converter with Digital Phase Shifter; filed 24 October 1972; patented 26 March 1974; not available NTIS.
Patent 3,800,128: True Wind Speed Computer; filed 14 March 1972; patented 26 March 1974; not available NTIS.
Patent 3,800,164: Redundant Logic Circuit; filed 2 January 1969; patented 26 March 1974; not available NTIS.
Patent 3,800,248: Unidirectional Surface Wave Transducer Device; filed 31 October 1972; patented 26 March 1974; not available NTIS.
Patent 3,800,272: Rotating Acoustic Scanner System for Positioning Objects on the Ocean Floor; filed 8 August 1972; patented 26 March 1974; not available NTIS.
Patent 3,800,273: Portable Sonar System; filed 6 May 1970; patented 26 March 1974; not available NTIS.
Patent 3,800,275: Acoustic Image Conversion Tube; filed 2 September 1960; patented 26 March 1974; not available NTIS.
Patent 3,800,276: Acoustic Image Conversion Tube; filed 26 October 1960; patented 26 March 1974; not available NTIS.
Patent 3,800,507: Low Pressure Air Dehydrator; filed 23 June 1970; patented 2 April 1974; not available NTIS.
Patent 3,800,594: Laser Accelerometer; filed 2 July 1973; patented 2 April 1974; not available NTIS.
Patent 3,800,601: See Sensor and Descriptor System; filed 12 November 1970; patented 2 April 1974; not available NTIS.
Patent 3,801,882: Thermo-Electric Mounting Method for RF Silicon Power Transistors; filed 11 January 1973; patented 2 April 1974; not available NTIS.
Patent 3,801,917: Time Interval Memory Device; filed 22 March 1965; patented 2 April 1974; not available NTIS.
Patent 3,801,918: Low-Phase-Shift Incremental FM Demodulator; filed 15 September 1972; patented 2 April 1974; not available NTIS.
Patent 3,801,981: Remote Clock Synchronization System; filed 23 April 1971; patented 2 April 1974; not available NTIS.
Patent 3,801,983: Radar Receiver Noise Ratio Detector; filed 24 April 1972; patented 2 April 1974; not available NTIS.
Patent 3,802,088: Guidance System for Underwater Swimmers; filed 14 June 1971; patented 9 April 1974; not available NTIS.
Patent 3,802,761: Optical Waveguide Edge Coupler Using Graded Index Profile; filed 7 December 1972; patented 9 April 1974; not available NTIS.

TENNESSEE VALLEY AUTHORITY, Division of Law, Muscle Shoals, Alabama 35660.

Patent 3,861,897: Stabilization of Polyphosphate Fertilizer Solutions; filed 13 October 1972; patented 21 January 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, Washington, D.C. 20546.

Patent application 531,568: Insulation Foil and Method of Making; filed 11 December 1974; PC $3.25/MF $2.25.
Patent application 531,576: Sun Angle Calculator; filed 11 December 1974; PC $3.25/MF $2.25.
Patent application 534,265: Highly Efficient Antenna System Using a Corrugated Horn and Scanning Hyperboloid Reflector; filed 19 December 1974; PC $3.25/MF $2.25.
Patent application 536,762: A Deployable Flexible Tunnel; filed 27 December 1974; PC $3.25/MF $2.25.
Patent application 537,025: A Method and a System for Extinguishing a Fire within a Sealed Battery; filed 27 December 1974; PC $3.25/MF $2.25.
Patent 3,856,402: Clear Air Turbulence Detector; patented 24 December 1974; not available NTIS.
Patent 3,856,471: Amino Acid Analysis; patented 24 December 1974; not available NTIS.
Patent 3,856,534: Anti-Fog Composition; patented 24 December 1974; not available NTIS.
Patent 3,857,031: Automatic Focus Control for Facsimile Cameras; patented 24 December 1974; not available NTIS.
Patent 3,857,045: Four Phase Logic Systems; patented 24 December 1974; not available NTIS.
Patent 3,859,119: Method of Producing a Storage Bulb for an Atomic Hydrogen Maser; patented 7 January 1975; not available NTIS.

Office of the Secretary

ECONOMIC ADVISORY BOARD

Meeting

A meeting of the Department of Commerce Economic Advisory Board will be held on Thursday, May 15, 1975 from 10 a.m. to 3 p.m. in Room 4832, Main Commerce Building, 14th Street and Constitution Avenue, NW., Washington, D.C.

The Board was established by the Secretary of Commerce on October 5, 1967. The purpose of the Board is to advise the Secretary of Commerce on economic policy issues. The intended agenda for this meeting is as follows:

Discuss the outlook for overall economic activity through 1976 in terms of:
1. Output.
2. Employment.

Discuss monetary and fiscal policy and the outlook for prices and interest rates.

Discuss specific industry situations in terms of:
1. Consumer spending.
2. Construction.
3. Business spending.

A limited number of seats will be available to the public on a first-come, first-served basis. Public participation will be limited to requests for clarification of items under discussion; additional statements or inquiries may be submitted to the chairman before or after the meeting. Persons desiring to attend the meeting should advise Miss Cathy Young, telephone (202) 967-3727, by May 12, 1975.

Copies of the minutes will be available on request 30 days after the meeting.

Inquiries may be addressed to the Committee Control Officer, Mr. Dominic R. Quinn, Special Assistant to the Assistant Secretary for Economic Affairs, Room 4850, Department of Commerce, Washington, D.C. 20230 (Telephone (202) 967-3728).

JAMES L. PATE,
Assistant Secretary for Economic Affairs.

Customs Service

[APP-4-05-0:D:T LB]

COUNTERVAILING DUTY PETITION AND INITIATION OF INVESTIGATION

Notice of Receipt

A petition in satisfactory form was received on February 26, 1975, alleging

V40169 APR 9 75 XUM

that payments or bestowals, conferred by the Government of the Philippines upon the manufacture, production or exportation of glazed ceramic wall tile from the Philippines constitute the payment or bestowal of a bounty or grant within the meaning of the Countervailing Duty Law as amended (19 U.S.C. 1303).

Pursuant to section 303(a)(4) of the Tariff Act of 1930 (19 U.S.C. 1303(a)(4)) the Treasury Department is required to issue a preliminary determination as to whether or not any bounty or grant is being paid or bestowed within the meaning of the Countervailing Duty Law within 6 months of the receipt, in satisfactory form, of a petition alleging the payment or bestowal of a bounty or grant. A final decision must be issued within 12 months of the receipt of such petition.

Therefore a preliminary determination on this petition will be made no later than August 26, 1975, as to whether or not the alleged payments or bestowals, conferred by the Government of the Philippines upon the manufacture, production, or exportation of the above described merchandise constitute a bounty or grant within the meaning of the Countervailing Duty Law. A final determination will be issued no later than February 26, 1975.

(Sec. 303 Tariff Act of 1930, as amended by Trade Act of 1974 (19 U.S.C. 1303), § 159.47 (c) of the Customs regulations (19 CFR 159.47(c)).)

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved April 4, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[T.D. 75-88]

FOREIGN CURRENCIES

Certification of Rates

MARCH 31, 1975.

Rates of exchange certified to the Secretary of the Treasury by the Federal Reserve Bank of New York.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372 (c)), has certified the following rates of exchange which varied by 5 per centum or more from the quarterly rate published in Treasury Decision 75-24 for the following countries. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Belgium franc:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON EQUALITY OF EDUCATIONAL OPPORTUNITY

Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the National Advisory Council on Equality of Educational Opportunity will convene at 9 a.m. on Friday, May 16 until 5 p.m. and reconvene at 8 a.m. on Saturday, May 17 until 1 p.m. at the Channel Inn, 650 Water Street, SW, Washington, D.C.

The National Advisory Council on Equality of Educational Opportunity is established under section 716 of the Emergency School Aid Act (Pub. L. 92-318, Title VII). The Council is established to advise the Assistant Secretary for Education with respect to the operation of programs under the Act, and to review the operation of such programs.

The meeting of the Council shall be open to the public. The meeting will be a working session developed around the recommendations from the Report Writing Committee for the Council's final report to Congress. There will be a status report on the Emergency School Aid Program by the Associate Commissioner for Equal Educational Opportunity, U.S. Office of Education.

Signed at Washington, D.C. on April 4, 1975.

HERMAN R. GOLDBERG,
Associate Commissioner for Equal Educational Opportunity.

Office of the Secretary

OFFICE OF THE REGIONAL DIRECTOR, REGION IX

Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary is amended to delete sections 1E (35 FR 13546), 8/25/70, and 1E8109 (39 FR 20713) 6/13/74. Section 1E80, Assistant Regional Director for Human Development (38 FR 17262) 6/29/73, is retained and redesignated 1R95. New sections are added for the several regions. Section 1E8901 reflects the official organization of the Office of the Regional Director, Region IX, whose headquarters is San Francisco, California. The new Chapter reads as follows:

SECTION 1E89.00 *Mission.* The Regional Director represents the Secretary in his Region. Under his direction, the Office of the Regional Director provides leadership and coordination in various Department programs and activities within the Region and represents the Department in direct official dealings with State and other governmental units, representatives of the Congress, and the general public.

SEC. 1E89.10 *Organization.* The Office of the Regional Director, Region IX, is under the direction and control of the Regional Director who reports directly to the Secretary and Under Secretary, and consists of the following: Deputy Regional Director; Office of the Regional Attorney; Office of Equal Employment Opportunity; Executive Secretariat; Office for Civil Rights; Office of Audit; Office of ARD for Public Affairs; Office of ARD for Planning and Evaluation; Office of ARD for Intergovernmental Affairs; Office of ARD for Financial Management; Office of ARD for Administration and Management; Office of ARD for Human Development; and Office of Long Term Care Standards Enforcement.

SEC. 1E89.20 *Functions.* A. Regional Director (1E8901). The functions of the Regional Director are:

1. Serves as the Secretary's representative in direct official dealings with State and other governmental units, and evaluates Regional, State, and local activities related to the Department's programs.

2. Develops regional priorities which emphasize the Department goals and highlight areas of particular needs or opportunities in the region, so that efforts and resources may be brought to bear on them. Formulates regional plans for each priority and ensures that regional agency heads achieve all their objectives in accordance with their plans. Conducts formalized planning conferences with regional representatives to assure a complete exhange of significant management information.

3. Exercises general coordination and supervision of personnel and activities in the region to ensure proper execution of policies, regulations, and instructions applicable to the Department as a whole. Recognizes interprogram disparities, exercises leadership to keep these disparities within constructive limits to assure effective, efficient, and responsive actions in the interest of total service to the public.

4. Assures that staff offices provide full support to agency operating programs.

5. Provides coordination of the activities of the principal representatives of the principal operating components who are stationed in or detailed to the region, including determination of regional program priorities and official communications with representatives of State or other Federal agencies.

6. Through coordination and supervision, exercises leadership in bringing about necessary awareness of the status of other programs of the Regional Office, and fosters cooperative relationships among program and staff representatives in seeing that plans are effectively made, operations are smoothly carried out, and performance is adequately evaluated.

7. Promotes general public understanding of the programs, policies, and objectives of the Department, and participates in the development and carrying out of a Regionwide information and public information program.

8. Establishes and maintains working relationships with Governors and key State and local officials; furnishes advice and assistance and strives to develop a mutually beneficial Federal-State-local partnership. Provides guidance to regional staff members on the priorities, emphases, and merits of various requirements based on expressions of need and analyses by governors, mayors, and other key officials.

9. Maintains working relationships with private agencies and institutions; develops ways in which their plans and programs and those of the Department can actively complement each other.

10. Develops continuing cooperative relationships with officials of the Federal agencies in the Region; through the medium of Regional Councils seeks ways in which interdepartmental delivery of program services can be made more effective.

11. In accordance with regulations and guidelines established at headquarters, administers the child development programs in the region, including the Head Start Program. Makes certain Head Start grants and takes other grants actions, as required.

12. Through liaison, periodic conferences, and other means, takes action to coordinate and integrate activities which are not directly associated with the regional office with regional office activities.

13. Develops plans for emergency preparedness and directs all Department activities necessary to ensure continuity of essential functions within the Region in case of an emergency due to enemy action; maintains a written plan for regional emergency operations; maintains liaison with all Federal authorities engaged in mobilization planning; acts in cooperation with them in an emergency situation; directs on behalf of Secretary all Department activities in the Region if communications with national headquarters are cut off.

14. Directs regional activities for assistance and alleviation of distress within the region resulting from natural disasters, including major disasters under Public Law 865; takes all necessary and appropriate action in connection with disaster situations and reports thereon.

15. In accordance with regulations and guidelines established at headquarters, administers, through the Office of Long Term Care Standards Enforcement, activities as herein described relating to the approval and termination of agreements with skilled nursing facilities for the purpose of participation in either the Medicare (Title XVIII) or in both the Medicare and Medicaid (Title XIX) programs.

B. Deputy Regional Director (1E8902). Serves as Acting Regional Director in the absence or disability of the Regional Director or in the event of a vacancy in the Office of Regional Director. The Deputy Regional Director performs other duties and functions at the request of the Regional Director.

C. Executive Secretariat (1E8905). Monitors the decision-making process for the Regional Director, facilitates the internal processes of coordination and communication, and ensures timely and quality staff work in response to all action requests, as follows:

a. Controls Regional Director's correspondence, assigns responsibility or advises the Regional Director on the assignment of responsibility on action correspondence. Reviews prepared correspondence for timeliness, technical accuracy, responsiveness, appropriate clearances, and consistency with the Regional Director's and Department's objectives.

b. Serves as the coordinating point for all official matters which require the attention or approval of the Regional Director. Assigns responsibility for action requests. Reviews and analyzes memoranda and other communication for adequacy of coordination and clearances, clarity and conciseness of presentation, timeliness, necessary followthrough, and other elements of completed staff action.

c. Operates a comprehensive system for tracking action items to ensure timely and quality input from all Regional Office components for the Regional Director. Works with all appropriate offices to improve the quality of decision papers and correspondence, and monitors the document control and flow systems to identify problem areas for communication systems improvement.

d. Communicates decisions and monitors their implementation for the Regional Director by obtaining periodic status reports on selected key issues and projects, ensures proper compliance with past decisions, and highlights problem areas for renewed Regional Director attention. Attends Regional Director's meetings to record decisions and action requests and follows through to ensure implementation.

D. Office of the Regional Attorney (1E8903). The functions of the Office of the Regional Attorney are as follows:

1. Advises and counsels the Regional Director and operating program personnel on legal issues relating to their responsibilities within the region. On all matters within the competence of the legal profession the Regional Attorney is subject to the supervision of the General Counsel; on all other matters he is subject to the supervision of the Regional Director.

2. As requested by the Regional Director, assists in legal aspects of program development and of policy problem solution;

3. Provides professional legal services, such as preparation of legal instruments, memoranda, reports, and interpretive analyses;

4. Represents or counsels the Regional Director in negotiations to resolve actual and potential problems of a legal nature;

5. Provides appropriate legal assistance to state agencies and officials in connection with DHEW programs, as requested by the Regional Director;

6. As requested by the General Counsel, prepares for and conducts administrative hearings, aids the U.S. attorney in preparation for and conduct of litigation, and performs such other duties as may be requested by the General Counsel;

7. Seeks to so order his time and workload priorities as to meet the needs of the Regional Office as determined by the Regional Director;

8. Subject to final approval by the Regional Director, selects, promotes, and takes all personnel actions with respect to his professional and clerical staff, in accordance with the personnel policies of the Office of the General Counsel.

E. Office of Equal Employment Opportunity (1E8904). Serves as the Regional Director's staff for the establishment and maintenance of a positive program of non-discrimination in Departmental employment in the Region. Has responsibility for the Regional HEW Federal Women's Program and the Regional Spanish-Surnamed Program. Monitors the OS EEO complaint system and issues proposed dispositions on all OS formal complaints. Prepares the Regional Annual Affirmative Action Plan.

F. Office of Long Term Care Standards Enforcement (1E8971). Performs these functions as follows:

1. Provides recommendations to the Regional Director on administrative actions necessary to carry out those portions of Titles XVIII and XIX of the Social Security Act related to the certification by State agencies of skilled nursing facilities (SNFs) for participation in the Medicare and Medicaid programs. Those activities, within the region, which pertain to Title XVIII and the Title XIX certification include: the Issuance of Title XVIII time limited agreements; for homes participating under Title XVIII and XIX, the approval of corrective plans of action for deficiencies in SNFs which participate either as components of larger institutions or as free standing units; granting waivers of provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) or provisions of Standard No. A117.1 of the American National Standards Institute, and waivers of certain other provisions of physical environment standards as

V40169 APR 9 75 XUM

they pertain to SNFs; public disclosure of State agency reports of deficiencies in SNF compliance with standards in accordance with section 1864(a) of the Social Security Act; approval of State fire codes in lieu of the Life Safety Code; and granting waivers, under specified circumstances, of the requirement that an SNF have on duty more than one registered nurse more than 40 hours per week.

2. Establish and maintain close working relationships with administrators of State health, welfare, and other departments involved under established agreements in the certification of and assistance to SNFs and ICFs. Perform evaluations of: State agency performance with respect to enforcing health and safety standards for SNFs and ICFs; and the State agencies' recommendations for waivers of provisions of the 1967 Life Safety Code with respect to SNFs and ICFs. Monitor States' Implementation of the ICF regulations.

3. Participate in the negotiations of budgets with State survey agencies for their services and review those portions of the State agency budget relative to SNF/ICF certification and the provision of state consultative services to SNFs and ICFs and recommend to the Social Security Administration (SSA), Regional Commissioner and to the Social and Rehabilitation Service (SRS), Regional Commissioner, amounts that should be approved for SNF and ICF certification and certification-related activities.

4. Participate with other appropriate Federal programs in evaluations of State agency certification operations which are designed to assess State survey agency performance in program management, in applying established health, safety, and Life Safety Code standards and in evaluating quality of care (e.g., participates in SSA's comprehensive program reviews of State survey agency performance and in SRS's program reviews of the Title XIX single state agency).

5. Develop and implement procedures to assure the timely and effective conduct of the following: (a) State surveys of individual SNFs and ICFs, (b) Federal review and processing of State agency certifications and documentation pertaining to SNF compliance, (c) Federal decisions approving agreements, terminations or the granting of waivers to SNFs and (d) Federal direct validation surveys of selected SNF and ICF facilities.

6. Provide technical assistance for the professional training of State agency personnel on their duties in survey/certification and evaluation of the functional performance of SNFs and ICFs with respect to the quality of health care delivered.

7. Assist State agencies to develop their capabilities for the provision of specialized technical assistance to SNFs and ICFs on highly complex aspects of the survey requirements and on the development of acceptable plans of corrective action for overcoming deficiencies.

8. Assist States, provider organizations, and educational institutions in the stimulation, development, and implementation of training opportunities for SNF and ICF personnel in order to correct deficiencies and upgrade the quality of care offered, including mental health aspects of long term care.

9. Review complaints received by the Regional Directors concerning State agency and SNF/ICF activities and initiate appropriate action for investigation and resolution.

10. With SSA, SRS and the Public Health Service (PHS), as appropriate, provide information and interpretations concerning standards for the delivery of SNF and ICF services to media, consumer and provider groups, professional health associations, and other health and welfare groups.

11. Based on regional conditions and trends related to SNFs and ICFs, make recommendations to the Office of Nursing Home Affairs (ONHA) or through ONHA, to the headquarters components of SSA, PHS and SRS, as appropriate, on revisions to present program policies criteria, standards or procedures.

12. Provide data and reports to ONHA on SNF/ICF survey/certification activities on SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health services. Provided reports to SSA, SRS, and PHS on the status of SNF and ICF facility compliance in the region.

13. Work with and provide information as requested to, the Social Security Administration, on the following SNF related activities:

a. Utilization review processes of SNFs;

b. Change of provider status in the Medicare program (e.g., change of ownership, termination because of failure to provide proper financial information or because of requests for payment substantially in excess of costs or for improper or unnecessary services, or withdrawal from program);

c. Certification of SNFs as a "distinct part" of another facility; and

d. Requests for hearings on terminated SNFs participating in Medicare.

14. Work with, and provide information as requested to, the Social and Rehabilitation Service, on the following SNF and ICF related activities:

a. Utilization and periodic medical review procedures for SNFs;

b. Utilization and independent professional review procedures for ICFs;

c. Level of care determinations;

d. Recipient eligibility issues; and

e. Cost-sharing requirements.

15. Work with, and provide information as requested to, the Public Health Service on the following SNF and ICF related activities:

a. Health care standards development efforts of the Bureau of Quality Assurance;

b. Utilization review determinations under Professional Standards Review Organizations;

c. Provider improvement program initiatives of the Health Resources Administration;

d. Comprehensive health planning determinations under section 1122 of the Social Security Act; and

e. Other relevant SNF and ICF program activities conducted by the Health Resources Administration, Health Services Administration, Alcohol, Drug Abuse, and Mental Health Administration, National Institutes of Health, Center for Disease Control, and the Food and Drug Administration.

16. Coordinate with the Office of Human Development in the areas of their delegated responsibilities for, and concern with, the mentally retarded and aging.

17. Coordinate, under the Office for Civil Rights in monitoring the implementation of Title VI of the Civil Rights Act of 1964 with respect to SNFs and ICFs.

18. Coordinate, under the direction of the Regional Director, with regional personnel of the Office of Facilities Engineering and Property Management on matters relating to the interpretation and enforcement of provisions of the Life Safety Code.

19. Coordinate with the Department of Housing and Urban Development in implementation of Public Law 93-204.

G. Office of the Assistant Regional Director for Public Affairs (1E8951). Serves as a principal advisor to the Regional Director in the formulation of policies, approaches, and procedures in the field of public information and in the formulation of approaches to major policy issues and has a broad range of responsibility in developing overall strategies and techniques for long range Public Affairs activities, in line with the Secretary's policy and the trend toward inter-agency coordination and Departmental control.

2. Advises key officials of the Regional Office, including the Regional Director and agency representatives on public information, public reporting, and related aspects of program matters.

3. Serves as a central point of communication with the press, radio and TV news media, issuing all news materials originating within the Regional Office and amplifying, clarifying or explaining the impact and effect within the Region of national news issued by Departmental headquarters.

4. Is responsible for overall program supervision of the Regional Office's total public information program. Coordinates and exercises functional supervision over information services and all other activities of the Regional Office related to publications, public reports, and other informational and public affairs matters. Is responsible for the clearance of all information for public distribution before its release and certification as to the necessity for illustrations and related materials.

5. Prescribes procedures for planning, production, clearance, release, and distribution of all material prepared with

the Region for release through Government channels.

6. Issues policies, standards, and procedures as may be necessary to carry out the public affairs functions and responsibilities of the Regional Office.

H. Office of the Assistant Regional Director for Planning and Evaluation (1E9961). (Reserved.)

I. Office of the Assistant Regional Director for Intergovernmental Affairs (1E8941). (Reserved.)

J. Office of the Assistant Regional Director for Financial Management (1E8902).

1. Provides financial management support to the Regional Director and Regional agency heads for decentralized programs and activities. Under policies and procedures established by the Office of the Assistant Secretary, Comptroller, supervises the performance of the following financial management functions: accounting and financial reporting, budget formulation and execution, and work with State and local government and HEW grantees to include indirect cost negotiation, single letter of credit implementation, technical assistance, and audit follow-up.

2. On behalf of the Regional Director, provides coordination and liaison with the HEW Audit Agency, the Treasury Department, the General Services Administration, and the General Accounting Office on financial management matters.

3. Is responsible for the financial administration and management of allotments or allowances which are issued to the Regional Director.

4. Performs Regional accounting and reporting activities: accounting, comptrolling, fiscal services, and reporting for all HEW activities for which the Regional Director is delegated the authority to provide such services.

5. Performs budget activities as follows: Prepares the Regional budget for activities for which the Regional Director has delegated authority and assists other Regional staffs in developing their budgets; prepares consolidated Regional budget estimates and justifications and assists the Regional Director and Regional agency heads in advocating program budget priorities for centralizing and decentralizing programs based on Regional needs and characteristics; supervises budget execution in the Region including the recording and distribution of budget resources based on allocations, allotments and allowances for Regional activities; prepares recommended allowances and manpower allocations for activities delegated directly to the Regional Director; oversees the development of financial operating plans for other Regional activities, reviews these plans, and provides comments to the Regional Director and other Regional personnel; develops and implements a budget data system capable of monitoring financial operating plans and maintaining current information of fund availability for Regional programs; and receives Regional personnel ceiling allowances and monitors recruitment and employment against these allowances.

6. Carries on cost allocation and payment systems activities as follows: Pursuant to delegations of authority from the Regional Director is responsible for indirect cost rate negotiations (including State and local cost allocation plans) based on cost policies and procedures established by the Division of Financial Management Standards and Procedures; provides financial management technical assistance to State and local governments and to other HEW grantees and contractors; assists the Office of the Assistant Secretary, Comptroller, to develop the single letter of credit system within the Region; and assists the Regional Director and Regional agency heads in assuring effective follow-up of audit findings of major managerial significance as disclosed by reviews of grantees' management systems.

K. Office of the Assistant Regional Director for Administration and Management (1E8911).

1. Serves as the principal adviser to the Regional Director on and directs or participates actively in all aspects of administrative management.

2. Plans, develops, coordinates and implements internal regional policy regarding administrative services and management practices with the agencies in the Regional Office. These include policies in the following areas: office space, allocation, travel, personnel actions, management surveys, organization, management information, security, travel, natural disaster, procurement, duplicating services and a variety of other key administration and management policies.

3. Administers the following operations related to provision of regional administration and management services to the agencies:

a. Regional Personnel Division;

b. Office Services Division;

c. Management Analysis Division;

d. Management Information Division.

4. Administers the following operations which provide program support to Regional agencies:

a. Surplus Property Division;

b. Facilities Engineering and Property Management Division;

c. Environmental Affairs Division.

5. Represents the Regional Director in labor-management relations including contract negotiations and consultation with regional labor union representatives.

6. Provides advice and counsel to all regional managers on administration and management concerns in the region.

Section 1E89.30 Relationships to Agency Regional Staffs and Regional Audit and Regional Civil Rights Staff. Agency regional staffs and Regional Civil Rights and Regional Audit staffs are under the line direction and control of their parent headquarters organizations. The regional staffs are subject to the general leadership and coordination of the Regional Director and receive administrative, financial, and other support services from him and his staff. The functional statements for these offices are to be found with the statements of their parent organizations.

Section 1E89.40 Order of Succession. In the absence or disability of the Regional Director, the Deputy Regional Director serves as acting Regional Director. In the event of the absence or disability of both the Regional Director and Deputy Regional Director and where there is a vacancy in both positions, the Secretary or Under Secretary will designate the acting Regional Director.

Section 1E89.50 Delegation of Authority. The delegations of authority to the Regional Director to operate programs are:

A. Long Term Care Standards Enforcement.

1. Regional Directors have been delegated the following authorities under Title XVIII of the Social Security Act, as amended, which pertain to skilled nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. To approve or disapprove certifications made by State agencies under the provisions of section 1864(a), that a health care institution is or is not a skilled nursing facility as defined in section 1861(j);

b. To enter into agreements with skilled nursing facilities as provided in section 1866(a), including authority to determine the term of such agreements;

c. To terminate agreements, under the provisions of section 1866(b)(2)(B), with skilled nursing facilities where such facilities no longer substantially meet the requirements of section 1861(j);

d. To waive, for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Association (21st edition, 1967) as provided in section 1861(j)(13);

e. To determine, in accordance with section 1861(j)(13), that the Life Safety Code of the National Fire Protection Association (21st edition, 1967) is not applicable in a State because a fire and safety code, imposed by State law, adequately protects patients in skilled nursing facilities;

f. To waive the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in section 1861(j)(15);

g. To waive in accordance with 20 CFR 405.1134(c), for such periods as are deemed appropriate, specific provisions of American National Standards Institute Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped;

h. To waive, based on regulations, 20 CFR 405.1134(e), requirements relating to the number of beds per room and the minimum size for rooms in skilled nursing facilities; and

V40169 APR 9 75 XUM

1. To determine, under the provisions of section 1864(a), that State agency survey reports (including reports of follow-up reviews), and statements of deficiencies based upon official survey reports, relating to the certification of skilled nursing facilities for compliance with the applicable provisions of Section 1861 are final and official. This includes the authority to: (1) assure that references to internal tolerance rules and practices are excluded from such reports or deficiency statements; (2) determine that such reports and deficiency statements have not identified individual patients, physicians, other practitioners, or individuals; (3) determine that involved skilled nursing facilities have been afforded a reasonable opportunity to offer comments; and (4) make final and official reports and deficiency statements available to the public in readily accessible form and place, along with any pertinent written statements submitted by skilled nursing facilities.

2. Regional Directors have been delegated the following authorities under Title XIX of the Social Security Act, as amended, which pertain to nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. Authority under the provisions of section 1910(b) to notify the State agency administering the Title XIX State plan of the approval or disapproval of any institution which has applied for certification under Title XVIII, and the term of such approval.

b. Authority to waive, for Title XIX skilled nursing facilities for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) as provided in section 1861(j)(13) of the Social Security Act.

c. Authority to waive for Title XIX skilled nursing facilities the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in section 1861(j)(15) of the Social Security Act.

d. Authority vested in the Secretary under section 1905(c) of the Social Security Act to certify intermediate care facilities located on Indian reservations.

e. Authority vested in the Secretary under section 1905(h) of the Social Security Act to certify skilled nursing facilities located on Indian reservations.

B. *Office of Surplus Property Utilization.*

1. Regional Directors have been delegated certain authority which may not be redelegated as follows:

a. Real property. This delegation relates to the conveyance and utilization of surplus real property and related personal property for educational and public health purposes, pursuant to section 203(k) of the Federal Property and Administrative Services Act of 1949, as amended. Each Regional Director, consistent with policies and procedures set for in applicable regulations of the Department, is authorized:

(1) To execute deeds, contracts of sale, and all instruments incident or corollary to the transfer of land and improvements thereon, or in modification of previous transfers with respect to land and improvement cost of property where less than $1 million;

(2) To execute all instruments of conveyance or in modification of previous transfers with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing the transaction by the Regional Office; and

(3) To execute all instruments of conveyance relating to the transfer of improvements located outside his jurisdiction and intended for removal to and use within his jurisdiction.

b. Personal property. To act or designate a member of his staff (other than the SPU Regional Representative) to act as reviewing officer to approve or disapprove determinations by the Regional Representative authorizing State Agencies to abandon or destroy surplus personal property having a line item acquisition cost of $1,000 or more.

2. Regional Directors have been delegated certain authority related to real property which they may redelegate in writing to the SPU Regional Representative as follows:

a. Consistent with policies and procedures set forth in applicable regulations of the Department, to perform or take the actions stated below, with respect to disposal and utilization of surplus real and related personal property.

(1) To request and accept assignments from Federal agencies of:

(a) Improvements for removal and use away from the site;

(b) Improvements for removal to and use in another regional jurisdiction; and

(c) Land and improvements thereon where the acquisition and improvement cost of the property was less than $1 million.

(2) To make determinations incident to the disposal of assigned property described in a(1)(a) and a(1)(c) above;

(3) To issue and execute licenses and interim permits affecting assigned property described in a(1)(a) and a(1)(c) above;

(4) To execute instruments of transfer relative to property described in a(1)(a) above; except in those cases provided for in A 1a(3).

(5) Except for execution of instruments of conveyance or in modification of previous transfers, to take all action with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Director; and

(6) Incident to the exercise of the authority hereinbefore provided to receive remittances and performance guarantee deposits and bonds, to request forfeiture or release of performance bonds.

b. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to the disposal of educational and public health purposes of surplus real property improvements and related personal property located outside his jurisdiction, but intended for removal to and use within his jurisdiction, to take actions set forth in a(2), (a)(3), and a(6) above.

c. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to property within his jurisdiction previously conveyed for educational and public health purposes:

(1) To make determinations concerning the utilization and the enforcement of compliance with the terms and conditions of disposal of:

(a) Improvements for removal and use away from the site; and

(b) Land and any improvements thereon regardless of the acquisition and improvement cost;

(2) To accept voluntary reconveyances and to effect reverter of title to land and improvements located thereon, without regard to acquisition cost;

(3) To report to the General Services Administration revested properties excess to program requirements in accordance with applicable regulations;

(4) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in this paragraph; and

(5) Incident to the exercise of the authority delegated in this paragraph, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

d. With respect to the States within the jurisdiction of his region, consistent with the policies and procedures of the Department, to enter into cooperative agreements, under section 203(n) of the Act, with State Agencies for Surplus Property.

3. Regional Directors may redelegate in writing the following authority related to personal property to the SPU Regional Representative: the latter may likewise redelegate in writing the authority to the Assistant Regional Representative. Regional Representative may also redelegate in writing to his allocator(s) the authority stipulated in a(1)(a), a(1)(b), and a(1)(e), insofar as a(1)(e) pertains to a(1)(a) and a(1)(b):

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To perform or take the actions stated below with respect to the allocation for donation of surplus personal property located within his jurisdiction for educational, health, or civil defense purposes.

(a) To make determinations concerning the usability of an need for surplus personal property by educational or health institutions and civil defense organizations;

(b) To allocate surplus personal property and to take all actions necessary to accomplish donation, or transfer of property so allocated;

(c) To make determinations of eligibility of educational and public health donees to acquire donable property;

(d) To designate individuals recommended by State agencies as State representatives for the purpose of inspecting and screening surplus personal property; and

(e) To execute all instruments, documents, and forms necessary to carry out, or incident to the exercise of, the foregoing authority.

(2) To allocate property within his jurisdiction to any other regional jurisdiction and to take the actions set forth in (1)(b) above in connection with such out-of-region allocation.

(3) To take the actions set forth in (1)(b), (c), and (e) above in connection with any property that is available for transfer to his jurisdiction from another region.

(4) With respect to personal property located within his jurisdiction and in possession of State agencies for subsequent donation for educational, public health, and civil defense purposes:

(a) To effect redistribution of usable and needed property to other State agencies;

(b) To authorize and execute instruments necessary to carry out cannibalization, secondary utilization, and revision of acquisition cost of property;

(c) To recommend to GSA for disposal, property excess to the needs of State agencies; and

(5) With respect to personal property located within his jurisdiction previously donated for educational and public health purposes:

(a) To make determinations and take actions appropriate thereto concerning the utilization of such property, including retransfer and the enforcement of compliance with terms and conditions which may have been imposed on and which are currently applicable to such property;

(b) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in (a) above;

(c) To recommend to GSA for disposal, property excess to the needs of donees, except boats over 50 feet in length and aircraft;

(d) Incident to the exercise of the authority delegated in this paragraph, to request refunds or payments; and

(e) To authorize and execute instruments necessary to carry out sales, abrogations, revision of the period of restriction, secondary utilization or cannibalization, revision of acquisition cost, trade-in of an item on a similar replacement, and destruction or abandonment of property in the custody of donees.

(6) With respect to the States within the jurisdiction of his region, to approve State plans of operation and amendments thereto submitted by State agencies for surplus property: Provided, however, That disapproval of a State plan in whole or in part is concurred in by the Director, Office of Surplus Property Utilization.

(7) With respect to the States within the jurisdiction of his region, to enter into cooperative agreements, under section 203(n) of the Act, with State agencies for surplus property of such States, either individually or collectively.

4. Regional Representatives have been delegated certain authority related to personal property directly by the Director of the Office of Surplus Property Utilization: the authority may be redelegated in writing to the Assistant Regional Representative:

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To authorize destruction or abandonment by a determination in writing that the property has no commercial value, subject, however, to approval of such determination in the case of property having a line item acquisition cost of $1,000 or more, by a reviewing officer before authorization to destroy or abandon is given to the State agency.

C. *Office of Human Development.*

1. Regional Directors have been delegated the certain authorities by the Assistant Secretary for Human Development as follows:

a. Under the general policies and in such form as prescribed by the Director, Office of Child Development (and approved by the Assistant Secretary for Human Development) and in conformity to the allocations and financial guidelines of the Director, Office of Child Development to make grants under section 511 of the Community Services Act of 1974 (Project Head Start)., except insofar as such grants are for programs which primarily serve migrants or Indians living on Federal reservations. This authority may be redelegated.

b. Under the general policies and in such form as prescribed by the Assistant Secretary for Human Development and in conformance with the allocations and financial guidelines issued by him, Regional Directors are authorized to make grants or contracts under the authority of Title I of the Juvenile Delinquency Prevention Act. The Regional Director is authorized to redelegate this authority only to the Assistant Regional Director for Human Development without the concurrence of the Assistant Secretary for Human Development.

c. To make grants and contracts for Urban Indian Projects under the authority of section 803 of the Community Services Act of 1974.

d. To make, amend, suspend, and cancel the grants and contracts authorized in "a", "b" and "c" above and to issue audit disallowances as well as to receive appeals on and make final decisions on such disallowances.

Dated: April 2, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[FR Doc.75-9237 Filed 4-8-75;8:45 am]

OFFICE OF THE REGIONAL DIRECTOR, REGION II

Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary is amended to delete sections 1E (35 FR 13546), 8/25/70, and 1E8109 (39 FR 20713) 6/13/74. Section 1E80, Assistant Regional Director for Human Development (38 FR 17262) 6/29/73, is retained and redesignated 1R95. New sections are added for the several regions. Section 1E82 reflects the official organization of the Office of the Regional Director, Region II, whose headquarters is New York, New York. The new chapter reads as follows:

SECTION 1E82.00 *Mission.* The Regional Director represents the Secretary in Region II. Under the Regional Director's direction, the Office of the Regional Director provides leadership and coordination in various Department programs and activities within the Region and represents the Department in direct official dealings with State and other governmental units, representatives of the Congress, and the general public.

SEC. 1E82.10 *Organization.* The Office of the Regional Director, Region II, is under the direction and control of the Regional Director who reports directly to the Secretary and Under Secretary, and consists of the following:

1. Regional Director
2. Deputy Regional Director
3. Executive Secretariat
4. Office of the Regional Attorney
5. Office of Equal Employment Opportunity
6. Office of Long Term Care Standards Enforcement
7. Office of the Assistant Regional Director for Public Affairs
8. Office of the Assistant Regional Director for Planning and Evaluation
9. Office of the Assistant Regional Director for Intergovernmental Affairs
10. Office of the Assistant Regional Director for Program Coordination
11. Office of the Assistant Regional Director for Management & Finance
    a. Regional Personnel Office
    b. Regional Office Service Office
    c. Regional Office of Surplus Property Utilization
    d. Regional Office of Facilities Engineering & Construction
12. Office of the Assistant Regional Director for Human Development
13. Special Assistant to the Regional Director for Program & Policy Analysis
14. Regional Audit Agency
15. Regional Office for Civil Rights

SEC. 1E82.20 *Functions.* A. *Regional Director (1E8201).* The Regional Director:

1. Serves as the Secretary's representative in direct official dealings with State and other governmental units, and evaluates Regional, State, and local activities related to the Department's programs.

2. Develops regional priorities which emphasize the Department goals and highlight areas of particular needs or opportunities in the region, so that efforts and resources may be brought to bear on

V 40 69 APR 9 75 XUM

them. Formulates regional plans for each priority and assures that regional agency heads achieve all their objectives in accordance with their plans. Conducts formalized planning conferences with regional representatives to assure a complete exchange of significant management information.

3. Exercises general coordination and supervision of personnel and activities in the region to ensure proper execution of policies, regulations, and instructions applicable to the Department as a whole. Recognizes interprogram disparities, exercises leadership to keep these disparities within constructive limits to assure effective, efficient, and responsive actions in the interest of total service to the public.

4. Assures that staff offices provide full support to agency operating programs.

5. Provides coordination of the activities of the principal representatives of the principal operating components who are stationed in or detailed to the region; in consultation with these representatives engages in the development of plans for concerted activities aimed at fulfilling both their objectives and those of the Office of the Regional Director.

6. Through coordination and supervision, exercises leadership in bringing about necessary awareness of the status of other programs of the Regional Office, and fosters cooperative relationships among program and staff representatives in seeing that plans are effectively made, operations are smoothly carried out, and performance is adequately evaluated.

7. Promotes general public understanding of the programs, policies, and objectives of the Department, and participates in the development and carrying out of a Regionwide public information program.

8. Establishes and maintains working relationships with Governors and key State and local officials; furnishes advice and assistance and strives to develop a mutually beneficial Federal-State-local partnership. Provides guidance to regional staff members on the priorities, emphases, and merits of various requirements based on expressions of need and analyses by governors, mayors, and other key officials.

9. Maintains working relationships with private agencies and institutions; develops ways in which their plans and programs and those of the Department can actively complement each other.

10. Develops continuing cooperative relationships with officials of the Federal agencies in the Region; through the medium of the Federal Regional Council seeks ways in which interdepartmental delivery of program services can be made more effective.

11. In accordance with regulations and guidelines established at headquarters, administers those programs operated in the region for which authority for such administration has been delegated.

12. Through liaison, periodic conferences, and other means, takes action to coordinate and integrate activities which are not directly associated with the regional office.

13. Develops plans for emergency preparedness and directs all Department activities necessary to ensure continuity of essential functions within the Region in case of an emergency due to enemy action; maintains a written plan for regional emergency operations; maintains liaison with all Federal authorities engaged in mobilization planning; acts in cooperation with them in an emergency situation; directs on behalf of the Secretary all Department activities in the Region if communications with national headquarters are cut off.

14. Directs regional activities for assistance and alleviation of distress within the region resulting from natural disasters, maintains a plan for regional response to natural disasters, including emergencies and major disasters under the Disaster Relief Act of 1974, Pub. L. 93–288; takes all necessary and appropriate action in connection with disaster situations and reports thereon.

15. In accordance with regulations and guidelines established at headquarters, administers, through the Office of Long Term Care Standards Enforcement, activities as herein described relating to the approval and termination of agreements with skilled nursing facilities for the purpose of participation in either the Medicare (Title XVIII) or in both the Medicare and Medicaid (Title XIX) programs.

B. *Deputy Regional Director (1E8202).*

The Deputy Regional Director, under the guidance and direction of the Regional Director, shares the responsibility for carrying out the Department's policies and for managing the overall administration of the Department's programs in the region. The Deputy provides direct support to the Regional Director in his role as the Secretary's representative and general manager of the region.

1. In the absence of the Regional Director, the Deputy Regional Director serves as Acting Regional Director. He promotes established policies with full responsibility, and he administers all activities of the Regional Office.

2. The Deputy Regional Director assumes a major responsibility for establishing avenues of communication and coordination among all components of the Regional Office and assists the Regional Director with interdepartmental, intergovernmental and community responsibilities.

3. The Deputy Regional Director assists the Regional Director in developing Regional policy. He reports significant internal and external developments which would be helpful to the Regional Director in the decision making process.

C. *Executive Secretariat (1E8205).*

The Executive Secretariat monitors the decision-making process for the Regional Director and facilitates the internal processes of coordination and communication, as follows: 1. Screens Regional Director's correspondence and filters out those items which require immediate attention by the Regional Director and Regional Director's staff, as well as the assignment of time deadlines for Regional Director's action items. Takes appropriate action to clarify issues and instructions before a request for information is forwarded to the appropriate action office. Provides current and consolidated information or indicates where such information may be obtained for all policy issues and projects in the Region.

2. Operates a comprehensive system for tracking action items and ensures that the Region Director has timely and quality input from all appropriate offices on which to base his decisions. Assures that all outgoing correspondence are quality products that represent the best possible presentation of the Regional Director's views; synthesizes detailed responses from various offices into a single document for outgoing correspondence going to the Secretary and other Headquarters units, and for Regional Director's decision memoranda.

3. Provides for feedback to the Regional Director on the impact of his decisions. By obtaining periodic status reports on selected key issues and projects, ensures proper compliance with past decisions, highlights problem areas for renewed Regional Director's attention, and develops an ever current supply of data for management conferences and for responding to incoming requests from the Secretary, various elected officials, and regional staff.

D. *Office of the Regional Attorney (1E8203).* The Regional Attorney serves as the legal adviser to the Regional Director and as chief legal officer for the DHEW programs and activities served by the Office of the Regional Director. On all matters within the competence of the legal profession, the Regional Attorney is subject to the supervision of the General Counsel; on all other matters, he is subject to the supervision of the Regional Director.

The office of the Regional Attorney: 1. Advises and counsels the Regional Director and operating program personnel on legal issues relating to their responsibilities within the region;

2. As requested by the Regional Director, assists in legal aspects of program development and of policy problem solution;

3. Provides professional legal services, such as preparation of legal instruments, memoranda, reports, and interpretive analyses;

4. Represents or counsels the Regional Director in negotiations to resolve actual and potential problems of a legal nature;

5. Provides appropriate legal assistance to state agencies and officials in connection with DHEW programs, as requested by the Regional Director;

6. As requested by the General Counsel, prepares for and conducts administrative hearings, aids the U.S. Attorney in preparation for and conduct of litigation, and performs such other duties as may be requested by the General Counsel;

7. Seeks to so order his time and workload priorities as to meet the needs of the Regional Office as determined by the Regional Director;

8. Subject to final approval by the Regional Director, selects, promotes, and takes all personnel actions with respect to his professional and clerical staff, in accordance with the personnel policies of the Office of the General Counsel.

E. *Office of Equal Employment Opportunity (1E8204).* The Regional Office of Equal Employment Opportunity serves as the Regional Director's staff for the establishment and maintenance of a positive program of non-discrimination in Departmental employment in the Region. Has responsibility for the Regional HEW Federal Women's Program and the Regional Spanish-Surnamed Program. Monitors the Regional Equal Employment Opportunity Complaint System and issues proposed dispositions on all Office of the Secretary formal complaints. Prepares the Regional Annual Affirmative Action Plan.

F. *Office of Long Term Care Standards Enforcement (1E8271).* The Regional Office of Long Term Care Standards Enforcement: 1. Provides recommendations to the Regional Director on administrative actions necessary to carry out those portions of Titles XVIII and XIX of the Social Security Act related to the certification by State agencies of skilled nursing facilities (SNFs) for participation in the Medicare and Medicaid programs. Those activities, within the region, which pertain to Title XVIII and the Title XIX certification include: the issuance of Title XVIII time limited agreements for homes participating under Title XVIII or under both Titles XVIII and XIX, the approval of corrective plans of action for deficiencies in SNFs which participate either as components of larger institutions or as free standing units; granting waivers of provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) or provisions of Standard No. A117.1 of the American National Standards Institute, and waivers of certain other provisions of physical environment standards as they pertain to SNFs; public disclosure of State agency reports of deficiencies in SNF compliance with standards in accordance with section 1864(a) of the Social Security Act; approval of State fire codes in lieu of the Life Safety Code; and granting waivers, under specified circumstances, of the requirement that an SNF have on duty more than one registered nurse more than 40 hours per week.

2. Establishes and maintains close working relationships with administrators of State health, welfare, and other departments involved under established agreements in the certification of and assistance to SNFs and Intermediate Care Facilities (ICFs). Perform evaluations of: State agency performance with respect to enforcing health and safety standards for SNFs and ICFs; and the State agencies' recommendations for waivers of provisions of the 1967 Life Safety Code with respect to SNFs and ICFs. Monitor States' implementation of the ICF regulations.

3. Participates in the negotiations of budgets with State survey agencies for their services and reviews those portions of the State agency budget relative to SNF/ICF certification and the provision of State consultative services to SNFs and ICFs and recommends to the Social Security Administration (SSA), Regional Commissioner and to the Social and Rehabilitation Service (SRS), Regional Commissioner, amounts that should be approved for SNF and ICF certification and certification-related activities.

4. Participates with other appropriate Federal programs in evaluations of State agency certification operations which are designed to assess State survey agency performance in program management, in applying established health, safety, and Life Safety Code standards and in evaluating quality of care (e.g., participates in SSA's comprehensive program reviews of State survey agency performance and in SRS's program reviews of the Title XIX single state agency).

5. Develops and implements procedures to assure the timely and effective conduct of the following: (a) State surveys of individual SNFs and ICFs, (b) Federal review and processing of State agency certifications and documentation pertaining to SNF compliance, (c) Federal decisions approving agreements, terminations or the granting of waivers to SNFs and (d) Federal direct validation surveys of selected SNF and ICF facilities.

6. Provides technical assistance for the professional training of State agency personnel on their duties in surveys/certification and evaluation of the functional performance of SNFs and ICFs with respect to the quality of health care delivered.

7. Assists State agencies to develop their capabilities for the provision of specialized technical assistance to SNFs and ICFs on highly complex aspects of the survey requirements and on the development of acceptable plans of corrective action for overcoming deficiencies.

8. Assists States, provider organizations, and educational institutions in the stimulation, development, and implementation of training opportunities for SNF and ICF personnel in order to correct deficiencies and upgrade the quality of care offered, including mental health aspects of long term care.

9. Reviews complaints received by the Regional Director concerning State agency and SNF/ICF activities and initiates appropriate action for investigation and resolution.

10. With SSA, SRS and the Public Health Service (PHS), as appropriate, provides information and interpretations concerning standards for the delivery of SNF and ICF services to media, consumer and provider groups, professional health associations, and other health and welfare groups.

11. Based on regional conditions and trends related to SNFs, and ICFs, makes recommendations to the Office of Nursing Home Affairs (ONHA) or through ONHA, to the headquarters components of SSA, PHS and SRS, as appropriate, on revisions to present program policies criteria, standards or procedures.

12. Provides data and reports to ONHA on SNF/ICF survey/certification activities, on SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health services. Provide reports to SSA, SRS, and PHS on the status of SNF and ICF facility compliance in the region.

13. Works with and provides information as requested to, the Social Security Administration, on the following SNF related activities: a. Utilization review processes of SNFs;

b. Change of provider status in the Medicare Program (e.g., change of ownership, termination because of failure to provide proper financial information or because of requests for payment substantially in excess of costs or for improper or unnecessary services, or withdrawal from program);

c. Certification of SNFs as a "distinct part" of another facility; and

d. Requests for hearings on terminated SNFs participating in Medicare.

14. Works with, and provides information as requested to, the Social and Rehabilitation Service, on the following SNF and ICF related activities: a. Utilization and periodic medical review procedures for SNFs;

b. Utilization and independent professional review procedures for ICFs;

c. Level of care determinations;

d. Recipient eligibility issues; and

e. Cost-sharing requirements.

15. Works with, and provides information as requested to, the Public Health Service on the following SNF and ICF related activities: a. Health care standards development efforts of the Bureau of Quality Assurance;

b. Utilization review determinations under Professional Standards Review Organizations;

c. Provides improvement program initiatives of the Health Resources Administration;

d. Comprehensive health planning determinations under section 1122 of the Social Security Act; and

e. Other relevant SNF and ICF program activities conducted by the Health Resources Administration, Health Services Administration, Alcohol, Drug Abuse, and Mental Health Administration, National Institutes of Health, Center for Disease Control, and the Food and Drug Administration.

16. Coordinates with the Office of Human Development in the areas of their delegated responsibilities for, and concern with, the mentally retarded and aging.

17. Coordinates, under the Office for Civil Rights, in monitoring the implementation of Title VI of the Civil Rights

V40169 APR 9 75 XUM

Act of 1964 with respect to SNFs and ICFs.

18. Coordinates, under the direction of the Regional Director, with the personnel of the Regional Office of Facilities Engineering and Construction on matters relating to the interpretation and enforcement of provisions of the Life Safety Code.

19. Coordinates with the Department of Housing and Urban Development in implementation of Public Law 93–204.

G. *Office of the Assistant Regional Director for Public Affairs (1E8251).* The Office of Assistant Regional Director for Public Affairs:

1. Serves as principal advisor to the Regional Director in the formulation of policies, approaches, and procedures in the field of public information and in the formulation of approaches to major policy issues and has a broad range of responsibility in developing overall strategies and techniques for public affairs activities, in line with the Secretary's policies and the trend toward interagency coordination and centralization of Public Affairs activities in the Region.

2. Provides briefing material and other intelligence for visits to the region by the President, Vice President, the Secretary, the Under Secretary, and other top officials, including members of Congress; advances the Secretary and travels with him in the region; handles external public affairs affecting national and international organizations; handles special assignments for the President and his aides and the Secretary and his aides.

3. Works closely with national and international news media, national book and magazine publishers and freelance writers, serves as Regional Representative in initially meeting and dealing with groups demonstrating in Region II in connection with policies and programs of HEW; maintains close liaison with groups outside the Federal government including constituent agencies in State and local government, major health, education and welfare organizations, Governor's offices, Mayors of various cities and Congressmen from Region II, for public affairs purposes.

4. Advises key officials of the Regional Office, including the Regional Director and agency representatives on public information, public reporting, and related aspects of program matters.

5. Serves as a central point of communication with the press, radio and television news media, issuing all news materials originating within the Regional Office and amplifying, clarifying or explaining the impact and effect within the Region of national news issued by Departmental headquarters.

6. Is responsible for overall program supervision of the Regional Office's total public information program. Coordinates and exercises functional supervision over information services and all other activities of the Regional Office related to publications, public reports, and other informational and public affairs matters. Is responsible for the clearance of all information for public distribution before its release and certification as to the necessity for illustration and related materials. Serves as chairman of the Region II Communications Committee.

7. Prescribes procedures for planning, production, clearance, release, and distribution of all material prepared within the Region for release through Government channels.

8. Issues policies, standards, and procedures as may be necessary to carry out the public affairs functions and responsibilities of the Regional Office.

9. Serves as the initial denial authority for all regional documents requested under the Freedom of Information Act.

H. *Office of the Assistant Regional Director for Planning and Evaluation (1E8261).* The Assistant Regional Director for Planning and Evaluation: 1. Serves as the principal advisor to the Regional Director in identifying and directing regional office activities to meet the needs and requirements for the planning and evaluation of HEW and related Federal, State, local and voluntary human resource programs within the Region; identifies needs, opportunities and mechanisms for Regional Office interagency coordination in planning and evaluation in order to achieve regional office goals and objectives; provides comments and recommendations in the development of headquarters and regional agency planning and evaluation efforts; organizes, directs and coordinates with other Regional staff, a Regional planning and evaluation technical assistance effort with state and local public and voluntary human resource agencies.

2. Organizes, directs and coordinates regional activities related to the Operational Planning System. In this regard, establishes and maintains a regional planning process designed to achieve mission-related objectives within the framework of Departmental goals and regional priorities. Through this process: a. identifies and analyzes regional needs, incorporating these into Regional Issue papers which are statements of regional planning priorities and/or regional recommendations for headquarters policies;

b. establishes regional long and short term objectives and plans which address identified needs;

c. participates in HEW Master Planning Calendar activities, the forward planning process and development of preliminary budgets in conjunction with Regional agencies.

3. Establishes and maintains an issues identification and resolution process in coordination with other Regional staff. In this process: a. identifies issues needing policy clarification;

b. translates policy into service systems to be provided including budget and resource allocation and reallocation; recommends matters for legislative redress to more effectively implement such policy and;

c. analyzes the implications of such implementation to determine necessary adjustments in line with regional characteristics and needs.

4. Coordinates with other Regional staff, a review and comment process that: a. ensures analysis of proposed national policies, legislation and regulations, especially in light of regional observations of needs and;

b. ensures dissemination of these proposals and Regional reactions to them to all constituencies within the Region.

5. Coordinates a Regional evaluation process which: a. identifies methods for reporting and evaluating accomplishments and program effectiveness in relation to Departmental goals and Regional priorities, keeping appropriate units focused on shared objectives;

b. identifies information needed to describe program progress and information needs pertinent to Regional decision making:

c. develops instruments and techniques for measuring progress in reaching program goals;

d. ensures dissemination of evaluation results within the Region to all interested groups and;

e. is in consonance with headquarters evaluation processes.

6. Works with Regional Agencies and the Audit Agency to improve evaluation and monitoring capabilities within the Region.

7. Establishes in coordination with other Regional staff, procedural and substantive criteria for the management review of those project grants covered by the Regional Director Review and Sign-off System, the A–95 System, and the HEW procedures established under Title I of the Housing and Community Development Act.

8. Reviews grant and contract proposals covered under the aforementioned system for adherence to regional priorities and management soundness and exercises regional sign-off authority as appropriate.

9. Develops and maintains a geographic profile of needs in the Region including those relating to target or special concerns groups, develops demographic indices, descriptions of available resources and the current regional distribution of HEW assistance.

I. *Office of the Assistant Regional Director for Intergovernmental Affairs (1E8241).* The Office of the Assistant Regional Director for Intergovernmental Affairs: 1. Serves as principal representative to the Regional Director and supervises a staff unit to accomplish the Department's intergovernmental technical assistance mission in the region. Provides leadership, direction, cooperation and coordination for the Department in the Federal Regional Council, Federal Executive Board and other interagency groups.

2. Serves as the Regional Director's representative in establishing and maintaining contacts with the offices of governors, Congressmen, State legislators, county executives, mayors, other Federal agencies, private voluntary agencies and public interest organizations. Recommends alternative methods for achieving methods for achieving goals and objectives, exercising priorities and implementing policies pertaining to relationships with State and local general purpose governments.

3. In connection with the foregoing, establishes and maintains a process for the identification of intergovernmental issues; refers these issues to appropriate Regional officials for proper analysis and resolution, and coordinates the dissemination of information on problems that have been resolved to State and local governments and representatives of private interest groups.

4. Develops and monitors procedures for securing timely State and local general purpose government review and comment on appropriate policies, legislation and regulations; keeps regional office and headquarters staff informed about major current developments concerning major new human resource legislation and policies at the State and local levels.

5. Identifies, and brings to the attention of the regional staff problems and issues in the States that may be amenable to DHEW evaluation efforts; facilities, in coordination with the appropriate regional staff, the communication of significant human resource evaluation and monitoring findings, to and from State and local governments.

6. Provides technical assistance to Governors' executive staffs and state agency heads in carrying out regional and national policies with the cooperation of other Regional staff, insures that the regional office role in the implementation of DHEW policies, through such systems as the Operational Planning System, is clearly spelled out to State and local general purpose governments; attempts to insure that State and local governments institute adequate mechanisms for implementing major common operational objectives.

7. Obtains and analyses information about problems and needs of State and local officials as they involve the programs and activities of HEW regional offices. Coordinates the planning and delivery of technical assistance to assist States and local general purpose government in the accomplishment of common program objectives.

8. Identifies interagency or interdepartmental program areas requiring joint planning and implementation and assists in developing agreements and procedures. Provides for an exchange of information and relationships with other departments where interdepartmental efforts are required to implement policies.

9. Provides supervision of and guidance to members of his staff for Regional Council and Federal Executive Board activities, with particular concern given to operations and activities of the Council and Federal Executive Boards as they require coordination with State and local governments; has responsibility for maximizing HEW's involvement in Federal Regional Council and Federal Executive Board programs for improving the quality and effectiveness of intergovernmental operations.

10. Ensures that the provisions of the National Environmental Policy Act are carried out. Monitors the preparation of environmental impact statements by appropriate agencies.

J. *Office of the Assistant Regional Director for Program Coordination (1E8281).* The establishment of this position in Region II reflects a special emphasis on our responsibilities to foster interrelationships among HEW and related programs. The position serves to identify those special needs of our constituencies which can be better addressed by such an emphasis. The Assistant Regional Director for Program Coordination: 1. Serves as principal advisor to the Regional Director and supervises a staff unit to ensure the coordination of HEW programs; works with the public and voluntary sectors to improve capacity building and promote integration of services at the delivery level.

2. Develops cooperative relationships among the principal HEW Regional components in order to promote the coordination of resources to accomplish regional program priorities.

3. Is responsible for resolving cross-programmatic issues and stimulating interaction among and across categorical program lines in order to improve the effectiveness and efficiency of human resource activities; plans and carries out studies of regional program operations for the purpose of advising the Regional Director and other regional officials of ways to encourage the meshing of Federal, State and local resources.

4. Develops a regional capacity building plan that includes the following activities: a. identifies and assesses the constraints which impede current and/or potential participants from preparing effective program designs;

b. develops strategies for eliminating constraints; and

c. plans for the provision of technical assistance to general purpose governments in the development of HEW integrated services and management systems.

5. Develops and manages special coordination projects at the Regional Office and local delivery level in support of capacity building and services integration goals.

6. It is responsible for the management of activities with respect to special concerns groups. Develops and maintains systematic contact with the principal representatives of special concerns groups, and assures that their needs are taken into consideration in HEW programs.

K. *Office of the Assistant Regional Director for Management and Finance (1E8221).* This position in Region II encompasses the functions previously held by the Assistant Regional Directors for Financial Management and Administration and Management. The primary purpose for establishing a single position is to have all of the responsibilities for the business-side of the Regional Office under one manager so the Regional Director may look to this one individual on both financial and administrative management matters related to DHEW Regional operations. The Office of the Assistant Regional Director for Management and Finance:

1. Advises the Regional Director and operating program managers on financial and administrative management matters and interprets financial and administrative management policy as established by the Secretary; Under Secretary; Assistant Secretary, Comptroller; Assistant Secretary for Administration and Management; or Regional Director.

2. Provides financial management support to the Regional Director and Regional Agency Heads for decentralized programs and activities. Under policies and procedures established by the Office of the Assistant Secretary, Comptroller, supervises the performance of the following financial management functions: accounting and financial reporting, budget formulation and execution, and work with state and local government and HEW grantees to include indirect cost negotiations, single letter of credit implementation, technical assistance audit follow up.

3. Receives from the Office of the Secretary and operating agencies all Regional budget and fiscal data, including allowances and allotments, budgeted positions authorized, and employment ceiling allocations; makes recommendations to the Regional Director on the management of budgetary resources for Regional programs maintaining close contact with counterparts, at the agency level and in the Office of the Comptroller to coordinate questions of Departmental financial management policy; represents the Regional Director with Treasury Department, the HEW Audit Agency, GSA, and GAO on financial management matters.

4. Performs Regional accounting and financial reporting for all HEW activities for which the Regional Director is delegated the authority to provide such services. Is responsible for the recording and reporting of all financial transactions of HEW Regional Office and Agency operations through the maintenance of a standardized Regional Accounting System.

5. Is responsible for the financial administration and management of OS Working Capital Fund and Departmental Management allotments or allowances issued to the Regional Director.

6. Maintains status reports on and provides accounting services for single letter of credit activities in the Region.

7. Performs budget activities as follows: prepares consolidated regional budget estimates and justifications for activities for which the Regional Director has been delegated authority; assists the Regional Director and Regional Agency Heads in advocating program budget priorities for centralized and decentralized programs based on Regional needs and characteristics; assesses Regional impact of Agency budget proposals for use of the Regional Director in providing comments to the Secretary on the Department budget; supervises

V 40 69 APR 9 75 XUM A

budget execution in the Region, including the recording and distribution of budget resources based on allocations, allotments, and allowances for regional activities; receives regional personnel ceiling allowances; prepares recommended allowances and manpower allocations for submission to the Regional Director; and monitors recruitment and employment against these allowances. Develops and implements a budget data system capable of monitoring financial operating plans and of maintaining current information of fund availability for Regional programs; provides assistance to the Regional planning offices in formulating a Regional plan, overseeing the development of financial operating plans for other Regional activities, reviewing these plans and providing comments to the Regional Director and other Regional personnel; certifies to the availability of funds for all expenditures based on allotments and allowances issued to the Regional Director and Regional Agency Heads.

8. Carries on cost allocation and payment system activities as follows: pursuant to delegation of authority from the Regional Director, is responsible for indirect cost rate negotiations (including state and local cost allocation plans) based on cost policies and procedures established by the Division of Financial Management Standards and Procedures; provides financial management technical assistance to state and local governments, and to other HEW grantees and contractors; assists the Office of the Assistant Secretary, Comptroller to develop the single letter of credit system within the Region; and assists the Regional Director and Regional Agency Heads in assuring effective followup of audit findings of major managerial significance as disclosed by reviews of grantees' management systems.

9. Serves as the principal advisor to the Regional Director and directs or participates actively in all aspects of administrative management, including organization, procedures, personnel management, office services, management information systems, manpower and other management surveys and studies, paperwork management, and grants and contracts management; identifies needed administrative and programmatic linkages to assure coordinated HEW thrust; and maintains records of delegations of authority.

10. Has been designated responsibility for the management of grants and contracts making (if centralized in the Region).

11. Provides leadership in the establishment, maintenance, and effective use of management information and the systems related thereto.

12. Administers all activities related to Regional Manpower Utilization Surveys and Work Measurement Studies.

13. Directs the operation of the Regional Personnel Office through the Regional Personnel Officer; serves as the principal advisor to the Regional Director on all aspects of personnel management, including the classification of positions, the staffing and processing of appointments, selected on-the-job training activities, and employee relations.

14. Directs the operation of Office Services through the Office Services Manager; provides office services to all activities in and near the Regional headquarters location, including: mail pick up and delivery, procurement, stocking and distribution of common supplies, maintenance of the official Regional files, printing and reproduction services, moving and storage services; establishes a system of effective property management including item and financial property accounts and the maintenance of subsidiary property records.

15. Directs the activities of the Office of Surplus Property Utilization and the Regional office of Facilities Engineering and Construction through the managers of those offices; conducts periodic inspections of Regional components' space and facilities to assure the application of optimum standards and practices related to physical and personnel safety and security.

L. *Office of the Assistant Regional Director for Human Development.* (See Chapter 1R95, HEW Organization Manual (38 FR 17262 6/29/73) (formerly numbered as 1E30).

M. *Special Assistant to the Regional Director for Program and Policy Analysis (1E8291).* The Special Assistant acts as a "trouble shooter" for the Regional Director in connection with HEW program and policy work in the region. He serves as the focal point for all contacts when the Regional Director is designated by the Under Secretary to represent the regions as "Lead Regional Director."

Sec. 1E82.30 *Relationships to Agency Regional Staffs and Regional Audit and Regional Civil Rights Staff.*

Agency regional staffs, Regional Civil Rights and Regional Audit staffs are under the line direction and control of their parent headquarters organization. The regional staffs are subject to the general leadership and coordination of the Regional Director and receive administrative, financial, and other support services from him and his staff. The functional statements for these offices are to be found with the statements of their parent organizations.

Sec. 1E82.40 *Order of Succession.* In the absence or disability of the Regional Director, the Deputy Regional Director serves as acting Regional Director. In the event of the absence of both the Regional Director will appoint an acting Regional Director. In the event of a vacancy in both positions, the Secretary or Under Secretary will designate the acting Regional Director.

Sec. 1E82.50 *Delegation of Authority.* The delegations of authority to the Regional Director to operate programs are:

A. *Long Term Care Standards Enforcement.*

1. Regional Directors have been delegated the following authorities under Title XVIII of the Social Security Act, as amended, which pertain to skilled nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement: a. To approve or disapprove certifications made by State agencies under the provisions of section 1864(a), that a health care institution is or is not a skilled nursing facility as defined in section 1861(j);

b. To enter into agreements with skilled nursing facilities as provided in section 1866(a), including authority to determine the term of such agreements;

c. To terminate agreements, under the provisions of section 1866(b)(2)(B), with skilled nursing facilities where such facilities no longer substantially meet the requirements of Section 1861(j);

d. To waive, for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Association (21st edition, 1967) as provided in section 1861(j)(13);

e. To determine, in accordance with section 1861(j)(13), that the Life Safety Code of the National Fire Protection Association (21st edition, 1967) is not applicable in a State because a fire and safety code, imposed by State law, adequately protects patients in skilled nursing facilities;

f. To waive the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in section 1861(j)(15);

g. To waive in accordance with 20 CFR 405.1134(c), for such periods as are deemed appropriate, specific provisions of American National Standards Institute Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped;

h. To waive, based on regulations, 20 CFR 405.1134(e), requirements relating to the number of beds per room and the minimum size for rooms in skilled nursing facilities; and

i. To determine, under the provisions of section 1864(a), that State agency survey reports (including reports of followup reviews), and statements of deficiencies based upon official survey reports, relating to the certication of skilled nursing facilities for compliance with the applicable provisions of section 1861 are final and official. This includes the authority to: (1) assure that references to internal tolerance rules and practices are excluded from such reports or deficiency statements; (2) determine that such reports and deficiency statements have not identified individual patients, physicians, other practitioners, or individuals; (3) determine that involved skilled nursing facilities have been afforded a reasonable opportunity to offer comments; and (4) make final and official reports and deficiency statements available to the public in readily accessible form and place, along with any pertinent written statements submitted by skilled nursing facilities.

2. Regional Directors have been delegated the following authorities under Title XIX of the Social Security Act, as amended, which pertain to nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. Authority under the provisions of section 1910(b) to notify the State agency administering the Title XIX State plan of the approval or disapproval of any institution which has applied for certification under Title XVIII, and the term of such approval.

b. Authority to waive, for Title XIX skilled nursing facilities for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) as provided in section 1861(j)(13) of the Social Security Act.

c. Authority to waive for Title XIX skilled nursing facilities the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in section 1861(j)(15) of the Social Security Act.

d. Authority vested in the Secretary under section 1905(h) of the Social Security Act to certify intermediate care facilities located on Indian reservations.

e. Authority vested in the Secretary under Section 1905(h) of the Social Security Act to certify skilled nursing facilities located on Indian reservations.

B. *Office of Surplus Property Utilization.*

1. Regional Directors have been delegated certain authority which may not be redelegated as follows: a. Real property. This delegation relates to the conveyance and utilization of surplus real property and related personal property for educational and public health purposes, pursuant to section 203(k) of the Federal Property and Administrative Services Act of 1949, as amended. Each Regional Director, consistent with policies and procedures set forth in applicable regulations of the Department, is authorized:

(1) To execute deeds, contracts of sale, and all instruments incident or corollary to the transfer of land and improvements thereon, or in modification of previous transfers with respect to land and improvement cost of property where less than $1 million;

(2) To execute all instruments of conveyance or in modification of previous transfers with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing the transaction by the Regional Office; and

(3) To execute all instruments of conveyance relating to the transfer of improvements located outside his jurisdiction and intended for removal to and use within his jurisdiction.

b. Personal property. To act or designate a member of his staff (other than the SPU Regional Representative) to act as reviewing officer to approve or disapprove determinations by the Regional Representative authorizing State Agencies to abandon or destroy surplus personal property having a line item acquisition cost of $1,000 or more.

2. Regional Directors have been delegated certain authority related to real property which they may redelegate in writing to the SPU Regional Representative as follows:

a. Consistent with policies and procedures set forth in applicable regulations of the Department, to perform or take the actions stated below, with respect to disposal and utilization of surplus real and related personal property.

(1) To request and accept assignments from Federal agencies of:

(a) Improvements for removal and use away from the site;

(b) Improvements for removal to and use in another regional jurisdiction; and

(c) Land and improvements thereon where the acquisition and improvement cost of the property was less than $1 million.

(2) To make determinations incident to the disposal of assigned property described in a(1)(a) and a(1)(c) above;

(3) To issue and execute licenses and interim permits affecting assigned property described in a(1)(a) and a(1)(b) above;

(4) To execute instruments of transfer relative to property described in a(1)(a) above; except in those cases provided for in A 1a(3).

(5) Except for execution of instruments of conveyance or in modification of previous transfers, to take all action with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Director; and

(6) Incident to the exercise of the authority hereinbefore provided to receive remittances and performance guarantee deposits and bonds, to request forfeiture or release of performance bonds.

b. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to the disposal of educational and public health purposes of surplus real property improvements and related personal property located outside his jurisdiction, but intended for removal to and use within his jurisdiction, to take actions set forth in a(2), a(3), and a(6) above.

c. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to property within his jurisdiction previously conveyed for educational and public health purposes:

(1) To make determinations concerning the utilization and the enforcement of compliance with the terms and conditions of disposal of:

(a) Improvements for removal and use away from the site; and

(b) Land and any improvements thereon regardless of the acquisition and improvement cost;

(2) To accept voluntary reconveyances and to effect reverter of title to land and improvements located thereon, without regard to acquisition cost;

(3) To report to the General Services Administration revested properties excess to program requirements in accordance with applicable regulations;

(4) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in this paragraph; and

(5) Incident to the exercise of the authority delegated in this paragraph, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

d. With respect to the States within the jurisdiction of his region, consistent with the policies and procedures of the Department, to enter into cooperative agreements, under section 203(n) of the Act, with State Agencies for Surplus Property.

3. Regional Directors may redelegate in writing the following authority related to personal property to the SPU Regional Representative: the latter may likewise redelegate in writing the authority to the Assistant Regional Representative. Regional Representative may also redelegate in writing to his allocator(s) the authority stipulated in a(1)(a); a(1)(b), and a(1)(e), insofar as a(1)(e) pertains to a(1)(a) and a(1)(b):

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To perform or take the actions stated below with respect to the allocation for donation of surplus personal property located within his jurisdiction for educational, health, or civil defense purposes.

(a) To make determinations concerning the useability of a need for surplus personal property by educational or health institutions and civil defense organizations:

(b) To allocate surplus personal property and to take all actions necessary to accomplish donation, or transfer of property so allocated;

(c) To make determinations of eligibility of educational and public health donees to acquire donable property;

(d) To designate individuals recommended by State agencies as State representatives for the purpose of inspecting and screening surplus personal property; and

(e) To execute all instruments, documents, and forms necessary to carry out, or incident to the exercise of, the foregoing authority.

(2) To allocate property within his jurisdiction to any other regional jurisdiction and to take the actions set forth in (1)(b) above in connection with such out-of-region allocation.

(3) To take the actions set forth in (1)(b) (c) and (e) above in connection with any property that is available for transfer to his jurisdiction from another region.

(4) With respect to personal property located within his jurisdiction and in

V 40 69 APR 9 75 XUM

possession of State agencies for subsequent donation for educational, public health, and civil defense purposes:

(a) To effect redistribution of usable and needed property to other State agencies;

(b) To authorize and execute instruments necessary to carry out cannibalization, secondary utilization, and revision of acquisition cost of property;

(c) To recommend to GSA for disposal, property excess to the needs of State agencies; and

(5) With respect to personal property located within his jurisdiction previously donated for educational and public health purposes:

(a) To make determinations and take actions appropriate thereto concerning the utilization of such property, including retransfer and the enforcement of compliance with terms and conditions which may have been imposed on and which are currently applicable to such property;

(b) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in (a) above;

(c) To recommend to GSA for disposal, property excess to the needs of donees, except boats over 50 feet in length and aircraft;

(d) Incident to the exercise of the authority delegated in this paragraph, to request refunds or payments; and

(e) To authorize and execute instruments necessary to carry out sales, abrogations, revision of the period of restriction, secondary utilization or cannibalization, revision of acquisition cost, trade-in of an item on a similar replacement, and destruction or abandonment of property in the custody of donees.

(6) With respect to the States within the jurisdiction of his region, to approve State plans of operation and amendments thereto submitted by State agencies for surplus property: Provided, however, That disapproval of a State plan in whole or in part is concurred in by the Director, Office of Surplus Property Utilization.

(7) With respect to the States within the jurisdiction of his region, to enter into cooperative agreements, under section 203(n) of the Act, with State agencies for surplus property of such States, either individually or collectively.

4. Regional Representatives have been delegated certain authority related to personal property directly by the Director of the Office of Surplus Property Utilization: the authority may be redelegated in writing to the Assistant Regional Representative;

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To authorize destruction or abandonment by a determination in writing that the property has no commercial value, subject, however, to approval of such determination in the case of property having a line item acquisition cost of $1,000 or more, by a reviewing officer before authorization to destroy or abandon is given to the State agency.

C. *Office of Human Development.*

1. Regional Directors have been delegated the certain authorities by the Assistant Secretary for Human Development as follows:

a. Under the general policies and in such form as prescribed by the Director, Office of Child Development (and approved by the Assistant Secretary for Human Development) and in conformity to the allocations and financial guidelines of the Director, Office of Child Development to make grants under section 511 of the Community Services Act of 1974 (Project Head Start), except insofar as such grants are for programs which primarily serve migrants or Indians living on Federal reservations. This authority may be redelegated.

b. Under the general policies and in such form as prescribed by the Assistant Secretary for Human Development and in conformance with the allocations and financial guidelines issued by him, Regional Directors are authorized to make grants or contracts under the authority of Title I of the Juvenile Delinquency Prevention Act. The Regional Director is authorized to redelegate this authority only to the Assistant Regional Director for Human Development without the concurrence of the Assistant Secretary for Human Development.

c. To make grants and contracts for Urban Indian Projects under the authority of section 803 of the Community Services Act of 1974.

d. To make, amend, suspend, and cancel the grants and contracts authorized in "a", "b" and "c" above and to issued audit disallowances as well as to receive appeals on and make final decisions on such disallowances.

Dated: April 2, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[FR Doc.75-9235 Filed 4-8-75;8:45 am]

OFFICE OF THE REGIONAL DIRECTOR, REGION III

Statement of Organization, Functions, and Delegations of Authority

SECTION 1E83.00 *Mission.* The Regional Director represents the Secretary in his Region. Under his direction, the Office of the Regional Director provides leadership and coordination in various Department programs and activities within the Region and represents the Department in direct official dealings with State and other governmental units, representatives of the Congress, and the general public.

SEC. 1E83.10 *Organization.* The Office of the Regional Director, Region III, is under the direction and control of the Regional Director who reports to the Secretary and Under Secretary, and consists of the following:

Regional Director
Deputy Regional Director
Office of the Regional Attorney
Office of Equal Employment Opportunity
Executive Secretariat
Office for Civil Rights
Office of Audit
Office of ARD for Public Affairs
Office of ARD for Planning and Evaluation
Office of ARD for Intergovernmental Affairs
Office of ARD for Financial Management
Office of ARD for Administration and Management
Office of ARD for Human Development
Office of Long Term Care Standards Enforcement

SEC. 1E83.20 *Functions.* A. *Regional Director.*—The functions of the Regional Director are:

1. Serves as the Secretary's representative in direct official dealings with State and other governmental units, and evaluates Regional, State, and local activities related to the Department's programs.

2. Develops regional priorities which emphasize the Department goals and highlight areas of particular needs or opportunities in the region, so that efforts and resources may be brought to bear on them. Formulates regional plans for each priority and assures that regional agency heads achieve all their objectives in accordance with their plans. Conducts formalized planning conferences with regional representatives to assure a complete exchange of significant management information.

3. Exercises general coordination and supervision of personnel and activities in the region to ensure proper execution of policies, regulations, and instructions applicable to the Department as a whole. Recognizes interprogram disparities, exercises leadership to keep these disparities within constructive limits to assure effective, efficient, and responsive actions in the interest of total service to the public.

4. Assures that staff offices provide full support to agency operating programs.

5. Provides coordination of the activities of the principal representatives of the principal operating components who are stationed in or detailed to the region, including determination of regional program priorities and official communications with representatives of State or other Federal agencies.

6. Through coordination and supervision, exercises leadership in bringing about necessary awareness of the status of other programs of the Regional Office, and fosters cooperative relationships among program and staff representatives in seeing that plans are effectively made, operations are smoothly carried out, and performance is adequately evaluated.

7. Promotes general public understanding of the programs, policies, and objectives of the Department, and participates in the development and carrying out of a Regionwide information and public information program.

8. Establishes and maintains working relationships with Governors and key State and local officials; furnishes advice and assistance and strives to develop a mutually beneficial Federal-State-local partnership. Provides guidance to regional staff members on the priorities, emphases, and merits of various requirements based on expressions of need and

analyses by governors, mayors, and other key officials.

9. Maintains working relationships with private agencies and institutions; develops ways in which their plans and programs and those of the Department can actively complement each other.

10. Develops continuing cooperative relationships with officials of the Federal agencies in the Region; through the medium of Regional Councils seeks ways in which interdepartmental delivery of program services can be made more effective.

11. In accordance with regulations and guidelines established at headquarters, administers the child development programs in the region, including the Head Start program. Makes certain Head Start grants and takes other grants actions, as required.

12. Through liaison, periodic conferences, and other means, takes action to coordinate and integrate activities which are not directly associated with the regional office with regional office activities.

13. Develops plans for emergency preparedness and directs all Department activities necessary to ensure continuity of essential functions within the Region in case of an emergency due to enemy action; maintains a written plan for regional emergency operations; maintains liaison with all Federal authorities engaged in mobilization planning; acts in cooperation with them in an emergency situation; directs on behalf of Secretary all Department activities in the Region if communications with national headquarters are cut off.

14. Directs regional activities for assistance and alleviation of distress within the region resulting from natural disasters, including major disasters under Public Law 875; takes all necessary and appropriate action in connection with disaster situations and reports thereon.

15. In accordance with regulations and guidelines established at headquarters, administers, through the Office of Long Term Care Standards Enforcement, activities as herein described relating to the approval and termination of agreements with skilled nursing facilities for the purpose of participation in either the Medicare (Title XVIII) or in both the Medicare and Medicaid (Title XIX) programs.

B. *Deputy Regional Director.*

Serves as Acting Regional Director in the absence or disability of the Regional Director or in the event of a vacancy in the Office of Regional Director. The Deputy Regional Director performs other duties and functions at the request of the Regional Director.

C. *Executive Secretariat.*—Monitors the decision-making process for the Regional Director and facilitates the internal processes of coordination and communication, as follows:

1. Screens Regional Director's correspondence and filters out those items which require immediate attention by the Regional Director and Regional Director's staff, as well as the assignment of time deadlines for Regional Director's action items.

Takes appropriate action to clarify issues and instructions before a request for information is forwarded to the appropriate action office. Provides current and consolidated information or indicates where such information may be obtained for all policy issues and projects in the Region.

2. Operates a comprehensive system for tracking action items and ensures that the Regional Director has timely and quality input from all appropriate offices on which to base his decisions. Assures that all outgoing correspondence are quality products that represent the best possible presentation of the Regional Director's views; synthesizes detailed responses from various offices into a single document for outgoing correspondence going to the Secretary and other Headquarters units, and for Regional Director's decision memoranda.

3. Provides for feedback to the Regional Director on the impact of his decisions. By obtaining periodic status reports on selected key issues and projects, ensures proper compliance with past decisions, highlights problem areas for renewed Regional Director's attention, and develops an ever current supply of data for management conferences and for responding to incoming requests from the Secretary, various elected officials, and regional staff.

D. *Office of the Regional Attorney.*—The functions of the Office of the Regional Attorney are as follows:

1. Advises and counsels the Regional Director and operating program personnel on legal issues relating to their responsibilities within the region; on all matters within the competence of the legal profession the Regional Attorney is subject to the supervision of the General Counsel; on all other matters he is subject to the supervision of the Regional Director.

2. As requested by the Regional Director, assists in legal aspects of program development and of policy problem solution;

3. Provides professional legal services, such as preparation of legal instruments, memoranda, reports, and interpretive analyses;

4. Represents or counsels the Regional Director in negotiations to resolve actual and potential problems of a legal nature;

5. Provides appropriate legal assistance to state agencies and officials in connection with DHEW programs, as requested by the Regional Director;

6. As requested by the General Counsel, prepares for and conducts administrative hearings, aids the U.S. Attorney in preparation for and conduct of litigation, and performs such other duties as may be requested by the General Counsel;

7. Seeks to so order his time and workload priorities as to meet the needs of the Regional Office as determined by the Regional Director;

8. Subject to final approval by the Regional Director, selects, promotes, and takes all personnel actions with respect to his professional and clerical staff, in accordance with the personnel policies of the Office of the General Counsel.

E. *Office of Equal Employment Opportunity.*

Serves as the Regional Director's staff for the establishment and maintenance of a positive program of non-discrimination in Departmental employment in the Region. Has responsibility for the Regional HEW Federal Women's Program and the Regional Spanish Surnamed Program. Monitors the Regional EEO complaint system (and issues proposed dispositions on all formal complaints within the immediate Office of the Secretary). Prepares the Regional Annual Affirmative Action Plan.

F. *Office of Long Term Care Standards Enforcement.*—Performs these functions as follows:

1. Provides recommendations to the Regional Director on administrative actions necessary to carry out those portions of Titles XVIII and XIX of the Social Security Act related to the certification by State agencies of skilled nursing facilities (SNFs) for participation in the Medicare and Medicaid programs. Those activities, within the region, which pertain to Title XVIII and the Title XIX certification include: the Issuance of Title XVIII time limited agreements; for homes participating under Title XVIII or under both Titles XVIII and XIX, the approval of corrective plans of action for deficiencies in SNF's which participate either as components of larger institutions or as free standing units; granting waivers of provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) or provisions of Standard No. A117.1 of the American National Standards Institute, and waivers of certain other provisions of physical environment standards as they pertain to SNFs; public disclosure of State agency reports of deficiencies in SNF compliance with standards in accordance with section 1864(a) of the Social Security Act; approval of State fire codes in lieu of the Life Safety Code; and granting waivers, under specified circumstances, of the requirement that an SNF have on duty more than one registered nurse more than 40 hours per week.

2. Establish and maintain close working relationships with administrators of State health, welfare, and other departments involved under established agreements in the certification of and assistance to SNFs and ICFs. Perform evaluations of: State agency performance with respect to enforcing health and safety standards for SNFs and ICFs; and the State agencies' recommendations for waivers of provisions of the 1967 Life Safety Code with respect to SNFs and ICFs. Monitor States' implementation of the ICF regulations.

3. Participate in the negotiations of budgets with State survey agencies for their services and review those portions of the State agency budget relative to

V40169 APR 9 75 XUM

SNF/ICF certification and the provision of state consultative services to SNFs and ICFs and recommend to the Social Security Administration (SSA), Regional Commissioner and to the Social and Rehabilitation Service (SRS), Regional Commissioner, amounts that should be approved for SNF and ICF certification and certification-related activities.

4. Participate with other appropriate Federal programs in evaluations of State agency certification operations which are designed to assess State survey agency performance in program management, in applying established health, safety, and Life Safety Code standards and in evaluating quality of care (e.g., participated in SSA's comprehensive program reviews of State survey agency performance and in SRS's program reviews of the Title XIX single state agency).

5. Develop and implement procedures to assure the timely and effective conduct of the following: (a) State surveys of individual SNFs and ICFs, (b) Federal review and processing of State agency certifications and documentation pertaining to SNF compliance, (c) Federal decisions approving agreements, terminations or the granting of waivers to SNFs and (d) Federal direct validation surveys of selected SNF and ICF facilities.

6. Provide technical assistance for the professional training of State agency personnel on their duties in survey/certification and evaluation of the functional performance of SNFs and ICFs with respect to the quality of health care delivered.

7. Assist State agencies to develop their capabilities for the provision of specialized technical assistance to SNFs and ICFs on highly complex aspects of the survey requirements and on the development of acceptable plans of corrective action for overcoming deficiencies.

8. Assist States, provider organizations, and educational institutions in the stimulation, development, and implementation of training opportunities for SNF and ICF personnel in order to correct deficiencies and upgrade the quality of care offered, including mental health aspects of long term care.

9. Review complaints received by the Regional Directors concerning State agency and SNF/ICF activities and initiate appropriate action for investigation and resolution.

10. With SSA, SRS, and the Public Health Service (PHS), as appropriate, provide information and interpretations concerning standards for the delivery of SNF and ICF services to media, consumer and provider groups, professional health associations, and other health and welfare groups.

11. Based on regional conditions and trends related to SNFs and ICFs, make recommendations to the Office of Nursing Home Affairs (ONHA) or through ONHA, to the headquarters components of SSA, PHS, and SRS, as appropriate, on revisions to present program policies criteria, standards or procedures.

12. Provide data and reports to ONHA on SNF/ICF survey/certification activities on SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health services. Provide reports to SSA, SRS, and PHS on the status of SNF and ICF facility compliance in the region.

13. Work with, and provide information as requested to the Social Security Administration, on the following SNF related activities; e.g.,

a. Utilization review processes of SNF's;

b. Change of provider status in the Medicare program (e.g., change of ownership, termination because of failure to provide proper financial information or because of requests for payment substantially in excess of costs or for improper or necessary services, or withdrawal from program);

c. Certification of SNF's as a "distinct part" of another facility; and

d. Requests for hearings on terminated SNFs participating in Medicare.

14. Work with, and provide information as requested to, the Social and Rehabilitation Service, on the following SNF and ICF related activities:

a. Utilization and periodic medical review procedures for SNF's;

b. Utilization and independent professional review procedures for ICFs;

c. Level of care determinations;

d. Recipient eligibility issues; and

e. Cost-sharing requirements.

15. Work with, and provide information as requested to, the Public Health Service on the following SNF and ICF related activities:

a. Health care standards development efforts of the Bureau of Quality Assurance;

b. Utilization review determinations under Professional Standards Review Organizations;

c. Provider improvement program initiatives of the Health Resources Administration;

d. Comprehensive health planning determinations under section 1122 of the Social Security Act; and

e. Other relevant SNF and ICF program activities conducted by the Health Resources Administration, Health Services Administration, Alcohol, Drug Abuse, and Mental Health Administration, National Institutes of Health, Center for Disease Control, and the Food and Drug Administration.

16. Coordinate with the Office of Human Development in the areas of their delegated responsibilities for, and concern with, the mentally retarded and aging.

17. Coordinate, under the Office of Civil Rights in monitoring the implementation of Title VI of the Civil Rights Act of 1964 with respect to SNFs and ICFs.

18. Coordinate, under the direction of the Regional Director, with regional personnel of the Office of Facilities Engineering and Property Management on matters relating to the interpretation and enforcement of provisions of the Life Safety Code.

19. Coordinate with the Department of Housing and Urban Development in implementation of Pub. L. 93-204.

G. *Office of the Assistant Regional Director for Public Affairs.*

1. Serves as a principal advisor to the Regional Director in the formulation of policies, approaches, and procedures in the field of public information and in the formulation of approaches to major policy issues and has a broad range of responsibility in developing overall strategies and techniques for long range Public Affairs activities, in line with the Secretary's policy and the trend toward inter-agency coordination and Departmental control.

2. Advises key officials of the Regional Office, including the Regional Director and agency representatives on public information, public reporting, and related aspects of program matters.

3. Serves as a central point of communication with the press, radio and TV news media, issuing all news materials originating within the Regional Office and amplifying, clarifying or explaining the impact and effect within the Region of national news issued by Departmental Headquarters.

4. Is responsible for overall program supervision of the Regional Office's total public information program. Coordinates and exercises functional supervision over information services and all other activities of the Regional Office related to publications, public reports, and other informational and public affairs matters. Is responsible for the clearance of all information for public distribution before its release and certification as to the necessity for illustrations and related materials.

5. Prescribes procedures for planning, production, clearance, release, and distribution of all material prepared with the Region for release through Governmental channels.

6. Issues policies, standards, and procedures as may be necessary to carry out the public affairs functions and responsibilities of the Regional Office.

H. *Office of the Assistant Regional Director for Planning and Evaluation.*

1. Serves as a principal advisor to the Regional Director in identifying and directing activities to meet the needs and requirements for the planning and evaluation of HEW and related Federal Regional Council and state and local general purpose government programs.

2. Establishes and maintains a regional intergovernmental planning process which:

a. facilitates the identification of issues needing policy clarification;

b. analyzes the implications of implementing policies in the Region to determine needed regional deviations from a national norm; and

c. identifies and analyzes regional needs, program-by-program and issue-by-issue, and incorporates these issues into a Regional Memorandum in order to establish regional planning priorities.

3. Develops and maintains a geographic profile of needs in the Region with a special emphasis on target or special concern groups, develops demographic indices, descriptions of available resources and of the current regional distribution of HEW assistance.

4. Establishes a review and comment process in order to:

a. analyze proposed regional objectives and compare to existing Department and regional policies/objectives for consistency;

b. analyze current and proposed national policy for regional implications, especially in light of regional observations of needs; and

c. participate in Master Planning Calendar activities, including the forward planning process, development of program memorandum and preliminary budgets, and model state legislation.

5. Translates policy into services to be provided, budget proposals/resource allocation/re-allocation plans, and the legislative specifications needed to effectively implement the policy.

6. Develops a regional capacity-building plan to include the following activities:

a. identify and assess the constraints which impede current and/or potential participants from preparing effective program designs;

b. develop strategies for eliminating constraints; and

c. plan for the provision of technical assistance to general purpose governments in the development of comprehensive human resources planning systems that are compatible with HEW planning.

7. Establishes procedural and substantive criteria for the management review of:

a. those programs covered by the RDRS system;

b. programs delegated to the RD and those of a developmental assistance nature; and

c. agency efforts at reviewing state plans.

8. Assists in the improvement and coordination of Regional Office monitoring activities, and plans for the systematic collection and analysis of data generated by program monitoring audits. Civil Rights reviews, A-95 and NEPA reviews, and evaluation results for utilization in subsequent planning activities.

9. For programs directly delegated to the RD, identifies the information needed to describe program progress and then develops instruments and techniques for measuring progress in reaching program goals.

10. For HEW programs:

a. identifies information needs for regional decisionmaking that can be provided by program evaluations;

b. prepares a regional office research, evaluation and statistical data plan for developing, implementing and utilizing evaluations;

c. participates in central office evaluation process to secure funds and to comment on relevance of agency evaluation plans to regional decisionmaking needs;

d. ensures the dissemination of evaluation results; and

e. works with regional agencies and Audit to improve program evaluation capabilities within the region.

I. *Office of the Assistant Regional Director for Intergovernmental Affairs.*

1. Serves as principal staff to the Regional Director in accomplishing the Department's intergovernmental, technical assistance and program coordination mission in the region. Utilizes comprehensive knowledge of program activities and information from data and resources which must be evaluated to determine the approach to be taken toward regional intergovernmental relations.

2. Serves as the Regional Director's representative at conferences and in establishing and maintaining contracts with the offices of governors, county executives and mayors. Recommends alternative methods for achieving goals and objectives, exercising priorities and implementing policies pertaining to relationships with State and local purpose government to operational and forward planning and for information systems.

3. Establishes for the Regional Director operational methods for principal officials of Federal, State and local agencies and other public and nonprofit organizations and institutions to integrate their resources and interests toward common goals of the Department.

4. Identifies needs, tools and opportunities for productive interagency coordination, programming and operations to accomplish goals and objectives that can be shared by multiple agencies of the Department to bring about more effective delivery of services to State and local governments in the region. This involves providing planned technical assistance designed to enable appropriate officials of cities, States and the Regional Office to plan together for the accomplishment of common program objectives.

5. Participates from time to time in interagency or interdepartmental studies with responsibility for factfinding, analysis, and making recommendations to top level policy making officials about national and intergovernmental program planning.

6. Develops, in concert with other DHEW representatives, the ARD for Planning and Evaluation and officials of State and local jurisdictions, necessary procedures to insure appropriate input on regional needs and issues which will affect the Department's budget, legislative and policy development processes in accordance with master calendar cycles.

7. Provides guidance and staff support to the Federal Regional Council in connection with operations and activities that require coordination with Federal, State and local governments. This includes responsibility for maximizing the Federal Regional Council's potential for improving the quality and effectiveness of intergovernmental operations.

8. Has lead responsibility within the Regional Office, as assigned by the Regional Director, for such major intergovernmental initiatives as manpower coordination, services integration and capacity-building. Is responsible for pulling together full regional resources in the accomplishment of such initiatives.

9. The Regional Environmental Officer, located in the Office of Intergovernmental Affairs, is managed by the RD's environmental representative, the Regional Environmental Officer (ARD/IGA). Supportive assistance to the REO is provided by the Environmental Program Analyst.

The Regional Environmental Office is responsible for the Regional Administration of the implementing of the National Environmental Policy Act of 1969 (NEPA). Regional administration of NEPA includes the following broad functions:

a. Serving as a liaison between DHEW's Office of Environmental Affairs in Washington and the Regional agency program staff relative to existing and proposed policies, regulations, etc.;

b. Providing assistance (through guide materials, individual project assessments, etc.) to Regional program staff relative to national Regional DHEW procedures and review criteria;

c. Reviewing Environmental Impact Statements prepared by other Federal departments; and

d. Serving as a point of environmental contact for other Federal departments, state agencies (such as environmental agencies and the State Clearinghouses), and the general public.

J. *Office of the Assistant Regional Director for Financial Management.*

1. Provides financial management support to the Regional Director and Regional Agency Heads for decentralized programs and activities. Under policies and procedures established by the Office of the Assistant Secretary, Comptroller, supervises the performance of the following Financial Management functions: accounting and financial reporting, budget formulation and execution, and work with State and local government and HEW grantees to include indirect cost negotiation, single letter of credit implementation, technical assistance, and Audit follow-up.

2. On behalf of the Regional Director, provides coordination and liaison with the HEW Audit Agency, the Treasury Department, the General Services Administration, and the General Accounting Office on financial management matters.

3. Is responsible for the financial administration and management of allotments or allowances which are issued to the Regional Director.

4. Performs Regional accounting and reporting activities: accounting, comptrolling, fiscal services, and reporting for all HEW activities for which the Regional Director is delegated the authority to provide such services.

5. Performs budget activities as follows: Prepares the Regional budget for activities for which the Regional Director has delegated authority and assists other Regional staffs in developing their budgets; prepares consolidated Regional budget estimates and justifications and assists the Regional Director and Regional Agency Heads in advocating program budget priorities for centralizing

V40169 APR 9 75 XUM

and decentralizing programs based on Regional needs and characteristics; supervises budget execution in the Region including the recording and distribution of budget resources based on allocations, allotments and allowances for Regional activities; prepares recommended allowances and manpower allocations for activities delegated directly to the Regional Director; oversees the development of financial operating plans for other Regional activities, reviews these plans, and provides comments to the Regional Director and other Regional personnel; develops and implements a budget data system capable of monitoring financial operating plans and maintaining current information of fund availability for Regional programs; and receives Regional personnel ceiling allowances and monitors recruitment and employment against these allowances.

6. Carries out cost allocation and payment systems activities as follows: Pursuant to delegations of authority from the Regional Director is responsible for indirect cost rate negotiations (including State and local cost allocation plans based on cost policies and procedures established by the Division of Financial Management Standards and Procedures; provides financial management technical assistance to State and local governments and to other HEW grantees and contractors; assists the office of the Assistant Secretary, Comptroller to develop the single letter of credit system within the Region; and assists the Regional Director and Regional Agency Heads in assuring effective follow up of audit findings of major managerial significance as disclosed by reviews of grantees' management systems.

K. Office of the Assistant Regional Director for Administration and Management.

1. Serves as the principal advisor to the Regional Director on and directs or participates actively in all aspects of administrative management, including organization, procedures, management systems, delegations of authority, management surveys and studies, and paperwork management.

2. Serves as the principal advisor to the Regional Director on all aspects of personnel management. Administers the Regional program, including the classification of positions, the processing of appointments, and selected on-the-job training activities.

3. Reviews grants and contracts proposals for general adherence to program goals and management soundness and exercises Regional sign-off authority as appropriate.

4. Provides the leadership in the establishment, maintenance, and effective use of management information and the system related thereto.

5. Administers the Regional Surplus Property Utilization program.

6. Establishes a system of effective property management, including the maintenance of item and financial property accounts.

7. Conducts periodic inspections of Regional space and facilities to assure the application of optimum standards and practices related to physical and personnel safety and security.

8. Provides office services to all activities in and near the regional headquarters location, including mail pick-up and delivery; procurement, stocking, and distribution of common supplies; maintenance of the official regional files; printing and reproduction services, moving and storage services.

9. Assures the delivery of the total architectural/engineering services in support of HEW grant and loan and direct Federal construction programs and of HEW owned and utilized facilities.

L. Office of the Assistant Regional Director for Human Development. (See Chapter 1R95, HEW Organizaton Manual (38 FR 17262 6/29/73) (formerly numbered as 1E80).)

SEC. 1E83.30 *Relationships to Agency Regional Staffs and Regional Audit and Regional Civil Rights Staff.* Agency regional staffs and Regional Civil Rights and Regional Audit staffs are under the line direction and control of their parent headquarters organizations. The regional staffs are subject to the general leadership and coordination of the Regional Director and receive administrative, financial, and other support services from him and his staff. The functional statements for these offices are to be found with the statements of their parent organizations.

SEC. 1E83.40 *Order of Succession.* In the absence or disability of the Regional Director, the Deputy Regional Director serves as acting Regional Director. In the event of the absence or disability of both the Regional Director and Deputy Regional Director and where there is a vacancy in both positions, the Secretary or Under Secretary will designate the acting Regional Director.

SEC. 1E83.50 *Delegation of Authority.* The delegations of authority to the Regional Director to operate programs are:

A. Long Term Care Standards Enforcement.

1. Regional Directors have been delegated the following authorities under Title XVIII of the Social Security Act, as amended, which pertain to skilled nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. To approve or disapprove certifications made by State agencies under the provisions of section 1864(a), that a health care institution is or is not a skilled nursing facility as defined in Section 1861(j);

b. To enter into agreements with skilled nursing facilities as provided in section 1866(a), including authority to determine the term of such agreements;

c. To terminate agreements, under the provisions of section 1866(b)(2)(B), with skilled nursing facilities where such facilities no longer substantially meet the requirements of Section 1861(j);

d. To waive, for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Association (21st edition, 1967) as provided in section 1861(j)(13);

e. To determine, in accordance with section 1861(j)(13), that the Life Safety Code of the National Fire Protection Association (21st edition, 1967) is not applicable in a State because a fire and safety code, imposed by State law, adequately protects patients in skilled nursing facilities;

f. To waive the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in Section 1861(j).(15);

g. To waive in accordance with 20 CFR 405.1134(c), for such periods as are deemed appropriate, specific provisions of American National Standards Institute Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped;

h. To waive, based on regulations, 20 CFR 405.1134(e), requirements relating to the number of beds per room and the minimum size for rooms in skilled nursing facilities; and

i. To determine, under the provisions of section 1864(a), that State agency survey reports (including reports of follow-up reviews), and statements of deficiencies based upon official survey reports, relating to the certification of skilled nursing facilities for compliance with the applicable provisions of section 1861 are final and official. This includes the authority to: (1) assure that references to internal tolerance rules and practices are excluded from such reports or deficiency statements; (2) determine that such reports and deficiency statements have not identified individual patients, physicians, other practitioners, or individuals; (3) determine that involved skilled nursing facilities have been afforded a reasonable opportunity to offer comments; and (4) make final and official reports and deficiency statements available to the public in readily accessible form and place, along with any pertinent written statements submitted by skilled nursing facilities.

2. Regional Directors have been delegated the following authorities under Title XIX of the Social Security Act, as amended, which pertain to nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. Authority under the provisions of section 1910(b) to notify the State agency administering the Title XIX State plan of the approval or disapproval of any institution which has applied for certification under Title XVIII, and the term of such approval.

b. Authority to waive, for Title XIX skilled nursing facilities for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) as provided in section 1861(j)(13) of the Social Security Act.

c. Authority to waive for Title XIX skilled nursing facilities the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in section 1861(j)(15) of the Social Security Act.

d. Authority vested in the Secretary under section 1905(c) of the Social Security Act to certify intermediate care facilities located on Indian reservations.

e. Authority vested in the Secretary under section 1905(h) of the Social Security Act to certify skilled nursing facilities located on Indian reservations.

B. Office of Surplus Property Utilization.

1. Regional Directors have been delegated certain authority which may not be redelegated as follows:

a. Real property. This delegation relates to the conveyance and utilization of surplus real property and related personal property for educational and public health purposes, pursuant to section 203(k) of the Federal Property and Administrative Services Act of 1949, as amended. Each Regional Director, consistent with policies and procedures set forth in applicable regulations of the Department, is authorized:

(1) To execute deeds, contracts of sale, and all instruments incident or corollary to the transfer of land and improvements thereon, or in modification of previous transfers with respect to land and improvement cost of property where less than $1 million;

(2) To execute all instruments of conveyance or in modification of previous transfers with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing the transaction by the Regional Office; and

(3) To execute all instruments of conveyance relating to the transfer of improvements located outside his jurisdiction and intended for removal to and use within his jurisdiction.

b. Personal property. To act or designate a member of his staff (other than the SPU Regional Representative) to act as reviewing officer to approve or disapprove determinations by the Regional Representative authorizing State Agencies to abandon or destroy surplus personal property having a line item acquisition cost of $1,000 or more.

2. Regional Directors have been delegated certain authority related to real property which they may redelegate in writing to the SPU Regional Representative as follows:

a. Consistent with policies and procedures set forth in applicable regulations of the Department, to perform or take the actions stated below, with respect to disposal and utilization of surplus real and related personal property.

(1) To request and accept assignments from Federal agencies of:

(a) Improvements for removal and use away from the site;

(b) Improvements for removal to and use in another regional jurisdiction; and

(c) Land and improvements thereon where the acquisition and improvement cost of the property was less than $1 million.

(2) To make determinations incident to the disposal of assigned property described in a(1)(a) and a(1)(c) above;

(3) To issue and execute licenses and interim permits affecting assigned property described in a(1)(a) and a(1)(c) above;

(4) To execute instruments of transfer relative to property described in a(1)(a) above; except in those cases provided for in A 1a(3).

(5) Except for execution of instruments of conveyance or in modification of previous transfers, to take all action with respect to land and improvements thereon where the acquisition and improvement cost was $1 million or more and the Office of Surplus Property Utilization specifically authorizes closing of the transaction by the Regional Director; and

(6) Incident to the exercise of the authority hereinbefore provided to receive remittances and performance guarantee deposits and bonds, to request forfeiture or release of performance bonds.

b. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to the disposal of educational and public health purposes of surplus real property improvements and related personal property located outside his jurisdiction, but intended for removal to and use within his jurisdiction, to take actions set forth in a(2), a(3), and a(6) above.

c. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to property within his jurisdiction previously conveyed for educational and public health purposes:

(1) To make determinations concerning the utilization and the enforcement of compliance with the terms and conditions of disposal of:

(a) Improvements for removal and use away from the site; and

(b) Land and any improvements thereon regardless of the acquisition and improvement cost;

(2) To accept voluntary reconveyances and to effect reverter of title to land and improvements located thereon, without regard to acquisition cost;

(3) To report to the General Services Administration revested properties excess to program requirements in accordance with applicable regulations;

(4) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in this paragraph; and

(5) Incident to the exercise of the authority delegated in this paragraph, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

d. With respect to the States within the jurisdiction of his region, consistent with the policies and procedures of the Department, to enter into cooperative agreements, under section 203(n) of the Act, with State Agencies for Surplus Property.

3. Regional Directors may redelegate in writing the following authority related to personal property to the SPU Regional Representatives: the latter may likewise redelegate in writing the authority to the Assistant Regional Representative. Regional Representative may also redelegate in writing to his allocator(s) the authority stipulated in a(1)(a), a(1)(b), and a(1)(e), insofar as a(1)(e) pertains to a(1)(a) and a(1)(b):

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To perform or take the actions stated below with respect to the allocation for donation of surplus personal property located within his jurisdiction for educational, health, or civil defense purposes.

(a) To make determinations concerning the usability of and need for surplus personal property by educational or health institutions and civil defense organizations;

(b) To allocate surplus personal property and to take all actions necessary to accomplish donation, or transfer of property so allocated;

(c) To make determinations of eligibility of educational and public health donees to acquire donable property;

(d) To designate individuals recommended by State agencies as State representatives for the purpose of inspecting and screening surplus personal property; and

(e) To execute all instruments, documents, and forms necessary to carry out, or incident to the exercise of, the foregoing authority.

(2) To allocate property within his jurisdiction to any other regional jurisdiction and to take the actions set forth in (1)(b) above in connection with such out-of-region allocation.

(3) To take the actions set forth in (1)(b)(c) and (e) above in connection with any property that is available for transfer to his jurisdiction from another region.

(4) With respect to personal property located within his jurisdiction and in possession of State agencies for subsequent donation for educational, public health, and civil defense purposes:

(a) To effect redistribution of usable and needed property to other State agencies;

(b) To authorize and execute instruments necessary to carry out cannibalization, secondary utilization, and revision of acquisition cost of property;

(c) To recommend to GSA for disposal, property excess to the needs of State agencies; and

(5) With respect to personal property located within his jurisdiction previously donated for educational and public health purposes:

(a) To make determinations and take actions appropriate thereto concerning the utilization of such property, including retransfer and the enforcement of compliance with terms and conditions

V40169 APR 9 75 XUM

which may have been imposed on and which are currently applicable to such property;

(b) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in (a) above;

(c) To recommend to GSA for disposal, property excess to the needs of donees, except boats over 50 feet in length and aircraft;

(d) Incident to the exercise of the authority delegated in this paragraph, to request refunds or payments; and

(e) To authorize and execute instruments necessary to carry out sales, abrogations, revision of the period of restriction, secondary utilization or cannibalization, reversion of acquisition cost, trade-in of an item on a similar replacement, and destruction or abandonment of property in the custody of donees.

(6) With respect to the States within the jurisdiction of his region, to approve State plans of operation and amendments thereto submitted by State agencies for surplus property: Provided, however, That disapproval of a State plan in whole or in part is concurred in by the Director, Office of Surplus Property Utilization.

(7) With respect to the States within the jurisdiction of his region, to enter into cooperative agreements, under section 203(n) of the Act, with State agencies for surplus property of such States, either individually or collectively.

4. Regional Representatives have been delegated certain authority related to personal property directly by the Director of the Office of Surplus Property Utilization: the authority may be redelegated in writing to the Assistant Regional Representative;

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To authorize destruction or abandonment by a determination in writing that the property has no commercial value, subject, however, to approval of such determination in the case of property having a line item acquisition cost of $1,000 or more, by a reviewing officer before authorization to destroy or abandon is given to the State agency.

C. *Office of Human Development.*

1. Regional Directors have been delegated the certain authorities by the Assistant Secretary for Human Development as follows:

a. Under the general policies and in such form as prescribed by the Director, Office of Child Development (and approved by the Assistant Secretary for Human Development) and in conformity to the allocations and financial guidelines of the Director, Office of Child Development to make grants under section 511 of the Community Services Act of 1974 (Project Head Start), except insofar as such grants are for programs which primarily serve migrants or Indians living on Federal reservations. This authority may be redelegated.

b. Under the general policies and in such form as prescribed by the Assistant Secretary for Human Development and in conformance with the allocations and financial guidelines issued by him, Regional Directors are authorized to make grants or contracts under the authority of Title I of the Juvenile Delinquency Prevention Act. The Regional Director is authorized to redelegate this authority only to the Assistant Regional Director for Human Development without the concurrence of the Assistant Secretary for Human Development.

c. To make grants and contracts for Urban Indian Projects under the authority of section 803 of the Community Services Act of 1974.

d. To make, amend, suspend, and cancel the grants and contracts authorized in "a", "b" and "c" above and to issued audit disallowances as well as to receive appeals on and make final decisions on such disallowances.

Dated: April 2, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

FEDERAL MARITIME COMMISSION

PUERTO RICO MARINE MANAGEMENT, INC. AND SEA-LAND SERVICE, INC.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before April 21, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

PUERTO RICO MARINE MANAGEMENT, INC. AND SEA-LAND SERVICE, INC.

Notice of Agreement Filed by:

E. J. Sheppard, Esq., Morgan, Lewis & Bockius, 1140 Connecticut Avenue, NW., Washington, D.C. 20036.

By orders dated October 15, 1974, December 23, 1974, and February 21, 1975, the Commission has approved Agreement No. DC-75, in each case for terms not to exceed sixty (60) days from the dates of said orders. The agreement, which is between Sea-Land Service, Inc., (Sea-Land) and Puerto Rico Marine Management, Inc., (PRMM) as approved by the Puerto Rico Maritime Shipping Authority (Authority), is an interim services and facilities subcontract wherein Sea-Land will provide PRMM with virtually any services it would require for the performance of its contract to manage the Authority's recently-inaugurated common carrier service between U.S. Atlantic and Gulf coast ports and Puerto Rico. Included within the scope of Agreement No. DC-75 are facilities for providing berthing and terminal services, repair and maintenance services and A & G functions.

Current Commission approval of Agreement No. DC-75 expires April 22, 1975. The parties to the agreement have advised us, however, that despite their progress to date toward the goal of self-sufficiency in performing all aspects of the Authority's common carrier service, there remain essentially three areas in which the Authority and PRMM must continue to contract with Sea-Land on an interim basis: (1) operations of the Puerto Nuevo terminal facilities at San Juan; (2) operations of a New Orleans terminal; and (3) terminal facilities at Port Elizabeth, New Jersey. Accordingly, the parties have requested that we extend our approval of this agreement for these limited purposes for an additional period of not more than sixty (60) days.

By Order of the Federal Maritime Commission.

Dated: April 7, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Dockets Nos. RP71-7, RP73-77; PGA75-4A]

ALABAMA-TENNESSEE NATURAL GAS CO.

Proposed PGA Rate Adjustment

MARCH 19, 1975.

Take notice that on February 28, 1975, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), P.O. Box 918, Florence, Alabama 35630, tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Eighth Revised Sheet No. 3-A and Substitute Eighth Revised Sheet No. 3-A. These revised tariff sheets are proposed to become effective as of March 15, 1975.

Alabama-Tennessee states that the sole purpose of such revised tariff sheets is to adjust Alabama-Tennessee's rates pursuant to the PGA provisions of section 20 of the General Terms and Conditions of its tariff to reflect increased rates to become effective on March 15, 1975, to be charged by its sole supplier, Tennessee Gas Pipeline Company.

The revised tariff sheets provide for the following rates:

Rate schedule	8th revised sheet No. 3-A	Substitute 8th revised sheet No. 3-A
G-1:		
Demand	$2.04	$2.01
Commodity (cents)	62.29	60.93
SG-1: Commodity (cents)	84.50	82.91
I-1: Commodity (cents)	64.20	62.98

Alabama-Tennessee states that copies of the filings have been mailed to all of its jurisdictional customers and affected State regulatory Commissions.

V40169 APR 9 75 XUM

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9340]

BOSTON EDISON CO., ET AL.

Notice of Application

APRIL 1, 1975.

Take notice that on March 24, 1975, Boston Edison Company (Boston Edison), Central Maine Power Company (Central Maine), New England Power Company (NEPCO), Public Service Company of New Hampshire (Public Service), The United Illuminating Company (United Illuminating) and Western Massachusetts Electric Company (WMECO) tendered for filing an application for the granting of an easement in the switchyard facilities at the Pilgrim Units No. 1 and 2 site to the Joint Owners of Pilgrim Unit No. 2. Boston Edison states that the purpose of the easement is to allow the Joint Owners the use of these facilities for the purpose of transmitting the energy from Pilgrim Unit No. 2 to the transmission system of each Joint Owner. The consideration to be paid for these easement rights is based on the proration of Pilgrim Unit No. 2's share of the switchyard facilities from which each Joint Owner's cost of the 40% interest being acquired by the Joint Owners is then derived according to each ownership share in the Unit.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI75-284]

CINCO EXPLORATION CO. (OPERATOR), ET AL.

Withdrawal and Cancellation of Hearing

MARCH 19, 1975.

On February 21, 1975, Cinco Exploration Company filed a withdrawal of its application for a limited term certificate in the above-designated matter which was set for hearing by order issued February 14, 1975.

Notice is hereby given that pursuant to § 1.11(d) of the Commission's rules of practice and procedure, the withdrawal of the above application shall become effective March 24, 1975. The hearing schedule for April 1, 1975, is cancelled.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9200 Filed 4-8-75;8:45 am]

[Docket No. CP74-324]

CITIES SERVICE GAS CO.

Order on Reconsideration After Statutory Hearing

APRIL 1, 1975.

On June 17, 1974, Cities Service Gas Company (Cities) filed in Docket No. CP74-324 an application, as supplemented on September 8, 1974, and November 11, 1974, pursuant to sections 7(c) and 7(b) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities and for permission and approval to abandon certain facilities and service on its transmission system, all as more fully set forth in the application, as supplemented, in this proceeding. Cities proposes to abandon facilities and construct replacement facilities as described below in eight individual projects:

(1) Abandon in place approximately 3.70 miles of 5-inch gas pipeline and construct approximately 3.70 miles of 2-inch gas pipeline in the DeMalorie 5-inch pipeline, Greenwood County, Kansas;

(2) Abandon in place approximately 0.23 miles of 6-inch gas pipeline and replace by constructing 0.23 mile of 2-inch gas pipeline in the Santa Fe Shops 6-inch pipeline, Neosho County, Kansas;

(3) Abandon in place approximately 0.03 mile of 4-inch and 4.66 miles of 6-inch, abandon by reclaim approximately 0.56 miles of 3-inch and 0.54 mile of 6-inch gas pipeline and construct approximately 5.79 miles of 3-inch gas pipeline in the South Mound pipeline, Neosho and Labette Counties, Kansas;

(4) Abandon in place approximately 0.45 miles of 4-inch and 6-inch gas pipeline and construct approximately 0.45 mile of 3-inch gas pipeline in the Carl Junction 4 and 6-inch pipeline, Jasper County, Missouri;

(5) Abandon by reclaim ten 170 horsepower compressor units at Applicant's Pierce City Compressor Station in Lawrence County, Missouri;

(6) Abandon by reclaim 1.62 miles of 3-inch gas pipeline and replace by constructing 1.62 miles of 2-inch gas pipeline in the Nelagoney 3-inch pipeline, Osage County, Oklahoma;

(7) Abandon by reclaim approximately 0.85 miles of 2-inch and 3-inch gas pipeline and replace by constructing 0.85 mile of 2-inch gas pipeline in the Pershing 2 and 3-inch pipeline, Osage County, Oklahoma; and

(8) Abandon by reclaim approximately 7.20 miles of 20-inch gas pipeline and construct approximately 0.40 mile of 3-inch gas pipeline in the Pampa 20-inch pipeline, Sedgwick County, Kansas.

The Commission's order issued February 10, 1975, set this matter for hearing because of two protests received concerning Item 8. By its motion filed with the Commission on February 24, 1975, Cities asked that the Commission reconsider its February 10, 1975, order insofar as the order sets for hearing the projects described in Items 1 through 7 of Cities' application. No petition to intervene, notice of intervention or protest to the granting of authorizations relating to Items 1 through 7 has been filed. The issues to be considered at the formal hearing set by the Commission's February 10, 1975, order relate solely to Item 8.

On February 27, 1975, Cities filed a motion for a continuance requesting that the procedural dates set for the filing of its direct case and for the formal hearing be continued pending Commission action on the motion for reconsideration and pending Cities' preparation and filing of an amendment to the application relating solely to Item 8.[1] Cities states that circumstances occurring since the filing of the application necessitate amending that portion relating to Item 8 regarding the protests which have been filed.

Cities' motion for reconsideration states that all of the projects described in the application as Items 1 through 7 are proposed to be accomplished without abandonment of any service. Each of those projects, except for Item 5 is necessitated because the portion of the pipeline to be abandoned is now in a deteriorated condition and must be replaced by new facilities needed to efficiently and economically meet changing operating conditions. The project described in Item 5 contemplates the abandonment by reclaim of ten compressor units which are now obsolete and incapable of operation due to increasing operating pressure of Cities' Springfield system.

The Commission finds that approval of this proposal as related to Items 1 through 7 would not constitute a major Federal action significantly affecting the quality of the human environment because the construction would affect only small areas of land with no significant effect on the long-term productivity of the disturbed areas.

[1] On March 3, notice was issued deferring the procedural dates in this matter until further action by the Commission.

At a hearing held on March 27, 1975, its own motion received and made a part of the record in this proceeding all evidence including the application and exhibits thereto, submitted in support of the authorization sought for Items 1 through 7 herein, and upon consideration of the record.

The Commission finds: (1) Applicant, Cities Service Gas Company, a Delaware corporation having its principal place of business in Oklahoma City, Oklahoma, is a "natural-gas company" within the meaning of the Natural Gas Act as heretobefore found by the Commission in its order of December 28, 1943, in Docket No. G-298 (4 FPC 471).

(2) The facilities hereinbefore described in Items 1, 2, 3, 4, 6, and 7, fully described in the application in this proceeding, are to be used in the transportation of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the construction and operation thereof by Cities are subject to the requirements of subsections (c) and (e) of Section 7 of the Natural Gas Act.

(3) Cities is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(4) The construction and operation of the proposed facilities for Items 1, 2, 3, 4, 6, and 7, by Cities are required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(5) The facilities and services to be abandoned, as hereinbefore described in Items 1 through 7, are subject to the jurisdiction of the Commission and the abandonment thereof is subject to the requirements of Subsection (b) of Section 7 of the Natural Gas Act.

(6) The proposed abandonment of facilities and service described by Cities in Items 1 through 7 is permitted by the public convenience and necessity, and approval thereof should be granted as hereinafter ordered.

The Commission orders: (A) Upon the terms and conditions of this order a certificate of public convenience and necessity is issued authorizing Cities to construct and operate the proposed facilities for the transportation of natural gas as hereinbefore described in Items 1, 2, 3, 4, 6, and 7, and as more fully described in the application in this proceeding.

(B) Upon the terms and conditions of this order, permission for and approval of the abandonment by Cities of the facilities hereinbefore described in Items 1 through 7, all as more fully described in the application in this proceeding, are granted.

(C) The certificate issued by paragraph (A) above and the rights granted thereunder are conditioned upon Cities' compliance with all applicable Commission Regulations under the Natural Gas Act and particularly the terms and conditions set forth in paragraphs (a), (c) (3), (c) (4), (e), (f), and (g) of § 157.20 of such regulations.

(D) The facilities authorized by paragraph (A) above shall be constructed and placed into actual operation, as provided by paragraph (b) of § 157.20 of the regulations under the Natural Gas Act, within one year from the date of this order.

(E) Cities shall notify the Commission of the date of abandonment of the facilities within 10 days thereof.

(F) The procedural dates set by the Commission order of February 10, 1975 in this proceeding are vacated to allow time for the filing by Cities of its proposed amendment relating to Item 8 of its application. If Cities does not file such amendment within thirty days, that portion of its application will be subject to dismissal by the Commission.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9201 Filed 4-8-75;8:45 am]

[Docket No. RP75-62]

CITIES SERVICE GAS CO.

Order Accepting for Filing and Suspending Tariff Sheets, Setting Formal Hearing and Granting Interventions

APRIL 1, 1975.

On February 10, 1975, Cities Service Gas Company (Cities) tendered for filing six tariff sheets,[1] providing for: (1) the establishment of curtailment procedures for any reason, including but not limited to inadequate gas supply, lack of system capacity or storage injection requirements; (2) adjustment to curtailment to meet emergency conditions, including environmental emergencies and irreparable injury to life or property; (3) an overrun penalty and (4) reporting end-use data by its customers. The proposed effective date of all sheets is June 23, 1975.

Cities states that it has served a copy of its filing on all customers and affected state commissions and requests waiver of Section 154.22 of the Regulations in order to permit the filing more than 60 days prior to the proposed effective date.

The proposed Cities' plan provides for a new Article 13, *Priority of Service*, which establishes procedures to be used during both short and long-term supply interruptions.

Although Section 2, *Priority Categories*, of the proposed tariff, sets forth end-use categories as set forth in Order No. 467-B, Cities' plan deviates in some respects from that order. Cities Second Revised Sheet No. 33-A sets forth an eight-category priority system based upon end-use considerations. The proposed categories do not distinguish between customers served under a firm or interruptible contract. Cities asserts that this variance from Order No. 467-B is based upon historical market developments and that Cities' obligations under its FPC Gas Tariff and direct sale contracts constitute firm service under definitions promulgated in Commission Order Nos. 493 and 493-A.

Category 2 of the Cities priority system includes commercial requirements between 1000 and 3000 Mcf per month, small industrial requirements (up to 3,000 Mcf per month), commercial and industrial requirements for plant protection and pipeline storage injection requirements. Large commercial requirements of 3000 Mcf per month or more are included in Category 3 with industrial feedstock and process uses.

In support of its subdivision of Order No. 467-B Category 2, Cities states that customers in its proposed Categories 1 and 2 have never been curtailed or required to have alternate fuel capability. However, those commercial customers placed in proposed Category 3 have historically been curtailed and do have the required alternate fuel capability. Cities states that administrative reasons also support this breakdown since there are only 350 customers with large volumes in its proposed Category 3 whereas there are approximately 1900 customers with smaller volumes in its Category 2.

Pursuant to due notice issued February 21, 1975, and published February 27, 1975, in the FEDERAL REGISTER, (40 FR 8384) timely petitions to intervene have been filed by Midwest Gas Users Association and Armco Steel Corporation, (jointly), Ideal Basic Industries, Inc., The Gas Service Company, Kansas City Terminal Railway Company, General Motors Corporation, Owens Corning Fiberglas Corporation, Missouri Public Service Company, Armco Steel Corporation, Farmland Industries, Inc., and W. S. Dickey Clay Manufacturing Co.

Petitions to intervene out of time were received from Pet Incorporated, City of Independence, Missouri Power and Light Division, Kansas City Power and Light Company, Chemagro Agricultural Division Mobay Chemicals Corporation, Wilson & Co., Inc., St. Joseph Light & Power Company, Board of Public Utilities of Kansas City, Kansas and City of Kansas City, Kansas and Kansas City Power & Light Company.

The proposed tariff sheets have not been shown to be just and reasonable and thus may be unjust and unreasonable, discriminatory or otherwise unlawful. In the hearing hereinafter ordered, we will permit Cities to file supporting evidence and testimony to show the justness and reasonableness of its proposed curtailment plan.

The Commission finds: (1) The intervention of the above-named parties may be in the public interest.

[1] Seventh Revised Sheet No. 33, Second Revised Sheet No. 33-A, and Original Sheet Nos. 33-B, 33-C, 33-D and 33-E to Second Revised Volume 1 of its FPC Gas Tariff.

V40169
APR 9 75
XUM

(2) That a formal hearing is necessary and proper in the instant proceeding and that the procedures hereinafter established are required for the hearing.

(3) It is necessary and appropriate for the purposes of the Natural Gas Act, particularly Sections 4, 5, and 16 thereof, that the operations of the revised tariff sheets tendered by Cities February 10, 1975, and designated in footnote 1, *supra* be suspended and the use thereof deferred as hereinafter ordered.

(4) That the requirements of § 154.22 of the Commission's Regulations be waived.

The Commission orders: (A) Pursuant to authority under the Natural Gas Act, particularly Sections 4, 5, and 16 thereof, the Commission's Rules of Practice and Procedure and the Regulations under the Natural Gas Act, a public hearing shall be held on May 19, 1975, at 10 a.m. in a hearing room at the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the issues raised by the instant filing.

(B) The tariff sheets tendered by Cities on February 10, 1975, designated in Footnote 1, *supra* are hereby accepted for filing.

(C) Pending hearing and decision the revised tariff sheets tendered by Cities on February 10, 1975, are hereby suspended and the use thereof deferred until June 23, 1975, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(D) On or before April 28, 1975, Cities and other parties in support of its filing shall file with the Commission and serve upon all parties, including Commission Staff, testimony and exhibits in support of their position.

(E) Upon completion of the cross-examination of the direct testimony and exhibits submitted by Cities Service and interveners as their respective cases-in-chief, the Presiding Administrative Law Judge shall convene a conference for establishing procedures for the circulation of a draft environmental impact statement.

(F) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and, *Provided, further,* That the admission of said interveners shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9202 Filed 4-8-75;8:45 am]

[Docket No. CP73-5]

COLUMBIA GULF TRANSMISSION CO.

Petition To Amend

APRIL 1, 1975.

Take notice that on March 10, 1975, Columbia Gulf Transmission Company (Petitioner), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP73-5 a petition to amend the order issued in the subject docket on October 13, 1972 (48 FPC 841), pursuant to section 7(c) of the Natural Gas Act by authorizing an increase in the daily contract demand of gas transported and delivered by Petitioner for Texas Gas Transmission Corporation (Texas Gas) in the offshore Louisiana area, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order of October 13, 1972, Petitioner was authorized, *inter alia,* to transport and deliver for Texas Gas a contract demand of 35,700 Mcf of gas (14.73 psia) from Eugene Island Block 250 through Petitioner's 3.5-mile, 20-inch pipeline to a point of connection with the Offshore Header of the Blue Water Project in Eugene Island Block 227. Petitioner was further authorized to transport the aforestated volumes plus volumes received from Texas Gas from its sources in the Vermilion Area up to an aggregate quantity of 51,000 Mcf per day through the Offshore Header and the Western Shore Line of the Blue Water Project to a point of delivery at the Egan terminus of the Western Shore Line.

Petitioner states that due to declining gas deliverability in the Vermilion Area, Texas Gas is unable to meet contract demand of 51,000 Mcf of gas per day. Petitioner requests that the Commission amend the certificate issued in the October 13, 1972, order to increase the contract demand from 35,700 Mcf of gas per day to 43,860 Mcf of gas per day from the Block 250 area. Petitioner states that such increase in contract demand will allow Texas Gas to offset declining deliveries from the Vermilion area for ultimate disposition to the consuming public.

Petitioner states that no new facilities are required to implement its proposal.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before April 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9203 Filed 4-8-75;8:45 am]

[Docket No. E-9343]

COLUMBUS & SOUTHERN OHIO ELECTRIC CO.

Filing of Rate Schedule

APRIL 2, 1975.

Take notice that Columbus and Southern Ohio Electric Company, on March 27, 1975 tendered for filing proposed changes in its F.P.C. Electric Service Tariff, Rate Schedule No. 22. The proposed changes would increase revenues from jurisdictional sales and service by $181,758 based on the twelve-month period ending June 30, 1974. The fuel adjustment clause contained in the proposed rate schedule has been prepared to conform with present Commission regulations concerning the form of such clauses.

The Company has been serving at wholesale the City of Columbus, Ohio pursuant to a contract which terminated on December 31, 1974, which contract and rates are contained in Commission Rate Schedule No. 22. The rates contained in the new rate schedule tendered for filing to supersede Commission Rate Schedule No. 22 are contained in a bid contract submitted by the Company to the City and accepted by the City effective March 1, 1975.

The Company requests waiver of the notice requirements contained in §§ 35.3 and 35.13 of the Commission's regulations, and asks that the rate schedule be made effective March 1, 1975. The Company states that the additional revenue is needed to help to offset increases in the cost of providing electric service as well as increases in the cost of facilities and capital required to provide such services.

A copy of the filing has been served upon the City of Columbus, Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Streeet, NE. Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9204 Filed 4-8-75;8:45 am]

[Docket No. RP75-48]

EASTERN SHORE NATURAL GAS CO.

Order Accepting for Filing

APRIL 2, 1975.

Eastern Shore Natural Gas Company (Eastern Shore) on December 24, 1974, tendered for filing revised and original tariff sheets to its FPC Gas Tariff, Original Volume No. 1, proposed to become effective as of January 1, 1975.[1]

Eastern Shore states that the purposes of this rate filing are (1) to provide for demand charge adjustments under the curtailment plan provisions of its tariff, and (2) to set forth the procedures for reimbursement to Eastern Shore, through changes in its commodity charges, for the demand charge credits granted to customers. Eastern Shore further states that the proposed revisions are in the public interest because its customers will not be required to pay demand charges for that portion of contract demand not supplied by reason of gas shortage curtailment, and Eastern Shore will not be precluded from recovering its cost of service. Eastern Shore avers that the operation of the proposed tariff changes will not result in any net increase in its revenues.

Eastern Shore requests waiver of the thirty-day notice provisions of the Natural Gas Act and the Commission's Rules and Regulations in order that the proposed tariff sheets may become effective as of January 1, 1975. Eastern Shore states that copies of the filing have been mailed to each of its jurisdictional customers and to interested State commissions. Notice of the filing was issued by the Commission on February 14, 1975 and no comments or protests have been filed.

A review of the provisions of Eastern Shore's tariff as modified by the proposed decand and commodity charge provisions indicates that the currently effective tariff provides for a demand charge adjustment only in case of *force majeure* conditions. The proposed adjustments are related to curtailment of gas supply for which Transcontinental Gas Pipe Line Corporation (Transco) is Eastern Shore's sole supplier and Transco is currently under heavy curtailment.

Our review of Eastern Shore's proposed demand charge adjustment provision indicates that it is appropriate and in the public interest. Accordingly, we shall accept for filing and make effective Eastern Shore's proposed clause. For good cause shown, we shall also grant waiver of § 154.38(d)(3) of the Regulations to permit the clause in Eastern Shore's FPC Gas Tariff.

Eastern Shore also requests waiver of the 30-day notice requirements of Section 4 of the Natural Gas Act to permit a January 1, 1975, effective date. We shall deny this request inasmuch as Eastern Shore has not shown good cause for such waiver and shall make the clause effective as of the date of issuance of this order.

The Commission finds: (1) Good cause exists for waiving the provisions of § 154.38(d)(3) of the Commission's Regulations under the Natural Gas Act in order to permit the tariff sheets tendered for filing by Eastern Shore on December 24, 1974 to become effective as provided herein below.

(2) Good cause has not been shown by Eastern Shore for waiving the thirty-day notice requirements of the Natural Gas Act and of our Regulations.

(3) The proposed tariff sheets filed by Eastern Shore on December 24, 1974, and the rate and charge adjustment provisions therein contained are proper and in the public interest in carrying out the provisions of the Natural Gas Act and should be accepted for filing and made effective as hereinafter provided and ordered.

The Commission orders: (A) The provisions of § 154.38(d)(3) of the Commission's regulations Under the Natural Gas Act are hereby waived and the tariff sheets filed by Eastern Shore on December 24, 1974, described above, are accepted for filing, to become effective on the date of issuance of this order.

(B) Eastern Shore's request for waiver of the thirty-day notice requirements of the Natural Gas Act and of the Regulations thereunder is denied.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75-9207 Filed 4-8-75;8:45 am]

[Docket No. E-9337]

IOWA POWER & LIGHT CO.

Proposed Rate Change

APRIL 2, 1975.

Take notice that Iowa Power and Light Company (Iowa Power) on March 21, 1975, tendered for filing Service Schedule B to the Electric Interchange Agreement between Iowa Power and the City of Indianola, Iowa (now the Indianola Water Works and Electric Light and Power Board of Trustees) dated December 31, 1973. Service Schedule B provides for the January 1, 1975 and January 1, 1976 implementations of increased charges for Base Load Power. Service Schedule B has also been revised to include Cooper Nuclear Generating Station as a generating unit providing Base Capacity and to exclude Des Moines Power Stations Nos. 5 and 8 and Council Bluffs Power Station No. 1.

Iowa Power states that the proposed rate changes effective January 1, 1975 and January 1, 1976 will not produce revenues from jurisdictional sales and service based upon the twelve month periods ending December 31, 1975 and December 31, 1976 which are greater than those based upon the rate in effect during 1974.

Iowa Power further states that the increased rate for Base Load Power in Service Schedule B was necessary because of the inclusion of Cooper Nuclear Generating Station as a generating unit providing Base Capacity under the Schedule and the resulting increase in the weighted average fixed cost of all generating units providing Base Capacity.

With respect to that portion of the rate schedule proposed to become effective January 1, 1975, Iowa Power requests that the Commission waive the prior notice requirements of § 35.3(a) and accept said portion for filing with a retroactive effective date of January 1, 1975 under § 35.11 of the regulations.

With respect to that portion of the rate schedule which is proposed to become

[1] Demand charge adjustment: Third Revised Sheet No. 7 and Second Revised Sheet No. 9D. Commodity Charge adjustment: First Revised Sheet No. 32B, and Original Sheet Nos. 34L and 34M.

V40169 APR 9 75 XUM

effective January 1, 1976, Iowa Power requests that the Commission waive the notice requirements of § 35.3(a) and accept said portion for filing with an effective date of January 1, 1976 under § 35.3 (b) of the regulations.

Iowa Power states that copies of the filing have been served upon the Board of Trustees of Indianola, Iowa, and the Iowa State Commerce Commission.

Any person desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 17, 1975.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9208 Filed 4-8-75;8:45 am]

[Docket No. E-9342]

JERSEY CENTRAL POWER & LIGHT

Filing of Revised Fuel Clause

APRIL 2, 1975.

Take notice that on March 26, 1975 Jersey Central Power & Light Company (Jersey Central) tendered for filing a fuel adjustment clause and asked that the new clause be allowed to become effective on April 26, 1975.

Jersey Central states that the clause is intended to conform with § 35.14 of the Commission's regulations as amended by Order No. 517. According to Jersey Central the clause would reflect changes in Jersey Central's nuclear and fossil fuel costs per kilowatt hour of sales and contains a provision to reflect changes in New Jersey gross receipts taxes with variations in the fuel adjustment. Jersey Central states that the clause would reflect changes in fuel costs of its own generation and changes in identifiable fuel costs of purchased power and energy related costs of interchange purchased on an economic dispatch basis less the fuel related costs recovered through interchange sold on an economic dispatch basis. According to Jersey Central, the base cost of fuel is derived from 1972 data consistent with the basic energy charge in the presently effective rates accepted by the Secretary's letter of November 19, 1974 in Docket No. E-8424.

Any person desiring to be heard or to make any protest with reference to said filing should, on or before April 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The documents filed by Jersey Central are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9209 Filed 4-8-75;8:45 am]

[Docket No. E-9203]

KANSAS CITY POWER & LIGHT CO.

Filing of Supplemental Agreement

APRIL 1, 1975.

Take notice that on December 31, 1974, Kansas City Power & Light Company (KCPL) tendered for filing a Supplement to Municipal Interconnection Contract between KCPL and the City of Marshall, Missouri, relating to KCPL's FPC Rate Schedule No. 43, to become effective January 1, 1975. The supplemental agreement provides for wholesale firm power service to the City of Marshall.

In its filing, KCPL states that wholesale electric service is being provided under a rate which are KCPL's rates and charges for Municipal Wholesale Firm Power Service as agreed to in the Settlement Agreement approved September 4, 1974, by the Federal Power Commission in Docket No. E-8365. Application is made for a waiver of the 30-day minimum filing notice requirement because the City has requested initial service on January 1, 1975, to alleviate fuel acquisition problems and to allow for increased maintenance of equipment.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9210 Filed 4-8-75;8:45 am]

[Docket No. E-9242, etc.]

KANSAS POWER & LIGHT CO.

Order Denying Rehearing

APRIL 2, 1975.

In the matter of Dockets Nos. E-9242, E-9246, and E-9247.

On January 30, 1975, Kansas Power and Light Company (KP&L), tendered for filing a proposed initial contract for service between it and the City of Horton, Kansas. On January 31, 1975, KP&L tendered for filing proposed initial contracts for service between it and the Cities of Wamego and Minneapolis, Kansas (Collectively Cities). These contracts provide for service between KP&L and Cities to become effective on the date the facilities are constructed, but not later than July 1, 1976. Pursuant to § 35.11 of the Regulations, KP&L requested waiver of the notice requirements of the Regulations.

By certified letter dated February 25, 1975, the Secretary informed KP&L that the filing was deficient in that it does not comply with § 35.14 of the regulations as amended by Order No. 517.[1] KP&L by letter filed March 5, 1975, requested that the filings be assigned a filing date and accepted by the Commission. We shall treat this letter as an Application for Rehearing of the Secretary's letter pursuant to Section 1.34 of the Regulations and, for the reasons set forth hereafter, deny the application.

KP&L states that the filing of these three contracts adds three new customers to be served under KP&L's existing tariff schedule MWH-63 presently on file with the Commission. KP&L further states that it will file a new tariff schedule prior to December 31, 1975 to conform with the new regulations. KP&L argues, however, that providing service to Cities under a different tariff schedule than is on file for service to its other municipal wholesale customers would be discriminatory. KP&L finally argues that since the fuel adjustment clause in the instant filings is not a new fuel adjustment clause, its filings should be assigned a filing date and be accepted by the Commission.

We deny KP&L's request. We cannot pass on the question of whether it would be discriminatory to provide service to Cities under a different tariff than is used for service by KP&L to other wholesale customers until KP&L files the new tariff. We note in this regard that KP&L has requested waiver of the notice requirements of the regulations in order that it be permitted to file these contracts prior to the construction of facilities necessary for the implementation of the contracts. Except for the allegation as to discrimination, KP&L has not made the requisite showing under § 35.11 of the regulations as to how it and the

[1] Docket No. R-479, issued November 13, 1974.

purchasers under the proposed rate schedules would be affected if the notice requirement is not waived and the effects of waiver on other customers. We cannot take lightly an allegation that the requirement of conformity with our regulations would be discriminatory. If our review of the service, rates, and charges of KP&L, after it has filed proposed rate schedules in compliance with our regulations, indicates that undue discrimination exists, we shall act then to remedy the problem. Unless the contrary is clearly demonstrated, we believe that when comparing rate schedules not in conformity with our regulations with rate schedules in conformity with the regulations, it is those rate schedules which do not conform which should be changed if undue discrimination is found.

The language of the new Regulation as promulgated by Order No. 517 does not address the situation when an initial rate schedule containing a fuel clause on file with a separate rate schedule is filed. However, Finding Paragraph (4) specifically states that the amended regulation shall be effective for all initial rates filed on or after January 1, 1975. Ordering Paragraph (A) of Order No. 517 effects this result. Accordingly, although the fuel clause is identical to the fuel clause on file with other rate schedules, it nevertheless must comply with the amended Regulation.

The Commission finds: KP&L's Application for Rehearing raises no new issues of fact or law which justify granting rehearing.

The Commission orders: (A) KP&L's Application for Rehearing is hereby denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9211 Filed 4-8-75;8:45 am]

[Dockets Nos. RP73-91, PGA75-2]

McCULLOCH INTERSTATE GAS CORP.

Order Accepting for Filing

APRIL 2, 1975.

On February 18, 1975, McCulloch Interstate Gas Corporation (McCulloch), tendered for filing a purchased gas cost adjustment increase[1] pursuant to its PGA clause. The proposed PGA increase reflects a PGA rate increase totalling 27.55¢ per Mcf, which consists of (1) a surcharge of 15.16¢ per Mcf to recover the balance of $434,971 which has accumulated in the Unrecovered Purchased Gas Cost Account as of December 31, 1974, and (2) a 12.93¢ per Mcf increase to reflect increased purchased gas costs resulting primarily from an increase from its major supplier, McCulloch Gas processing. The surcharge is filed pursuant to the one time tracking provisions in Opinion Nos. 699-G and 699-H, and replaces the present surcharge of .54¢ per Mcf. The company proposes an effective date of April 1, 1975.

McCulloch's February 18, 1975, filing was noticed with comments, protests and petitions to intervene due on or before March 10, 1975. To date, no comments, protests or petitions have been received.

Our review of McCulloch's February 18, 1975, filing indicates that it is based in part upon four small independent producer purchases at rates in excess of the rate levels established by Opinion No. 699-H.[2] Therefore, the proposed rates have not been shown to be just and reasonable, and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept the subject filing, suspend it for one day to become effective April 2, 1975, subject to refund. With regard to the question of small producer purchases, we note that the Supreme Court has recently remanded the small independent producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness of the prices for small producer purchases.[3] We believe, therefore, that it would be premature to establish a hearing schedule in this docket at this time.

Further review of McCulloch's filing indicates that the claimed increased costs other than those costs associated with that portion of the small producer purchases in excess of the rate levels prescribed in Opinion No. 699-H are fully justified and comply with the standards set forth in Docket No. R-406. Accordingly, McCulloch may file a substitute tariff sheet to become effective April 1, 1975, reflecting increased costs other than that portion of those increased costs associated with small producer purchases in excess of the rate levels prescribed in Opinion No. 699-H referred to in this order.

This approval is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R-389-B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of the respective pipelines' PGA clauses and § 154.38(d)(4) of the regulations.

The Commission finds: It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that:

(1) The proposed filing submitted by McCulloch on February 18, 1975, be accepted for filing, suspended and permitted to become effective April 2, 1975 subject to refund.

(2) The claimed increased costs other than those increased costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion No. 699-H have been reviewed and found fully justified and in compliance with the standards set forth in Docket No. R-406.

The Commission orders: (A) McCulloch's Revised Sheet No. 32 to its FPC Gas Tariff, Original Volume No. 1, are hereby accepted for filing, suspended and permitted to become effective April 2, 1975, subject to refund, pending further Commission order in this docket.

(B) McCulloch may file to become effective April 1, 1975, substitute tariff sheets reflecting that portion of McCulloch's rates as filed February 18, 1975, which reflect increased costs other than those increased costs associated with that portion of small producer purchases which are in excess of the rate levels prescribed in Opinion No. 699-H.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-9061]

METROPOLITAN EDISON CO.

Tariff Change

APRIL 2, 1975.

Take notice that Metropolitan Edison Company (Met Ed), on October 15, 1974, tendered for filing a Supplemental Letter Agreement dated October 2, 1974 to the Wheeling and Supplemental Power Agreement, dated November 9, 1973, between Met Ed (Rate Schedule FPC No. 26) and Allegheny Electric Cooperative, Inc.

Met Ed states that the Supplemental Letter Agreement provides for the establishment of an additional delivery point for service to Adams Electric Cooperative, Inc., a member cooperative of Allegheny Electric Cooperative, Inc. The addition of the new delivery point will enable the transfer of a portion of the existing load at the EAST BERLIN delivery point to the new delivery at ROSSVILLE, according to the Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. RP71-16, PGA75-5]

MIDWESTERN GAS TRANSMISSION CO.

Order Accepting PGA Rate Increase

APRIL 2, 1975.

Midwestern Gas Transmission Company (Midwestern) on February 28, 1975, tendered for filing two alternative sets of Purchased Gas Cost (PGA) rate increase proposals to reflect its supplier's rate increase pursuant to Opinion Nos. 699-G and 699-H.[1] Midwestern states that the sole purpose of the revised tariff sheets is to reflect an increase of $29,693,186 in its Southern System rates and charges (13.98 cents per Mcf) resulting from an increase in rates filed by its supplier, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee) that is to become effective as of March 1, 1975.

Midwestern states that due to the short notice period many of its customers have requested it to defer the instant increase until April 1, 1975, to enable them to give sufficient notice to their respective state commissions. In response to these requests Midwestern filed Ninth Revised Sheet No. 5, reflecting an increase of 17.23 cents per Mcf) proposing to defer the increase until April 1, 1975, coupled with the request that Midwestern could collect carrying charges (estimated to amount to $37,993) on the deferred increase in its PGA surcharges until such carrying charges have been recovered. In the event the Commission does not permit Midwestern to collect such carrying charges for March, 1975, Midwestern also tendered for filing Alternate Ninth Revised Sheet No. 5, (reflecting an increase of 13.98 cents per Mcf) to become effective as of March 1, 1975.

Public notice of Midwestern's February 28 rate filing was issued by the Commission on March 5, 1975 and was published in the Federal Register on March 12, 1975 (40 FR 11642). Comments and petitions for leave to intervene were due to be filed on or before March 21, 1975. Only one party has timely filed a comment and petition for intervention, Northern Illinois Gas Company (NI-Gas).

NI-Gas' petition for leave to intervene supports Midwestern's plan to defer the rate increase until April 1 and to collect carrying charges in its PGA surcharges. NI-Gas states that it may suffer a loss of revenues estimated to amount to $238,000 if Midwestern's increase is made effective as of March 1. If the Commission rejects Midwestern's deferral plan, NI-Gas requests that the Commission set the issue for hearing.

Consistent with our action in rejecting a similar proposal to defer a supplier rate increase, coupled with a carrying charge surcharge, in the Natural Gas Pipe Line case[2] our review of the facts and circumstances alleged by Midwestern and by NI-Gas indicates that "unusual circumstances" do not exist that would justify a departure from our general policy of denying carrying charges on amounts accumulated in pipeline PGA deferred accounts.

We are cognizant of the difficulties that distributors may sometimes encounter in passing through purchased gas costs increases of their wholesale suppliers. Such problems, however, relate to matters not within our jurisdiction and do not constitute grounds for delay in the effective date of just and reasonable rates and charges. Accordingly, we shall reject Midwestern's proposal to defer the rate increase.

We shall grant NI-Gas' petition to intervene. However, since our review of Midwestern's February 28 rate filing indicates that it fully complies with the procedures and policies enunciated in Docket No. R-406 and in Opinion No. 699-H, a hearing as proposed by NI-Gas would serve no useful purpose. NI-Gas' request for a hearing therefore should be denied.

Our review of the costs contained in Midwestern's alternate increase to become effective March 1, 1975, indicates that they are justified under the standards set forth in Docket No. R-406 and Opinion No. 699-H. Accordingly, we shall accept for filing Midwestern's Alternate Ninth Revised Sheet No. 5 to become effective March 1, 1975, as proposed, subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket R-389-B or of any appeals of such order to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of Midwestern's PGA clause and § 154.38(d)(4) of the Regulations.

The Commission finds: (1) Midwestern's Alternate Ninth Revised Sheet No. 5 to its FPC Gas Tariff, Third Revised Volume No. 1, as filed on February 28, 1975, is proper and in the public interest in carrying out the provisions of the Natural Gas Act, and should be accepted for filing and made effective as of March 1, 1975, as hereinafter provided and ordered.

(2) Midwestern's Ninth Revised Tariff Sheet No. 5, proposed to become effective April 1, 1975, is not proper and in the public interest and should be rejected as hereinafter provided and ordered.

(3) The intervention of NI-Gas herein may be in the public interest and should be permitted as provided herein.

The Commission orders: (A) Midwestern's Alternate Ninth Revised Sheet No. 5 to its FPC Gas Tariff, Third Revised Volume No. 1, filed February 28, 1975, is hereby accepted for filing to become effective as of March 1, 1975, subject to the Purchased Gas Adjustment provisions of Midwestern's tariff, subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket R-389-B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of Midwestern's PGA clause and § 154.38(d)(4) of the Regulations.

(B) Midwestern's Ninth Revised Sheet No. 5 to its FPC Gas Tariff, Third Revised Volume No. 1, proposed to become effective on April 1, 1975, is hereby rejected.

(C) NI-Gas is hereby permitted to intervene herein with respect to Midwestern's purchased gas cost adjustment to its rates and charges as tendered for filing on February 28, 1975, designated as PGA75-5, subject to the rules and regulations of the Commission; *Provided, however,* That participation of said intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in its petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that such party might be aggrieved by any order or orders issued in this proceeding.

(D) NI-Gas' request for a hearing in PGA75-5 is hereby denied.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

O. B. MOBLEY

Withdrawal and Cancellation of Hearing

MARCH 19, 1975.

In the matter of Dockets Nos. CI75-343, CI75-344, and CI75-345.

On February 21, 1975, Mr. O. B. Mobley, Jr. filed a withdrawal of his application filed November 25, 1974, in the above-designated matter which was set for hearing by order issued February 14, 1975.

Notice is hereby given that pursuant to § 1.11(d) of the Commission's rules of practice and procedure the withdrawal of the above application shall become effective March 24, 1975. The hearing schedule for April 8, 1975 is cancelled.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9215 Filed 4-8-75;8:45 am]

[Docket No. CP75-274]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

APRIL 1, 1975.

Take notice that on March 20, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-274 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to provide 38,673 Mcf per day of long-term 100-day storage service to existing customers, all as set out more fully in the application, which is on file with the Commission and open to public inspection.

Applicant states that it has entered into a transportation and storage agreement dated November 29, 1974, with Michigan Wisconsin Pipeline Company (Mich Wisc) providing for long-term transportation and storage of 3,800,000 Mcf of natural gas (Mcf at 1,000 Btu per cubic foot measured on a wet basis, which approximately equals 3,867,300 Mcf measured on a dry basis). This agreement, which is the subject of a separate application by Mich Wisc in Docket No. CP75-182, will, in turn, enable Applicant to offer 38,673 Mcf per day of 100-day long-term storage service over the winter period of November 1 to March 1 to the following customers:

Customer	Share of 38,673 M ft³ per day
Associated Natural Gas Co	50
Illinois Power Co	2,000
Iowa Electric Light & Power Co	1,476
Iowa-Illinois Gas & Electric Co	6,856
Iowa Power & Light Co	506
Iowa-Southern Utilities Co	265
Nashville, Illinois, city of	41
North Shore Gas Co	3,412
Peoples Gas Light & Coke Co., the	23,849
Peoples Natural Gas Division	94
Spearville, Kansas, city of	9
United Cities Gas Co	116
Total	38,673

To support the proposed storage service, participating customers will provide to Applicant volumes of natural gas from their existing entitlements equivalent to all top gas, cushion gas and fuel gas Applicant is required to deliver to Mich Wisc under the November 29, 1974, agreement, which includes, on an annual basis, a winter contract quantity of 3,800,000 Mcf, plus 5 percent of this winter contract quantity for use as compressor fuel. Mich Wisc is also to receive from Applicant 1,900,000 Mcf of natural gas prior to October 31, 1976, for use as cushion gas. Applicant states that the storage service will not affect its annual gas supply.

The storage service will be offered for a term of 16 years, coextensive with the term of Applicant's existing DMQ-1 service agreements, subject to renewal at Applicant's option up to 20 years. During the 12-month period following termination of the proposed storage service, Applicant proposes to redeliver the cushion gas furnished by participating customers, less 5 percent thereof for compressor fuel.

The storage service will be offered under a proposed new Rate Schedule MS-1. The proposed storage service will be billed under a demand charge per month of $7.47 for each Mcf of Buyer's Daily Withdrawal Quantity determined by dividing the sum of the annual cost Applicant will pay Mich Wisc under the referenced agreement (a demand charge of $6.75 per month per Mcf of maximum daily quantity during each month of the year), plus the allocated portion of Applicant's cost of north end pipeline loopings between its market storage fields and the terminus of the system by Applicant's annual billing units applicable to the proposed service. In addition, it is proposed that the customers be required to bear costs to Applicant which may result from reimbursing Mich Wisc for losses incurred by it in the event Applicant elects to cancel the Mich Wisc agreement prior to its termination date.

Applicant states that the additional winter period service is needed by its customers to enable them to meet peak day space heating requirements in the event of severe winter conditions. To the extent that a severe winter does not occur, this additional service, according to Applicant, will assist Applicant's customers to serve additional winter needs of new and existing high priority 1 and 2 consumers and will alleviate the need for expensive peak shaving supplies.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9216 Filed 4-8-75;8:45 am]

[Dockets Nos. RP74-75, RP74-80]

NORTHERN NATURAL GAS

Extension of Procedural Dates

APRIL 2, 1975.

On March 24, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued February 13, 1975 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of staff's testimony	Apr. 3, 1975
Service of intervenor's testimony	Apr. 17, 1975
Service of company rebuttal	May 16, 1975
Hearing (10 a.m. e.d.t.)	June 3, 1975

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9217 Filed 4-8-75;8:45 am]

[Docket No. CI75-52]

PHILADELPHIA OIL CO.

Order Granting Rehearing and Providing for Hearing

MARCH 26, 1975.

The Pittston Company asks rehearing of our order of January 23, 1975, in this proceeding. In that order we granted a certificate of public convenience and necessity to the Philadelphia Oil Company to sell natural gas to the Kentucky West Virginia Gas Company. The seller's gas would be transported to the buyer through pipelines of the Berea Gathering Company, and thereafter through pipelines of the Pittston Company, following which it would be delivered into the pipeline of the Kentucky West Virginia Company at the Kentucky-Virginia state line. We stated in our order that the facilities of the Berea Gathering Company, as they are proposed to be used in this transaction, constitute gathering facilities within the meaning of section 1(b) of the Natural Gas Act, and they are thus not within our jurisdiction. But we said that the Pittston system, as proposed to be used herein, "appears to go beyond the gathering function" and "appears to be a jurisdiction function". We therefore in our order imposed the following condition upon the certificate granted to the Philadelphia Oil Company:

(C) The certificate issued by paragraph (A) above and the rights granted thereunder are conditioned on Pittston making an appropriate certificate filing, pursuant to section 7(c) of the Act, for certification of its proposed transportation of natural gas as hereinbefore described, or for a declaratory order of disclaimer of jurisdiction by the Commission and upon the Commission's ultimate resolution thereon.

On February 24, 1975, the Pittston Company filed its application, fully titled "Petition of the Pittston Company for Leave to Intervene, Request for Rehearing and Reconsideration, Request for Removal of Ordering Paragraph (C)

V40169 APR 9 75 XUM

to Commission Order, or Alternatively, Request for Declaratory Order as to Jurisdictional or Non-Jurisdictional Status of the Pittston Company". In its application, Pittston argues that it, like the Berea Gathering Company, should be regarded as a gatherer and thus exempt from our jurisdiction under section 1(b). But if the Commission does not agree with its position Pittston then asks "that it be granted a formal hearing, with the right to present witnesses, file briefs, and for whatever further relief the Commission deems just and appropriate in the circumstances" (Petition, p. 12). In a petition filed March 13, the Kentucky West Virginia Company supports Pittston's position, and urges speed in the resolution of the question.

We are not prepared, on the basis of Pittston's application of February 24, to delete condition (C) from our order of January 23. Deletion of that paragraph would, of course, constitute a reversal of our conclusion that Pittston is subject to our jurisdiction as a company transporting natural gas in interstate commerce. We are, however, prepared to grant Pittston's request for a declaratory order as to its status as a jurisdictional or non-jurisdictional company; and as a prerequisite to that declaratory order, we find it necessary that a formal hearing be held, as Pittston has requested. Although Pittston's application to intervene is tardy, we grant it in light of the company's obvious interest and involvement. We will also accede to Kentucky West Virginia's request that the proceeding be expedited.

The Commission finds: (1) Good cause exists for setting for hearing the question of jurisdiction that has been raised herein.

(2) Good cause exists for permitting the intervention in this proceeding of the Pittston Company.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 1, 4, 5, 7, 14, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), the question of Commission jurisdiction over the Pittston Company, as it arises in Docket No. CI75-52, is set for the purpose of hearing and disposition.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5 (d)) shall preside at the hearing in this proceeding, pursuant to the Commission's rules of practice and procedure.

(C) A public hearing on the issue defined in paragraph (A) hereof shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, commencing on May 7, 1975. Pittston and any party supporting its position shall file direct testimony and evidence by April 14, 1975.

(D) The Pittston Company is permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that such intervenor might be aggrieved because of any order or orders of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9218 Filed 4-8-75;8:45 am]

[Docket No. CI75-383]

SOHIO PETROLEUM CO.

Notice of Withdrawal

MARCH 19, 1975.

On February 27, 1975, Sohio Petroleum Company filed a withdrawal of its applications filed December 9, 1974 and January 8, 1975 in the above-designated matter.

Notice is hereby given that pursuant to § 1.11(d) of the Commission's rules of practice and procedure, the withdrawal of the above application shall become effective March 31, 1975.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9219 Filed 4-8-75;8:45 am]

[Dockets Nos. RP73-64, PGA75-3]

SOUTHERN NATURAL GAS CO.

Order Accepting in Part Proposed PGA Increase

MARCH 31, 1975.

On February 21, 1975, Southern Natural Gas Company (Southern) tendered for filing a proposed revised tariff sheet[1] to Sixth Revised Volume No. 1 of its FPC Gas Tariff. The proposed change is to recover increases in the cost of gas resulting from Opinion No. 699-H.[2] Southern requested an effective date of March 1, 1975.

Notice of the filing was issued on February 28, 1975, with comments, protests, and petitions to intervene due on or before March 14, 1975. No comments or petitions have been received.

The increase is composed of component increases reflecting higher costs for gas purchases from independent producers and pipelines and an increase for Southern's own production. The increase also contains a surcharge adjustment to be effective from March 1, through June 30, 1975, to recover costs relating to Southern's production qualifying for national rates during the period from July 21, 1974 through February 28, 1975.

Our review of Southern's filing indicates that it complies with Southern's tariff and Opinion No. 699-H, with one exception. We shall therefore accept it for filing and permit it to become effective March 1, 1975, as hereinafter conditioned.

Southern's base rates reflect in excess of 41 million Mcf of its own production at a cost of approximately 20 cents per Mcf. The base cost of gas in Southern's purchased gas cost adjustment provision does not contain any amounts reflecting Southern's own production. The instant filing, however, reflects in excess of 6 million Mcf which Southern states qualified for the national rate pursuant to Opinion No. 699-H in its purchased gas cost adjustment. We shall accept this adjustment subject to the condition that Southern redistribute the production costs associated with the qualified production to the base cost of purchased gas for the purposes of its purchased gas cost adjustment.

This approval is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R-389-B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of the Southern's PGA clause and § 154.38(d)(4) of the regulations.

The Commission finds: Good cause exists to accept Southern's proposed rate increase for filing and permit it to become effective as hereinafter ordered and conditioned.

The Commission orders: (A) Southern's proposed rate increase is hereby accepted for filing and permitted to become effective March 1, 1975; *Provided, however,* That within 15 days of the issuance of this order, Southern shall file the recomputation of its base cost of purchased gas and appropriate revisions to its tariff sheet consistent with its revised base cost of purchased gas.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9220 Filed 4-8-75;8:45 am]

[Docket No. RP74-91-20]

TENNESSEE GAS PIPELINE CO.

Filing of Petition for Extraordinary Relief

APRIL 2, 1975.

Public notice is hereby given that on March 25, 1975, North Alabama Gas District (North Alabama), filed, pursuant to § 1.7 of the Commission's rules of practice and procedure and § 2.78 of the Commission's regulations, a petition requesting extraordinary relief from the curtailment imposed by one of its suppliers of natural gas, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee).

In support of its petition North Alabama states that it purchases natural gas from Tennessee under Tennessee's CD-1 rate schedule under a firm contract and is entitled, under the aforementioned contract to receive 2,000 Mcf per day of natural gas from Tennessee. North Alabama adds that all of the natural gas received from Tennessee is resold under a firm contract to United States Steel Agri-Chemicals Division (Ag-Chem) at its facility near Cherokee, Alabama.

North Alabama states that its petition in the instant proceeding is in direct response to the Commission's order of February 26, 1975, in the Texas Eastern Transmission Corporation proceeding (North Alabama Gas District), Docket No. RP74-39-8, wherein North Alabama states that the Commission's order in that docket provided that the limitations contained therein were intended to encourage Ag-Chem to seek any necessary additional gas by petitioning separately for relief from its other suppliers, Alabama-Tennessee Natural Gas Company (A-T) and Tennessee. North Alabama therefore requests that the Commission grant, without hearing, (1) North Alabama's request for extraordinary relief, by suspending Tennessee's curtailment plan as applicable to North Alabama, and require Tennessee to supply to North Alabama 1,667 Mcf of natural gas per day, and (2) such additional relief as may be deemed and determined to be just and appropriate.

A shortened notice period in this proceeding may be in the public interest. Any person desiring to be heard or to protest said petition should on or before April 18, 1975, file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-9221 Filed 4-8-75;8:45 am]

[Docket Nos. RP75-71, etc.]

UNITED GAS PIPE LINE CO.

Order Suspending Tariff Sheets, Consolidating Proceeding and Granting Interventions

APRIL 2, 1975.

On March 3, 1975, United Gas Pipe Line Company (United) tendered for filing the following tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1:

First Revised Sheet No. 71-C.
First Revised Sheet No. 71-D.
Eighth Revised Sheet No. 72.
Fifth Revised Sheet No. 72-A.

First Revised Tariff Sheet No. 71-C contains section 12.3 "Substitute Fuel Payment Obligations" in the form proposed by United in its Original Sheet No. 72-A[1] which was filed on May 17, 1971. In order to accommodate the proposed reinstatement of the previous section 12.3 disallowed by Commission Opinion No. 647-A, 49 FPC 1211 (1973), sections 12.3, 12.4 and 12.5 are redesignated 12.4, 12.5 and 12.6 respectively in new tariff sheets, Nos. 71-D, 72, and 72-A.

In *State of Louisiana* v. *FPC*, 503 F. 2d 844 (5th Cir. 1974) the United States Court of Appeals for the Fifth Circuit vacated and remanded Opinion Nos. 647[2] and 647-A. Specifically, the Court of Appeals vacated our findings deleting section 12.3 from United's proposed tariff, as well as the subsidiary findings interpreting the substitute fuel clauses of some of United's industrial contracts. Consistent with the Court's mandate, we have directed the Presiding Administrative Law Judge to enter findings which fully respond to the Court's analysis in the continuing proceedings regarding a permanent curtailment plan for United in Docket Nos. RP71-29 and RP71-120.[3]

In order to fully comprehend the issue before us, the historical background underlying Tariff section 12.3 is pertinent. When in 1970 and early 1971 United began to curtail deliveries to its customers, certain customers asserted reimbursement rights under the substitute fuel clauses in their gas sales contracts with United, despite the provisions of section 12.1 which contained the following language:

> In the event a gas shortage renders Seller unable to supply the full gas requirements of all of its customers, then, Seller may, without liability to Buyer, prorate its gas supply in the manner hereinafter set forth.[4]

As the result of these contentions and the uncertainty regarding the applicability of Section 12.1 to the substitute fuel clauses, United in its May 17, 1971, tariff filing in response to Order No. 431 proposed the following language in a new § 12.3:

> Whenever Seller prorates its gas supply or interrupts its service in accordance with this section 12 of its Tariff so that customers of Seller do not receive the volumes of natural gas they desire up to their Maximum Daily Quantities, * * * Seller [shall not] be obligated to pay or credit such customers any sums with respect to substitute fuels burned by such customers during such a period of proration or interruption.

[1] Section 12.3 as originally proposed also provided that United would not be obligated to reduce any customer's demand charge as a result of curtailment. That portion of section 12.3 was considered by the Commission in Opinion No. 671, issued in Docket No. RP72-75, and therefore such portion is not included in this resubmission.

[2] 49 FPC 179 (1973).

[3] Order On Remand Denying Motion For Immediate Modification of Curtailment Plan, issued herein on March 7, 1975, (mimeo) page 24.

[4] First Revised Vol. No. 1 filed in compliance with Opinion No. 277, 13 FPC 308 (1954).

United proposed that section 12.3 as part of the larger tariff filing be made effective on November 1, 1971. On May 28, 1971, in Docket No. RP71-120, the Commission suspended the effectiveness of the proposed tariff changes for one day, *i.e.*, until November 2, 1971, and ordered the issues raised by the proposed changes consolidated for hearing and decision with the proceedings in Docket No. RP71-29.

On October 5, 1971, the Commission issued Opinion No. 606, 46 FPC 786 (1971), in which it ordered changes in other aspects of United's tariffs, but did not order modification of the "without liability" portion of Section 12.1. With respect to § 12.3, it was concluded:

> Implementation of the curtailment plan itself, pursuant to our procedures would be an absolute defense for United against all claims for specific performance, damages, or other requests for relief under these contracts affected by curtailments that may be initiated in the courts. No additional tariff language like that proposed in Section 12.3 on Original Sheet No. 72-A is necessary to limit liability under contracts when agencies' orders, rules, or regulations authorize actions contrary to those contracts. 46 FPC at 805.

Revised tariff sheets were filed in compliance with Opinion No. 606 on October 14, 1971, and were accepted for filing and made effective November 14, 1971. Included in said filing was First Revised Sheet No. 72-A which contained section 12.3.

In its review of Opinion Nos. 606, 606-A in *International Paper Co.* v. *FPC*, 476 F. 2d 121 (1973), the Fifth Circuit indicated difficulty with the manner in which the Commission had concluded § 12.3 was unnecessary and suggested that the Commission on remand address this issue more directly. Just prior to the decision in *International Paper*, we issued Opinion No. 647 finding § 12.3 to be unnecessary and for this reason ordered it deleted from United's tariff. Compliance tariff sheets were accepted for filing and placed into effect on January 17, 1973. In Opinion 647-A, the Commission responded to the Fifth Circuit's comments concerning § 12.3 and again found it to be unnecessary. When the Fifth Circuit reviewed these latter opinions in *State of Louisiana*, it expressly rejected the determination that § 12.3 was unnecessary, stating that it was an "integral part" of United's proposed curtailment plan that the Commission should consider it on the assumption that United may be liable for damages in the absence of such a tariff provision, and directed the Commission on remand to reconsider the propriety of § 12.3 in the light of the criteria of section 4(b) of the Natural Gas Act.

In view of the Fifth Circuit's indication that it was erroneous to have refused § 12.3 on the basis that it was unnecessary, United requests that the Commission accept the proposed sheets and reinstate § 12.3 as a part of United's tariff which became effective on November 14, 1971.

Pursuant to notice of the instant filing on March 7, 1975, timely petitions to intervene have been filed by New Orleans Public Service, Inc., Mississippi Power &

[1] Twelfth Revised Sheet No. 4A.

[2] Docket No. R-389-B, issued December 4, 1974.

V40169 APR 9 75 XUM

Light Company, Mississippi Power Company, Allied Paper Incorporated, Monsanto Company and Texasgulf, Inc., Louisiana Power and Light Company, Southern Natural Gas Company, Mississippi River Transmission Corporation, Gulf States Utilities Company, and International Paper Company filed late petitions to intervene.

A jurisdictional question of our autority to accept proffered § 12.3 has been raised by, *inter alia*, Mississippi Power & Light Company in its petition to intervene. In that petition, the contention is advanced that "• • • [t]he Commission is without jurisdiction of the direct sale, or the price to be paid for the gas sold, and therefore without jurisdiction to relieve United from obligations created by the direct sales contract • • •" (Page 3). We believe that this jurisdictional question, along with the other issues remanded to the Presiding Administrative Law Judge pertaining to § 12.3, should be developed and decided in the context of United's curtailment proceeding. Accordingly, in the consolidated proceeding, we direct the parties and the Presiding Judge to consider, *inter alia*, the jurisdictional question raised in the above quoted petition.

The Commission finds: (1) It is appropriate that the Commission consolidate the instant filing in Docket No. RP75–71 with the continuing curtailment proceedings in Docket Nos. RP71–29 and RP71–120 for purposes of hearing and decision, wherein the issues remanded by *State of Louisiana, supra*, and the issue of the Commission's jurisdiction relating to § 12.3 are to be considered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission suspend for one day the effectiveness of the instant filing since it has not been determined to be just and reasonable.

(3) The determination of whether or not effectiveness of § 12.3 should be made retroactive to November 14, 1971, should be decided after full hearing in the consolidated proceedings hereinafter established and upon a determination of the Commission's jurisdiction and the justness and reasonableness of § 12.3 under section 4 of the Natural Gas Act.

(4) The interventions of New Orleans Public Service, Inc., Mississippi Power and Light Company, Mississippi Power Company, Allied Paper Incorporated, Monsanto Company and Texasgulf Inc., Louisiana Power and Light Company, Southern Natural Gas Company, Mississippi River Transmission Corp., Gulf States Utilities Company and International Paper Company may be in the public interest.

The Commission orders: (A) Tariff sheets First Revised Sheet No. 71–C, First Revised Sheet No. 71–D, Eighth Revised Sheet No. 72 and Fifth Revised Sheet No. 72–A to United Gas Pipe Line Company's FPC Gas Tariff, First Revised Volume No. 1 are hereby accepted for filing.

(B) Under the authority of the Natural Gas Act, particularly sections 4, 5, 15 and 16 and pursuant to the Commission's rules of practice and procedure and the Regulations under the Natural Gas Act, a public hearing concerning the Commission's jurisdiction and lawfulness of the tendered tariff sheets designated in ordering paragraph (A) above shall be consolidated with the curtailment proceedings in Docket Nos. RP71–29 and RP71–120 as established by previous order for the purposes of hearing and decision.

(C) Pending such hearing and decision thereon, the tendered tariff sheets designated in ordering paragraph (A) above are hereby suspended for one day, until April 4, 1975, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(D) United's request that the effectiveness of the tendered tariff sheets be retroactive to their original filing is denied pending hearing.

(E) The above-named petitioners, are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and, *Provided, further,* That the admission of said interveners shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75–9222 Filed 4–8–75;8:45 am]

[Docket No. RP75–30]

UNITED GAS PIPE LINE CO.

Extension of Procedural Dates

APRIL 2, 1975.

On March 28, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued December 19, 1974, in the above-designated matter. The motion states that the parties have been notified and have not objected.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of staffs testimony	July 15, 1975
Service of Intervenor's Testimony	Aug. 12, 1975
Service of company rebuttal	Aug. 26, 1975
Hearing (10 a.m. e.d.t.)	Sept. 10, 1975

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–9223 Filed 4–8–75;8:45 am]

[Docket No. E–9184]

VERMONT ELECTRIC POWER CO.

Notice of Filing

APRIL 1, 1975.

Take notice that on December 20, 1974, Vermont Electric Power Company, Inc. (Velco) tendered for filing a purchase agreement for the sale of fifty thousand kilowatts and related energy from Boston Edison Company, dated as of November, 1974.

Velco states that service under the tendered rate schedule commenced at 12:01 a.m. on December 2, 1974, and will continue for a three week period through December 22, 1974, and on a week-to-week basis thereafter, unless terminated by either party after one week notice, but not later than February 16, 1975. Velco requests waiver of the Commission's notice requirements in order to permit an effective date of December 2, 1974.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–9224 Filed 4–8–75;8:45 am]

[Docket No. CI75–199]

SUN OIL CO.

Order Setting Matter for Formal Hearing Permitting Intervention and Prescribing Procedures

APRIL 2, 1975.

On September 26, 1974, Sun Oil Company (Sun) filed in Docket No. CI75–199 an application pursuant to section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company (United) from Sun's LaFourche Realty, Inc., Well No. 1, North Bayou Fer Blanc Field, Lafourche Parish, Louisiana, all as more fully set forth in the application in this proceeding.

Sun commenced a 60-day emergency sale of natural gas to United on September 12, 1974, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the emergency period, November 11, 1974, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Sun proposes to sell an estimated 160 Mcf of gas per day at 67.0 cents per Mcf at 15.025 psia, including tax reimbursement, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot. (Sun indicates that since the Btu content of the gas is 1053, the adjusted price will be

70.18 cents per Mcf at 15.025 psia.) Pursuant to the provisions of Commission Opinion No. 699–B (52 FPC —), Sun has continued the emergency sale to United since November 12, 1974, subject to refund.

Sun submitted as its proposed rate schedule a contract, dated August 12, 1974, which provides for the sale of an average daily quantity of up to 1,000 Mcf of gas produced from the reservoir found between 12,704 feet to 12,710 feet in the subject well; individual daily quantities will be such quantities which seller has available and which buyer desires to purchase. The contract also provides that the price will increase to any higher area rate which may be determined as a result of any order, settlement or other FPC ruling.

By mandate of Opinion No. 699–B, applicants for limited-term certificates, such as Sun are burdened with justifying by substantial evidence the price and duration of proposed limited-term sales. Although Sun's application provides no such support, on November 29, 1974, Sun filed a supplement to its application and states therein,

> Reservoir studies indicate that the LaFourche Realty, Inc., Well No. 1 will be depleted within six to twelve months from November 1974. Accordingly, the supply of gas from the LaFourche Realty, Inc., Well No. 1 is available only for the limited period for which certification is sought.

In support of the proposed rate, Sun advises that it has constructed a line from the subject well to United's pipeline at a cost of $88,868 because initial evaluation of the well indicated that such investment was justified. However, the initial production volumes, which appeared to confirm the evaluation, did not hold up and production declined to approximately one-third of the initial volumes in a short period of time. As a result of the decline in production, Sun estimates that the gross revenues received from all sales made during the life of the well will be $65,187, resulting in a net loss of $23,681 before considering operating costs. Additionally, Sun states that its proposed rate is substantially less than intrastate prices in South Louisiana and cites intrastate sales ranging from 90 cents to $2.10 per Mcf. In view of the above, Sun concludes that its proposed rate is clearly just and reasonable and would defer somewhat the time for abandonment of the subject well.

In Order No. 699–B the Commission reinstated provisions for limited-term certification and reiterated as its purpose "to attract available natural gas supplies from the intrastate market to the interstate market." [1] On other occasions, however, the Commission has stated that it is not so interested in attracting intrastate gas to allow producers repeatedly and at short intervals [2] to play the intrastate and interstate markets against one another in order to drive up the price of their gas.[2] Sun has not demonstrated by substantial evidence that the proposed price is or will be required by the present or future public convenience and necessity. Further there remains the question whether or not the limited term is justified. Sun claims that the subject well will be depleted within the prescribed limited term. To the extent Sun's prediction is inaccurate, limited-term certification would appear unjustified.

After due notice of the application in the FEDERAL REGISTER on October 17, 1974 (39 FR 37106), United timely filed a petition to intervene in support of the application by Sun. United states, in essence, that although the subject gas sale would not eliminate United's present need to curtail deliveries, the sale would have a direct relationship to the amount of gas United would have available for delivery to its customers. United further states that it would receive the subject gas through existing facilities and that it would not reimburse Sun for any expenses incurred in delivering the gas to United. No further petitions to intervene, notices of intervention or protest to the granting of the application have been filed.

Based on the facts currently before us, we believe that a formal hearing should be held to afford the applicant an opportunity to establish through the presentation of credible evidence that (1) the proposed price is or will be required by the present or future public convenience and necessity when juxtaposed to similarly situated intrastate sales or alternatively, that the price is no more than is necessary to recover the lowest reasonable cost of the particular project and (2) the subject well can reasonably be expected to be depleted within the prescribed limited term.

The Commission finds: (1) Absent additional evidence as to the cost or the intrastate market price or support for the prescribed term, good cause exists to set for formal hearing the application for a limited-term certificate herein.

(2) It may be in the public interest to permit United, which filed a timely petition, to intervene in this proceeding.

The Commission orders: (A) The application for limited-term certificate for sale of natural gas filed in Docket No. CI75–199 is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing April 29, 1975, at 10 a.m. (e.d.t.) at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning whether the present or future public convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) United Gas Pipeline Company is hereby permitted to become an intervenor, subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interest as specifically set forth in the petition to intervene; and, *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in these proceedings.

(D) The applicant seeking the limited-term certificate and the proposed purchaser, United, shall, on or before April 18, 1975, filed with the Comission and serve on all parties to this proceeding, including Commission Staff, all testi-

[1] Opinion No. 699–B, supra, mimeo p. 4.

[2] The Commission takes cognisance of the following chronology of sales from the subject well:

Date of sale	Authorization for sale	Base price (cents per thousand cubic feet)	Volumes sold (in thousand cubic feet)	Gross revenues
July 12, 1973 through Sept. 12, 1573.	Order No. 435	50.0	10,267	$5,134
Sept. 12, 1973 through Sept. 12, 1974.	Limited-term certificate in Docket No. CI73–912.	45.0	45,354	20,409
Sept. 12, 1974 through Nov. 12, 1974.	Sec. 157.29	67.0	[1] 7,600	[1] 5,092
Nov. 12, 1974 through Nov. 12, 1975 (proposed).	Application in Docket No. CI75–199.	67.0	[1] 65,000	[1] 30,552
Total			134,221	65,187

NUCLEAR REGULATORY COMMISSION

[Dockets Nos. 50-250, 50-251]

FLORIDA POWER AND LIGHT CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering the issuance of amendments to Facility Operating Licenses Nos. DPR-31 and DPR-41 issued to Florida Power and Light Company (the licensee) for operation of the Turkey Point Nuclear Generating Units 3 and 4, pressurized water reactors located in Dade County, Florida, and currently authorized for operation at power levels up to 2,200 Mwt each.

The amendments would revise provisions in the Technical Specifications in accordance with the licensee's application for license amendments dated March 11, 1975. The amendments would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR 50.46. The amendments would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to Turkey Point Nuclear Generating Units 3 and 4, terminate the further restrictions imposed by the Commission's December 27, 1974, Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By May 9, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Jack R. Newman, Esquire, Lowenstein, Newman, Reis and Axelrad, 1025 Connecticut Avenue NW., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendments dated March 11, 1975, (2) supplemental information dated March 10, 1975, (3) the Commission's Order for Modification of License and the documents referred to in the order dated December 27, 1974 (published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1788)), (4) Notice and document referenced therein on related matters published in the FEDERAL REGISTER on March 20, 1975 (40 FR 12717) relating to the incorporation of operating limits for Unit 4 core cycle 2 into the Technical Specifications, and (5) supplemental information (relating to Unit 4 core cycle 2) dated February 7, 1975 and February 13, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Lily Lawrence Bow Public Library, 212 NW, First Avenue, Homestead, Florida. The license amendments and the Safety Evaluation, when issued, may be inspected at the above locations, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland this 4th day of April, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch #3, Division of Reactor Licensing.

GENERAL SERVICES ADMINISTRATION

[FPMR Temporary Reg. F-333]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer intrests of the executive agencies of the Federal Government in an intrastate rate proceeding.

2. *Effective date.* This regulation is effective retroactively to August 16, 1974.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Kansas State Corporation Commission (Docket No. 102640-U) in a proceeding involving the application of Kansas Gas and Electric Company for a permanent increase in its electric rates.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

MARCH 31, 1975.

NATIONAL SCIENCE FOUNDATION

AD HOC ADVISORY GROUP ON SCIENCE PROGRAMS (AGOSP)

Meeting

The Ad Hoc Advisory Group on Science programs is holding a two-day meeting on April 25 and 26, 1975. Details of this meeting are listed below. This meeting is being announced in accordance with the Federal Advisory Committee Act (Pub. L. 92-463).

Time. 9 a.m. (both days). The meeting will adjourn no later than 4 p.m. on Saturday, April 26.

Places. April 25, NASA Goddard Space Flight Center, Greenbelt, Maryland, Management Conference Center, Building 8—third floor; *April 26,* National Science Foundation, 1800 G Street, NW, Washington, D.C., Room 540—Board Room.

The purpose of the Ad Hoc Advisory Group on Science Programs is to provide to the President's Science Adviser (Director, National Science Foundation) an independent source of advice concerning selected basic and applied science programs.

The agenda for this meeting is as follows:

1. Progress Review of the NASA Study on "Outlook for Space".
2. Review Approaches to Assessing the Results of the NASA Study.
3. Discussion of Selected Issues Related to Space Science.

The meeting will be open to the public. Anyone who would like to attend should contact Mr. William C. Bartley, AGOSP Executive Secretary, by April 21 (telephone 202-632-6871). For more information about this Group, please contact Mr. Bartley at: Science and Technology Policy Office, National Science Foundation, Washington, D.C. 20550.

Summary minutes of this meeting may be obtained from the Committee Management Coordination Staff, Management Analysis Office, Room 248, National Science Foundation, Washington, D.C. 20550.

FRED K. MURAKAMI,
Committee Management Officer.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

AGRICULTURAL ADVISORY COMMITTEES FOR THE MULTILATERAL TRADE NEGOTIATIONS

Meeting

A two day meeting of the Agricultural Policy Advisory Committee for Multilateral Trade Negotiations and the Agricultural Technical Advisory Committees for the Multilateral Trade Negotiations on: Cotton, Dairy, Fruits and Vegetables, Grain and Feed, Livestock and Livestock Products, Oilseeds and Products, Poultry and Eggs, and Tobacco will be held on May 5-6, 1975.

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made that the first session of the meeting will be to review the responsibilities of the Committees as they relate to providing information and advice as set forth in section 135 of the Trade Act of 1974 (Pub. L. 93-618) and will be open to the public in accordance with section 10(a)(1) of the Federal Advisory Committee Act (Pub. L. 92-463). A limited number of seats will be available for public use.

The open session will be held at 10 a.m. on May 5, 1975 in the Jefferson Auditorium, South Building, Department of Agriculture, Independence Avenue, Washington, D.C. 20250.

Any member of the public who wishes to file a written statement with any of the Committees may do so before or after the meeting.

All communications regarding these Committees should be addressed to George H. White, Room 5057-S, Department of Agriculture, Washington, D.C. 20250.

Non asterisk sessions of this meeting and subsequent meetings will be for discussion of negotiating objectives, strategy, and tactics and will be open to only members of the Committees in accordance with section 135(f)(2) of the Trade Act of 1974 (Pub. L. 93-618).

KENNETH GUENTHER,
Assistant Special Representative for Trade Negotiations, Office of the Special Representative for Trade Negotiations.

CLAYTON K. YEUTTER,
Assistant Secretary for International Affairs and Commodity Programs, Department of Agriculture.

MEETING AGENDA—AGRICULTURAL ADVISORY COMMITTEES FOR THE MULTILATERAL TRADE NEGOTIATIONS

I. GENERAL SESSION—10 A.M., MONDAY, MAY 5, 1975

*A—Welcome—Clayton K. Yeutter, Assistant Secretary for International Affairs and Commodity Programs.

*B—Opening Remarks—Secretary Earl L. Butz.

*C—Summary of Trade Act provisions, MTN outlook, and functions of the APAC and ATAC's—Special Representative for Trade Negotiations—Ambassador Frederick B. Dent.

*D—Security Briefing and Legal Aspects—USDA Office of General Counsel and Office of Special Representative for Trade Negotiations' Office of General Counsel.

*E—General discussion period.

*F—Adjournment.

II. APAC MEETING—2 P.M., MONDAY, MAY 5, 1975

A—Opening statements by Secretary Earl L. Butz and the Special Representative for Trade Negotiations—Ambassador Frederick B. Dent or their designees—Includes statement of U.S. Negotiating Goals and Objectives.

B—Discussion of APAC work program.

C—Briefing on ATAC work program.

D—Establishment of channels of communication for flow of inputs.

E—Setting up schedule for work program and future meetings.

F—General discussion period.

G—Adjournment.

III. INDIVIDUAL ATAC MEETINGS—10 A.M. AND 2 P.M., TUESDAY, MAY 6, 1975[1]

*A—Election of chairman and vice-chairman.

[1] 10 a.m.—ATAC's for Cotton, Dairy, Fruits and Vegetables, and Grain and Feed. 2 p.m.—ATAC's for Livestock and Livestock Products, Oilseeds and Products, Poultry and Eggs, and Tobacco.

V40169 APR 9 75 XUM

B—Opening statements by Executive Secretary and Representative of Office of the Special Representative for Trade Negotiations—Includes statement of U.S. Negotiating Goals and Objectives.
C—Discussion of ATAC work program including setting deadline for individual submissions.
D—Establish channels of communications and flow of inputs from ATAC members.
E—Schedule for future meetings.
F—General discussion period.
G—Adjournment.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on April 3, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education, Application for Assistance Under Emergency School Aid Act, Title VII, P.L. 92-318 as Amended by P.L. 93-380, OE-116, annually, nonprofit organizations, Lowry, R. L., 395-3772.

U.S. CIVIL SERVICE COMMISSION

Supplemental Experience Statement for Flight Engineers, DH-602, single-time, job applicants, Caywood, D. P., 395-3443.
Supplemental Information Form for Trades and Crafts, DH-603, single-time, job applicants, Caywood, D. P., 395-3443.
Military Duty Assignments, DH-601, single-time, job applicants, Caywood, D. P., 395-3443.
Air Reserve Technician Supplemental Information Form, DH-600, single-time, job applicants, Caywood, D. P., 395-3443.

U.S. FISH AND WILDLIFE SERVICE

Bureau of Sport Fisheries and Wildlife, Kenai Canoe Trails Study, Form LAS-I.A, single-time, individual visitors to a natural wildlife refuge, Planchon, P., 395-3898.

REVISIONS

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis, Plant and Equipment Expenditures Survey, BE-482, quarterly, manufacturing, Hulett, D. T., 395-4730.

DEPARTMENT OF DEFENSE

Departmental and other, DD Form 48-3, Personnel Security Questionnaire (Updating), on occasion, employees of cleared DOD contractors, Caywood, D. P., 395-3443.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education:
Student Participant Information Report, OE Form 1229, on occasion, project directors at higher education institutions, Planchon, P., 395-3898.
Educational Talent Search Program Statistical Report, OE Form 1231, quarterly, project directors at higher education institutions, Planchon, P., 395-3898.
Progress Report, BEOG Program, OE Form 255, on occasion, institutions participating in program, Planchon, P., 395-3898.

EXTENSIONS

VETERANS ADMINISTRATION

Veterans Initial Application in Acquiring Specially Adapted Housing, 21-4555, on occasion, disabled veterans, Caywood, D. P., 395-3443.

ENVIRONMENTAL PROTECTION AGENCY

Air Pollutant Emissions Report, on occasion, business firms, Evinger, S. K., 395-3648.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service, Application for Allocation or Transfer of Producer Allotment (CE Acreage Allotments), ASCS-123, annually, farms, Evinger, S. K., 395-3648.

DEPARTMENT OF DEFENSE

Defense Supply Agency, Delivery Status Request, on occasion, defense contractors, Evinger, S. K., 395-3648.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration, Report of Person Entitled to Special Benefits, SSA-1625, on occasion, Evinger, S. K., 395-3648.
Center for Disease Control, Application for Designation as a Yellow Fever Vaccination Clinic, PHS 13.5, on occasion, Evinger, S. K., 395-3648.
Alcohol, Drug Abuse and Mental Health Administration, Annual Survey of Inpatient Characteristics/State, County Mental Hospitals, MH-45-1, annually, Evinger, S. K., 395-3648.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

New communities, Physical Progress Report and Instructions (Urban Renewal Project), HUD 6000, semiannually, Community and Veterans Affairs Division, 395-3532.

PHILLIP D. LARSEN,
Budget and Management Officer.

PENSION BENEFIT GUARANTY CORPORATION

ANTHRACITE HEALTH AND WELFARE FUND HEARING

Notice of Postponement

Notice is hereby given that the hearing in the above matter scheduled for April 14, 1975 (40 FR 12336, March 18, 1975) is indefinitely postponed. The applicant has requested the postponement pending resolution in collective bargaining of certain issues relevant to the Fund's Application. Since the Pension Benefit Guaranty Corporation believes that postponement would be in the public interest, the request has been granted. Parties who have sought to participate in the hearing will be notified if it is rescheduled. The deadline of April 12, 1975, contained in the Notice of Hearing, for submission of written comments is also indefinitely postponed.

Issued at Silver Spring, Maryland on April 7, 1975.

PENSION BENEFIT GUARANTY CORPORATION,
STEVEN E. SCHANES,
Acting Executive Director.

VETERANS ADMINISTRATION

STATION COMMITTEE ON EDUCATIONAL ALLOWANCES

Meeting

Notice is hereby given pursuant to Section V, Review Procedure and Hearing Rules, Station Committee on Educational Allowances that on April 16, 1975, at 10 a.m., the Veterans Administration Regional Office Station Committee on Educational Allowances shall at 110 9th Avenue, South, Nashville, Tennessee, conduct a hearing to determine whether Veterans Administration benefits to all eligible persons enrolled in Steed College, Kingsport-Bristol Boulevard, Johnson City, Tennessee, should be discontinued, as provided in 38 CFR 21.4134, because a requirement of law is not being met or a provision of the law has been violated. All interested persons shall be permitted to attend, appear before, or file statements with the Committee at that time and place.

Dated: April 2, 1975.

R. S. BIELAK,
Director, VA Regional Office, Nashville, Tennessee.

[FR Doc.75-9262 Filed 4-8-75;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

SANDLER-ETTE FOOTWEAR MANUFACTURING CORP.

Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of March 20, 1975, the U.S. International Trade Commission made a report of the results of its investigation (TEA-W-262) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance on behalf of the workers and former workers of the Sandler-Ette Footwear Manufacturing Corporation, a wholly-owned subsidiary of Kayser-Roth Corporation, New York, New York. In this report, the Commission, being equally divided, made no finding with respect to whether articles like or directly competitive with footwear for women, misses, and children produced by Sandler-Ette Footwear Manufacturing Corp. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of the firm or an appropriate subdivision thereof. The President subsequently decided, under the authority of section 330(d)(1) of the Tariff Act of 1930, as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission.

Normally the Department's Office of Foreign Economic Policy, Bureau of International Labor Affairs conducts a further investigation after receiving an affirmative finding of the Commission, as provided in 29 CFR 90.5. In light of the urgent public interest in disposing of this case before the repeal of the adjustment assistance provisions of the Trade Expansion Act of 1962 (to be superseded by the Trade Act of 1974) on April 3, 1975, it was decided to dispense with the investigation. However, on the basis of data and information developed on the operations of the Sandler-Ette Footwear Manufacturing Corp. from the Commission's report to the President, and additional inquiries with company officials made in the course of developing the Secretary's recommendation to the President on the matter of the Commission's report, it was determined that there was sufficient information to formulate a recommendation in the matter of certification and to make a determination thereon.

On the basis of the information obtained, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority, 34 FR 18342; 37 FR 2472; 29 CFR Part 90). In the recommendation she noted that concession generated imports like or directly competitive with footwear for women, misses, and children produced by Sandler-Ette Footwear Manufacturing Corp. increased substantially. In recent years all of Sandler-Ette's footwear was purchased by A. Sandler Co., Inc., which is an operating division of Kayser-Roth Corp. A. Sandler Co. also imported footwear and purchased from other domestic manufacturers. In the period 1971 to 1974, A. Sandler Co. increasingly substituted imported footwear for footwear previously purchased from Sandler-Ette. As a result production and employment at Sandler-Ette began declining in 1972. Sandler-Ette was able to reduce employment levels by normal labor-force attrition throughout 1972 and 1973. Unemployment or underemployment of a significant number of Sandler-Ette's workers, caused in major part by increased import competition, began in January 1974 and continued until February 1975 when Sandler-Ette closed. After due consideration, I make the following certification:

All hourly, piecework, and salaried employees of Sandler-Ette Footwear Manufacturing Corp., Webster, Massachusetts (a wholly-owned subsidiary of Kayser-Roth Corp.) who became or will become unemployed or underemployed after December 20, 1973 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 2nd day of April 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc.75-9156 Filed 4-8-75;8:45 am]

SHAER SHOE CORP.

Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of March 17, 1975, the U.S. International Trade Commission made a report of the results of its investigation (TEA-W-260) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance on behalf of the former workers of the Manchester, New Hampshire plant of Shaer Shoe Corp., Manchester, New Hampshire. In this report the Commission, being equally divided, made no finding with respect to whether articles like or directly competitive with footwear for women produced by the Manchester, New Hampshire plant of the Shaer Shoe Corp. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof. The President subsequently decided, under the authority of section 330(d)(1) of the Tariff Act of 1930, as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission.

Normally the Department's Office of Foreign Economic Policy, Bureau of International Labor Affairs conducts a further investigation after receiving an affirmative finding of the Commission, as provided in 29 CFR 90.5. In light of the urgent public interest in disposing of this case before the repeal of the adjustment assistance provisions of the Trade

V40169 APR 9 75 XUM

Expansion Act of 1962 (to be superseded by the Trade Act of 1974) on April 3, 1975, it was decided to dispense with the investigation. However, on the basis of data and information developed on the operations of the Shaer Shoe Corp. from the Commission's report to the President, and additional inquiries with company officials made in the course of developing the Secretary's recommendation to the President on the matter of the Commission's report, it was determined that there was sufficient information to formulate a recommendation in the matter of certification and to make a determination thereon.

On the basis of the information obtained, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority, 34 FR 18342; 37 FR 2472; 29 CFR Part 90). In the recommendation, she noted that concession generated imports like or directly competitive with footwear for women produced by the Manchester, New Hampshire plant of Shaer Shoe Corp. increased substantially. In an effort to compete with imports, the company introduced major style changes at the Manchester plant in 1973 and 1974. Despite these efforts several of the company's major customers substantially reduced purchases from the Manchester plant and switched to foreign sources for women's footwear primarily because of the price advantage offered by such imports. As a result of the sharp decline in plant sales that occurred in 1973 and 1974, the company was forced to substantially cut back employment. Unemployment and underemployment of a significant number of the plant's workers, caused in major part by increased import competition, began in June 1973 and continues. After due consideration, I make the following certification:

All workers, hourly, piecework, and salaried, of the Manchester, New Hampshire plant of the Shaer Shoe Corp., Manchester, New Hampshire, who became or will become unemployed or underemployed after June 23, 1973 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 2nd day of April 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc.75-9156 Filed 4-8-75;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 27872]

CHICAGO, ROCK ISLAND & PACIFIC RAILROAD CO.

Reorganization

Because a shutdown of Chicago, Rock Island & Pacific Railroad Co. (Rock Island) operations would create an emergency requiring immediate action by the Interstate Commerce Commission, we are hereby requesting public comment on how essential railroad services of the Rock Island might best be performed by other railroads under emergency car service orders of the Commission or by other means of transportation. The press of time makes it necessary that comments be submitted by April 30, 1975.

After years of operating at a deficit, the Rock Island, a large midwestern railroad, announced in early March, 1975, that it lacked the funds needed to continue operations. On March 17, the distressed carrier filed a petition for reorganization under section 77 of the Bankruptcy Act in the U.S. District Court for the Northern District of Illinois.

On March 18, the Rock Island issued an embargo covering all traffic originating on, destined to, or routed over any line on its entire system. The embargo notice states, in effect, that on and after the effective date, the Rock Island will be shutdown and could neither receive nor handle traffic tendered to it by shippers or connecting railroads. The embargo was to have been effective for all perishable traffic on March 24, and for all other traffic on March 31. The effective date of the embargo for all traffic was later postponed until April 12, and on March 28, 1975, the reorganization court judge, District Judge Frank J. McGarr, ordered Rock Island to continue operations until May 15.

While the Rock Island is now under obligation to provide service until May 15, its capacity to do so depends, as a practical matter, upon its having a sufficient amount of operating funds. If it ran out of funds in the meantime, it would face perhaps an insurmountable problem in maintaining operations.

The Commission is deeply concerned about the possibility of a Rock Island shutdown. To support continued operation we have approved a 7-percent general railroad freight rate increase, by order served March 25, 1975, in Ex Parte No. 310, *Increased Freight Rates and Charges, Nationwide*. Special permission was also given for the filing of a proposal under which Rock Island could seek to assess a surcharge on certain of its traffic (See Special Permission No. 3450, *Chicago Rock Island & Pacific Railroad Co.—Emergency Terminal Surcharge Tariff*, decided March 26, 1975). But the Rock Island has indicated it would not pursue the surcharge proposal. While it is hoped that revenue measures of this type might enable the Rock Island to survive its present cash crisis, the fact remains that the carrier may be forced to terminate its operations in the near future.

Cessation of all Rock Island service could have a serious impact on the people of the area served by the railroad and upon the economy of the territory. Rock Island operates over 7,000 miles of line in 13 States and employs about 11,000 people. Its lines are located generally in the area between Chicago, St. Louis, and Memphis, on the east, Denver, Colorado Springs, Colo., and Santa Rosa, N. Mex., on the west, Minneapolis-St. Paul, on the north, and Houston and Galveston, Texas, on the south.

Many Rock Island mainlines are duplicative of other railroads, yet Rock Island is the only railroad serving hundreds of communities and stations in the Middlewest. Even at places served by more than one railroad, many industries rely solely on Rock Island. For example, 733 grain elevators are served exclusively by Rock Island. In addition, Rock Island operates an extensive commuter passenger service between Chicago and its suburbs, and, with the aid of a subsidy from the State of Illinois, it provides intercity passenger service between Chicago and Peoria and Rock Island, Ill.

To deal with emergencies caused by a railroad shutdown, the Commission has a specific but limited jurisdiction. Under section 1(16)(b) of the Interstate Commerce Act, whenever a railroad is unable to transport the traffic offered it because, among other reasons, its cash position makes continued operation impossible, the Commission may order another railroad to provide service over the shutdown railroad's lines for a brief interim period of 60 days. For cause shown the period may be extended a maximum of 180 additional days. The Federal government will reimburse the directed carriers for losses incurred in providing such service, and it will also guarantee them a reasonable profit from the emergency operations.

Under another emergency provision of the statute, section 1(15), the Commission may suspend established rules and practices with respect to freight car service and, among other things, issue such directives as in its opinion would best promote service, including orders for joint use of terminals. Section 1(15) does not provide for subsidy payments, thus limiting its application primarily (though not entirely) to non-deficit operations. The Commission is also empowered to issue emergency motor carrier temporary authority pursuant to section 210a(a) to maintain service to the public.

In recognition of the need for quick action in emergencies, Congress provided for unique procedures in the administration of both sections 1(15) and 1(16)(b). The Commission may act at once, upon complaint or its own initiative, without formal pleadings, with or without notice or hearing, or the filing of a report. In most emergencies, the situation dictates an expedited, informal approach.

Faced with what then appeared to be an imminent cessation of Rock Island operations, we called a meeting in Washington, D.C., on March 18, 1975, at which we requested railroads operating in Rock Island's service area, as well as railroads connecting with Rock Island, to submit proposals for possible emergency operation of the financially distressed carrier. Carrier response has been most helpful, and we would like publicly to express our appreciation for the railroads' cooperation in this matter. At the conference, and later, the railroads submitted various proposals whereby they, individually, would assume emergency operations on

separate segments of the Rock Island. For the most part, there was general agreement that the other roads would operate the Rock Island for local service only, and, with some exceptions, practically all the Rock Island trackage would be operated. The general agreement extended in large part to the assignment of individual railroads to particular portions of the Rock Island. The carriers' proposals are set forth, by line segments, at the end of this notice.

The proposals and agreement reported above have not been endorsed by the Commission and no decisions have yet been made. Since they are inconsistent with the concept of an integrated Rock Island, neither have they had the endorsement of Rock Island's management. Implementation of any plan for the takeover of services on Rock Island facilities would require some agreements between the directed carriers and the Rock Island; and it is presumed that such agreements will be timely achieved.

The Commission is not required to hold a hearing before reaching a decision under sections 1(15) and 1(16)(b) and, in view of the emergency nature of the situation, time limitations would not permit extensive hearings in the instant crisis. Nevertheless, we recognize the immense importance of the Rock Island crisis to the general public in the railroad's service area and we feel that shippers, employees, State and local government bodies, and other interested groups and individuals should have an opportunity to comment on the railroads' proposals, and that the Commission should have the benefit of their views. Accordingly, we invite public comment on these proposals.

In preparing comments, interested persons should be aware that car service orders under section 1(16)(b) are temporary in nature. We are not here considering long range proposals for solving the Rock Island's financial problems; but are focusing on what to do in an emergency if the Rock Island decides to stop operating. Any question of a permanent disposition of the Rock Island, or of portions of its lines, would be resolved in appropriate proceedings under sections 5 and 1(18–20) of the Interstate Commerce Act, and according to the Commission's normal rules of practice and procedure. The public will be given an ample opportunity to participate in any such proceedings which may develop.

It should also be kept in mind that, while the various railroads are willing to operate most of the Rock Island trackage under emergency car service orders, an individual railroad which operates a portion of the Rock Island may not necessarily be interested in acquiring the line operated for permanent ownership and operation. Thus any comments submitted should be addressed solely to the question of temporary operation of the Rock Island.

Secondly, it should be noted that while the railroads are in general agreement as to the appropriate carriers to provide emergency service under car service orders, there are major areas of disagreement. The Soo Line Railroad, among others, opposes the fragmentation of the railroad which most of the carriers have proposed. Under the fragmentation proposals, Rock Island would be divided into a number of small segments for operation by different railroads, which would provide local service only. Long-haul, through service over Rock Island would thus be effectively terminated. Soo Line and other carriers dependent upon connecting Rock Island long-haul service oppose this approach, contending they would lose traffic now interchanged with Rock Island, all to the detriment of the general public through loss of the benefit from Rock Island long-haul service.

Nor do we have full accord among the carriers which support the fragmentation approach. There are differences as to which carriers should be ordered to operate certain Rock Island lines. The two most important Rock Island lines subject to controversy are the "Golden City, Mo. to Tucumcari and Santa Rosa, State Route" extending from Kansas N. Mex.; the "Rock Island Western" between Kansas City and Omaha, Neb., on the east, and Denver and Colorado Springs, Colo., on the west. The Southern Pacific Railroad, which has an extensive network of lines in the Southwestern and Pacific Coastal regions of the Nation, connects with the Rock Island at Tucumcari, N. Mex. to form the Golden State Route between Chicago, Kansas City, and points in Arizona and Southern California. The two carriers have long cooperated with each other in providing service over the Golden State Route for traffic which is important to both.

SP proposes that, in order to retain this traffic, it be permitted to operate the Rock Island's line between Kansas City and Tucumcari. Other carriers, notably Santa Fe which competes for Traffic between Chicago, Kansas City and the Pacific Southwest, are opposed on the ground that SP would be invading territory it had not previously served. In lieu of SP's proposal, it has been suggested that the Kansas City-Tucumcari line be divided among Santa Fe, Union Pacific, and the Fort Worth & Denver Railroad Co. for local operation only, with a gap between Pratt and Partridge, Kans. To eliminate that controversy, it was proposed that some neutral carrier, such as the Kansas City Terminal Ry. or the Missouri Pacific operate the line. That would retain for SP its "friendly" connection for substantial traffic, and yet preclude SP from effecting a stable extension of lines by emergency car service order.

The Rock Island western lines controversy is similar. The Denver & Rio Grande Western Railroad (Rio Grande), which connects with Rock Island at Denver and operates generally between Denver and Salt Lake City, Utah, seeks to operate all Rock Island lines between Colorado and the two important Missouri River gateways at Kansas City and Omaha. Competitor carriers between Colorado and the Missouri River, which also connect with the Rio Grande (Union Pacific, Santa Fe Burlington Northern and the Missouri Pacific) oppose Rio Grande's proposals on the grounds of territorial invasion and traffic diversion by the Rio Grande. They have proposed that Rock Island's lines between Colorado and the Missouri River be divided among the Union Pacific and Burlington Northern for local service only. Except for local service in the Colorado Springs area, neither the branch line between Limon, Colo. and Colorado Springs nor the branch line between Fairbury and Ruskin, Neb. would be operated under the Union Pacific-Burlington Northern proposal.

Public comments regarding these areas of controversy, as well as the railroads' proposals generally, and alternate proposals for the provision of essential service would be most welcome. As this is an emergency situation and not an adversarial proceeding, comments (original and one copy) should be submitted, informally, in writing to the Commission. The usual requirements as to pleadings in Commission proceedings need not be followed. As time is of the essence, all submissions should be received by the Commission by no later than April 30, 1975, and should be addressed to:

Director, Office of Proceedings
Interstate Commerce Commission
Washington, D.C. 20423

All written submissions will be available for public inspection during regular business hours at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C.

Issued in Washington, D.C.

[SEAL] ROBERT L. OSWALD,
Secretary.

Accordingly, it is requested that comments be addressed to the problem of a shutdown Rock Island, to the points specified above, and to the following proposals for continued service by other railroads:

RAILROAD PROPOSALS FOR EMERGENCY SERVICE ORDERS

I. ROCK ISLAND LINES IN ILLINOIS

1. Chicago Switching District. A. Main Line between La Salle St. Station and Burr Oak Yard, Blue Island, Ill.—Burlington Northern.

B. Suburban Branch between Gresham Yard and Burr Oak Yard—Believed to have no industry, and therefore, no freight service proposed.

C. Burlington Northern would continue to serve the Chicago, West Pullman & Southern interchange at Ashland Avenue, near the Rock Island 124th St. Shops.

D. South Chicago Branch. 1. Portion from junction with RI mainline at Gresham Yard to Burnside Yard—Believed to have no industry and no service proposed.

2. From junction point near Burnside Yard south to start of joint industries (at 119th St.) line in Port Calumet—Belt Ry Co. of Chicago and the Chicago

V40169 APR 9 75 XUM

Short line have both expressed interest in operating this line.

3. Joint Illinois Central Gulf, Chicago South Shore & South Bend RR, Rock Island industries line in Port Calumet (south of 119th St.) would be served by ICG, and CSS & SB. No service order would be required.

4. Between junction point near Burnside Yard to South Chicago Yard—Belt Ry. Co. of Chicago would continue Chicago, West Pullman & Southern trackage rights. No industry believed to be on this line and no service order required.

5. South Chicago Yard—Belt Ry of Chicago says it can handle all traffic now handled in Rock Island's South Chicago Yard at its adjacent South Chicago Yard. Thus proposes RI yard not be used.

6. Between South Chicago Yard and Irondale (Approximately 117th St.)—Chicago, West Pullman & Southern.

7. Between South Chicago Yard and the South Chicago Elev's & Slip (The Strand)—Belt Ry of Chicago.

2. Chicago-Rock Island, ILL. Main Line. Burlington Northern.

3. Joliet (On Chicago-Rock Island Main Line). Under the Burlington Northern proposal the Elgin, Joliet & Eastern Ry Co. would provide local switching within the Joliet Yard limit.

4. Morris & East Morris (On Chicago-Rock Island Main Line). Under the B.N. Proposal E.J. & E. would provide local switching within the Morris-East Morris Yard limit.

5. Peoria Branch—(Bureau-Peoria, ILL.) Burlington Northern: Toledo Peoria & Western RR. Co. and the Atchison, Topeka & Santa Fe Ry Co. have all expressed interest in operating this line.

6. Peoria—Peoria & Pekin Union Railway would provide switching services over Rock Island lines in Peoria, including the line from Peoria to Keller, ILL. (Alta Branch).

7. Peoria Terminal Co. (R. I. Subsidiary in Peoria & Pekin, ILL.) Peoria & Pekin Union Ry.

8. Lafayette Branch (Colona-Lafayette, ILL.) Burlington Northern.

9. Milan Branch (Rock Island-Milan, ILL.) Burlington Northern.

II. ROCK ISLAND LINES IN IOWA, MINNESOTA, AND NORTHERN MISSOURI

1. Davenport - Bettendorf: Local switching service would be provided by the Davenport, Rock Island & North Western Ry.

2. Davenport-Clinton: Line owned by DRI & NW—No service order necessary.

3. Davenport-Des Moines Main Line: Milwaukee (Switching in Des Moines would be by the Chicago & Northwestern).

4. Davenport-Allerton-Kansas City Main Line: Milwaukee.

5. Coburn-Jamesport, Mo. Branch: No service proposed.

6. Kansas City, Mo.-Kans.: Local switching would be provided by Kansas City Terminal Co.

7. Keota Branch (Ainsworth-Keota, Iowa): Milwaukee.

8. Burlington-Cedar Rapids Line: A. Burlington-Mediapolis, BN.

B. Mediapolis-Columbus Jct.: No service proposed.

C. Columbus Jct.-Cedar Rapids: Milwaukee.

9. Hills Branch (Iowa City-Hills): Central Iowa Ry. Co.

10. St. Joseph, Mo.-Atchison, Kans. Line: Santa Fe.

11. St. Joseph, Mo.—Local switching service: Burlington Northern.

12. Kansas City-Rushville, Mo. Line: Trackage rights over BN. No order required.

13. Cedar Rapids—Local switching service: Milwaukee.

14. Cedar Rapids-Manly: Illinois Central Gulf.

15. Vinton-Iowa Falls: Illinois Central Gulf.

16. Linn-West Union: Illinois Central Gulf.

17. Minneapolis-Des Moines Maine Line; A. Minneapolis-Owatonna: Milwaukee.

B. Owatonna-Des Moines Maple Island Branch (Clarks Grovo Maple Island) Chicago & North Western (C & NW recommends service only between Owatonna and Mason City; and between Bradford and Buckeye, plus the Maple Island Branch).

18. Des Moines-Allerton Line Indianola Branch (Carlisle-Indianola): C & NW (C & NW recommends operation only between Des Moines and Indianola).

19. Keokuk Branch (Altoona-Keokuk):

Toledo Peoria & Western would operate entire line between Des Moines and Keokuk. Alternatively, the Chicago & North Western would operate between Altoona and Eddyville, and Burlington Northern between Ottumwa and Keokuk. The segment between Eddyville and Ottumwa would not be operated.

20. Albert Lea-Rock Rapids, Lismore Branch (Oake Park-Lismore) C & NW (C & NW recommends operation only between Rake and Spirit Lake).

21. Iowa Falls-Estherville: C & NW (C & NW recommends operation only between Estherville and Grattinger and between Iowa Falls and West Bend).

22. Des Moines-Council Bluffs and branches: C & NW (C & NW recommends operation only between Des Moines and Earlham plus the Winterset branch (Winear-Winterset) and switching in Council Bluffs would be performed by the C & NW).

23. Dows-Buffalo Center & Titonka Branches: C & NW (C & NW recommends operation only between Belmond and Klemme).

24. Gowrie-Rock Rapids: Milwaukee.

III ROCK ISLAND LINES IN COLORADO, NORTHERN KANSAS, AND NEBRASKA

1. St. Joseph, Mo.-Topeka Line: Union Pacific.

2. "Rock Island Western"—Lines between Omaha and Kansas City, on the east, and Denver and Colorado Springs, on the west. The Denver & Rio Grande Western proposes to operate all of these lines, including branch lines. Alternatively, they would be served as follows: A. Omaha-Belleville-Phillipsburg Burlington Northern (Local switching at Omaha by Union Pacific).

B. Phillipsburg-Limon: Union Pacific.

C. Limon-Denver: Rock Island operates trackage rights over Union Pacific between these points, thus a service order would not be required. Local switching service in the Denver-Duban area would be provided by both Union Pacific and Rio Grande.

D. Limon-Colorado Springs: No service proposed. Local service in the Colorado Springs area would be provided by Rio Grande.

E. Kansas City-Topeka: Rock Island operates trackage rights over Union Pacific between these points, thus a service order would not be required.

F. Topeka - McFarland - Belleville: Union Pacific.

G. Topeka (Local switching service): Union Pacific would provide switching north of the Kansas River, and Santa Fe, south of the River.

IV. ROCK ISLAND LINES IN SOUTHERN MISSOURI, SOUTHERN KANSAS, WESTERN OKLAHOMA, TEXAS AND NEW MEXICO

1. St. Louis Terminal Area: Terminal RR. Association of St. Louis would perform switching service out of Labadie, Mo.

2. St. Louis-Kansas City Line: Missouri Pacific.

3. Kansas City-Tucumcari-Santa Rosa Mainline: Southern Pacific proposes to operate this entire line. Alternatively the line would be operated as follows: A. McFarland-Hutchinson: No service, except local switching service by Santa Fe at McPherson, Galva, and Corston. And switching service in Hutchinson by Santa Fe and Missouri Pacific.

B. Hutchinson-Partridge: Santa Fe.

C. Partridge-Pratt: No service.

D. Pratt-Liberal-Dalhart: Santa Fe.

E. Dalhart-Tucumcari: Ft. Worth & Denver (Burlington Northern).

4. Herington-Salina Branch: No service proposed.

5. Bucklin-Dodge City Branch: Santa Fe.

6. Liberal-Morse-Wilco Branch: Santa Fe.

7. Herington-El Reno-Ft. Worth-Dallas: Mainline.

A. Herington-Wellington: No service proposed, except local switching service at Wichita and Wellington by Santa Fe.

B. Wellington-Enid: Santa Fe.

C. Enid-El Reno: Frisco (St. Louis-San Francisco Ry).

D. El Reno-Chickasha: No service proposed.

E. Chickasha-Gunray: Frisco.

F. Sunray-Wavrika-Bowie: No service proposed.

G. Bowie-Ft. Worth-Dallas: Ft. Worth & Denver (Burlington Northern).

H. Ft. Worth local switching service: Ft. Worth & Denver.

G. Dallas local switching service: Ft. Worth & Denver.

8. Enid-Ponca City Branch: Santa Fe.

9. Enid-Alva Branch: No service proposed.

10. Enid-Warren Branch: Frisco.

11. El Reno - Amarillo - Tucumcari Mainline; A. El Reno-Weatherford: Frisco.

B. Weatherford-Clinton: No service proposed.

C. Clinton-Elk City: Frisco.

D. Elk City-Norrick: No service proposed.

E. Norrick-Amarillo: Ft. Worth & Denver.

F. Amarillo local switching: Ft. Worth & Denver.

G. Amarillo-Tucumcari: Santa Fe.

12. Homestead Branch (Geary-Homestead, Okla.); A. Geary-O'Keene: Frisco.

B. O'Keene-Homestead: No service proposed.

13. Chickasha-Mangum Branch; A. Chickasha-Hobart: Frisco.

B. Hobart-Lone Wolfe: No service proposed.

C. Lone Wolf-Mangum: Santa Fe.

14. Anadarko-Waurika Line; A. Anadarko-Richards Spur: No service.

B. Richards Spur-Waurika: Frisco.

15. Irving-Carrollton, Tex.: Frisco.

16. Dallas-Galveston: All Rock Island Lines south of Dallas are jointly owned and operated with the Ft. Worth & Denver. Ft. W. & D. would continue to provide service over these lines.

V. ROCK ISLAND LINES IN TENNESSEE, ARKANSAS, LOUISIANA AND EASTERN OKLAHOMA

1. Memphis-Little Rock-Oklahoma City-El Reno Main Line; A. Bridge Jct. (Memphis)-Brinkley: St. Louis Southwestern (Cotton Belt).

B. Brinkley-Mesa: Not operated.

C. Mesa-Bonneville: Missouri Pacific.

D. Bonneville-Hartshorne: St. Louis-San Francisco (Frisco).

E. Hartshorne-Oklahoma City: Missouri-Kansas-Texas RR. (Katy).

F. Oklahoma City—switching service: Frisco, or possibly work would be divided by the Frisco, Santa Fe, and Katy.

G. Oklahoma City-El Reno: Frisco.

2. Mesa-Des Arc Branch: Missouri Pacific.

3. Mesa-Stuttgart Branch: St. Louis-Southwestern.

4. Little Rock-Eunice Mainline: Missouri Pacific (Note that the segment of this line between Winnfield and Alexandria is owned by the Louisiana & Arkansas Ry., which would provide service over this segment).

5. Haskells-Hot Springs Branch, Butterfield-Malvern-Sparkman Branch, Tinsman-Crossett Branch, Banks-Warren Line (Warren & Ouchita Valley Ry.-Rock Island subsidiary); All operated by Missouri Pacific.

6. Pordyce-Camden: St. Louis-Southwestern.

[FR Doc.75-9264 Filed 4-8-75;8:45 am]

V40169 APR 9 75 XUM

[Notice 738]

ASSIGNMENT OF HEARINGS

APRIL 4, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are not notified of cancellation or postponements of hearings in which they are interested.

MC 41406 Sub 40, Artim Transportation System, Inc., now assigned May 6, 1975 at Columbus, Ohio will be held in Room 235 Federal Office Building, 85 Marconi Blvd.

MC–F 12291, Nick Strimbu Inc.—Control—Statewide Cartage Co., now assigned May 8, 1975 at Columbus, Ohio will be held in Room 235 Federal Office Building, 85 Marconi Blvd.

MC 29079 Sub 75, Brada Miller Freight System, Inc., MC 61231 Sub 80, Ace Lines, Inc., MC 106603 Sub 133, Direct Transit Lines, Inc., MC 107295 Sub 753, Pre-Fab Transit Co., MC 119922 Sub 32, McLain Trucking, Inc., MC 123947 Sub 25, Bursal Transport, Inc., and MC 136741 Sub 11, E. K. Motor Service, Inc., now assigned May 12, 1975 at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 130261, International Weekends, Inc., now being assigned May 21, 1975, at Boston, Massachusetts, in a hearing room to be later designated.

MC 112304 Sub 80, Ace Doran Hauling & Rigging Co., now assigned for further hearing on May 29, 1975 at the Offices of the Interstate Commerce Commission, Washington, D.C.

FF–95, Sub 8, Lifschultz Fast Freight, Inc., now assigned April 21, 1975 at Chicago, Illinois, is cancelled and the application is dismissed.

MC 112304 Sub 85, Ace Doran Hauling & Rigging Co., now assigned April 30, 1975, at Chicago, Ill., is cancelled and application dismissed.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-9279 Filed 4-8-75;8:45 am]

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

APRIL 4, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 55339 (Correction) filed November 21, 1974, published in the FEDERAL REGISTER issue of March 26, 1975, and republished as corrected this issue. Applicant: WEBSTER DELIVERY SERVICE, INC., 6360 South Greenwood, City of Commerce, Calif. 90022. Applicant's representative: Levin & Oberman, Inc., 3550 Wilshire Boulevard, Los Angeles, Calif. 90010. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of 1. *Abrasives*, as listed under that heading in Items Nos. 5 through 45 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof. 2. *Advertising matter*, as listed under that heading in Items Nos. 225 through 330 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41 and 46 thereto. 3. *Cloth, dry goods or fabrics*, as listed under that heading in Items Nos. 12550 through 12885 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 4. *Drugs, medicines or toilet preparations*, Viz.: Perfumery. 5. *Electrical appliances or equipment, or parts named*, as listed under that heading Items Nos. 15605 through 16250 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 6. *Floor coverings*, as listed under that heading in Items Nos. 17865 through 17965 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 46, 48 and 50 thereto. 7. *Furniture*, as listed under that heading in Items Nos. 19495 through 20494 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto.

8. *Games or toys*, as listed under that heading in Items Nos. 20670 through 20870 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 9. *Glassware*, as listed under that heading in Items Nos. 21265 through 21585 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 10. *Hardware*, as listed under that heading in Items Nos. 22455 through 23660 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 11. *Machinery or machines, or parts named*, as listed under that heading in Items Nos. 27145 through 31920 of Western Classification No. 75. Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 12. *Pads or padding*, as listed under that heading in Items Nos. 35125 through 35155 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 46 and 48 thereto. 13. *Sheet steel ware*, as listed under that heading in Items Nos. 40245 through 40490 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 41, 46, 48 and 50 thereto. 14. *Stationery*, as listed under that heading in Items Nos. 41203 through 41290 of Western Classification No. 75, Cal. P.U.C. No. 8, George H. Dumas, Agent, on the issue date thereof and Supplements Nos. 46 and 50 thereto. 15. *Trunks or traveling bags*, as listed under that heading in Items Nos. 43240 through 43280 of Western Classification No. 75, Cal. P.U.C. No. 8, and Supplements Nos. 41 and 46 thereto.

16. *Miscellaneous commodities*, VIZ.: Baskets, boots or shoes, buckles, clothing, clocks, hosiery, ladders, notions, pillows, rubber, foam, silver plated ware, not on silver, synthetic resin articles, towels, or toweling, paper, watches, in the area embraced by the following boundaries: Los Angeles Basin Territory, includes that area embraced by the following boundary: Beginning at the point Ventura County-Los Angeles County boundary line intersects the Pacific Ocean: thence northeasterly along said county line to the point it intersects State Highway No. 118, approximately two miles west of Chatsworth, easterly along State Highway No. 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest Boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucapia; southerly along said county road to and including the unincorporated community of Yucapia; westerly along Redlands Boulevard to U.S. Highway No. 99; northwesterly along U.S. Highway No. 99 to the corporate boundary of the City of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive.

Southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U.S. Highway No. 60; southwesterly along U.S. Highways No. 60 and 395 to the county road approximately one mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the City of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along San Jacinto Avenue to State Highway No. 74; westerly along State Highway No. 74 to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to the right of way of the Atchison, Topeka & Santa Fe Railway Company; southwesterly along said right of way to Washington Avenue southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the county road intersecting U.S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said county road to U.S. Highway No. 395; southeasterly along U.S. Highway No. 395 to the Riverside County-San Diego County boundary line, westerly along said boundary line to the Orange County-San Diego County Boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shore line of the Pacific Ocean to point of beginning. Note: The purpose of this correction is to correct miscellaneous errors in item No. 16. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, 350 McAllister Street, Civic Center, San Francisco, Calif. 94102 and should *not* be directed to the Interstate Commerce Commission.

California Docket No. 55577, filed March 20, 1975. Applicant: METRO BAY TRANSPORTATION, INC., 704 Dubuque Avenue, South San Francisco, Calif. 94080. Applicant's representative: Raymond A. Greene, Jr., 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities:* (1) Between all points and places in the San Francisco Territory as described in Part II. (2) Between all points on or within 20 miles of the following routes: (a) U.S. Highway 101 from San Francisco to Novato. (b) State Highway 37 from its intersection with U.S. Highway 101 to its intersection with Interstate Highway 80. (c) State Highway 24 from Oakland to Concord. (d) Interstate Highway 80 from San Francisco to Cordelia. (e) Interstate Highway 680 from San Jose to Vallejo. (f) State Highway 21 from its intersection with Interstate Highway 680 to its intersection with Interstate Highway 80. (g) State Highway 4 from its intersection with Interstate Highway 80 to Antioch. (h) U.S. Highway 50 from its intersection with State Highway 17 to Tracy. (i) State Highway 33 from Tracy to Antioch. The San Francisco Territory includes all points and places within the following area: San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary; Beginning at the point the San Francisco-San Mateo County Boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road;

Southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue.

Westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. Except that applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A. (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobiles chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids, in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Cement. (8) Logs. (9) Commodities of unusual or extraordinary value. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time, and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 350 McAllister Street, San Francisco, Calif. 94102, and should *not* be directed to the Interstate Commerce Commission.

Applicant: FILM TRANSFER COMPANY, INC., Suite 202, Regal Plaza, 1499 Regal Row, Dallas, Tex. 75247. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Bldg., Austin, Tex. 78701. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of (1) *General commodities*, subject to the following restriction: No service shall be provided in the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor at one location to one consignee at one location on any day; and (2) *Motion picture films and theater supplies, newspapers, magazines and periodicals, bread and baker's cake*, between Corsicana, Texas and Athens, Texas over State Highway 31 serving all intermediate points, coordinating the service proposed herein with that now being rendered under existing authority and interlining with other carriers at appropriate interline points. Applicant also seeks authority to operate over the following alternate routes without service to any intermediate point thereon except as otherwise authorized. (1) U.S. Highway 69 between Alto and Lufkin, Texas. (2) State Highway 21 between Madisonville and Alto, Texas. (3) State Highway 7. (5) State Highway 94 Nacogdoches, Texas. (4) State Highway 103 between Lufkin, Texas and the intersection of State Highway 103 with State Highway 7. (5) State Highway 94 between Groveton and Lufkin, Texas. (6) State Highway 294 and U.S. Highway 84 between Fairfield and Alto, Texas. (7) U.S. Highway 79 between Buffalo and Jacksonville, Texas. (8) F. M. Roads 90 and 59 between Cayuga and Malakoff, Texas. (9) State Highway 34

V40169 APR 9 75 XUM

between its intersection with I. H. 45 and its intersection with U.S. Highway 175. (10) I. H. 45 between Dallas and Galveston, Texas, and (11) State Highway 19 between Palestine and Athens, Texas. Intrastate, interstate and foreign commerce authority sought.

HEARINGS: Date, time, and place not yet fixed, but approximately 30 days subsequent to date published in FEDERAL REGISTER. Requests for procedural information should be addressed to the Railroad Commission of Texas, Capitol Station, P.O. Drawer 12967, Austin, Tex. 78711 and should *not* be directed to the Interstate Commerce Commission.

Texas Docket No. 2047 (Amended), filed December 16, 1974, published in the FEDERAL REGISTER issue of March 5, 1975, and republished this issue. Applicant: VICTOR L. LANGE, doing business as LANGE TRUCK LINE, P.O. Box 28, Pleasanton, Tex. 78064. Applicant's representative: Mike Cotton, P.O. Box 1148, Austin, Tex. 78767. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, over the following routes: (1) Between San Antonio and Nixon, Tex.: From San Antonio over U.S. Highway 87 to Nixon and return over the same route, serving all intermediate points; (2) Between Floresville, Tex., and junction State Highway 97 and U.S. Highway 87: From Floresville to junction State Highway 97 and U.S. Highway 87 and return over the same route, serving all intermediate points and serving junction of State Highway 97 and U.S. Highway 87 as a point of joinder; (3) Between Karnes City and Nixon, Tex., From Karnes City over State Highway 123 to junction with the State Highway 80, thence over State Highway 80 to Nixon and return over the same route, serving all intermediate points; and (4) Between Jourdanton and Tilden, Tex.: From Jourdanton over State Highway 16 to Tilden and return over the same route, serving all intermediate points and serving the site of the power plant to be built by Brazos Electric Corporation near the Atascosa-McMullen County line as an off-route point. Coordinating the proposed service rendered under existing authority. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time, and place not yet fixed, but approximately 30 days subsequent to publication in the FEDERAL REGISTER. Requests for procedural information should be addressed to the Railroad Commission of Texas, Capitol Station—P.O. Drawer 12967, Austin, Tex. 78711 and should *not* be directed to the Interstate Commerce Commission.

[Notice 12]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

APRIL 4, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Deviation No. 135), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed March 20, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Des Moines, Iowa over Iowa Highway 5 to junction Iowa Highway 2, thence over Iowa Highway 2 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 136, thence over U.S. Highway 136 to junction U.S. Highway 61, thence over U.S. Highway 61 to junction Interstate Highway 70, thence over Interstate Highway 70 to St. Louis, Mo., (2) From Des Moines, Iowa over U.S. Highway 65 to junction U.S. Highway 24, thence over U.S. Highway 24 to junction Missouri Highway 23, thence over Missouri Highway 23 to junction Missouri Highway 20, thence over Missouri Highway 20 to junction Missouri Highway 13, thence over Missouri Highway 13 to Springfield, Mo., and (3) From Des Moines, Iowa over U.S. Highway 65 to Springfield, Mo., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Des Moines, Iowa over U.S. Highway 6 to Moline, Ill., thence over Illinois Highway 92 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction U.S. Highway 51, thence over U.S. Highway 51 to La Salle, Ill., thence over Illinois Highway 29 to Springfield, Ill., thence over U.S. Highway 66 to Springfield, Mo., and return over the same route.

No. MC 2202 (Deviation No. 136), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed March 26, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Omaha, Nebr., over Interstate Highway 29 to junction Interstate Highway 70, thence over Interstate Highway 70 to St. Louis, Mo., and (2) From Omaha, Nebr., over Interstate Highway 29 to junction U.S. Highway 71, thence over U.S. Highway 71 to junction Missouri Highway 7, thence over Missouri Highway 7 to junction Missouri Highway 13, thence over Missouri Highway 13, to Springfield, Mo., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Omaha, Nebr., over U.S. Highway 6 to Moline, Ill., thence over Illinois Highway 92 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction U.S. Highway 51, thence over U.S. Highway 51 to LaSalle, Ill., thence over Illinois Highway 29 to Springfield, Ill., thence over U.S. Highway 66 to Springfield, Mo., and return over the same route.

No. MC 29910 (Deviation No. 35), ARKANSAS-BEST FREIGHT SYSTEM, INC., General Offices, Fort Smith, Ark. 72901, filed March 14, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cape Girardeau, Mo., over Illinois Highway 146 to junction Illinois Highway 3, thence over Illinois Highway 3 to junction Illinois Highway 149, thence over Illinois Highway 149 to junction Illinois Highway 13, thence over Illinois Highway 13 to junction U.S. Highway 45, thence over U.S. Highway 45 to junction Illinois Highway 1, thence over Illinois Highway 1 to junction Interstate Highway 64, thence over Interstate Highway 64 to junction Indiana Highway 57, thence over Indiana Highway 57 to junction U.S. Highway 50–150 to junction U.S. Highway 50, thence over U.S. Highway 50 to Cincinnati, Ohio, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Cape Girardeau, Mo., over Missouri Highway 34 to junction U.S. Highway 61, thence over U.S. Highway 61 to junction U.S. Highway 67, thence over U.S. Highway 67 to St. Louis, Mo., thence over U.S. Highway 40 to Indianapolis, Ind., thence over U.S. Highway 52 to Cincinnati, Ohio, and return over the same route.

No. MC 52709 (Deviation No. 31), RINGSBY UNITED, P.O. Box 192, Littleton, Colo. 80120, filed March 12, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Minneapolis, Minn., over Interstate Highway 94, to Billings, Mont., thence over Interstate Highway 90 to Bonner, Mont., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Minneapolis, Minn., over U.S. Highway 212 to Redfield, S. Dak., thence over U.S. Highway 281 to junction South Dakota Highway 26, thence over South Dakota Highway 26 to junction South Dakota Highway 45, thence over South Dakota Highway 45 to Miller, S. Dak., thence over U.S. Highway 14 to Philip, S. Dak., thence over South Dakota Highway 73 to Philip Junction, S. Dak., thence over unnumbered highway (formerly U.S. Highway 14) to junction U.S. Highway 14, thence over U.S. Highway 14 to Rapid City, S. Dak., thence over South Dakota Highway 79 to junction South Dakota Highway 36, thence over South Dakota Highway 36 to junction U.S. Alternate Highway 16, thence over U.S. Alternate Highway 16 to Custer, S. Dak., thence over U.S. Highway 16 to junction Wyoming Highway 59, thence over Wyoming Highway 59 becoming Montana Highway 59 to Broadus, Mont., thence over U.S. Highway 212 to junction Montana Highway 8, thence over Montana Highway 8 to Crow Agency, Mont., thence over U.S. Highway 87 to Billings, Mont., thence over Montana Highway 3 to junction U.S. Highway 12, thence over U.S. Highway 12 to Helena, Mont., thence over U.S. Highway 91 to Butte, Mont., thence over U.S. Highway 10 to junction Montana Highway 200 near Bonner, Mont., and return over the same route.

No. MC 66788 (Deviation No. 4), RAYMOND MOTOR TRANSPORTATION, INC., 1912 Broadway NE., Minneapolis, Minn. 55413, filed March 7, 1975. Carrier's representative: Diana E. Murphy, 4200 IDS Center, 80 South 8th Street, Minneapolis, Minn. 55402. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over U.S. Highway 41 to the Illinois-Wisconsin border, thence over Interstate Highway 94 to junction Interstate Highway 894, thence over Interstate Highway 894 to junction Interstate Highway 94, in West Allis, Wis., thence over Interstate Highway 94 to junction U.S. Highway 12 southwest of Wisconsin Dells, Wis., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Chicago, Ill., over U.S. Highway 12 to junction Interstate Highway 94 southwest of Wisconsin Dells, Wis., and return over the same route.

No. MC 108835 (Deviation No. 5), HYMAN FREIGHTWAYS, INC., 3030 Harbor Lane, Suite 102, Minneapolis, Minn. 55441, filed February 27, 1975. Carrier's representative: Andrew Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Omaha, Nebr., across the Missouri River to Council Bluffs, Iowa, thence over Interstate Highway 29 to junction U.S. Highway 136, thence over U.S. Highway 136 to junction U.S. Highway 59, thence over U.S. Highway 59 to Mound City, Mo., thence over Interstate Highway 29 to Kansas City, Mo., and (2) From Omaha, Nebr., over U.S. Highway 73 to Auburn, Nebr., thence over U.S. Highway 136 to junction U.S. Highway 59, thence over U.S. Highway 59 to Mound City, Mo., thence over Interstate Highway 29 to Kansas City, Mo., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Omaha, Nebr., across the Missouri River to Council Bluffs, Iowa, thence over U.S. Highway 275 to junction U.S. Highway 34, thence over U.S. Highway 34 to Afton, Iowa, thence over U.S. Highway 169 to Tingley, Iowa, thence over unnumbered highway to Grand River, Iowa, thence over Iowa Highway 294 to junction Iowa Highway 2, thence over Iowa Highway 2 to Bedford, Iowa, thence over Iowa Highway 148 to the Iowa-Missouri State line, thence over Missouri Highway 148 to junction U.S. Highway 71, thence over U.S. Highway 71 to St. Joseph, Mo., thence over U.S. Highway 59 to Atchison, Kans., thence over unnumbered highway to junction U.S. Highway 73, thence over U.S. Highway 73 to Kansas City, Mo., and return over the same route.

No. MC 108835 (Deviation No. 6), HYMAN FREIGHTWAYS, INC., 3030 Harbor Lane, Suite 102, Minneapolis, Minn. 55441, filed March 14, 1975. Carrier's representative: Andrew Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Des Moines, Iowa over Interstate Highway 80 to junction Interstate Highway 35, thence over Interstate Highway 35 to Kansas City, Mo., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Des Moines, Iowa over Iowa Highway 5 (formerly portion Iowa Highway 60) to junction Interstate Highway 35, thence south over Interstate Highway 35 to junction Iowa Highway 92, thence west over Iowa Highway 92 to junction U.S. Highway 169, thence south over U.S. Highway 169 to Mount Ayr, Iowa, thence over Iowa Highway 2 to Bedford, Iowa, thence over Iowa Highway 148 to the Iowa-Missouri State line, thence over Missouri Highway 148 (formerly Missouri Highway 27) to junction U.S. Highway 71, thence over U.S. Highway 71 to St. Joseph, Mo., thence over U.S. Highway 59 to Atchison, Kans., thence over unnumbered highway to junction U.S. Highway 73, thence over U.S. Highway 73 to Kansas City, Mo., and return over the same route.

By the Commission.

[FR Doc.75-9277 Filed 4-8-75;8:45 am]

[Notice No. 27]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

APRIL 4, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating right's applications directly related to and processed on a consolidated record with finance applications filed under sections 5(2) and 212(b); (4) notices of filing of sections 5(2) and 210a(b) finance applications; and (5) notices of filing of section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirements of 49 CFR 1100.250.

Protests to the granting of the requested authority must be filed with the Commission on or before May 9, 1975 (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commission's General Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest

V40169 APR 9 75 XUM

(except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) or section 240(c)(4) of the special rules, and shall include the certification required therein.

No. MC 75320 (Sub-Nos. 165 and 167) (notice of filing of petition to modify certificates), filed March 24, 1975. Petitioner: CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801. Petitioner's representative: John A. Crawford, 700 Petroleum Building, Post Office Box 22567, Jackson, Miss. 39205. Petitioner holds motor *common carrier* certificates in No. MC 75320 (Sub-Nos. 165 and 167), issued February 19, 1975 and July 12, 1974, respectively, authorizing transportation, over regular routes, in MC 75320 (Sub-No. 165), of *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), Between Pryor, Okla., and Dallas, Tex., serving no intermediate points: From Pryor over U.S. Highway 69 to Denison, Tex., and thence over U.S. Highway 75 to Dallas, Tex., and return over the same route, restricted against the transportation of shipments originating at, destined to, or interchanged with connecting carriers at Pryor, Okla.; and in Sub No. 167, of *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), Between junction Oklahoma Highway 33 and U.S. Highway 66, east of Tulsa, Okla., and Siloam Springs, Ark., as an alternate route, for operating convenience only, in connection with carrier's authorized regular-route operations, serving no intermediate points: From junction Oklahoma Highway 33 and U.S. Highway 66, east of Tulsa, over Oklahoma Highway 33 to the Oklahoma-Arkansas State line, thence over Arkansas Highway 68 to Siloam Springs, Ark., and return over the same route. By the instant petition, petitioner seeks authority to serve the junctions of Oklahoma Highway 33 and U.S. Highway 69 at or near Chouteau, Okla., as intermediate points for joinder purposes only, in the above two authorities. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

Nos. MC 115279 and (Sub-No. 6) (notice of filing of petition to modify territorial descriptions), filed March 21, 1975. Petitioner: CLICK MESSENGER SERVICE, INC., 923 South Ave. West, Westfield, N.J. 07090. Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds *motor common carrier* certificates in Nos. MC 115279 and (Sub-No. 6), issued May 23, 1957 and August 8, 1967, respectively, authorizing transportation, over irregular routes, in MC–115279, of *General commodities*, in shipments of 100 pounds or less moving from one consignor to one consignee, (except commercial papers, documents, and other written instruments, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), in specialized delivery service, between points in Bergen, Passaic, and Essex Counties, N.J., on the one hand, and, on the other, New York, N.Y.; and in MC 115279 (Sub-No. 6) of *General commodities*, in shipments of 100 pounds or less moving from one consignor to one consignee (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and commercial papers, documents, and other written instruments used by banking institutions) in specialized delivery service:

(1) Between points in Nassau County, N.Y., on the one hand, and, on the other, points in Bergen, Passaic, Essex, Union, Morris, Somerset, Middlesex, and Hudson Counties, N.J.; and (2) Between New York, N.Y., on the one hand, and, on the other, points in Union, Morris, Somerset, Middlesex, and Hudson Counties, N.J. By the instant petition, petitioner seeks to modify the territorial descriptions in the above authorities by changing the terminal area of New York, N.Y. to read: New York, N.Y. and those points in New Jersey within 5 miles of New York, N.Y., and all of any New Jersey municipality any part of which is within 5 miles of New York, N.Y. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 117851 (Sub-Nos. 2, 4 and 8) (Notice of filing of petition to modify permits), filed March 27, 1975. Petitioner: JOHN R. CHEESEMAN, 501 North First Street, Fort Recovery, Ohio 45846. Petitioner's representative: Earl N. Merwin, 85 East Gay Street, Columbus, Ohio 43215. Petitioner holds motor *contract carrier* permits in No. MC 117851 (Sub-Nos. 2, 4 and 8), issued June 4, 1958, September 2, 1970, and March 29, 1972, respectively, authorizing transportation, over irregular routes, in Sub No. 2, of *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, chemicals, dolomite, refractories, refractory products, lime, limestone products and commodities requiring special equipment): (1) Between the plant site of Fort Recovery Industries, Inc., Recovery Township, Mercer County, Ohio, on the one hand, and, on the other, points in Arkansas, Florida, Illinois, Indiana, Iowa, Kansas, Michigan, Missouri, Tennessee, Texas and Wisconsin; and (2) From the plant site of Fort Recovery Industries, Inc., in Recovery Township, Mercer County, Ohio, to points in Georgia, North Carolina, and South Carolina, under a continuing contract, or contracts, with Fort Recovery Industries, Inc., of Fort Recovery, Ohio.

In Sub-No. 4, of *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, chemicals, dolomite, refractories, refractory products, lime, limestone products, and commodities requiring special equipment), Between the plant site of Fort Recovery Industries, Inc., in Recovery Township (Mercer County), Ohio, on the one hand, and, on the other, points in Alabama, Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island, under a continuing contract, or contracts with Fort Recovery Industries, Inc., of Fort Recovery, Ohio; and in Sub-No. 8, of *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, chemicals, dolomite, refractories, refractory products, lime, limestone products, and commodities requiring special equipment), (1) From points in North Carolina, South Carolina, and Georgia (except Atlanta), to the plant site of Fort Recovery Industries, Inc., in Recovery Township (Mercer County), Ohio; and (2) Between the above-named plant site on the one hand, and, on the other, points in Arizona, California, Colorado, Delaware, Idaho, Kentucky, Louisiana, Maine, Maryland, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming, and the District of Columbia, under a continuing contract, or contracts, with Fort Recovery Industries, Inc., of Fort Recovery, Ohio.

By the instant petition, petitioner seeks to consolidate the authority held in the above permits, and to add the additional base point of Gibson Township (Mercer County), Ohio, so as to read: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, chemicals, dolomite, refractories, refractory products, lime, limestone products, and commodities requiring special equipment), Between the plant site of Fort Recovery Industries, Inc., in Recovery Township (Mercer County), Ohio, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii, and except service from Atlanta, Ga.), under a continuing contract or contracts with Fort Recovery Industries, Inc., of Fort Recovery, Ohio. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 124193 (Sub-No. 1) (notice of filing of petition to modify territorial description), filed January 30, 1975. Petitioner: JOSEPH BENNETT, doing business as M & P TRANSPORTATION CO., 1172 East 96th Street, Brooklyn, N.Y. 11236. Petitioner's representative: Edward L. Nehez, 744 Broad Street, Newark, N.J. 07102. Petitioner holds a motor *contract carrier* permit in No. MC 124193 (Sub-No. 1), issued September 9, 1969, authorizing transportation, over irregular routes, of *Such commodities* as are used in the manufacture, sale, display, repair, or modification of mattresses and upholstered furniture, and in connection therewith *equipment, materials, and supplies* used in the conduct of such business (except commodities in bulk in tank vehicles), Between Brooklyn, N.Y., on the one hand, and, on the other, points in New York, Ohio, New Jersey, Pennsylvania, Maryland, Delaware, and points in that part of Virginia on and east of U.S. Highway 1, and the District of Columbia, under a continuing contract, or contracts with Eclipse Sleep Products, Inc., of Brooklyn, N.Y. By the instant petition, petitioner seeks to add points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island and Connecticut as additional points to be served in operations to and from Brooklyn, N.Y. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 127115 (Sub-No. 5) (notice of filing of petition to amend contracting shipper), filed March 17, 1975. Petitioner: MILLER TRANSPORT, INC., 510 West 4th North St., Hyrum, Utah 84319. Petitioner's representative: Harry D. Pugsley, 315 East 2d South, Suite 400, Salt Lake City, Utah 84111. Petitioner holds a motor *contract carrier* permit in No. MC 127115 (Sub-No. 5), issued December 10, 1974, authorizing transportation, as pertinent, over irregular routes, of *Foam and cellular expanded plastics* and *foam rubber*, from Los Angeles and San Francisco, Calif., and Portland, Oreg., to points in Utah, points in that part of Idaho south of Idaho County, and to Reno and Elko, Nev., and points in that part of Nevada on U.S. Highway 40 and Interstate Highway 80 between Reno and Elko, under a continuing contract or contracts with Allstate Foam Corporation at Salt Lake City, Utah. By the instant petition, petitioner seeks to substitute United Foam Company in lieu of Allstate Foam Corporation as a contracting shipper in the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 59655 (Sub-No. 5), filed March 17, 1975. Applicant: SHEEHAN CARRIERS, INC., 62 Kime Kiln Road, Suffern, N.Y. 10952. Applicant's representative: John F. O'Donnell, 60 Adams Street, Milton, Mass. 02187. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) serving points in Massachusetts on and east of U.S. Highway 5 as intermediate and off route points in connection with Vendor's existing regular route authority in Massachusetts.

NOTE.—This is a matter directly related to a Section 5 proceeding in MC–F–12468 published in the FEDERAL REGISTER on March 26, 1975. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 88368 (Sub-No. 28), filed March 12, 1975. Applicant: CARTWRIGHT VAN LINES, INC., 11901 Cartwright Ave., Grandview, Mo. 64030. Applicant's representative: Charles Ephraim, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between Wallace, N.C. and points in North Carolina within 100 miles thereof, and those in Virginia and South Carolina on the one hand, and, on the other, points in the United States and Hawaii (except Alaska, Nevada and North Dakota).

NOTE.—This is a matter directly related to a Section 5 proceeding in MC–F–12466 published in the FEDERAL REGISTER issue of March 26, 1975. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 109647 (Sub-No. 21), filed March 21, 1975. Applicant: BOSS-LINCO LINES, INC., One West Genesee Street, Suite 450, Buffalo, N.Y. 14240. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by mail order houses and department stores, the business of which is the sale of general commodities, from points in that part of West Virginia on and north of West Virginia Highway 3; points in that part of Ohio east and south of a line beginning at the Indiana-Ohio State Boundary line and extending along U.S. Highway 40 to Vandalia, thence along U.S. Highway 25 to Findlay, thence along Ohio Highway 12 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 6, thence along U.S. Highway 6 to Sandusky, Ohio; points in that part of Maryland on and west of U.S. Highway 11; and points in that part of Pennsylvania south and west of a line beginning at the Ohio-Pennsylvania State Boundary line and extending along U.S. Highway 422 to junction Pennsylvania Highway 259, thence along Pennsylvania 259 to Brush Valley, thence along Pennsylvania 56 to Seward, thence along Pennsylvania Highway 711 to Normalville, and thence along Pennsylvania 381 to the Pennsylvania-West Virginia State Boundary line, including points on the indicated portions of the highways specified, to points and places on and west of U.S. Highway 15.

NOTE.—The purpose of this filing is to eliminate the gateway of Chartiers Township, Pennsylvania. Common control may be involved. This application is directly related to a Section 5 proceeding in MC–F–12461 published in the FEDERAL REGISTER issue of March 19, 1975. If a hearing is deemed necessary, applicant requests it be held at either Buffalo, N.Y. or Pittsburgh, Pa.

No. MC 12472. Authority sought for merger by SPECTOR FREIGHT SYSTEM, INC., 205 W. Wacker Dr., Chicago, IL 60606, of the operating rights and properties of (1) HENNIS FREIGHT LINES, INC., (E. C. Peterson, Trustee), P.O. Box 612, Winston-Salem, NC 27102, and HENNIS FREIGHT LINES, INC. OF NEBRASKA, also of Winston-Salem, N.C. 27102; and (2) the control by SPECTOR FREIGHT SYSTEM, INC., of M & M TANK LINES, INC., M & M TANK LINES OF VIRGINIA, INC., P.O. Box 30006, Washington, D.C. 20014, and HENNIS FREIGHT LINES OF CANADA LIMITED, through the merger of BENTONSPRY, INC., and SPECTOR INDUSTRIES, INC. Applicants' attorney and representatives: W. D. Spry and B. M. Shirley, P.O. Box 612, Winston-Salem, NC 27102, and Jack Goodman, 39 So. LaSalle St. Chicago, IL 60603. (1) Operating rights sought to be merged: (a) *General commodities*, excepting among others, Class A and B explosives, household goods, and commodities in bulk, and certain specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Illinois, West Virginia, Ohio, Indiana, South Carolina, North Carolina, Georgia, Virginia, Massachusetts, Maryland, Delaware, Pennsylvania, New York, Connecticut, Rhode Island, Michigan, New Jersey, Florida, Missouri, Wisconsin, Kentucky, Tennessee, and the District of Columbia, with

V40169 APR 9 75 XUM

restrictions, serving various intermediate and off-route points, over one alternate route for operating convenience only, as more specifically described in Docket No. MC 64994 and Sub-numbers thereunder; and (b) *general commodities*, excepting among others, class A and B explosives, household goods and commodities in bulk, as a common carrier over regular routes, from, to, and between specified points in the States of Nebraska, Missouri, Iowa, Kansas, Illinois, Indiana, and Colorado, with restrictions, serving various intermediate and off-route points, as more specifically described in Docket No. MC 105807 and Sub-numbers thereunder.

(2) Operating rights sought to be controlled: (a) *certain specified commodities*, as a *common carrier*, over irregular routes, from, to, and between specified points in the States of South Carolina, Virginia, North Carolina, Georgia, Tennessee, New Jersey, Florida, West Virginia, New York, Kentucky, Maryland, Ohio, Pennsylvania, Illinois, Michigan, Missouri, Texas, Indiana, Kansas, Minnesota, Arkansas, Nebraska, Oklahoma, Wisconsin, Iowa, Alabama, Mississippi, and Delaware, as more specifically described in Docket No. MC 123067 and Sub-numbers thereunder; (b) *General commodities*, excepting among others, Class A and B explosives, household goods and commodities in bulk, as a *common carrier*, over irregular routes, between points in Michigan within 8 miles of Detroit, including Detroit; *frozen meats*, from the ports of entry on the United States-Canada Boundary line located at Champlain, Rouses Point, Trout River, Roosevelton, Buffalo, and Niagara Falls, N.Y., and Port Huron and Detroit, Mich., to points in Florida, with restriction; (c) *liquid petroleum products*, in tank *trucks*, as a *common carrier* over irregular routes, from Norfolk, and Hopewell, Va., and Wilmington, N.C., and points within 10 miles of each, to points in that part of North Carolina on and east of U.S. Highway 21; liquefied petroleum gas, in bulk, from Norfolk, Va., to points in Georgia, Tennessee, Kentucky, West Virginia, Pennsylvania and New Jersey. SPECTOR FREIGHT SYSTEM, INC., is authorized to operate as a *common carrier* in Alabama, Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Florida, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12474. Authority sought for purchase by BERRY TRANSPORTATION, INC., P.O. Box 2147, Longview, TX 75601, of a portion of the operating rights and property of DUBOSE TRUCKING COMPANY, INC., Route 1, Box 257, Denham Springs, LA 70726, and for acquisition by FRED S. BERRY, also of Longview, TX 75601, of control of such rights and property through the purchase. Applicants' attorneys: Lawrence A. Winkle, 4645 N. Central Expressway, Dallas, TX 75205, and Cordell H. Haymon, Suite 305, Baton Rouge Savings & Loan Assn., 101 St. Ferdinand, Baton Rouge, LA 70801. Operating rights sought to be transferred: *Sugar*, in containers, as a *common carrier* over irregular routes, from the plant sites of Colonial Sugars Company at Gramercy, La., and of Godchaux-Henderson Sugar Company at Reserve, La., to points in Alabama, Arkansas, Mississippi, Tennessee, and Texas. Vende is authorized to operate as a *common carrier* in Texas, Arkansas, Louisiana, Tennessee, Kansas, Missouri, New Mexico and Mississippi. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12477. Authority sought for purchase by NEW YORK MASSACHUSETTS MOTOR SERVICE, INC., 83 Progress Ave., Springfield, MA 01104, of a portion of the operating rights of COMMERCIAL FREIGHTWAYS, INC., 449 Silver St., Agawam, MA 01001, and for acquisition by PAUL A. DUBREY, also of Springfield, MA 01103, of control of such rights through the purchase. Applicants' attorneys: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, MA 02043, and David M. Marshall, 135 State St., Springfield, MA 01103. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over irregular routes, between points in Massachusetts. Vendee is authorized to operate as a *common carrier* in Connecticut, Massachusetts, New Jersey, and New York. Application has been filed for temporary authority under section 210a(b).

MOTOR CARRIER PASSENGERS

No. MC-F-12478. Authority sought for lease by TENNESSEE TRAILBLAZERS, INCORPORATED, 1000 4th Ave. North Nashville, TN 37219, of the operating rights of BOWLING GREEN-HOPKINSVILLE BUS CO., INC., 181 E. 4th St., Russellville, KY 42276, and for acquisition by DEVEREAUX T. DAVIS AND CHRISTINE T. TREANOR, also of Nashville, TN 37219, of control of such rights through the lease. Applicants' attorney and representative: A. O. Buck, 618 Hamilton Bank Bldg., Nashville, TN 37219, and William G. Fuqua, P.O. Box 351, Russellville, KY 42276. Operating rights sought to be leased: Passengers and their baggage, and express and newspapers, in the same vehicle with passengers, as a common carrier over regular routes, between Hopkinsville and Bowling Green, Ky., between Springfield and Owensboro, Ky., serving all intermediate points, between Russellville, Ky. and Clarksville, Tenn., serving all intermediate points, and the off-route point of Allensville, Ky. Vendee is authorized to operate as a common carrier in Kentucky and Tennessee. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[Notice 261]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

APRIL 9, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 29, 1975.

Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75580. By order of March 24, 1975, the Motor Carrier Board on reconsideration approved the transfer to Bowell Storage & Transit Co., a corporation, Cincinnati, Ohio, of the operating rights in Certificate No. MC-9442 issued March 28, 1965, to Thomas L. Reynolds, doing business as Lewis Moving & Storage Co., Cincinnati, Ohio, authorizing the transportation of household goods as defined by the Commission, office furniture, and equipment, and store fixtures, between Dayton, Ky., and points within 15 miles thereof, on the one hand, and, on the other, points in Illinois, Kentucky, Michigan, Ohio, Tennessee, and West Virginia. James J. Sheridan, 7350 Miami Avenue, P.O. Box 43229, Madeira, Ohio 45243 Registered Practitioner for applicants.

No. MC-FC-75695. By order of March 17, 1975, the Motor Carrier Board approved the transfer to Metro Distribution, Inc., Wilmette, Ill., of the operating rights evidenced by the Certificate of Registration in No. MC-121705 issued December 27, 1973, to F. J. Murphy, Wilmette, Ill., authorizing the holder to engage in operations in interstate commerce corresponding in scope to the authority granted in certificate of public convenience and necessity No. 6648 MC dated October 5, 1954, transferred and reissued July 5, 1972, by the Illinois Commerce Commission. James R. Madler, 1255 N. Sandburg Terrace, Chicago, Ill. 60610 Attorney for applicants.

No. MC-FC-75712. By order entered March 18, 1975, the Motor Carrier Board approved the transfer to RDC Transportation, Inc., Artesia, Calif., of the operating rights set forth in Permit Nos. MC-136539 and MC-136539 (Sub-No. 1), issued by the Commission March 9, 1973, and June 17, 1974, to Peterson Trucking Co., a corporation, North Hollywood, Calif., authorizing the transportation of baby furniture and baby products and materials and supplies used in the manufacture of baby furniture and baby products (except in bulk), between the plant site of Peterson Baby Products Co., at Los Angeles, Calif., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); and between the plant site and warehouse facilities of Peterson Baby Products Co., located at Reynoldsburg and Obetz, Ohio (near Columbus, Ohio), on the one hand, and, on the other, points in that part of the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana (except Ohio), under a continuing contract or contracts, with Peterson Baby Products Co. Robert Brown, P.O. Box 5345, Sherman Oaks, Calif. 91413, attorney for applicants

No. MC-FC-75727. By order entered March 13, 1975 the Motor Carrier Board approved the transfer to Hill's Truck Line, Inc., (a North Carolina corporation) Murfreesboro, N.C., of the operating rights set forth in Certificate No. MC-59263, issued November 12, 1974, to Lensey Elias Vinson, doing business as L. E. Vinson Farms, Woodland, N.C., authorizing the transportation of general commodities, with the usual exceptions, from Norfolk, Va., and points in Virginia within 35 miles of Norfolk, to Conway, N.C., and points in North Carolina within 35 miles of Conway; and various specified commodities, from, to, and between points in North Carolina, Virginia, West Virginia, Pennsylvania, Delaware, New Jersey, New York, South Carolina, Maryland, Delaware, Georgia, Tennessee, and the District of Columbia. Joseph E. Wall, P.O. Box 709, Raleigh, N.C. 27602, attorney for applicants.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

APRIL 3, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 7971 (Sub-No. 9G), filed June 4, 1974. Applicant: AMERICAN SECURITY VANLINES, INC., P.O. Box 968, Atlanta, Ga. 30344. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, and the District of Columbia; except, (1) between points in Arkansas, Kansas, Kentucky, Missouri, and Oklahoma and (2) between points in Delaware, Maine, New Hampshire and Vermont. The purpose of this filing is to eliminate the gateways of Atlanta, Ga., and 135 miles thereof, Westchester County, N.Y., Monmouth County, N.J., and Fort Smith, Ark.

No. MC 34231 (Sub-No. 9G), filed May 28, 1974. Applicant: D & H TRUCKING, INC., 4240 South 33rd West Avenue, P.O. Box 9158, Tulsa, Okla. 74107. Applicant's representative: Marion F. Jones, Suite 1000 Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, equipment and supplies* used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof and (2) *machinery, equipment, materials and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in Oklahoma and Texas, on the one hand, and, on the other, points in Arkansas, Colorado, Illinois, Louisiana, Missouri, Nebraska, New Mexico, and Wyoming. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 41951 (Sub.-No. 21G), filed June 3, 1974. Applicant: WHEATLEY TRUCKING, INC., 125 Brohawn Avenue, P.O. Box 458, Cambridge, Md. 21613. Applicant's representative: Francis P. Desmond, 115 East 5th Street, Chester, Pa. 19013. No. MC 118831 (Sub-No. 111G), filed June 4, 1974. Applicant: CENTRAL TRANSPORT, INC., Box 5368, High Point, N.C. 27262. Applicant's representative: Richard E. Shaw (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals* (except Petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, from points in North Carolina (except Charlotte), to points in Georgia, restricted against the transportation of caustic soda, in bulk, from Acme, N.C., and points within five miles thereof. The purpose of this filing is to eliminate the gateway at points in South Carolina. (2) *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, from points in North Carolina, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (3) *Liquid chemicals* (except petrochemicals), in bulk, from points in South Carolina, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateway at Charlotte, N.C.

(4) *Liquid chemicals*, in bulk, from points in Richmond County, Ga., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (5) *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer and fertilizer materials, and vegetable oils), from points in North Carolina (except Charlotte), to points in Alabama. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (6) *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer and fertilizer materials), in bulk, from points in North Carolina (except Charlotte), to points in Florida. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (7) *Liquid chemicals* (except petrochemicals anyhdrous ammonia, fertilizer and fertilizer materials and vegetable oils), in bulk, from points in North Carolina (except Charlotte), to filing is to eliminate the gateway at Charlotte, N.C. (8) *Liquid chemicals*, in bulk, from Charlotte, North Carolina, to points in Mississippi. The purpose of this filing is to eliminate the gateway at Lanett, Ala. (9) *Liquid chemicals* (except petrochemicals), in bulk, from points in South Carolina, to points in Alabama. The purpose of this filing is to eliminate the gateway at Charlotte, N.C.

(10) *Liquid chemicals* (except petrochemicals, fertilizer, and vegetable oils), in bulk, from points in South Carolina, to points in Mississippi. The purpose of this filing is to eliminate the gateway at Lanett, Ala. (11) *Liquid chemicals*, in bulk, from points in Richmond County, Ga., to points in Alabama. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (12) *Liquid chemicals* (except fertilizer and vegetable oils), in bulk, from Richmond County, Ga., to points in Mississippi. The purpose of this filing is to eliminate the gateways at Charlotte, N.C., and Lanett, Ala. (13) *Liquid chemicals* (except petrochemicals), in bulk, from points in South Carolina to points in Florida. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (14) *Liquid chemicals*, in bulk, from Richmond County, Ga., to points in Florida. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (15) *Liquid chemicals*, in bulk, from Robertson County, Tenn., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateway of Charlotte, N.C. (16) *Liquid chemicals*, in bulk, from Robertson County, Tenn., to points in Florida. The purpose of this filing is to eliminate the gateway of Charlotte, N.C.

(17) *Liquid chemicals* in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company, Incorporated in Chesapeake, Virginia (within the Norfolk Commercial Zone), to points in Alabama, Florida, Georgia, South Carolina, and Virginia. The purpose of this filing is to eliminate the gateway in that portion of North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74, co-extensive with the gateway of Charlotte, North Carolina. (18) *Liquid chemicals*, in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company, Incorporated located at Chesapeake, Virginia, to points in Connecticut, Delaware, Maryland, Massachusetts, New

V 40 69 APR 9 75 XUM

Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateway at that portion of North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74, co-extensive with Charlotte, North Carolina which lies within the above described area. (19) *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company located at Chesapeake, Virginia, to points in North Carolina, west of U.S. Highway 21 and south of U.S. Highway 74. The purpose of this filing is to eliminate the gateway at that portion of North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74.

(20) *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), from the plant site of Howerton-Gowen Company located at Chesapeake, Virginia, to points in Virginia. The purpose of this filing is to eliminate the gateway at any point in North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74. (21) Liquid chemicals (except fertilizer and vegetable oils), in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company located at Chesapeake, Virginia, to points in Mississippi. The purpose of this filing is to eliminate the gateway at that portion of North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74; Charlotte, North Carolina and Lanett, Alabama. (22) *Dry chemicals* (except fertilizer), in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateway at Lanett, Alabama. (23) *Dry chemicals*, in bulk, in tank type vehicles, from Kanawha County, West Virginia, to points in Georgia and Virginia. The purpose of this filing is to eliminate the gateway in North Carolina. (24) *Dry chemicals* (except fertilizer), in bulk, in tank vehicles, from Kanawha County, West Virginia, to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateway at points in North Carolina and Lanett, Alabama.

(25) *Dry chemicals*, in bulk, from the plant site of Howerton-Gowen Company located in the Chesapeake, Virginia, to points in Georgia, South Carolina and Virginia. The purpose of this filing is to eliminate the gateway at any point in North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74. (26) *Dry chemicals* (except fertilizer), in bulk, in tank vehicles, from the plant site of Howerton-Gowen Company of Chesapeake, Virginia, to points in Alabama and Mississippi. The purpose of filing is to eliminate the gateway at that portion of North Carolina lying east of U.S. Highway 21 and north of U.S. Highway 74 and Lanett, Alabama. (27) *Dry chemical fertilizers and fertilizer materials*, in bulk, in tank or hopper-type vehicles, from the plant site of the Smith-Douglas Division of Borden, Incorporated at Chesapeake, Virginia, and the plant site of F. S. Royster Company at Norfolk, Virginia, to points in Delaware, Georgia, Maryland, New Jersey, Pennsylvania, South Carolina, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway at points in Hertford County, N.C. (28) *Liquid fertilizers and fertilizer materials*, in bulk, in tank or hopper-type vehicles, from the plant site of Howerton-Gowen Company located at Chesapeake, Virginia, to points in Delaware, Georgia, Maryland, New Jersey, Pennsylvania, South Carolina, Virginia, and West Virginia (except points in Kanawha and Pleasants Counties, West Virginia. The purpose of this filing is to eliminate the gateway at points in Hertford County, N.C.

(29) *Dimethyl Terephthalate*, dry, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in South Carolina, Georgia, and Virginia. The purpose of this filing is to eliminate the gateway at Transylvania County, N.C. (30) *Dimethyl Terephthalate molten*, in bulk, from Old Hickory, Tenn., to points in North Carolina. The purpose of this filing is to eliminate the gateways at Transylvania County, N.C. and points in South Carolina. (31) *Dimethyl Terephthalate*, dry, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateways at Transylvania County, N.C. and Lanett, Ala. (32) *Dimethyl Terephthalate molten*, in bulk, in tank or hopper-type vehicles from Old Hickory, Tenn., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateways at Transylvania County, South Carolina, and Lanett, Ala. (33) *Dimethyl Terephthalate Molten*, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in Florida. The purpose of this filing is to eliminate the gateways at Transylvania County and Charlotte, N.C. (34) *Dimethyl Terephthalate Molten*, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in South Carolina and Virginia. The purpose of this filing is to eliminate the gateway at Transylvania County, N.C. (35) *Dimethyl Terephthalate Molten*, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in Georgia. The purpose of this filing is to eliminate the gateways at Transylvania County, and points in South Carolina.

(36) *Dimethyl Terephthalate Molten*, in bulk, in tank or hopper-type vehicles, from Old Hickory, Tenn., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateways at Transylvania County, and Charlotte, N.C. (37) *Dimethyl Terephthalate*, in bulk, from New Hanover County, N.C. and Spartanburg County, S.C. to points in Alabama, Arkansas, Georgia, Kentucky, Indiana, Illinois, Michigan, Missouri, Mississippi, Ohio, Tennessee (except Kingsport and Elizabethton and except Lowland when from Spartanburg, County), and West Virginia (except Lowland when from Spartanburg, filing is to eliminate the gateway of Robertson County, Tenn. (38) *Dimethyl Terephthalate*, dry, in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in Arkansas, Kentucky, Indiana, Illinois, Michigan, Missouri, Ohio, Tennessee (except Elizabethton, Kingsport, and Lowland), and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at Spartanburg County, S.C. and Robertson County, Tenn. (39) *Dimethyl Terephthalate Molten*, in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in Arkansas, Kentucky, Indiana, Illinois, Michigan, Missouri, Ohio, Tennessee (except Elizabethton, Kingsport, and Lowland), and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateway of Spartanburg County, S.C., and Robertson County, Tenn.

(40) *Dimethyl Terephthalate Molten*, in bulk, from points in South Carolina, to points in Arkansas, Kentucky, Indiana, Illinois, Michigan, Missouri, Ohio, Tennessee (except Elizabethton, Kingsport and Lowland), and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at North Carolina, Spartanburg County, S.C., and Robertson County, Tenn. (41) *Dimethyl Terephthalate*, dry, in bulk, from Gibbstown, N.J., to points in Georgia, South Carolina, and Virginia. The purpose of this filing is to eliminate the gateway at the plant site of Du Pont Company at Graingers, N.C. (42) *Dimethyl Terephthalate*, dry, in bulk, in tank or hopper-type vehicles, from Gibbstown, N.J., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateways at the plant site of Du Pont Company at Graingers, North Carolina, and Lanett, Alabama. (43) *Dimethyl Terephthalate*, dry, in bulk, in tank or hopper-type vehicles, from Gibbstown, N.J., to points in Arkansas, Kentucky, Indiana, Illinois, Michigan, Missouri, North Carolina, Ohio, Tennessee (except Elizabethton, Kingsport, and Lowland), and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at the plant site of Du Pont Company, Graingers, N.C., Spartanburg, S.C., and Robertson County, Tenn.

(44) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in South Carolina and Virginia. The purpose of this filing is to eliminate the gateway at the plant site of E. I. Du Pont Company at Graingers, N.C. (45) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in North Carolina and Georgia. The purpose of this filing is to eliminate the gateway at the plant site of Du Pont Company at Graingers, N.C. and the State of South Carolina.

(46) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in Alabama and Florida. The purpose of this filing is to eliminate the gateway at the plant site of Du Pont Company at

Graingers, N.C., and Charlotte, N.C. (47) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in Mississippi. The purpose of this filing is to eliminate the gateways at the plant site of Du Pont Company at Graingers, N.C., and the State of South Carolina, and Lanett, Ala. (48) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in Tennessee (except Elizabethton, Kingsport and Lowland). The purpose of this filing is to eliminate the gateways at the plant site of Du Pont Company at Graingers, N.C., and Spartanburg County, S.C. (49) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in Arkansas, Kentucky, Indiana, Illinois, Michigan, Missouri, Ohio, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at the plant site of Du Pont Company at Graingers, N.C., Spartanburg County, S.C., and Lanett, Ala. (50) *Dry Synthetic Plastic Resins*, in bulk, in tank or hopper-type vehicles, from Greenville County, S.C., to points in Georgia, South Carolina and Virginia. The purpose of this filing is to eliminate the gateway of the State of North Carolina. (51) *Dry Synthetic Plastic Granules or Pellets*, in bulk, in tank or hopper-type vehicles, from Darlington County, S.C., to points in Georgia, South Carolina, and Virginia. The purpose of this filing is to eliminate the gateway at North Carolina. (52) *Dry Synthetic Plastic Resins*, in bulk, in tank or hopper-type vehicles, from Greenville County, S.C., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateway at North Carolina and Lanett, Ala. (53) *Dry Synthetic Plastic Granules or Pellets*, in bulk, in tank or hopper-type vehicles, from Darlington County, S.C., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateways at North Carolina and Lanett, Ala. (54) *Dry Polyethylene Resins*, in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in Alabama, Florida, and Tennessee (except Elizabethton and Kingsport). The purpose of this filing is to eliminate the gateway at Greenville County, S.C. (55) *Dry Polyethylene Resins*, in bulk, in tank or hopper-type vehicles, from Darlington County, S.C., to points in Alabama, Florida, and Tennessee (except Elizabethton and Kingsport). The purpose of this filing is to eliminate the gateways at North Carolina and Greenville County, S.C.

(56) *Dry Polyethylene Resins*, in bulk, from Greenville County, S.C., to points in Arkansas, Kentucky, Indiana, Mississippi, Ohio, South Carolina, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateway at Robertson County, Tenn. (57) *Dry Polyethylene Resins*, in bulk, from points in North Carolina, to points in Arkansas, Kentucky, Indiana, Mississippi, North Carolina, Ohio, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at Greenville County, S.C., and Robertson County, Tenn. (58) *Dry Polyethylene Resins*, in bulk, in tank or hopper-type vehicles, from Darlington County, S.C., to points in Arkansas, Kentucky, Indiana, Mississippi, Ohio, South Carolina, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at North Carolina, Greenville County, S.C., and Robertson County, Tenn. (59) *Dry Plastic Granules or Pellets*, in bulk, in tank or hopper-type vehicles, from Hopewell, Va., to points in Georgia, and Virginia. The purpose of this filing is to eliminate the gateway at North Carolina. (60) *Dry Polyethylene Resins*, in bulk from Hopewell, Va., to points in Alabama, Florida, Tennessee (except Kingsport and Elizabethton). The purpose of this filing is to eliminate the gateways at Greenville County, S.C. (61) *Dry Polyethylene Resins*, in bulk, from Hopewell, Va., to points in Mississippi. The purpose of this filing is to eliminate the gateways at Greenville County, S.C., and Lanett, Ala. (62) *Dry Polyethylene Resins*, in bulk, from Hopewell, Va., to points in Arkansas, Kentucky, Indiana, Mississippi, Ohio, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at Greenville County, S.C., and Robertson County, Tenn.

(63) *Dry Polyethylene Resins*, in bulk, in tank or hopper-type vehicles, from Laurens County, S.C., to points in Alabama, Florida, Georgia, and Tennessee (except Elizabethton and Kingsport). The purpose of this filing is to eliminate the gateways at North Carolina and Greenville County, S.C. (64) *Dry Polyethylene Resins*, in bulk, in tank or hopper-type vehicles, from Laurens County, S.C., to points in Arkansas, Kentucky, Indiana, Mississippi, Ohio, South Carolina, and West Virginia (except Kanawha County). The purpose of this filing is to eliminate the gateways at North Carolina, Greenville County, S.C., and Robertson County, Tenn. (65) *Liquid Fertilizer and Fertilizer Materials*, in bulk, from Hertford County, N.C., to points in Florida. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (66) *Liquid Fertilizer and Fertilizer Materials*, in bulk, from points in South Carolina, to points in Delaware, Maryland, New Jersey, Pennsylvania, South Carolina, and West Virgina (except Kanawha and Pleasants Counties). The purpose of this filing is to eliminate the gateway at Hertford County, N.C. (67) *Liquid Fertilizer and Fertilizer Materials*, in bulk, from Richmond County, Ga., to points in Delaware, Georgia, Maryland, New Jersey, Pennsylvania, and West Virginia (except Pleasants and Kanawha Counties). The purpose of this filing is to eliminate the gateway at Hertford County, N.C.

(68) *Coconut Oil*, in bulk, from Memphis, Tenn., to points in Delaware, Maryland, Pennsylvania, and Virginia (except Portsmouth and Suffolk and points within five miles of each). The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (69) *Coconut Oil*, in bulk, from Memphis, Tenn., to points in West Virginia. The purpose of this filing is to eliminate the gateway at Charlotte, N.C. (70) *Barite*, in bulk, from Cartersville, Ga., to points in Georgia and Virginia. The purpose of this filing is to eliminate the gateway at North Carolina. (71) *Dry Sand, Ground and Pulverized*, in bulk, in tank or hopper-type vehicles equipped with pneumatic unloading devices, from the plant-site of Pennsylvania Glass-Sand Company at Edmund, S.C. (in Lexington County, approximately 10 miles south of Columbia, South Carolina), to points in South Carolina and Virginia. The purpose of this filing is to eliminate the gateway at North Carolina. (72) *Kaolin Clay*, in bulk, in tank or hopper-type vehicles, from Aiken County, S.C., to points in Georgia and South Carolina. The purpose of this filing is to eliminate the gateway at North Carolina. (73) *Dry Cement*, in bulk, from points in North Carolina, to points in South Carolina and Virginia (limited to shipments which have received immediate prior movement by rail from Cowan or Nashville, Tennessee; Rockmart, Georgia; or Security, Maryland). The purpose of this filing is to eliminate the gateway at Wilmington, N.C.

(74) *Dry Cement*, in bulk, from points in North Carolina, to points in South Carolina and Virginia (limited to shipments which have had a prior movement by rail or water from Baltimore, Maryland; Norfolk, Virginia; Wilmington, North Carolina; Charleston, South Carolina; or Savannah, Georgia). The purpose of this filing is to eliminate the gateway at Wilmington, N.C. (75) *Dry Cement*, in bulk, from Spencer, N.C., to points in South Carolina and Virginia (limited to the transportation of shipments having prior movement by rail). The purpose of this filing is to eliminate the gateway at Wilmington, N.C. (76) *Dimethyl Terephthalate Molten*, in bulk, from Gibbstown, N.J., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateways at the plantsite of Du Pont Company, Garingers, N.C., and Charlotte, N.C. (77) *Dry Kaolin Clay*, in bulk, in tank or hopper-type vehicles, from Aiken County, S.C., to points in Maine, New Jersey, Ohio, and Pennsylvania. The purpose of this filing is to eliminate the gateways at North Carolina and McIntyre, Ga. (78) *Dry Clay*, in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in Maine, New Jersey, Ohio, and Pennsylvania. The purpose of this filing is to eliminate the gateway at McIntyre, Ga. (79) *Limestone*, in bulk, in tank or hopper-type vehicles, from points in North Carolina, to points in New Jersey, New York, Ohio, Pennsylvania, and Texas. The purpose of this filing is to eliminate the gateway of Cartersville, Ga.

(80) *Dry Plastic Granules and Pellets*, in bulk, from Hopewell, Va., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateways at North Carolina and Lanett, Ala. (81) *Urea Fertilizer and Fertilizer Materials*, in bulk, in tank or hopper-type vehicles,

XUM

from Wilmington, N.C., to points in Delaware, Georgia, Maryland, New Jersey, Pennsylvania, South Carolina, Virginia, and West Virginia (restricted against the transportation of liquid fertilizer and liquid fertilizer materials to points in Kanawha and Pleasants Counties, West Virginia, and restricted to shipments having a prior movement by water). The purpose of this filing is to eliminate the gateway at Hertford County, N.C. (82) *Dry Plastic Granules or Pellets*, in bulk, from Hopewell, Va., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateway at North Carolina and Lanett, Ala. (83) *Liquid chemicals*, in bulk (except fertilizer and vegetable oils), from Lanett, Ala., to points in North Carolina, South Carolina, and Virginia. The purpose of this filing is to eliminate the gateway at Richmond County, Ga. (84) *Liquid chemicals*, in bulk (except fertilizer and vegetable oils), from Lanett, Ala., to points in Florida. The purpose of this filing is to eliminate the gateways at Richmond County, Ga., and Charlotte, N.C.

(85) *Liquid Chemicals* (except fertilizer and vegetable oils), in bulk, from Lanett, Ala., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. The purpose of this filing is to eliminate the gateways at Richmond County, Ga., and Charlotte, N.C. (86) *Liquid Chemicals* (except fertilizer and vegetable oils), in bulk, from Charlotte, N.C., to points in Mississippi. The purpose of this filing is to eliminate the gateway at Lanett, Ala. (87) *Liquid Chemicals* (except petrochemicals, fertilizer and vegetable oils), in bulk, from Richmond County, Ga., to points in Alabama. The purpose of this filing is to eliminate the gateways at South Carolina and Lanett, Ala. (88) *Liquid Chemicals* (except petrochemicals, anhydrous ammonia, fertilizer and fertilizer materials), in bulk, from points in North Carolina, to points in North Carolina. The purpose of this filing is to eliminate the gateway at South Carolina. (89) *Liquid Chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, from points in South Carolina, to points in South Carolina. The purpose of this filing is to eliminate the gateway at North Carolina. (90) *Liquid chemicals*, in bulk (except petrochemicals) from points in Richmond County, Ga., to points in Georgia. The purpose of this filing is to eliminate the gateway at South Carolina.

No. MC 124947 (Sub-No. 26G), filed June 4, 1974. Applicant: MACHINERY TRANSPORTS, INC., P.O. Box 266, Stroud, Okla. 74079. Applicant's representative: T. M. Brown, Suite 223, Ciudad Building, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Commodities*, the transportation of which because of size or weight requires the use of special equipment, and of related articles and supplies when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, (1) between points in Ohio, on the one hand, and, on the other, points in Colorado, New Mexico, Kansas, Oklahoma, Texas, and Louisiana, (2) between points in Kentucky, on the one hand, and, on the other, points in Colorado, New Mexico, Kansas, Oklahoma, Texas, and Louisiana, (3) from points in Indiana, Kentucky, Ohio, and Missouri, to points in Arkansas, (4) between points in Missouri, on the one hand, and, on the other, points in Colorado, New Mexico, Oklahoma, Texas, Kansas, and Louisiana, (5) between points in Arkansas, on the one hand, and, on the other, points in Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas, and (6) between points in Indiana, on the one hand, and, on the other, points in Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin, or Saline Counties, Ill.

(7) from points in Louisiana, to points in Colorado, Kansas, and New Mexico, (8) from points in Colorado, to points in Kansas, and New Mexico, (9) from points in Kansas, to points in Colorado, and New Mexico, (10) from points in New Mexico, to points in Colorado, and Kansas, and (11) from points in Oklahoma, to points in Colorado, Kansas, and New Mexico. The purpose of this filing is to eliminate the gateway of points in Illinois. (12) from Chicago, Ill., to points in Arkansas, Colorado, Kansas, and New Mexico. The purpose of this filing is to eliminate the gateway of points in Texas. (13) from points in Texas, to points in Oklahoma. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin or Saline Counties, Ill. (B) *heavy machinery*, between Rock County, Wis., on the one hand, and, on the other, points in Colorado, New Mexico, Texas, Oklahoma, Kansas, Louisiana, Indiana, Ohio, Kentucky, Missouri, and Arkansas. The purpose of this filing is to eliminate the gateways of points in Illinois or points in Williamson, Franklin or Saline Counties, Ill.

No. MC 126625 (Sub-No. 14G), filed June 3, 1974. Applicant: MURPHY SURF-AIR TRUCKING COMPANY, INC., Bluegrass Airport, Lexington, Ky. 40504. Applicant's representative: Robert H. Kinker, 711 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Weir-Cook Airport near Indianapolis, Ind., on the one hand, and, on the other, O'Hare International Airport, Chicago, Ill., restricted to the transportation of shipments having an immediately prior or subsequent movement by air. The purpose of this filing is to eliminate the gateway of the Greater Cincinnati Airport (Boone County), Ky. (2) between points in Barren County, Ky., on the one hand, and, on the other, Standiford Field, Louisville, Ky., restricted to the transportation of shipments having an immediately prior or subsequent movement by air. The purpose of this filing is to eliminate the gateways of the Weir-Cook Airport near Indianapolis, Ind. and the Greater Cincinnati Airport (Boone County), Ky.

NOTICES

APRIL 3, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 21, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 19157 (Sub-No. E1), filed May 31, 1974. Applicant: McCORMACK'S HIGHWAY TRANSPORTATION, INC., R.D. No. 3, P.O. Box 4, Schenectady, N.Y. 12306. Applicant's representative: Anthony C. Vance, 1111 E. St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Radioactive source, special nuclear and by-products materials, radioactive material shipping containers, nuclear reactor component parts and equipment* used in the operation of nuclear reactors (except commodities in bulk or in tank vehicles, and commodities which by reason of size or weight require the use of special equipment); (1) between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Pennsylvania on and west of U.S. Highway 219, and points in Illinois, Indiana, Ohio, Kentucky, Louisiana, Michigan, Mississippi, Wisconsin, Florida, Alabama, Tennessee, and West Virginia (Niskayuna or Milton, N.Y., and points in Cattaraugus County, N.J.)*; (2) between points in Vermont, New Hampshire, and Maine (except points in that part of New Hampshire and Maine south of a line beginning at the Massachusetts-New Hampshire State line, thence along U.S. Highway 202 to Portland, Maine), on the one hand, and, on the other, points in Georgia (Niskayuna or Milton, N.Y., and points in Cattaraugus County, N.Y.)*; (3) between points in Massachusetts, on the one hand, and, on the other, points in Alabama, Illinois, Indiana, Ohio, Kentucky, Louisiana, Michigan, Mississippi, and Wisconsin, and points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line, thence along U.S. Highway 219 to DuBois, Pa., thence along U.S. Highway 119 to the Pennsylvania-West Virginia State line, points in that part of West Virginia on and west of U.S. Highway 119, points in that part of Tennessee on and west of U.S. Highway 27, including points in Roane and Anderson Counties, Tenn., points in that part of Georgia on and west of U.S. Highway 27, and points in that part of Florida on, west, and south of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 27 to Tallahassee, thence along U.S. Highway 19 to junction Florida Highway 50, thence along Florida Highway 50 to Cape Kennedy, Fla. (Niskayuna or Milton, N.Y., and points in Cattaraugus County, N.Y.)*;

(4) between points in Rhode Island, on the one hand, and, on the other, points in Alabama, Illinois, Indiana, Ohio, Kentucky, Louisiana, Michigan, Mississippi, Wisconsin, points in that part of Tennessee on and west of a line along the Powell River from the Tennessee-Kentucky State line to the Tennessee River, thence along the Tennessee River south to Chattanooga (including Anderson and Roane Counties), points in Florida west of the Appalachicola River and points south of a line along Florida Highway 60 from Tampa to Vero Beach, and points in West Virginia on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to Charleston, thence along U.S. Highway 119 to the Kentucky-West Virginia State line (Niskayuna or Milton, N.Y., and points in Cattaraugus County, N.Y.)*; (5) between points in Passaic, Bergen, Essex, Union, and Hudson Counties, N.J., on the one hand, and, on the other, points in Wisconsin, the Upper Peninsula of Michigan, and those points in New York on and north of U.S. Highway 20 (Niskayuna or Milton, N.Y., and points in Cattaraugus County, N.Y.)*; (6) between points in New York, on the one hand, and, on the other, points in Illinois, Indiana, Wisconsin, Michigan, Kentucky, Mississippi, and Louisiana (Cattaraugus County, N.Y.)*; (7) between points in Chautauqua, Erie, Niagara, Allegany, Wyoming, Genesee, and Orleans Counties, N.Y., on the one hand, and, on the other, points in New Jersey and Maryland (Cattaraugus County, N.Y.)*; (8) between points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line, thence along New York Highway 14 to Elmira, thence along New York Highway 13 to Cortland, thence along Interstate Highway 81 to the St. Lawrence River, on the one hand, and, on the other, points in North Carolina (Cattaraugus County, N.Y.)*;

(9) between points in North Carolina, Virginia, and South Carolina, on the one hand, and, on the other, points in that part of New York on and north of a line beginning at Buffalo, thence along U.S. Highway 20 to junction New York Highway 145, thence along New York Highway 145 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line (Cattaraugus County, N.Y., and Niskayuna, N.Y.)*; (10) between points in Tennessee and Georgia, on the one hand, and, on the other, points in New York (except Long Island, New York City, and points in Richmond, Bronx, Rockland, Westchester, Putnam, Orange, Dutchess, Ulster, Sullivan, and Delaware Counties) (Cattaraugus County, N.Y., and Niskayuna, N.Y.)*; (11) between points in that part of Tennessee on and west of U.S. Highway 231, on the one hand, and, on the other, Long Island, New York City, and Richmond, Bronx, Rockland, Westchester, Putnam, Orange, Dutchess, Ulster, Sullivan, and Delaware Counties, N.Y. (Cattaraugus County, N.Y.)*; (12) between points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line, thence along New York Highway 14 to junction New York Highway 13, thence along New York Highway 13 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 12, thence along New York Highway 12 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 30, thence along New York Highway 30 to the St. Lawrence River, on the one hand, and, on the other, points in West Virginia (Cattaraugus County, N.Y.)*;

(13) between points in New York (except New York, N.Y., and Nassau and Suffolk Counties, N.Y.), on the one hand, and, on the other, points in Ohio (Cattaraugus County, N.Y.)*; (14) between points in that part of Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points in New York (except Long Island, New York City, and Richmond, Bronx, Westchester, Putnam, Orange, Dutchess, Ulster, Sullivan, Delaware, and Chautauqua Counties, N.Y.) (Cattaraugus County, N.Y.)*; (15) between points in Washington, D.C., on the one hand, and, on the other, points in Chautauqua, Erie, Niagara, Orleans, Monroe, Genesee, Wyoming, Livingston, and Allegany Counties, N.Y., and points in that part of New York on, north, and east of a line beginning at the St. Lawrence River, thence along New York Highway 12 to Utica, thence along Interstate Highway 90 to the New York-Massachusetts State line (including all points in Montgomery, Schenectady, and Albany Counties, N.Y.) (Cattaraugus County, N.Y., or Niskayuna, N.Y.)*; (16) between points in Alabama, on the one hand, and, on the other, points in New York (except Long Island, New York City, Westchester, and Rockland Counties) (Cattaraugus County, N.Y.)*; (17) between points in Delaware, on the one hand, and, on the other, points in that part of New York on and north or east of a line beginning at the St. Lawrence River, thence along New York Highway 12 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Massachusetts-New York State line, and points in Chautauqua, Erie, Niagara, Orleans, Genesee, Wyoming, and Allegany Counties, N.Y. (Cattaraugus County, N.Y., and Niskayuna, N.Y.)*;

(18) between points in Florida, on the one hand, and, on the other, points in New York (except Long Island, New York City, Westchester, and Rockland Counties) (Cattaraugus County, N.Y.)*; (19) between points in Litchfield, Hartford, Tolland, Windham, New London, and Middlesex Counties, Conn., on the one hand, and, on the other, points in Wisconsin, Michigan, Illinois, Indiana, Ohio, Kentucky, Mississippi, Louisiana, points in that part of Tennessee on and west of U.S. Highway 231, points in that part of Alabama on, north, and west of a line beginning at the Tennessee-Alabama State line, thence along U.S. Highway 72 to Scottsboro, Ala., thence along Alabama Highway 79 to Birmingham, Ala., thence along Alabama Highway 5 to junction U.S. Highway 43, thence along U.S. Highway 43 to Mobile, Ala. (Niskayuna, N.Y., and Cattaraugus County, N.Y.)*; (20) between points in New Haven and Fairfield Counties, Conn., on the one hand, and, on the other, points in Illinois, Michigan, Wisconsin, Louisiana, Mississippi, points in Indiana on and west of Indiana Highway 37 and Crawford and Perry Counties, Ind., points in that part of Kentucky on and west of U.S. Highway 431, points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 431 to Nashville, Tenn., thence along U.S. Highway 31 to Columbia, Tenn., thence along U.S. Highway 43 to the Tennessee-Alabama State line (Niskayuna, N.Y., and Cattaraugus County, N.Y.)*; (21) between points in Vermont, on the one hand, and, on the other, points in that part of Virginia, North Carolina, and South Carolina on and west of U.S. Highway 21 (Niskayuna, N.Y., and Cattaraugus County, N.Y.)*;

(22) between points in New Hampshire and Maine, on the one hand, and, on the other, points in that part of North Carolina on and west of U.S. Highway 221, and points in that part of South Carolina on, west, and south of a line beginning at the North Carolina-South Carolina State line, thence along U.S. Highway 221 to Greenwood, thence along U.S. Highway 178 to junction U.S. Highway 321, thence along U.S. Highway 321 to junction U.S. Highway 301, thence along U.S. Highway 301 to the South Carolina-Georgia State line (Niskayuna, N.Y., and Cattaraugus County, N.Y.)*.

(B) *Radioactive material*, new and spent, *radioactive source, special nuclear and by-product materials, radioactive material shipping containers, nuclear reactor component parts and equipment* used in the operation and maintenance of nuclear reactors (except commodities in bulk or in tank vehicles, and commodities which by reason of size or weight require the use of special equipment); (1) between points in that part

V40169 APR 9 75 XUM

of New York on, north, and east of a line beginning at the St. Lawrence River, thence along New York Highway 12 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Massachusetts-New York State line, on the one hand, and, on the other, points in New Jersey (Niskayuna, N.Y.)*; (2) between points in West Virginia, on the one hand, and, on the other, points in that part of New York on and east of a line beginning at the United States-Canada International Boundary line, thence along New York Highway 30 to junction New York Highway 145, thence along New York Highway 145 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line (Niskayuna, N.Y.)*;

(3) between points in that part of New York on, east, and north of a line beginning at the United States-Canada International Boundary line, thence along New York Highway 30 to junction U.S. Highway 20, thence along U.S. Highway 20 to the New York-Massachusetts State line (including all points in Albany and Schenectady Counties), on the one hand, and, on the other, points in Pennsylvania and Maryland (Niskayuna, N.Y.)*; (4) between points in Maine and New Hampshire, on the one hand, and, on the other, points in that part of New York bounded by a line beginning at the St. Lawrence River, thence along New York Highway 12 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 29, thence along New York Highway 29 to the New York-Vermont State line to junction New York Highway 23, thence along New York Highway 23 to Oneonta, N.Y., thence along New York Highway 7 to Binghamton, N.Y., thence along U.S. Highway 11 to the New York-Pennsylvania State line, thence along the New York-Pennsylvania State line to the United States-Canada International Boundary line, thence along the United States-Canada International Boundary line to point of beginning (Niskayuna, N.Y.)*; (5) between points in Rhode Island, on the one hand, and, on the other, points in New York (except points in or south of Greene, Delaware, and Columbia Counties and except Nassau and Suffolk Counties, N.Y.) (Niskayuna, N.Y.)*; (6) between points in Connecticut, on the one hand, and, on the other, points in that part of New York on and north of a line beginning at Buffalo, thence along U.S. Highway 20 to Schenectady, N.Y., thence along New York Highway 50 to junction Interstate Highway 87, thence along Interstate Highway 87 to the United States-Canada International Boundary line (Niskayuna, N.Y.)*;

(7) between points in Massachusetts, on the one hand, and, on the other, points in that part of New York on and west of a line beginning at the Pennsylvania-New York State line, thence along U.S. Highway 11 to Binghamton, N.Y., thence along New York Highway 7 to Schenectady, N.Y., thence along New York Highway 50 to Glen Falls, N.Y., thence along New York Highway 32 to Hudson Falls, N.Y., thence along U.S. Highway 4 to the New York-Vermont State line, and thence along the New York-Vermont State line to the United States-Canada International Boundary line (Niskayuna, N.Y.)*; (8) between points in Vermont, on the one hand, and, on the other, points in that part of New York on and south of a line beginning at the St. Lawrence River, thence along New York Highway 12 to Utica, N.Y., thence along Interstate Highway 90 to the New York-Massachusetts State line (including Schenectady, Saratoga, Suffolk, and Nassau Counties, N.Y.) (Niskayuna, N.Y.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 21170 (Sub-No. E80), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh meats* and *packinghouse products*, restricted to the transportation of such commodities as are dealt in by wholesale, retail, or chain grocery stores, from Omaha and South Omaha, Nebr., to points in Minnesota east of a line beginning at the Minnesota-Iowa State line extending along Minnesota Highway 60 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction Minnesota Highway 91, thence along Minnesota Highway 91 to Minnesota Highway 23, thence along Minnesota Highway 23 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction Minnesota Highway 119, thence along Minnesota Highway 119 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Minnesota Highway 40, thence along Minnesota Highway 40 to the Minnesota-South Dakota State line. The purpose of this filing is to eliminate the gateways of Benton, Boone, Cedar, Carroll, Dallas, Grundy, Guthrie, Hamilton, Hardin, Iowa, Jasper, Johnson, Linn, Marshall, Muscatine, Poweshiek, Story, and Tama Counties, Iowa.

No. MC 21170 (Sub-No. E83), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, such as are dealt in by wholesale, retail, or chain grocery stores; (A) from points in that part of Iowa west of a line beginning at the Iowa-South Dakota State line along unnumbered highway to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 183, thence along Iowa Highway 183 to junction Iowa Highway 37, thence along Iowa Highway 37 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 44, thence along Iowa Highway 44 to junction Iowa Highway 191, thence along Iowa Highway 191 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, (1) to points in that part of Illinois south of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 9, thence along Illinois Highway 9 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, (2) to points in Pennsylvania, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in New York, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, (13) to points in Maine (except points north of Maine Highway 25).

(B) from points in that part of Iowa bounded on the east by a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 59 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 148, thence along Iowa Highway 148 to junction U.S. Highway 34, thence along U.S. Highway 92 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 35, thence along U.S. Highway 35 to the Iowa-Missouri State line, and bounded on the west by a line beginning at the Iowa-South Dakota State line extending along unnumbered highway to junction Iowa Highway 183, thence along Iowa Highway 183 to junction Iowa Highway 37, thence along Iowa Highway 37 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 44, thence along Iowa Highway 44 to junction Iowa Highway 191, thence along Iowa Highway 191 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, (1) to points in Illinois south of a line extending from the Iowa-Illinois State line at Hamilton east on U.S. Highway 136 to junction Illinois Highway 119, thence along Illinois Highway 119 to the Illinois-Indiana State line, (2) to points in Pennsylvania, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in New York, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, (13) to points in Maine (except points north of Maine Highway 25).

(C) from points in that part of Iowa bounded by U.S. Highway 69 on the east, U.S. Highway 30 on the north, by a line from junction U.S. Highway 30 and 59 along U.S. Highway to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 148, thence along Iowa Highway 148 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 35, thence along U.S. Highway 35 to the Iowa-Missouri State line, (1) to points in that part of Illinois south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 36 at Springfield, thence along U.S. Highway 36 to junction Illinois Highway 121 at Decatur, thence along Illinois Highway 121 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction of unnumbered highway at Charleston, thence along unnumbered highway through Westfield and Clarksville to junction U.S. Highway 40, thence along U.S. Highway 40 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania south of a line beginning at the Ohio-Pennsylvania State line extending along U.S. Highway 422 to junction Pennsylvania Highway 108, thence along Pennsylvania Highway 108 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Pennsylvania-New York State line, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in New York, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, and (13) to points in Maine (except points north of Maine Highway 25);

(D) from points in that part of Iowa bounded by U.S. Highway 69 on the west, U.S. Highway 20 on the north, U.S. Highway 63 on the east, and by the Iowa-Missouri State line, on the south, (1) to points in that part of Illinois south of a line beginning at the Illinois-Missouri State line extending along Illinois Highway 177 to junction Illinois Highway 160, thence along Illinois Highway 160 to junction Illinois Highway 15, thence along Illinois Highway 15 to junction Illinois Highway 130, thence along Illinois Highway 130 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania south and east of a line beginning at the Pennsylvania-Maryland State line extending along U.S. Highway 30 to junction U.S. Highway 222, thence along U.S. Highway 222 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-New Jersey State line, (3) to points in the District of Columbia, (4) to points in that part of Maryland east of a line beginning at the Maryland-Pennsylvania State line extending along U.S. Highway 140 to junction Maryland Highway 27, thence along Maryland Highway 27 to junction Maryland Highway 118, thence along Maryland Highway 118 to junction Maryland Highway 112, thence along Maryland Highway 112 to the Maryland-Virginia State line, (5) to points in Delaware, (6) to points in that part of New Jersey south and east of a line beginning at the Pennsylvania-New Jersey State line, extending along New Jersey Highway 57 to junction U.S. Highway 46, thence along U.S. Highway 46 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 202, thence along U.S. Highway 202 to the New York-New Jersey State line,

(7) to points in that part of New York east of a line beginning at the New York-New Jersey State line extending along U.S. Highway 87 to junction U.S. Highway 9–W, thence along U.S. Highway 9–W to junction U.S. Highway 44, thence along U.S. Highway 44 to junction Taconic State Parkway, thence along Taconic State Parkway to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line, and points east of a line beginning at the New York-Vermont State line, thence along New York Highway 67 to junction U.S. Highway 4, thence along U.S. Highway 4 to junction New York Highway 32, thence along New York Highway 32 to junction U.S. Highway 9, thence along U.S. Highway 9 to the United States-Canada International Boundary line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in that part of Massachusetts east and south of a line beginning at the Massachusetts-Vermont State line extending along Massachusetts Highway 112 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 5, thence along U.S. Highway 5 to junction Massachusetts Highway 68, thence along Massachusetts Highway 68 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 7, thence along U.S. Highway 7 to junction Massachusetts Highway 23, thence along Massachusetts Highway 23 to the Massachusetts-New York State line, (11) to points in that part of Vermont north and east of a line beginning at the New York-Vermont State line, extending along Vermont Highway 9 to junction Vermont Highway 100, thence along Vermont Highway 100 to junction Vermont Highway 112, thence along Vermont Highway 112 to the Vermont-Massachusetts State line, (12) to points in New Hampshire, (13) to points in Maine (except points north of Maine Highway 25);

(E) from points in that part of Iowa on or bounded by a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to point of origin, (1) to points in that part of Illinois south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Illinois Highway 16, thence along Illinois Highway 16 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania south of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 70 to junction Pennsylvania Highway 136, thence along Pennsylvania Highway 136 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Pennsylvania Highway 711, thence along Pennsylvania Highway 711 to junction Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction Pennsylvania Highway 164, thence along Pennsylvania Highway 164 to junction Pennsylvania Highway 26, thence along Pennsylvania Highway 26 to junction Pennsylvania Highway 994, thence along Pennsylvania Highway 994 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 35, thence along Pennsylvania Highway 35 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Pennsylvania-New York State line, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in that part of New York east of a line beginning at the United States-Canada International Boundary line extending along U.S. Highway 81 to the New York-Pennsylvania State line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, and (13) to points in Maine (except points north of Maine Highway 25);

(F) from points in that part of Iowa on or bounded by a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 63 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to point of origin, (1) to points in that part of Illi-

nois south of a line beginning at the Illinois-Missouri State line extending along Illinois Highway 96 to junction Illinois Highway 100, thence along Illinois Highway 100 to junction Illinois Highway 140, thence along Illinois Highway 140 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 460, thence along U.S. Highway 460 to the Illinois-Indiana State line, (2) to points in Pennsylvania south of a line extending from the Pennsylvania-New Jersey State line at Morrisville on U.S. Highway 1 to junction Pennsylvania Highway 611, thence along Pennsylvania Highway 611 through Philadelphia to junction Pennsylvania Highway 291, thence along Pennsylvania Highway 291 to the Pennsylvania-Delaware State line at Eddystone, (3) to points in that part of Maryland east of a line beginning at the Maryland-Delaware State line extending along U.S. Highway 95 to junction U.S. Highway 495, thence along U.S. Highway 495 to junction Maryland Highway 210, thence along Maryland Highway 210 to the Maryland-Virginia State line, (4) to points in that part of Delaware south of a line beginning at the Maryland-Delaware State line extending along U.S. Highway 95 to junction U.S. Highway 295, thence along U.S. Highway 295 to the Delaware-New Jersey State line,

(5) to points in that part of New Jersey south of a line beginning at the New York-New Jersey State line extending along U.S. Highway 78 to junction U.S. Highway 1, thence along U.S. 1 to the New Jersey-Pennsylvania State line, (6) to points in that part of New York south and east of a line beginning at the New York-Connecticut State line extending along U.S. Highway 6 to junction New York Highway 22, thence along New York Highway 22 to junction New York Highway 100, thence along New York Highway 100 to junction U.S. Highway 9, thence along U.S. Highway 9 to the New York-New Jersey State line, (7) to points in that part of Connecticut south and east of a line beginning at the Connecticut-New York State line extending along U.S. Highway 84 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Connecticut-Massachusetts State line, (8) to points in Rhode Island, (9) to points in that part of Massachusetts east of a line beginning at the Massachusetts-Connecticut State line extending along U.S. Highway 91 to junction Massachusetts 116, thence along Massachusetts Highway 116 to junction Massachusetts Highway 63, thence along Massachusetts Highway 63 to junction Massachusetts Highway 10, thence along Massachusetts Highway 10 to the Massachusetts-Vermont State line, (10) to points in that part of New Hampshire east of a line beginning at the New Hampshire-Massachusetts State line extending along New Hampshire Highway 10 to junction U.S. Highway 3, thence along U.S. Highway 3 to the United States-Canada International Boundary line, and (11) to points in Maine (except points north of Maine Highway 25). The purpose of this filing is to eliminate the gateways of Carrollton, Macon, Marshall, Moberly, and Milan, Mo.

No. MC 21170 (Sub-No. E180), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furnaces*, from Syracuse, N.Y., to Chicago, Joliet, Peoria, and Rockford, Ill., Fort Wayne, Gary, Hammond, and South Bend, Ind., Cedar Rapids, Davenport, and Des Moines, Iowa, and Madison, Manitowoc, and Sheboygan, Wis. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC 29886 (Sub-No. E22), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New automobiles* and *new trucks*, in driveaway service, from South Bend, Ind., to points in New Mexico, Arizona, and California (those points in Texas on and west of U.S. Highway 83)*; *New automobiles* and *new trucks*, in driveaway service, from Detroit and Warren Township, Macomb County, Mich., to points in Arizona, New Mexico, and California (those points in Texas on and west of U.S. Highway 83 and those points in Colorado on, south, and east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Kansas State line)*; *New trucks*, in secondary movements, in driveaway service, from Detroit and Warren Township, Macomb County, Mich., to those points in King County, Wash. (Colorado and Utah)*; *New automobiles* and *new trucks*, in secondary movements, in driveaway service, from Toledo, Ohio, to points in New Mexico, Arizona, and California (those points in Colorado on, south, and east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Kansas State line, and those points in Texas on and west of U.S. Highway 83)*; *New trucks*, in secondary movements, in driveaway service, from Toledo, Ohio, to those points in King County, Wash. (Colorado, Kansas, and Utah)*; and *New motor vehicles*, except new passenger automobiles, in driveaway service, from Toledo, Ohio, to points in Idaho, Oregon, and Washington (Montana)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 29886 (Sub-No. E24), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New trucks*, in initial movements, in driveaway service, from those points in Macomb County, Mich., south of 14 Mile Road and west of Gratiot Avenue (except Fraser, East Detroit, and Roseville, Mich.), to points in Texas (South Bend, Ind.)*, and those in Arkansas, Colorado, Iowa, Kansas, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oklahoma, South Dakota, Texas, Utah, Wisconsin, Connecticut, Massachusetts, Alabama, Delaware, Florida, Georgia, Louisiana, Mississippi, New Hampshire, South Carolina, Vermont, Virginia, and the District of Columbia (Toledo, Ohio)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 29886 (Sub-No. E25), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction and earth moving machinery and equipment* (except trailers designed to be drawn by a truck tractor), from Newport News, Norfolk, and Portsmouth, Va., and Baltimore, Md., to points in Montana, Washington, Oregon, Idaho, Wyoming, California, Nevada, Utah, Arizona, and Colorado (South Bend, Ind.)*; and *self-propelled construction and earth moving machinery and equipment*, from Newport News, Norfolk, and Portsmouth, Va., and Baltimore, Md., to those points in Oklahoma on and west of a line beginning at the Oklahoma-Missouri State line and extending along Interstate Highway 44 to junction U.S. Highway 277, thence along U.S. Highway 277 to the Oklahoma-Texas State line and those points in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 283 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Texas Highway 208, thence along Texas Highway 208 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line (Benton Harbor, Mich.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 29886 (Sub-No. E26), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Power cranes* from Newport News, Norfolk, Portsmouth, and Hampton, Va., to points in Montana, Wyoming, Colorado, New Mexico, Idaho,

Vermont, Arizona, Washington, Oregon, Nevada, California, those in Oklahoma on and west of a line beginning at the Oklahoma-Missouri State line and extending along Interstate Highway 44 to junction U.S. Highway 277, thence along U.S. Highway 277 to the Oklahoma-Texas State line, and those in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 283 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Texas Highway 208, thence along Texas Highway 208 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Benton Harbor, Mich.

No. MC 29886 (Sub-No. E27), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-Propelled street sweepers* weighing less than 15,000 pounds, each (except those which because of size or weight require the use of special equipment or special handling), from Indianapolis, Ind., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of South Bend, Ind.

No. MC 29886 (Sub-No. E28), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles* (except trailers), each weighing 15,000 pounds or more, in truckaway service, (1) from points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, and New York to points in Texas, Arkansas, New Mexico, Wyoming, Montana, and those in Louisiana in, north, and west of Concordia, Avoyelles, St. Landry, Lafayette, and Vermillion Parishes, La. (those points in New York on and west of a line beginnig at Rochester, N.Y., and extending along U.S. Highway 15 to junction New York Highway 245, thence along New York Highway 245 to junction U.S. Highway 39, thence along U.S. Highway 39 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line, and South Bend, Ind.)*; (2) be from those points in Ohio on and north of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30N, thence along U.S. Highway 30N to the Ohio-West Virginia State line to points in Arkansas, Texas, New Mexico, Wyoming, and Montana (South Bend, Ind.)*; (3) from points in Wisconsin to points in Alabama, Georgia, North Carolina, South Carolina, Florida, and those in Tennessee in and east of Sumner, Wilson, Rutherford, Williamson, Maury, and Giles Counties (those points in Michigan on, south, and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, thence along Business Interstate Highway 96 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line, and South Bend, Ind.)*; and (4) from points in Iowa to points in Delaware, Maryland, West Virginia, Virginia, North Carolina, South Carolina, the District of Columbia, and those points in Florida on and east of U.S. Highway 319 (same as in (3) above). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 29886 (Sub-No. E29), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self propelled motor vehicles* (except trailers), each weighing 15,000 pounds or more, in truckaway service; (1) from points in Iowa to those points in Georgia on and east of a line beginning at the Georgia-North Carolina State line and extending along Georgia Highway 17 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 129, thence along U.S. Highway 129 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 319, thence along U.S. Highway 319 to the Florida-Georgia State line; and (2) from points in New Jersey to points in Arkansas, Texas, New Mexico, Wyoming, Montana. The purpose of this filing is to eliminate the gateways of those points in that part of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, thence along Business Interstate Highway 96 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line, and South Bend, Ind.

No. MC 29886 (Sub-No. E30), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers, cargo containers, cargo container bodies, cargo container boxes*, and *truck and trailer bodies*, which because of size or weight require the use of special equipment or special handling, (1) from points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York to points in Wisconsin, Iowa, Missouri, Arkansas, Texas, Oklahoma, New Mexico, Colorado, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, Montana, Wyoming, Idaho, Utah, Arizona, California, Nevada, Oregon, and Washington (Michigan City, Ind., and those points in Michigan on, south, and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, thence along Business Interstate Highway 96 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line)*; (3) from those points in the Lower Peninsula of Michigan to points in Wisconsin, Iowa, Missouri, Arkansas, Texas, Oklahoma, New Mexico, Colorado, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, Montana, Wyoming, Idaho, Utah, Arizona, California, Nevada, Oregon, Washington, Mississippi, Louisiana, and those in Alabama in and west of Lauderdale, Lawrence, Winston, Walker, Jefferson, Shelby, Coosa, Elmore, Montgomery, Pike, Dale, and Houston Counties, Ala. (same as in (2) above)*; (4) from points in Illinois to points in Maine, Vermont, New Hampshire, Massachusetts, New York, Connecticut, Rhode Island, and those in the Lower Peninsula of Michigan (Michigan City, Ind.)*; (5) from those points in Illinois on and north of U.S. Highway 36 to points in New Jersey, Maryland (except Garrett and Allegheny Counties), Delaware, Pennsylvania (except Beaver, Allegheny, Westmoreland, Washington, Greene, Fayette, and Somerset Counties), and the District of Columbia (Michigan City, Ind.).*

(6) From those points in Indiana on and east of a line beginning at Lake Michigan and extending along U.S. Highway 421 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Ohio State line, and those in Ohio on and north of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 30 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to the

Ohio-Pennsylvania State line to points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Montana, Wyoming, Colorado, New Mexico, Idaho, Utah, Arizona, Washington, Oregon, Nevada, and California (Michigan City, Ind.)*; (7) from points in Wisconsin to points in Ohio, West Virginia, Virginia, Pennsylvania, Maryland, Delaware, New Jersey, New York, Vermont, New Hampshire, Maine, Connecticut, Massachusetts, Rhode Island, those in Indiana on and north of U.S. Highway 30, and the District of Columbia (same as in (2) above)*; (8) from those points in Iowa on and north of U.S. Highway 20 to points in Ohio, West Virginia, Maryland, Delaware, New Jersey, Pennsylvania, New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, Rhode Island, those in Indiana on and north of U.S. Highway 30, and the District of Columbia (same as in (2) above)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 29886 (Sub-No. E49), filed May 31, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 W. Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road construction and earth moving machines and equipment* (except trailors designed to be drawn by a truck tractor), which because of size or weight require the use of special equipment or special handling, and *self-propelled road construction and earth moving machines and equipment*, each weighing 15,000 pounds or more, from those points in the Lower Peninsula of Michigan to points in Nebraska, Colorado, Wyoming, Idaho, Oregon, and Washington. The purpose of this filing is to eliminate the gateways of those points in that part of Michigan on, south, and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, thence along Business Interstate Highway 96 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line, and South Bend, Ind.

No. MC 44473 (Sub-No. E10), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., Sheboygan, Wis. Applicant's representative: William C. Dineen, 412 Empire Bldg., Milwaukee, Wis. 53203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan, to points in that part of Illinois bounded by a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to junction Illinois Highway 2, thence along Illinois Highway 2 to junction Illinois Highway 26, thence along Illinois Highway 26 to junction U.S. Highway I–80, thence along U.S. Highway I–80 to junction Illinois Highway 26, thence along Illinois Highway 26 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 89, thence along Illinois Highway 89 to junction Illinois Highway 117, thence along Illinois Highway 117 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 3, thence along Illinois Highway 3 to the Illinois-Kentucky State line.

(2) *New institutional, new household, and new office fixtures and equipment*, uncrated, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan, to points in that part of Illinois bounded by a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to junction Illinois Highway 2, thence along Illinois Highway 2 to junction Illinois Highway 26, thence along Illinois Highway 26 to junction U.S. Highway I–80, thence along U.S. Highway I–80 to junction Illinois Highway 26, thence along Illinois Highway 26 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 89, thence along Illinois Highway 89 to junction Illinois Highway 117, thence along Illinois Highway 117 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 3, thence along Illinois Highway 3 to the Illinois-Kentucky State line. The purpose of this filing is to eliminate the gateway of Sheboygan Falls, Wis.

No. MC 51146 (Sub-No. E3), filed April 29, 1974. Applicant: SCHNEIDER TRANSPORT, P.O. Box 2298, Green Bay, Wis. 54306. Applicant's representative: D. F. Martin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Paper* and *paper products* (except commodities in bulk), from the facilities of Nekoosa Edwards Paper Company, Inc., at or near Potsdam, N.Y., to points in Montana, Wyoming, Colorado, Oklahoma, Arkansas, Mississippi, Louisiana, Texas, New Mexico, Arizona, California, Nevada, Utah, Idaho, Oregon, and Washington, and (b) *Materials* and *supplies* (except commodities in bulk), used in the manufacture and distribution of paper and paper products, from points in the above-described destination territory to the facilities of Nekoosa Edwards Paper Company, Inc., at or near Potsdam, N.Y. (Muncie, Ind.)*; (2) *Paper* and *paper products*, from the facilities of Nekoosa Edwards Paper Co., Inc., at or near Potsdam, N.Y., to points in Alabama, and to Memphis, Tenn. (South Bend, Ind.)*; (3) (a) *Paper* and *paper products* (except in bulk), from the facilities of Nekoosa Edwards Paper Co., Inc., at or near Potsdam, N.Y., to points in Tennessee (except Memphis, Tenn., and points in its commercial zone as defined by the Commission), and points in West Virginia (except points east of a line beginning at the Pennsylvania-West Virginia State line and extending along U.S. Highway 119 to the junction of U.S. Highway 250, thence along U.S. Highway 250 to the West Virginia-Virginia State line), and (b) *Materials* and *supplies* (except cardboard cartons and commodities in bulk), used in the manufacture and distribution of paper and paper products, from points in the above-described destination territory to the facilities of Nekoosa Edwards Paper Co., Inc., at or near Potsdam, N.Y. (East Liverpool, Ohio).*

(4) *Metal containers* and *metal container ends*, from Chicago, Ill., to points in South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas (except points north of U.S. Highway 66), and Oklahoma (except points north of a line beginning at the Arkansas-Oklahoma State line and extending along Oklahoma Highway 3 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Texas State line). Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origin named above. (Madisonville, Ky.)*; (5) *Metal containers* (except cargo containers and refuse containers, and except those which because of size or weight, require the use of special equipment), and *container ends*, from the facilities of National Can Corporation at Chicago, Ill., to points in Maine, New Hampshire, and Vermont (facilities of National Can Corporation at Hamburg, Pa.).*

(6) *Metal containers* and *metal container ends*, and, when transported at the same time and in the same vehicle with metal containers and metal container ends, *accessories* used in connection with the distribution of metal containers and metal container ends, from Marion, Ohio, to points in North Dakota, South Dakota, Nebraska, Kansas, Missouri (except points east of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 54 to the junction of Missouri Highway 17, thence along Missouri Highway 17 to the junction of U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Missouri-Arkansas State line), Arkansas (except points east of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 63 to junction U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line), and the Upper Peninsula of Michigan (except those points east of a line beginning at Lake Superior at Marquette, Mich., and extending along U.S. Highway 41 to junction Michigan Highway 35, thence along Michigan Highway 35 to the Michigan-Wisconsin State line). Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origin named above (Chicago, Ill.).*

(7) *Metal containers* and *metal container ends*, and when transported at the same time and in the same vehicle with metal containers and metal container ends, *accessories* used in connection with the distribution of metal containers and metal container ends, from Hamilton, Ohio, to points in North Dakota, South Dakota, Nebraska (except points east of a line beginning at the Iowa-Nebraska State line and extending along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points east of a line beginning at the Nebraska-Kansas State line and extending along Kansas Highway 14 to junction Kansas St. Highway 8, thence along Kansas Highway 8 to the Kansas-Oklahoma State line), and the Upper Peninsula of Michigan (except points east of a line beginning at Lake Superior at Marquette, Mich., and extending along U.S. Highway 41 to junction Michigan St. Highway 35, thence along Michigan St. Highway 35 to the Michigan-Wisconsin State line). Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origins named above (Chicago, Ill.)*; (8) *Metal containers* and *metal container ends*, and when transported at the same time and in the same vehicle with metal containers and metal container ends, *accessories* used in connection with the distribution of metal containers and metal container ends, from Cleveland, Ohio, to points in North Dakota, South Dakota, Nebraska, Kansas, Missouri, Arkansas, Kentucky, (except points east of U.S. Highway 45), and Tennessee (except points east of U.S. Highway 51). Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origins named above (Chicago, Ill.).*

(9) *Metal containers* (except containers which because of size or weight require the use of special equipment), and *metal container ends*, and when transported at the same time and in the same vehicle with metal containers and metal container ends, *accessories* used in connection with the distribution of metal containers and metal container ends, from Green Bay, Wis., to points in Arkansas, Oklahoma, Kansas, and Nebraska (except points north and east of a line beginning at the Wyoming-Nebraska State line and extending along Interstate Highway 80 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line). Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origin named above (Kankakee, Ill.); (10) *Metal containers* and *metal container ends*, from Green Bay, Wis., to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Louisiana, and Texas (except points north of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 70 to junction Texas Highway 283, thence along Texas Highway 283 to the Texas-Oklahoma State line. Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origins named above (Madisonville, Ky.)*; (11) *Metal containers* and *metal container ends*, from Rockford, Ill., to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, and Mississippi. Restriction: The operations authorized herein are restricted to traffic originating at plant and warehouse sites of the National Can Corporation at the origins named above (Madisonville, Ky.).*

(12) *Metal containers* (except containers which because of size or weight require the use of special equipment), *metal container ends*, and *accessories* for metal containers and metal container ends when moving therewith, from Livonia, Mich., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Arkansas (Kankakee, Ill.)*; (13) *Metal containers* and *metal container ends*, from Livonia, Mich., to points in Texas, Louisiana, Mississippi, Alabama, Florida, Tennessee (except points east of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 231 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Tennessee-Georgia State line), and Georgia (except points east of a line beginning at the Tennessee-Georgia State line and extending along U.S. Highway 41 to junction U.S. Highway 341, thence along U.S. Highway 341 to the Atlantic Ocean and Brunswick, Ga.) (Madisonville, Ky.)*; (14) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), *container ends*, and *accessories*, and (b) *materials* and *supplies* used in connection with the manufacture and distribution of metal containers and container ends when moving with metal containers and container ends, from the plant and warehouse sites of Crown Cork and Seal Company, Inc., and National Can Corporation at Baltimore, Md., and points in its commercial zone as defined by the Commission, to points in North Dakota, South Dakota, Nebraska, Iowa, Kansas, Oklahoma, and Arkansas. Restriction: The operations authorized herein is restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Kankakee, Ill.).*

(15) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), *container ends*, and *accessories*, and (b) *materials* and *supplies* used in connection with the manufacture and distribution of metal containers and container ends when moving with metal containers and container ends, from the plant and warehouse sites of Crown Cork & Seal Company, Inc., at North Bergen, N.J., and Philadelphia, Pa. and points in their commercial zone as defined by the Commission, to points in North Dakota, South Dakota, Nebraska, Iowa, Kansas, Oklahoma, and Arkansas. Restriction: The operations authorized herein is restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Kankakee, Ill.)*; (16) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), *container ends*, and *accessories*, and (b) *materials* and *supplies* used in connection with the manufacture and distribution of metal containers and container ends when moving with metal containers and container ends, from the plant and warehouse sites of Crown Cork & Seal Co., Inc., at Salisbury, Md., and points in its commercial zone as defined by the Commission, to points in North Dakota, South Dakota, Iowa, Nebraska, Kansas, Oklahoma, and Arkansas (except points east of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 67 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line. Restriction: The operations authorized herein is restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Kankakee, Ill.).*

(17) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), *container ends*, and *accessories*; and (b) *materials* and *supplies* used in connection with the manufacture and distribution of metal containers and container ends when moving with metal containers and container ends, from the plant and warehouse sites of Crown Cork & Seal Co., Inc., at Winchester, Va., and points in its commercial zone as defined by the Commission, to points in North Dakota, South Dakota, Nebraska, Iowa, Kansas, Oklahoma, and Arkansas (except points east of Arkansas Highway 7). Restriction: The operations authorized herein are restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Kankakee, Ill.)*; (18) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), *container ends*, and *accessories*, and (b) *materials* and *supplies* used in connection with the manufacture and distribution of metal containers and container ends

V40169 APR 9 75 XUM

when moving with metal containers and container ends, from the plant site of Crown Cork & Seal Co., Inc., at St. Louis, Mo., to points in North Dakota, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia (except points west of U.S. Highway 250), Virginia (except points west of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 250 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line), and South Dakota (except points south of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 12 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line (Kankakee, Ill.).*

(19) *Metal containers* (except containers which because of size or weight require the use of special equipment), and *metal container ends* and *accessories* therefor, and *materials* and *supplies* used in the manufacture and distribution of metal containers and metal container ends when moving with metal containers and metal container ends, from the plant sites and storage facilities of the National Can Corporation at Danbury, Conn., and Edison, N.J., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Arkansas. Restriction: The authority granted herein is restricted to the transportation of shipments originating at the above-described facilities (Kankakee, Ill.)*; (20) *Metal containers* (except containers which because of size or weight require the use of special equipment), and *metal container ends*, and *accessories* thereof, and *materials* and *supplies* used in the manufacture and distribution of metal containers and metal container ends when moving with metal containers and metal container ends, from the plant sites and storage facilities of the National Can Corporation at Cambridge, Md., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Arkansas (except points east of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 67 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line. Restriction: The authority granted herein is restricted to the transportation of shipments originating at the above-described facilities (Kankakee, Ill.).*

(21) *Metal containers* (except containers which because of size or weight require the use of special equipment), and *metal container ends* and *accessories* therefor, and *materials* and *supplies* used in the manufacture and distribution of metal containers and metal container ends when moving with metal containers and metal container ends, from the plant sites and storage facilities of the National Can Corporation at Fairless and Hanover, Pa., and within that part of the New York, N.Y., commercial zone as defined in the fifth supplemental report in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted under the exemption provided by section 203(b)(8) of the Interstate Commerce Act (the exempt zone), to North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Arkansas. Restriction: The authority granted herein is restricted to the transportation of shipments originating at the above-described facilities (Kankakee, Ill.)*; (22) (a) *Metal containers*, and (b) *metal container ends* and *metal container accessories* when moving with metal containers, from the plant and warehouse sites of National Can Corporation at points in the Minneapolis-St. Paul, Minn., commercial zone defined by the Commission, to points in North Carolina. Restriction: The authority granted herein is restricted to traffic originating at the named plant and warehouse sites (Chicago, Ill.)*; (23) (a) *Metal containers* (except containers which because of size or weight require the use of special equipment), and (b) *metal container ends* and *metal container accessories* when moving with metal containers, from the plant and warehouse sites of National Can Corporation at points in the Minneapolis-St. Paul, Minn., commercial zone as defined by the Commission, to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, Kentucky, and Tennessee. Restriction: The authority granted herein is restricted to traffic originating at the named plant and warehouse sites (Kankakee, Ill.).*

(24) *Metal containers* (except containers which, because of size or weight, require the use of special equipment), and *metal container ends* when moving with metal containers, from the plant and warehouse sites of National Can Corporation at points in the Minneapolis-St. Paul, Minn., commercial zone as defined by the Commission, to points in Mississippi, Alabama, Georgia, Florida, and South Carolina. Restriction: The authority granted herein is restricted to traffic originating at the named plant and warehouse sites (Kankakee, Ill., and Madisonville, Ky.)*; (25) *Metal containers* and *container ends*, from Birmingham, Ala., to points in North Dakota, South Dakota, Nebraska, Kansas, Montana, Wyoming, Colorado, Arizona, Utah, Idaho, Nevada, Washington, Oregon, California, Oklahoma (except points east of Oklahoma Highway 136), and New Mexico (except points south of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 54 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Arizona State line) (Madisonville, Ky.)*; (26) *Metal containers* and *container ends*, from Birmingham, Ala., to points in Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine (Madisonville, Ky.).*

(27) *Metal containers* and *container ends*, from Bartow, Fla., to points in North Dakota, South Dakota, Nebraska, Kansas, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Arkansas (except points south of U.S. Highway 62), Oklahoma (except points south of a line beginning at the Arkansas-Oklahoma State line and extending along Interstate Highway 40 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Texas State line), New Mexico (except points south and east of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 70 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line), and points in that part of Texas in and north of Deaf-smith, Randall, Armstrong, Douley, and Collingsworth Counties, Tex. (Madisonville, Ky.)*; (28) *Metal containers* and *container ends*, from Orlando, Fla., to points in North Dakota, South Dakota, Nebraska, Kansas, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Arkansas (except points south of U.S. Highway 62), Texas (except points south of U. S. Highway 66), Oklahoma (except points south and east of a line beginning at the Arkansas-Oklahoma State line and extending along Interstate Highway 40 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Oklahoma-Texas State line), and New Mexico (except those points south and east of a line beginning at the Texas-New Mexico and extending along U.S. Highway 70 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line) (Madisonville, Ky.).*

(29) *Metal containers* and *container ends*, from Spartansburg, S.C., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, New Mexico, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Texas (except points east of Interstate Highway 35), and Arkansas (except points east of a line beginning at the Missouri-Arkansas State line and extending along Arkansas Highway 7 to the junction of U.S. Highway 67, thence along U.S. Highway 67 to the Arkansas-Texas State line) (Madisonville, Ky.)*; (30) *Metal containers* and *container ends*, from the plant sites and warehouse facilities of Crown Cork & Seal Co., Inc., at Atlanta, Ga., to points in North Dakota, South Dakota, Nebraska, Kansas, New Mexico, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Oklahoma (except points south of U.S. Highway 62), and Texas (except points south of U.S. Highway 62) (Madisonville, Ky.)*; (31) *Metal containers, container ends*, and when transported at the same time and in the same vehicle with metal containers, materials and supplies used in the distribution of metal containers, from the facilities of R. J. R. Foods, Inc., at Plymouth, Ind., to points in North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Arkansas, Wisconsin (except Kenosha, Milwaukee, and Racine), Tennessee (except points east of Tennessee Highway 69), Kentucky (except points east of U.S. Highway 45), and the Upper Peninsula of Michigan (except points east of a line beginning at Lake Superior at Marquette, Mich., and extending along U.S. Highway 41 to the Wisconsin-Michigan State line). Restriction: The operations authorized herein are restricted to the transportation of traffic originating at the above-named facilities (Chicago, Ill.).*

(32) *Metal containers, container ends*, and when transported at the same time and in the same vehicle with metal containers, *materials* and *supplies* used in the distribution of metal containers, from the facilities of R. J. R. Foods, Inc., at Plymouth, Ind., to points in Connecticut, Massachusetts, Rhode Island (except those points west of a line beginning at Ogdensburg, N.Y., and extending along New York Highway 12 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line), New Jersey (except points south of a line beginning at the Pennsylvania-New Jersey State line and extending along Interstate Highway 78 to junction Interstate Highway 278, thence along Interstate Highway 278 to the New Jersey-New York State line), and North Carolina (except points west of Interstate Highway 95). Restriction: The operations authorized herein are restricted to the transportation of traffic originating at the above-named facilities (Chicago, Ill)*; (33) *Canned pickles, sauerkraut*, and *relish*, from Oconto, Wis., to points in West Virginia (Hoopeston, Ill.)*; (34) *Canned pickles, sauerkraut*, and *relish*, from Oconto, Wis., to points in Tennessee (Fowler, Ind.)*; (35) *Canned pickles, sauerkraut*, and *relish*, from Oconto, Wis., to points in Alabama (Milford, Ill.)*; (36) *Canned goods*, from Fowler, Ind., to points in Washington, Oregon, California, Nevada, Idaho, Montana, North Dakota, South Dakota (except points south of U.S. Highway 16), Wyoming (except points south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Idaho State line), and Utah (except points east of U.S. Highway 91) (Green Bay, Wis.)*; (37) *Canned goods*, from Fowler, Ind., to points in Alabama (Milford, Ill.).*

(38) *Canned vegetables*, from Fowler, Ind., to points in Michigan (except those points south and west of a line beginning at Muskegon, Mich., and extending along Interstate Highway 96 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line (Hoopeston, Ill.)*; (39) *Canned goods*, from Klondike, Ind., to points in Washington, Oregon, Idaho, Montana, North Dakota, South Dakota (except points south of U.S. Highway 16), Wyoming (except points south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Idaho State line), Utah (except points east of U.S. Highway 91), Nevada (except points east of U.S. Highway 91), and California (except points south and east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line) (Green Bay, Wis.)*; (40) *Canned goods*, from Klondike, Ind., to points in Alabama (Milford, Ill.)*; (41) *Canned goods*, from Klondike, Ind., to points in Pennsylvania and West Virginia (except points west of a line beginning at the Ohio River at Sisterville, Va., and extending along Virginia Highway 18 to junction U.S. Highway 119, thence along U.S. Highway 119 to the West Virginia-Kentucky State line) (Hoopeston, Ill.)*;

(42) *Canned goods*, from Klondike, Ind., to points in Michigan (except points south and west of a line beginning at Traverse City, Mich., and extending along Michigan Highway 37 to junction Michigan Highway 115, thence along Michigan Highway 115 to junction Michigan Highway 55, thence along Michigan Highway 55 to Lake Huron at Tawas City, Mich.) (Hoopeston, Ill.)*; (43) *Canned goods*, from Trafalgar, Ind., to points in North Dakota, Montana, Idaho, Washington, Oregon, South Dakota (except points south of U.S. Highway 16), Wyoming (except points south of U.S. Highway 16), Utah (except points south and east of a line beginning at the Idaho-Utah State line and extending along U.S. Highway 91 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Nevada State line), Nevada (except points south of U.S. Highway 91), and California (except points east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Pacific Ocean) (Green Bay, Wis.)*; (44) *Canned vegetables*, from Trafalgar, Ind., to points in Michigan (except points south of a line beginning at Mackinaw City and extending along Interstate Highway 75 to junction Michigan Highway 72, thence along Michigan Highway 72 to Lake Michigan at Empire, Mich.) (Hoopeston, Ill.).*

(45) *Canned goods*, from Milford, Ill., to points in North Dakota, Montana, Idaho, Washington, Oregon, South Dakota (except points south and east of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 14 to the Minnesota-South Dakota State line and extending along U.S. Highway 14 to the junction of U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-Nebraska State line), Wyoming (except points south of U.S. Highway 26), Utah (except points east of a line beginning at the Wyoming-Utah State line and extending along Interstate Highway 80 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Utah-Arizona State line), Nevada (except points south of Interstate Highway 15), and California (except points south and east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line) (Fowler, Ind., and Green Bay, Wis.)*; (46) *Canned vegetables*, from Milford, Ill., to points in Michigan (except points south and west of a line beginning at Lake Michigan and extending along U.S. Highway 10 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line) (Fowler, Ind., and Hoopeston, Ill.)*; (47) *Canned goods*, from Milford, Ill., to points in Pennsylvania, West Virginia, Tennessee, and Wisconsin (Fowler, Ind.)*; (48) *Canned vinegar*, from Manitowoc, Wis., to points in West Virginia and Pennsylvania (Hoopeston, Ill.).*

(49) *Canned vinegar*, from Manitowoc, Wis., to points in Alabama, Kentucky, Missouri (except points north of U.S. Highway 36), Indiana (except points north of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 24 to junction Indiana Highway 124, thence along Indiana Highway 124 to the Indiana-Ohio State line), and Ohio (except points north and west of a line beginning at the Indiana-Ohio State line and extending along Ohio Highway 81 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction Ohio Highway 3, thence along Ohio Highway 3 to Lake Erie at Cleveland, Ohio) (Milford, Ill.)*; (50) *Canned vinegar*, from Manitowoc, Wis., to points in Tennessee (Hoopeston, Ill., and Fowler, Ind.)*; (51) *Canned goods*, from Ft. Atkinson, Wis., to points in Pennsylvania and West Virginia (Hoopeston, Ill.)*; (52) *Canned vegetables*, from Ft. Atkinson, Wis., to points in Kentucky and Missouri (except points north of a line beginning at the Mississippi River at Claryville, Mo., and extending along Missouri Highway 51 to junction Missouri Highway 34, thence along Missouri Highway 34 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Missouri-Kansas State line) (Hoopeston, Ill.)*; (53) *Canned goods*, from Ft. Atkinson, Wis., to points in Tennessee (Fowler, Ind.)*; (54) *Canned goods*, from Ft. Atkinson, Wis., to points in Alabama (Fowler, Ind., and Milford, Ill.)*; (55) *Canned goods*, from points in Shawano, Waupaca and Brown Counties, Wis., to points in Pennsylvania and West Virginia (Hoopeston, Ill.)*; (56) *Canned goods*, from points in Outagamie, Oconto, and Marinette Counties, Wis., to points in Pennsylvania and West Virginia (Hoopeston, Ill.)*; (57) *Canned goods* from points in Shawano, Waupaca, and Brown Counties, Wis., to points in Tennessee (Fowler, Ind., and Hoopeston, Ill.).*

(58) *Canned goods*, from points in Outagamie, Oconto, and Marinette Counties, Wis., to points in Tennessee (Hoopeston, Ill., and Fowler, Ind.)*; (59) *Canned goods*, from points in Oconto and Marinette Counties, Wis., to points in Alabama, Kentucky, Ohio (except points north and west of a line be-

ginning at the Indiana-Ohio State line and extending along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction Ohio Highway 4, thence along Ohio Highway 4 to Lake Erie at Sandusky, Ohio), Indiana (except points north of a line beginning at the Illinois-Indiana State line and extending along Indiana Highway 18 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line), and Missouri (except points north of U.S. Highway 36) (Milford, Ill.)*; (60) *Canned goods*, from points in Waupaca and Outagamie Counties, Wis., to points in Alabama, Kentucky, Ohio (except points north and west of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction Ohio Highway 4, thence along Ohio Highway 4 to Lake Erie at Sandusky, Ohio), Indiana (except points north of a line beginning at the Illinois-Indiana State line and extending along Indiana Highway 18 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line), and Missouri (except points north of U.S. Highway 54) (Milford, Ill.).*

(61) *Canned goods*, from points in Shawano and Brown Counties, Wis., to points in Alabama, Kentucky, Indiana (except points north of a line beginning at the Illinois-Indiana State line and extending along Indiana Highway 18 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line), Missouri (except points north of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 36 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Kansas State line), and Ohio (except those points north and west of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to the junction of Ohio Highway 12, thence along Ohio Highway 12 to junction Ohio Highway 53, thence along Ohio Highway 53 to junction U.S. Highway 6, thence along U.S. Highway 6 to Lake Erie at Sundusky, Ohio) (Milford, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 5146 (Sub-No. E17), filed January 30, 1975. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2296, Green Bay, Wis. 54306. Applicant's representative: Neil A. DuJardin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic products* (except commodities in bulk), from the plant and warehouse sites of International Paper Co., at Litchfield, Ill., to points in California, restricted to transportation of traffic originating at the plant and warehouse sites of International Paper Co. (Clearfield, Utah)*; (2)(a) *Such plastic bags, liners*, and *films*, as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products (except commodities in bulk), from Sibley, Iowa, to points in California, Nevada, Utah (except points east of U.S. Highway 91), Arizona (except points east of a line beginning at the Arizona-Nevada State line, thence along U.S. Highway 93 to Phoenix, thence along U.S. Highway 80 to junction Arizona Highway 85, thence along Arizona Highway 85 to the United States-Mexico International Boundary line), Idaho (except points north and east of a line beginning at the Oregon-Idaho State line, thence along U.S. Highway 30 to junction U.S. Highway 30N, thence along U.S. Highway 30N to Pocatello, Idaho, thence along U.S. Highway 91 to the Idaho-Utah State line), Oregon (except points west and north of a line beginning at the Washington-Oregon State line, thence along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to the Oregon-Idaho State line), and Washington (except points east and north of a line beginning at the United States-Canada International Boundary line, thence along Interstate Highway 5 to junction Washington Highway 410, thence along Washington Highway 410 to junction U.S. Highway 12, thence along U.S. Highway 12 to Walla Walla, thence along Washington Highway 11 to the Washington-Oregon State line), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment), used in the manufacture and distribution of the commodities described in (a) above, from the destination territory described above to Sibley, Iowa (Sterling, Colo., and Clearfield, Utah)*;

(3) *Expanded plastic articles* (except commodities in bulk), from points in Kern County, Calif., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Kentucky, Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa, Minnesota, North Dakota, South Dakota, Nebraska, Kansas (except points south of a line beginning at the Colorado-Kansas State line, thence along Kansas Highway 96 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Kansas Highway 196, thence along Kansas Highway 196 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Missouri State line), Missouri (except points south of a line beginning at the Oklahoma-Missouri State line, thence along Interstate Highway 44 to Springfield, Mo., thence along U.S. Highway 60 to Cabool, thence along U.S. Highway 63 to the Missouri-Arkansas State line), Tennessee (except points southwest of a line beginning at the Missouri-Tennessee State line, thence along Tennessee Highway 20 to Jackson, Tenn., thence along U.S. Highway 45 to the Mississippi-Tennessee State line), Alabama (except points south and west of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 72 to junction U.S. Highway Alternate 72, thence along U.S. Highway Alternate 72 to junction Interstate Highway 65, thence along Interstate Highway 65 to Montgomery, Ala., thence along U.S. Highway 231 to the Alabama-Florida State line), and Florida (except points west of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 27 to Tallahassee, Fla., thence along Florida Highway 363 to its termination on the Apalachee Bay), and the District of Columbia (Clearfield, Utah)*;

(4)(a) *Such plastic products* as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products (except commodities in bulk), from points in Washington to points in Kansas, Oklahoma, Texas, Louisiana, Arkansas, Missouri, Illinois, Indiana, Kentucky, Tennessee, Mississippi, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Ohio, Pennsylvania, Maryland, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine, Nebraska (except points north of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Iowa (except points north of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 30 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to Dubuque, Iowa), and those points in the Lower Peninsula of Michigan (except points north of a line beginning at Ludington, thence along U.S. Highway 10 to Bay City), and the District of Columbia, and (b) *Materials* and *supplies* used in manufacture and distribution of commodities described in (a) above (except commodities in bulk, and those which because of size or weight require special equipment), from the destination territory described in (a) above to points in Washington (Clearfield, Utah)*;

(5)(a) *Such plastic products* as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products (except commodities in bulk), from points in Washington (except points east of U.S. Highway 97), points in Nebraska (except points east and north of a line beginning at the South Dakota-Nebraska State line, thence along Nebraska Highway 2 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction Nebraska Highway 7, thence along Nebraska Highway 7 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Nebraska-Iowa State line), Iowa (except points north of a line beginning at Sioux City, Iowa, thence along U.S. Highway 20 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 9, thence along Iowa Highway 9 to Lansing, Iowa), Wisconsin (except points north of a line beginning at the Mississippi River, thence along Wisconsin Highway 171 to junction U.S. Highway 14, thence along U.S. Highway 14 to Madison, thence along U.S. Highway 151 to Beaver Dam, thence along Wisconsin Highway 33 to Horicon, thence along Wisconsin Highway 28 to Sheboygan), and points in the Lower Peninsula of Michigan (except points east and north of a line beginning at Traverse City, thence along Michigan Highway 37 to junction Michigan Highway 42, thence along Michigan Highway 42 to junction Michigan Highway 55, thence along Michigan Highway 55 to Tawas City), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah)*;

(6)(a) *Such plastic products* (except commodities in bulk) as are manufactured and distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in Washington (except points east of Interstate Highway 5), to points in Nebraska, Iowa, Michigan (except points west of a line beginning at the Wisconsin-Michigan State line, thence along Michigan Highway 95 to junction U.S. Highway 41, thence along U.S. Highway 41 to Marquette), Wisconsin (except points north of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 12 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction U.S. Highway 8, thence along U.S. Highway 8 to the Michigan-Wisconsin State line), Minnesota (except points north of a line beginning at the South Dakota-Minnesota State line, thence along Minnesota Highway 19 to junction Minnesota Highway 5, thence along Minnesota Highway 5 to junction U.S. Highway 212, thence along U.S. Highway 212 to Minneapolis, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line), and South Dakota (except points north of a line beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 16 to junction South Dakota Highway 73, thence along South Dakota Highway 73 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Iowa-South Dakota State line), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above, to the origin territory described in (a) above (Clearfield, Utah)*;

(7)(a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of, cellulose materials and products, and paper products, from points in Oregon to points in Texas, Oklahoma, Nebraska, Kansas, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Tennessee, Kentucky, Illinois, Indiana, Ohio, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Iowa (except points north and west of a line beginning at the South Dakota-Iowa State line, thence along Iowa Highway 3 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Minnesota State line), Wisconsin (except points north of a line beginning at LaCrosse, thence along U.S. Highway 16 to Sparta, thence along Wisconsin Highway 21 to Oshkosh, thence along U.S. Highway 41 to Green Bay), the Lower Peninsula of Michigan (except points north of Michigan Highway 72), and the District of Columbia, and (b) *Materials and supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above to Oregon (Clearfield, Utah)*; (8)(a) *Such plastic products* as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products (except commodities in bulk), from points in Oregon (except points east of a line beginning at the Washington-Oregon State line, thence along U.S. Highway 197 to junction U.S. Highway 97, thence along U.S. Highway 97 to the Oregon-California State line), to points in Michigan, Wisconsin, Minnesota (except points north of Minnesota Highway 210), and South Dakota (except points north and west of a line beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 212 to junction U.S. Highway 83, thence along U.S. Highway 83 to the North Dakota-South Dakota State line), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above, to the origin territory described in (a) above (Clearfield, Utah)*; (9)(a) *Such plastic products* as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products (except commodities in bulk), from points in that part of California on and north of Interstate Highway 80, to points in that part of the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (except points in Texas west of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 84 to Lubbock, thence along U.S. Highway 87 to San Anotonio, thence along U.S. Highway 81 to Laredo), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment), used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above, to the origin territory described in (a) above (Clearfield, Utah)*; (10)(a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in that part of California on and south of Interstate Highway 80, to points in North Dakota, South Dakota, Nebraska, Minnesota, Iowa, Wisconsin, Michigan, Ohio, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Virginia (except points west of U.S. Highway 52), Kentucky (except points south of U.S. Highway 460), Indiana (except points south and west of a line beginning at the Indiana-Illinois State line, thence along Interstate Highway 70 to junction Indiana Highway 46, thence along Indiana Highway 46 to Bloomington, thence along Indiana Highway 37 to the Indiana-Kentucky State line), Illinois (except points south of U.S. Highway 36), and the District of Columbia, and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah)*;

(11)(a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or convertors of cellulose materials and products, and paper products, from points in that part of California on, south, and west of a line beginning at San Francisco, thence along Interstate Highway 80 to Sacramento, thence along California Highway 99 to junction Interstate Highway 5, thence along Interstate Highway 5 to Los Angeles, to points in Virginia, North Carolina, South Carolina, Kentucky, Indiana, Illinois, Kansas (except points south of a line beginning at the Colorado-Kansas State line, thence along Kansas Highway 96 to Great Bend, thence along U.S. Highway 56 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Kansas Highway 196, thence along Kansas Highway 196 to El Dorado, thence along U.S. Highway 54 to the Kansas-Missouri State line), Missouri (except points south and west of a line beginning at the Oklahoma-Missouri State line, thence along Interstate Highway 44 to Springfield, thence along U.S. Highway 60 to Cabool, thence along U.S. Highway 63 to the Arkansas-Missouri State line), Tennessee (except points south and west of a line beginning at the Missouri-Tennessee State line, thence along Tennessee Highway 20 to Jackson, thence along U.S. Highway 45 to the Mississippi-Tennessee State line), Alabama (except points south and west of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 72 to junction U.S. Highway Alternate 72 to Decatur, thence along U.S. Highway 31 to Birmingham, thence along U.S. Highway 78 to the Alabama-Georgia State line), Georgia (except points south and west

V40169 APR 9 75 XUM

of a line beginning at the Alabama-Georgia State line, thence along U.S. Highway 78 to Atlanta, thence along Interstate Highway 75 to Macon, thence along U.S. Highway 23 to the Georgia-Florida State line), and points in Florida (except points west of U.S. Highway 301), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from points in the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah) *;

(12) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in Nevada, to points in South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Pennsylvania, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Nebraska, South Dakota (except points north and west of a line beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 212 to junction U.S. Highway 83, thence along U.S. Highway 83 to the North Dakota-South Dakota State line), North Dakota (except points west of U.S. Highway 83), Missouri (except points south of U.S. Highway 40), Kentucky (except points south and west of a line beginning at the Illinois-Kentucky State line, thence along Kentucky Highway 91 to Hopkinsville, thence along U.S. Highway 41 to the Kentucky-Tennessee State line), Tennessee (except points south and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to Crossville, thence along U.S. Highway 70 to the Tennessee-North Carolina State line), and the District of Columbia, and (b) *Materials and supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of the commodities described in (a) above, from the destination territory described in (a) above to Nevada (Clearfield, Utah) *;

(13) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products), from points in that part of Nevada on and north of U.S. Highway 50, to points in Kentucky, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, Texas (except points west of a line beginning at the New Mexico-Texas State line and U.S. Highway 285, thence along U.S. Highway 285 to Pecos, thence along Texas Highway 17 to Marfa, thence along U.S. Highway 67 to Presidio), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities in (a) above, from the destination described in (a) above to the origin territory described in (a) above (Clearfield, Utah) *; (14) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in Idaho to points in Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Tennessee, Kentucky, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, Kansas (except points north of a line beginning at the Colorado-Kansas State line, thence along Kansas Highway 96 to Great Bend, thence along U.S. Highway 56 to junction Kansas Highway 150, thence along Kansas Highway 150 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Kansas Highway 68, thence along Kansas Highway 68 to the Kansas-Missouri State line), Missouri (except points north of a line beginning at the Kansas-Missouri State line, thence along Missouri Highway 52 to junction U.S. Highway 54, thence along U.S. Highway 54 to Jefferson City, thence along U.S. Highway 50 to St. Louis), Illinois (except points north of a line beginning at Alton, thence along Illinois Highway 140 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Illinois State line), Indiana (except points north of U.S. Highway 40), Ohio (except points north and west of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 36 to Delaware, thence along U.S. Highway 42 to Cleveland), and the District of Columbia, and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above, to Idaho (Clearfield, Utah) *;

(15) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in that part of Idaho on and south of U.S. Highway 26, to points in Kansas, Missouri, Iowa, Illinois, Indiana, Ohio, Michigan, Wisconsin (except at St. Croix Falls, thence along U.S. Highway 8 to junction U.S. Highway 63, thence along US. Highway 63 to junction U.S. Highway 2, thence along U.S. Highway 2 to Ashland), Minnesota (except points north of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 212 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to Wilmar, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line), South Dakota (except points west and north of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 281 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Minnesota State line), and Nebraska (except points north and west of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 30 to junction U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah) *;

16(a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in that part of Montana on and west of Interstate Highway 15, to points in Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Florida, Georgia, South Carolina, North Carolina, Maine, New Hampshire, Vermont, Massachusetts (except points west of U.S. Highway 5), Connecticut (except points west of a line beginning at the Massachusetts-Connecticut State line, thence along U.S. Highway 5 to New Haven, thence along Interstate Highway 95 to Bridgeport, Conn.), and Virginia (except points north and west of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 29 to Danville, thence along U.S. Highway 360 to its termination on the Chesapeake Bay), and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah) *;

(17) (a) *Such plastic articles* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in that part of Arizona on, north, and west of a line beginning at Yuma, thence along Interstate Highway 80 to Phoenix, thence along U.S. Highway 89 to the Utah-Arizona State line, to points in North Dakota, South Dakota, Minnesota, Wisconsin, Michigan, Pennsylvania, Maryland, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Iowa (except points south of a line beginning at Sioux City, thence along U.S. Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 141, thence along U.S. Highway 141 to Des Moines, thence along Iowa Highway 163 to Oscaloosa, thence along Iowa Highway 92 to Muscatine), Illinois (except points south of Illinois Highway 17), Indiana (except points south of a line beginning at the Illinois-Indiana State line, thence along Indiana Highway 14 to junction U.S. Highway 35, thence along U.S. Highway 35 to Logansport, thence along U.S. Highway 24 to junction U.S. Highway 224, thence along U.S. Highway 224 to the Indiana-Ohio State line), Ohio (except

points south and west of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 33 to Marysville, thence along U.S. Highway 36 to junction Ohio Highway 60, thence along Ohio Highway 60 to Mariette), West Virginia (except points south and west of a line beginning at Parkersburg, thence along West Virginia Highway 14 to junction U.S. Highway 33, thence along U.S. Highway 33 to Elkins, W. Va., thence along U.S. Highway 219 to Marlinton, thence along West Virginia Highway 39 to the Virginia-West Virginia State line), Virginia (except points south of a line beginning at the Virginia-West Virginia State line, thence along U.S. Highway 250 to Richmond, thence along Interstate Highway 95 to Petersburg, thence along U.S. Highway 460 to Norfolk, thence along U.S. Highway 60 to Virginia Beach), and the District of Columbia, and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory as described in (a) above, to the origin territory described in (a) above (Clearfield, Utah) *;

(18) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in Utah (except points south and east of a line beginning at the Arizona-Utah State line, thence along U.S. Highway 91 to junction Utah Highway 26, thence along Utah Highway 26 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Utah-Colorado State line, to points in South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, Ohio, Michigan, Wisconsin, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, North Dakota (except points south and west of a line beginning at the United States-Canada International Boundary line, thence along U.S. Highway 52 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to junction North Dakota Highway 1, thence along North Dakota Highway 1 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to junction North Dakota Highway 1, thence along North Dakota Highway 1 to junction U.S. Highway 52, thence along U.S. Highway 52 to Fargo, N. Dak.), Minnesota (except points south and west of a line beginning at Ortonville, thence along Minnesota Highway 7 to junction Minnesota Highway 22, thence along Minnesota Highway 22 to Mankato, thence along U.S. Highway 14 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Minnesota-Iowa State line), Illinois (except points west and south of a line beginning at the Illinois-Wisconsin State line, thence along Illinois Highway 26 to Peoria.

Thence along Illinois Highway 29 to Pekin, thence along Illinois Highway 9 to the Illinois-Indiana State line, Indiana (except points south and west of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 74 to junction Indiana Highway 39, thence along Indiana Highway 39 to junction Indiana Highway 37, thence along Indiana Highway 37 to Bloomington, thence along Indiana Highway 46 to junction Indiana Highway 135, thence along Indiana Highway 135 to the Indiana-Kentucky State line), Kentucky (except points west of a line beginning at Louisville, thence along U.S. Highway 31W to junction Kentucky Highway 90, thence along Kentucky Highway 90 to Glasgow, thence along U.S. Highway 31E to the Kentucky-Tennessee State line), Tennessee (except points west of a line beginning at the Kentucky-Tennessee State line thence along U.S. Highway 31E to Nashville, thence along U.S. Highway 41 to Chattanooga), Georgia (except points west of a line beginning at the Tennessee-Georgia State line, thence along Interstate Highway 75 to Cordele, thence along U.S. Highway 280 to junction U.S. Highway 441, thence along U.S. Highway 441 to the Georgia-Florida State line), Florida (except points west of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 441 to Ocala, thence along Interstate Highway 75 to Tampa), and the District of Columbia, and (b) *Material* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah) *; and

(19) (a) *Such plastic products* (except commodities in bulk) as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from points in Box Elder, Tooele, Cache, Weber, Davis, Salt Lake, and Utah Counties, Utah, to points in that part of the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, and (b) *Materials* and *supplies* (except commodities in bulk and those which because of size or weight require special equipment) used in the manufacture and distribution of commodities described in (a) above, from the destination territory described in (a) above to the origin territory described in (a) above (Clearfield, Utah).* The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61592 (Sub-No. E4), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts*, from Omaha, Nebr., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, Maine, Maryland, Massachusetts, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and points in Wisconsin on and east of a line beginning at Wisconsin Highway 27 at the Wisconsin-Iowa State line, to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 45 to the Wisconsin-Minnesota State line. Restriction: The operations authorized herein are restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Co., and (b) destined to the destination points specified above (except that the restriction in (b) shall not apply to traffic moving in foreign commerce). The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E5), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Prescott, Ark., to points in Michigan, Wisconsin, Minneapolis and St. Paul, Minn., and points in Illinois on and north of a line beginning at Illinois Highway 104 at Quincy to junction Illinois Highway 100, thence along Illinois Highway 100 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Iowa east of U.S. Highway 65.

No. MC 61592 (Sub-No. E6), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Sheridan, Ark., to points in Wisconsin, Minneapolis and St. Paul, Minn. The purpose of this filing is to eliminate the gateway of Iowa east of U.S. Highway 65.

No. MC 61592 (Sub-No. E7), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts*, from St. Louis, Mo., to points in Maine, Massachu-Dakota, Rhode Island, South Dakota, Vermont, Wisconsin (except those east of U.S. Highway 15), and points in Nebraska on and north of a line beginning at the Nebraska-Iowa State line and extending along Nebraska

Highway 92 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 138 near Big Springs, thence to the Nebraska-Colorado State line. Restriction: The operations authorized herein are restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Co., and (b) destined to the destination points specified above (except that the restriction in (b) shall not apply to traffic moving in foreign commerce). The purpose of this filing is to eliminate the gateway of Rock Island, Ill.

No. MC 61592 (Sub-No. E13), filed June 3, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural and garden tractors*, from Charles City, Iowa, to points in Florida. The purpose of this filing is to eliminate the gateway of Decatur, Ga., facilities of White Farm Equipment.

No. MC 61592 (Sub-No. E26), filed June 13, 1974. Applicant: JENKINS TRUCK LINE, INC., R.R. 3, Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Bob Jenkins (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building slabs and boards*, from Terry, Miss., to points in Colorado on and northeast of a line beginning at the Colorado-Kansas State line along U.S. Highway 40 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Colorado-Wyoming State line, and points in Connecticut, Massachusetts, Minnesota, Montana, New Hampshire, New Jersey, New York, Rhode Island, South Dakota, Vermont, and Wyoming. The purpose of this filing is to eliminate the gateway of Wright City, Mo.

No. MC 66900 (Sub-No. E1), filed May 24, 1974. Applicant: HOUFF TRANSFER, INC., P.O. Box 91, Weyers Cave, Va. 24486. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, in tank vehicles, those of unusual value, Classes A and B explosives, commodities requiring special equipment, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, and those injurious or contaminating to other lading; (1) between points in Cabell County, W. Va., Boyd and Greenup County, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, on the one hand, and, on the other, points in Virginia within 80 miles of Staunton, Va. (except Roanoke, Va.). The purpose of this filing is to eliminate the gateways of points in Cabell County, W. Va., and Augusta County, Va.). (2) Between points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, on the one hand, and, on the other, points in Chesterfield County, Va., and points in that part of Virginia on and east of U.S. Highway 1. The purpose of this filing is to eliminate the gateways of points in Cabell County, W. Va., and Augusta County, Va. (3) Between points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, on the one hand, and, on the other, points in the District of Columbia and points within 50 miles of the District of Columbia (service is not authorized between Washington, D.C., on the one hand, and, on the other, points and places in Virginia and West Virginia in the transportation of telephone supplies and equipment. The purpose of this filing is to eliminate the gateway of points in Cabell County, W. Va., and Augusta County, Va.

(4) Between points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, on the one hand, and, on the other, Hagerstown, Md., Lancaster, Philadelphia, and Bristol, Pa., restricted against service between Lancaster, Pa., and points in Gallia County, Ohio. The purpose of this filing is to eliminate the gateways of Cabell County, W. Va., and Augusta County, W. Va. (5) Between points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, on the one hand, and, on the other, points in that part of New Jersey located on and south of New Jersey Highway 70 (formerly New Jersey Highway 40), extending from Camden, N.J., through Marlton, Red Lion, and Four Mile, N.J., thence along New Jersey Highway 72 (formerly New Jersey Highway S-40), to Manahawkin, N.J., but not including Camden, N.J. The purpose of this filing is to eliminate the gateways of points in Cabell County, W. Va., Augusta County, Va., and Philadelphia, Pa. (6) From points in that part of Pennsylvania located on and south of U.S. Highway 422 and on and east of U.S. Highway 111 to points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence, Gallia, and Scioto Counties, Ohio, restricted against service from that part of Pennsylvania on and south of U.S. Highway 111 which is in and west of Lancaster and Berks Counties, Pa., to Gallia County, Ohio. The purpose of this filing is to eliminate the gateways of points in Cabell County, W. Va., and Rockingham County, Va. (7) Between points in Cabell County, W. Va., Boyd and Greenup Counties, Ky., and Lawrence and Scioto Counties, Ohio, on the one hand, and, on the other, points in Clarke and Frederick Counties, Va. The purpose of this filing is to eliminate the gateways of points in Cabell County, W. Va., Augusta County, Va., and Chancellorsville, Va.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 3—The President

EXECUTIVE ORDER 11850

Renunciation of Certain Uses in War of Chemical Herbicides and Riot Control Agents

The United States renounces, as a matter of national policy, first use of herbicides in war except use, under regulations applicable to their domestic use, for control of vegetation within U.S. bases and installations or around their immediate defensive perimeters, and first use of riot control agents in war except in defensive military modes to save lives such as:

(a) Use of riot control agents in riot control situations in areas under direct and distinct U.S. military control, to include controlling rioting prisoners of war.

(b) Use of riot control agents in situations in which civilians are used to mask or screen attacks and civilian casualties can be reduced or avoided.

(c) Use of riot control agents in rescue missions in remotely isolated areas, of downed aircrews and passengers, and escaping prisoners.

(d) Use of riot control agents in rear echelon areas outside the zone of immediate combat to protect convoys from civil disturbances, terrorists and paramilitary organizations.

I have determined that the provisions and procedures prescribed by this Order are necessary to ensure proper implementation and observance of such national policy.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States of America by the Constitution and laws of the United States and as Commander-in-Chief of the Armed Forces of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Defense shall take all necessary measures to ensure that the use by the Armed Forces of the United States of any riot control agents and chemical herbicides in war is prohibited unless such use has Presidential approval, in advance.

SEC. 2. The Secretary of Defense shall prescribe the rules and regulations he deems necessary to ensure that the national policy herein announced shall be observed by the Armed Forces of the United States.

Gerald R. Ford

THE WHITE HOUSE,
April 8, 1975.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Federal Energy Administration

Section 213.3388 is amended to reflect the following title change from: Confidential Secretary (Stenography) to the General Counsel to Confidential Assistant (Secretary) to the General Counsel. Effective on April 10, 1975, § 213.3388 (e) (2) is amended as set out below.

§ 213.3388 Federal Energy Administration.

* * * * * *

(e) *Office of the General Counsel.* * * *

(2) One Confidential Assistant (Secretary) to the General Counsel.

(5 U.S.C. secs. 3301, 3302, E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-9290 Filed 4-9-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 75–WE–19–AD; Amdt. 39–2162]

PART 39—AIRWORTHINESS DIRECTIVES

Hughes 269 Series Helicopters Including Military TH–55A Helicopters

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on March 6, 1975, and made effective immediately by airmail letters to all known United States operators or owners of Hughes 269 series helicopters, including military TH–55A helicopters equipped with certain part numbered linear clutch actuators. In addition, the directive was made effective immediately to all operators who had accomplished the inspections and replacements of defective screws in accordance with the procedures in Hughes Service Information Notice No. N–126, dated February 24, 1975. The directive was made effective immediately due to hydrogen embrittlement failures of a certain type of retainer screw which internally secure the clutch actuator lug to the housing. The directive requires partial disassembly of the clutch actuator, inspection for possible defective retainer screws, and, if necessary, replacement of defective screws, and identification of the actuator to indicate compliance with the directive.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators or owners of Hughes 269 series helicopters and military TH–55A helicopters by individual airmail letters dated March 7, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

HUGHES HELICOPTERS. Applies to Hughes 269 series helicopters certificated in all categories, including military model TH–55A, which are equipped with linear clutch actuators, P/N DL 1020M81C(12V), 269A4564, or DL 1020M82C(28V), including those helicopters on which Hughes Service Information Notice No. N–126, dated February 24, 1975, has been accomplished.

(A) Prior to further flight, unless previously accomplished, remove the actuator and cover at the lug end of the linear clutch actuator in accordance with Hughes 269 series Maintenance Manual of Instructions, issued April 1973, Revision No. 2, January 1, 1974.

(A) (1) Visually identify the markings on the four number 4–40 Allen screw heads which secure the lug to the housing. If any retainer screw has a single band of vertical lines around the outside diameter of the raised head, mutilate and discard the screw. Replace any retainer screw having such vertical lines with new screws having either of the following part numbers, and torque to five to seven inch-pounds: New Ny-Lock P/N P60HS440–12C or new Simmonds P/N S6370CESCS4–12.

(A) (2) Operators who have complied with paragraph "d", per Hughes Service Information Notice No. N–126, dated February 24, 1975, by installing these new screws, are not required to repeat the replacement of the new screws if the procedures of paragraph (A) (1) of this AD have been followed.

(A) (3) If the identifying markings on the outside diameter of the raised head consist of any thing other than the single band of vertical lines, such as cross hatched band, double band of vertical lines, etc., the retainer screws need not be replaced.

(B) After complying with paragraphs (A) (1), (A) (2), and (A) (3), as applicable, identify the actuators by hand impression stamping the letter "B" on the bottom line of the actuator data plate.

(C) Reassemble and install the actuator in accordance with the Hughes Maintenance Manual of Instructions.

(D) Record inspections and modifications per this AD in aircraft maintenance records in accordance with FAR 43.9.

(E) Helicopters may be flown to a base where maintenance may be performed to comply with this AD per FAR's 21.197 and 21.199.

(F) Equivalent inspection and modification procedures may be approved by the Chief, Aircraft Engineering Division, FAA Western Region."

This amendment is effective April 14, 1975, for all persons except those to whom it was made effective immediately by airmail letter dated March 7, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on March 31, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[FR Doc.75-9337 Filed 4-9-75;8:45 am]

[Airworthiness Docket No. 75–WE–15–AD; Amdt. 39–2166]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed-California Company Model L–1011–385–1 Series Airplanes

There have been failures of the C–1 cargo door hooks on Lockheed-California Company L–1011–385–1 airplanes due to cracks that could result in fatigue failures in the hook/door surround structure which would cause a sudden in-flight depressurization. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspections and replacement of C–1, C–2, and C–3 cargo door hooks on Lockheed-California Company L–1011–385–1 Series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LOCKHEED–CALIFORNIA COMPANY. Applies to Lockheed-California Company Model L–1011–385–1 series airplanes certificated in all categories.

To prevent possible failures of the C–1, C–2, and C–3 cargo door hooks due to cracks, accomplish the following:

(a) Within 275 additional flight hours after the effective date of this AD, unless already

V 40 170 APR 10 75 XUM

accomplished, perform the following per Lockheed Alert Service Bulletin 093-53-A079, Revision 1, dated March 26, 1975 or later FAA-approved revision.

(1) An inspection of the C-1, C-2 and C-3 cargo door hooks for identification configuration and affixing of appropriate part numbers;

(2) A dye penetrant inspection of all hooks for cracks;

(3) Replace all cracked hooks prior to further flight.

(4) Scrap hooks identified as P/N's 157205-103/-105.

(5) Check rigging of hooks and doors for usage, and rerig, as required.

(b) Perform a dye penetrant inspection for cracks at intervals not to exceed 1500 hours time in service, of the C-1 and C-2 cargo door hooks identified as P/N's 157205-107/-109 (per the inspection of (a)(1), above). Replace all cracked hooks prior to further flight.

(c) Within 3000 flight hours after the initial inspections performed per (a)(1) and (2), above, replace all hooks identified as P/N's 157205-107/-109 with hooks identified as P/N's 157205-111/-113 on the C-1 and C-2 cargo doors.

(d) Equivalent inspections and replacements may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(e) Airplanes may be flown to a base for the accomplishment of the inspections and replacements required by this AD, per FAR's 21.197 and 21.199

This amendment becomes effective April 16, 1975.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on April 1, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[Airworthiness Docket No. 74-WE-51-AD; Amdt. 39-2165]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC-10-10, DC-10-10F, DC-10-30, and DC-10-30F Airplanes

A proposal to amend Part 39 of Federal Aviation Regulations to include an airworthiness directive requiring modifications of the engine nose cowl attachments per McDonnell Douglas DC-10 Service Bulletin 71-53, dated September 25, 1974, on McDonnell Douglas Model DC-10-10, DC-10-10F, DC-10-30, and DC-10-30F airplanes was published in 39 FR 44034.

Interested persons have been afforded an opportunity to participate in the making of the amendment. The Air Transport Association has commented that the 4000 hour compliance time could create a logistic problem because of the need to intermix modified cowls with unmodified engines and vice-versa during the modification program. FAA considers the 4000 hour compliance time adequate to implement the requirements of this AD.

One airline, through the ATA, has commented that the one case of DC-10 cowling loss was due to massive engine imbalance as a result of fan blade departure. All ATA members' CF6 engines are equipped with improved fan blade retainers and the fan blade tip clearances have been increased. The airline contends that, because of these improvements, the original cause of a massive engine imbalance occurrence has been removed and, therefore, a potential cause for loss of the nose cowl has been eliminated.

The FAA does not agree. Notwithstanding the recent CF6 engine improvements designed to remove the possibility of a massive engine imbalance, the improvements (1) are not mandatory installations; and (2) the possible causes of an engine imbalance due to blade departure have not been completely eliminated. The AD is intended to minimize the possibility of such an occurrence.

Comments received from Douglas Aircraft Company also mention recent improvements to the CF6 engine as rationale for not requiring mandatory compliance by airworthiness directive. In addition, they state that there has been only one suspected incident, in 2.3 million CF6 engine operating hours, when some nose cowl bolts may have severed. In that instance, the nose cowl remained in place. They further state that the present nose cowl attachment configuration was designed to withstand conservatively high unbalance loads and, that although they released the improved 21 bolt design by a Service Bulletin to reestablish the conservatism intended by their original design objective, they contend that mandatory incorporation of additional nose cowl attachments by airworthiness directive is not substantiated.

FAA agrees that the nose cowl design conservatism should be well established. The intent of issuing this AD is to uniformly establish the conservatism of the nose cowl structural integrity.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MCDONNELL DOUGLAS. Applies to Model DC-10-10, DC-10-10F, DC-10-30, and DC-10-30F airplanes certificated in all categories.

Compliance required within the next 4000 flight hours after the effective date of this AD, unless already accomplished.

To minimize the possibility of losing a wing engine nose cowl due to severed nose cowl attach bolts and engine unbalance loads, modify the wing engine nose cowls per McDonnell Douglas DC-10 Service Bulletin 71-53, "Powerplant—Cowling—Modify Engine Nose Cowl Attachments," dated September 25, 1974, or later FAA-approved revisions, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Special flight permits may be issued under FAR 21.197 and 21.199 for the purpose of moving the aircraft to a base to perform the requirements of this AD.

This amendment becomes effective May 16, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on April 1, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[FR Doc.75-9336 Filed 4-9-75;8:45 am]

[Docket No. 14228; Amdt. No. 39-2170]

PART 39—AIRWORTHINESS DIRECTIVES

Rolls Royce RB 211 Series Engines

The telegraphic AD adopted on October 4, 1974, and Amendment 39-2060 (39 FR 44740), AD-75-02-02, require borescope and dye penetrant inspections for cracks in the intermediate compressor casing in the vicinity of the internal wheelcase oil scavenge boss and the borescope access port of wing-mounted engines, and require replacement of cracked casings with serviceable casings.

After issuing Amendment 39-2060, the FAA determined that cracks had also occurred in the outer main casing wall in the vicinity of the internal gear box oil vent and pressure tube connections, and that cracks had been found in engines other than wing-mounted engines. The FAA further determined that the borescope inspection required by Amendment 39-2060 has not been effective in detecting cracks in the annulus wall web. Finally, based on service experience, the FAA has determined that the periodic inspection frequency should be changed to 150 cycles unless the engine is equipped with a sleeve insert in the drilled oil passageway, in which case the inspection frequency may go to 300 cycles. The AD is, therefore, being superseded by a new AD that requires inspection of all engines regardless of position on the aircraft, requires dye penetrant inspection of additional areas of the main casing wall, deletes the borescope inspection, and changes the periodic inspection frequency.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and contrary to the public interest and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423 and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding

the following new airworthiness directive:

ROLLS ROYCE (1971) LIMITED. Applies to Rolls Royce RB 211 Series Engines.

Compliance required as indicated.

To prevent inflight engine shutdown that could result from cracks in the engine intermediate casing comply with the following:

(a) Within the next 50 hours time in service after the effective date of this amendment, or before the accumulation of the lesser of 400 hours time in service or 280 cycles, whichever occurs later, unless already accomplished in accordance with revision 3 of Rolls Royce Service Bulletin RB-211-72-A3077 dated January 31, 1975, comply with paragraph (b) of this AD.

(b) Using dye penetrant, inspect the outside of the intermediate compressor casing for axial cracks in the outer main casing wall—

(1) In the vicinity of the internal wheel case oil scavenge boss and the borescope access port at the 5 o'clock location when viewed from the rear; and

(2) In the vicinity of the internal gearbox oil vent and pressure tube connections (ground handling point) at the 9 o'clock location when viewed from the rear.

(c) If a crack is found during an inspection required by this AD that has not reached the oil scavenge boss at the 5 o'clock location or the ground handling point at the 9 o'clock location, before further flight, except that the engine may be operated in accordance with FAR §§ 21.197 and 21.199 to a base where replacement can be accomplished, replace the cracked casing with a serviceable casing.

(d) If a crack is found during an inspection required by this AD that has progressed from a point forward to a point aft of the oil scavenge boss at the 5 o'clock location, or from a point forward to a point aft of the ground handling point at the 9 o'clock location, replace the cracked casing with a serviceable casing, before further flight, except that the engine may be operated—

(1) In accordance with FAR §§ 21.197 and 21.199 to a base where replacement can be accomplished; or

(2) For up to 7 additional cycles if—

(i) There is no visible loss of oil;

(ii) Engine oil consumption remains within limits; and

(iii) All other engines on the aircraft are inspected in accordance with this AD at the same time as the affected engine and found free of cracks.

(e) Repeat the inspection specified in paragraph (b) of this AD at intervals not to exceed—

(1) 300 cycles for engines incorporating Rolls Royce Service Bulletin 72-3650 dated January 20, 1975, or Rolls Royce Service Bulletin 72-3681 dated October 7, 1974, or an FAA approved equivalent of either; or

(2) 150 cycles for engines not covered in paragraph (e)(1) of this AD.

(f) For the purpose of this AD, the number of cycles equals the number of flights that involve an engine operating sequence consisting of engine starting, takeoff, operation, landing, and engine shutdown.

(g) Report all cracks found as a result of any inspection performed in compliance with this AD within 10 days of the inspection to the Chief, Engineering and Manufacturing Division, Flight Standards Service, Attention: AFS 140, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Each report must include the part number, total time in service on the part, the number of flight cycles on the part, size and location of cracks, engine serial number, and engine position. (Reporting approved by the Bureau of the Budget under BOB 04 R0174.)

This Amendment supersedes Amendment 39-2060 (39 FR 44740), AD-75-02-02, and the telegraphic AD adopted on October 4, 1974.

This Amendment becomes effective April 10, 1975.

Issued in Washington, D.C. on April 2, 1975.

JAMES M. VINES,
Acting Director,
Flight Standards Service.

[FR Doc.75-9338 Filed 4-9-75;8:45 am]

[Docket No. 75-NE-15; Amdt. 39-2163]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-61N Helicopters Certificated in All Categories

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an Airworthiness Directive was adopted on February 14, 1975, and made effective immediately to all known operators of Sikorsky S-61N helicopters. The directive required an inspection of the locking mechanism of the baggage door prior to each flight, and required a reduction in speed and a landing as soon as practicable if the door opened in flight.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to the public interest, and good cause existed for making the Airworthiness Directive effective immediately to all known United States operators of Sikorsky S-61N helicopters by individual telegrams dated February 14, 1975.

Prior to the publication of the AD in the FEDERAL REGISTER, the agency determined that a reduction in speed to 45 knots would provide an adequate margin of safety, and that the speed reduction would be required only if the baggage door could not be closed and locked after opening in flight. Since this change to the AD relieves a restriction and imposes no additional burden on any person, notice and public procedure thereon are unnecessary and it may be made effective in less than thirty (30) days.

The full text of the AD, incorporating the change to a 45 knot speed reduction if the baggage door cannot be closed and locked after opening in flight, is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations:

SIKORSKY: Applies to S-61N helicopters certificated in all categories.

Compliance required within 5 hours time in service after the effective date of this AD.

(1) Prior to each flight, a flight crewmember or ground service personnel shall check the baggage door, P/N S6120-72601-1, to ensure that it is closed and the locking mechanism and pins are in the locked position.

(2) If the baggage door opens in flight as indicated by warning light in the instrument panel and the door cannot be closed and locked, the aircraft speed must be reduced to 45 knots and a landing made as soon as practicable.

This amendment becomes effective April 10, 1975.

This amendment is made under the authority of section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on March 31, 1975.

QUENTIN S. TAYLOR,
Director, New England Region.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2614]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Brown's Quality Furniture, Inc., et al.

Correction

In FR Doc. 75-8228, appearing at page 14299 in the issue for Monday, March 31, 1975, make the following changes:

1. On page 14299 in the third column, in line five of paragraph (2) the reference to "226.3(c)(2)" should read "226.8(c)(2)".

2. On page 14299 in the third column, in the third line of paragraph (12), insert the word "with" after the words "• • • in accordance".

[Docket No. 8932-O]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Fedders Corporation

Correction

In FR Doc. 75-8229, appearing at page 14300 in the issue for Monday, March 31, 1975, make the following change:

On page 14300 in the second column under the heading Final Order, the line reading "P. 3, line 9, word 'asserting'." should read "P. 3, line 9, word 4 'asserting'."

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER C—FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS

PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS

Test Methods for Simulating Use and Abuse of Toys, Games, and Other Articles Intended for Use by Children; Corrections

In FR Doc. 75-225 appearing at page 1480 in the FEDERAL REGISTER of January 7, 1975:

1. Section 1500.50 commencing on page 1483 is corrected:

a. In paragraph (b) by changing "(b)(1) *Application—general.* (1)" to read "(b) *Application—general.* (1)(i)".

b. In paragraph (b)(4) by changing "(23°±2°)" to read "(23°±2° C.)".

V 40 170 APR 10 75 XUM

2. Section 1500.51 commencing on page 1484 is corrected:

a. In paragraph (b)(2) by changing "⅛ inch" and "2.5 inch" to read "⅛-inch" and "2.5-inch" respectively.

b. In paragraph (b)(3) by deleting the comma after "±0.5 inch".

c. In paragraph (b)(4)(ii) by inserting a comma after "(0.065 cubic meter)".

d. In paragraph (c)(2) by deleting the comma after "(0.635 centimeter)".

e. In paragraph (c)(3) by deleting the comma after "(11.35 kilograms)".

f. In paragraph (d)(2), second sentence, by deleting the comma after "(5 centimeters)" in two places.

g. In paragraph (e)(1)(ii) by changing "road or shaft" to read "rod or shaft".

h. In paragraph (e)(2)(i) by changing "±2 inch pound" to read "±0.2 inch-pound".

i. In paragraph (e)(3) by changing "2 inch pounds ±0.2 pound" to read "2 inch-pounds ±0.2 inch-pound".

j. Also in paragraph (e)(3) by changing "2.30 kilogram-centimeters (2 inch-pounds)" to read "2 inch-pounds (2.30 kilogram-centimeters)".

k. In paragraph (f)(1)(ii) by changing "(4.55 kilograms)" to read "(4.55-kilograms)".

l. In paragraph (f)(3) by changing "(4.55 kilogram)" to read "(4.55-kilogram)" in two places.

m. In paragraph (g)(2) by changing "(0.375 inch)" to read "0.375 inch" and by changing "$\frac{1}{32}$ inch)" to read "$\frac{1}{32}$ inch".

3. Section 1500.52 commencing on page 1485 is corrected:

a. In paragraph (b)(1) by deleting the comma after "(1.8 kilograms)".

b. In paragraph (b)(2) by changing "⅛ inch (0.3 centimeter)" to read "⅛-inch (0.3-centimeter)" and by changing "2.5 inch (6.4 centimeter)" to read "2.5-inch (6.4-centimeter)".

c. In paragraph (b)(3) by deleting the comma after "(0.92 meter)".

d. In paragraph (b)(4)(ii) by inserting a comma after "(0.085 cubic meter)".

e. In paragraph (d)(1) by deleting the comma after "(5 centimeters)".

f. In paragraph (d)(2) by changing "(0.95 centimeter)" to read "(0.95-centimeter)".

g. In paragraph (e)(3) by changing "±0.2 inch-pounds" to read "±0.2 inch-pound" in two places.

h. In paragraph (f)(1)(ii) by changing "(±0.5 pound" to read "±0.5 pound".

4. Section 1500.53 commencing on page 1486 is corrected:

a. In paragraph (b)(2) by deleting the comma after "(0.3-centimeter)".

b. In paragraph (b)(3) by inserting a comma in the first sentence after "(b)(4)(i) and (ii) of this section".

c. In paragraph (c)(3) by changing "(0.64 to 1.27 centimeters) inch)," to read "(0.64 to 1.27 centimeters),".

d. In paragraph (d)(2) by changing "13-gauge thick cold-rolled steel" to read "13-gauge cold-rolled steel".

e. In paragraph (e)(2) by changing "(2) *Testing equipment*—" to read "(2) *Test equipment*—".

f. In paragraph (f)(1)(ii) by changing "15 pound" to read "15 pounds".

5. In §§ 1500.51(b)(4), 1500.52(b)(4), and 1500.53(b)(4), respectively, by changing "2,560 or more square centimeters (400 or more square inches)" to read "400 or more square inches (2,560 or more square centimeters)".

Dated: April 7, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER G—COSMETICS

PART 701—COSMETIC LABELING

Designation of Ingredients on Package Labels

Correction

In FR Doc. 75-5330 appearing at page 8918 in the issue for Monday, March 3, 1975, make the following change, on page 8919 in the first full paragraph in the third column and in the sixth line the word "products" should read "product".

PART 740 COSMETIC PRODUCT WARNING STATEMENTS

Warning Statements

Correction

In FR Doc. 75-5328 appearing at page 8912 in the issue for Monday, March 3, 1975, make the following changes:

1. On page 8912, in the second column, in the fourth whole paragraph, and in the ninth line the word "unusual" should be changed to read "usual".

2. Also on page 8912, in the second column, in the fourth whole paragraph, and in the twelfth line from the bottom of the paragraph the word "one" should read "once".

PART 740—COSMETIC PRODUCT WARNING STATEMENTS

Feminine Deodorant Sprays

Correction

In FR Doc. 75-5329 appearing at page 8926 in the issue for Monday, March 3, 1975, make the following change, on page 8928 in the second column, in the last paragraph, and in the third line the word "scrap" should read "sprays".

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-310]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Correction

The Correction of the Identification of Special Hazard Areas published on November 13, 1974, in 39 FR 40016 is hereby corrected to read: On July 23, 1971, in 36 FR 13675, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included Arlington, Texas, as an eligible community and included Map No. H 485454 16 which indicates that Rushmoor Subdivision, First Increment, as recorded in Volume 388-84, Page 3, and Second Increment, as recorded in Volume 388-95, Pages 8 and 9 of the Map Records of Tarrant County, Texas, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective July 23, 1971, Map No. H 485454 16 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: March 21, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-9298 Filed 4-9-75;8:45 am]

[Docket No. FI-340]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Correction

On August 21, 1974, in 39 FR 30122, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Columbus, Ohio, as an eligible community and included Map No. H 390170 01 which indicates that Lot No. 2, Scioto Park Subdivision, Columbus, Ohio, as recorded in Plat Book No. 43, Page 108 in the office of the Recorder of Franklin County, Ohio, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective August 9, 1974, Map No. H 390170 01, is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: March 19, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc. 75-9299 Filed 4-9-75;8:45 am]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Correction

On August 31, 1972, in 37 FR 17704, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Winston-Salem, North Carolina, as an eligible community and included Map No. H 375360 13, which indicates that Lot B of the C. M. Thomas Property, Winston-Salem, North Carolina, as recorded in Plat Book 15, Page 50, in the records of Forsyth County, North Carolina, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structure on the above property is within Zone B, and is not within the Special Flood Hazard Area. Accordingly, effective March 24, 1971, Map No. H 375360 13, is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: March 27, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1601—PROCEDURAL REGULATIONS

Subpart G—Case Processing Under § 707 of Title VII

Section 5 of the Equal Employment Opportunity Act of 1972, Pub. L. 92-261, amended section 707 of the Civil Rights Act of 1964, 42 U.S.C. 2000e-6, and provided that effective two years after the date of the enactment of the Equal Employment Opportunity Act, the functions of the Attorney General under section 707 be transferred to the Equal Employment Opportunity Commission. The following regulations are promulgated to make clear various functions and responsibilities within the Commission regarding the processing of cases under section 707 of the Civil Rights Act of 1964, as amended. At a duly constituted Commission meeting held on April 1, 1975, the Commission adopted the regulations appearing below.

The section 707 regulations provide that any Commissioner may designate a charge for processing under § 707 and that the General Counsel is authorized to administratively process such charges and any other related charges which the General Counsel designates for consolidation. The General Counsel is made responsible for furnishing the 10 day notice of the charge to respondents, for deferring charges to State and local deferral agencies (as defined in 29 CFR 1601.12(c)), for conducting the investigation of the charge, and for enforcing subpoenas issued as a part of the investigation of such charges. The General Counsel will conduct conciliation efforts when the Commission makes a reasonable cause determination that discrimination has occurred and will issue notices of right to sue. The General Counsel is also responsible for commencing litigation against those respondents who have failed or refused to sign a conciliation agreement and against whom the Commission determines the General Counsel should commence litigation.

Accordingly, Part 1601 of Title 29 of the Code of Federal Regulations is hereby amended by adding new Subpart G, §§ 1601.50, 1601.51, 1601.52, 1601.53, 1601.54, 1601.55, 1601.56, 1601.57, 1601.58, and 1601.59 as set forth below. These are procedural amendments and are effective immediately.

Subpart G—Case Processing Under § 707 of Title VII

Sec.

1601.50 Purpose.
1601.51 Delegation of Authority.
1601.52 Initiation of § 707 charge.
1601.53 Service of notice of charge.
1601.54 Deferral.
1601.55 Investigation.
1601.56 Issuance of subpoenas; petitions to revoke subpoenas; enforcement of subpoenas.
1601.57 Commission reasonable cause finding.
1601.58 Voluntary compliance; settlements; commission authority to file suit.
1601.59 Notice to aggrieved persons and person filing charge on behalf of aggrieved persons.

AUTHORITY: Secs. 706, 707, 709, 710, and 713 (a), Civil Rights Act of 1964, and as amended, 86 Stat. 104-109, 78 Stat. 262, 265 (42 U.S.C. (Supp. II) 2000e-5, -6, -9, 42 U.S.C. 2000e-8, -12(a)).

§ 1601.50 Purpose.

The regulations of this subpart apply to charges designated for processing under the Commission's authority as set forth in section 707 of the Act. The General Counsel shall process such charges on behalf of the Commission once they have been designated for section 707 processing.

§ 1601.51 Delegation of authority.

The General Counsel is hereby delegated authority to give notice of and to defer charges to State and local 706 agencies as defined in § 1601.12(c), to give notice of charges to respondents, to investigate charges, to sign and issue subpoenas, and to conciliate charges of employment discrimination.

§ 1601.52 Initiation of Section 707 charge.

Any member of the Commission may designate a charge for section 707 processing under this subpart. Any related charge shall be processed under this subpart if the General Counsel determines that it should be consolidated with the charge designated for section 707 processing by a member of the Commission.

§ 1601.53 Service of notice of charge.

Within 10 days of the filing of a charge, the General Counsel shall furnish the respondent with a notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) by mail or in person. The General Counsel need not furnish such notice if, prior to the designation of the charge for section 707 processing, the notice has been furnished pursuant to § 1601.13.

§ 1601.54 Deferral.

(a) Where the alleged unlawful employment practice occurs in a State or political subdivision of a State which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice (or to institute criminal proceedings), the General Counsel shall notify, on behalf of the Commission, the appropriate State or local 706 Agency, as defined in § 1601.12(c), before taking any action with respect to a Commissioner's Charge.

(b) The General Counsel, on behalf of the Commission, shall not defer such Commissioner's Charge unless the State or political subdivision notified in paragraph (a) of this section within 10 days of receipt of such notice requests submission of the charge to its jurisdiction.

(c) Where deferral is made by the General Counsel in paragraph (b) of this section, the deferral shall be for no less than 60 days, unless a shorter period is requested.

(d) Charges filed by individuals shall be deferred pursuant to the provisions of § 1601.12, except that they shall be deferred by the General Counsel.

§ 1601.55 Investigation.

The General Counsel shall investigate any charge designated for section 707 processing or any charges consolidated with that charge pursuant to § 1601.52.

§ 1601.56 Issuance of subpoenas; petitions to revoke subpoenas; enforcement of subpoenas.

(a) As part of the investigation of a charge, the General Counsel may sign

V 40 170 APR 10 75 XUM

and issue a subpoena requiring the attendance and testimony of witnesses and the production of evidence including, but not limited to books, records, correspondence or documents in the possession or under the control of the person subpoenaed. The subpoena shall state the name and address of the issuer; and identify the person or evidence subpoenaed, and the person to whom and the place, date, and time at which it is returnable. A subpoena may be returnable to any attorney designated in the subpoena. The General Counsel shall not issue a subpoena upon the request of a person filing a charge, a person on whose behalf a charge was filed, or a respondent.

(b) Any person served with a subpoena who intends not to comply with the subpoena shall, within 5 days of the service of the subpoena, petition the Commission in writing to revoke or modify the subpoena. The petition shall be served on the Director of Compliance by mail at the Equal Employment Opportunity Commission, Washington, D.C. 20506, and a copy shall be served on the Commission attorney to whom the subpoena is returnable. The petition shall state each ground on which the petition relies. Within eight days of receipt, insofar as possible, the Commission shall pass on the petition and shall serve a copy of its determination on the petitioner. For purposes of this section, service shall be made and proof thereof established pursuant to section 11(4) of the National Labor Relations Act, as amended, 29 U.S.C. 161(4), as made applicable to the proceeding hereunder by section 710 of Title VII, 42 U.S.C. (Supp. II) 2000e–9.

(c) If any person fails to comply with a subpoena, the General Counsel may institute enforcement proceedings in the appropriate district court pursuant to section 11(2) of the National Labor Relations Act, as amended, 29 U.S.C. 161(2).

§ 1601.57 Commission reasonable cause finding.

(a) Upon completion of the investigation, the Commission shall determine whether there exists reasonable cause to believe that the respondent is engaged in a pattern or practice of unlawful discrimination within the meaning of section 707(a) of Title VII. A finding of no reasonable cause shall constitute dismissal of the charge.

§ 1601.58 Voluntary compliance; settlements; Commission authority to file suit.

A finding of reasonable cause by the Commission shall be deemed to authorize the General Counsel to endeavor to eliminate the alleged unlawful employment practices by informal methods of conference, conciliation and persuasion. Should such endeavors fail to produce a conciliation agreement satisfactory to the General Counsel, the General Counsel may commence litigation upon approval by the Commission.

§ 1601.59 Notice to aggrieved persons and person filing charge on behalf of aggrieved persons.

In any charge designated for processing under this subpart, the General Counsel shall issue the notice required by §§ 160.25 and 1601.25c to be issued to the aggrieved person or persons and to any person who filed the charge on behalf of the aggrieved person or persons.

Signed at Washington, D.C., this 4th day of April, 1975.

ETHEL BENT WALSH,
Acting Chairman.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER B—PERSONNEL; MILITARY AND CIVILIAN

PART 40—STANDARDS OF CONDUCT

Purpose and Objectives

This revised part 40 updates and incorporates changes to the Department of Defense "Standards of Conduct" relating to possible conflict between private interest and official duties by Department of Defense personnel. This set of standards is in implementation of (1) Executive Order 11222 of May 8, 1965, prescribing Standards of Ethical Conduct for Government Officers and Employees and (2) The Civil Service Commission Regulation of October 1, 1965, as amended August 9, 1967. It is in consonance with the Code of Ethics for Government Service contained in House Concurrent Resolution 175, 85th Congress, which applies to all Government personnel.

Sec.

40.15 Conflict of interest laws.
40.16 Effective date and implementation.

Appendix A—House Concurrent Resolution 175 (85th Congress, 2d Session).
Appendix B—Digest of Conflict of Interest Laws.
Appendix C—Extract from Appendix C of Civil Service Personnel Manual System on Special Government Employees (Including Guidelines for Obtaining and Utilizing the Services of Special Government Employees).

AUTHORITY: Public Laws 87–777 and 87–849.

§ 40.1 Purpose and objectives.

(a) This Part prescribes the standards of conduct, relating to possible conflict between private interests and official duties, required of all Department of Defense personnel,[1] regardless of assignment. Close adherence to these principles will insure compliance with the high ethical standards demanded of all public servants. Violations of this Part may be cause for appropriate disciplinary action which may be in addition to any penalty provided by law.

(b) This part is in implementation of (1) Executive Order 11222 of May 8, 1965, prescribing Standards of Ethical Conduct for Government Officers and Employees, and (2) The Civil Service Commission Regulation of October 1, 1965, as amended August 9, 1967. It is in consonance with the Code of Ethics for Government Service contained in House Concurrent Resolution 175, 85th Congress, which applies to all Government personnel. (See Appendix A to this Part.)

(c) This Part includes standards of conduct based on the revisions of the conflict of interest laws enacted in 1962 (Pub. L. 87–777 and Pub. L. 87–849). (See Appendix B to this Part.)

§ 40.2 Applicability.

This Part applies to all components of the DoD.

§ 40.3 Ethical standards of conduct.

(a) *General.* DoD personnel are bound to refrain from any private business or professional activity or from having any direct or indirect financial interest which would place them in a position where there is a conflict between their private interests and the public interests of the United States, particularly those related to their duties and responsibilities as DoD personnel. Even though a technical conflict, as set forth in the statutes cited in this Directive, may not exist, DoD personnel must avoid the appearance of such a conflict from a public confidence point of view. DoD personnel will not engage in any private business or professional activity or enter into any financial transaction which involves the direct or indirect use, or the appearance of use, of inside information gained through a DoD position to further a private interest or for private gain for themselves or another person or entity, particularly one with whom they have family, business, or financial ties. DoD personnel must not use their DoD positions in any way to induce or coerce, or give the appearance of inducing or coercing, any person (including subordinates) or entity to provide any financial benefit to themselves

[1] DoD personnel, as used in this Part, unless the context indicates otherwise, means all civilian officers and employees, including special Government employees, of all the offices, agencies and departments in the Department of Defense (including non-appropriated fund activities) and all active duty officers and enlisted members of the Army, Navy, Air Force, and Marine Corps (officers includes commissioned and warrant).

or another person or entity, particularly one with whom they have family, business, or financial ties. For the purpose of this paragraph, "inside information" means information obtained under Government authority which has not become part of the body of public information. This paragraph does not preclude DoD personnel from teaching, lecturing, and writing as authorized by § 40.9(d), nor does it preclude DoD personnel from having financial interests or engaging in financial transactions to the same extent as private citizens not employed by the Government so long as they are not prohibited by law or the regulations in this part.

(b) *Dealing with Present and Former Military and Civilian Personnel.* DoD personnel will not knowingly deal with military or civilian personnel, or former military or civilian personnel, of the Government, if such action will result in a violation of a statute or policy set forth in this Part.

(c) *Membership in Associations.* All DoD personnel who are members or officers of non-governmental associations or organizations must avoid activities on behalf of the association or organization that are incompatible with their official government positions.

(d) *Commercial Soliciting by Active Duty Members of the Military.* Military personnel on active duty are prohibited from personal commercial solicitation and sale to military personnel junior in rank or grade, at any time, on or off duty, in or out of uniform. This limitation includes, but is not limited to, the personal solicitation and sale of life and automobile insurance, stocks, mutual funds, real estate or any other commodities, goods, or services.

As used in this paragraph, "personal commercial solicitation" refers to those situations where a military member is employed as a sales agent on commission or salary, and contacts prospective purchasers suggesting they buy the commodity, real or intangible, that he is offering for sale. This prohibition is not applicable to the one-time sale by an individual of his own personal property or privately owned dwelling. It is not the intent of this subparagraph to discourage the off-duty employment of military personnel, but it is the intent to eliminate any and all instances where it would appear that coercion, intimidation, or pressure was used based on rank, grade, or position.

(e) *Assignment of Reserves for Training.* DoD personnel who are responsible for assigning Reserves for training should make an effort to assign them when they are on active duty for training to duties in which they will not obtain information that could be used by them or their employers to give them an unfair advantage over their civilian competitors.

(f) *Conduct prejudicial to the Government.* DoD personnel shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Government. Moreover, DoD personnel shall avoid any action whether or not specifically prohibited by this Part, which might result in, or create the appearance of:

(1) Using public office for private gain;

(2) Giving preferential treatment to any person;

(3) Impeding Government efficiency or economy;

(4) Losing complete independence or impartiality;

(5) Making a Government decision outside official channels; or

(6) Affecting adversely the confidence of the public in the integrity of the Government.

§ 40.4 Bribery and graft.

In general, DoD personnel may be subject to criminal penalties if they solicit, accept, or agree to accept anything of value in return for performing or refraining from performing an official act (See 18 U.S.C. 201).

§ 40.5 Gratuities.

(a) Except as provided in paragraph (b) of this section, DoD personnel will not solicit or accept any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value either directly or indirectly from any person, firm, corporation, or other entity which:

(1) Is engaged or is endeavoring to engage in procurement activities or business or financial transactions of any sort with any agency of the DoD;

(2) Conducts operations or activities that are regulated by any agency of the DoD; or

(3) Has interests that may be substantially affected by the performance or nonperformance of the official duty of the DoD personnel concerned. Gifts, gratuities, favors, entertainment, etc., bestowed upon members of the immediate families of DoD personnel are viewed in the same light as those bestowed upon DoD personnel. Acceptance of gifts, gratuities favors, entertainment, etc., no matter how innocently tendered and received, from those who have or seek business with the Department of Defense may be a source of embarrassment to the department and the personnel involved, may affect the objective judgment of the recipient and impair public confidence in the integrity of the business relations between the department and industry.

(b) For the purpose of this section, a gift, gratuity, favor, entertainment, etc., includes any tangible item, intangible benefits, discounts, tickets, passes, transportation, and accommodations or hospitality given or extended to or on behalf of the recipient. However, the restrictions in paragraph (a) of this section do not apply to the following:

(1) Instances in which the interests of the Government are served by participation of DoD personnel in widely attended luncheons, dinners, and similar gatherings sponsored by industrial, technical, and professional associations for the discussion of matters of mutual interest to Government and industry. Participation by DoD personnel is appropriate when the host is the association and not an individual contractor. Acceptance of gratuities, or hospitality from private companies in connection with such association's activities is prohibited.

(2) Situations in which the interests of the Government are served by participation of DoD personnel in activities at the expense of individual defense contractors when the invitation is addressed to and approved by the employing agency of DoD. These activities include public ceremonies of mutual interest to industry, local communities, and the department, such as the launching of ships or the unveiling of new weapons systems, industrial activities which are sponsored by or encouraged by the Government as a matter of United States defense or economic policy, such as sales meetings to promote off-shore sales involving foreign industrial groups or governments.

(3) Luncheons or dinners at a contractor's plant on an infrequent basis, when the conduct of official business within the plant will be facilitated and when no provision can be made for individual payment.

(4) Situations in which, in the judgment of the individual concerned, the Government's interest will be served by participation by DoD personnel in activities at the expense of a defense contractor. In any such case in which DoD personnel accepts any gratuity, favor, entertainment, etc., either directly or indirectly from any person, firm, corporation, or any other entity which is engaged or is endeavoring to engage in business transactions of any sort with the department, a report of the circumstances will be made within 48 hours by the individual to the designee of the Secretary of the Military Department concerned or the designee of the Secretary of Defense in the case of DoD personnel not within one of the Military Departments.

(5) Speciality advertising items of trivial intrinsic value.

(6) Customary exchange of social amenities between personal friends and relatives when motivated by such relationship and extended on a personal basis.

(7) Thinks available impersonally to the general public or classes of the general public such as a free exhibition by a defense contractor at a world's fair.

(8) Trophies, entertainment, rewards, prizes, given to competitors in contests which are open to the public generally or which are officially approved for participation in by DoD personnel.

(9) Transactions between and among relatives which are personal and consistent with the relationship.

(10) The acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees such as home mortgage loans.

(11) Social activities engaged in by officials of the department and officers in command or their representatives with

V 40170 APR 10 75 XUM

local civilian leaders as part of community relations programs.

(12) Contractor-provided local transportation while on official business and when alternative arrangements are clearly impracticable.

(13) Participation in civic and community activities by DoD personnel when the relationship with the defense contractor can reasonably be characterized as remote, for example, participation in a little league or Combined Federal Campaign luncheon which is subsidized by a concern doing business with a defense activity.

(14) The acceptance of accommodations, subsistence, or services furnished in kind in connection with official travel, from other than Defense contractors, when authorized by the order-issuing authority as in the overall Government interest. When accommodations, subsistence, or services in kind are furnished to DOD personnel by private sources, appropriate deductions shall be made in the travel, per diem, and other allowances otherwise payable to the personnel. DOD personnel may not accept personal reimbursement from a private source for expenses incident to official travel, unless authorized pursuant to 5 U.S.C. 4111 or other express statutory authority. Rather, any reimbursement must be made to the Government by check payable to the Treasurer of the United States; personnel will be reimbursed by the Government in accordance with regulations relating to reimbursement. In no case shall DOD personnel accept—either in kind or on a reimbursable basis—benefits which are under prudent standards extravagant or excessive in nature.

(c) Except as provided in (b)(12) of this section, personnel on official business may not accept contractor-provided transportation, meals or overnight accommodations in connection with such official business so long as Government or commercial transportation or quarters are reasonably available. Where, however, the over-all Government interest would be served by acceptance by DOD members of such transportation or accommodations in specific cases, the order issuing authority may authorize it.

(d) Procedures with respect to gifts from foreign governments are set forth in DOD Directive 1005.3.[2]

(e) Procedures with respect to ROTC Staff Members are set forth in Part 92 of this subchapter.

§ 40.6 Prohibitions of contributions or presents to superiors.

DOD personnel shall not solicit a contribution from other officers or employees for a gift to an official superior, make a donation as a gift to an official superior, or accept a gift from an officer or employee receiving less pay then themselves (5 U.S.C. 7351). However, this section does not prohibit a voluntary gift of nominal value or donation in nominal amount made on a special occasion such as marriage, illness or retirement.

§ 40.7 Use of Government facilities, property, and manpower.

DOD personnel will not directly or indirectly use, or allow the use of, government property of any kind, including property leased to the government, for other than officially approved activities. Government facilities, property, and manpower, such as stenographic and typing assistance, mimeograph and chauffeur services, may be used only for official government business. DOD personnel have a positive duty to protect and conserve government property, including equipment, supplies, and other property entrusted to them. This section is not intended to preclude the use of government facilities for activities which would further military-community relations provided they do not interfere with military missions.

§ 40.8 Use of civilian and military titles in connection with commercial enterprises.

(a) All civilian personnel, and military personnel on active duty, are prohibited from using their civilian and military titles or positions in connection with any commercial enterprises or in endorsing any commercial product. The foregoing shall not be deemed to preclude publication by such personnel of books or articles which identify them as author by reference to their military or civilian title or position, provided that publication of such material is permitted under § 40.9(d) and has been cleared under existing DoD procedures. (See DoD Directive 5230.9, "Clearance of DoD Public Information," December 24, 1966.[2])

(b) All retired military personnel and all members of reserve components, not on active duty, are permitted to use their military titles in connection with commercial enterprises. Such use of military titles shall in no way cast discredit on the military services or the DoD. Such use is prohibited in connection with commercial enterprises when such use, with or without the intent to mislead, gives rise to any appearance of sponsorship, sanction, endorsement, or approval by the Military Services or the DoD. The Military Department may restrict retired personnel and members of reserve components not on active duty, from using their military titles in connection with public appearance in overseas areas.

§ 40.9 Outside employment of DoD personnel.

(a) DoD personnel shall not engage in outside employment or other outside activity, with or without compensation, which:

(1) Interfers with, or is not compatible with, the performance of their Government duties;

(2) May reasonably be expected to bring discredit on the Government or the DoD agency concerned or;

(3) Is inconsistent with § 40.3(a), including such inconsistent acts as the acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which that acceptance may result in, or create the appearance of, conflicts of interest.

(b) No enlisted member of the armed forces on active duty may be ordered or permitted to leave his post to engage in a civilian pursuit or business, or a performance in civil life, for emolument, hire, or otherwise, if the pursuit, business, or performance interferes with the customary or regular employment of local civilians in their art, trade or profession.

(c) An active duty officer of the regular Navy or Marine Corps may not be employed by any person furnishing Naval supplies or war materials to the United States and continue to receive his service pay.

(d) DoD personnel are encouraged to engage in teaching, lecturing, and writing. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Commission or Board of Examiners for the Foreign Service, that is dependent on information obtained as a result of his Government employment, except when that information has been published or is available to the general public or will be made available on request, or when the agency head gives written authorization for the use of nonpublic information on the basis that the use is in the public interest. In addition, an employee who is a civilian Presidential appointee shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance, the subject matter of which is devoted substantially to the responsibilities, programs or operations of his agency or which draws substantially on official data or ideas which have not become part of the body of public information.

(e) This section does not preclude DoD personnel from:

(1) Participation in the activities of national or State political parties not proscribed by law or regulation.

(2) Participation in the affairs or acceptance of an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit educational, nonprofit recreational, public service, or civic organization.

(f) Off-duty employment of military personnel by an organization involved in a strike is permissible if the member was on the payroll of such organization prior to the commencement of the strike and if the employment is otherwise in conformance with the provisions of this Part. No military member may accept employment by an organization at a location where that organization is involved in a strike after commencement and during the course of such a strike. Members who are engaged in off-duty civilian employment which does not meet the above policy will be required to terminate such employment.

[2] Filed as part of original. Copies available from the U.S. Naval Publications and Form Center, 5801 Tabor Avenue, Philadelphia, Pa. 19120 Attn: Code 300.

§ 40.10 Gambling, betting, and lotteries.

DoD personnel shall not participate, while on Government-owned or leased property or while on duty for the Government, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket. However, this section does not preclude activities:

(a) Necessitated by an employee's law enforcement duties; or

(b) Under section 3 of Executive Order 10927 and similar agency-approved activities.

§ 40.11 Indebtedness.

DoD personnel shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State, or local taxes. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, and "in a proper and timely manner" means in a manner which the agency determines does not, under the circumstances, reflect adversely on the Government as his employer. In the event of dispute between an employee and an alleged creditor, this section does not require an agency to determine the validity or amount of the disputed debt.

§ 40.12 Information to personnel.

(a) New DoD personnel will be informed of the standards of conduct specified in this Part upon employment or entry on duty. These standards of conduct will also be brought to the attention of all DoD personnel by appropriate means upon promulgation and at least semi-annually thereafter.

(b) The attention of DoD personnel is directed to each statute relatin gto ethical and other conduct that is referred to in this Part and in Appendix B. DoD personnel will be advised how to obtain additional clarification of the standards of conduct set forth in this part and related statutes, rules, and regulations. For this purpose each of the Military Departments and Defense Agencies shall designate one or more legal officers as deputy counselors who shall be responsible for providing advice and assistance on all matters relating to conduct and conflicts of interest covered by this part and for reviewing statements of employment and financial interest.

(c)(1) Appropriate officials in the office of the Secretary of each Military Department and Head of each Defense Agency shall be designated as the counselor for such department or agency and shall be responsible for proper coordination and final disposition of all problems relating to conflicts of interest and for the review of statements of employment and financial interest in accordance with regulations to be prescribed by the respective Secretaries or Agency Heads in accordance with paragraph (c)(2) of this section. In the Office of the Secretary of Defense, the General Counsel of the DoD or his designee will be responsible for these matters.

(2) Regulations governing the review of statements of employment and financial interests shall provide that:

(i) Whenever such review discloses a conflict or apparent conflict of interests, the employee concerned is entitled to an opportunity to explain the conflict or appearance of conflict.

(ii) If the conflict or appearance of conflict is not resolved on review by the explanation made by the employee, the information concerning the matter shall be submitted to the appropriate Secretary or Agency Head, or his designee, after review by the counselor designated under paragraph (c)(1) of this section.

(iii) The resolution of a conflict or apparent conflict of interest either on review or after referral to the appropriate Secretary or Agency Head, or his designee, shall be effected promptly so that the conflict or appearance of conflict is ended. The resolution of the conflict or appearance of conflict may be accomplished by one or more means, such as changes in assigned duties, divestment of the conflicting interest, disqualification for a particular assignment, or disciplinary action. The resolution, whether by disciplinary action or otherwise, shall be effected in accordance with applicable laws, Executive orders, and regulations.

§ 40.13 Reporting suspected violations.

DoD personnel who have information which causes them to believe that there has been a violation of a statute or policy set forth in this Part will promptly report such incidents to their immediate superiors. If the superior believes there has been a violation, he will report the matter for further action in accordance with existing procedures. Any question or doubt on the part of the immediate superior will be resolved in favor of reporting the matter.

§ 40.14 Statements of employment and financial interests.

(a) DoD personnel required to submit statements.

(1) Employees paid at a level of the Executive Schedule in subchapter II of chapter 53 of title 5, United States Code.

(2) Board members of the Armed Service Boards of Contract Appeals.

(3) DoD personnel classified at GS–13 or above under section 5332 of title 5, United States Code, or at a comparable pay level under another authority, or members of the military in the rank of Lieutenant Colonel, Commander or above whose basic duties and responsibilities require the incumbent to exercise judgment in making a Government decision or in taking Government action in regard to administering or monitoring grants or subsidies.

(4) DoD personnel classified at GS–13 or above under section 5332 of title 5, United States Code, or at a comparable pay level under another authority, or members of the military in the rank of lieutenant Colonel, Commander or above whose basic duties and responsibilities require the incumbent to exercise judgment in making a Government decision or in taking Government action in regard to:

(i) *Contracting or procurement.* For the purpose of this section "contracting or procurement" is defined as executing or approving the award of contracts.

(ii) *Auditing.* Auditing private or other non-Federal enterprise including the supervision of auditors engaged in audit activities or the participating in the development of policies and procedures for performing such audits, including the authorization and monitoring of grants to institutions or other non-Federal enterprise.

(iii) *Other.* Activities in which the final decision or action has a significant economic impact on the interests of any non-Federal enterprise.

(b) Review of Positions. Each DoD Component shall review its positions in paragraphs (a)(3) and (4) of this section, both military and civilian, and include in each military and civilian position description, or similar documents describing the duties and responsibilities of the position, a statement as to whether the incumbent of the position must file a statement of employment and financial interests as required by this section. This determination will be reviewed at least annually. The review may be accomplished at the time performance, efficiency or effectiveness ratings are given; or incident to other currently prescribed annual reviews. Incumbents of positions identified as involving any of the functions described in either paragraphs (a)(3) and (4) of this section shall be required to comply with the filing requirements of this section. Any individual who believes that his position has been improperly included in paragraphs (a)(3) and (4) of this section may request a review of the decision requiring him to file a statement through the established grievance or complaint procedures of the department or agency.

(c) Positions in the above categories may be excluded when it is determined by the Secretary of the Military Department concerned or head of the DoD Agency concerned, or the designee of either, that the duties are at such a level of responsibility that the submission of a statement of employment and financial interests is not necessary because of the degree of supervision and review of the incumbent and the remote and inconsequential effect on the integrity of the Government.

(d) The statements of employment and financial interests shall be submitted on DD forms furnished by the DoD agency concerned. DD Form 1555,[2] "Confidential Statement of Employment and Financial Interests—DoD Personnel," is for use by all DoD personnel except special Government employees. DD Form 1555–1,[2] "Confidential Statement of Employment and Financial Interests," is for use by special Government employees.

[2] Filed as part of original. Copies available at respective Military Department Publications Counter.

V 40 I 70 A PR 10 75 XUM

(e) Manner of Submission—Statements of Employment.

(1) The Secretary of Defense, as the Head of the Agency, is required to submit his statement of employment and financial interest to the Chairman of the Civil Service Commission under the provisions of Section 401(a) of Executive Order 11222.

(2) All civilian Presidential appointees of the Department of Defense shall submit statements of employment and financial interest to the General Counsel of the Department of Defense.

(3) Officers or employees of the Office of the Secretary of Defense shall submit statements of employment and financial interest to the General Counsel of the Department of Defense.

(4) Officers and employees of the Military Departments or Defense Agencies shall submit statements of employment and financial interest to officials of the Military Departments or Defense Agencies to be designated by the Secretaries of the Military Departments or the heads of Defense Agencies in the regulations of those departments and agencies.

(5) Statements of employment and financial interest shall be submitted by each officer or employee required by this Directive to file such a statement, not later than June 30, 1966, and periodically thereafter as prescribed in paragraph (i) of this section. Employees who enter Government service after the effective date of this Directive, who are required to file a statement of employment and financial interest, shall file such statements within 30 days from the date of commencement of such service. Designees to positions requiring the approval of the Secretary of Defense or the Secretary of a Military Department shall execute the statement in advance of nomination so that it may be reviewed prior to appointment.

(f) Excusable Delay. If by reason of his duty assignment it is impracticable for an individual to submit a statement within the period required by this section, his immediate superior may grant an extension of time therefor. Any extension in excess of 30 days requires the concurrence of the head of the Military Department or Defense Agency concerned, or his designee. Statements submitted pursuant to an extension of time granted hereunder shall include appropriate notation to that effect.

(g) Special Government Employees—Statement of Employment and Financial Interest.

(1) For the purpose of this paragraph, "Special Government Employee" has the meaning given that term by § 40.15(b)(1).

(2) Each special Government employee who is an adviser or consultant shall, prior to appointment, file with a designated official of the Military Department or Defense agency where he is employed a statement (DD Form 1555–1[a]), setting forth his Government employment, his private employment, and his financial interests. An appointee must list *all* of his investments and other financial interests such as a pension; retirement; group life, health, or accident insurance; and profit-sharing, stock bonus, or other employee welfare or benefit plan maintained by a former employer. He is not required to list precise amounts of investments.

The following categories of special Government employees are not considered advisers or consultants within the meaning of this section when performing the specific services listed below and are not required to file the statement referred to above.

(i) Physicians, dentists, and allied medical specialists performing care and service to patients.

(ii) Veterinarians providing veterinary service to animals.

(iii) Lecturers participating in educational activities.

(iv) Chaplains performing religious services.

(v) Individuals of national prominence in the motion picture and television fields who are utilized as narrators or actors in motion picture or television productions produced by the DoD.

(vi) Members of selection panels for NROTC candidates.

(vii) A special Government employee who is not a "consultant" or "expert" as those terms are defined in Chapter 304 of the Federal Personnel Manual.

(h) Exceptions to Specific Appointees. The Secretary or the Deputy Secretary of Defense, or the Secretary of a military department may grant an exception to a specific appointee from completing that part of the statement relating to his investments and other financial interests referred to in paragraph (g) of this section, upon the making of a determination that this information is not relevant in the light of the duties the appointee is to perform.

(i) Supplementary Statements. Changes in or additions to the information contained in an employee's statement of employment and financial interests shall be reported in a supplementary statement as of June 30th each year. Even though no changes or additions occur a negative report is required. Notwithstanding the filing of the annual report, DoD personnel shall at all times avoid acquiring a financial interest that could result, or taking action that would result, in a violation of the conflict-of-interest provisions of 18 U.S. Code 208 or this Part.

(j) Interests of Employee's Relatives. The interest of a spouse, minor child, or other member of an employee's immediate household is considered to be an interest of the employee. For the purpose of this section, "member of an employee's immediate household" means those blood relations who are residents of the employee's household.

(k) Information Not Known by Employees. If any information required to be included on a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information in his behalf.

(l) Information Not Required to be Submitted. An employee is not required to submit on a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purpose of this section, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

(m) Confidentiality of Employee's Statements. An agency shall hold each statement of employment and financial interests, and each supplementary statement, in confidence. An agency may not disclose information from a statement except as the agency head or the Civil Service Commission may determine for good cause. Persons designated to review the statements are responsible for maintaining the statements in confidence and shall not allow access to, or allow information to be disclosed from the statement except to carry out the purpose of this Part.

(n) Effect of Employees' Statements on Other Requirements. The statements of employment and financial interests and supplementary statements required of employees are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

§ 40.15 Conflict of interest laws.

(a) *Full-time Officers and Employees*—(1) *Definition.* The term "full-time officer or employee" includes all civilian officers and employees, and all military officers on active duty, except those who are "special Government employees" (See paragraph (b) of this section.) It does not include enlisted personnel.

(2) *Prohibitions.* Appendix B(a) contains a discussion of criminal laws relating to conflict of interest and exemptions therefrom. In general, a full-time officer or employee is subject to the following major prohibitions.

(i) He may not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest. This prohibition applies both to paid and unpaid representation of another (See 18 U.S.C. 203 and 205).

(ii) The indirect interests in business or supplementation of his Government salary, from a private source as compensation for his services to the Government (See 18 U.S.C. 209).

(iii) He may not participate in his Governmental capacity in any matter in which he, his spouse, minor child, outside business associate or person with whom he is negotiating for employment, has a financial interest (See 18 U.S.C. 208). Instead of participating in such a matter, he must promptly disqualify himself in accordance with (4) of this paragraph, except as provided in (3) of this paragraph.

(3) *Nondisqualifying financial interest.* (i) A full-time officer or employee need not disqualify himself under paragraph (a)(2)(iii) of this section, if his financial holdings are in shares of a widely-held diversified mutual fund or regulated investment company.

(ii) The indirect interests in business entities which the holder of shares in a widely-held diversified mutual fund or regulated investment company derives from ownership by the fund or investment company of stocks in business entities is hereby exempted from the provisions of 18 U.S.C. 208a, in accordance with the provisions of 18 U.S.C. 208b(2) as being too remote or inconsequential to affect the integrity of the Government officers' or employees' services.

(4) *Disqualification procedure.* (i) In any case where a full-time officer or employee must disqualify himself under paragraph (a)(2)(iii) of this section, he will promptly notify his superior thereof and make a full disclosure of the financial interest. The superior will thereupon relieve him from his duty and responsibility in the matter, unless the Government official responsible for his appointment makes a written advance determination that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from the officer or employee. Such written determination shall be retained in the agency records.

(ii) In the case of a military officer or a civilian employee, the "official responsible for his appointment" shall, for purposes of this paragraph, be his immediate superior or an official designated to perform this function.

(iii) In addition, where a superior thinks anyone responsible to him may have a disqualifying interest, he will discuss the matter with that person, and, if he finds such an interest does exist, he will relieve the person of duty and responsibility in the particular matter.

(iv) In cases of disqualification under this paragraph, the matter will be reassigned for decision and action to someone else who is not subordinate to the disqualified person.

(b) *Special Government Employees*—(1) *Definition.* The term "special Government employee" includes an officer or employee who is retained, designated, appointed, or employed to perform, with or without compensation, for not to exceed 130 days during any period of 365 consecutive days, temporary duties either on a full-time or intermittent basis. (See 18 U.S.C. 202). The term also includes a Reserve officer while on active duty solely for training for any length of time, one who is serving on active duty involuntarily for any length of time, and one who is serving voluntarily on extended active duty for 130 days or less. It does not include enlisted personnel.

(2) *Prohibitions.* Appendix B contains a detailed discussion of criminal laws relating to conflict of interest. In general, a special Government employee is subject to the following major prohibitions:

(i) He may not, except in the discharge of his official duties, represent anyone else:

(a) Before a court or Government agency in a matter in which the United States is a party or has an interest and in which he has at any time participated personally and substantially for the Government (See 18 U.S.C. 203 and 205).

(b) In a matter pending before the agency he serves unless he has served there no more than 60 days during the past 365 (See 18 U.S.C. 203 and 205). He is bound by this restraint despite the fact that the matter is not one in which he has ever participated personally and substantially.

The restrictions described in paragraph (2)(a) and (b) of this section apply to both paid and unpaid representation of another.

(ii) He may not participate in his governmental capacity in any matter in which he, his spouse, minor child, outside business associate or person with whom he is negotiating for employment, has a financial interest (See 18 U.S.C. 208). Instead of participating in such a matter, he must promptly disqualify himself in accordance with § 40.15(a)(4), except as provided in § 40.15(a)(3).

(iii) After his Government employment has ended, he is subject to the prohibitions in § 40.15(c)(a) as a "former employee." (See 18 U.S.C. 207).

(c) *Former Officers or Employees*—(1) *Definition.* The term "former officer or employee" includes those full-time civilian officers or employees who have left Government service, special Government employees who have left Government service, retired regular officers and reserve officers released from active duty. It does not include enlisted personnel.

(2) *Prohibited activities.* Appendix B(b) contains a more detailed discussion of the criminal law. In general, a former officer or employee is subject to the following major prohibitions:

(i) He may not, at any time after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and in which he participated personally and substantially for the Government (See 18 U.S.C. 207(a)).

(ii) He may not, for one year after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and which was within the boundaries of his official responsibility during the last year of his Government service (See 18 U.S.C. 202(b) and 207(b)). This temporary restraint, of course, gives way to the permanent restriction described in (c)(2)(i) of this section if the matter is one in which he participated personally and substantially.

(d) *Retired Regular Officers*—(1) *Prohibitions.* Appendix B(c) to this Part contains a summary of the laws applicable to retired regular officers. In general, a retired regular officer is subject to the following major prohibitions:

(i) As an officer whose "employment has ceased," he may not engage in the prohibited activities listed in paragraph (c) of this section. (See 18 U.S.C. 207).

(ii) He may not, at any time, assist in prosecuting a claim against the United States if he worked on that claim while on active duty (See 18 U.S.C. 283).

(iii) He may not, within two years after his retirement, assist in prosecuting a claim which involves the department in whose services he holds a retired status (See 18 U.S.C. 283).

(iv) He may not, at any time, sell anything to the department in whose service he holds a retired status (See 18 U.S.C. 281).

(v) He may not, within three years after retirement, sell supplies or war materials to any agency of the DoD, the Coast Guard, the Coast and Geodetic Survey, or the Public Health Service (See 37 U.S.C. 801(c), as amended October 9, 1962, Pub. L. 87–777, formerly 5 U.S.C. 59(c)). (See definition of "Selling," Appendix B(c)(I.)(C.) to this Part.)

(2) *Required Statement of Employment.* (i) Each regular retired officer of the armed forces shall file with the military department in which he holds a retired status a Statement of Employment (DD Form 1357).[a] Each regular officer retiring hereafter shall file this Statement within thirty days after retirement. Whenever the information in the statement is no longer accurate, each such officer shall file a new DD Form 1357.[a]

(ii) The Military Departments shall appropriately review the Statements of Employment to assure compliance with applicable statutes and regulations.

(e) *Officers of the Reserve Components.* (1) A Reserve officer who is voluntarily serving a period of extended active duty in excess of 130 days is a full-time Government officer, and § 40.15(a), applies to him.

EXCEPTION: Any Reserve who, before being ordered to active duty, was receiving compensation from any person may, while he is on that duty, receive compensation from that person (See 10 U.S.C. 1033).

(2) A Reserve officer who is serving on active duty involuntarily for any length of time, and a Reserve officer who is voluntarily serving on extended active

V 40170 APR 10 75 XUM

duty for 130 days or less, is a "special Government employee," and § 40.15(b), applies to him.

(3) A Reserve officer (unless otherwise a full-time officer or employee of the United States) who is on active duty solely for training for any length of time is a "special Government employee," and § 40.15(b), applies to him.

(4) When he is released from active duty, a Reserve officer described in paragraphs (c) (1), (2), or (3) of this section, is a "former officer", and § 40.15(c), applies to him.

(5) Membership in a Reserve component of the armed forces or in the National Guard does not, in itself, prevent a person from practicing his civilian profession or occupation before or in connection with any department (See 5 U.S.C. 30r (c), (d)).

(6) An officer of a Reserve component, whether in a Ready, Standby or Retired Reserve status, who is not on active duty is not, solely because of his status as a Reserve, considered to be an officer or employee of the United States for the purpose of bringing him within the prohibitions summarized in § 40.15 (a), (b) or (c) (see 5 U.S.C. 30r (c), (d)).

(7) Receipt of retired pay by a Reserve or a former Reserve does not, in itself, make him an officer or employee or a former officer or employee for the purpose of bringing him within the prohibitions summarized in § 40.15 (a), (b), or (c). § 40.15(d) does not apply to a retired Reserve.

§ 40.16 Effective date and implementation.

This amended Part shall become effective on August 1, 1967. Two copies of implementing regulations of the Military Departments and Defense Agencies will be submitted to the General Counsel, DoD, for approval prior to promulgation, and no later than 60 days from the date this amended Part is published.

APPENDIX A—HOUSE CONCURRENT RESOLUTION 175, 85TH CONGRESS, 2D SESSION

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that the following Code of Ethics should be adhered to by all Government employees, including officeholders:

CODE OF ETHICS FOR GOVERNMENT SERVICE

Any person in Government service should:

1. Put loyalty to the highest moral principles and to country above loyalty to persons, party, or Government department.

2. Uphold the Constitution, laws, and legal regulations of the United States and of all governments therein and never be a party to their evasion.

3. Give a full day's labor for a full day's pay; giving to the performance of his duties his earnest effort and best thought.

4. Seek to find and employ more efficient and economical ways of getting tasks accomplished.

5. Never discriminate unfairly by the dispensing of special favors or privileges to anyone, whether for remuneration or not; and never accept for himself or his family, favors or benefits under circumstances which might be construed by reasonable persons as influencing the performance of his governmental duties.

6. Make no private promises of any kind binding upon the duties of office, since a Government employee has no private word which can be binding on public duty.

7. Engage in no business with the Government, either directly or indirectly, which is inconsistent with the conscientious performance of his governmental duties.

8. Never use any information coming to him confidentially in the performance of governmental duties as a means for making private profit.

9. Expose corruption wherever discovered.

10. Uphold these principles, ever conscious that public office is a public trust.

APPENDIX B—DIGEST OF CONFLICT OF INTEREST LAWS

(a) LAWS APPLICABLE TO FULL-TIME OFFICERS AND EMPLOYEES

I. *18 U.S.C. 203.* Subsection (a) of this section in general prohibits an officer or employee of the United States in any branch or agency of the Government from soliciting or receiving compensation for services rendered on behalf of another person before a Government department or agency in relation to any particular matter in which the United States is a party or has a direct and substantial interest. The subsection does not prelude compensation for services rendered on behalf of another in court.

Subsection (b) makes it unlawful for anyone to offer or pay compensation, the solicitation or receipt of which is barred by subsection (a).

II. *18 U.S.C. 205.* This section contains two major prohibitions. The first prevents an officer or employee of the United States in any branch or agency of the Government from acting as agent or attorney for prosecuting any claim against the United States, including a claim in court, whether for compensation or not. It also prevents him from receiving a gratuity, or a share or interest in any such claim, for assistance in the prosecution thereof.

The second main prohibition of section 205 is concerned with more than claims. It precludes an officer or employee of the Government from acting as agent or attorney for anyone else before a department, agency or court in connection with any particular matter in which the United States is a party or has a direct and substantial interest.

18 U.S.C. 203 and 205 overlap. The following are the few important differences between sections 203 and 205 as they apply to officers and employees of the Government:

(1) Section 203 bars services rendered for compensation solicited or received, but not those rendered without such compensation; section 205 bars both kinds of services.

(2) Section 203 bars services rendered before the departments and agencies but not services rendered in court; section 205 bars both.

It should be noted, however, that for all practical purposes section 205 completely overshadows section 203.

Exemptions: Section 205 permits a Government officer or employee to represent another person, without compensation, in a disciplinary, loyalty or other personnel matter. Another provision declares that the section does not prevent an officer or employee from giving testimony under oath or making statements required to be made under penalty for perjury or contempt.

Section 205 also authorizes a limited waiver of its restrictions and those of section 203 for the benefit of an officer or employee, including a special Government employee, who represents his own parents, spouse or child, or a person or estate he serves as a fiduciary. The waiver is available to the officer or employee, whether acting for any such person with or without compensation, but only if approved by the official making appointments to his position. In no event does the waiver extend to his representation of any such person in matters in which he has participated personally and substantially or which, even in the absence of such participation, are the subject of his official responsibility.

Finally, section 205 gives the head of a department or agency the power, notwithstanding any applicable restrictions in its provisions or those of section 203, to allow a special Government employee to represent his regular employer or other outside organization in the performance of work under a Government grant or contract. However, this action is open to the department or agency head only upon his certification, published in the FEDERAL REGISTER, that the national interest requires it.

III. *18 U.S.C. 208.* This section forbids certain actions by an officer or employee of the Government in his role as a servant or representative of the Government. Its thrust is therefore to be distinguished from that of 18 U.S.C. 203 and 205 which forbid certain actions in his capacity as a representative of persons outside the Government.

Subsection (a) in substance requires an officer or employee of the executive branch, including a special Government employee, to refrain from participating as such in any matter in which, to his knowledge, he, his spouse, minor child or partner has a financial interest. He must also remove himself from a matter in which a business or nonprofit organization with which he is connected or is seeking employment has a financial interest. Under this section, a "particular matter" may be a matter less concrete than an actual contract, because the concept of a "particular matter involving a specific party or parties" is not used here as in other sections. However, a "particular matter" is something more specific than rule making or abstract scientific principles. The test for determining whether the action of the individual involves a particular matter in which he (or the other enumerated parties) has a financial interest is whether he might reasonably anticipate that his action or the decision in which he participates or with respect to which he advises, will have a direct and predictable effect upon a financial interest of himself, his spouse, minor child, partner or organization with which he is connected or seeking employment.

Subsection (b) permits the agency of an officer or employee to grant him an ad hoc exemption from subsection (a) if the outside financial interest in a matter is deemed not substantial enough to have an effect on the integrity of his services. Financial interests of this kind may also be made nondisqualifying by a general regulation published in the FEDERAL REGISTER.

IV. *18 U.S.C. 209.* Subsection (a) prevents an officer or employee of the executive branch, and independent agency or the District of Columbia from receiving, and anyone from paying him, any salary or supplementation of salary from a private source as compensation for his services to the Government.

Subsection (b) specifically authorizes an officer or employee covered by subsection (a) to continue his participation in a bona fide pension plan or other employee welfare or benefit plan maintained by a former employer.

Subsection (c) provides that section 209 does not apply to a special Government employee or to anyone serving the Government without compensation, whether or not he is a special Government employee.

Subsection (d) provides that the section does not prohibit the payment or acceptance

of contributions, awards or other expenses under the terms of the Government Employees Training Act.

V. *Applicable to Regular Navy and Marine Officers, 37 U.S.C. 801(a) Formerly 10 U.S.C. 6112(a).* An officer of the Regular Navy or the Regular Marine Corps, other than a retired officer, may not be employed by any person furnishing Naval supplies or war materials to the United States. If such an officer is so employed, he is not entitled to any payment from the United States during that employment.

(b) LAW APPLICABLE TO FORMER OFFICERS AND EMPLOYEES

I. *18 U.S.C. 207.* Subsections (a) and (b) of this section contain post-employment prohibitions applicable to persons who have ended service as officers or employees of the executive branch. The prohibitions for persons who have served as special Government employees are the same as for persons who have performed regular duties.

The restraint of subsection (a) is against a former officer or employee's acting as agent or attorney for anyone other than the United States in connection with certain matters, whether pending in the courts or elsewhere. The matters are those involving a specific party or parties in which the United States is one of the parties or has a direct and substantial interest and in which the former officer or employee participated personally and substantially while holding a Government position.

Subsection (b) sets forth a one-year post-employment prohibition in respect of those matters which were within the area of official responsibility of a former officer or employee at any time during the last year of his service but which do not come within subsection (a) because he did not participate in them personally and substantially. More particularly, the prohibition of subsection (b) prevents his personal appearance in such matters before a court or a department or agency of the Government as agent or attorney for anyone other than the United States. Where, in the year prior to the end of his service, a former officer or employee has changed areas of responsibility by transferring from one agency to another, the period of his post-employment ineligibility as to matters in a particular area ends one year after his responsibility for that area ends. For example, if an individual transfers from a supervisory position in the Internal Revenue Service to a supervisory position in DoD and leaves DoD for private employment nine months later, he will be free of the restriction of subsection (b) in three months insofar as Internal Revenue matters are concerned. He will of course be bound by it for a year in respect of DoD matters.

The proviso following subsections (a) and (b) authorizes a department head, notwithstanding anything to the contrary in their provisions, to permit a former officer or employee with outstanding scientific qualifications to act as attorney or agent or appear personally before the department for another in a matter in a scientific field. This authority may be exercised by the department head upon a "national interest" certification published in the FEDERAL REGISTER.

Subsection (a) describes the activities it forbids as being in connection with "particular matters involving a specific party or parties" in which the former officer or employee had participated. Subsection (b) relates to matters which were under his official responsibility. The language of both does not include general rulemaking, the formulation of general policy or standards, or other similar matters. Thus, past participation in or official responsibility for a matter of this kind on behalf of the Government does not disqualify a former employee from representing another person in a proceeding which is governed by the rule or other result of such matter. Similarly, in the scientific field past participation in discussion of scientific or engineering concepts, the feasibility of scientific or technical accomplishments or proposed Government programs in early stages prior to the formulation of contract or a contract proposal where specific parties become involved in a matter, does not disqualify the former employee from representing his company with respect to a contract entered into at a later time even though the same general scientific matters may be involved in such a contract.

Subsection (a) bars permanently a greater variety of actions than subsection (b) bars temporarily. The conduct made unlawful by the former is any action as agent or attorney, while that made unlawful by the latter is a personal appearance as agent or attorney. However, neither subsection precludes post-employment activities which may fairly be characterized as no more than aiding or assisting another. An individual who has left the department to accept private employment may, for example, immediately perform technical work in his company's plant in relation to a contract for which he had official responsibility—or, for that matter, in relation to one he helped the agency negotiate. On the other hand, he is forbidden for a year, in the first case, to appear personally before the department as the agent or attorney of his company in connection with a dispute over the terms of the contract. He may at no time appear personally before the department or otherwise act as agent or attorney for his company in such dispute if he helped negotiate the contract. Under both sections the disability is personal, and neither section would prevent the former officer or employee from becoming the president or other officer of a corporation which has contracts with the Government, so long as such former officer or employee does not personally act as the agent or attorney of the company in dealing with the matters covered under Sections a and b.

(c) SUMMARY OF LAWS APPLICABLE TO RETIRED REGULAR OFFICERS NOT ON ACTIVE DUTY

I. *Prohibited Activities.* A. *Matters Connected With Former Duties or Official Responsibilities.* A retired regular officer not on active duty is considered to be a "former officer" for the purposes of 18 U.S.C. 207 and therefore, the prohibitions discussed in paragraph XVI.C and Inclosure 3 B apply to him.

B. *Claims.* A retired regular officer of the armed forces may not, within two years of his retirement, act as agent or attorney for prosecuting any claim against the Government, or assist in the prosecution of such a claim or receive any gratuity or any share of or interest in such claim in consideration for having assisted in the prosecution of such a claim, if such claim involves the department in whice service he holds a retired status. Nor may a regular retired officer at any time act as an agent or attorney for prosecuting any claim against the Government or assist in prosecution of such claim, or receive any gratuity or any share of or interest in such a claim in consideration for having assisted in the prosecution of such claim, if such claim involves any subject matter with which he was directly connected while on active duty (See 18 U.S.C. 283).

C. *Selling.* 1. A retired regular officer is prohibited, at all times, from receiving or agreeing to receive any compensation for representing any person in the sale of anything to the Government through the department in whose service he holds a retired status (See 18 U.S.C. 281).

2. 37 U.S.C. 801(c) as amended October 9, 1962, PL. 87-777, formerly 5 U.S.C. 59(c) provides:

"No payment shall be made from appropriations in any Act to any officer on the retired lists of the Regular Army, Regular Navy, Regular Marine Corps, Regular Air Force, Regular Coast Guard, Coast and Geodetic Survey, and Public Health Service for a period of *three* years after retirement who for himself or for others is engaged in the selling of or contracting for the sale of or negotiating for the sale of, to any agency of the Department of Defense, the Coast Guard, the Coast and Geodetic Survey, and the Public Health Service any supplies or war materials."

For the purpose of this statute, "selling" means:

a. Signing a bid, proposal, or contract;

b. Negotiating a contract;

c. Contacting an officer or employee of any of the foregoing departments or agencies for the purpose of:

(1) Obtaining or negotiating contracts,

(2) Negotiating or discussing changes in specifications, price, cost allowances, or other terms of a contract, or

(3) Setting disputes concerning performance of a contract, or

d. Any other liaison activity with a view toward the ultimate consummation of a sale although the actual contract therefor is subsequently negotiated by another person.

However, it is not the intent of this Directive to preclude a retired regular officer from accepting employment with private industry solely because his employer is a contractor with the Government.

II. *Exemptions from Law Applying to Officers on Active Duty.* A regular officer who has been retired continues to be an "officer" of the United States for purposes of many statutes. However, the laws applying to officers on active duty listed in paragraph XVI A of this Directive do not normally apply to retired regular officers not on active duty. The law specifically provides that 18 U.S.C. 203 and 205 do not apply to a retired officer while not on active duty who is not otherwise an officer or employee of the United States (See 18 U.S.C. 206). In addition, as a practical matter, 18 U.S.C. 208 and 209 do not apply to a retired officer not on active duty who is not performing services for the Government, solely because of his status as a retired regular officer.

(d) OTHER RELATED LAWS APPLICABLE TO ALL DEPARTMENT OF DEFENSE PERSONNEL

The following activities may subject present and former DoD personnel to penalties:

A. Aiding, abetting, counseling, commanding, inducing, or procuring another to commit a crime under any criminal statute (See 18 U.S.C. 201).

B. Concealing or failing to report to proper authorities the commission of a felony under any criminal statute if such personnel knew of the actual commission of the crime (See 18 U.S.C. 4).

C. Conspiring with one or more other persons to commit a crime under any criminal statute or to defraud the United States, if any party to the conspiracy does any act to effect the object of the conspiracy (See 18 U.S.C. 371).

V 40 I 70 APR 10 75 XUM

D. The prohibition against lobbying with appropriated funds (See 18 U.S.C. 191).

E. The prohibitions against disloyalty and striking (See 5 U.S.C. 7311, 18 U.S.C. 1918).

F. The prohibition against the employment of a member of a Communist organization (See 50 U.S.C. 784).

G. The prohibition against (1) the disclosure of classified information (See 18 U.S.C. 798, 50 U.S.C. 783); and (2) the disclosure of confidential information (See 18 U.S.C. 1905).

H. The provision relating to the habitual use of intoxicants to excess (See 5 U.S.C. 7352).

I. The prohibition against the misuse of a Government vehicle (See 31 U.S.C. 638a (c)).

J. The prohibition against the misuse of the franking privilege (See 18 U.S.C. 1719).

K. The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (See 18 U.S.C. 1917).

L. The prohibition against fraud or false statements in a Government matter (See 18 U.S.C. 1001).

M. The prohibition against mutilating or destroying a public record (See 18 U.S.C. 2071).

N. The prohibition against counterfeiting and forging transportation requests (See 18 U.S.C. 508).

O. The prohibitions against (1) embezzlement of Government money or property (18 U.S.C. 641); (2) failing to account for public money (18 U.S.C. 643); and (3) embezzlement of the money or property of another person in the possession of an employment by reason of his employment (18 U.S.C. 654).

P. The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

Q. The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code (5 U.S.C. 7321–7327) and 18 U.S.C. 602, 603, 607 and 608. (Civilian employees).

R. The prohibitions against an employee (including a special Government employee) who is required to register under the Foreign Agents Registration Act of 1938 (18 U.S.C. 219) serving the Government. The criminal penalties of this section do not apply to a special Government employee in any case in which the department head sends a certificate to the Attorney General that his employment by the United States Government is in the national interest. The section does not apply to retired regular officers or to reserves who are not on active duty or who are on active duty for training.

APPENDIX C—EXTRACT FROM APPENDIX C. OF CIVIL SERVICE FEDERAL PERSONNEL

MANUAL SYSTEM ON SPECIAL GOVERNMENT EMPLOYEES (INCLUDING GUIDELINES FOR OBTAINING AND UTILIZING THE SERVICES OF SPECIAL GOVERNMENT EMPLOYEES)

Each department and agency should observe the following rules in obtaining and utilizing the services of a consultant, adviser, or other temporary or intermittent employee:

(a) At the time of his original appointment and the time of each appointment thereafter, the department or agency should make its best estimate of the number of days during the following 365 days on which it will require the services of the appointee. A part of a day should be counted as a full day for the purposes of this estimate, and a Saturday, Sunday, or holiday on which duty is to be performed should be counted equally with a regular work day.

(b) Unless otherwise provided by law, an appointment should not extend for more than 365 days. When an appointment extends beyond that period, an estimate as required by paragraph (a) should be made at the inception of the appointment and a new estimate at the expiration of each 365 days thereafter.

(c) If a department or agency estimates, pursuant to paragraph (a) or (b), that an appointee will serve more than 130 days during the ensuing 365 days, the appointee should not be carried on the rolls as a special Government employee and the department or agency should instruct him that he is regarded as subject to the prohibitions of 18 U.S.C. 203 and 205 to the same extent as if he were to serve as a full-time employee. If the estimate is that he will serve no more than 130 days during the following 365 days, he should be carried on the rolls of the department or agency as a special Government employee and instructed that he is regarded as subject only to the restrictions of 18 U.S.C. 203 and 205. Even if it becomes apparent, prior to the end of a period of 365 days for which a department or agency has made an estimate on an appointee, that he has not been accurately classified, he should nevertheless continue to be considered a special Government employee or not, as the case may be, for the remainder of that 365-day period.

(d) An employee who undertakes service with two departments or agencies shall inform each of his arrangements with the other. If both his appointments are made on the same date, the aggregate of the estimates made by the departments or agencies under paragraph (a) or (b) shall be considered determinative of his classification by each. Notwithstanding anything to the contrary in paragraphs (a), (b), or (c), if after being employed by one department or agency, a special Government employee is appointed by a second to serve it in the same capacity, each department or agency should make an estimate of the amount of his service to it for the remaining portion of the 365-day period covered by the original estimate of the first. The sum of the two estimates and of the actual number of days of his service to the first department or agency during the prior portion of such 365-day period shall be considered determinative of the classification of the appointee by each during the remaining portion. If an employee undertakes to serve more than two departments or agencies, they shall classify him in a manner similar to that prescribed in this paragraph for two agencies. Each agency which employs special Government employees who serve other agencies shall designate an officer to coordinate the classification of such employees with such other agencies.

(e) When a person is serving as a member of an advisory committee, board or other group, and is by virtue of his membership thereon an officer or employee of the United States, the requirements of paragraphs (a), (b), (c), and (d) should be carried out to the same extent as if he were serving the sponsoring department or agency separately and individually.

(f) The 60-day standard affecting a special Government employee's private activities before his department or agency is a standard of actual past service, as contrasted with the 130-day standard of estimated future service discussed above. A special Government employee is barred from representing another person before his department or agency at times when he has served it for an aggregate of more than 60 days during the past 365 days. Thus, although once having been in effect, the statutory bar may be lifted later by reason of an intervening period of nonservice. In other words, as a matter of law the bar may fluctuate in its effect during the course of a special Government employee's relationship with his department or agency.

(g) A part of a day should be counted as a full day in connection with the 60-day standard discussed in paragraph (f), above, and a Saturday, Sunday, or holiday on which duty has been performed should be counted equally with a regular work day. Service performed by a special Government employee in one department or agency should not be counted by another in connection with the 60-day standard.

To a considerable extent the prohibitions of 18 U.S.C. 203 and 205 are aimed at the sale of influence to gain special favors for private businesses and other organizations and at the misuse of governmental position or information. In accordance with these aims, it is desirable that a consultant or adviser or other individual who is a special Government employee, even when not compelled to do so by 18 U.S.C. 203 and 205, should make every effort in his private work to avoid any personal contact in negotiations for contracts or grants with the department or agency which he is serving if the subject matter is related to the subject matter of his consultancy or other service. It is recognized that this will not always be possible to achieve; for example, in a situation in which a consultant or adviser has an executive position and responsibility with his regular employer which requires him to participate personally in contract negotiations with the department or agency he is advising. When this situation occurs, the consultant or adviser should participate in the negotiations for his employer only with the knowledge of a responsible government official. In other instances an occasional consultant or adviser may have technical knowledge which is indispensable to his regular employer in his efforts to formulate a research and development contract or a research grant and, for the same reason, it is in the interest of the Government that he should take part in negotiations for his private employer. Again, he should participate only with the knowledge of a responsible Government official.

Section 205 of title 18 contains an exemptive provision dealing with a similar situation which may arise after a Government grant or contract has been negotiated. This provision in certain cases permits both the Government and the private employer of a special Government employee to benefit from his performance of work under a grant or contract for which he otherwise would be disqualified because he had participated in the matter for the Government or it is pending in an agency he has served for more than 60 days in the past year. More particularly, the provision gives the head of a department or agency the power, notwithstanding any prohibition in either 18 U.S.C. 203 or 205, to allow a special Government employee to represent before such department or agency either his regular employer or another person or organization in the performance of work under a grant or contract. As a basis for this action, the department or agency head must first make a certification in writing, published in the FEDERAL REGISTER, that it is required by the national interest.

It is necessary occasionally to distinguish between consultants and advisers who are special Government employees and persons who are invited to appear at a department or agency in a representative capacity to speak for firms or an industry, or for labor or agriculture, or for any other recognizable group of persons, including, on occasion, the public at large. A consultant or adviser whose advice is obtained by a department or agency from time to time because of his individual qualifications and who serves in an independent capacity is an officer or employee of the Government. On the other hand, one who is requested to appear before

a Government department or agency to present the views of a nongovernmental organization or group which he represents, or for which he is in a position to speak, does not act as a servant of the Government and is not its officer or employee. He is therefore not subject to the conflict of interest laws and is not within the scope of this chapter.

The following principles are useful in arriving at a determination whether an individual is acting before an agency in a representative capacity:

(1) A person who receives compensation from the Government for his services as an adviser or consultant is its employee and not a representative of an outside group. The Government's payment of travel expenses and a *per diem* allowance, however, does not by itself make the recipient an employee.

(2) It is rare that a consultant or adviser who serves alone is acting in a representative capacity. Those who have representative roles are for the most part persons serving as members of an advisory committee or similar body utilized by a Government agency. It does not follow, however, that the members of every such body are acting as representatives and are therefore outside the range of the conflict of interest laws. The result is limited to the members of committees utilized to obtain the views of nongovernmental groups or organizations.

(3) The fact that an individual is appointed by an agency to an advisory committee upon the recommendation of an outside group or organization tends to support the conclusion that he has a representative function.

(4) Although members of a governmental advisory body who are expected to bind outside organizations are no doubt serving in a representative capacity, the absence of authority to bind outside groups does not require the conclusion that the members are Government employees. What is important is whether they function as spokesmen for nongovernmental groups or organizations and not whether they can formally commit them.

(5) When an adviser or consultant is in a position to act as a spokesman for the United States or a Government agency—as, for example, in an international conference—he is obviously acting as an officer or employee of the Government.

While it would be highly desirable, in order to minimize the occurrence of conflicts of interest, for departments and agencies of the Government to avoid appointing to advisory positions individuals who are employed or consulted by contractors or others having a substantial amount of business with that department or agency, it is recognized that the Government has, of necessity, become increasingly concerned with highly technical areas of specialization and that the number of individuals expert in those areas is frequently very small. Therefore, in many instances it will not be possible for a department or agency to obtain the services of a competent adviser or consultant who is not in fact employed or consulted by such contractors. In addition, an advisory group may of necessity be composed largely or wholly of persons of a common class or group whose employers may benefit from the advice given. An example would be a group of university scientists advising on research grants to universities. Only in such a group can the necessary expertise be found. In all these circumstances, particular care should be exercised to exclude his employer's or clients' contracts or other transactions with the Government from the range of the consultant's or adviser's duties.

SUBCHAPTER P—RECORDS

PART 287—AVAILABILITY TO THE PUBLIC OF DEFENSE COMMUNICATIONS AGENCY INFORMATION

Procedure and Requirements

Pursuant to the provisions of Public Law 93–502, enacted November 21, 1974, notice is hereby given of revised DCA Instruction 210–225–1 implementing 5 U.S.C. 552, as amended by Public Law 93–502, Freedom of Information Act. This Part 287 provides overall guidance to Defense Communications Agency organization on how they should respond to requests from the public for records under the Freedom of Information Act, as amended. This regulation will become effective 31 March 1975. However, public comments and recommendations submitted to Defense Communications Agency, ATTN: Code 105, Washington, D.C. 20305 by 30 May 1975 will be considered in determining the need for modification of the regulation.

Part 287, Subchapter P, Chapter I of Title 32 of the Code of Federal Regulations is revised as follows:

Sec.
287.1 Purpose.
287.2 Applicability.
287.3 Authority.
287.4 Responsibilities.
287.5 Fees.
287.6 Reports.
287.7 Questions.
287.8 "For Official Use Only" records.

AUTHORITY: 5 U.S.C. 552, as amended by Public Law 93–502.

§ 287.1 Purpose.

This Part delineates responsibility for making available to the public the maximum amount of information concerning the operations and activities of the Defense Communications Agency (DCA).

§ 287.2 Applicability.

This Part is applicable to Headquarters, DCA and DCA field activities.

§ 287.3 Authority.

This Part is published in accordance with the authority contained in 40 FR 8190, 26 February 1975, and 40 FR 4911, 3 February 1975.

§ 287.4 Responsibilities.

(a) The Assistant to the Director for Administration, Headquarters, DCA will:

(1) Prepare in proper format and arrange for publication in the Federal Register the necessary regulations to implement title 5, United States Code, section 552, as amended by Public Law 93–502 (Freedom of Information Act), subject to the provisions contained in 32 CFR 286.8.

(2) Make the material described in 32 CFR 286.5 and 286.6 available for public inspection and copying at Headquarters, DCA, 8th Street South and South Courthouse Road, Arlington, Virginia. A current index of this material will be maintained in accordance with the appropriate provisions of 32 CFR 286.

(3) Establish programs of instruction on the provisions and requirements of 32 CFR 286.7 for all officials and employees who contribute to DCA's implementation of the Freedom of Information Act.

(4) Be responsible for arranging for the publication in the FEDERAL REGISTER, after coordinating with the DCA Counsel, of appropriate material setting forth where, how, and by what authority DCA performs its functions and for informing all interested persons how to deal effectively with the Agency. These publications will be made in accordance with the guidelines contained in 40 CFR 296.

(b) The Deputy Directors, the Comptroller, and the Chief of Staff, DCA will, subject to the exceptions set forth in 32 CFR 286:

(1) Furnish the Assistant to the Director for Administration with copies of the material, described in 32 CFR 286.5 and 286.6 that is to be published in the FEDERAL REGISTER.

(2) Furnish the Civilian Assistant to the Chief of Staff, when requested, with DCA documentary material, which qualifies as a record in accordance with 32 CFR 286.5, for the purpose of responding to private persons. All such requests for information will be referred to the Civilian Assistant to the Chief of Staff.

(c) The Director, DCEC and the Commanders and Chiefs of other DCA field activities will:

(1) Provide the Assistant to the Director for Administration and the Civilian Assistant to the Chief of Staff, as appropriate, with material described in 32 CFR 286.5 and 286.6.

(2) Release records upon their own authority and concurrently provide a copy of the records released to Headquarters, DCA, Code 104.

(3) Develop supplemental instructions to DCAI 210–225–1, as required, to cover requests for information from the public which are received on a regular basis and which usually pertain to information that may be released without question. Supplemental instructions will be submitted to DCA, Code 105, for review and approval prior to implementation.

(d) The Civilian Assistant to the Chief of Staff, Headquarters, DCA, is vested with the authority, within DCA, to release records for all requests coming to Headquarters, DCA, and to the field activities in the Metropolitan Washington area, and will:

(1) Respond to all requests for records from private persons in accordance

V 40 170 APR 10 75 XUM

with the provisions of 32 CFR 286.4 whether the requests are received directly by Headquarters, DCA or referred to the Headquarters, DCA by DCA field activities. Coordinate such release with the Counsel in any case in which release is, or may be, controversial.

(2) Be the DCA principal point of contact and coordination with the ASD (PA).

(3) Insure the cooperation of DCA with the ASD(PA) in fulfilling his responsibility for monitoring the implementation of 32 CFR 286.7.

(4) Refer cases of significance to the ASD(PA) for review and evaluation, after coordination with Counsel and with the approval of the Chief of Staff, when the issues raised are unusual or precedent setting or otherwise require special attention or guidance.

(5) Advise the ASD(PA) prior to the denial of a request or prior to an appeal when two or more DoD components are affected by the request for a particular record and when circumstances suggest a potential public controversy.

(6) Be responsible for the annual reporting requirement contained in 32 CFR 286.7.

(e) Within DCA, the sole authority to deny, in whole or in part, a request for records is vested in the DCA Counsel (Code 105) or, in his absence, in the Deputy Counsel. A denial by the DCA Counsel is appealable solely to the Director or to the Vice Director acting in the absence of the Director. The Counsel, DCA, will:

(1) Make the decision, whenever, a request for a record is to be denied in whole or in part, in accordance with the criteria provided in 32 CFR 286.

(2) Inform, in writing, the person denied a record as to the basis for the denial of the request, and advise him of his right to appeal the decision to the Director, DCA.

(3) Ensure, that if such an appeal is taken, that the basis for the determination by the Director, DCA to refuse to release the record will be in writing, will state the reasons for the denial, and will inform the requester of his right to a judicial review in the appropriate U.S. district court; or if the denial is based upon security classification, of the requester's optional right to seek declassification of the record by the Interagency Classification Review Committee in lieu of immediate judicial review. No final refusal shall be made without prior consultation with the Office of the General Counsel of the Department of Defense when there is reason to believe that the requester will file a complaint in the U.S. district court to force release of the refused record.

(f) The Chief of Staff, Headquarters, DCA will, on behalf of the Director, DCA, respond to the corrective action recommended by the Civil Service Commission for arbitrary or capricious withholding of records, requested, pursuant to the Freedom of Information Act, by officers or employees of DCA. This action will be coordinated with the Counsel, DCA.

§ 287.5 Fees.

Fees which may be charged to the requester are contained in 32 CFR 286.5 and 286.10. Exceptions to charging fees are as follows: if the total fee would be less than $3; if the record is not located; if the record is determined to be exempt from disclosure; if the requester is engaged in a nonprofit activity designed for public health, safety, or welfare; if the requester is a representative of a State or local government or of a nonprofit group considered as primarily benefiting the general public. Fees ordinarily will be collected in advance of rendering the service unless the requester has specifically stated that whatever cost is involved is acceptable to him. Collection of schedule fees will be deposited to Miscellaneous Receipts of the Treasury.

§ 287.6 Reports.

Each major staff element and field activity on the distribution list of this DCA Instruction will furnish an annual report to Headquarters, DCA, Code 104, on or before 15 January of each year (Reports Control Symbol DD–PA(A) 1365) which will contain that information requested in 32 CFR 286.15.

§ 287.7 Questions.

Questions on both the substance and procedures of the Freedom of Information Act and the DCA implementation thereof should be addressed to the DCA Counsel by the most expeditious means possible, including telephone calls.

§ 287.8 "For Official Use Only" records.

The designation of "For Official Use Only" will be applied to documents and other material only as authorized by 32 CFR 286.1.

MAURICE W. ROCHE,
Director Correspondence and Directives OASD (Comptroller).

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 357-5]

PART 408—CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY

Corrections

Notice is hereby given that the Environmental Protection Agency (EPA) is correcting 40 CFR 408—Canned and Preserved Seafood Processing Point Source Category as set forth below. 40 CFR 408 was promulgated in interim final form on January 30, 1975, pursuant to sections 301, 304 (b) and (c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1252, 1311, 1314 (b) and (c), 1316 (b) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92–500 (the Act).

The purpose of this notice is to correct errors in the preamble and Subparts O through AG. The corrections encompass typographical, clerical and editorial errors and do not involve any substantive or policy issues.

In FR Document 75–2725 appearing on pages 4582 through 4607 in the issue of January 30, 1975, make the following changes:

1. In the preamble, section (b) (2) (i), 1st paragraph, line 2 the word "proposing" is revised to "establishing."

2. In the preamble, section (b) (2) (i) (8), 1st paragraph, line 3 the word "Mechanized" is revised to "mechanized."

3. In the preamble, section (b) (2) (iv) (5), 1st paragraph shall be revised to read as follows:

"The best practicable control technology currently available involves 'good housekeeping' practices which are considered normal practice within the seafood processing industry such as turning off faucets and hoses when not in use or using spring-loaded hose nozzles, by-product recovery or ultimate disposal of solids, and treatment of the waste water effluent a) by screening for plants processing 1816 kg (4000 lbs) or less of raw material per day and b) by dissolved air flotation in addition to screening for plants processing more than 1816 kg (4000 lbs) of raw material per day on any day during a calendar year."

4. In the preamble, section (b) (2) (vii), 1st paragraph, line 20 the word "post" is revised to "pose."

5. In the preamble, section (b) (2) (vii), 2nd paragraph, line 8 the phrase "The proposed effluent limitations • • •" is revised to "The interim final effluent limitations • • •"

6. In the preamble, section (b) (2) (vii), 2nd paragraph, line 11 the phrase "• • • proposed limitations for 1977 • • •" is revised to "• • • interim final limitations for 1977 • • •"

7. In the preamble, comment #9, 4th paragraph, line 20 "20" is revised to "19".

8. In the preamble, comment #22, 3rd paragraph, line 9 the word "than" is revised to "that."

9. The line preceding § 408.160 "Salmon Processing Subcategory" is revised to "Subpart P—Alaskan Hand-Butchered Salmon Processing Subcategory."

10. The table in § 408.213 shall be revised to read as follows:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
BOD5	0.73	0.58
TSS	1.5	0.73
Oil and grease	0.04	0.03
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
BOD5	0.73	0.58
TSS	1.5	0.73
Oil and grease	0.04	0.03
pH	Within the range 6.0 to 9.0.	

Dated: March 27, 1975.

JOHN QUARLES,
Acting Administrator.

Title 41—Public Contracts and Property Management

CHAPTER 7—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[AIDPR Notice 75-5]

PROCUREMENT REGULATIONS

Miscellaneous Amendments

This notice contains amendments to various sections of the AID Procurement regulations. They are:

1. Addition of a new § 7–1.313, Record of contract actions, which lists the documents required for a complete file on the contract.

2. Addition of a clause to be used when applicable prohibiting use of AID funds for abortion-related activities.

3. Deletion of the requirement that participant training Contractors submit transcripts since the information is obtained by other means.

4. Addition of two new forms—the Contract Negotiator's Checklist and Contractor Employee Biographical Data Sheet. These forms have been Agency requirements, but have now been moved from the Agency's Manual Orders to the AID Procurement Regulations.

5. Revision of Subpart 7–30.45 covering use of the Federal Reserve Letter of Credit to bring the Agency into conformance with Treasury Department requirements.

Title 41, Chapter 7 is amended as follows:

PART 7–1—GENERAL

Subpart 7–1.3—General Policies

1. Add a new § 7–1.313 as follows:

§ 7–1.313 Record of contract actions.

(a) In order that the official contract file may contain a full history of each procurement to support actions taken by various personnel in the procurement cycle, provide information for reviews conducted by AID or others, supply data for use in preparing replies to Congressional inquiries, and furnish essential facts in the event of litigation, each such file shall contain the following data, as applicable:

(1) A copy of the Project Implementation Order (PIO) or other action authority document that conveys authority to procure services or personal property against AID financing;

(2) On negotiated procurements, identification of the circumstance permitting negotiation (AIDPR 7–3.200–50) (FPR 1–3.2);

(3) A list of the sources solicited or justification for limiting sources (AIDPR 7–3.101–50) and a list of any firms or persons whose requests for copies of the solicitation were denied, together with the reasons for denial;

(4) A copy of the formal solicitation of proposal, the Invitation for Bid (IFB), or a record of informal solicitation of proposals:

(5) A copy of the synopsis message sent to the Commerce Business Daily for publicizing contracting or subcontracting possibilities (FPR 1–1.1003–7) or reasons for not synopsizing (FPR 1–1.1003–2);

(6) A copy of each signed bid or proposal received;

(7) The Bidder's Statement of Contingent Fee (FPR 1–1.505);

(8) All price and cost data submitted or used, including Certificates of Current Cost or Pricing Data (FPR 1–3.807–4) and Cost Accounting Standards Disclosure Statement (FPR 1–3.1203);

(9) The contracting officer's determination of the contractor's responsibility (FPR 1–1.1204);

(10) A full record of negotiations (memorandum of negotiation) including, but not limited to:

(i) Participants,

(ii) Dates and places of meetings,

(iii) Selection of the successful contractor, including reasons for selection,

(iv) Agreements on Government-furnished materials, equipment, or facilities,

(v) Technical or financial recommendations,

(vi) Terms, conditions and type of contract agreed to,

(vii) Agreements on subcontracting,

(viii) Justification for fixed fee or profit, and

(ix) Justification for final cost or price;

(11) Required Determinations and Findings (FPR 1–3.302);

(12) A record of the pre-award on-site-evaluation surveys conducted (FPR 1–1.1205–4);

(13) A copy of any deviations approved pursuant to AIDPR 7–1.107 or 7–1.305–3;

(14) Any required approvals and clearances (General Counsel, Security, Technical, Auditor General, Small Business, etc.);

(15) A copy of the contract or award;

(16) A copy of the synopsis message sent to the Commerce Business Daily publicizing contract awards (FPR 1–1.1004–1);

(17) Any exceptions or exemptions to the Buy American Act or Foreign Assistance Act (FPR 1–6.1) (AIDPR 7–6.103–51, 7–6.51 and 7–6.52);

(18) Copies of all amendments and task orders with supporting documents;

(19) Copy of contractor's established policies and practices covering compensation, leave, work week, promotions, etc.;

(20) Evidence of contractor's compliance with equal opportunity provisions (AIDPR 7–12.805–4);

(21) Copies of advance payment data (FPR 1–30.4);

(22) Copies of the Federal Reserve Letter of Credit (FRLC) data (AIDPR 7–30.45);

(23) Copy of contracting officer's decisions under the Disputes clause (AID PR 7–1.318);

(24) Termination data (FPR 1–8) (AIDPR 7–8);

(25) All other pertinent correspondence, documents and reports;

(26) Final release upon completion of the contract (standard payment clause, AIDPR 7–7, 7–16.851).

PART 7–6—FOREIGN PURCHASES

Subpart 7–6.52—U.S. Source Restrictions—Commodities

§ 7–6.5204 [Amended]

2. Section 7–6.5204 is amended to change the phrase "ten percent" in the certification to "50 percent".

PART 7–7—CONTRACT CLAUSES

Subpart 7–7.50—Clauses for Cost Reimbursement Type Contracts

3. New § 7–7.5003–3, *Abortion-related activities*, is added as follows:

§ 7–7.5003–3 Abortion-related activities.

Insert the following clause in all contracts funded under Title X of the Foreign Assistance Act of 1961, as amended:

ABORTION-RELATED ACTIVITIES (APR 1975)

No funds made available under this contract will be used for the following family planning and population assistance activities:

(1) procurement or distribution of equipment provided for the purpose of inducing abortions as a method of family planning;

(2) information, education, training, or communication programs that seek to promote abortion as a method of family planning;

(3) payments to women in less developed countries to have abortions as a method of family planning;

(4) payments to persons to perform abortions or to solicit persons to undergo abortions.

Subpart 7–7.52—Basic Ordering Agreement for Participant Training

§ 7–7.5201–5 [Reserved]

4. Section 7–7.5201–5, *Transcripts*, is deleted in its entirety and reserved.

5. New § 7–7.5202–2, *Abortion-related activities*, is added as follows:

§ 7–7.5202–2 Abortion-related activities.

Insert the clause set forth in AIDPR 7–7.5003–2 under the conditions contained therein.

Subpart 7–7.53—Contracts for Participant Training

§ 7–7.5301–5 [Reserved]

6. Section 7–7.5301–5, *Transcripts*, is deleted in its entirety and reserved.

7. New § 7–7.5302–2, *Abortion-related activities*, is added as follows:

V 40 70 APR 10 75 XUM

§ 7–7.5302–2 Abortion-related activities.

Insert the clause set forth in AIDPR 7–7.5003–3 under the conditions contained therein.

Subpart 7–7.54—Clauses for Fixed Price Type Contract for Technical Services

8. New § 7–7.5403–4, *abortion-related activities*, is added as follows:

§ 7–7.5403–4 Abortion-related activities.

Insert the clause set forth in AIDPR 7–7.5003–3 under the conditions contained therein.

Subpart 7–7.55—Clauses for Cost Reimbursement Contracts With Educational Institutions

9. New § 7–7.5503–10, *Abortion-related activities*, is added as follows:

§ 7–7.5503–10 Abortion-related activities.

Insert the clause set forth in AIDPR 7–7.5003–3 under the conditions contained therein.

PART 7–16—PROCUREMENT FORMS

Subpart 7–16.8—Miscellaneous Forms

10. Add new §§ 7–16.852 and 7–16.853 as follows:

§ 7–16.852 Contract Negotiator's Checklist.

AID Form 1420–16, Contract Negotiator's Checklist (see AIDPR 7–16.963) is prescribed for use by AID negotiators to verify compliance with applicable regulations and policies in the preparation of all AID-direct contracts (including task orders or work assignments) or amendments thereto. The check-list shall be completed, signed and dated by the negotiator, reviewed by the contracting officer prior to execution of the document to which it applies; and filed in the official contract file.

§ 7–16.853 Contractor Employee Biographical Data Sheet.

(a) Form AID 1420–17, Contractor Employee Biographical Data Sheet (see AIDPR 7–16.964) is the prescribed form for use in submitting the data required by §§ 7–7.5001–3, 7–7.5401–2, and 7–7.5501–3 of this chapter.

(b) The form shall be included in each IFB, RFP, RPQ, or other form of solicitation when it is intended that the "Biographical Data" clause will be utilized. As required by the terms of either the solicitation or the contract clause entitled "Biographical Data," the offeror, bidder, or contractor shall, upon the contracting officer making such form available, submit the completed form AID 1420–17 for each employee, in triplicate, to the contracting officer or other AID office designated by the contracting officer.

(c) The contracting officer or other designated AID office evaluates the information submitted and utilizes it as the basis for determining the reasonableness of proposed salaries and/or country clearance. Any required notifications of approval or disapproval to the contractor shall be handled as expeditiously as possible by the cognizant AID office. One copy of each form AID 1420–17 submitted by the contractor shall be retained in the official contract file.

Subpart 7–16.9—Illustrations of Forms

11. Add new §§ 7–16.963 and 7–16.964 as follows:

§ 7–16.963 Contract Negotiator's Checklist.

NOTE: Form 1420–16 filed as part of the original document.

§ 7–16.964 Contractor Employee Biographical Data Sheet.

NOTE: Form 1420–17 filed as part of the original document.

PART 7–30—CONTRACT FINANCING

Subpart 7–30.45—Federal Reserve Letter of Credit Method of Disbursing Advances to Nonprofit Institutions

12. Sections 7–30.4500 through 7–30.4502 (Subpart 7–30.45) are revised to read as follows:

§ 7–30.4500 Scope and applicability.

(a) The Federal Reserve Letter of Credit, Standard Form 1193, is used to provide advances of funds under AID direct contracts with state and local governments in the United States and with educational and other nonprofit institutions, including international organizations.

(b) The Federal Reserve Letter of Credit method shall not apply unless (1) the Agency has, or expects to have, a continuing relationship of at least one year with a recipient organization; and (2) the annual amount required for advance financing will be at least $250,000.

(c) Documents drawing on Federal Reserve Letters of Credit, e.g., payment vouchers (Form TUS 5401), ordinarily will not be in amounts less than $10,000 or more than $1,000,000 but within the dollar ceiling on monthly or quarterly drawings specified in the contract. Cash drawdowns will be initiated only when cash is actually needed to make disbursements. Since the Federal Reserve Letter of Credit enables the recipient organization to withdraw cash from the Treasury concurrently with and as frequently as disbursements are made by the recipient, there need be no time lag between drawdowns from Treasury and disbursements by the recipient organization.

§ 7–30.4501 Guidelines for use of the Reserve Letter of Credit.

In authorizing advance payments under the Federal Reserve Letter of Credit procedures, the contracting officer shall be guided by the following considerations:

(a) The cost principles contained in FPR 1–15 and AIDPR 7–15 should not be incorporated in the Federal Reserve Letter of Credit.

(b) The Federal Reserve Letter of Credit language given in § 7–30.4502 below should be modified to the extent necessary to adapt its payment provisions to those of the contract for which it provides advances.

(c) Federal Reserve Letter of Credit provisions incorporated into a contract shall not, in any way, alter or eliminate any fiscal reporting requirements contained in the contract.

(d) Contracts should require such security for funds advanced as may be considered appropriate for the protection of the Government under the circumstances of each case, as set forth in FPR 1–30.413 and AIDPR 7–30.413.

§ 7–30.4501–1 Special provisions in a Federal Reserve Letter of Credit.

(a) Subadvances (i.e., advances by the contractor to subcontractors) may be authorized under prime contracts with universities or other nonprofit organizations subject to the requirements of FPR 1–30.414–2(q). Such subadvances shall conform to the same standards as are applicable to those of the prime contractor for the timing of drawdowns and disbursements.

(b) The salary, commissions and bonus provision in FPR 1–30.414–2(r) may also be included in Federal Reserve Letter of Credit provisions, modified as appropriate. This provision will normally be used in contracts with nonprofit organizations which are not educational institutions.

(c) Provisions, such as a limitation on the amount which may be drawn during a specified period, a limitation on the forward period for which an advance may be requested (see Treasury Circular 1075), or a limitation in the rate of disbursements, may be incorporated in the Federal Reserve Letter of Credit.

§ 7–30.4501–2 Procedure to establish a Federal Reserve Letter of Credit.

When an advance of funds to finance a contract is required and the contracting officer decides that the Federal Reserve Letter of Credit is a suitable method, the following procedures shall be employed by the procuring activity prior to the execution of the contract:

(a) The contracting officer shall advise the Office of the Controller in writing (pursuant to § 7–30.406(b)) as early as possible in the negotiation cycle, of the name and address of the proposed contractor, the type of contract and the estimated amount thereof, the total amount and the estimated dollar ceiling of withdrawals by month of the Federal Reserve Letter of Credit, the reasons the contracting officer deems an advance is required, and shall request his advice and concurrence. The following additional material shall be furnished along with the request:

(1) For nonprofit educational institutions and their related organizations:

(i) Copy of the contractor's proposal;

(ii) Copy of the PIO/T.

(2) For all other nonprofit institutions:

(i) The material required in (1) above;

(ii) Such other data as may be required to conform to the Controller's current requirements: e.g., copy of the contractor's latest available balance sheet, and income and expense statement.

(b) (1) The Controller's concurrence in the amount requested or a different amount and/or rate of withdrawal, or his nonconcurrence, shall be supplied by memorandum to the contracting officer within five working days from receipt of this request.

(2) If the Controller does not concur, or recommends a different amount or rate of withdrawal, he shall set forth the reasons for such action. If the contracting officer does not agree, then the matter shall be referred to the head of the procuring activity or his delegate for final decision.

(3) In every instance, the contracting officer transmits for the signature of the head of the procuring activity (or his delegate pursuant to AIDPR 7–30.406(a)) appropriate findings, determinations and authorization in support of an advance, including a copy of the written advice provided by the Controller. If the Controller did not concur in the requested advance, the approval of the head of the procuring activity shall be considered the decision referred to in paragraph (b)(2) of this section. A copy of each signed determination shall be furnished to the Office of the Controller.

(c) Before, or at the time of execution of the contract, the contract shall furnish the name of its commercial bank and the Federal Reserve Bank or branch serving the commercial bank to the contracting officer. The contractor shall also supply the specimen signature(s) of the official(s) authorized to sign payment vouchers against the Federal Reserve Letter of Credit and a specimen signature of the official of the institution who has authorized them to sign on three original Standard Forms 1194, "Authorized Signature Card for Payment Vouchers on Letters of Credit." The contracting officer shall then forward the following to the Controller for processing:

(1) The three signed signature cards (Standard Form 1194);

(2) A signed or conformed copy of the contract;

(3) The name and address of the contractor's commercial bank, and the Federal Reserve Bank or branch;

(4) A recommended dollar ceiling on monthly or quarterly drawings for inclusion on the Federal Reserve Letter of Credit when such limitation is considered desirable by the contracting officer; and

(5) A copy of the determination cited in paragraph (b)(3) of this section.

§ 730.4501–3 Suspension or revocation of the Federal Reserve Letter of Credit.

(a) The Office of the Controller notifies the contracting officer whenever it appears that the institution is drawing in excess of current needs or if it is delinquent more than 30 days in submitting required reports and documentation. The contracting officer may direct the institution to suspend issurance of payment vouchers until the credits are in line with anticipated needs or to submit the reports and documentation immediately and promptly notifies the Controller of any such action. The contracting officer may request the Controller to amend the Federal Reserve Letter of Credit to provide further appropriate limitation on the amount and frequency of submissions, and if the Controller concurs, the Federal Reserve Letter of Credit will be so amended.

(b) The contracting officer may, upon finding that the contractor has presented payment vouchers in excess of the amount allowable or otherwise has misused the Federal Reserve Letter of Credit, request the Controller to revoke the Federal Reserve Letter of Credit. Upon receipt of such request from the contracting officer the Controller, if concurring, issues a letter revoking the Federal Reserve Letter of Credit, giving it the same distribution as the original Federal Reserve Letter of Credit.

(c) If the Controller does not concur, he shall set forth the reasons for such action. If the contracting officer does not agree, then the matter shall be referred for a decision to the head of the procuring activity or his delegate for final decision.

§ 7–30.4502 Contract clause—Federal Reserve Letter of Credit.

The following language shall be incorporated in the schedule of all contracts in which a Federal Reserve Letter of Credit is to be used to provide advance payments. Any substantial modification to the clause shall be treated as a deviation and processed in accordance with AIDPR 7–1.107. However, special provisions may be added to the clause, as indicated in AIDPR 7–30.4501–1.

Federal Reserve Letter of Credit for Advance Payment (Apr. 1975)

(a) AID shall open a Federal Reserve Letter of Credit in favor of the Contractor in the amount of $------ (for amending existing contracts, add the word "remaining" here) available for obligation under this contract against which the Contractor may present payment vouchers. The amount drawn by the Contractor during any calendar (month or quarter) of this contract shall not exceed $------ without the prior written authorization of the contracting officer. The amount of the payment voucher shall not be in an amount less than $10,000 nor more than $1,000,000 but within the specific dollar ceiling on (monthly or quarterly) withdrawals.

(b) In no event shall the accumulated total of all such payment vouchers exceed the amount of the Federal Reserve Letter of Credit.

(c) If at any time, the contracting officer determines the Contractor has presented payment vouchers in excess of the amount or amounts allowable in paragraphs (a) and (b) of this section, the contracting officer may: (1) cause the Federal Reserve Letter of Credit to be suspended or revoked; or (2) direct the Contractor to withhold submission of payment vouchers until such time as, in the judgment of the contracting officer, an appropriate level of actual, necessary and allowable expenditures has occurred or will occur under this contract; and/or (3) request the Contractor to repay to AID the amount of such excess. Upon receipt of the contracting officer's request for repayment of excess advance payments, the Contractor shall promptly comply with such request.

(d) Procedure for contractor. (1) After arranging with a commercial bank of its choice for operation under this arrangement and obtaining the name and address of the Federal Reserve Bank or branch serving the commercial bank, the Contractor shall deliver three originals of Standard Form 1194, "Authorized Signature Card for Payment Vouchers on Letters of Credit" signed by those official(s) authorized to sign payment vouchers against the Federal Reserve Letter of Credit and by an official of the institution who has authorized them to sign.

(2) Upon execution of the contract, the Contractor shall receive one certified copy of the Federal Reserve Letter of Credit.

(3) The Contractor shall confirm with his commercial bank that the Federal Reserve Letter of Credit has been opened and is available if funds are needed.

(4) To receive payment, the Contractor shall:

(i) Periodically, although normally not during the last five days of the month, prepare payment vouchers (Form TUS 5401) in an original and three copies.

(ii) Have the original and two copies of the voucher signed by the authorized official(s) whose signature(s) appear on the Standard Form 1194.

(iii) Present the original, duplicate, and triplicate copy of the Form TUS 5401 to his commercial bank.

(e) Retain the quadruplicate copy of the voucher.

(5) Each drawdown should be initiated at approximately the same time that checks are issued by the organization in payment of program liabilities including those for allowable indirect costs, and in an amount approximately equal to the Federal share of such payments. Therefore, there is no necessity for the recipient organization to maintain balances of Federal cash other than the small balance necessary to provide for an element of bank float.

(6) A report of expenditures is prepared and submitted to the Office of Financial Management, within thirty days of disbursement. This report, submitted on Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal", and supported by certifications, listing of withdrawals, and documentation as required, itemizes expenditures made, identifying funds expended by line item of the approved budget and/or category supporting the agreement.

V 40 170 APR 10 75 XUM

(7) The report of expenditures on Standard Form 1034 is reviewed against the contract provisions, and any disbursement improper under the contract is disallowed. The Contractor is notified of the reason for the disallowance and is directed to adjust the next periodic report of expenditures to reflect the disallowance and to reduce its next payment voucher against the Federal Reserve Letter of Credit by the amount of the disallowance.

(8) Simultaneously with the submission of the report of expenditures, the Contractor submits to the Controller a status report on the Federal Reserve Letter of Credit as of the close of the period covered by the report of expendi- status report on the Federal Reserve lowing format:

STATUS OF FUNDING REPORT

FEDERAL RESERVE LETTER OF CREDIT (FRLC)

No. _____

Period from _____ through _____

A. Letter of Credit Position:

1. Current amount of FRLC (including amendments) through reporting period..... $_____
2. Payment Vouchers on Letter of Credit presented (Form TUS-5401):
   a. Credited prior to reporting period..... _____
   b. Credited during reporting period via TUS-5401 Voucher Nos. ____ through ____ inclusive ..... _____
   c. Presented but not credited during report via TUS-5401's numbered ____ through ____ inclusive ..... _____
3. Total of all Payment Vouchers against FRLC credited or presented ..... _____
4. Balance of FRLC not drawn or requested this reporting period ..... _____

B. Cash Position:

1. Cash on hand at beginning of period ..... _____
2. Plus: cash drawn during period ..... _____
3. Plus: refunds, rebates or other amounts received, to the extent allocable to disbursements charged against this FRLC ..... _____
4. Total cash available (sum of 1, 2, and 3) ..... _____
5. Less: disbursements during period ..... _____
6. Balance of cash on hand at close of reporting period..... _____
7. Estimated number of days requirements covered by balance on hand (Item 6 above) Days: ____.
8. Advances to subcontractors $____ included in B. 6 above).

(f) Refund of excess funds. (1) If all costs have been settled under the contract and the Contractor fails to comply with the contracting officer's request for repayment of excess Federal Reserve Letter of Credit funds, the Government shall have the right, on other contracts held with the Contractor, to withhold payment of Federal Reserve Letter of Credit or other advances and/or withhold reimbursements due the Contractor in the amount of the excess being held by the Contractor.

(2) If the Contractor is still holding excess Federal Reserve Letter of Credit funds on a contract under which the work has been completed or terminated but all costs have not been settled, the Contractor agrees to:

(i) Provide within 30 days after requested to do so by the contracting officer, a breakdown of the dollar amounts which have not been settled between the Government and the Contractor. (The contracting officer will assume no costs are in dispute if the Contractor fails to reply within 30 days.);

(ii) Upon written request of the contracting officer, return to the Government the sum of dollars, if any, which represents the difference between (1) the Contractor's maximum position on claimed costs which have not been reimbursed and (2) the total amount of unexpended funds which have been advanced under the contract; and

(iii) If the Contractor fails to comply with the contracting officer's request for repayment of excess Federal Reserve Letter of Credit funds, the Government shall have the right, on other contracts held with the Contractor, to withhold payment of Federal Reserve Letter of Credit or other advances and/or withhold reimbursements due the Contractor in the amount of the excess being held by the Contractor.

(This AIDPR Notice No. 75-5 is an interim procurement instruction and is issued pursuant to AIDPR 7-1.104-4.)

Effective Date: This notice is effective on April 1, 1975.

Dated: March 26, 1975.

JOHN F. OWENS,
Acting Deputy Assistant Administrator for Program and Management Services.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5496; CA-846]

CALIFORNIA

Partial Revocation of Reclamation Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. 416 (1970), it is ordered as follows:

1. Departmental order of July 2, 1902, amended by departmental order of August 26, 1902, and departmental order of July 9, 1904, withdrawing lands for reclamation purposes are hereby revoked so far as they affect the following described lands:

TAHOE NATIONAL FOREST

MOUNT DIABLO MERIDIAN

T. 18 N., R. 17 E.,
Sec. 32, E½NE¼SE¼, E½W½NE¼SE¼, E½W½W½NE¼SE¼ E½W½NW¼SE¼SE¼, E½NW¼SE¼SE¼, SW¼SE¼SE¼, E½SE¼SE¼.

The area described aggregates 72.5 acres in Nevada County.

2. At 10 a.m. on May 10, 1975, the lands shall be open to such forms of disposition as may be made of national forest lands.

JACK O. HORTON,
Assistant Secretary of the Interior.

APRIL 4, 1975.

Title 45—Public Welfare

CHAPTER XII—ACTION

PART 1216—NONDISPLACEMENT OF EMPLOYED WORKERS AND NONIMPAIRMENT OF CONTRACTS FOR SERVICE

Assignment of Volunteer Workers

On September 13, 1974, there was published in the FEDERAL REGISTER (39 FR 33012) a notice of a proposed amendment to Chapter XII, Title 45. The proposed regulations establish rules to assure that the services of volunteers are limited to activities which would not otherwise be performed by employed workers and which will not supplant the hiring of, or result in the displacement of, employed workers or impair existing contracts for service.

Interested persons were given 30 days in which to submit comments. Numerous comments were received from different agencies using volunteers. As a result of such comments several changes will be made to the regulations.

The comments involved two basic issues: (1) the kinds of volunteers affected by the regulation and (2) the kinds of assignments which are appropriate for such volunteers.

(1) On the first issue, there were two concerns: (a) that § 1216.1–2 (b) and (c) would make any volunteer working in an agency receiving ACTION assistance of any kind, directly or indirectly, subject to the regulation's provisions; and (b) the Section would affect volunteers participating in ACTION programs, who are neither authorized to receive allowances nor reimbursement for expenses.

a. The proposed language of § 1216.1–2 (b) and (c) does not apply to all volunteers in any programs run by an agency receiving assistance from ACTION. The language of a regulation cannot be broader than the statute it implements, in this case section 404(a) of the Domestic Volunteer Service Act of 1973, Pub. L. 93–113. Section 404(a) only refers to the "service of volunteers assigned, referred or serving pursuant to grants, contracts or agreements made pursuant to" Pub. L. 93–113. In the interest of making the regulation clearer in this respect, the following changes will be made: (1) Section 1216.1–2 (a) and (b) will be replaced by the following new paragraph:

"(a) All full-time and part-time volunteers assigned, referred or serving pursuant to grants, contracts, or agreements made pursuant to the Act."

(2) Section 1216.1–2(c) will be relettered (b) and amended to read as follows:

"(b) All agencies and organizations to which the volunteers in paragraph (a) of this section are assigned, referred or provide services."

b. With respect to the second concern, the language of section 404(a) covers not only volunteers, who are authorized to receive allowances or reimbursement for expenses, but also volunteers who are assigned, referred or serving pursuant to any grant, contract or agreement made under the Act. Some ACTION grants provide funds for administrative expenses, salaries and overhead, etc., and no money to pay volunteer allowances and expenses. The volunteers serving directly in such a grant program are subject to the provisions of the regulation.

The language "pursuant to any grant, contract, or agreement made under the Act" includes situations where funds provided to a sponsor pursuant to a grant or contract are passed on to another agency or organization, e.g. subgrants or delegate agency relationships. In such relationships, the delegate agency or organization receives its assistance indirectly from ACTION. Generally, these relationships would be the only situations in which agencies who receive assistance indirectly from ACTION are covered by the regulations.

(2) The second major issue involves the kinds of assignments which are appropriate for volunteers affected by the regulation. Volunteers can be used when funds are lacking for the employment of staff and to expand services to a target community which could be performed by existing staff. The only condition is that such an assignment be appropriate for a volunteer. It is here that several comments say the regulations are too broad. An assignment is considered appropriate under § 1216.1–4(b) first, if the service is not principally clerical and administrative; or second, if the volunteer is in direct contact with groups or individuals to be served or engaged in activities authorized or of a character eligible for assistance under the Act.

a. Several comments expressed the need to define clerical and administrative positions more carefully. Volunteers who receive financial support, other than reimbursement of expenses, should not serve in positions that are primarily clerical or administrative. This policy reflects the view that because such volunteers receive a support subsidy derived from taxpayer's revenues, they should be engaged in more significant activities than routine clerical or administrative duties. This view also applies in the situation where a sponsor pays for the direct support, as in the ACTION Cooperative Program (ACV). The Federal involvement in such a program, through recruitment and staff and volunteer support, represents for these purposes as much of a Federal subsidy as does direct support to the volunteer.

b. With respect to volunteers who receive no financial support or expense reimbursement, the Federal interest is not as great. These programs will, with rare exceptions, involve part-time volunteers. In such situations, volunteers may undertake routine clerical and administrative tasks as long as their assignment is in keeping with the appropriate legislative or program purpose. However, the use of volunteers in this way must fall within one of § 1216.1–4(a)'s four exceptions, primarily paragraph (a)(1). To the extent that they do not, section 404(a) and the regulation apply.

c. To take into account the preceding discussion, § 1216.1–4(b)(1) is amended to read as follows:

"(1) The service, duty, or activity is principally a routine administrative or clerical task. This definition applies only to any service, duty, or activity performed by a volunteer receiving financial support apart from reimbursement for expenses."

d. The second exception, § 1216.1–4(b)(2), would require that such jobs involve direct contact or be permitted under the Act. Several comments expressed that volunteers must always be in direct contact with people served. But, this is not the case since there may be assignments permitted under the Act which do not bring volunteers in direct contact with people who ultimately benefit from their work.

Accordingly, with these changes, the proposed amendments are adopted as set forth below and become effective April 7, 1975.

Sec.
1216.1–1 Purpose.
1216.1–2 Applicability of this part.
1216.1–3 Policy.
1216.1–4 Exceptions.

AUTHORITY: Secs. 402(12), 404(a), 420 of Pub. L. 93–113, 87 Stat. 394, 408, 414.

§ 1216.1–1 Purpose.

This part establishes rules to assure that the services of volunteers are limited to activities which would not otherwise be performed by employed workers and which will not supplant the hiring of, or result in the displacement of, employed workers or impair existing contracts for service. It implements section 404(a) of the Domestic Volunteer Service Act of 1973, Pub. L. 93–113 (the "Act").

§ 1216.1–2 Applicability of this part.

(a) All full-time and part-time volunteers assigned, referred or serving pursuant to grants, contracts, or agreements made pursuant to the Act.

(b) All agencies and organizations to which the volunteers in paragraph (a) of this section are assigned, referred or provide services.

§ 1216.1–3 Policy.

(a) Volunteers enrolled or participating in programs referred to in paragraphs (a) and (b) of § 1216.1–2 may not perform any services or duties or engage in activities which would otherwise be performed by an employed worker as part of his assigned duties as an employee.

(b) Volunteer referred to in paragraph (a) of this section may not perform any services or duties or engage in activities which will supplant the hiring of employed workers. This prohibition is violated if, prior to engaging a volunteer, an agency or organization referred to in § 1216.1–2(c) had intended to hire a person to undertake all or a substantial part of the services, duties, or other activities to be provided by the volunteer.

(c) Volunteers referred to in paragraph (a) of this section may not perform any services or duties or engage in activities which result in the displacement of employed workers. Such volunteers may not perform services or duties which have been performed by or were assigned to, any of the following:

(1) Presently employed workers,

(2) Employees who recently resigned or were discharged,

(3) Employees who are on leave (terminal, temporary, vacation, emergency, or sick), or

(4) Employees who are on strike or who are being locked out.

(d) Volunteers referred to in paragraph (a) of this section may not perform any services or duties or engage in activities which impair existing contracts for service. This prohibition is violated if a contract for services is modified or cancelled because an agency or organization referred to in § 1216.1–2(b) engages a volunteer to provide or perform all or a substantial part of any services, duties, or other activities set forth in such contract. The term "contract for services" includes but is not limited to contracts, understandings and arrangements, either written or oral, to provide professional, managerial, technical, or administrative services.

(e) Agencies and organizations referred to in § 1216.1–2(b) are prohibited from assigning or permitting volunteers referred to in § 1216.1–2(a) to perform any services or duties or engage in any activities prohibited by paragraphs (a)–(d) of this section.

§ 1216.1–4 Exceptions.

(a) The requirements of § 1216.1–3 are not applicable to the following, or similar, situations:

(1) Funds are unavailable for the employment of sufficient staff to accomplish a program authorized or of a character eligible for assistance under the Act and the activity, service, or duty is otherwise appropriate for the assignment of a volunteer.

(2) Volunteer services are required in order to avoid or relieve suffering threatened by or resulting from major natural disasters or civil disturbances.

(3) Reasonable efforts to obtain employed workers have been unsuccessful due to the unavailability of persons within the community who are able, willing, and qualified to perform the needed activities.

(4) The assignment of volunteers will significantly expand services to a target community over those which could be performed by existing paid staff, and the activity, service or duty is otherwise appropriate for the assignment of a volunteer and no actual displacement of paid staff will occur as a result of the assignment.

V 40 170 APR 10 75 XUM

(b) For the purposes of paragraphs (a) (1) and (4) of this section, the assignment is not appropriate for the assignment of a volunteer if:

(1) The service, duty, or activity is principally a routine administrative or clerical task. This definition applies only to any service, duty, or activity performed by a volunteer receiving financial support apart from reimbursement for expenses.

(2) The volunteer is not directly in contact with groups or individuals whom the Act is designed to serve or is not performing services, duties, or engaged in activities authorized or of a character eligible for assistance under the Act.

Issued at Washington, D.C. on April 7, 1975.

JOHN L. GANLEY,
Deputy Director, ACTION.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

J. Clark Salyer National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective April 10, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

J. CLARK SALYER NATIONAL WILDLIFE REFUGE

Sport fishing on the J. Clark Salyer National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 1,000 acres or 9 per cent of the total water area of the refuge, are delineated on a map and described in a leaflet available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 1697, Bismarck, North Dakota 58501. Sport fishing shall be in accordance with all applicable State regulations subject to the following special condition:

(1) All waters within the boundaries of the J. Clark Salyer National Wildlife Refuge, designated as open to fishing by the Refuge Manager, shall be open to the taking of all fish from May 3, 1975 through September 30, 1975, daylight hours only. The open areas shall then be closed to all boat fishing but remain open to bank and ice fishing from October 1, 1975, through March 28, 1976, daylight hours only. All Refuge waters shall then be closed to all fishing from March 29, 1976, through April 30, 1976.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 28, 1976.

JON M. MALCOLM,
Refuge Manager.

APRIL 4, 1975.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER H—EASTERN PACIFIC TUNA FISHERIES

PART 280—YELLOWFIN TUNA

Miscellaneous Amendments; Correction

In FR DOC 75-5065 appearing in the issue of February 25, 1975, and beginning at page 8101, make the following changes:

1. In § 280.7(a)(1) on page 8104, column 2, line 14 the word Government should read in the plural "Governments".

2. In § 280.9(b) on page 8106, column 3, line 4 insert the article "a" between the words in and port, so as to read "• • • in a port of the United States • • •".

Issued at Washington, D.C., and dated April 7, 1975.

ROBERT F. HUTTON,
Acting Director.

[FR Doc.75-9294 Filed 4-9-75;8:45 am]

PART 280—YELLOWFIN TUNA

Miscellaneous Amendments

Correction

In FR Doc. 75-5065, appearing at page 8101, in the issue for Tuesday, February 25, 1975, make the following corrections:

1. Page 8101, second paragraph, first line, the word "bid" should read "did".

2. Page 8102, first column, paragraph (3), the word "jib" should read "jig".

3. Page 8102, third column, second full paragraph, sixth line, the word "is" should read "if".

4. Page 8103, first column, first full paragraph, seventh line, the word "amendment" should read "amendments".

5. Page 8103, § 280.1(e), second line, the word "Maritime" should read "Marine".

6. Page 8103, § 280.1(g), fourteenth and nineteenth lines, the word "altitude" should read "latitude".

7. Page 8103, § 280.1(g), line thirty, "100°" should read "110°".

8. Page 8104, § 280.6(b), first line, the word "yellowfish" should read "yellowfin".

9. Page 8104, § 280.6(b), the last line "regulatory area at this date (give date)"." should be deleted.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Export Reg. 24, Amdt. 6]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Amendment of Grade Regulation

This amendment lowers the minimum grade requirement applicable to export shipments of Florida white seedless grapefruit to U.S. No. 2 on April 7, 1975. The U.S. No. 2 minimum grade requirement specified for export shipments of white seedless grapefruit is necessary to satisfy the demand for such fruit by export market outlets.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Shippers Advisory Committee and Growers Administrative Committee established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the minimum grade requirement applicable to white seedless grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) This amendment reflects the Department's appraisal of the prospective demand for fresh white seedless grapefruit by export outlets. The lower grade requirement specified for export shipments of white seedless grapefruit is consistent with the external appearance and remaining supply of such grapefruit. During the week ended March 30, 1975, export shipments of Florida grapefruit totaled 597 carlots compared with 488 carlots for the previous week.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 90 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment lowers the minimum grade requirement applicable to export shipments of white seedless grapefruit grown in Florida.

Order. 1. In § 905.559 (Export Regulation 24; 39 FR 32976; 37186; 40 FR 2792, 11345, 12646, 14589) the provisions of paragraph (b)(13) are amended to read as follows:

§ 905.559 Export Regulation 24.

• • • • • •

(b) • • •

(13) Any seedless grapefruit, other than pink seedless grapefruit, grown in the production area, which do not grade at least U.S. No. 2, or any pink seedless grapefruit which do not grade at least U.S. No. 2 Russet;

• • • • • •

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, April 4, 1975, to become effective April 7, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-9308 Filed 4-9-75;8:45 am]

[Valencia Orange Reg. 491]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Minimum Size Regulation

This regulation sets a minimum size requirement of 2.20 inches in diameter applicable to the handling of Valencia oranges grown in District 2 of the California-Arizona production area during the period April 11 through May 22, 1975. Such action is necessary to satisfy current and prospective market demand for fresh shipments of such California-Arizona Valencia oranges. The specified minimum size requirement is consistent with the size composition and available supply of the developing crop of Valencia oranges in District 2.

§ 908.791 Valencia Orange Regulation 491.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The minimum size requirement specified herein reflects the Department's appraisal of the crop and current and prospective marketing conditions during the period April 11 through May 22, 1975. The 1974-75 season crop of Valencia oranges is currently estimated at 61,500 carlots. The demand in regulated market channels will require about 34 percent of this volume, and the remaining 66 percent will be available for utilization in export, processing, and other outlets. Fresh shipments of Valencia oranges from District 2 are expected to begin on or about the effective time of this regulation. The volume and size composition of the crop of Valencia oranges grown in District 2 are such that ample supplies of the more desirable sizes are available to satisfy the demand in regulated channels. The regulation herein specified is designed to permit shipment of ample supplies of fruit of the more desirable sizes in the interest of both growers and consumers. The action is necessary to maintain orderly marketing conditions, provide consumer satisfaction, and guard against the shipment of undesirable sizes of Valencia oranges which tend to weaken the market for such fruit. The regulation therefore is consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

(3) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 18, 1975. Necessary supplemental information was received on March 26, 1975.

Order. (a) During the period April 11, 1975, through May 22, 1975, no handler shall handle any Valencia oranges grown in District 2 which are of a size smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided,* That not to exceed 5 percent, by count, of the Valencia oranges contained in any type of container may measure smaller than 2.20 inches in diameter.

(b) As used in this section, "handle," "handler," and "District 2" shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, April 4, 1975, to become effective April 11, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-9306 Filed 4-9-75;8:45 am]

PART 959—ONIONS GROWN IN SOUTH TEXAS

Approval of Redistricting and Reapportionment of Committee Membership

This redistricts and reapportions committee membership among districts on the South Texas Onion Committee.

Notice of rule making was published in the March 10, 1975, FEDERAL REGISTER (40 FR 10996) regarding the proposed redistricting and reapportionment of committee membership to be effective under Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959). The program regulates the handling of onions grown in designated counties in South Texas and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The notice afforded interested persons an opportunity to file written comments not later than March 21, 1975. None was filed.

Statement of consideration. The order provides in § 959.25 that the committee may recommend and the Secretary may approve the reapportionment of members among districts and the reestablishment of districts within the production areas.

Production of South Texas onions is concentrated in District No. 3—Lower Valley. This district's share of total production increased from 83 percent in 1970 to 94 percent in 1974. Conversely, the share of District No. 1 (Coastal Bend) decreased from 2.5 percent in 1970 to less than 1 percent in 1974. Production in both District No. 2 (Laredo) and District No. 5 (Winter Garden) also has trended downward, and District No. 4 (Wilson-Karnes) is no longer a significant factor in onion production.

The redistricting will combine the Wilson-Karnes district with the Winter Garden district. The reapportionment will transfer the handler position from the Wilson-Karnes district and one grower position from the Coastal Bend district to the Rio Grande Valley district. Also, one grower position will be transferred from the Laredo district to the Winter Garden district.

In unanimously recommending these changes at its public meeting on November 6, 1974, the committee considered (1) shifts in onion acreage within the districts and the production area during recent years, (2) the importance of new production in its relation to existing districts, (3) the equitable relationship of committee membership and districts, (4) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of

V 40 170 APR 10 75 XUM

members within districts, and (5) other relevant factors.

These changes will provide more efficient administration of the order and greater equity of representation on the committee.

Findings. After consideration of all relevant matters, including the proposals set forth in the aforesaid notice, it is hereby found and determined that a new § 959.110 and § 959.111 be added and that such action will tend to effectuate the declared policy of the act.

The amendment is as follows:

1. A new § 959.110 is added to read as follows:

§ 959.110 Reestablishment of districts.

(a) Pursuant to § 959.25, the counties of De Witt, Wilson, Atascosa, and Karnes (currently District No. 4) and the counties of Val Verde, Frio, Kinney, Uvalde, Medina, Maverick, Zavala, Dimmit, and La Salle (currently District No. 5) are reestablished as District No. 4.

(b) The new district is hereby established in the current fiscal period only for the purpose of making nominations of committee members for the coming fiscal period. The new district is established as an operating entity beginning on August 1, 1975.

(c) The remaining three districts continue unchanged as follows:

(1) District No. 1: (Coastal Bend) The Counties of Victoria, Calhoun, Goliad, Refugio, Bee, Live Oak, San Patricio, Aransas, Jim Wells, Nueces, Kleburg, Brooks, Kenedy, Duval, and McMullen.

(2) District No. 2: (Laredo) The Counties of Zapata, Webb, and Jim Hogg.

(3) District No. 3: (Lower Valley) The Counties of Cameron, Hidalgo, Starr, and Willacy.

2. A new § 959.111 is added to read as follows:

§ 959.111 Reapportionment of committee membership.

Pursuant to § 959.25, the membership representation of the South Texas Onion Committee shall be reapportioned among the districts of the production area so as to provide the following members and their respective alternates:

District No. 1—Two producer members and one handler member.

District No. 2—One producer member and one handler member.

District No. 3—Four producer members and three handler members.

District No. 4—Three producer members and two handler members.

For each member there shall be a respective alternate selected on the same basis as the member.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated April 4, 1975, to become effective August 1, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 347]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period April 11–17, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.647 Navel Orange Regulation 347.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges was slower during the past week than it has been previously. Prices f.o.b. averaged $3.61 per carton on a reported sales volume of 1,479 carlots last week, compared with an average f.o.b. price of $3.65 per carton and sales of 1,493 carlots a week earlier. Track and rolling supplies at 577 cars were down 105 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 8, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period April 11, 1975, through April 17, 1975, are hereby fixed as follows:

(i) District 1: 1,147,000 cartons;

(ii) District 2: 203,000 cartons;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 8, 1975.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-9563 Filed 4-9-75;11:16 am]

[Valencia Orange Regulation 493]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period April 11–17, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.793 Valencia Orange Regulation 493.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to be generally slow. Prices f.o.b. averaged $2.96 per carton on a reported sales volume of 101 carlots last week, compared with an average f.o.b. price of $3.03 per carton and sales of 66 carlots a week earlier. Track and rolling supplies at 91 cars were down 3 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 8, 1975.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period April 11, 1975, through April 17, 1975, are hereby fixed as follows:

(i) District 1: 23,538 cartons;

(ii) District 2: 17,021 cartons;

(iii) District 3: 160,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 8, 1975.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-9582 Filed 4-9-75;11:15 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. 1]

PART 1472—WOOL

Payment and Deduction Rates for 1974 Marketing Year

The regulations issued by Commodity Credit Corporation containing the requirements with respect to the payment program for shorn wool and unshorn lambs (pulled wool) for the 1974, 1975, 1976 and 1977 marketing years, (39 FR 9446) are amended to include the payment and deduction rates applicable to shorn wool and unshorn lambs sold during the 1974 marketing year as follows:

1. Section 1472.1405 is amended by adding the following new paragraph (c):

§ 1472.1405 Price support payments.

* * * * *

(c) *1974 marketing year.* The national average price received by producers for shorn wool marketed during the 1974 marketing year was 59.1 cents a pound, grease basis, which was 12.9 cents a pound below the price support level of 72 cents for that year. Therefore, the rate of payment for the 1974 marketing year is 21.8 percent.

2. Section 1472.1421 is amended by adding the following new paragraph (c):

§ 1472.1421 Price support payments.

* * * * *

(c) *1974 marketing year.* The rate of payment on unshorn lambs sold during the 1974 marketing year is 52 cents per hundredweight of live lambs based on a difference of 12.9 cents a pound between the price support level of 72 cents and the national average price of 59.1 cents a pound received by producers for shorn wool during the 1974 marketing year (§ 1472.1405(c)).

3. Section 1472.1446 is amended by inserting the letter "(a)" immediately preceding the text of that section and adding the following new paragraph (b):

§ 1472.1446 Deductions for promotion.

* * * * *

(b) For the 1974 marketing year, a deduction will be made from each shorn wool payment at the rate of 1.5 cents a pound of wool, grease basis, and from each unshorn lamb payment at the rate of 7.5 cents per hundredweight of live lambs, as announced in the Department's press release issued February 11, 1975. Those funds will be used to finance the advertising and sales promotion program approved by the Department of Agriculture pursuant to section 708 of the National Wool Act of 1954, as amended.

(Sec. 4, 62 Stat. 1070, as amended; sec. 5, 62 Stat. 1072, as amended; secs. 702–708, 68 Stat. 910–912, as amended; 15 U.S.C. 714b, 714c; 7 U.S.C. 1781–1787, as amended.)

Effective date. This amendment shall become effective April 3, 1975.

V 40 70 75 APR 10 XUM

The payment rates announced by this amendment are in accordance with the formulas published March 11, 1974, in §§ 1472.1405(b) (39 FR 9447) and 1472.-1421(b) (39 FR 9450). The deduction rates are specified in the agreement between the American Sheep Producers Council, Inc., and the Secretary of Agriculture approved by producers in a referendum held November 4 through 15, 1974. Since there is no latitude for varying rates, a delay in the effective date of this amendment would only delay payments to producers who completed marketings of shorn wool and unshorn lambs during 1974. It is, therefore, found that compliance with the notice of proposed rule making and public participation procedure is unnecessary and impracticable.

Signed at Washington, D.C. on April 3, 1975.

WILLIAM L. RUBLE,
Acting Administrator, Agricultural Stabilization and Conservation Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 103]

[File No. CO 845-P]

FEES

Notice of Proposed Rule Making

Pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed amendment of 8 CFR 103.7(a) pertaining to a fee to be imposed if a check in payment of a fee is not honored by the bank on which it is drawn, and the addition to 8 CFR 103.7(b)(1) of a fee for an Application by a Nonimmigrant Alien for Replacement of Arrival Document (I-102), and an amendment to 8 CFR 103.7(b)(1) pertaining to amounts of fees for filing certain applications, petitions, appeals and motions under the immigration and nationality laws.

Pursuant to the provisions of section 483a of Title 31 of the United States Code (65 Stat. 290), which state that any benefit or service provided to or for any person by any Federal agency shall be self-sustaining to the full extent possible, and OMB Circular No. A-25, the aforementioned additions and changes in certain fees are based on user charges costs as of October 31, 1974.

In accordance with section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Commissioner of Immigration and Naturalization, Room 7100-C, 425 Eye Street, NW, Washington, D.C. 20536, written data, views, or arguments, in duplicate, with respect to the proposed rules. Such representations may not be presented orally in any manner. All relevant material received by May 9, 1975, will be considered.

It is proposed to amend Part 103 of Title 8 as set out below:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

In § 103.7 paragraph (a) is amended by adding a new sentence between the existing third and fourth sentences; paragraph (b)(1) is amended by revising 29 existing fees, and adding a new fee. As amended, §§ 103.7 (a) and (b)(1) read in pertinent part as follows:

§ 103.7 Fees.

(a) *Remittances.* * * * A charge of $5.00 will be imposed if a check in payment of a fee is not honored by the bank on which it is drawn. * * *

(b) *Amounts of fees.* (1) The following fees and charges are prescribed:

For filing application for Alien Registration Receipt Card (Form I-151), in lieu of one lost, mutilated, or destroyed, or in a changed name	$10
For filing application on Form I-550 for verification of lawful permanent residence of an alien	5
For filing application for verification of information contained in Service records	5
For filing application (Form I-102), for Arrival-Departure Record (Form I-94) or Crewman's Landing Permit (Form I-95), in lieu of one lost, mutilated, or destroyed	5
For filing application for a United States Citizen Identification Card	5
For filing application for permission to reapply for an excluded or deported alien, an alien who has fallen into distress and has been removed as an alien enemy, or an alien who has been removed at Government expense in lieu of deportation	20
For filing application for passport or visa waiver prior to or at the time application is made for temporary admission to the United States	15
For filing application for visa waiver when application is made for admission as a returning resident	15
For filing application for passport waiver prior to or at the time application is made for permanent admission	15
For filing appeal from or motion to reopen or reconsider any decision under the immigration laws in any type of proceeding over which appellate jurisdiction, if any, belongs to an official of the Service. (The minimum fee of $55 shall be charged whenever an appeal or motion is filed by or on behalf of two or more aliens and all such aliens are covered by one decision)	55
For filing petition to classify nonimmigrant as temporary worker or trainee under section 214(c) of the Act	10
For filing petition to classify nonimmigrant as fiancee or fiance under section 214(d) of the Act	10
For filing petition to classify status of alien relative for issuance of immigrant visa under section 204(a) of the Act	10
For filing application for issuance or extension of reentry permit	5
For filing application for issuance or extension of refugee travel document	5
For filing application for extension of stay of a nonimmigrant, other than one described in section 101(a)(15)(F) or 101(a)(15)(J) of the Act, and, upon a basis of reciprocity, a nonimmigrant described in section 101(a)(15)(A)(iii) or 101(a)(15)(G)(v) of the Act	5
For filing petition to classify preference status of an alien on basis of profession or occupation under section 204(a) of the Act	20
For filing petition to classify orphan as an immediate relative for issuance of immigrant visa under section 204(a) of the Act. (When more than one petition is submitted by the same petitioner in behalf of orphans who are brothers or sisters, only one fee will be required.)	35
For filing application for school approval, except in the case of a school or school system owned or operated as a public educational institution or system by the United States or a state or political subdivision thereof	30
For filing application for discretionary relief under section 212(c) of the Act	50
For filing application for discretionary relief under section 212(d)(3) of the Act, except in an emergency case, or where the approval of the application is in the interest of the United States Government	10
For filing application for waiver of the foreign-residence requirement under section 212(e) of the Act	65
For filing application for waiver of ground of excludability under section 212 (h) or (i) of the Act. (Only a single application and fee shall be required when the alien is applying simultaneously for a waiver under both those sections.)	40
For filing application for adjustment of status to that of a permanent resident under section 245 of the Act	25
For filing application for adjustment of status to that of a permanent resident under section 13 of the Act of September 11, 1957	25
For filing application for creation of record of admission for permanent residence under section 249 of the Act	25
For filing application to record lawful admission for permanent residence under section 214(d) of the Act	25
For filing application for change of nonimmigrant classification under section 248 of the Act	10
For filing appeal from or motion to reopen or reconsider any decision under the immigrations laws in any type proceeding over which the Board of Immigration Appeals has appellate jurisdiction in accordance with § 3.1(b) of this chapter. When the motion to reopen or reconsider is made concurrently with any application under the immigration laws, such application will be considered an integral part of the motion and only the fee for filing the motion or the fee for filing the application, whichever is greater, is payable. (The minimum fee of $65 shall be charged whenever an appeal or motion is filed by or on behalf of two or more aliens and all such aliens are covered by one decision.)	65
For filing application for stay of deportation under Part 243 of this chapter	40
For filing application for temporary withholding of deportation under section 243(h) of the Act	15
For filing application for suspension of deportation under section 244 of the Act	65
For filing application for transfer of petition for naturalization under section 355(i) of the Act, except when transfer is of a petition for naturalization filed under the Act of October 24, 1968, P.L. 90-633	10

V 40-70 APR 10 75 XUM

For filing application for a certificate of naturalization or declaration of intention in lieu of a certificate or declaration alleged to have been lost, mutilated, or destroyed; or for a certificate of citizenship in a changed name under section 343 (b) or (d) of the Act	5
For filing application for certificate of citizenship on Form N–600 under section 309(c) or section 341 of the Act	10
For filing application for certificate of citizenship on Form N–400 by a parent, and the issuance thereof, under section 341 of the Act	10
For filing application for a special certificate of naturalization to obtain recognition as a citizen of the United States by a foreign state under section 343(c) of the Act	10
For filing application for a certificate of naturalization or repatriation under section 343(a) of the Immigration and Nationality Act or the 12th subdivision of section 4 of the Act of June 29, 1906	5
For filing application for section 316(b) or 317 of the Act benefits	10
For special statistical tabulations a charge will be made to cover the cost of the work involved	
For set of monthly, semiannual, or annual tables entitled "Passenger Travel Reports via Sea and Air"	7
For annual subscription for "Passenger Travel Reports via Sea and Air"	105
For certification of true copies, each	1
For attestation under seal	3

National Oceanic and Atmospheric Administration

[50 CFR Part 251]

FINANCIAL AID PROGRAM PROCEDURES

Fishery for King Crab in Alaska

Notice is hereby given that the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, has under consideration an amendment to the regulations (50 CFR Part 251) which sets forth financial aid program procedures.

It is the intent of Part 251 of this chapter that financial assistance programs will not be made available when upon review of situations and conditions at hand, as well as prospective developments, the Director deems that the use of such financial assistance programs would not be consistent with the wise use and with the development, advancement, management, conservation, and protection of fisheries resources.

The proposed amendment, as set forth below, would incorporate in Subpart B of the regulation a new § 251.24 to classify the "fishery for king crab in Alaska" as a Conditional Fishery as the term is defined in § 251.1(l).

The principal situations and conditions under consideration for determining that the "fishery for king crab in Alaska" is in need of regulation under Part 251 of this chapter are described in the following Explanatory Statement.

Federal and State agencies as well as the public will be given time and opportunity to comment on this proposed amendment. Comments that are received will be evaluated giving full consideration to the national interest and the multiplicity of environmental, biological, economic, social, and other situations and conditions as the Director may deem relevant. Upon evaluation of all comments and available information, the Director will take action as may be appropriate and will continue to monitor and assess situations and conditions related to the "fishery for king crab in Alaska" to determine the continued need for regulation. This proposed amendment is published pursuant to the authority contained in Section 4 of the Fish and Wildlife Act, 1956, as amended, Title XI of the Merchant Marine Act, 1936, as amended, Section 607 of the Merchant Marine Act, 1936, as amended, the National Environmental Policy Act, and Reorganization Plan No. 4 of 1970.

Written views, data, or arguments on this proposed amendment should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235. All communications received on or before July 10, 1975, will be considered before action is taken with respect to adoption of the proposed amendment. No public hearing is contemplated at this time; however, any persons desiring a public hearing may request such a hearing by writing to the Director, National Marine Fisheries Service, Washington, D.C. 20235. In the event that a public hearing is found necessary, an appropriate notice to that effect will be published in the FEDERAL REGISTER.

By order of the Administrator, National Oceanic and Atmospheric Administration.

ROBERT M. WHITE,
Administrator.

EXPLANATORY STATEMENT

The Director considers it necessary to classify the "fishery for king crab in Alaska" as a Conditional Fishery for regulation under Part 251 of this chapter. For the purpose of this regulation the term "king crab" means any or all of the following species: *Paralithodes camschatica, Paralithodes, platypus, Paralithodes brevipes,* and *Lithodes aequispina.* The necessary situations and conditions for such classification follow.

The "fishery for king crab in Alaska" is under the administration of two Alaskan agencies, the Alaska Department of Fish and Game and the Alaska Commercial Fisheries Entry Commission. In accordance with Alaska's program to conserve and manage its fisheries, comprehensive regulations governing king crab fishing are administered by the Alaska Department of Fish and Game. These regulations are based on available biological and fishing effort data as well as other information and considerations related to management of the Alaska king crab fishery. Under these regulations there are specific statistical and registration areas and requirements for registration of all king crab vessels and king crab fishing gear. These regulations, among other things, restrict the type, numbers and dimensions of king crab gear, the size and sex of king crabs that may be harvested, the open season for harvesting king crabs, and provide for annual catch quotas.

The total U.S. king crab harvest decreased from 159 million pounds in 1966, to 58 million pounds in 1969. In 1970, as part of its management program, Alaska established certain area quotas on the allowable harvest of king crab. While recognizing that such regulatory measures would serve to protect the king crab stocks in certain areas where landings and catch per unit of effort were decreasing, these regulatory measures also encouraged a wider distribution of fishing effort to king crab stocks available in expanded areas. During the 1966 to 1970 period, the U.S. king crab fishing fleet operating in areas of the Aleutian Islands and the Bering Sea was transformed by replacement of many of the older wooden vessels with new and larger steel vessels specifically designed for the Alaska crab fishery. These new vessels have the capability of operating in all Alaska king crab areas and the mobility to operate in the Bering Sea area during seasons when several other king crab fishing areas are closed. Since total fishing effort by this fleet in the Bering Sea has progressively increased, Alaska now regulates the harvests and the open season for U.S. king crab vessels fishing in the Bering Sea area as well as other regulatory areas.

Under Alaska's management program, the U.S. harvest of king crabs has increased from 58 million pounds in 1969 to 76 million pounds in 1973. The mean size of king crabs and the catch per unit of effort have also increased in some areas, but evidence from other areas indicates declines in total catch, declines in the mean weight of king crabs harvested, and declines in the catch per unit of effort. There also remain uncertainties regarding variability in size and age class recruitment of king crabs.

From the standpoint of adequate economic return to fishermen and adequate ability to harvest the resource, there is a concern that excessive numbers of vessels and gear exist in the king crab fishery which detrimentally affect the ability to manage it.

The Alaska Commercial Fisheries Entry Commission has authority to limit, or reduce, the number of entry permits to a level which will be manageable and will provide a reasonable average rate of return to labor and capital. This will prevent further increases in the amount of king crab gear while the Commission further studies this fishery to determine the appropriate number of entry permits that will enable the Commission to achieve its conservation and management goals. Alaska plans that if reduction of entry permits is required to achieve its goals, this reduction will be achieved through a voluntary buy-back program.

In view of the above-mentioned situations and conditions, and until the Alaska Commercial Fisheries Entry Commission completes its investigation of the fishery for king crab in Alaska, it appears to be inconsistent with the needs and objectives of management to use the financial assistance programs to add vessels or gear to this fishery. Consequently, the Director is considering that the "fishery for king crab in Alaska" should be a Conditional Fishery in accordance with Part 251 of this chapter.

It is proposed to amend Part 251 of this chapter, Subpart B—Conditional Fisheries, to add a new § 251.24 as follows:

§ 251.24 Fishery for king crab in Alaska.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-SO-29]

AIRWAY SEGMENTS

Proposed Revocation of Alternate

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would delete V–16S from Nashville, Tenn., to Hinch Mountain, Tenn., and delete V–54S from Huntsville, Ala., to Chattanooga, Tenn.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before May 12, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would delete two alternate airway segments. The peak day count for 1973 and 1974 shows that less than an average of two aircraft per day use these routes. Since they are no longer required for air traffic control, their continued designation as airways can no longer be justified.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 4, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[14 CFR Part 71]

[Airspace Docket No. 75-WA-5]

VOR FEDERAL AIRWAY

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would realign V–515 between Gulkana, Alaska, and Big Delta, Alaska.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before May 12, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would redesignate V–515 from Gulkana via the INT of Gulkana 011° and Big Delta 139° radials to Big Delta.

This change is proposed because of inadequate navigational signal on the present route.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 4, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[Docket No. ROS–1, Notice 2]

RAILROAD OCCUPATIONAL SAFETY STANDARDS

Extension of Comment Period

Notice is hereby given that, at the request of the Railway Labor Executive Association and the Congress of Railway Unions, the Federal Railroad Administration (FRA) has extended to May 30, 1975, the period for filing written comments on the advance notice of proposed rulemaking published on March 7, 1975 (40 FR 10693), requesting public advice on the priorities for and content of Railroad Occupational Safety and Health Standards.

Issued in Washington, D.C. on April 7, 1975.

DONALD W. BENNETT,
Chief Counsel, Federal Railroad Administration.

[FR Doc.75-9332 Filed 4-9-75;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 74–14; Notice 3]

OCCUPANT CRASH PROTECTION

Proposed Safety Requirements

This notice proposes an amendment of Standard No. 208, *Occupant crash protection,* 49 CFR 571.208, that would continue until August 31, 1976, the present three options available for occupant crash protection in passenger cars. This amendment would replace the existing requirement for protection by means that require no action by vehicle occupants.

The requirements of Standard No. 208 for passenger cars have been imposed in sequential phases, with the current phase that offers three crash protection options ending August 14, 1975, to be replaced by a requirement for crash protection that is "passive", i.e., requires no action by vehicle occupants such as fastening a seatbelt. On December 5, 1972, the U.S. Court of Appeals for the Sixth Circuit in *Chrysler v. DOT,* 472 F.2d 659 (6th Cir. 1972), upheld the basic validity of Standard No. 208, but required the agency to issue more specific dummy specifications, and suspended the mandatory passive requirements that were to come into effect on August 15, 1975.

New dummy specifications were published on August 1, 1973 (38 FR 20449) as Part 572 of Title 49, Code of Federal Regulations. The NHTSA has also proposed a delay of the effective date for "passive" restraints, as ordered by the court in the *Chrysler* case, and an extension of the current 3-option phase for the period of delay from August 14, 1975, to August 31, 1976 (39 FR 10271, March 19, 1974).

The proposed extension of the three options called for an ignition interlock system and "continuous buzzer," which have since been deleted from the current requirements (39 FR 38380, October 31, 1974; 39 FR 42692, December 6, 1974; 40 FR 6218, February 10, 1975) in accordance with the provisions of the Motor Vehicle and Schoolbus Safety Amendments of 1974 (15 U.S.C. § 1410 (b)).

A decision has not yet been made on the long-term requirements for occupant crash protection, and manufacturers must be informed of the requirements

V 40 70 APR 10 75 XUM

for the interim period. The NHTSA finds it desirable, therefore, to propose the extension of the present requirements of Standard No. 208 for the period August 14, 1975, to August 31, 1976. The requirements for this period would be identical to the three options in effect during the current phase for passenger cars on and after February 24, 1975.

Because of the short time remaining before production plans are made final for 1976-model passenger cars, a comment period of 30 days is established.

In consideration of the foregoing, it is proposed that Standard No. 208 (49 CFR § 571.208) be amended as follows:

§ 571.208 [Amended]

1. The title and first sentence of S4.1.2 would be amended to read:

S4.1.2 *Passenger cars manufactured from September 1, 1973, to August 31, 1976.* Passenger cars manufactured from September 1, 1973, to August 31, 1976, inclusive, shall meet the requirements of S4.1.2.1, S4.1.2.2, or S4.1.2.3.

2. Section S4.1.3 of Standard No. 208 would be deleted.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: May 12, 1975.

Proposed effective date: Date of publication of the final rule in the FEDERAL REGISTER.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8).

Issued on April 3, 1975.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 357-8]

IDAHO

Air Quality Implementation Plan; Proposed Revisions

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51, require each State to submit a plan which provides for the implementation, maintenance and enforcement of national ambient air quality standards throughout the State. On May 31, 1972 (37 FR 10842), the Administrator of the Environmental Protection Agency (EPA) approved, with certain exceptions, the State of Idaho Air Quality Implementation Plan. On January 10 and January 24, 1975, the Governor of the State of Idaho submitted for the Administrator's approval proposed revisions to the State Implementation Plan (SIP). These revisions were adopted by the State Board of Health and Welfare after proper notice and public hearing, in accordance with 40 CFR 51.4 and 51.6.

The proposed revisions include changes to the Rules and Regulations for the Control of Air Pollution in Idaho, which is part of the approved SIP. The changes include:

1. An amended Regulation C, Ambient Air Quality Standards, adopted April 11, 1974.

2. An amended Regulation A, General Provisions, adopted December 5, 1974.

3. A revised Regulation S, Control of Sulfur Oxide Emissions, adopted January 3, 1975.

The Administrator is today proposing to approve regulation C and proposing to disapprove regulation S, as submitted on January 10, 1975, and proposing to approve regulation A, as submitted on January 24, 1975.

Regulation C has been amended by the State to maintain consistency with EPA's standards for sulfur oxides, as amended on September 14, 1973 (38 FR 25678). The requirements for the annual secondary and maximum 24-hour secondary concentrations have been deleted from the Regulation. There is no change in the maximum 3-hour secondary standard, which is the same as the federal standard, 1,300 micrograms per cubic meter (0.5 ppm).

The revisions to regulation A include the addition of several definitions to section 2 and a revision to section 6, Scheduled Maintenance, which requires the reporting of any exceeded emission limits as a result of shutdown of any air pollution control equipment for scheduled maintenance while the related equipment continues to operate. The section provides that permission must be obtained from the State Department of Health and Welfare prior to such a shutdown and permission may be granted only if maximum reasonable effort has been made to complete such maintenance during periods of non-operation of the related equipment.

The Administrator is proposing disapproval of regulation S, Control of Sulfur Oxide Emissions, on the basis that the regulation allows the Bunker Hill Company to apply for permission to use a Supplementary Control System (SCS) without the application of reasonably available control technology. EPA has previously established a policy that SCS may only be allowed as a control measure after the application of permanent control which is reasonably available to the source. Further, the provision in Section IV (17) of the State regulation, which establishes a 30-day review period for determining the source's liability for the annual standard violation, negates the basic legal premise of SCS, i.e., that the source is an isolated source.

On October 7, 1974 (39 FR 36018), EPA proposed a federal regulation for the control of sulfur oxides in the Idaho portion of the Eastern Washington-Northern Idaho Interstate Region. On January 22, 1975, EPA held a public hearing to receive public comment on the proposed federal regulation. Information received as a result of this hearing will be considered in the Administrator's final decision on the approval or disapproval of Regulation S.

With the revised regulation S, the State forwarded to EPA additional information to be included in chapter IV, Control Strategies, and appendix F, Discussion of Control Measures of Sulfur Dioxide in the State of Idaho, of the SIP. The information in chapter IV discusses the revised control strategy for sulfur dioxide in the Idaho portion of the Eastern Washington-Northern Idaho Interstate Air Quality Control Region (AQCR). Further, this explains in narrative form the background of the two regulatory approaches the State is taking in regulation S to meet the ambient air quality standards in the Kellogg, Idaho, area. Appendix F provides background data for the "sliding scale" provisions provided in section IV (16) of regulation S and for interim 24-hour primary ambient SO_2 standards set by the State for the affected source to meet before July 31, 1977.

Copies of the proposed revisions to the Idaho Implementation Plan are available for public inspection at the following addresses:

State of Idaho
Department of Health and Welfare
Statehouse
Boise, Idaho 83720

Environmental Protection Agency
1200 Sixth Avenue
Seattle, Washington 98101

Freedom of Information Center
Environmental Protection Agency
401 M Street SW.
Washington, D.C. 20460

All interested persons are encouraged to submit written comments on whether the proposed revisions to the Idaho Implementation Plan should be approved or disapproved as required by Section 110 of the Clean Air Act, as amended. Comments received on or before May 12, 1975, will be considered. Public comments received on the proposed revisions will be available for public inspection at the EPA Regional Office and EPA Headquarters at the addresses noted above. Comments should be directed to the Regional Administrator, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101 Attention Ms. K. Higley M/S 629.

This notice of proposed rulemaking is issued under the authority of section 110(a) of the Clean Air Act, as amended (42 U.S.C. 1857c-5(a)).

Date: March 31, 1975.

C. V. SMITH, Jr.,
Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart N—Idaho

1. In § 52.670, paragraph (c)(2) is revised to read as follows:

§ 52.670 Identification of plan.

• • • • •

(c) Supplemental information was submitted on:

• • • • •

(2) March 2, May 5 and June 9, 1972, February 15, July 23 and October 16, 1973; July 1, 1974 (Indirect Source Regulation and compliance schedules), and January 10 (chapter IV and appendix F of the Implementation Plan, regulations C and S of the Rules and Regulations for the Control of Air Pollution in Idaho) and January 24, 1975 (regulation A of the Rules and Regulations for the Control of Air Pollution in Idaho).

2. In § 52.676, paragraph (a) is revised as follows:

§ 52.676 Control strategy: Sulfur oxides—Eastern Washington-Northern Idaho Interstate Region.

(a)(i) The requirements of § 51.13 of this chapter are not met in the Idaho portion of the Eastern Washington-Northern Idaho Interstate Region since the plan does not provide for the necessary emission reductions for the attainment and maintenance of the primary standards for sulfur oxides.

(ii) Regulation S of the Rules and Regulations for the Control of Air Pollution in Idaho, which is part of the SO_2 control strategy, is disapproved since it is inconsistent with the purposes and provisions of section 110 of the Clean Air Act.

[FR Doc.75-9321 Filed 4-9-75;8:45 am]

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 329]

INTEREST ON DEPOSITS

Preauthorized Payments or Transfers From Savings Deposits

1. Notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation (the "Corporation"), under the authority in section 9, 64 Stat. 881, 12 U.S.C. 1819 and section 18, 64 Stat. 891, 12 U.S.C. 1828, is considering an amendment to § 329.5(c) of its regulations (12 CFR 329.5(c)). The amendment would permit an insured nonmember bank to make periodic payments or transfers of credit from a customer's savings account to facilitate payment to third parties, regardless of the nature of the customer's obligation.

The Corporation's current regulations prohibit an insured nonmember bank from entering into an agreement with the holder of a savings account whereby the bank will periodically withdraw funds from the account, pursuant to his written instructions, for the purpose of making payment to his creditors or other third parties (12 CFR 329.5(c)(2)). The prohibition applies to withdrawals through payment to the bank itself as well as through transfers of credit to a demand or other account of the same depositor. There is an exception for the periodic payment of principal, interest and other charges on a real estate loan or mortgage. This is the only exception at present.

The Corporation has received a number of requests to expand this payment or transfer authority. After considering the relative merits of these proposals, the Board of Directors has concluded that such an expansion might well be in the public interest. It would permit bank customers to make better use of their savings in order to meet recurring obligations such as insurance premiums, utility bills and payments for automobile and other consumer loans.

The proposed amendment would permit arrangements whereby a depositor could give his bank written authorization to make periodic withdrawals from his savings account for the purpose of paying all or a portion of his debts to various third parties. Payment would then be made either by a simple transfer of credit to another account in the bank or by having the bank draw a check on itself payable to the third party. This would allow payment to third parties who do not maintain an account with the depositor's bank.

The proposed amendment would not permit the depositor to give his bank (or anyone else) a negotiable or transferable authorization which could itself be used as a means of making payment to a third party. In addition, the depositor would still be barred from authorizing payments or transfers of credit for the purpose of covering checks or drafts drawn by the depositor on the bank.

2. The proposed amendment to § 329.5(c) would read as follows:

§ 329.5 Withdrawal of savings deposits.

• • • • • •

(c) *Manner of payment of savings deposits.* (1) Subject to the provisions of paragraphs (c) (2) and (4) of this section, an insured nonmember bank may permit withdrawals to be made from a savings deposit only through payment [1] to the depositor himself (but not to any other person whether or not acting for the depositor), except:

• • • • • •

(vi) Payment or transfers of credit made pursuant to a nonnegotiable, nontransferable written order or authorization, signed by the depositor, directing the bank to make such payments or transfers of credit to third parties, periodically or otherwise. Any such order or authorization shall include a clear and conspicuous statement to the effect that it is neither negotiable nor transferable.

(2) Notwithstanding the provisions of paragraph (c)(1) of this section, no withdrawal shall be permitted by an insured nonmember bank to be made from a savings deposit, through payment to the bank itself or through transfer of credit to a demand or other deposit account of the same depositor (other than of interest on the savings deposit) if such payment or transfer is made pursuant to any advertised plan or any agreement, written or oral, which authorizes such payments or transfers of credit to be made as a normal practice in order to cover checks or drafts drawn by the depositor upon the bank.

• • • • • •

3. This notice is published pursuant to section 553(b) of Title 5, United States Code, and §§ 302.1 and 302.2 of the rules and regulations of the Federal Deposit Insurance Corporation.

4. Interested persons are invited to submit written data, views or arguments regarding the proposed amendment to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429 no later than May 30, 1975.

By order of the Board of Directors, April 4, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

[12 CFR Part 329]

INTEREST ON DEPOSITS

Notice of Proposed Change in Application of Penalty Provisions to Withdrawal of Time Deposits Before Maturity

1. Notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation (the "Corporation"), under the authority contained in section 9, 64 Stat. 881, 12 U.S.C.

[1] Payment from a savings deposit or presentation of a passbook may be made over the counter, through the mails, or otherwise.

V 40 70 APR 10 75 XUM

1819 and section 18, 64 Stat. 891, 12 U.S.C. 1828, and after consultation with the Board of Governors of the Federal Reserve System and the Federal Home Loan Bank Board, is considering an amendment to § 329.4(d) of its regulations governing interest on deposits (12 CFR 329.4(d)). The proposed amendment would permit insured nonmember banks to pay time deposits before maturity, without imposing a penalty, in cases where the depositor has died.

Section 18(g) of the Federal Deposit Insurance Act (12 U.S.C. 1828(g)) provides that no insured nonmember bank shall pay any time deposit before its maturity except in accordance with such regulations as the Corporation's Board of Directors may prescribe. The current regulations require that an insured nonmember bank impose a substantial interest penalty when it pays a time deposit prior to maturity. Insured nonmember banks are required to impose such penalties in order to preserve the distinction between demand and time deposits and to prevent time deposit accounts from being utilized as essentially demand deposit or transaction accounts. However, since the amendment would apply only in those cases where the depositor has died, it is considered unlikely that the amendment would interfere with this purpose to any significant extent.

The proposed amendment provides that the depositor must have been the sole legal and beneficial owner of the deposit at the time of his/her death. Thus, for example, the death of a trustee acting in that capacity as the depositor of uninvested trust funds, and holding legal title to those funds, would not fall within the proposed amendment as to either the beneficiaries of the trust or successor trustees. Similarly, the amendment would not apply where beneficial ownership is divided between the settlor and beneficiaries (e.g., an irrevocable express trust with a life estate in the settlor and vested remainder in the beneficiaries). However, the amendment would apply if the trustee is also the settlor of a revocable trust, "Totten" or tentative trust, payable-on-death or similar account, and as such retains sole legal and beneficial ownership of the funds at the time of his/her death.

The amendment as proposed would not apply to jointly owned deposits where there is a surviving depositor or depositors who were parties to the deposit contract and presumably had knowledge of the applicable penalties.

2. It is proposed that paragraph (d) of § 329.4 be amended by adding a new sentence at the end thereof as follows:

§ 329.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty on payment of time deposits before maturity.* * * * *Provided,* that the penalty prescribed by this paragraph (d) shall not apply to the withdrawal of all or any portion of a time deposit before the maturity thereof upon the death of an individual depositor who, at the time of his death, is the sole legal and beneficial owner of such deposit.

3. This notice is published pursuant to section 553(b) of Title 5, United States Code, and §§ 302.1 and 302.2 of the rules and regulations of the Federal Deposit Insurance Corporation.

4. Interested persons are invited to submit written data, views or arguments regarding the proposed amendment to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429 no later than May 16, 1975.

By order of the Board of Directors, April 4, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. RM75-25]

POLICY WITH RESPECT TO CERTIFICATION OF PIPELINE TRANSPORTATION AGREEMENTS

Proposed Rulemaking To Adopt Policy Statement With Request for Comments

APRIL 4, 1975.

This notice submits for public comment a proposed statement of policy with respect to the transportation by jurisdictional pipelines of natural gas sold by certain producers[1] from the on-shore and the off-shore non-federal domain directly (1) to non-resale industrial customers for priority 2 uses or for those priority 3 uses that would otherwise have been in priority 2 had the gas been purchased on a firm basis; or (2) to local distributors for resale to industrial or commercial customers for the same priority 2 or 3 uses or to priority 1 customers.[2] The Commission proposes to implement such policy in all matters arising under the Natural Gas Act. When applied in specific cases, opportunity would be afforded interested parties to challenge or support this policy through factual or legal presentation as may be appropriate in the circumstances presented.

The Commission recognizes that such cases as F.P.C. v. Transcontinental Gas Pipe Line Corporation, 265 U.S. 1 (1961), and Arizona Public Service Company v. F.P.C., ____ U.S. App. D.C.____, 483 F.2d 1275 (1973), might be read to imply that the Commission is predisposed as a matter of policy to look with disfavor upon applications for certificates of public convenience and necessity filed by jurisdictional pipelines for authority to transport gas sold by producers directly (1) to high priority (industrial or commercial) customers, or (2) to local distributors for resale to high priority customers. The Commission would therefore make its views clear in the proposed policy statement so that those high priority customers, or those local distributors serving high priority customers, who would otherwise have been discouraged from making such direct purchases will now be encouraged to explore the possibilities of entering into sales contracts with producers and of arranging for transportation of the gas by pipelines subject to our jurisdiction.

DISCUSSION

Section 2.78 of our Statement of Policy, 18 CFR 2.78, contains our statement of policy on priorities-of-deliveries by jurisdictional pipeline companies during periods of curtailment. The highest priority is reserved for residential and small commercial users. The second highest priority is reserved for large commercial and firm industrial customers who use gas for plant protection, feedstock and process needs. Similarly, those priority 3 industrial customers purchasing under interruptible contracts that would otherwise have been in priority 2 had the gas been purchased on a firm basis also represent high priority industrial uses. For these customers supplies of natural gas are essential for human needs or for continued operation of their businesses. These observations are confirmed by the fact that numerous pipelines have filed end-use curtailment plans which accord high priority status to such uses.

It now appears, however, that natural gas supply deficiencies for pipelines subject to our jurisdiction have increased to the point where some of these high priority end uses may be, or already are, subject to curtailments. A report issued by our Bureau of Natural Gas on November 15, 1974,[3] projected that natural gas supply deficiencies for major interstate natural gas pipeline companies will be 107 percent greater during the current (i.e. 1974–75) winter than they were during the last (i.e. 1973–74) winter. Regarding firm curtailments, the anticipated supply deficiencies for September 1974 through August 1975 exceed the actual curtailments for the preceding year

[1] As set forth hereinafter, the proposed policy would not apply to sales by a producer which is an affiliate of a jurisdictional pipeline, nor to sales by a producing division of a jurisdictional pipeline.

[2] As set forth in § 2.78 of the Commission's Statement of Policy, 18 CFR 2.78, priority 1 uses include: Residential, small commercial (less than 50 Mcf on a peak day).

Priority 2 uses include: Large commercial requirements (50 Mcf or more on a peak day), firm industrial requirements for plant protection, feedstock and process needs, and pipeline customer storage injection requirements.

Priority 3 uses include: All industrial requirements not specified in paragraph (a) (2), (4), (5), (6), (7), (8), or (9) of 18 CFR 2.78.

[3] FPC News Release No. 20849. This report was prepared on the basis of responses filed by 44 pipelines pursuant to Form No. 16, Report of Gas Supply Requirements. The report provides requirements and curtailment data for the period September 1973, through August 1974, together with projections for the year ending August 1975.

by 996,234,000 Mcf, or 73.15 percent, with 19 pipelines reporting actual firm curtailments.[4] With respect to curtailment of interruptible sales, the anticipated supply deficiencies for September 1974 through August 1975 will result in anticipated curtailment of over 58 percent of interruptible loads. It thus appears that curtailments are continuing to deepen and spread among more and more segments of our society. This conclusion is supported by the fact that there has been a marked increase in the number of petitions filed with us for extraordinary relief from pipeline curtailment plans. Several specific examples will illustrate the variety of commercial and industrial products and processes that have been affected:

Ammonia used in the production of fertilizer or animal feed additives—Northwest Pipeline Corporation (Reichold Chemicals, Inc.), Docket No. RP75-31-1; United Gas Pipeline Company, Docket No. RP74-37-11; Texas Eastern Transmission Corp. (North Alabama Gas District), Docket No. RP74-39-8; Alabama-Tennessee Natural Gas Company (T.V.A.), Docket No. RP75-44-2; Florida Gas Transmission Company (Borden, Inc. and Gardinier, Inc.), Docket Nos. RP74-50-3 and RP74-50-4; Southern Natural Gas Company (Kaiser Aluminum & Chemical Co.), Docket No. RP74-71-8;

Glass—Transcontinental Gas Pipe Line Corp. (City of Laurens, South Carolina), Docket No. RP75-16-7;

Fibre glass—Texas Eastern Transmission Corp. (Penn Fuel (Owens-Corning)), Docket No. RP74-39-14;

Electrical components and electronic equipment—Alabama-Tennessee Natural Gas Company, Docket No. RP75-44-1; Texas Eastern Transmission Corp. (Penn Fuel (Westinghouse)), Docket No. RP74-39-16;

Aluminum—Tennessee Gas Pipeline Co. (Humphreys County Utility District), Docket No. RP74-91-16;

Beryllium copper strips—Texas Eastern Transmission Corp. (Penn Fuel (Burch-Willman)), Docket No. RP74-39-15;

Refractories and kilns—Florida Gas Transmission Co. (Basic Magnesia, Inc.), Docket No. RP74-50-1; Texas Eastern Transmission Corp. (Penn Fuel (Glen-Gary)), Docket No. RP74-39-17;

Nickel refining—Southern Natural Gas Co. (Amax Nickel Refining Co.), Docket No. RP74-71-1;

Bearings—Texas Eastern Transmission Corp. (Penn Fuel (Bonnd Brooke)), Docket No. RP74-39-18;

Steel rolling mills—Coumbia Gas Transmission Corp. (Teledyne Ohio Steel), Docket No. RP75-74-3;

Plastic films— Texas Eastern Transmission Corp. (Penn Fuel (Allied Chemical)), Docket No. RP74-39-19; Texas Eastern Transmission Corp. (Penn Fuel (American Argo)), Docket No. RP74-39-20;

Propane and butane extraction—Florida Gas Transmission Co. (Florida Hydrocarbons), Docket No. RP75-50-5;

Plant protection—Texas Eastern Transmission Corp. (Penn Fuel (United Metal Receptacle)), Docket No. RP74-39-21;

As well as other products and processes—See, e.g. Tennessee Gas Pipeline Co. (East Tennessee and Penn Gas & Water Co.), Docket Nos. RP74-91-17 and RP74-91-18.

The practical effect of curtailment of such high priority end uses may very well be a decrease in the production of these and other essential products and services. This decrease in production in turn will mean not only shortages but increased inflation as consumers offer to pay higher prices for the decreasing supply of goods and services available. Of equal importance is the fact that plant closings and production cutbacks may result in an increase in the number of workers laid off either temporarily or indefinitely. We are aware that curtailments of high priority uses pose a serious threat to the employment of thousands of workers. In the exercise of our responsibility and the use of our statutory power we recognize the national policies of, interalia, the Natural Gas Act, 15 U.S.C. section 717, et seq., and the Full Employment Act of 1946, 15 U.S.C. section 1021.

One possible way for existing high priority customers to obtain gas not available from their pipeline suppliers would be to buy gas directly from producers with the pipeline providing transportation of the gas. Since such direct sales would not be subject to our rate jurisdiction, the high priority customers would be able to compete directly with the producer's intrastate customers for gas supplies. Thus, gas which would otherwise be sold only to intrastate consumers would become available to high priority customers in the interstate market.

It may also be possible for high priority customers to obtain gas from their local distributor if the distributor is able to contract directly with a producer. While a producer's sale to a local distributor for resale to a high priority customer would be subject to our rate jurisdiction, thus making it more difficult for the local distributor to compete with the producer's intrastate customers for gas supplies, we will not rule out the possibility that local distributors may be able to purchase natural gas directly from producers to supply the distributor's existing high priority customers.

Whether the gas is purchased from a producer by a nonresale customer, or by a local distributor, the interstate transportation of such gas by a pipeline would be subject to our jurisdiction. The pipeline would thus be obliged to seek a certificate of public convenience and necessity from the Commission under section 7 of the Natural Gas Act, 15 U.S.C. section 717f, for permission to transport the gas. We are clearly authorized by the Act to grant such transportation certificates, and we have issued such certificates in the past. However, we realize that in two of the cases in which we denied transportation certificates,[5] we may have left the impression that we are generally opposed to the granting of transportation certificates for policy reasons and that it would therefore be futile for anyone, including high priority industrial and commercial customers, or local distributors who serve high priority customers, to buy gas directly from producers.

We wish to point out, however, that in the Transco and APS cases, we did not mean to imply that we were, without exception, opposed to the granting of transportation certificates. In both of those cases the Commission relied upon the following three factors in denying certificates: (1) the consumer intended to use the gas for boiler fuel—an inferior use; (2) the pipeline had failed to show that transportation of the gas was not preempting pipeline capacity which would otherwise be available for higher priority uses; and (3) the price of the gas was above the field rates set by the Commission for jurisdictional sales, the effect of which would be a general rise in the field prices, or a reduction in the amount of gas available for customers in the interstate market, particularly for high priority customers. In both cases all three factors were found to exist; the Commission did not speak to a case where other facts might be shown.

In present day circumstances, however, it may be possible for the pipeline to distinguish the Transco and APS cases by establishing that the gas will be used for a relatively high priority use; by showing that the transportation of the gas will not preempt pipeline capacity otherwise available for high priority uses, particularly when the transporting pipeline has unused capacity as a result of its curtailments; or by showing that the sale will neither have an adverse effect upon field prices nor upon the volumes of gas available to the interstate market, because the gas contracted for would not otherwise be available for sale to the interstate pipeline and, in the case of sales to non-resale customers, the price paid does not compare unfavorably with field prices paid by intrastate buyers. In this connection, we would point out that in ruling upon applications for transportation certificates we would consider not only the above three factors, but all relevant factors bearing upon the public interest, including any positive effects which follow from the fact that high priority customers would be able to obtain gas. No one factor would control our determination of whether a certificate should be issued. Rather, it would be the balance of all factors that will determine the outcome in each case.

In proposing this statement of policy we are not changing any existing rule or regulation but merely proposing to do that which we have the authority to do on an ad hoc basis under the Natural Gas Act.

If a pipeline is able to make the requisite showing in a certificate proceeding, gas supplies which are not otherwise sold in the interstate market would

[4] The actual net firm curtailments for the 12 month period ending August 31, 1974, totaled 1,361,871,000 Mcf and the projected net firm curtailments from September 1974, through August 1975, total 2,358,105,000 Mcf.

[5] F.P.C. v. Transcontinental Gas Pipe Line Corp., 365 U.S. 1 (1961); and Arizona Public Service Co. v. F.P.C., ____ U.S. App. D.C., 485 F.2d 1275 (1973).

V 40 N 70 APR 10 75

be made available to an important segment of the interstate market, namely, to high priority customers. Since it is our intent to elicit supplies which would not otherwise be available to these customers, we propose to exclude from the operation of this policy statement gas which is already committed to an interstate pipeline under an advanced payment plan, or gas sold by producers which are affiliated with a jurisdictional pipeline or gas produced by a producing division of a jurisdictional pipeline.

As set forth above, we believe that it may be possible for a pipeline seeking a certificate to transport gas which has been sold by a producer directly to a high priority customer, or to a local distributor for resale to a high priority customer, to show that such an arrangement is in the public interest. It would therefore be our policy, subject to the qualifications set forth herein, to accept applications for certificates to transport gas sold (1) directly to non-resale high priority industrial or commercial customers or (2) to local distributors for resale to high priority customers; and to grant certificates when, upon consideration of all relevant factors, we conclude that the public convenience and necessity standard has been satisfied by the record in each such case.

In proposing to adopt this policy statement we wish to make it clear that this policy would not apply when the gas purchased from the producer was to be used either directly or indirectly to supply a new plant or new customers or to increase the volumes of gas that such plants or customers would have received had they not been curtailed as a result of curtailments by their jurisdictional pipeline supplier. In other words, this policy is intended to apply only to those existing high priority customers whose deliveries are curtailed because of curtailments by their jurisdictional pipeline supplier.

We recognize that there are potential problems that should be considered before we adopt such a policy statement. For example, one effect of implementing this policy may be an escalation of unregulated gas prices. Such a price escalation may be inflationary to the extent that it pushes the level of intrastate prices further above the level necessary to elicit new supplies. An increase in the procurement by high priority customers of their own gas supplies may adversely affect the supply portion of land-locked pipelines who do not have ready access to off-shore federal domain gas and who have depended upon the availability of supplies that are surplus to local needs. Furthermore, implementation of the policy might enhance the competitive position of large industrial and commercial customers by virtue of the fact that many high priority industrial and commercial customers, or their local distributors, may be too small to arrange a field purchase, or may not be in a position to execute long-term contracts. Or, the direct purchase by a high priority industrial or commercial customer may decrease the business of that customer's local distributor. Such a decrease in the local distributor's business may result in a corresponding decrease in its revenues thereby requiring an increase in the distributor's rates to its remaining customers. Finally, implementation of this policy may reduce the amount of gas available in the future to Priority 1 customers of those jurisdictional pipelines that are already experiencing deep curtailments.

While we believe that the benefits that would follow from the implementation of this policy would outweigh any of the problems that might be created thereby, we nevertheless believe that the public interest would best be served, and our deliberations would be materially aided by, the receipt of comments from any and all interested parties, including governors, state public service commissions, state resource agencies and interested federal agencies and departments. Comments from state officials in gas consuming states will be particularly helpful in weighing the benefits of potentially increased gas supplies against any problems that might be created by implementation of the proposed policy. We further recognize that the decision to adopt or to reject the proposed policy statement may influence the decision by industries located in the consuming states to either remain in the consuming states or to relocate their operations in the producing states. Because of the important and far-reaching effects our decision may have on employment in the consuming states, as well as on the general economic well-being of those states, we look forward with interest to their comments.

Proposed policy statement. The proposed policy statement constitutes a new § 2.79, Title 18, Code of Federal Regulations, Subchapter A, Chapter I, Part 2, General Policy and Interpretations, as follows:

§ 2.79 Policy with respect to certification of pipeline transportation agreements.

(a) The national interest in the protection of natural gas service to customers who use natural gas for high priority end uses during periods of curtailed deliveries by jurisdictional pipeline companies will be served by the Commission's accepting for filing and approving, when in the public interest, applications for certificates of public convenience and necessity filed by jurisdictional pipelines to transport gas sold by producers of natural gas from both the on-shore and the off-shore non-federal domain (1) directly to non-resale industrial and commercial customers for priority 2 uses or for those priority 3 uses that would otherwise have been in priority 2 had the gas been purchased on a firm basis; or (2) to local distributors for resale to industrial or commercial customers for the same priority 2 or 3 uses, or for resale to priority 1 uses.

(b) As used in paragraph (a) of this section, priorities 1, 2 and 3 refer to the priorities as set forth in § 2.78(a) of the Commission's general policy and interpretations, 18 CFR 2.78(a).

(c) This policy is not intended to apply to sales of gas which is already committed to jurisdictional pipelines under an advance payment plan, or to gas sold by an affiliate of a jurisdictional pipeline or to gas sold by a producing division of a jurisdictional pipeline.

(d) This policy is intended to apply only to those existing high priority industrial and commercial customers referred to in paragraph (a) of this section whose deliveries are curtailed because of curtailments by their jurisdictional pipeline supplier, and to those local distributors which are being required by virtue of curtailments by their pipeline suppliers to curtail service to their existing high priority customers.

(e) Nothing in this § 2.79 is intended to amend, modify or in any way change any existing rule or regulation.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than May 19, 1975, views, comments, or suggestions in writing concerning all or part of the statement of policy proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before action on the matters proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

Bureau of Land Management

[M 31297: Group 595]

MONTANA

Filing of Plat of Survey

APRIL 1, 1975.

1. Plat of survey of the lands described below will be officially filed in the Montana State Office, Bureau of Land Management, 316 North 26th Street, Billings, Montana 59101, at 10:00 a.m., May 19, 1975.

PRINCIPAL MERIDIAN, MONTANA

T. 2 N., R. 9 W.,
Sec. 16: Tract 37.
The area described contains 3.51 acres.

2. The above described lands are embraced in the Deer Lodge National Forest by Executive Order 880 of July 1, 1908. They are also within a Determination Area under Public Law 167 (Act of Congress July 23, 1955).

3. The survey was accomplished for relief of a residential occupancy on an unpatented mining claim, as provided in the Act of October 23, 1962 (76 Stat. 1127).

NEW MEXICO

Application

APRIL 1, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Phillips Petroleum Co. has applied for a 4½ inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 25 S., R. 32 E.
Sec. 21. E½W½;
Sec. 28, E½NW¼, NE¼SW¼, W½SE¼;
Sec. 33, W½E½.

T. 26 S., R. 32 E.
Sec. 4, NW¼NE¼.

This pipeline will convey natural gas across 3.01 miles of national resource lands in Lea County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, PO Box 1397, Roswell, NM 88201.

Application

APRIL 3, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for one 4½ inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 30 N., R. 9 W.,
Sec. 4, NW¼SW¼.

This pipeline will convey natural gas across 0.162 miles of national resource lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether

V 40 70 APR 10 75 XUM

the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands, and Minerals Operations.

OREGON

Opening of Public Lands

APRIL 3, 1975.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g), the following lands have been conveyed to the United States.

WILLAMETTE MERIDIAN

T. 21 S., R. 31 E.,
Sec. 25, W½NE¼, NW¼SW¼, and S½SE¼;
Sec. 26, SE¼NE¼ and E½SE¼.
T. 22 S., R. 31 E.,
Sec. 2, NE¼SW¼ and S½SW¼;
Sec. 3, NW¼SE¼ and S½SE¼;
Sec. 11, W½NW¼ and SW¼;
Sec. 23, N½NE¼, SE¼NE¼, and NE¼NW¼.

Aggregating 960 acres in Harney County, Oregon.

2. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands are hereby open to operation of the public land laws including the mining laws (Ch. 2, Title 30 U.S.C.), and the mineral leasing laws. All valid applications received at or prior to 10 a.m. May 9, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, P.O. Box 2965, Portland, Oregon 97208.

HAROLD A. BERENDS,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 45075]

WYOMING

Reclassification

APRIL 2, 1975.

Public Land Order 4938 which was published in the FEDERAL REGISTER on November 14, 1970 (35 FR 17546), classified the following described lands, totalling 109.98 acres in Sweetwater County, Wyoming, for sale under the Act of September 19, 1964, 43 U.S.C. 1421-1427 (1970). It has been determined that the classification is no longer appropriate. Accordingly, pursuant to 43 CFR 2400, notice is hereby given that the lands are being reclassified for lease or sale under the Recreation and Public Purposes Act, as amended, 43 U.S.C. 869:1-4 (1970):

SIXTH PRINCIPAL MERIDIAN

T. 16 N., R. 107 W.,
Sec. 26, lots 9, 10, 16, and 18 (formerly E½ of lot 15).

Interested parties may submit their comments in writing no later than May 9, 1975, to the undersigned official of the Bureau of Land Management, Department of the Interior, P.O. Box 182, Cheyenne, Wyoming 82001.

JESSE R. LOWE,
Acting State Director.

[Wyoming 50173]

WYOMING

Application

APRIL 4, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Colorado Interstate Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 17 N., R. 99 W.,
Sec. 10, NE¼NE¼.
T. 18 N., R. 99 W.,
Sec. 34, E½E½.

The pipeline will be an addition to the applicant's Table Rock Gathering System in Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, WY 82901.

[Wyoming 50175]

WYOMING

Application

APRIL 4, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Costal States Gas Corporation has applied for a right-of-way for a cathodic projection rectifier on the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 51 N., R. 100 W.,
Sec. 17, SW¼NW¼;
Sec. 18, SE¼NE¼.

The facility will control corrosion of the applicant's existing natural gas pipeline affecting national resource lands in Park County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 119, Worland, WY 82401.

MAKAH NATIONAL FISH HATCHERY, WASH.

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a draft environmental statement for the proposed Makah National Fish Hatchery in Clallan County, Washington, and invites written comments on or before May 27, 1975.

The Makah National Fish Hatchery will be constructed and operated for the propagation of chinook, coho and chum salmon and steelhead and rainbow trout. The proposed hatchery is expected to produce approximately 200,000 pounds of salmonids for the fishery resources in the Pacific Ocean, Strait of Juan de Fuca, Mukkaw Bay, and Olympic Peninsula Rivers, and generate annual economic benefits amounting to 1.1 million dollars. This statement examines the environmental impacts of the proposed Makah project.

Copies of the draft statement are available for inspection at the following locations:

Quinault National Fish Hatchery

Rural Electrification Administration

HILLSBOROUGH & MONTGOMERY TELEPHONE CO.

Proposed Loan Guarantee

Under the authority of Public Law 93–32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320–22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974 (Vol. 39 No. 180, pages 33228–33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $6,500,000 to the Hillsborough & Montgomery Telephone Company, Belle Mead, New Jersey. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. John E. Dixon, President, Hillsborough & Montgomery Telephone Company, U.S. Hwy. 206, Belle Mead, New Jersey 08502.

To assure consideration, proposals must be submitted on or before May 12, 1975, to Mr. Dixon. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as the Hillsborough & Montgomery Telephone Company and REA deem appropriate. Prospective lenders are advised that it is anticipated that financing for this project will be available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320–22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 4th day of April, 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

MURRAYSVILLE TELEPHONE CO., INC.

Proposed Loan Guarantee

Under the authority of Public Law 93–32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320–22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974, (Vol. 39 No. 180, pages 33228–33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $4,500,000 to The Murraysville Telephone Company, Inc., Export, Pennsylvania. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. Harold G. Payne, President, The Murraysville Telephone Company, Inc., c/o T.U.P., Inc., P.O. Box E, Export, Pennsylvania 15632.

To assure consideration, proposals must be submitted on or before May 12, 1975, to Mr. Payne. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as The Murraysville Telephone Company and REA deem appropriate. Prospective lenders are advised that it is anticipated that financing for this project will be available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320–22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C. this 4th day of April, 1975.

DAVID H. ASKEGAARD,
Acting Administrator Rural Electrification Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

ENDANGERED SPECIES

Receipt of Permit Application for Scientific Purposes

Notice is hereby given that the following applicant has applied in due form to take endangered species for scientific purposes, as authorized by the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) and the NMFS Regulations Governing Endangered Fish or Wildlife Permits (50 CFR 222) as published in the November 27, 1974 FEDERAL REGISTER at page 41375.

Northwest Fisheries Center, National Marine Fisheries Service, Seattle, Washington, 98112, has applied to take and/or import until January 1, 1980, specimen materials from bowhead whales (Balaena mysticetus), and gray whales (Eschrichtius robustus); and to conduct an aerial survey of Alaskan bowhead and gray whale populations.

The specimen materials to be taken will be collected from dead animals found beached or floating at sea, or from animals killed by an Indian, Aleut or Eskimo for subsistence purposes under the exemption allowed Alaskan Indians, Aleuts, and Eskimos in the Endangered Species Act of 1973. The following biological material and data will be collected: organ weights, samples of stomach contents; tissue samples of testes, ovaries, tympanic bullae and ear plugs; internal and external parasites; baleen plates; body measurements; and photographs of external features such as color patterns. In addition to collection of specimen materials, data will be recorded regarding whale sightings, the number of animals killed and recovered, and the number of animals struck but subsequently lost. Aerial surveys will be conducted during the spring and fall to determine bowhead and gray whale distribution and migration.

The principal investigators during this project will be Dr. George Harry, Jr., Director, Marine Mammal Division, Mr. Clifford Fiscus, Wildlife Biologist (Research), and Mr. William M. Marquette, Fishery Biologist (Research), of the Marine Mammal Division, Northwest Fisheries Center, National Marine Fisheries Service. Also cooperating in the project are the Naval Arctic Research Laboratory, Barrow, Alaska, the Alaska Department of Fish and Game, the University of Alaska, College, Alaska, and the U.S. Fish and Wildlife Service, Alaska Cooperative Wildlife Research Unit, College, Alaska.

The proposed research is directed toward a determination of the effect of the Alaskan Native harvest on the populations of bowhead and gray whales in the Bering, Chukchi, and Beaufort Seas. Principal elements of the research are direct observations, photography and collection of specimen materials from whales taken in the Eskimo fishery. Data gathered in the course of this project will be analyzed to determine population trends, age, structure of the various populations of these species, reproductive rates and growth parameters. These data will provide the basis for more effective conservation and management of these endangered species of whales, and will assist in increasing the efficiency of the native harvest and reducing the number of animals struck but lost.

In connection with this proposed project, it is recognized that the permit applicant has been issued a scientific research permit under the provisions of the Marine Mammal Protection Act of 1972 to conduct similar, and in some cases identical, activities (39 FR 33386, September 17, 1974).

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, telephone 202–634–7529, and the Offices of the Regional Director, Northwest Region, National Marine Fisheries Service, 1700 Westlake Avenue, North, Seattle, Washington, 98109, telephone 206–442–7575 and the Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska, 99801, telephone 907–586–7221.

Interested parties may submit written data or views on this application on or before May 12, 1975, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C., 20235.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C., 20235 on or before May 12, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: April 7, 1975.

ROBERT F. HUTTON,
Acting Director, National Marine Fisheries Service.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Arizona Department of Health Services

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Arizona Department of Health Services on February 24, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE ARIZONA DEPARTMENT OF HEALTH SERVICES AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance

V 40 170 APR 10 75 XUM A V

and protection of FDA-rented ARTX Telecommunication Equipment located in the State Health Building, 1740 West Adams Street, Phoenix, Arizona 85007.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office).

It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Arizona Department of Health Services, State Health Building, 1740 West Adams Street, Phoenix, Arizona 85007.

V. *Liaison Officers.* For Arizona Dept. of Health Services: Richard Shanks, Ass't. Director, John H. Beck, Chief, Bureau of Sanitation. Address: Arizona Department of Health Services, State Health Building, 1740 West Adams Street, Phoenix, Arizona 85007. Telephone Nos.: (602) 271–3187, and (602) 271–4641.

For FDA: Douglas C. Payne, Supervisory Investigator. Address: Phoenix Resident Post, Los Angeles District, 1314 N. Central, Phoenix, AZ 85004. Telephone No.: (602) 261–3275.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Arizona Department of Health Services: s/*Richard Shanks*, Ass't. Director, Arizona Department of Health Services. Date: *February 18, 1975.*

Approved and accepted for the Food and Drug Administration: s/*Irwin B. Berch*, Regional Food and Drug Director, Region IX, FDA. Date: *February 24, 1975.*

Effective date: This Memorandum of Understanding became effective February 24, 1975.

Dated: April 3, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

REGULATORY PROGRAMS INVOLVING DRUG, PESTICIDE, AND INDUSTRIAL CHEMICAL RESIDUES IN ANIMAL FEEDS AND IN MEAT AND POULTRY

Agreement With the Animal and Plant Health Inspection Service

The Animal and Plant Health Inspection Service of the Department of Agriculture and the Food and Drug Administration have drawn up a Memorandum of Understanding concerning certain related objectives in carrying out their respective responsibilities under the Federal Meat Inspection Act and the Poultry Products Inspection Act and the Federal Food, Drug, and Cosmetic Act. The agreement, which sets forth the working arrangements being followed or adopted in the interest of the public so that each agency will discharge as effectively as possible its regulatory activities pertaining to drug, pesticide, and industrial chemical residues in meat, poultry and feeds for food-producing animals, reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION AND DEPARTMENT OF AGRICULTURE, ANIMAL AND PLANT HEALTH INSPECTION SERVICE

RELATIVE TO REGULATORY PROGRAMS INVOLVING DRUG, PESTICIDE, AND INDUSTRIAL CHEMICAL RESIDUES IN ANIMAL FEEDS, MEAT AND POULTRY

The Food and Drug Administration (FDA) of the Department of Health, Education, and Welfare is charged with the enforcement of the Federal Food, Drug, and Cosmetic Act. In fulfilling its responsibilities under the act, FDA directs its activities toward the protection of the public health of the nation by ensuring that foods for humans and animals are safe and wholesome and that animal feeds are free of illegal drug, pesticide, and industrial chemical residues. This is accomplished by inspecting the processing and distribution of animal feeds and examining samples thereof to assure compliance with the act.

The Animal and Plant Health Inspection Service (APHIS) of the Department of Agriculture (USDA), under the authority of the Federal Meat Inspection Act and the Poultry Products Inspection Act, is responsible for the wholesomeness and safety of meat and poultry intended for human consumption. This is accomplished by continuous inspection at slaughtering and processing establishments and by sampling and analyzing edible tissues derived from livestock and poultry at the time of slaughter to assure, among other things, that meat and poultry do not contain illegal residues of drugs, pesticides, and industrial chemicals.

Meat and poultry may become contaminated with illegal drug, pesticide, and industrial chemical residues from several sources, including the presence of these residues in animal feeds at actionable levels. Thus, the two agencies have certain related objectives in carrying out their respective regulatory and service activities. Therefore, it is desirable from the standpoint of public interest to set forth in this Memorandum of Understanding, the working arrangements which are being followed or adopted to enable each agency to discharge, as effectively as possible, its responsibilities relative to the problem of illegal drug, pesticide, and industrial chemical residues in meat, poultry, and in feeds for food-producing animals.

A. The Animal and Plant Health Inspection Service will:

1. Supply FDA district offices and headquarters with a complete list of all meat and poultry establishments which are operating under USDA continuous inspection. APHIS will regularly inform FDA of any changes or additions to this list.

2. Immediately notify the appropriate FDA district office and FDA headquarters of findings of illegal drug, pesticide, or industrial chemical residues in edible tissue samples of meat or poultry and promptly transmit to the FDA district office all other information relative to these actionable findings obtained by APHIS subsequent to such notification.

3. Report to the appropriate FDA district office the results of any APHIS investigation initiated because of information made available by that FDA office.

4. Make available to FDA any reports, documents and samples necessary to support a regulatory action under the Federal Food, Drug, and Cosmetic Act involving drug residues in meat and poultry. Upon request, make APHIS personnel available for testimony.

5. Keep FDA headquarters fully informed of specific details regarding APHIS sampling and testing programs for residues in meat and poultry.

6. Periodically provide FDA headquarters with results of all APHIS meat and poultry/residue sampling and testing programs, including the number and location of samples tested, the residues for which tests were conducted, the methodology used, and other related information.

7. Advise FDA headquarters whenever it seeks an action level or tolerance from the Environmental Protection Agency for a pesticide residue in meat or poultry so that FDA may also consider the need for an action level or tolerance for that pesticide residue in animal feed.

B. The Food and Drug Administration will:

1. Immediately notify the APHIS headquarters of findings of illegal drug, pesticide, or industrial chemical residues in feeds and feed ingredients intended for food-producing animals or results of any other FDA investigation which indicate the likelihood that actionable residues will be present in meat or poultry.

2. Report to the appropriate APHIS regional office the results of any FDA investigation initiated because of information made available by APHIS.

3. Provide APHIS headquarters with FDA inspectional, sampling and testing programs for drugs, pesticides, and industrial chemicals in animal feeds, feed ingredients, dairy products and eggs.
39-000, fol. 1131, 31-10, April 9

4. Periodically furnish APHIS headquarters with results of all FDA sampling and testing programs involving drugs, pesticides, and industrial chemicals in animal feeds, dairy products and eggs, including the number and location of samples tested, the residues for which tests were conducted, the methodology used, and other related information.

5. Recommend, upon request from APHIS, action levels for industrial chemical residues in meat or poultry.

6. Advise AUHIS headquarters whenever it plans to establish an action level for a pesticide residue in animal feeds, feed ingredients, dairy products or eggs so that APHIS may also consider the need for an action level for that pesticide residue in meat and poultry.

C. It is mutually agreed that:

1. Both agencies will maintain a close working relationship, both in headquarters and in the field.

2. Each agency will coordinate its investigations with the other agency to the extent necessary to avoid duplication of effort, and with appropriate State officials when violations of the Federal Food, Drug, and Cosmetic Act, the Federal Meat Inspection Act and Poultry Products Inspection Act are encountered involving illegal residues.

3. Regulations proposed by either agency pertaining to the problem of residues in animal feed/meat and poultry will be referred to the other agency for review and comment prior to issuance.

4. Both agencies will exchange information relative to their analytical methodology used in identifying and determining drug, pesticide, and industrial chemical residues in feeds, feed ingredients and food derived from animals. Both agencies will cooperate in the development and implementation of analytical and statistical methodologies to ensure comparability of results in the examination of food derived from animals.

5. Each agency will advise the other agency and exchange information whenever it is considering a release of informational materials that may impact on the other agency.

6. Each agency will designate to the other a central headquarters contact point to which communications dealing with this agreement or matters affected thereby may be first referred for attention. Both agencies will assign liaisons between the agencies at the field level and provide a mechanism by which field contacts will be made and maintained for the period of the agreement. Implementation instructions will be issued by each agency and exchanged by both agencies which identify interagency contacts and liaison representatives and set forth other pertinent operational procedures to be followed relative to the agreement.

7. Nothing in this agreement modifies other agreements, nor does it preclude entering into separate agreements setting forth procedures for special programs which can be handled more efficiently and expeditiously by such special agreement.

8. The provisions of this memorandum may be modified at any time by mutual agreement.

Approved and accepted for the Animal and Plant Health Inspection Service: By: F. J. Mulhern. Title: *Administrator, Animal and Plant Health Inspection Service.* Date: 2/18/75.

Approved and accepted for the Food and Drug Administration: By: A. M. Schmidt. Title: *Commissioner of Food and Drugs.* Date: 4-4-75.

Effective date: This agreement becomes effective April 10, 1975.

Dated: April 4, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

CANCER INSTITUTIONAL FELLOWSHIP REVIEW COMMITTEE

Notice of Meetings

Pursuant to Public Law 92–463, notice is hereby given of the meetings of the Cancer Institutional Fellowship Review Committee and its Subcommittees, for May 1975, Holiday Inn, 5520 Wisconsin Avenue, Bethesda, Maryland, in Conference Rooms stated in the notice.

These meetings will be open to the public to discuss administrative details from 8:30 a.m. to 9 a.m. on the dates specified in the notice. Attendance by the public will be limited to space available. These meetings will be closed thereafter until adjournment in accordance with the provisions set forth in sections 552(b)(4), 552(b)(5) and 552(b)(6) of Title 5, U.S. Code and section 10(d) of Pub. L. 92–463, for the review, discussion and evaluation of individual initial pending grant applications. The closed portions involve solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request. Other information pertaining to the meeting can be obtained from Dr. Barney C. Lepovetsky, Executive Secretary, Westwood Building, Room 10A18, National Institutes of Health, Bethesda, Maryland 20014 (301/496–7803).

Name	Date	Room No.
Subcommittee on Epidemiology	May 12	805.

NATIONAL CANCER INSTITUTE

Advisory Committee Meetings

Pursuant to Public Law 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Some of these meetings will be closed as indicated below in accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6) of Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463 for the review, discussion and evaluation of individual research contract proposals as indicated. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request. Other information pertaining to the meeting can be obtained from the Executive Secretary indicated. Meetings are at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014 unless otherwise stated.

Name of committee: Cancer Control Supportive Services Review Committee.
Dates: May 12, 1975, 8:30 a.m.
Place: Building 1, Room: Wilson Hall, National Institutes of Health.
Times: Open, May 12, 8:30 a.m.–9:00 a.m.; closed, May 12, 9:00 a.m.–adjournment.
Closure reason: To review research contract proposals.
Executive Secretary: Dr. Veronica L. Conley.
Address: Blair Building, Room 7A01, National Institutes of Health.

SUBCOMMITTEE FOR EXTRAMURAL PROGRAMS

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Subcommittee for Extramural Programs of the Board of Regents of the National Library of Medicine, on April 30, 1975, from 9 a.m. to adjournment, in the Conference Room adjacent to the President's Offices of the University of Alabama in Birmingham.

The meeting will be open to the public from 9 a.m. to 9:30 a.m. for related Subcommittee business. Attendance by the public will be limited to space available. In accordance with provisions set forth in sections 552(b)(4), 552(b)(5) and 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92–463, the meeting will be closed to the public from 9:30 a.m. to adjournment for the review, discussion, and evaluation of individual initial pending grant applications for assistance in medical library and learning resources facilities' construction. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications which contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. Arthur J. Broering, Deputy Associate Director for Extramural Programs, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20014, telephone number: 301–496–4671, will furnish a meeting summary, a roster of committee members, and other information pertaining to the meeting.

(Catalog of Federal Domestic Assistance Program No. 13.340—National Institutes of Health)

Dated: April 3, 1975.

BILINGUAL EDUCATION

Closing Dates for Receipt of Applications and Requests for Participation

Pursuant to the authority contained in the Bilingual Education Act as amended (Title VII of the Elementary and Secondary Education Act of 1965, as amended by section 105 of the Education Amendments of 1974, Pub. L. 93–380, 84 Stat. 151, 20 U.S.C. 880b), notice was published in the FEDERAL REGISTER on March 12, 1975, (40 FR 11627) establishing a closing date for receipt of applications for assistance for the current fiscal year from local educational agencies, institutions of higher education in combination with such agencies, and certain organizations of Indian tribes which operate schools for Indian children.

On March 28, 1975 a notice for requests for participation in the program of fellowships for trainers of bilingual education teachers from institutions of higher education, after consultation with, or jointly with, one or more local educational agencies, was published at 40 FR 14109 and the closing date was omitted.

The purpose of this notice is to establish a new and later final closing date for the receipt of applications in response to the March 12, 1975 notice of closing date, and to correct the omission of, and establish a closing date for the receipt of request for participation, and to correct the Catalog of Federal Domestic Assistance number published with the March 12, 1975 notice.

The closing date hereby established for receipt of both applications for assistance and requests for participation is May 1, 1975. Applications and requests for participation must be received by the U.S. Office of Education on or before that date.

A. *Applications or requests for participation sent by mail.* An application or request for participation sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.403. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application or request for participation was sent by registered or certified mail not later than April 25, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application or request for participation is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education).

B. *Hand delivered applications or requests for participation.* An application or request for participation to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered applications or requests for participation will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications or requests for participation will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Division of Bilingual Education, Bureau of School Systems, Office of Education, Room 3600, 7th and D Streets, SW., Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a). Amendments to the regulations for Bilingual Education Programs (45 CFR Part 123), were published as a Notice of Proposed Rule Making in the FEDERAL REGISTER on March 12, 1975 (40 FR 11627). Substantial changes in the current regulations in Part 123 with respect to conditions regarding awards of assistance; activities which may be assisted, priorities and criteria governing award decisions, post award requirements and other relevant matters were proposed in such notice.

Part 123, as altered by such amendments as republished in final form, will govern the operation of the program.

(20 U.S.C. 880b)

Dated: April 7, 1975.

T. H. BELL,
U.S. Commissioner of Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–260; FDAA–463–DR]

ARKANSAS

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on April 1, 1975, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Arkansas resulting from severe storms and tornadoes occurring on March 28, 1975, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93–288. I therefore declare that such a major disaster exists in the State of Arkansas.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285, I hereby appoint Mr. Joe D. Winkle, HUD Region VI, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area of the State of Arkansas to have been adversely affected by this declared major disaster:

V 40 170 APR 10 75 XUM

The County of:

Bradley

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: April 1, 1975.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

Office of Interstate Land Sales Registration

[Docket No. N-75-276]

NEENACH RANCH

Notice of Hearing

In the matter of Neenach Ranch, OILSR No. 0-1007-04-159, Docket No. Y-896.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Neenach Ranch, Inc., Daniel O. Clark, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 26, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Neenach Ranch, located in Los Angeles County, California, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 11, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *it is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on April 22, 1975, at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before April 15, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: March 28, 1975.

JAMES W. MAST,
Administrative Law Judge.

[Docket No. N-75-278]

LAKE MOHAVE HIGHLANDS TRACT 1202

Notice of Hearing

In the matter of Lake Mohave Highlands Tract 1202, OILSR No. 0-3410-02-670, Docket No. Y-1082.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Andel Development Corporation, Delbert B. Hensley, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued March 3, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Lake Mohave Highlands Tract 1202, located in Mohave County, Arizona, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 11, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *it is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on April 29, 1975 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before April 22, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: March 28, 1975.

JAMES W. MAST,
Administrative Law Judge.

[Docket No. N-75-277]

REFLECTION LAKES

Notice of Hearing

In the matter of Reflection Lakes, OILSR No. 0-1879-44-98, Docket No. Y-883.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Leisuretime Development Corporation, Robert V. Davis, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued February 24, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Reflection Lakes, located in Wayne County, Pennsylvania, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 6, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *it is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW, Washington, D.C., on May 14, 1975 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before May 7, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an ORDER Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: March 28, 1975.

JAMES W. MAST,
Administrative Law Judge.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES

Renewal

Notice is hereby given that the National Advisory Committee on Uniform Traffic Control Devices is being renewed. The Federal Highway Administration, Office of Traffic Operations, is the sponsor of the committee which consists of a group of experts on traffic control devices. The Committee periodically reviews currently approved standards, guides and warrants for traffic control devices as contained in the Manual on Uniform Traffic Control Devices, approved by the Federal Highway Administrator under the authority granted in 23 U.S.C. 109(b), 109(d), and 402(a) and recommends revisions and new standards to meet new developments and improvements.

The Secretary of Transportation has determined that the formation and use of the National Advisory Committee on Uniform Traffic Control Devices is necessary in the public interest in connection with the performance of duties imposed on the Federal Highway Administration by law. Meetings of the Committee will be open to the public.

This notice is given in compliance with Pub. L. 92-463.

Issued in Washington, D.C., on April 3, 1975.

ROBERT E. CONNER,
Acting Director for Office of Traffic Operations.

[FR Doc.75-9379 Filed 4-9-75;8:45 am]

Federal Railroad Administration

DULUTH, MISSABE AND IRON RANGE RAILROAD CO. ET AL.

Granting Exemptions

Notice is hereby given pursuant to 45 U.S.C. 431(c), that the following railroad companies have been granted an exemption from compliance with certain requirements imposed by the Federal Railroad Administration regulations concerning track safety standards and freight car safety standards. This notice is intended to assure public awareness of the Federal Railroad Administration action in these proceedings. The effected railroad companies have already been notified of these decisions.

Prior to evaluating any of these requests for exemption the Federal Railroad Administration provided an opportunity for public comment. An investigation of the facts by personnel of the Federal Railroad Administration was also conducted in each proceeding. That investigation and any comments which had been received were considered in the decision making process.

In reaching a decision to grant these exemptions the Federal Railroad Administration found that good cause to grant the relief had been established and that the granting of the relief was in the public interest and consistent with railroad safety.

Duluth, Missabe and Iron Range Railroad Company, Waiver Petition RSFC-74-5, temporary exemption from portions of the periodic lubrication requirements and exemption from portions of the stenciling requirements of the freight car safety standards.

Norfolk and Western Railway Company, Waiver Petition RSFC-74-6, temporary exemption from portions of the periodic lubrication requirements of the freight car safety standards.

Norwood and Saint Lawrence Railroad Company, Waiver Petition RST-74-18, temporary exemption from portions of the track safety standards.

Any person interested in obtaining detailed or technical information concerning these decisions should write to the Federal Railroad Administration. All communications concerning these petitions should identify the appropriate docket number and should be submitted to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590.

Issued in Washington, D.C. on April 4, 1975.

DONALD W. BENNETT,
Chief Counsel, Federal Railroad Administration.

[FR Doc.75-9333 Filed 4-9-75;8:45 am]

National Transportation Safety Board

[1479]

SAFETY RECOMMENDATION

Notice of Availability

Pursuant to section 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2172 (49 U.S.C. 1906)), the National Transportation Safety Board announces the release of the following safety recommendation:

A-75-26, issued April 2, 1975, to the Federal Aviation Administration as a result of the Safety Board's investigation of a National Airlines Boeing 727 incident 60 miles east of El Paso, Texas, on April 30, 1974. Recommendation: Issue an airworthiness directive to require that all external ground service fluid drains on Boeing 727 series airplanes be modified to incorporate a more positive

V 40170
APR 10 75

method of sealing to prevent overboard leakage in flight of fluid subject to freezing in the flight environment.

Single copies of this recommendation may be obtained without charge by writing to the Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

MARGARET L. FISHER,
Federal Register Liaison Officer.

APRIL 7, 1975.

[FR Doc.75-9419 Filed 4-9-75;8:45 am]

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, May 7, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street, NW, and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent.

RICHARD H. HALL,
Advisory Committee Management Officer for the President's Agent.

[FR Doc.75-9285 Filed 4-9-75;8:45 am]

DELAWARE RIVER BASIN COMMISSION

PUBLIC HEARING

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, April 23, 1975, commencing at 2 p.m. The hearing will be held in Room 1600 of the Municipal Services Building, 15th and J. F. Kennedy Blvd. in Philadelphia, Pa. The subjects of the hearing will be as follows:

A. Applications for approval of proposed projects listed below. The Commission will consider these applications as amendments to the Comprehensive Plan pursuant to Article 11 of the Compact and/or as project approvals pursuant to Section 3.8 of the Compact.

1. Pen Argyl Municipal Authority (D-75-28 CP). Expansion of the Authority's existing sewage treatment plant serving the Borough of Pen Argyl and sections of Plainfield and Washington Townships, Northampton County, Pa. An interceptor relief sewer and force main are part of the project. The expanded facility will provide removal of 90 percent of BOD5 and suspended solids from a sewage flow of 1.55 million gallons per day. Treated effluent will discharge to an unnamed tributary of Waltz Creek in the Martins Creek Basin.

2. Borough of South Coatesville (D-74-39 CP). Expansion of an existing sewage treatment plant serving the Borough of South Coatesville and adjacent areas in Chester County, Pa. The expanded facility will provide removal of 95 percent of BOD5 from a sewage flow of 1.2 million gallons per day. Treated effluent will discharge to the West Branch Brandywine Creek.

3. West Goshen Sewer Authority (D-74-13 CP). Expansion of the Authority's existing sewage treatment plant serving West and East Goshen Townships, Chester County, Pa. The expanded facility will provide removal of 94 percent of BOD5 and 90 percent of suspended solids from a sewage flow of 4.5 million gallons per day. Treated effluent will discharge to Goose Creek, a tributary of Chester Creek.

4. Broad Run Sewer Co. (D-74-150 CP). A sewage treatment project serving development areas in West Bradford Township, Chester County, Pa. The facility will remove 96 percent of BOD5 and 92 percent of suspended solids from a sewage flow of 150,000 gallons per day. Treated effluent will discharge to the East Branch Brandywine Creek.

5. Kittatinny Regional Board of Education (D-74-154 CP). A sewage treatment project to serve the Kittatinny Regional High School in Hampton Township, Sussex County, N.J. The facility would provide removal of 96 percent of BOD5 and 98 percent of suspended solids from a sewage flow of 50,000 gallons per day. Treated effluent will discharge to the Paulins Kill.

6. Logan Township Municipal Utilities Authority (D-72-208 CP). A sewage treatment plant to serve the Bridgeport, Beckett Newtown, and Pureland Industrial Park areas of Logan Township, Gloucester County, N.J. The facility will provide removal of 92 percent of BOD5 from a sewage flow of about 1 million gallons per day. Treated effluent will discharge to the Delaware River.

7. Western Poconos Municipal Authority (D-73-35 CP). A sewage treatment project to serve Kidder Township and portions of adjacent municipalities in Carbon and Monroe Counties, Pa. The treatment facility will remove 95 percent of BOD5 and 93 percent of suspended solids from a sewage flow of 2 million gallons per day. Treated effluent will discharge to the Lehigh River.

8. Mt. Laurel Municipal Utilities Authority (D-75-18 CP). Expansion of the Authority's existing sewage treatment plant in Mt. Laurel Township, Burlington County, N.J. The expansion would increase the capacity of the treatment plant to 1.4 million gallons per day and provide reduction of 90 percent of BOD5 and suspended solids. Treated effluent will discharge to Rancocas Creek.

9. Borough of Woodstown (D-75-27 CP). A well water supply project to augment public water supplies in the Borough of Woodstown, Salem County, N.J. Designated as Well No. 3, the new facility is expected to yield 1 million gallons per day.

10. Borough of Clementon (D-75-26 CP). A well water supply project to augment public water supplies in the Borough of Clementon, Camden County, N.J. Designated as Well No. 10, the new facility is expected to yield 1 million gallons per day.

11. Artesian Water Co. (D-75-8 CP). A well water supply project to augment public water supplies in the company's service area in the vicinity of Wilmington, Del. Three existing wells located at the Greater Wilmington Airport will be utilized to provide a combined yield of 864,000 gallons per day.

12. Town of Milton (D-75-50 CP). A well water supply project to augment public water supplies in the Town of Milton, Sussex County, Del. A new well and two existing wells will have a combined yield of 200,000 gallons per day.

13. Public Service Electric and Gas Co. (D-73-193 CP). A nuclear power plant to be located on the company's site at Artificial Island in Logan Township in Lower Alloways Creek Township, Salem County, N.J. The project would have two units, each having a net electrical capacity of 1,067 megawatts. Circulating cooling for the steam turbines will be furnished by two hyperbolic cooling towers, with makeup water to be drawn from the Delaware River. Cooling water system discharge and cooling tower blowdown will discharge to the Delaware River at a design flow of about 86.5 million gallons per day.

14. Pennsylvania Fish Commission (D-74-181 CP). A small boat access ramp to serve the Neshaminy State Park marina in Bristol Township, Bucks County, Pa. The access area will occupy approximately 14 acres. The ramp will be 75 feet wide and permit simultaneous use by five boats.

15. Delaware County Regional Water Control Authority (D-74-88 CP). A sewage pumping station serving the City of Chester and numerous adjacent boroughs and townships in Delaware County, Pa. As a unit in the regional plan for the area, the pumping station is designed to handle a volume of 36 million gallons per day.

16. Borough of Morrisville (D-74-72 CP). An increase in surface water withdrawal to augment public water supplies in the Borough of Morrisville and adjacent townships, Bucks County, Pa. The authorized total withdrawal would be 6 million gallons per day. Water would be withdrawn from the Delaware River.

17. New Castle Soil Conservation District (D-75-31 CP). Enlargement and structural improvements to two recreation lakes in Banning Park, New Castle County, Del. One lake will be dredged to greater depth and the outlet structure for both lakes will be modified to improve use of water-based recreation facilities.

18. Allied Chemical Corp. (D-74-192). An industrial wastewater discharge at the company's Pottsville plant in Norwegian Township, Schuylkill County, Pa. Approximately 180,000 gallons per day of cooling and process wastewaters will discharge to an unnamed tributary of the West Branch Schuylkill River.

19. Pharmachem Corp. (D-75-41). A cooling water discharge at the company's Dextran plant in the City of Bethlehem, Northampton County, Pa. About 575,000 gallons per day of heated wastewater will discharge to the Lehigh Canal and thence into the Lehigh River. Process and sanitary wastes will go to the City of Bethlehem sewage treatment system.

20. Swift Dairy & Poultry Co. (D-72-112). An industrial wastewater treatment project at the company's facility in Felton, Sussex County, Del. The treatment plant will provide removal of 96 percent of BOD5 from an average wastewater flow of about 250,000 gallons per day. Treated effluent will discharge into Pan Tax Ditch in the Murderkill Basin.

21. Knoll International (D-74-162). A wastewater treatment project to modify the treatment and disposal procedures at the company's facility in Upper Hanover Township, Montgomery County, Pa. Process wastewater will continue to be batch treated. Sanitary sewage will be separated and holding tanks will be used until local sewers are available. About 10,000 gallons of treated process wastewater will be combined with about 60,000 gallons of non-contact cooling water on a temporary basin until the process wastewater can be discharged into the local sewerage system.

22. Riggin & Robbins (D-74-129). A well water supply project to be used at the company's seafood processing plant in the City of Millville, Cumberland County, N.J. The new facility is expected to yield about 187,000 gallons per day.

23. J. Coleman Totten (D-74-182). A well water supply project to provide water for irrigation at the subject farm in Upper Freehold Township, Monmouth County, N.J. The farm well is expected to yield about 580,000 gallons per day.

24. Windy Acres Nursery (D-74-149). A farm well to be used for irrigation purposes at the subject farm in Deerfield Township, Cumberland County, N.J. The new well is expected to yield 200,000 gallons per day.

25. Albert Powell (D-74-125). An irrigation pond to be used at the subject farm in Oldmans Township, Salem County, N.J. A yield from the pond of about 135,000 gallons per day will be utilized during the growing season for irrigation purposes.

26. Port Norris Marina, Inc. (D-74-191). A small boat marina located in the community of Port Norris, Commercial Township, Cumberland County, N.J. The facility will provide 60 small boat slips and a launching ramp.

B. Applications for water quality certification for the projects listed below pursuant to section 401 of the Federal Water Pollution Control Act:

1. Township of Mount Holly. Maintenance dredging in the North Branch Rancocas Creek, Mount Holly, Burlington County, N.J. Approximately 56,000 cubic yards of shoaled material will be removed and deposited either in the Township sanitary landfill or Iron Works Park.

2. Cape May Board of Chosen Freeholders. Replacement of a timber bridge on County Road 57 over Sluice Creek, Cape May County, N.J.

3. N.J. Dept. of Transportation. Culvert replacement at Route 130 and South Branch Little Timber Creek, Logan Township, Gloucester County, N.J.

Documents relating to the items listed above on this hearing notice may be examined at the Commission's offices. Persons wishing to testify are requested to notify the Secretary prior to the hearing.

W. BRINTON WHITALL,
Secretary.

APRIL 4, 1975.

DRUG ENFORCEMENT ADMINISTRATION

IMPORTATION OF CONTROLLED SUBSTANCES

Notice of Registration

By notice dated February 12, 1975, and published in the FEDERAL REGISTER on February 21, 1975 (40 FR 7691) G. D. Searle & Company, Searle Parkway and Niles Avenue, Skokie, Illinois 60076, made application to the Drug Enforcement Administration to be registered as an importer of Diphenoxylate, a basic class controlled substance listed in schedule II.

No comments or objections have been received, and, pursuant to section 303 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, and in accordance with 21 CFR 1311.42, the above firm is granted registration as an importer of Diphenoxylate.

Dated: April 3, 1975.

JOHN R. BARTELS, JR.,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 357-7]

CALIFORNIA STATE STANDARDS; MOTOR VEHICLE POLLUTION CONTROL

Public Hearing

Whereas, the Clean Air Act, as amended, section 209(a), 42 U.S.C. 1857f-6(a) 81 Stat. 501 (Pub. L. 91-604) provides, "No State or any political subdivision thereof shall adopt or attempt to enforce any standard relating to the control of emissions from new motor vehicles of new motor vehicle engines subject to this part, * * * [or] * * * shall require certification, inspection, or any other approval relating to the control of emissions from any new motor vehicle or new motor vehicle engine as condition precedent to the initial retail sale, titling (if any), or registration of such motor vehicle, motor vehicle engine, or equipment";

Whereas, section 209(b) of said Act directs the Administrator of the Environmental Protection Agency, after notice and opportunity for public hearing, to waive application of the prohibitions of section 209 to any State which had adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines prior to March 20, 1966, unless he finds that such State does not require standards to meet compelling and extraordinary conditions or that such State standards and accompanying enforcement procedures are not consistent with section 202(a) of the Clean Air Act;

Whereas, on March 5, 1975, and by notice published in the FEDERAL REGISTER, on March 14, 1975 (40 FR 11900), the Administrator, pursuant to section 202(b)(5)(C) of the Act, granted the requests of three automobile manufacturers to suspend for one year the effective date of the statutory standards of .41 grams/mile hydrocarbons and 3.4 grams/mile carbon monoxide for model year 1977 light duty vehicles, and established interim standards for the 1977 model year of 1.5 grams/mile hydrocarbons and 15 grams/mile carbon monoxide;

Whereas, the oxides of nitrogen emission standard established by statute (section 202(b)(1)(B) of the Clean Air Act of 1970, 42 U.S.C. 1857f-1, as amended by the Energy Supply and Environmental Coordination Act of 1974, Pub. L. 93-319) for 1977 model year light duty vehicles is 2.0 grams/mile;

Whereas, as a consequence of the decision rendered in International Harvester v. Ruckelshaus by the U.S. Court of Appeals for the District of Columbia, February 10, 1973 (478 F. 2d 615), holding that light duty vehicles and light weight trucks are separate classes, the Administrator has established (38 FR 21362 et seq., August 7, 1973) emission standards under section 202(a) of the Clean Air Act for light duty trucks of 2 grams/mile hydrocarbons, 20 grams/mile carbon monoxide, and 3.1 grams/mile oxides of nitrogen;

Whereas, by mailgram dated March 20, 1975, and by letter dated March 26, 1975, California submitted a request for waiver of preemption for model year 1977 light duty vehicles and light duty trucks in order to enable California to enforce its standards of .41 grams/mile hydrocarbons, 9.0 grams/mile carbon monoxide and 1.5 grams/mile oxides of nitrogen for light duty vehicles, and .9 grams/mile hydrocarbons, 17.0 grams/mile carbon monoxide and 2.0 grams/mile oxides of nitrogen for light duty trucks;

Whereas, the waiver of application for 1976 model year light duty trucks (38 FR 30136, November 1, 1973) is deemed to extend to 1977 and subsequent model years;

Therefore, I hereby give notice that (i) California has submitted its request for waiver for the application of the prohibitions of section 209(a) with respect to the above described emission standards for which waiver has not yet been granted, that (ii) a public hearing on the request is to be held in Los Angeles, California, at the Los Angeles Convention Center, 1201 South Figueroa Street at Pico, on Tuesday, April 29, 1975, commencing at 9 a.m., P.S.T., and that (iii) all pertinent information available to the Administrator including that obtained during the public hearing that began on January 21, 1975, on the issue of suspension of the model year 1977 statutory standards for hydrocarbons and carbon monoxide and the hearing established herein shall be considered when ruling on the request.

Although it is EPA policy in most circumstances to give at least thirty days FEDERAL REGISTER notice of hearings, the notice time has been abridged here for the following reasons;

(i) Manufacturers are presently at an advanced planning and design stage for their 1977 model light duty vehicles, and it is imperative that administrative procedures be completed and a final California standard be set as soon as possible, and

(ii) California sent copies of its letter dated March 26, 1975, submitting its waiver application to all affected manufacturers, and actual notice of this hearing was given to all affected motor vehicle manufacturers and to the State of California on or before March 26, 1975. Thirty day's actual notice of this hearing has acordingly been given to these parties.

Dr. Norman D. Shutler of the Environmental Protection Agency is hereby designated as Presiding Officer to conduct the hearing. Any person desiring to make a statement at the hearing or to submit material for the record of the hearing

V 40170 APR 10 75 XUM

should file a notice of such intention and, if practicable, five copies of his proposed statement (and other relevant material) with the Director, Mobile Source Enforcement Division (EG–340), Environmental Protection Agency, Room 3220, 401 M Street SW, Washington, D.C. 20460, not later than April 25, 1975.

The pertinent standards, requirements, conditions, and test procedures for gasoline powered 1977 model year light duty vehicles and light duty trucks are contained in the following identified publications:

FEDERAL

40 CFR Part 85, Subpart A, Emission Regulations for New Gasoline-Fueled Light Duty Vehicles (38 FR 21362, August 7, 1973, as amended at 39 FR 7545, February 27, 1974).

40 CFR Part 85, Subpart C, Emission Regulations for New Gasoline-Fueled Light Duty Trucks (38 FR 21362, August 7, 1973, as amended at 39 FR 7545, February 27, 1974).

Applications for Suspension of 1977 Motor Vehicle Exhaust Emission Standards; Decision of the Administrator (40 FR 11900, March 14, 1975).

CALIFORNIA

Sections 1955.1 and 1955.5, Title 13, California Administrative Code, as amended March 17, 1975 and California Exhaust Emissions Standards and Test Procedures for 1976 and Subsequent Model Gasoline-Powered Passenger Cars and Light Duty Trucks, dated February 19, 1975, as amended March 17, 1975, and California Assembly Line Test Procedures for 1976 and Subsequent Model Gasoline-Powered Passenger Cars and Light Duty Trucks, dated December 11, 1974 (section 2054, Title 13, California Administrative Code).

A copy of the above-described material is available for public inspection during normal working hours (8 a.m. to 4:30 p.m.) at the Freedom of Information Center, Environmental Protection Agency, 401 M Street SW, Washington, D.C. 20460. Copies of the Federal regulations will be provided upon request to that office, subject to a reproduction charge. Copies of the California standards and test procedures are available upon request from the California Air Resources Board 1025 P Street, Sacramento, California 95814.

Procedures. Since the public hearing is designed to give interested persons an opportunity to participate in this proceeding by the presentation of data, views, arguments, or other pertinent information concerning the Administrator's proposed action, there are no adversary parties as such. Statements by the participants will not be made under oath and the participants will not be subject to cross-examination.

Presentation by the participants should be limited to the following considerations with particular attention to (ii):

(i) Whether the standards adopted by California for hydrocarbons, carbon monoxide, and oxides of nitrogen, and related test procedures and enforcement procedures applicable to new model year 1977 light duty vehicles are required to meet compelling and extraordinary conditions in California and

(ii) Whether such standards and accompanying enforcement procedures are consistent with section 202(a) of the Act, in particular with respect to their technological feasibility in the lead time remaining.

In order to assure full opportunity for the presentation of data, views, and arguments by participants, the Presiding Officer will, upon request of the participants, allow a reasonable time after the close of the hearing for the submission of written data, views, arguments, or other pertinent information to be included as part of the record of the public hearing.

A verbatim record of the proceeding will be made and a copy of the transcript will be made available on request at the expense of the person so requesting.

The determination of the Administrator regarding the action to be taken under section 209(b) of the Clean Air Act with respect to the waiver of the application of the prohibition of section 209(a) to the State of California is not required to be made solely on the record of the public hearing. Other scientific, engineering, and related pertinent information, not included in the transcript of the public hearing, may also be considered.

Dated: April 3, 1975.

RICHARD H. JOHNSON,
Acting Assistant Administrator for Enforcement.

OCEAN DUMPING

Location of Public Hearings on the Application of the United States Air Force for a Permit To Incinerate Herbicide Orange at Sea

The Environmental Protection Agency gave notice in the FEDERAL REGISTER on Monday, March 24, 1975, (40 FR 13026–28) of receipt of an application from the United States Air Force for a permit to incinerate at sea the chemical known as Herbicide Orange. Notice was also given of a public hearing on this application to be held April 25, 1975, beginning at 9:30 a.m. in Honolulu, Hawaii. The location for this hearing will be the Legislative Auditorium, State Capitol Building, Punchbowl and Beretania Street, Honolulu.

The hearing will be adjourned and reconvened at 9:30 a.m. on April 28, 1975, in the Second Floor Conference Room, Environmental Protection Agency, Region IX, 100 California Street, San Francisco, California.

Dated: April 3, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

[OPP-32000/225; FRL 357-2]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–31, East Tower, 401 M Street, SW, Washington, DC 20460.

On or before June 9, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH–569), Office of Pesticide Programs, 401 M Street, SW, Washington, DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after June 9, 1975.

Dated: April 2, 1975.

JOHN B. RITCH, Jr.,
Director, Registration Division.

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or before June 9, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after June 9, 1975.

Dated: April 4, 1975.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

APPLICATIONS RECEIVED (OPP-32000/227)

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED NONMEMBER BANKS

Withdrawal of Savings Deposits by Telephone

The rules and regulations of the FDIC impose certain restrictions as to the manner in which savings deposits may be withdrawn from insured non-member banks. 12 CFR 329.5(c). Federal Reserve Regulation Q imposes similar restrictions on savings deposits in Federal Reserve member banks. 12 CFR 217.5(c).

V 40 170 APR 10 75 XUM

The Board of Governors of the Federal Reserve has announced that it is withdrawing its long-standing policy opposing the withdrawal of funds from savings accounts by telephone or other oral order. In its announcement, the Board of Governors notes that other depository institutions, including nonmember commercial banks, have been allowed to offer telephone withdrawal services for some time.

The Board of Directors of the FDIC deems it desirable to publicly confirm that nothing in the regulations of the FDIC bars the withdrawal of funds in a savings account upon the order of a depositor transmitted by means of a telephone or other communications device.

This announcement merely reiterates the policy of the FDIC with respect to the withdrawal of savings deposits by telephone. Any insured nonmember bank may allow its customers to utilize this method of withdrawal; however, the Board of Directors expects that any bank which does so will implement appropriate security and other procedures to insure the safe and sound conduct of this activity.

By order of the Board of Directors, April 4, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

FEDERAL HOME LOAN BANK BOARD

[H.C. No. 189]

IMPERIAL CORPORATION OF AMERICA

Receipt of Application for Permission To Acquire Control

APRIL 7, 1975.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Imperial Corporation of America, San Diego, California, a multiple savings and loan holding company, for approval of acquisition of control of the Avco Savings and Loan Association, Los Angeles, California, an insured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)) and § 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected through the purchase of substantially all of the guarantee stock of Avco Savings and Loan Association, by Imperial Savings and Loan Association, San Francisco, California, an insured subsidiary of the applicant, for cash and promissory notes from the subsidiary. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before May 12, 1975.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary,
Federal Home Loan Bank Board.

FEDERAL MARITIME COMMISSION

PACIFIC-INDIA/PAKISTAN/CEYLON/BURMA AGREEMENTS

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573 on or before April 30, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forward to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

H. P. Blok, Secretary
Pacific-India/Pakistan/Ceylon/
Burma Agreements
417 Montgomery Street
San Francisco, California 94104

Agreement No. 9247-5 reflects the intention of the member lines of the Pacific-India / Pakistan / Ceylon / Burma Agreements to conduct their operations pursuant to a single tariff rather than the individual tariffs of the member lines as is presently the practice.

By Order of the Federal Maritime Commission.

Dated: April 4, 1975.

FRANCIS C. HURNEY,
Secretary.

Filing of Revision to Rate Schedule

APRIL 4, 1975.

Take notice that Arizona Public Service Company (APS) on March 26, 1975 tendered for filing proposed changes to its Wholesale Power Agreement with Arizona Power Authority (APA), FPC Rate Schedule No. 59. This proposed change, "First Revised Exhibit B" to the Agreement, increases both the maximum and minimum Contract Demands.

Copies of this filing were served upon the Arizona Corporation Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NW, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS67-52]

PAUL F. BARNHART

Petition for Waiver of Regulations

APRIL 4, 1975.

Take notice that on March 20, 1975, Paul F. Barnhart, Trustee (Petitioner), 600 Post Oak Bank Building, 2200 South Post Oak Road, Houston, Texas 77027, filed in Docket No. CS67-52 a petition for waiver in part of § 157.40(c) of the regulations under the Natural Gas Act (18 CFR 157.40(c)) so as to permit him to sell natural gas attributable to the interests which he acquired from a large producer, TransOcean Oil, Inc. (TransOcean), pursuant to his small producer certificate issued in the subject docket, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that by two assignments dated January 1, 1974, TransOcean transferred to Petitioner certain interests in three leases, the G. T. Patterson Lease, the J. F. Nunn Lease, and the M. L. Couey Lease, located in the Spraberry Trend Field, Glasscock and Reagan Counties, Texas. Petitioner further states that although gas production from existing horizons under the three leases is rapidly diminishing, Petitioner and Paul F. Barnhart have recompleted a well in previously undeveloped horizons underlying each of the three leaseholds and are negotiating with the purchaser of gas produced from the leases, El Paso, for a new price for the new production. Petitioner claims that Paul F. Barnhart, either as an individual or as trustee, holds all of the working interests in the production from the new horizons; and, therefore, no large producers hold working interests in the new production. Petitioner states that without the requested waiver Petitioner may be required to pay his royalty owners on the basis of two rates even though all of the working interests in such production are held by small producers.

Petitioner notes that in recent orders involving successions by small producers to large producers the Commission has imposed a rate condition limiting the small producer to the area ceiling rate which its large producer predecessor had been collecting. It is Petitioner's view that such limitation would require the small producer to make new rate filings to collect the new national rate for production from any new wells which he drills and that such filing requirement is contrary to the Commission's purposes for providing an exemption for small producers. Accordingly, if a complete waiver is not granted, Petitioner requests alternatively that any rate condition imposed provide that he can collect for his production attributable to the interests acquired from TransOcean the highest rate the Commission would allow TransOcean, as a large producer, to collect had it retained its interests.

Any person desiring to be heard or to make any protest with reference to said petition should on or before April 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-89]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Motion for Six Month Extension of Interim Curtailment Plan

APRIL 7, 1975.

On April 1, 1975, Columbia Gas Transmission Corporation filed a motion to extend its currently effective interim curtailment plan, with certain modifications, for a period of six months from May 1, 1975, through October 31, 1975, pending Commission determination of an appropriate permanent curtailment plan for its

V 40 170 APR 10 75 XUM

system. Date for filing comments or petitions to intervene April 16, 1975.

Take notice that Columbia Gas Transmission Corporation (Columbia), on April 1, 1975, filed a motion requesting the Commisison to extend its currently effective interim curtailment plan, with certain modifications, for a period of six months from May 1, 1975 through October 31, 1975. The modification is intended to exclude the so-called compensation features contained in the interim plan due to Commission orders in this proceeding holding them to be unlawful.

Columbia contends that the extension of its interim plan would maintain the *status quo* to the extent possible, pending the outcome of the extensive hearing in progress on Columbia's permanent plan in the above-entitled proceeding. Columbia alleges that the requested extension will avoid an unreasonable disruption of its customers' planning based on the annual entitlement feature for the twelve-month period ending October, 1975, contained in the interim plan.

Columbia asserts that without a grant of its motion, because of the Commission's warnings on the risks involved in implementing a plan not in conformity with Order No. 467–B, it would have to implement such a plan on May 1, 1975. Columbia alleges that this would be unlawful without consideration of the very extensive record being developed in the ongoing hearings. Columbia further asserts that curtailments pursuant to Order No. 467–B should not be implemented using the unverified data presently available, which has also been the subject of extensive cross-examination at the hearings.

In further support of its motion, Columbia refers to recent court decisions which, according to Columbia, hold that the Commission may not modify or replace a pipeline's existing curtailment plan without findings based on a full record, which is presently being compiled in this proceeding, that such plan is in violation of the Natural Gas Act.

Columbia claims that its interim plan has operated extremely well during the 1974–1975 winter season when Columbia curtailed at a level of approximately 20 percent, and that the Commission was not required to grant any petitions for extraordinary relief.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of comments and petitions to intervene. Therefore, any person desiring to be heard or to protest said motion should, on or before April 16, 1975, file such comment or petition to intervene with the Federal Power Commission, Washington, D.C., 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. Persons that have previously filed a notice or petition for intervention in this proceeding need not file additional notices or petitions to become parties with respect to the instant filing. The filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7465]

NORTHERN ELECTRIC COOPERATIVE ASSOCIATION

Application

APRIL 4, 1975.

Take notice that Northern Electric Cooperative Association (Applicant), incorporated under the laws of the State of Minnesota, with its principal place of business at Virginia, Minnesota, filed an application with the Federal Power Commission in Docket No. E-7465 on February 27, 1975, for a supplemental order pursuant to section 202(e) of the Federal Power Act, authorizing an increase in the amount and rate of transmission of electric energy which Applicant may transmit from the United States to Canada.

By Commission order issued July 2, 1969 in Docket No. E-7465 (42 FPC 30), Applicant was authorized to transmit electric energy from the United States to 450,000
Canada in an amount not to exceed 450,000 kwh per year at a rate of transmission not to exceed 100 kw for sale and delivery to Lac La Croix Power Authority (La Croix) over certain 14.4 kv facilities of Applicant located at the international border between the United States and Canada adjacent to Government Lot 1, Section 6, Township 67 North, Range 16 West, St. Louis County, Minnesota. Applicant's facilities are covered by its Permit signed by the Chairman of the Federal Power Commission on July 2, 1969, Docket No. E-7466.

Applicant now requests that the authorization granted by Commission order of July 2, 1969, referred to above, be modified so as to authorize Applicant to export electric energy to La Croix in an amount not to exceed 1,500,000 kwh per year at a rate of transmission not to exceed 300 kw for the purposes of meeting the growth in electric supply requirements of the Indian Settlement in the Province of Ontario, Canada, served by La Croix. No change in Applicant's electric transmission facilities at the United States-Canadian border will be made by reason of the proposed increase in the amount and transmission rate of the exported energy.

The subject application includes a copy of a letter received by Applicant from United Power Association (United), which serves as Applicant's supplier of electric energy, stating that United "will be in a position to provide * * * this [increased] amount of power and energy for the next five-year period" to Applicant for delivery to La Croix.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1975 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9344]

ORANGE AND ROCKLAND UTILITIES, INC.

Filing of Initial Rate Schedule

APRIL 4, 1975.

Take notice that on March 27, 1975, Orange and Rockland Utilities, Inc. (ORU) tendered for filing, as an initial rate schedule, copies of an Agreement between ORU and Consolidated Edison Company of New York, Inc. (Con Ed). ORU states that the Agreement provides for the sale by ORU of 90 MW of capacity and associated energy to Con Ed from ORU's entitlement in the Bowline Point Generating Station. According to ORU, the Agreement is to be effective from May 1, 1975, through October 25, 1975.

ORU states that the Agreement provides that Con Ed will pay $78/MW/day for the 90 MW being purchased, and that the charges for associated energy and operating and maintenance costs shall be determined on the basis of the ratio of the cost of energy actually taken to the cost of energy produced by the Bowline Point Generating Station, "as best determined by the parties each month." ORU states further that after October 25, 1975, associated energy and operating and maintenance costs shall be adjusted to reflect costs actually experienced during the term of the Agreement.

ORU states that estimated combined capacity and energy revenues for the term of the Agreement will be $6,538,410.

The subject Agreement has been executed by Con Ed, according to ORU, and a copy has been mailed to it. Copies have also been mailed to the Staff of the New York State Public Service Commission, ORU states.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9346]

ORANGE AND ROCKLAND UTILITIES, INC.

Termination of Rate Schedule

APRIL 4, 1975.

Take notice that on March 27, 1975, Orange & Rockland Utilities, Inc. (ORU) tendered for filing a "Notice of Termination" of its Rate Schedule FPC No. 29. ORU proposes that said termination be effective as of April 27, 1975.

ORU states that a copy of the Notice of Termination has been served upon Consolidated Edison Company of New York, Inc.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protect with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-9345]

PUBLIC SERVICE CO. OF OKLAHOMA

Filing of Letter Agreement

April 4, 1975.

Take notice that on March 28, 1975, Public Service Company of Oklahoma (PSCO) tendered for filing a Letter Agreement dated October 20, 1971, between PSCO and Associated Electric Cooperative, Inc. (AEC); said agreement being a supplement to FPC No. 186. The Letter Agreement provides for the sale by PSCO of 100 megawatts of capacity to AEC for the 24-month period beginning June 1, 1973, and ending May 31, 1977.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CS75-307, *et al.*]

M. N. STAFFORD, JR., ET AL.

Applications for Small Producer Certificates [1]

APRIL 2, 1975.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 25, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Rate Schedule No. 291]

SUN OIL CO.

Rate Change Filing Pursuant to Commission's Opinion No. 699-H

APRIL 4, 1975.

Take notice that the producer listed in the Appendix attached hereto has filed a proposed increased rate to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974.

The information relevant to this sale is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before April 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-20, RP74-83]

UNITED GAS PIPE LINE CO.

Notice of Conference

APRIL 4, 1975.

Take notice that on Tuesday, April 22, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m., in Room No. 5200 at the offices of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.8). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of United Gas Pipe Line Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9200]

UPPER PENINSULA POWER CO.

Filing of Substitute Fuel Clause

APRIL 4, 1975.

Take notice that on March 31, 1975, Upper Peninsula Power Company (Upper Peninsula) tendered for filing a revised substitute fuel clause in response to the Commission's order issued January 30, 1975 in this docket. According to Upper Peninsula, the revised substitute fuel clause reflects losses on a wholesale rather than a system basis through use of a single loss factor applicable to both increases above and decreases below the base cost in accordance with Commission Order No. 517. Upper Peninsula requests that the Commission accept the tendered revised substitute fuel clause and terminate the refund obligation with respect to the fuel clause, in accordance with paragraph (E) the aforementioned January 31, 1975 order in this docket.

Upper Peninsula states that a copy of the substitute fuel clause is being mailed to its affected customers and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 16, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9317]

VERMONT ELECTRIC POWER CO., INC.

Order Suspending Notice of Termination and Instituting Proceedings

APRIL 4, 1975.

On March 10, 1975, Vermont Electric Power Company, Inc., (VELCO) tendered for filing a notice of termination of Vermont Yankee power service to the Village of Northfield, Vermont, (Northfield) as of April 6, 1975.[1] In its notice of termination, VELCO stated that the reason for termination was the failure of Northfield to pay its proper bills since April, 1974. VELCO also stated that it has protested to Northfield and given "ample notice" of the seriousness of Northfield's failure. Finally, VELCO stated that electric service would continue to Northfield under different rate schedules.

VELCO's notice of termination has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly we will suspend the operation of VELCO's notice of termination for five months and defer the use of it until September 6, 1975. We shall also order a hearing to determine whether such notice of termination is just and reasonable.

The Commission finds: (1) It is necessary and proper in the public interest and to aid the enforcement of the Federal Power Act, particularly sections 205, 206, 307, 308, and 309 thereof, that the Commission enter upon a hearing concerning the lawfulness of VELCO's notice of termination referred to above.

(2) Good cause exists to suspend the notice of termination referred to above for five months.

(3) The disposition of this proceeding should be expedite in accordance with the procedures set forth below.

The Commission orders: (A) Pursuant to the Authority of the Federal Power Act particularly sections 205, and 206 thereof, the Commission's rules of practice and procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held on June 11, 1975; at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the lawfullness of VELCO's notice of termination referred to above.

(B) VELCO's notice of termination referred to above is hereby suspended and the use thereof deferred until September 6, 1975.

(C) On or before May 1, 1975 VELCO shall serve prepared testimony and exhibits which justify its notice of termination. On or before May 21, 1975 Staff and other interested parties shall serve their testimony and exhibits in the matter. On or before June 2, 1975 VELCO shall serve any rebuttal testimony and exhibits.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (See Delegation of authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Vermont Yankee power service is rendered pursuant to FPC Rate Schedule 154, Supplement No. 6 and FPC Rate Schedule No. 155, Supplement No. 6. VELCO proposes to terminate these rate schedules.

[Docket No. E-9147]

VIRGINIA ELECTRIC AND POWER CO.

Extension of Procedural Dates

APRIL 2, 1975.

On March 20, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by ordtr issued January 22, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

PHASE I

Service of Staff's Testimony, May 27, 1975.
Service of Intervenor's Testimony, June 10, 1975.
Service of Company Rebuttal, June 24, 1975.
Hearing, July 8, 1975. (10 a.m. e.d.t.).

PHASE II

Service of Intervenors Testimony, May 27, 1975.
Service of Staff's Testimony, June 17, 1975.
Service of Company Direct Evidence, July 8, 1975.
Service of Intervenor Rebuttal, July 22, 1975.
Hearing, August 5, 1975. (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. CI75-425]

VULCAN MATERIALS CO.

Emergency Service Certificate (Limited-Term); Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

APRIL 4, 1975.

On January 22, 1975, Vulcan Materials Company (Vulcan) filed in Docket No. CI75-425 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company (Panhandle) from Kingman County, Kansas, all as more fully set forth in the application in this proceeding.

V 40 170 APR 10 75 XUM

Specifically, Vulcan proposes to sell to Panhandle approximately 15,000 Mcf of natural gas per month at a price of 55.0 cents per Mcf (14.65 psia). The price of this gas is subject to upward and downward Btu adjustment from a base of 1,000 Btu's per cubic foot. The proposed term of the sale is one year. The applicable national rate is 51.0 cents per Mcf at 14.73 psia, plus 1.0 cent gathering allowance.

By telegram received March 25, 1975, Vulcan has informed the Commission that deliveries commenced on March 20, 1975 under § 157.29 of the Commission's rules and regulations.

In Opinion No. 699–B (52 FPC —), which reinstated the limited-term certificate provisions of § 2.70(b) (3) of the Commission's general policy and interpretations, the Commission stated that applicants for limited-term certificates "will have the burden of demonstrating by substantial evidence that the price for which certification is sought is the lowest price at which that particular supply of gas may be obtained for the interstate market and that the supply of gas is available only for the limited period for which certification is sought." (Mimeo p. 6.)

In support of the proposed rate, Vulcan states that it considers the proposed rate to be fair due to the additional costs associated with delivering the gas at a point on Panhandle's line but no detailed economic study in support was submitted. With respect to the term, Vulcan states that the gas will be used for its own needs upon expiration of the one year contract with Panhandle.

Vulcan filed a letter on February 19, 1975 in response to a Commission letter of February 3, 1975 which requested support and justification for the price and limited term proposed in the application and then filed a further clarifying letter on March 21, 1975. Therein, Vulcan states that it must install compression equipment and a gathering line in order to deliver its gas to Panhandle's line. In light of these costs and the higher operating costs associated with a field delivery point, Vulcan feels that its 55.0 cents price is more than fair.

As justification for the proposed one-year term, Vulcan states that it is developing gas wells in Kingman County, Kansas, for its own needs, one of which is the production of anhydrous ammonia. Panhandle expressed an emergency need for the gas, and Vulcan agreed to a one year contract with the intent of using the gas for its own needs thereafter. Vulcan states that it intends to use this one-year period to test the delivery capability of this well.

The Commission stated that the purpose of Order No. 699–B is "to attract available natural gas supplies from the intrastate market to the interstate market."[1] On other occasions, however, the Commission has stated that it is not so interested in attracting intrastate gas to allow producers repeatedly and at short intervals to play the intrastate and interstate markets against one another in order to drive up the price of their gas,[2] Vulcan has not demonstrated by substantial evidence that the proposed price is or will be required by the present or future public convenience and necessity. Further there remains the question whether or not the limited term is justified.

A petition to intervene in support of the application was filed by Panhandle on February 14, 1975.

Based on the facts currently before us, we believe that a formal hearing should be held to afford the applicant an opportunity to establish through the presentation of credible evidence that (1) the proposed price is or will be required by the present or future public convenience and necessity when juxtaposed to similarly situated intrastate sales or alternatively, that the price is no more than is necessary to recover the lowest reasonable costs of the particular project and (2) the subject gas can reasonably be expected to be no longer available for sale after the prescribed limited term.

The Commission finds: (1) The intervention of Panhandle in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders: (A) Panhandle is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene: *And Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the Authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on May 6, 1975, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by Vulcan in the applications filed January 22, 1975.

(C) On or before April 22, 1975, Vulcan and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

COMMITTEE MEETINGS

Pursuant to the provisions of section 10 of Public Law 92–463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, May 1, 1975
Thursday, May 15, 1975
Thursday, May 22, 1975
Thursday, May 29, 1975

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street, NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Public Law 92–392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Public Law 92–463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issues related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street NW., Washington, D.C. 20415.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

APRIL 3, 1975.

FEDERAL TRADE COMMISSION

CIGARETTE TESTING RESULTS

Tar and Nicotine Content

The Federal Trade Commission's laboratory has determined the "tar" (dry particulate matter) and total alkaloid (reported as nicotine) content of 136 varieties of domestic cigarettes. The laboratory utilized the Cambridge filter method with the specifications set forth in the Commission's announcement dated July 31, 1967 (32 F.R. 11178). The varieties are arranged in alphabetical order with tar values rounded to the nearest whole milligram and nicotine values rounded to the nearest tenth of a milligram.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on April 1, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FTC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before April 24, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW, Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new single-time special report questionnaire, "Used Car Study". The questionnaire is a single-time collection of information concerning sales and warranty practices from a sample of approximately five hundred sellers of used motor vehicles. The sample will be drawn from franchised and independent automobile dealers. Response will be mandatory pursuant to 15 U.S.C. sections 46(b) and 50. The information obtained may be utilized in subsequent rulemaking proceedings mandated by sections 109(b) and 112(c) of Pub. L. 93-637. The average respondent burden is estimated at forty hours.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an intrastate rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Pennsylvania Public Utility Commission in a proceeding concerning revised tariffs filed by the Potomac Edison Company resulting in general increases in its electric rates.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

MARCH 28, 1975.

[Federal Property Management Regulations, Temporary Regulation F-335]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an electric and gas rate increase proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Kentucky Public Service Commission (Case No. 6220) in a rate increase proceeding involving electric and gas service supplied by the Louisville Gas and Electric Company.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-244]

ROCHESTER GAS AND ELECTRIC CORP.

Proposed Issuance of Amendment to Provisional Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Provisional Operating License No. DPR-18 issued to Rochester Gas and Electric Corporation (the licensee), for operation of the R. E. Ginna Nuclear Power Plant located in Wayne County, New York.

The license amendment proposed by the licensee's application dated March 27, 1975, would revise the provisions in the Technical Specifications relating to the safety limits, limiting safety system settings for overpower and overtemperature, limits for control rod insertion, and minimum shutdown margin requirements. These changes are associated with application of the approved, updated analytical models for fuel densification and clad flattening (WCAP-8219 and WCAP-8377), a reevaluation of the main steam line break accident, and a proposed increase in operating pressure of the primary coolant back to the original value of 2250 psia.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By May 12, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject provisional operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, DC. 20555, and to Arvin E. Upton, Esquire, LeBoeuf, Lamb, Leiby & MacRae, 1757 N Street, NW., Washington, DC. 20036 the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated March 27, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Lyons Public Library, 67 Canal Street, Lyons, New York 14489 and at the Rochester Public Library, 115 South Avenue, Rochester, New York 14627. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, April 4, 1975.

For the Nuclear Regulatory Commission.

THOMAS V. WAMBACH,
Acting Chief, Operating Reactors Branch 1, Division of Reactor Licensing.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No.; 812-3749]

AETNA VARIABLE ANNUITY LIFE INSURANCE CO. AND VARIABLE ANNUITY ACCOUNT B OF AETNA VARIABLE ANNUITY LIFE INSURANCE CO.

Application for Approval of Offers of Exchange and Order of Exemption

APRIL 3, 1975.

Notice is hereby given that AEtna Variable Annuity Life Insurance Company ("AEtna Variable"), an Arkansas stock life insurance company registered under the Act as an open-end, diversified, management investment company, and Variable Annuity Account B of AEtna Variable ("Account B"), 151 Farmington Avenue, Hartford, Connecticut 06115 a new separate account recently registered under the Investment Company Act of 1940 (the "Act") as a unit investment trust (hereinafter collectively referred to as "Applicants"), filed an application on January 13, 1975 and an amendment thereto on March 20, 1975, pursuant to section 11 of the Act, for an order approving certain offers of exchange and pursuant to section 6(c) of the Act for an order of exemption from sections 22(d), 26(a), 27(a)(3), and 27(c)(2) of the Act and Rule 27a-2 thereunder to the extent noted below. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

AEtna Variable, a wholly-owned subsidiary of AEtna Life and Casualty Company ("AEtna") engaged in the business of offering and selling variable annuity contracts, is presently registered under the Act in order to conduct variable annuity operations and is also registered as a broker-dealer under the Securities Exchange Act of 1934. As of December 31, 1974, AEtna Variable had total assets in excess of $421 million and unappropriated surplus in excess of $128 million.

AEtna Variable has undertaken a realignment program which is designed to lead to its variable annuity and variable life insurance operations being subject to the same pattern of regulation under the Act that is applicable to other life insurance companies engaged in such operations. The realignment program will

V 40 70 A PR 10 75 XUM

be implemented by transferring all assets funding variable annuity contracts currently offered by AEtna Variable to AEtna Variable Fund, Inc. (the "Fund") in exchange for Fund shares, and transferring such shares and the corresponding contract liabilities to Account B and Variable Annuity Account C of AEtna Variable ("Account C"), another separate account of AEtna Variable which also recently registered as a unit investment trust. AEtna Variable has applied for an order pursuant to section 8(f) of the Act declaring that, upon implementation of the realignment program, it will cease to be an investment company.

Account B is a separate account of AEtna Variable that was established for the purpose of holding reserves attributable to variable annuity contracts not entitled to special tax treatment under the Internal Revenue Code of 1954 ("Code"). As previously stated, all amounts allocated to Account B will initially be invested in shares of the Fund, a diversified open-end investment company registered under the Act. It is contemplated, however, that, subject to necessary regulatory approvals, shares of AEtna Variable Encore Fund, Inc. ("Encore Fund"), a registered, open-end, diversified, management investment company, will also be made available as an investment medium for contracts participating in Account B if so elected by owners of or participants under such contracts.

AEtna Variable will act as investment adviser to both the Fund and Encore Fund for a fee equivalent to approximately 0.25 percent on an annual basis. AEtna Variable will also act as principal underwriter for Account B and Account C.

After implementation of the proposed realignment program, Applicants will issue two individual type variable annuity contracts—designated "Individual" and "Deferred Compensation" contracts—and three group type variable annuity contracts—designated "Group Unit Purchase," "Group Deposit Administration," and "Group Terminal Funding" contracts—that will participate in Account B. All such contracts will provide that either all or specified portions of purchase payments may be applied to AEtna Variable's general account for accumulation on a fixed basis.

Certain other contracts issued by AEtna Variable prior to the implementation of its realignment program will also participate in Account B. In general, after implementation of the realignment program, such contracts will no longer be issued, but purchase payments under outstanding contracts may continue to be made and, if made, will be allocated to Account B. One of these contracts, an individual type contract designated the "Pension Trust" contract, may continue to be issued after implementation of the realignment program in any jurisdiction which has not approved the Deferred Compensation contract for sale.

Section 11. Applicants propose to permit owners of those Pension Trust contracts which will participate in Account B, i.e., those Pension Trust contracts which are not qualified for special tax treatment under the Code, to exchange their contracts for Deferred Compensation contracts and to have the values accumulated under such Pension Trust contracts, as of August 1, 1975, transferred to Deferred Compensation contracts without deduction. Any person who purchases such a Pension Trust contract on or after December 3, 1974, the date Account B's registration statement under the Securities Act of 1933 was filed, and who elects to exchange such a contract for a Deferred Compensation contract, will also receive from AEtna Variable additional accumulation units equal to the sum of the differences between deductions made from purchase payments under the Pension Trust contract and deductions which would have been made from purchase payments under a Deferred Compensation contract, together with simple interest at the rate of 6 percent per annum. The exchange of contracts will be effected at the end of business on August 1, 1975 and will be permitted only with respect to those Pension Trust contracts which at the time of the exchange are still in the accumulation stage, i.e., with respect to which annuity payments are not being made.

Section 11(a) of the Act provides that it shall be unlawful for any registered open-end company or principal underwriter for such a company to make or cause to be made an offer to the holder of a security of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) of the Act provides that, irrespective of the basis of exchange, the provisions of section 11(a) of the Act shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants request an order, pursuant to section 11(a) of the Act, to permit an offer to be made to the owners of Pension Trust contracts to exchange such contracts for Deferred Compensation contracts.

Applicants state that the requested order permitting an offer of exchange to be made will make available to owners of Pension Trust contracts any advantages which may result from owning the new Deferred Compensation contract. Applicants state that the additional credit to persons who purchase Pension Trust contracts on or after December 3, 1974, is designed to prevent any disruption in the sale of Pension Trust contracts which might otherwise result when prospective purchasers are notified of the forthcoming issuance of the Deferred Compensation contracts which will have a percentage deduction from purchase payments (9 percent) significantly lower than the initial percentage deduction under Pension Trust contracts (17 percent).

Applicants assert that since no charges will be assessed in connection with the exchange, the principal abuse at which Section 11(a) is directed (the imposition of additional sales charges) will not be present. Applicants represent that no attempt will be made by them to induce an exchange, and that no compensation will be paid to any agents in connection with an exchange. Applicants further assert that an exchange made by persons who purchase Pension Trust contracts on or after December 3, 1974, will be on a basis other than net asset value only by reason of the additional credits the exchanging contract owners will receive, and that such credits will be a benefit to them. As the credit will be paid by AEtna Variable from AEtna Variable's general account, no owners of contracts participating in any of its separate accounts will be prejudiced.

Applicants state that the terms of the Deferred Compensation contract differ significantly from those of the Pension Trust contract and, that an exchange would not necessarily be in the best interest of all Pension Trust contract owners. The determination whether to accept the exchange will be made by each contract owner. Whether an exchange will be advantageous will depend on a number of factors, including the level of any premium tax to be paid under the Deferred Compensation contract, the number of years before the contract owner's retirement, the number of years before the percentage deduction under the Pension Trust contract would decrease to 6 percent, whether the contract owner would elect a minimum death benefit guarantee under the new contract, the amount and frequency of payments to be made under the old and new contracts, the significance to be assigned to the absence of an income tax guarantee under the new contract and the absence also of a corresponding charge for such a guarantee, the amount accumulated under the present contract and expected to be accumulated in the future, the prospect for a surrender of the contract in whole or in part, and anticipated changes in the amount of frequency of payments or in other circumstances affecting the foregoing.

AEtna Variable will seek to assist Pension Trust contract owners in determining whether to make an exchange by pointing out the applicable factors. Persons to whom the exchange offer is made will receive a prospectus describing the Deferred Compensation contracts, a prospectus describing the Pension Trust contracts, plus such additional information as may be necessary to assist contract owners in determining whether to make an exchange,

Applicants submit that in view of the proposed disclosure to contract owners to whom the exchange offer will be made, the absence of any effort to induce an exchange, and the absence of charges in connection with such an exchange, the proposed offer of exchange is fair and should be approved by the Commission.

Applicants request a further order, pursuant to section 11(a) of the Act, to permit transfers of participant accounts under group contracts to individual contracts. The Group Deposit Administration and Group Unit Purchase contracts to be issued by Applicants will provide that if an employer's plan permits, or the contract owner so requests, a participant may have amounts accumulated on his behalf under a group contract transferred to an individual contract without charge. The individual contract will be the contract for which the participant qualifies at the time of transfer and such contract (usually, the Deferred Compensation contract), will be deemed to have been outstanding for the lesser of the number of years the participant has been in the plan or the group contract has been in force. Other group contracts, including those no longer offered and those which may be offered in the future, may contain similar transfer provisions. Applicants state that the transfer privilege is designed to permit an employee to have payments accumulated for his retirement under a single contract despite a change in employment and submit that such a transfer privilege is fair and should be approved by the Commission.

Section 22(d). Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security to the public except at a current public offering price described in the prospectus.

Applicants request an exemption from section 22(d) to permit those owners of Pension Trust contracts which participate in Account B to exchange their contracts for Deferred Compensation contracts, and to permit participants under group contracts to transfer amounts accumulated on their behalf to individual contracts, without any deduction for sales and administrative expenses.

Applicants also request an exemption from section 22(d) of the Act to permit the percentage deduction from purchase payments made after deducting a flat dollar deduction for sales and administrative expenses to be reduced from 8.5 percent to 6 percent in the case of immediate contracts and from 10.5 percent to 8 percent in the case of deferred contracts when such contracts are purchased with amounts paid or payable, by reason of death or otherwise, under life insurance or annuity contracts issued by AEtna Variable, by AEtna, or by any company organized and operated as a life insurance company under applicable state law and controlled by AEtna. Applicants assert that the requested exemption will not disrupt the orderly distribution of such contracts. Applicants state that the premiums on the life insurance and annuity contracts constituting the source of the insurance proceeds will already have been subjected to sales charges. Applicants assert that the purchase of Individual contracts with insurance proceeds will involve reduced sales activities and that reducing the percentage deductions in the manner proposed will avoid an unnecessary accumulation of charges.

A further exemption from section 22(d) is requested by Applicants to permit deductions from purchase payments for sales and administrative expenses to be based upon the aggregate amount of payments made under the contracts regardless of whether such payments, or a part thereof, are credited to Account B or to the general account of AEtna Variable. Applicants assert that, where a contract provides for a reduction, based upon the aggregate purchase payments made, in the deductions from purchase payments for sales and administrative expenses, the inclusion, in determining the aggregate purchase payments made, of amounts credited to AEtna Variable's general account is necessary to avoid discriminating against those persons who allocate a portion of their purchase payments to AEtna Variable's general account.

Applicants also request an exemption from section 22(d) to permit the transfers, without additional deductions, of amounts accumulated in AEtna Variable's general account on a fixed basis to Account B at the annuity commencement date or an earlier date. Applicants represent that since the same deductions for sales and administrative expenses are made from each purchase payment without regard to whether the net proceeds are applied to the separate account, the general account, or a combination thereof, imposition of an additional deduction when amounts accumulated on a fixed basis are transferred to Account B would be inequitable and discriminatory.

Applicants request a further exemption from section 22(d) to permit the experience rating of sales and administrative expense deductions, including the crediting of additional units, without further deductions for sales charges. AEtna Variable's outstanding group contracts provide, and group contracts issued in the future may provide, that if the deductions for sales and administrative expense exceed actual sales and administrative costs, AEtna Variable in its discretion may allocate all, a portion, or none of such excess as an experience rating credit. Applicants represent that such credit will be made on a nondiscriminatory basis in the form of additional accumulation or annuity units and that such credit will not result in any dilution of the interests of other owners of or participants under variable annuity contracts as payment of the credit will be made from AEtna Variable's general account.

An exemption from section 22(d) is also requested by Applicants to permit a person entitled to any proceeds payable upon the death of another under a variable annuity contract participating in Account B, to elect, if such an option is provided by the contract or the group contract plan, to purchase a variable annuity contract with such death proceeds, including proceeds attributable to any fixed accumulation, without any deduction for sales and administrative expenses. Applicants anticipate no significant selling expenses that would justify a deduction when a beneficiary elects a variable annuity payment option.

AEtna Variable intends to issue Deferred Compensation contracts in place of Pension Trust contracts in all jurisdictions subsequent to implementation of the Realignment Program. However, delays in obtaining approval of the Deferred Compensation contracts in some jurisdictions may make it necessary for AEtna Variable to continue to offer Pension Trust contracts in those jurisdictions until such approval is obtained. Consequently, Pension Trust contracts may continue to be sold in certain jurisdictions, subsequent to implementation of the Realignment Program. Purchase payments under such contracts, and under other contracts outstanding as of implementation, would continue to be received. Where the contracts are not entitled to special tax treatment under the Code, such payments would be allocated to Account B. Sales charges under such contracts differ from the sales charges under the contracts which will be offered subsequent to implementation. Applicants, therefore, request a further exemption from section 22(d) to permit Pension Trust contracts to continue to be sold in jurisdictions that have not approved the Deferred Compensation contracts, until such approval is obtained, and to permit the continued receipt of purchase payments on contracts that were outstanding upon implementation of the Realignment Program.

Section 27(a)(3) and Rule 27a–2. Section 27(a)(3) of the Act provides that no registered investment company issuing periodic payment plan certificates, and no depositor of or underwriter for such company, may sell any such certificate if the amount of sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other such payment, or if the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment. Rule 27a–2 provides an exemption from section 27(a)(3) for registered separate accounts, and depositors of or underwriters for such accounts, provided that the proportionate amount of sales load deducted from any payment under a variable annuity contract participating therein does not exceed the proportionate amount deducted from any prior payment thereunder.

The Deferred Compensation, Group Deposit Administration, and Group Terminal Funding contracts to be issued by Applicants will provide for percentage deductions from purchase payments for sales and administrative expenses to be assessed on the balance of the payment remaining after a flat dollar deduction and, with respect to Deferred Compensation contracts, after any deduction for applicable premium taxes. In the case of Group Terminal Funding

V 40170 APR 10 75 XUM

contracts, where there is advance funding of annuities by installment payments, the flat dollar deduction is assessed only against the first installment payment, and in the case of Group Deposit Administration contracts, the annual flat dollar deduction is assessed only against the first payment made during the year. In addition, under Deferred Compensation contracts, an optional minimum death benefit guarantee may be elected for a charge of 1% of the total purchase payment, and other optional insurance benefits may be made available at some future time under Deferred Compensation or other contracts for charges deducted from purchase payments. Where additional deductions are made for optional insurance benefits, the percentage deduction from purchase payments for sales and administrative expenses is assessed against the net payment remaining after all other deductions. Accordingly, the total deductions from purchase payments for sales and administrative expenses (including any flat dollar deduction and the specified percentage deduction) under each of the above contracts may vary as a percent of the total purchase payment. Depending on the contract involved, such factors may cause the total deductions from any purchase payment for sales and administrative expenses to exceed proportionately such deductions made from a prior payment.

Applicants state that the variation in the deductions for sales and administrative expenses as a percent of total purchase payments results from assessing the percentage deduction for sales and administrative expenses against the payment net of certain other deductions and, in the case of certain contracts, from assessing a flat dollar deduction for sales and administrative expenses. The flat dollar deduction for sales and administrative expenses under certain contracts reflects more accurately the incidence of certain sales and administrative expenses which are incurred regardless of the size of the purchase payment. Applicants state that the purpose of assessing the percentage deduction for sales and administrative expenses against the net payment remaining after certain other deductions is to avoid assessing a charge against the flat dollar charge and amounts deducted for other purposes, and that assessing such percentage deduction against the net payment provides for lower total deductions than would otherwise result. Accordingly, Applicants request an exemption from the provisions of section 27(a)(3) and Rule 27a–2 to permit, under the circumstances described above, the proportionate amount of deductions for sales and administrative expenses from any purchase payment to exceed proportionately such deductions made from prior payments.

Sections 26(a) and 27(c)(2). Sections 26(a) and 27(c)(2), as here pertinent, provide in substance that a registered unit investment trust and any depositor of and underwriter for such trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments, other than amounts deducted for sales loads, are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing specified provisions. Applicants state that AEtna Variable and Account B are subject to extensive supervision and control by the Arkansas insurance regulatory authorities and that such control and supervision protects variable annuity contract owners and provides the assurance of performance by AEtna Variable on its obligations to such owners. Applicants further state that under Arkansas insurance law, the assets of Account B attributable to variable annuity contracts shall not be chargeable with liabilities arising out of any other business AEtna Variable may conduct, and that all obligations under the variable annuity contracts participating in Account B are general obligations of AEtna Variable, which AEtna Variable may not abrogate.

It is further contemplated that the Fund shares and Encore Fund shares issued to Account B will be held pursuant to an open account system and will not be represented by any transferable stock certificates which might require a trusteeship or custodianship for safekeeping purposes. Applicants represent that, under the foregoing circumstances the dangers of abandonment of Account B's assets or default with respect to the obligations to security holders appear remote, and accordingly request an exemption from sections 26(a) and 27(c)(2) to permit Applicants to sell variable annuity contracts without depositing with a qualified bank the net proceeds of payments thereunder.

Applicants consent to the exemptions requested herein from sections 26(a) and 27(c)(2) being made subject to the following conditions: (1) that the charges to variable annuity contract owners for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose; and (2) that the payments of sums and charges out of the assets of Account B shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payments of such other sums or charges.

Section 6(c) of the Act provides, in part, that the Commission may, by order upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 23, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 8739; 811–1223]

AETNA VARIABLE ANNUITY LIFE INSURANCE CO.

Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Co.

APRIL 2, 1975.

Notice is hereby given that AEtna Variable Annuity Life Insurance Company ("AEtna Variable"), 151 Farmington Avenue, Hartford, Connecticut 06615, registered under the Investment Company Act of 1940 (the "Act") as an open-end diversified management investment company, has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that AEtna Variable has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

AEtna Variable, which was formerly named Participating Annuity Life Insurance Company, is a stock life insurance company which was organized under the laws of Arkansas in 1954. It was registered under the Act on July 1, 1963.

The application states that AEtna Variable's principal activity is the sale of variable annuity contracts and that it is registered under the Act in order to conduct these variable annuity operations. AEtna Variable has proposed a realignment program of its present operations and mode of registration under the Act which principally entails the substitution of separate accounts of AEtna Variable as the entities registered under the Act, instead of AEtna Variable, the insurance company, itself. The proposed operation will conform with that of other life insurance companies engaged in variable annuity operations.

The realignment program has been approved by the board of directors of AEtna Variable, and on August 16, 1974, the realignment program was approved by the voting security holders of AEtna Variable.

AEtna Variable represents that upon implementation of the program, its separate accounts will be registered under the Act as investment companies unless exempted from such registration. AEtna Variable contends that upon implementation of the program there will be no further need for it to be registered under the Act, and that it will then be entitled to rely on the exclusion from the definition of investment company provided by section 3(c)(3) for insurance companies.

AEtna Variable also states that in order to complete the application, it will file prior to the issuance of any order of deregistration herein, a statement indicating that the realignment program has been completed.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given, that any interested person may, not later than April 24, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following April 24, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

BBI, INC.

Suspension of Trading

APRIL 3, 1975.

The common stock of BBI, Inc., being traded on the American Stock Exchange and the Philadelphia-Baltimore-Washington Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of BBI, Inc. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from April 4, 1975 through April 13, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 18907; 70–5367]

JERSEY CENTRAL POWER & LIGHT CO.

First Mortgage Indenture and Solicitation of Bondholders' Proxies; Supplemental Notice of Proposed Amendments

APRIL 3, 1975.

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central"), Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960 an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an amendment to the declaration previously filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposals. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposals.

Notice was given on July 16, 1973 (Holding Company Act Release No. 18034), that Jersey Central proposed to amend its Indenture dated as of March 1, 1946, as heretofore supplemented and amended by twenty-one supplemental indentures ("Indenture") to effect two changes. Jersey Central proposed to eliminate the covenant which provides that Jersey Central will duly observe and conform to all valid requirements of any governmental authority relative to any mortgaged property. It was stated that such covenant should be eliminated since, under a developing pattern of legislation and administrative action, there will be periods when Jersey Central will be unable to comply with governmental requirements with respect to its mortgaged property, although it may not be expected by the governmental agency to be in compliance. However, this covenant in the Indenture could be construed as resulting in a default under the Indenture. Jersey Central stated that the elimination of this covenant will not relieve it of its obligation to comply with governmental requirements, but it will permit appropriate governmental enforcement measures consistent with their intent.

In addition, Jersey Central also proposed to include as bondable property additions, property for which Jersey Central does not have all necessary permission from governmental authorities to operate, but which otherwise would constitute bondable property additions. Jersey Central stated that although, under the Indenture, it was specifically contemplated that property additions can constitute bondable property, it is believed that it is not clear whether the Indenture permits the inclusion of, in computing the bondable value of property additions, the value of Jersey Central's plant and equipment as to which all currently obtainable permission has been received, but as to which further governmental permission must be obtained in the future. Jersey Central stated that this ambiguity jeopardizes its ability to finance additions to its facilities in the most economic and orderly manner.

Jersey Central now amends its declaration to state that the Indenture has been amended and supplemented by twenty-six Supplemental Indentures. The affirmative vote of the holders of 75 percent in principal amount of the first mortgage bonds outstanding is required for approval of the proposed amendments to the Indenture. Jersey Central intends to enter into the twenty-sixth supplemental indenture as soon as practicable after the meeting of the bondholders, scheduled for June 12, 1975, but in any event no later than December 31, 1975. It is proposed that proxies be solicited from bondholders through the use of proposed proxy solicitation material.

The New Jersey Board of Public Utility Commissioners has jurisdiction over the proposed amendments of the Indenture. It is further stated that no other state commission and no federal

V 40 170 APR 10 75 XUM

commission, other than this Commission, has jurisdiction over the proposals. The fees and expenses to be incurred in connection with the proposals are estimated at $78,000, including legal fees of $11,000.

Notice is further given that any interested person may, not later than April 29, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said amendment to the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-9383 Filed 4-9-75;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Proposed Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. ("CBOE") has filed proposed corrections to amendments to its Option Plan that were previously filed pursuant to Rule 9b-1 under the Securities Exchange Act of 1934 (17 CFR 240.9b-1). The original amendments were noticed on February 10, 1975 at 40 FR 6244.

These corrections make minor changes in three price categories of the schedule of commission rates for Board Brokers established by CBOE Rule 14.5. The substance of the schedule as initially proposed would not be changed.

The proposed corrections will become effective thirty days after the date of this notice or upon such earlier date as the Commission may allow unless the Commission shall disapprove the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed corrections to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. Reference should be made to file number 10-54. The proposed corrections are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

APRIL 2, 1975.

[FR Doc.75-9385 Filed 4-9-75;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Delaying Effectiveness of Proposed Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. ("CBOE") has filed an amendment to a proposed change in its option plan filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) delaying its effectiveness until a CBOE membership vote on the proposed amendment has occurred and until the Commission allows it to become effective or disapproves the change in whole or in part as being inconsistent with the public interest or the protection of investors.

The amendment was noticed on March 20, 1975 at 40 FR 12719. The proposed amendment to Rule 6.47 would exclude bids and offers in a Board Broker's book from being subject to the priority now afforded to split price orders.

All interested persons are invited to submit their views and comments on the proposed amendment to CBOE's plan either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. Reference should be made to file number 10-54. The proposed amendment is, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW, Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 18906; 70-5659]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issue and Sale of Cumulative Preferred Stock at Competitive Bidding

APRIL 3, 1975.

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central") Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b) and 12(c) of the Act and rules 42(a) and 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

Jersey Central proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 250,000 additional shares of its Cumulative Preferred Stock, ____ percent Series G (the "New Preferred Stock"). The New Preferred Stock will constitute a further series of Jersey Central's cumulative preferred stock of which there are outstanding 1,375,000 shares issued in seven series. The dividend rate and redemption prices of the New Preferred Stock will be determined by competitive bidding. The terms of the New Preferred Stock contain provisions which (1) preclude Jersey Central from redeeming any New Preferred Stock prior to June 1, 1980, if such redemption is for the purpose of refunding such New Preferred Stock with proceeds of funds borrowed at a lower effective interest cost, and (2) include a sinking fund, commencing on June 1, 1976, to retire annually 5 percent of the number of shares of the New Preferred Stock that are originally issued, at $100 per share plus accrued dividends to the redemption date of June 1 each year. In all other respects the New Preferred Stock will be similar to the outstanding series. The price (which will be not less than 100 percent nor more than $102.75 per share exclusive of accrued dividends) and the dividend rate (which will be a multiple of 1/25 of 1 percent) will be determined by competitive bidding.

The proceeds (up to $25,000,000, exclusive of premium and accrued dividends) from the sale of the New Preferred Stock will be used for the payment of all or a portion of Jersey Central's short-term bank loans expected to be outstanding at the time of sale of the New Preferred Stock or for construction purposes or to reimburse Jersey Central's treasury for funds previously expended therefrom for construction purposes. The presently estimated cost of Jersey Central's 1975 construction program is approximately $135,000,000 (including allowance for funds used during construction).

The fees and expenses to be paid by Jersey Central in connection with the issue and sale of the New Preferred Stock will be supplied by amendment. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed issuance and sale of the New Preferred Stock by Jersey Central and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interests, the reasons for such request, and the issues of fact or law raised by such application-declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[License No. 06/10-0021]

FIRST CAPITAL CORP.

Application for Transfer of Control of Licensed Small Business Investment Co.

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to Section 107.701 of the Regulations governing small business investment companies (13 CFR 107.701 (1975)) for the transfer of control of First Capital Corporation (FCC), 821 Washington Street, Waco, Texas 76703, a Federal Licensee under the Small Business Investment Act of 1958, as amended (the Act), (15 U.S.C. 661 et seq.), and the Rules and Regulations promulgated thereunder.

The transfer is being made pursuant to a purchase and sale agreement between FCC and five individuals FCC was licensed on September 20, 1960, and its present capitalization is $165,000. The new principals have agreed to increase the capitalization of the company by $300,000. The principal office will be moved to 4925 Davis Boulevard, Fort Worth, Texas 76118. The proposed transfer is subject to and contingent upon the prior approval of SBA.

The proposed officers, directors and shareholders as follows:

John R. Payne, 5701 Silver Lake Dr., Fort Worth, Texas 76117, President, Director, 35 percent.

Harry S. Scaling, 4117 West Seventh Street, Fort Worth, Texas 76107, Chairman of the Board, Secretary, 32 percent.

Dr. Barry Fawcett, 752 Mary Dr., Hurst, Texas 76053, Director, 15 percent.

Reuben Branscum, 4925 Davis Boulevard, Fort Worth, Texas 76118, Director, 9 percent.

Joe Spurlock, 416 W. T. Waggoner Bldg., Fort Worth, Texas 76102, Director, 9 percent.

Matters involved in SBA's consideration of the application include the general business reputation and character of shareholders and management, and the probability of successful operations of the new company in accordance with the Act and Regulations.

Notice is further given that any interested person may, not later than fifteen days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed licensing of this company. Any such communications should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, NW, Washington, D.C. 20416.

A copy of this notice shall be published by the proposed Licensee in a newspaper of general circulation in Fort Worth, Texas.

Dated: April 1, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator
for Investment.

NORTH CAROLINA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of March, because of the effects of a certain disaster, damage resulted to property located in the State of North Carolina;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Beaufort and Lenoir Counties and adjacent affected areas, suffered damage or destruction resulting from tornadoes and high winds which occurred on March 14, 1975. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Small Business Administration
District Office
222 South Church Street
Charlotte, North Carolina 28202

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to June 5, 1975. EIDL applications will not be accepted subsequent to January 5, 1976.

[License No. 10/13-0018]

TRANSPAC CAPITAL FUND, INC.

Filing of Application for Transfer of Control of Licensed Small Business Investment Co.

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the Regulations governing small business investment companies (13 CFR 107.701 (1975)) for the transfer of control of TransPac Capital Fund, Inc. (TransPac), 1800 SW First Avenue, Portland, Oregon 97201, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), License No. 10/13-0018.

First Farwest Corporation (FFC), 610 S.W. Alder Street, Portland, Oregon 97205 (an Oregon Corporation), has offered to exchange shares of its common stock for all the outstanding shares of the common stock of Trans Pacific Financial Corporation (Financial). Financial owns 100 percent of the common stock of TransPac. Subsequent to the transaction, the licensee will continue to be owned by Financial, which will be wholly owned by FFC. FFC will, in turn, be owned 52.3 percent by Pacific Insurance Investment Company and its affiliate, PIICO Assurance Group, Inc., and 47.7 percent by public shareholders.

The officers and directors of TransPac will remain unchanged.

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owners and the probability of continued successful operation of TransPac under their control and management (including adequate profitability and financial soundness) in accordance with the Act and Regulations.

Notice is hereby given that any interested person may, not later than 10 days from the date of publication of this Notice, submit to SBA, in writing, relevant comments on the transfer of control. Any such communication should be addressed to:

Deputy Associate Administrator for Investment
Small Business Administration
1441 L Street, N.W.
Washington, D.C. 20416

A copy of this Notice shall be published by the transferee in a newspaper of general circulation in Portland, Oregon.

Dated: April 1, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[License No. 06/10-0075]

WESTERN CAPITAL CORP.

Surrender of License To Operate as a Small Business Investment Company

Notice is hereby given that Western Capital Corporation (WCC), 7007 Preston Road, Dallas, Texas 75205, pursuant to the provisions of § 107.105 of the regulations governing small business investment companies (13 CFR 107.105 (1975)), has surrendered its license to operate as a small business investment company (SBIC). WCC was acquired by Texas Capital Corporation, an SBIC located at 2424 Houston Natural Gas Building, Houston, Texas 77002.

WCC was incorporated under the laws of the State of Texas to operate solely as an SBIC under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*), (Act) and it was issued license number 06/10-0075 by the Small Business Administration on October 9, 1961.

Under the authority vested by the Act and the Regulations promulgated thereunder, surrender of the license of WCC is hereby accepted and accordingly, it is no longer licensed to operate as an SBIC.

Dated: April 3, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[License No. 08/08-0037]

WESTERN VENTURE RESOURCES, INC.

Issuance of Small Business Investment Company License

On January 13, 1975, a notice was published in the FEDERAL REGISTER (40 FR 2482) stating that an application had been filed by Western Venture Resources, Inc., 1900 Lincoln Center Building, 1660 Lincoln Street, Denver, Colorado 80203 with the Small Business Administration (SBA) pursuant to Section 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1974)) for a license as a small business investment company.

Interested parties were given until the close of business January 28, 1975, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information, SBA issued License No. 08/08-0037 to Western Venture Resources, Inc., to operate as a small business investment company.

Dated: April 3, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

SOUTH CAROLINA STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Director for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On December 6, 1972, notice was published in the FEDERAL REGISTER (37 FR 25932) of the approval

V 40 170 APR 10 75 XUM

of the South Carolina plan and the adoption of Subpart C to Part 1952 containing the decision.

The South Carolina plan provides for the adoption of Federal standards as State standards after public hearing. Section 1952.103 of Subpart C sets forth the States schedule for the adoption of Federal standards. By letters dated January 15, 1975 and February 14, 1975 from Edgar L. McGowan, Commissioner, South Carolina Department of Labor to Donald E. MacKenzie, Assistant Regional Director and incorporated as a part of the plan, the State submitted revised State standards comparable to OSHA standards 29 CFR Part 1910, excluding §§ 1910.13 through 1910.16 (Maritime), as published in the FEDERAL REGISTER (39 FR 23502) dated June 27, 1974; 29 CFR Part 1926 as published in the FEDERAL REGISTER (39 FR 22801) dated June 24, 1974; amendments to § 1910.267a, dated August 12, 1974; § 1910.93q, dated October 4 and December 3, 1974; § 1910.211 (d), dated December 3, 1974; § 1910.217, dated December 3, 1974; and § 1926.750 (b), dated July 12, 1974.

These standards were promulgated after public hearings held on December 6, 1974 and January 27, 1975 and by filing with the South Carolina Secretary of State on December 10, 1974 and February 14, 1975 respectively, pursuant to Act 379, South Carolina Acts and Joint Resolutions, 1971 (sections 40-261 through 40-274 South Carolina Code of Laws, 1962).

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards and are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Commissioner of Labor, South Carolina Department of Labor, 3600 Forest Drive, Columbia, South Carolina 29211; Office of the Assistant Regional Director, Suite 587, 1375 Peachtree Street NE., Atlanta, Georgia 30309; and Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds good cause exists for not publishing the supplement to the South Carolina State Plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with procedural requirements of State law and further participation would be unnecessary.

This decision is effective April 10, 1975.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Atlanta, Georgia, this 27th day of February, 1975.

R. A. WENDELL,
Acting Assistant Regional Director.

INTERSTATE COMMERCE COMMISSION

[Notice No. 730]

ASSIGNMENT OF HEARINGS

APRIL 7, 1975.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 106644 Sub 192, Superior Trucking Company, Inc. now assigned June 13, 1975, at San Francisco, California, cancelled and application dismissed.

MC 136527 Sub 1, J. O. Battles, Inc., now being assigned May 15, 1975 (2 days), in Room 501, 150 Causeway Street, Boston, Mass.

MC 140030 Sub 1, Ray Kurtz and Linda Farley, DBA Plastic Express, now being assigned June 13, 1975 (1 day), at San Francisco, California; in a hearing room to be designated later.

MC 139053 Sub 2, Hiram E. Blue, Jr. Trucking Co., now assigned May 28, 1975, at Jackson, Mississippi, is cancelled and application dismissed.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-9421 Filed 4-9-75;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

APRIL 7, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before April 25, 1975.

FSA No. 42969—*Joint Water-Rail Container Rates—Sea-Land Service, Inc.* Filed by Sea-Land Service, Inc. (No. 83), for itself and interested rail carriers. Rates on general commodities, from rail carriers' terminals at U.S. Atlantic and Gulf Ports, to Hsinkang and Shanghai, Peoples Republic of China.

Grounds for relief—Water competition.

Tariff—Sea-Land Service, Inc., tariff I.C.C. No. 72. Rates are published to become effective on May 4, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 262]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

APRIL 10, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no signficant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seking reconsideration of the following numbered proceedings on or before April 30, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75578. By order of March 28, 1975, the Motor Carrier Board approved the transfer to Super Motor Lines, Inc., Whiteville, N.C., of the operating rights in Certificate No. MC-74107 issued October 7, 1963, to J. Franklin Bullard and W. J. Rabon, a partnership, doing business as Super Motor Lines, Co., Whiteville, N.C., authorizing the transportation of various commodities from and to specified points and areas in North Carolina, Virginia, Maryland, South Carolina, Pennsylvania, and the District of Columbia. Benton H. Walton, III, 136 Washington St., Whiteville, N.C. 28472, attorney for applicants.

No. MC-FC-75657. By order entered April 1 1975, the Motor Carrier Board approved the transfer to O. Mitchell Belt, doing business as M. J. Belt & Son, Parkersburg, W. Va., of the operating rights set forth in Certificates Nos. MC-1705 and MC-1705 (Sub-No. 2), issued August 16, 1955, and March 21, 1963, respectively, to McLean Inc., Saint Petersburg Beach, Fla., authorizing the transportation of general commodities, household goods, paper, paper products and waste paper, and corrugated paper shipping containers, from and to and between specified points in West Virginia, Ohio, and Pennsylvania. Charles E. Anderson, 1421 Kanawha Valley Building, Charleston, W. Va. 25332, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

APRIL 4, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 21, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 79473 (Sub-No. E1), filed March 9, 1975. Applicant: BAY STATE MOVING & STORAGE, INC., 42 Tosca Drive, Stoughton, Mass. 02072. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Massachusetts, New Hampshire, Maine, Vermont, Rhode Island, and Connecticut on the one hand, and, on the other, points in Georgia and Florida. The purpose of this filing is to eliminate the gateway of points in that part of Massachusetts east of the Connecticut River.

No. MC 83835 (Sub-No. E38), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe* (except oilfield pipe), which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (a) from points in Utah to points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maine, Massachusetts, Maryland, Mississippi, New Hampshire, New Jersey New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia; and (b) from points in Utah to points in Indiana on and south of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 24 to the Ohio-Indiana State line, and points in Ohio on and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 36 to junction Ohio Highway 4, thence along Ohio Highway 4 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio Highway 585, thence along Ohio Highway 585 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Ohio Highway 605, thence along Ohio Highway 605 to junction U.S. Highway 422, thence along U.S. Highway 422 to the Pennsylvania-Ohio State line. The purpose of this filing is to eliminate the gateways of Kansas and Wagoner, Okla.

No. MC 83835 (Sub-No. E39), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe* (except oilfield pipe), when transported as contractors' machinery, equipment, materials, and supplies (except commodities in bulk), and which, because of its size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight, require the use of special equipment (except machinery, equipment materials, and supplies used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and materials, equipment, and supplies used in, or in connection with the construction, operation repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (a) from points in Michigan and Wisconsin, to points in Arizona, New Mexico, Oklahoma, and Texas; and (b) from the Lower Peninsula of Michigan to points in California. The purpose of this filing is to eliminate the gateways of Illinois, and Wagner, Okla.

No. MC 83835 (Sub-No. E42), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel tubing*, other than oilfield tubing, from Baytown, Corpus Christi, Galveston, and Houston, Tex., to points in the United States (except Alaska, Arkansas, Hawaii, Louisiana, New Mexico, Oklahoma, and Texas). The purpose of this filing is to eliminate the gateway of the facility of Gulf States Tube at Rosenberg, Tex.

No. MC 83835 (Sub-No. E43), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel tubing* and *pipe*, from Baytown, Corpus Christi, Galveston, and Houston, Tex., to points in Kansas, Michigan, New York, Ohio, Pennsylvania, and Wisconsin. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 83835 (Sub-No. E44), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel pipe* (except oilfield pipe), from the facilities of C F & I Steel Corporation at or near Pueblo, Colo., to points in Connecticut, Delaware, Florida, Georgia, Indiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, North Carolina, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of Wagoner, Okla.

No. MC 83835 (Sub-No. E53), filed June 4, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel reinforcement products* when transported as commodities which, because of their size or weight require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, from points in Utah to points in Indiana, New York, North Carolina, Ohio, and Pennsylvania; (2) *Iron and steel reinforcement products* when transported as commodities which, because of their size or weight require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities which by reason of size or

V 40 70 APR 10 75 XUM

weight, require special equipment; and/or (3) *Iron and steel reinforcement products* when transported as machinery, equipment, materials, and supplies used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; and/or

(4) *Iron and steel reinforcement products*, when transported as equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and/or (5) *Iron and steel reinforcement products*, when transported as machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way, from points in Colorado on and west of a line beginning at the Colorado-Wyoming State line, and extending along Colorado Highway 125 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Interstate Highway 70 to the Colorado-Kansas State line, and points in New Mexico on and west of a line beginning at the New Mexico-Texas State line along U.S. Highway 70 to junction New Mexico Highway 2, thence along New Mexico Highway 2 to junction U.S. Highway 285 to the United States-Mexico International Boundary line, to points in Indiana, New York, North Carolina, Ohio, and Pennsylvania. The purpose of this filing is to eliminate the gateway of the facilities of Superior Concrete Accessories at Parsons, Kans.

No. MC 83835 (Sub-No. E59), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. Applicant's representative: William Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Commodities* the transportation of which because of size or weight require the use of special equipment, and (A) (2) *self-propelled articles*, each weighing 15,000 pounds or more, restricted to transportation on trailers. Restriction: The authority granted herein is restricted against the transportation of aerospace products and equipment: 1. Between points in Indiana, Ohio, and Pennsylvania on the one hand, and, on the other, points in Colorado and Nebraska; 2. between points in Indiana and Pennsylvania on the one hand, and, on the other, points in Kansas and Missouri; 3. between points in Indiana, Ohio, and Pennsylvania on the one hand, and, on the other, points in New Mexico; 4. between points in Pennsylvania, on the one hand, and, on the other, points in Montana, Utah, and Wyoming; 5. between points in Pennsylvania on and east of highways beginning at the Pennsylvania-Ohio State line, thence along Pennsylvania Highway 68 to its junction with Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to its junction with U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in North Dakota on and west of highways beginning at the North Dakota-Canada line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 1804, thence along North Dakota Highway 1804 to its junction with U.S. Highway 83.

Thence along U.S. Highway 83 to its junction with North Dakota Highway 11, thence along North Dakota Highway 11 to its junction with North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line; 6. between points in North Dakota on and west of highways beginning at the North Dakota-Canada line, thence along North Dakota Highway 1 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Pennsylvania on and south of highways beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 119 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Pennsylvania Highway 281, thence along Pennsylvania Highway 281 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-New Jersey State line; 7. between points in Pennsylvania on and east of highways beginning at the Pennsylvania-Ohio State line, thence along Pennsylvania Highway 68 to its junction with Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to its junction with U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in North Dakota on and west of highways beginning at the North Dakota-Canada line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 1804, thence along North Dakota Highway 1804 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 11, thence along North Dakota Highway 11 to its junction with North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line; 8. between points in Pennsylvania, on the one hand, and, on the other, points in North Dakota on and west of highways beginning at the North Dakota-Montana State line.

Thence along U.S. Highway 2 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line, points in South Dakota on and west of highways beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 281 to its junction with South Dakota Highway 37, thence along South Dakota Highway 37 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to its junction with South Dakota Highway 26, thence along South Dakota Highway 26 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to the South Dakota-Minnesota State line; 9. between points in South Dakota, on the one hand, and, on the other, points in Pennsylvania on and south of highways beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 40 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to its junction with Pennsylvania Highway 63, thence along Pennsylvania Highway 63 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 15.

Thence along U.S. Highway 15 to its junction with Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with Pennsylvania Highway 590, thence along Pennsylvania Highway 590 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New York State line; 10. between points in Indiana and Ohio, on the one hand, and, on the other, points in Utah and Wyoming; 11. between points in Ohio on and south of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 36 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to its junction with Ohio Highway 47, thence along Ohio Highway 47 to its junction with Ohio Highway 31, thence along Ohio Highway 31 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Ohio Highway 3, thence along Ohio Highway 3 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, on the one hand, and, on the other, points in South Dakota on and south of highways beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 45 to its junction with South Dakota Highway 10, thence along South Dakota Highway 10 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with South Dakota Highway 37, thence along South Dakota Highway 37 to its junction with South Dakota Highway 20.

Thence along South Dakota Highway 20 to its junction with Interstate Highway 29, thence along Interstate Highway 29 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to the South Dakota-Minnesota State line; 12. between points in Ohio, on the one hand, and, on the other, points in Montana on and west of highways beginning at the Montana-Wyoming State line, thence along U.S. Highway 212 to its junction with U.S. Highway 312, thence along U.S. Highway 312 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Montana Highway 19, thence along Montana Highway 19 to its junction with U.S. Highway 191, thence along U.S. Highway 191 to its junction with Montana Highway 376, thence along Montana Highway 376 to its junction with U.S. Highway 2, thence along U.S. Highway 2 to its junction with Montana Highway 232, thence along Montana Highway 232 to the Montana-Canadian line, and points in South Dakota on and south of highways beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 212 to its junction with South Dakota Highway 34, thence along South Dakota Highway 34 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Nebraska State line; 13. between points in North Dakota on and west of highways beginning at the North Dakota-Canada line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 1804.

Thence along North Dakota Highway 1804 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 11, thence along North Dakota Highway 11 to its junction with North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Ohio on and south of highways beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with U.S. Highway 3, thence along Ohio Highway 3 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Ohio Highway 151, thence along Ohio Highway 151 to its junction with Ohio Highway 212, thence along Ohio Highway 212 to its junction with Ohio Highway 164, thence along Ohio Highway 164 to its junction with Ohio Highway 39, thence along Ohio Highway 39 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Ohio Highway 39, thence along Ohio Highway 39 to the Ohio-Pennsylvania State line; 14. between points in North Dakota on and west of highways beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with North Dakota Highway 22.

Thence along North Dakota Highway 22 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Ohio on and South of highways beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with U.S. Highway 25, thence along U.S. Highway 25 to its junction with Ohio Highway 47, thence along Ohio Highway 47 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to its junction Ohio Highway 95, thence along Ohio Highway 95 to its junction with U.S. Highway 42, thence along U.S. Highway 42 to its junction with Interstate Highway 71, thence along Interstate Highway 71 to its junction with U.S. Highway 224, thence along U.S. Highway 224 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with Ohio Highway 44, thence along Ohio Highway 44 to its junction with Ohio Highway 5, thence along Ohio Highway 5 to its junction with Ohio Highway 82, thence along Ohio Highway 82 to the Ohio-Pennsylvania State line; 15. between points in Montana, on the one hand, and, on the other, points in Ohio on and south of highways beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with U.S. Highway 25, thence along U.S. Highway 25 to its junction with Ohio Highway 47, thence along Ohio Highway 47 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to its junction with U.S. Highway 305, thence along U.S. Highway 305 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Interstate Highway 71.

Thence along Interstate Highway 71 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with Ohio Highway 5, thence along Ohio Highway 5 to the Ohio-Pennsylvania State line; 16. between points in Indiana on and south of highways beginning at the Indiana-Michigan State line, thence along Indiana Highway 15 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with Indiana Highway 19, thence along Indiana Highway 19 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 35, thence along U.S. Highway 35 to its junction with Indiana Highway 10, thence along Indiana Highway 10 to the Indiana-Illinois State line, on the one hand, and, on the other, points in Montana on and west of highways beginning at the Canada-Montana line, thence along Montana Highway 232 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Montana Highway 236, thence along Montana Highway 236 to its junction with U.S. Highway 191, thence along U.S. Highway 191 to its junction with Montana Highway 3, thence along Montana Highway 3 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 310, thence along U.S. Highway 310 to the Montana-Wyoming State line; 17. between points in Montana, on the one hand, and, on the other, points in Indiana on and south of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 421.

Thence along U.S. Highway 421 to its junction with Indiana Highway 29, thence along Indiana Highway 29 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State line; 18. between points in Indiana on and south of highways beginning at the Ohio-Indiana State line, thence along U.S. Highway 27, thence along U.S. Highway 27 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State line, on the one hand, and, on the other, points in South Dakota on the west of highways beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 212 to its junction with South Dakota Highway 34, thence along South Dakota Highway 34 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 16, thence along U.S. Highway 16 to its junction with South Dakota Highway 79, thence along South Dakota Highway 79 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to the South Dakota-Nebraska State line; 19. between points in Indiana on and south of highways beginning at the Indiana-Illinois State line, thence along U.S. Highway 52 to its junction with Indiana Highway 26, thence along Indiana Highway 26 to its junction with Indiana Highway 29, thence along Indiana Highway 29 to its junction with Indiana Highway 28, thence along Indiana Highway 28 to its junction with Indiana Highway 13, thence along Indiana Highway 13 to its junction with Indiana Highway 32, thence along Indiana Highway 32 to its junction with Indiana Highway 67, thence along Indiana Highway 67 to its junction with Indiana Highway 3, thence

V 40 170 APR 10 75 XUM

along Indiana Highway 3 to its junction with Indiana Highway 38, thence along Indiana Highway 38 to its junction with Indiana Highway 35.

Thence along Indiana Highway 35 to the Indiana-Ohio State line on the one hand, and, on the other, points in South Dakota on and west of highways beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 63 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with South Dakota Highway 47, thence along South Dakota Highway 47 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to its junction with South Dakota Highway 73, thence along South Dakota Highway 73 to the South Dakota-Nebraska State line; 20. between points in South Dakota, on the one hand, and, on the other points in Indiana on the south of highways beginning at the Indiana-Illinois State line, thence along U.S. Highway 40 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 37, thence along Indiana Highway 37 to its junction with U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Kentucky State line, and, points in Pennsylvania on and south of highways beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 40 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with U.S. Highway 30.

Thence along U.S. Highway 30 to its junction with Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to its junction with Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 15, thence along U.S. Highway 15 to its junction with Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with Pennsylvania Highway 590, thence along Pennsylvania Highway 590 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New York State line; 21. between points in Indiana on and south of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to the Indiana-Illinois State line, on the one hand, and, on the other, points in North Dakota on and west of highways beginning at the North Dakota-Canada line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 23, thence along North Dakota Highway 23 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its junction with Interstate Highway 94, thence along Interstate Highway 94 to its junction with North Dakota Highway 8, thence along North Dakota Highway 8 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line; 22. between points in North Dakota, on the one hand, and, on the other, points in Indiana on and south of highways beginning at the Indiana-Illinois State line, thence along U.S. Highway 40 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 37, thence along Indiana Highway 37 to its junction with U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Kentucky State line.

(B) (1) *Commodities* which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight require the use of special equipment, except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and materials, equipment and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, and (B) (2) *Self-propelled articles*, each weighing 15,000 pounds or more, restricted to transportation on trailers; Restriction: The authority herein is restricted against the transportation of aerospace products and equipment; 1. Between points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along Louisiana Highway 7 to its junction with Louisiana Highway 15, thence along Louisiana Highway 15 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Louisiana Highway 15, thence along Louisiana Highway 15 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with the Mississippi River, thence along the Mississippi River to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to its junction with Louisiana Highway 69, thence along Louisiana Highway 69 to its junction with Louisiana Highway 70, thence along Louisiana Highway 70 to the Louisiana-Gulf of Mexico line, on the one hand, and, on the other, points in Pennsylvania on and north of highways beginning at the Pennsylvania-West Virginia State line, thence along Interstate Highway 70 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with U.S. Highway 119, thence along U.S. Highway 119 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522.

Thence along U.S. Highway 522 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Pennsylvania Highway 652, thence along Pennsylvania Highway 652 to the Pennsylvania-New York State line; (2) between points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along Louisiana Highway 15 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Gulf of Mexico line, on the one hand, and, on the other, points in Pennsylvania; 3. between points in Arkansas on and west of highways beginning at the Arkansas-Missouri State line, thence along U.S. Highway 65 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with Arkansas Highway 53, thence along Arkansas Highway 53 to its junction with Arkansas Highway 24, thence along Arkansas Highway 24 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line, on the one hand, and, on the other, points in Pennsylvania, points in Ohio on and north of highways beginning at the Ohio-West Virginia State line, thence along U.S. Highway 50 to its junction with U.S. Highway 33, thence along U.S. Highway 33 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 35, thence along U.S. Highway 35 to its junction with Ohio Highway 49.

Thence along Ohio Highway 49 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Ohio-Indiana State line; 4. between points in Arkansas on and west of highways beginning at the Arkansas-Missouri State line, thence along U.S. Highway 65 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line, on the one hand, and, on the other, points in Pennsylvania on and north of highways beginning at the Pennsylvania-Lake Erie line, thence along U.S. Highway 19 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 219, thence along U.S. Highway 219 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with U.S. Highway 322, thence along U.S. 322 to its junction with Pennsylvania Highway 283, thence along Pennsylvania

Highway 283 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Pennsylvania Highway 41, thence along Pennsylvania Highway 41 to the Pennsylvania-Delaware State line; 5. between points in Ohio, on the one hand, and, on the other, points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along Louisiana Highway 33 to its junction with Louisiana Highway 15.

Thence along Louisiana Highway 15 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Gulf of Mexico line; 6. between points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along Louisiana Highway 7 to its junction with Louisiana Highway 15, thence along Louisiana Highway 15 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Louisiana Highway 15 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with the Mississippi River, thence along the Mississippi River to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to its junction with Louisiana Highway 69, thence along Louisiana Highway 69 to its junction with Louisiana Highway 70, thence along Louisiana Highway 70 to the Louisiana-Gulf of Mexico line, on the one hand, and, on the other, points in Ohio on and north of highways beginning at the Ohio-Indiana State line, thence along U.S. Highway 6 to its junction with Ohio Highway 15, thence along Ohio Highway 15 to its junction with Ohio Highway 65, thence along Ohio Highway 65 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to its junction with U.S. Highway 224, thence along U.S. Highway 224 to its junction with U.S. Highway 250, thence along U.S. Highway 250 to its junction with Ohio Highway 39, thence along Ohio Highway 39 to the Ohio-Pennsylvania State line; 7. between points in Ohio, on the one hand, and, on the other, points in Arkansas on and west of highways beginning at the Arkansas-Missouri State line.

Thence along U.S. Highway 71 to the Arkansas-Louisiana State line; 8. between points in Indiana, on the one hand, and, on the other, points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 71 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to its junction with Louisiana Highway 82, thence along Louisiana Highway 82 to its junction with Louisiana Highway 333, thence along Louisiana Highway 333 to the Louisiana-Gulf of Mexico line; 9. between points in Indiana on and north of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 20 to the Indiana-Illinois State line, on the one hand, and, on the other, points in Louisiana on and west of highways beginning at the Gulf of Mexico-Louisiana line, thence along Louisiana Highway 56 to its junction with Louisiana Highway 24, thence along Louisiana Highway 24 to its junction with Louisiana Highway 20, thence along Louisiana Highway 20 to its junction with Louisiana Highway 18, thence along Louisiana Highway 18 to its junction with Louisiana Highway 75, thence along Louisiana Highway 75 to its junction with Louisiana Highway 73, thence along Louisiana Highway 73 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to its junction with the Mississippi River, thence along the Mississippi River to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with U.S. Highway 165.

Thence along U.S. Highway 165 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line; 10. between points in Indiana on and north of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 24 to the Indiana-Illinois State line, on the one hand, and, on the other, points in Louisiana on and west of highways beginning at the Gulf of Mexico-Louisiana line, thence along Louisiana Highway 56 to its junction with Louisiana Highway 24, thence along Louisiana Highway 24 to its junction with Louisiana Highway 20, thence along Louisiana Highway 20 to its junction with Louisiana Highway 18, thence along Louisiana Highway 18 to its junction with Louisiana Highway 75, thence along Louisiana Highway 75 to its junction with Louisiana Highway 73, thence along Louisiana Highway 73 to its junction with U.S. Highway 61, thence along U.S. Highway 61 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line; 11. between points in Indiana on and north of highways beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 136.

Thence along U.S. Highway 136 to the Indiana-Illinois State line, on the one hand, and, on the other, points in Louisiana on and west of highways beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 167 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to its junction with Louisiana Highway 82, thence along Louisiana Highway 82 to its junction with Louisiana Highway 333, thence along Louisiana Highway 333 to the Louisiana-Gulf of Mexico line; 12. between points in Indiana, on the one hand, and, on the other, points in Arkansas on and west of highways beginning at the Missouri-Arkansas State line, thence along U.S. Highway 71 to the Arkansas-Louisiana State line; 13. between points in Arkansas on and west of highways beginning at the Missouri-Arkansas State line, thence along U.S. Highway 65 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with Arkansas Highway 53, thence along Arkansas Highway 53 to its junction with Arkansas Highway 24, thence along Arkansas Highway 24 to its junction with U.S. Highway 79, thence along U.S. Highway 79 to the Arkansas-Louisiana State line, on the one hand, and, on the other, points in Indiana on and north of highways beginning at the Indiana-Illinois State line, thence along U.S. Highway 74 to the Indiana-Ohio State line; 14. between points in Arkansas on and west of highways beginning at the Missouri-Arkansas State line.

Thence along U.S. Highway 65 to its junction with Arkansas Highway 9, thence along Arkansas Highway 9 to its junction with U.S. Highway 79, thence along U.S. Highway 79 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line, on the one hand, and, on the other, points in Indiana on and north of highways beginning at the Indiana-Illinois State line, thence along Indiana Highway 28 to its junction with U.S. Highway 31, thence along U.S. Highway 31 to its junction with U.S. Highway 35, thence along U.S. Highway 35 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateways of Kansas, Illinois, Oklahoma, and Texas.

No. MC 95540 (Sub-No. E421), filed May 9, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Pittsburgh, Pa., to those points in Nevada south of a line beginning at the California-Nevada State line and extending along Nevada Highway 52 to junction Nevada Highway 16, thence along Nevada Highway 16 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Nevada-Arizona State line. The purpose of this filing is to eliminate the gateways of Richmond, Va., and Kingsport, Tenn.

No. MC 95540 (Sub-No. E736), filed May 17, 1974. Applicant: WATKINS

(10) *Store and office fixtures*, uncrated, from points in Illinois on and north of U.S. Highway 50 and on and south of Illinois Highway 17 to points in Delaware, Maryland, New Jersey, New York, Virginia, and the District of Columbia (Indianapolis, Ind.)*; (11) *New furniture* and *store and office fixtures*, crated, from points in Illinois to points in the Lower Peninsula of Michigan, Ohio, Pennsylvania, West Virginia, District of Columbia, points in Kentucky on and east of U.S. Highway 41, points in Tennessee, on and east of Tennessee Highway 13 (Indiana, except Delphi, Tell City, and Milan)*; (12) *New furniture*, crated or uncrated, and *store and office fixtures*, crated, (a) from points in Illinois on and north of a line beginning at the Ohio River and extending along Illinois Highway 13 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 3, thence along Illinois Highway 3 to Chester, Ill., to points in Georgia and Florida (points in Indiana except Milan and Delphi)*; (b) from points in Illinois on and east of a line beginning at the Ohio River and extending along Illinois Highway 130 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Wisconsin-Illinois State line, to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin (points in Indiana except Milan and Delphi)*; (13) *New furniture*, uncrated, and *new furniture* in containers when moving with uncrated shipments of the same commodities, from points in Illinois between Illinois Highway 17 on the north and a line beginning at the Kentucky-Illinois State line and extending along Illinois Highway 13 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 3, at Chester, on the south, to points in Connecticut, Delaware, Florida, Georgia, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, District of Columbia, points in Kentucky east of U.S. Highway 41 and points in Tennessee east of U.S. Highway 31 (Peru, Huntingburg, Munster, Batesville, Jasper, Richmond, Warsaw, Tell City, Evansville, and Delphi, Ind.)*;

(14) *New furniture*, uncrated, and *new furniture* in containers, when shipped with uncrated furniture, from all points in Indiana to points in Arkansas, Connecticut, Delaware, Florida, Georgia, Iowa, Kansas, Maryland, Massachusetts, Minnesota, Nebraska, New Jersey, New York, North Dakota, South Dakota, Virginia, Wisconsin, and District of Columbia. EXCEPTION: No shipments will be made on traffic from DeKalb, Lagrange, and Steuben Counties, Ind., to points in Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, or Wyoming Counties, N.Y. (Batesville, Delphi, Evansville, Huntingburg, Jasper, Munster, Peru, Richmond, Tell City, and Warsaw, Ind.)*; and (15) *New furniture, store and office fixtures*, crated, (a) from points in Kentucky on and east of U.S. Highway 41 to points in Illinois on and north of U.S. Highway 50, points in Missouri on and north of U.S. Highway 50, points in Kansas on and north of U.S. Highway 50, points in Iowa, Minneosta, Nebraska, North Dakota, South Dakota, and Wisconsin, points in Michigan on and west of U.S. Highway 23, and to points in the Upper Peninsula of Michigan (Evansville, Huntingburg, Richmond, Batesville, and Indiana)*; and (b) from points in Kentucky on and west of junction Interstate Highway 75 to points in Connecticut, Delaware, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, District of Columbia, and points in West Virginia on and north of U.S. Highway 40 (Tell City, Batesville, Ind., and Indiana)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 107295 (Sub-No. E206), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, complete, knocked down, or in sections, (1) from points in that part of Iowa located in and east of Winnebago, Hancock, Wright, Hamilton, Story, Polk, Warren, Clarke, and Decatur Counties, to points in Nevada, New Mexico, and Utah; (2) from points in that part of Iowa located in and east of Winneshiek, Fayette, Buchanan, Benton, Iowa, Keokuk, Jefferson, and Van Buren Counties, to points in Colorado and Idaho; (3) from points in that part of Iowa located in and east of Decatur, Clarke, Lucas, Moore, Mahaska, Keokuk, Iowa, Linn, Jones, and Dubuque Counties, to points in Montana and Wyoming; (4) from points in that part of Iowa located in and south of Decatur, Clarke, Lucas, Monroe, Wapello, Jefferson, Washington, Louisa, Muscatine, and Scott Counties, to points in North Dakota; (5) from points in that part of Iowa located in Scott, Muscatine, Louisa, Des Moines, and Lee Counties, to points in South Dakota; (6) from points in that part of Iowa located in and east of Allamakee, Clayton, Delaware, Jones, Cedar, Muscatine, Louisa, Des Moines, and Lee Counties, to points in Oklahoma; (7) from points in that part of Iowa located in and east of Allamakee, Clayton, Delaware, Jones, Cedar, Muscatine, Louisa, Des Moines, and Lee Counties, to points in Minnesota. The purpose of this filing is to eliminate the gateway of (1) points in Wapello County, Iowa; (2) points in Wapello County, Iowa; (3) points in Wapello County, Iowa; (4) points in Wapello County, Iowa; (5) points in Wapello County, Iowa; (6) Quincy, Ill.; (7) La Crosse, Wis.

points in that part of Kansas located in and west of Atchison, Jackson, Shawnee, Wabaunsee, Lyon, Chase, Butler and Cowley Counties and to points in Colorado, Nebraska, North Dakota, and South Dakota. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 107295 (Sub-No. E207), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fiberboard* from the plant site and warehouse facilities of the Upson Company at Bristol, Ind. to points in Arizona, New Mexico, and to points in that part of California located in and south of San Mateo, Santa Clara, Stanislaus, Mariposa, and Mono Counties, and to points in that part of Mississippi located in and west of De Soto, Tate, Lafayette, Calhoun, Webster, Choctaw, Winston, Neshoba, and Lauderdale Counties. The purpose of this filing is to eliminate the gateway of Trumann, Ark. (2) *Fiberboard*, from the plant site and warehouse facilities of the Upson Company at Bristol, Ind. to points in that part of Kansas located in and west of Atchison, Jefferson, Shawnee, Lyon, Chase, Butler, and Cowley Counties and to points in Colorado, Nebraska, and North Dakota. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 107295 (Sub-No. E208), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pre-fabricated buildngs*, complete, knocked down or in sections; (1) from points in that part of Mississippi located in and west of De Soto, Tate, Panola, Tallahatchie, Le Flore, Holmes, Madison, Rankin, Simpson, Jefferson Davis, Marion, Pearl River and Harrison Counties to points in that part of Tennessee located in and west of Robertson, Davidson, Williamson, Marshall, and Lincoln Counties, and to points in that part of Kentucky located in and west of Monroe, Metcalfe, Adair, Casey, Lincoln, Garrard, Madison, Clark, Montgomery, Menifee, Morgan, Elliott, Carter, and Boyd Counties and to points in Indiana; (2) from points in Mississippi to points in New York and Pennsylvania; (3) from points in that part of Mississippi located in and east of De Soto, Tunica, Coahoma, Bolivar, Washington, Sharkey, Yazoo, Hinds, Copicah, Lawrence, Marion, Pearl River, and Hancock Counties to points in that part of Missouri located in and north of Jackson, Lafayette, Saline, Cooper, Boone, Callaway, Montgomery, Warren, St. Charles, and St. Louis Counties. The purpose of this filing is to eliminate the gateway of (1) West Memphis, Ark., (2) points in Illinois and Ohio, (3) points in Illinois.

No. MC 107295 (Sub-No. E209), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, complete, knocked down, or in sections, (1) from points in that part of Iowa located in and east of Winnebago, Hancock, Wright, Hamilton, Story, Polk, Warren, Clarke, and Decatur Counties, to points in Nevada, New Mexico, and Utah; (2) from points in that part of Iowa located in and east of Winneshiek, Fayette, Buchanan, Benton, Iowa, Keokuk, Jefferson, and Van Buren Counties, to points in Colorado and Idaho; (3) from points in that part of Iowa located in and east of Decatur, Clarke, Lucas, Moore, Mahaska, Keokuk, Iowa, Linn, Jones, and Dubuque Counties, to points in Montana and Wyoming; (4) from points in that part of Iowa located in and south of Decatur, Clarke, Lucas, Monroe, Wapello, Jefferson, Washington, Louisa, Muscatine, and Scott Counties, to points in North Dakota; (5) from points in that part of Iowa located in Scott, Muscatine, Louisa, Des Moines, and Lee Counties, to points in South Dakota; (6) from points in that part of Iowa located in and east of Allamakee, Clayton, Delaware, Jones, Cedar, Muscatine, Louisa, Des Moines, and Lee Counties, to points in Oklahoma; (7) from points in that part of Iowa located in and east of Allamakee, Clayton, Delaware, Jones, Cedar, Muscatine, Louisa, Des Moines, and Lee Counties, to points in Minnesota. The purpose of this filing is to eliminate the gateway of (1) points in Wapello County, Iowa; (2) points in Wapello County, Iowa; (3) points in Wapello County, Iowa; (4) points in Wapello County, Iowa; (5) points in Wapello County, Iowa; (6) Quincy, Ill.; (7) La Crosse, Wis.

No. MC 107295 (Sub-No. E210), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete, knocked down, or in sections from the District of Columbia to points in Illinois, Indiana, and to points in that part of Kentucky located in and west of Clinton, Wayne, Pulaski, Rockcastle, Jackson, Estill, Powell, Menifee, Rowan, Carter, and Boyd Counties. The purpose of this filing is to eliminate the gateway of points in Ohio.

No. MC 107295 (Sub-No. E211), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete, knocked down, or in sections and *all component parts* necessary to the construction, erection, or completion of such buildings or houses, when shipped with same (1) from points in that part of Virginia located in and east of Alleghany, Botetourt, Roanoke, Franklin, and Henry Counties to points in Florida; (2) from points in that part of Virginia located in and east of Alleghany, Botetourt, Roanoke, Franklin, and Henry Counties to points in that part of Kentucky located in and west of Oldham, Shelby, Anderson, Mercer, Garrard. The purpose of this filing is to eliminate the gateway of (1) Lumberton, N.C.; (2) points in Tennessee, Rockcastle, Laurel, Knox, and Bell Counties.

No. MC 107295 (Sub-No. E212), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete, knocked down or in sections from points in that part of North Carolina located in and east of Stokes, Forsyth, Davidson, Rowan, Cabarrus, Mecklenburg, and Union Counties to points in that part of Florida located in, east, and south of Leon and Wakulla Counties. The purpose of this filing is to eliminate the gateway of Lumberton, N.C.

No. MC 107295 (Sub-No. E213), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete, knocked down, or in sections and *all component parts* necessary to the construction, erection, or completion of such buildings or houses, when shipped with same from points in West Virginia to points in that part of Florida located in, east and south of Leon and Wakulla Counties and to points in that part of South Carolina located in and east of Jasper, Colleton, Dorchester, Orangeburg, Clarendon, Sumter, Florence, Marion, and Dillon Counties. The purpose of this filing is to eliminate the gateway of Lumberton, N.C.

No. MC 107295 (Sub-No. E214), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, complete, knocked down, or in sections, (1) from points in Oklahoma to points in Alabama, Florida, Georgia, Mississippi, North Carolina, and South Carolina; (2) from points in that part of Oklahoma located in and south of Roger Mills, Custer, Blaine, Kingfisher, Logan, Lincoln, Creek, Tulsa, Wagoner, Cherokee, and Adair Counties to points in Iowa. The purpose of this filing is to

V 40170 APR 10 75 XUM

eliminate the gateway of (1) Pine Bluff, Ark., (2) points in Arkansas.

No. MC 107403 (Sub-No. E526), filed May 29, 1974. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia* and *muriatic acid*, in bulk, in tank vehicles, from Freeport, Tex., to points in Ohio (except those that are west of U.S. Highway 23 and south of U.S. Highway 50) and Michigan (except those that are west of U.S. Highway 27 and south of Interstate Highway 96). The purpose of this filing is to eliminate the gateways of Ashland, Ky., and Baton Rouge, La.

No. MC 107403 (Sub-No. E664), filed January 31, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Dry calcium chloride*, in bulk, in tank vehicles, from points in Kentucky, Indiana, and Michigan to points in Maine. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, Solvay, N.Y., and Springfield, Mass.

No. MC 107403 (Sub-No. E668), filed January 31, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry calcium chloride*, from those points in Maryland within 150 miles of Monongahela, Pa., to points in Massachusetts, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Lewistown, Pa., and Solvay, N.Y.

No. MC 107403 (Sub-No. E669), filed January 31, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry calcium chloride*, in bulk, in tank vehicles, from points in Indiana to points in Connecticut, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, and Solvay, N.Y.

No. MC 107403 (Sub-No. E670), filed January 31, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Dry calcium chloride*, in bulk, in tank vehicles, from points in Michigan to points in Connecticut, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateways of Painesville, Ohio, and Solvay, N.Y.

No. MC 107515 (Sub-No. E542), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT, CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: 1. *unfrozen meat and meat products*, in vehicles equipped with mechanical refrigeration, from Gatesville, N.C. to California, Oregon and Washington, 2. *Meats, meat products, meat by-products*, as described in Section A of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, except commodities in bulk, in vehicles equipped with mechanical refrigeration, from Goldsboro, N.C. to California, Oregon and Washington. The purpose of this filing is to eliminate the gateway of Bristol, Tenn.

No. MC 107515 (Sub-No. E543), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT, CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, other than frozen, in vehicles equipped with mechanical refrigeration, from points in that portion of Tennessee on and east of a line beginning at the Tennessee-Kentucky State line and extending along Alternate U.S. Highway 41 to junction Tennessee Highway 13 thence over Tennessee Highway 13 to the Tennessee-Alabama State line (except that portion of Davidson County formerly known as the City of Nashville, Tenn., and except McMinnville) to Los Angeles, Calif. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 107515 (Sub-No. E544), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products*, and *meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the plant site of Odom's Sausage Company at or near Madison, Tenn., to points in Washington and Oregon on or west of U.S. Highway 97, El Cerrito, Calif., points in Marin County, Calif., and points in California on, north, or west of a line beginning at San Pablo Bay at or near San Rafael and extending along U.S. Highway 101 to junction California Highway 37, thence along California Highway 37 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 97, thence along U.S. Highway 97 to the California-Oregon State line. The purpose of this filing is to eliminate the gateway of Bristol, Va.

No. MC 107515 (Sub-No. E565), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible meats*, in vehicles equipped with mechanical refrigeration, from Bristol, Va., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of points in Tennessee except Nashville.

No. MC 107515 (Sub-No. E571), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, in vehicles equipped with mechanical refrigeration, (1) from South Carolina and North Carolina to California, Oregon, and Washington; (2) from Alabama to Oregon and Washington; (3) from Alabama to that portion of California on and north of a line beginning at the California-Nevada State line and extending along California Highway 4 to junction California Highway 99, thence along California Highway 99 to junction California Highway 152, thence along California Highway 152 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 68, thence along California Highway 68 to the Pacific Ocean at or near Monterey, Calif.; and (4) from that portion of Alabama on and north of a line beginning at the Alabama-Mississippi State line and extending along U.S. Highway 82 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, to that portion of California on and north of a line beginning at the Nevada-California State line and extending along California 127 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Pacific Ocean at or near Los Angeles, Calif. The purpose of this filing is to eliminate the gateways of Atlanta, Ga., and Chattanooga, Tenn.

No. MC 107515 (Sub-No. E574), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped

with mechanical refrigeration, from points in that portion of Florida on, south, and east of a line beginning at Dead Man's Bay at Steinhatchee, Fla., and extending along Florida State Highway 51 to its junction with U.S. Highway 129, thence over U.S. Highway 129 to the Georgia-Florida State line to Denver, Colo., and points in Colorado on or north of U.S. Highway 6, and to points in Wyoming, Montana, Oregon, Washington, Idaho, and Utah. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC 107515 (Sub-No. E575), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods* in vehicles, equipped with mechanical refrigeration, from New York, N.Y., and Glassboro, Haddonfield, Vineland, Swedesboro, and Seabrook, N.J., and (2) *frozen meat*, in vehicles equipped with mechanical refrigeration from Philadelphia, Pa., to points in California, Nevada, Arizona, New Mexico, Colorado, Utah, Idaho, Montana, Wyoming, Oregon, and Washington. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC 107515 (Sub-No. E577, filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in Michigan on or east of a line beginning at Saginaw Bay and extending along Michigan Highway 247 to junction Michigan Highway 13, thence along Michigan Highway 13 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Michigan State line to points in Colorado; (2) *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in that portion of the Lower Peninsula of Michigan on or south of Michigan Highway 72 to points in Utah. The purpose of this filing is to eliminate the gateway of Columbus, Ohio.

No. MC 110817 (Sub-No. E44), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials*, and *supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines (including the stringing and picking up thereof); (2) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities to or from holes or wells; (3) *Machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmisson of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; and (4) *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, between points in Arkansas, on the one hand, and, on the other, points in New Mexico. Restriction: The operations authorized herein are restricted to the transportation of traffic originating at or destined to pipeline rights-of-way. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E45), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines (including the stringing and picking up thereof); (2) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities to or from holes or wells; (3) *Machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; and (4) *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, between points in Louisiana, on the one hand, and, on the other, points in New Mexico. Restriction: The operations authorized herein are restricted to the transportation of traffic originating at or destined to pipeline rights-of-way. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E46), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; and (4) *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, between points in Arkansas, on the one hand, and, on the other, points in Arizona. Restriction:

V 40 170 APR 10 75 XUM

The operations authorized herein are restricted to the transportation of traffic originating at or destined to pipeline rights-of-way. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E55), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells;

(3) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Kansas on and south of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 50 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Kansas Highway 19, thence along Kansas Highway 19 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Kansas Highway 96, thence along Kansas Highway 96 to junction Kansas Highway 47, thence along Kansas Highway 47 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line, thence along Illinois Highway 156 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 15, thence along Illinois Highway 15 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of any points in Oklahoma.

No. MC 110817 (Sub-No. E57), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on, south and east of a line beginning at the State line, thence along U.S. Highway 59 to junction Missouri Highway 116, thence along Missouri Highway 116 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Missouri-Iowa State line, on the one hand, and, on the other, points in that part of Colorado on and south of a line beginning at the Utah-Colorado State line, thence along U.S. Highway 50 to the Colorado-Kansas State line. The purpose of this filing is to eliminate the gateway of any points in Oklahoma.

No. MC 110817 (Sub-No. E58), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of Colorado on and south of a line beginning at the Colorado-Wyoming State line, thence along U.S. Highway 87 to junction Colorado Highway 52, thence along Colorado Highway 52 to junction Colorado Highway 6, thence along Colorado Highway 6 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Colorado-Nebraska State line. The purpose of this filing is to eliminate the gateway of any point in Oklahoma.

No. MC 110817 (Sub-No. E64), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E66), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on, south and east of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 60 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in that part of Kansas on, west and south of a line beginning at the Kansas-Nebraska State line, thence along Kansas Highway 99 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction Kansas Highway 116, thence along Kansas Highway 116 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of any point in Oklahoma.

No. MC 110817 (Sub-No. E67), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water or sewage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on and east of a line beginning at the Iowa-Missouri State line, thence along Missouri Highway 15 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 19, thence along Missouri Highway 19 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in that part of Kansas on and south of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 160 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of any point in Oklahoma.

No. MC 110817 (Sub-No. E67), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on, east and south of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 69, to junction Missouri Highway 13, thence along Missouri Highway 13 to junction Missouri Highway 2, thence along Missouri Highway 2 to the Missouri-Kansas State line, on the one hand, and, on the other, points in that part of Kansas on, south and west of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 160 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of any point in Oklahoma.

No. MC 110817 (Sub-No. E68), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on, south and east of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 60 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in that part of Kansas on, west and south of a line beginning at the Kansas-Nebraska State line, thence along Kansas Highway 99 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction Kansas Highway 116, thence along Kansas Highway 116 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of any point in Oklahoma.

No. MC 110817 (Sub-No. E70), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 75 to junction Kansas Highway 47, thence along Kansas Highway 47 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Arkansas. The

purpose of this filing is to eliminate the gateway of any point in Oklahoma or Texas.

No. MC 110817 (Sub-No. E71), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Arkansas, on the one hand, and, on the other, points in Nevada. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E72), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined pipeline rights-of-way, between points in Arkansas, on the one hand, and, on the other, points in Utah. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E73), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Arkansas, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E74), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Arkansas, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E75), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Arkansas, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateway of any points in Texas or Oklahoma.

No. MC 110817 (Sub-No. E96), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E77), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E81), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E78), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other points in Colorado. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E79), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E80), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Utah. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E81), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Louisiana, on the one hand, and, on the other, points in Nevada. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E82), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Oklahoma, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E84), filed May 19, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in New Mexico, (except points in Valencia, McKinley, San Juan, Rio Arriba, Taos, Colfax, and Union Counties), on the one hand, and, on the other, points in that part of Montana on and east of a line beginning at the International Boundary line between the United States and Canada, thence along Montana Highway 232 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Montana Highway 230, thence along to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 89, thence along U.S. Highway 89 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E85), filed May 19, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Texas 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines for the transportation of water and sewage, including the stringing and picking up of pipe, restricted to the transportation of traffic originating at or destined to pipeline rights-of-way, between points in Colfax and Union Counties, N. Mex., on the one hand, and, on the other, points in that part of Montana on and east of a line beginning at the International Boundary line between the United States and Canada, thence along Montana Highway 91 to the U.S. Highway 89, thence along U.S. Highway 89 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of any point in Texas or Oklahoma.

No. MC 110817 (Sub-No. E86), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; (3) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in Mississippi, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E87), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, tranporting: (1) *Machinery, materials, supplies*, and *equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipelines; (2) *Earth drilling machinery and equipment*, and *machinery, equipment*, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities to or from holes or wells; and (3) *Machinery, equipment, materials*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of-way, between points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along Missouri Highway 150 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction U.S. Highway 24.

Thence along U.S. Highway 24 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 41, thence along Missouri Highway 41 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 124, thence along Missouri Highway 124 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of Montana on and west of a line beginning at the United States-Canada International Boundary line, thence along U.S. Highway 91 to junction U.S. Highway 89, thence along U.S. Highway 89 to Montana Highway 200, thence along Montana Highway 200 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110988 (Sub-No. E5), (Correction), filed October 13, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: SCHNEIDER TANK LINES, INC., 200 W. Cecil St., Neenah, Wis. 54956. Applicant's representative: Neil A. Du Jardin (same as above). Authority

sought to operate as a *common carrier*, in that part of Texas bounded by a line

a *common carrier*, by motor vehicle over

to eliminate the gateway of the pipeline

No. MC 112617 (Sub-No. E115), filed

modities requiring special equipment):

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Corn products*, in bulk, in tank vehicles (except corn oil in bulk), from Dayton, Ohio, to points in Minnesota (the storage facilities of The Hubinger Co., at Elk Grove Village, Ill.)*; (7) *Chromium sulphate*, in bulk, in tank vehicles, from South Beloit, Ill., to points in Colorado, points in that part of Kentucky on and east of U.S. Highway 45, points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 40 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line, points in that part of Ohio on, south, and east of a line beginning at the Indiana-Ohio State line, thence along Ohio Highway 29 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Ohio-Michigan State line, and points in that part of Minnesota on, west, and north of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 59 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to the Minnesota-Wisconsin State line (Milwaukee, Wis. *. Restriction: The operations authorized above are restricted to the transportation of traffic originating at the plant site and warehouse facilities of the Cargill Co., Inc., at Dayton, Ohio. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct the territorial description in (7) above, and to include all the numbers in the restriction. The remainder of this letter-notice remains as previously published.

No. MC 111170 (Sub-No. E1), filed May 13, 1974. Applicant: WHEELING PIPE LINE, INC., P.O. Box 1718, El Dorado, Ark. 71730. Applicant's representative: Tom E. Moore (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products*, as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, in bulk, in tank vehicles, from points in that part of Texas bounded by a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 84 to Rush, Tex., thence along U.S. Highway 79 to Tyler, Tex., thence along U.S. Highway 271 to Mount Pleasant, Tex., thence along U.S. Highway 67 to the Texas-Arkansas State line and thence along the Texas-Louisiana State line to point of beginning to points in that part of Mississippi located on and north of U.S. Highway 80; (2) *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, except liquefied petroleum gas, natural gasoline, and those petroleum products which are also described as acids or chemicals in Appendix XV to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in that part of Texas bounded by a line beginning at the Texas-Louisiana State line and extending along U.S. Highway 84 to Rush, Tex.
